

# CITY OF BELMONT

## Mixed Business Zone

Extracted from Local Planning Scheme No. 15 gazetted 1 December 2011

Date of Publication 18/01/2019

### 1. Intention of the Mixed Business Zone

The 'Mixed Business' zone is intended to allow for the development of a mix of varied but compatible business uses such as offices, showrooms, amusement centres, eating establishments and appropriate industrial activities which do not generate nuisances detrimental to the amenity of the district or to the health, welfare and safety of residents and workforce. Uses can mix on adjacent lots of land or on the same lot and uses may mix horizontally on the same or separate lots and/or vertically in buildings. Buildings should be of a high standard of architectural design set in pleasant garden surrounds with limited vehicular access from properties to primary roads.

### 2. When is Development Approval Required?

Owners and developers require planning approval for any of the following works:

- Internal alterations where there are changes in floor areas, or the usage of areas (ie., changing a portion of existing warehouse into an office).
- Any significant external changes, or changes to portions of buildings that are visible from the street or a public place.
- Any new development, building structure or increase in floor area.
- Any change in land use (i.e., changing from a 'showroom/warehouse' to 'office'.
- Any new hardstand area, changes to access arrangements and car parking layouts.
- Any new fencing within the front setback area.

### 3. Landuses

A main objective within the 'Mixed Business' zone is to encourage high quality development. Council will not support any land uses within the 'Mixed Business zone' that have the potential to negatively impact on surrounding properties in terms of noise, emissions, traffic etc.

The types of land uses that can be considered within the 'Mixed Business' zone, is controlled by the City of Belmont Local Planning Scheme No. 15, which is a legal document. The zoning table (Attachment 1) shows whether Council has the ability to consider a specific landuse.

The symbols used in the zoning table means the following:

- 'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- 'D' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval;
- 'A' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval after giving special notice in accordance with clause 9.4 (Advertising of Applications) of the Scheme;
- 'X' means a use that is not permitted by the Scheme.

#### CITY OF BELMONT

215 Wright Street Cloverdale 6105  
(Locked Bag 379 Cloverdale 6985)

Ph (08) 9477 7222 / Fax Admin (08) 9478 1473

[belmont@belmont.wa.gov.au](mailto:belmont@belmont.wa.gov.au) / [www.belmont.wa.gov.au](http://www.belmont.wa.gov.au)

The majority of land uses listed in the zoning table have specific definitions under the Local Planning Scheme. It is also important to note that Council may advertise a proposed land use, especially if the property is located near a residential area.

#### **4. Site and Development Requirements**

The following site and development requirements shall apply within the 'Mixed Business' zone with the exception of residential development which, subject to Local Planning Scheme No. 15 subclause 5.12.6 (refer section 10 Discretion to Vary Standards of this document) shall conform with the provisions of the Residential Design Codes.

##### **(a) External Space:**

- i. The use of any space external to a building for the conduct of any business activity such as fabrication, or manufacturing, or servicing of vehicles or equipment is prohibited.
- ii. The outdoor storage of goods, materials, liquid, machinery, equipment or any other thing is prohibited, except where approved by the City pursuant to an application for development approval.

An application for outdoor storage may only be approved if the proposed development complies with all the following provisions:

- (1) Visual Amenity: Outdoor storage areas must be screened from public view, and must not be located between the street alignment(s) and the building setback line(s). Where trees are used for screening they must be mature trees otherwise non-visually permeable screens will be required; and
  - (2) Site Function: Outdoor storage shall be in a designated area and not conflict with areas used or needed for vehicle parking, loading, manoeuvring or access, landscaping, drainage or effluent disposal, and any other thing or area considered by the City to be necessary for the proper functioning of the development approved on the land; and
  - (3) Natural Environment: Outdoor storage areas must be located on an adequately paved and drained surface. If in the view of the City the things to be stored, or the proposed method of storage, pose an unacceptable risk to the natural environment, the outdoor storage shall not be permitted; and
  - (4) Health and Safety: Where appropriate an application for outdoor storage shall be accompanied by a report which addresses matters such as fire risk, impact on human health and safety, drainage, and compliance with relevant legislation. The City may require an applicant to prepare such a report, and/or a management plan to address any matter associated with the outdoor storage which in the view of the City requires ongoing management; and
  - (5) If outdoor storage involves the use of sea containers: the sea containers may only be stored at ground level; may not be stacked one on top of the other; must be screened off and behind the primary street building line.
- iii. Where outdoor storage is approved, the outdoor storage area shall be maintained in a tidy, safe and orderly condition, and in accordance with any approved management plan. *AMD 10 GG 15/01/2019*

- (b) **Lot Area and Dimensions:** The minimum lot area shall be 2,000 square metres with a minimum effective frontage of 30 metres. However, the City may support subdivision or approve development of a lot with a lesser area or a lesser effective frontage in circumstances where:
- (i) The lot existed prior to the approval of this Scheme, or
  - (ii) The City is satisfied that the proposal appropriately addresses issues relating to:
    - (1) Motor vehicle access, parking and circulation;
    - (2) Easements in gross for the creation of shared accessways;
    - (3) Rubbish disposal; and
    - (4) Building footprints and design, or
  - (iii) The Commission has approved a subdivision of the subject land which creates a lot or lots with an area or effective frontage less than those nominated in this clause.
- (c) **Lot Coverage:** Building including accessory buildings shall not cover a total of more than 60 percent of the area of any lot. The City may consider an increase to 70 percent of the area of any lot where the coverage includes a multi storey car park associated with the development which consists of a ground floor and uncovered upper deck.
- (d) **Setbacks of Buildings from Site Boundaries:** No part of any building shall be built upon that area of land between the street alignment and the building setback line drawn parallel thereto a distance of 15 metres within the site. In regard to any site having more than one street frontage, the minimum setback from the street alignment shall apply to the frontage of the site to the road or roads of higher category as determined by the City and the setback from the lesser roads shall not be less than a distance of 7.5 metres.
- The City will only permit averaging of building setbacks in those cases where it is satisfied that the functioning of any proposed use will be improved without detriment to the appearance of the development or the street scene or to the safe movement of traffic on or about the site and in no case will the City permit a part of any building to be built closer to the street than one half of an average building setback.
- (e) **Setback Areas:** No use of the area between the street alignment and building setback lines shall be permitted other than for planting or for pedestrian and vehicular circulation and vehicle parking in accordance with the provisions of this Scheme, except that an area up to 25 percent of the building setback area may be used for Trade Display purposes with the approval of the City.
- (f) **Pedestrian and Garden Areas:** No less than 3 metres of the building setback area to the primary street frontage and 1 metre to the secondary street frontage must be set aside, developed and maintained as garden space for pedestrian use only. A landscaping and reticulation plan must be submitted to the City for approval. The landscaping subsequently carried out shall be in accordance with the approved plan. The City will require as a condition of Planning Approval the reticulation and landscaping of the street verge.

## 5. Parking and Loading Requirements

Adequate off-street parking shall be provided on site in accordance with the Car Parking Requirements (refer Attachment 2) of the Scheme, together with adequate parking space for customers and visitors as required by the City. The City shall also require adequate space for parking, loading and unloading of trade vehicles to be provided on site.

The City's Local Planning Scheme No. 15 also requires the provision of bicycle parking and end of trip facilities (showers and lockers) for new development in the 'Mixed Business' zone. The requirements are contained in Attachment 3.

## **6. Crossovers & Access**

Landowners are encouraged to contact Council's Engineering Department to discuss any proposed crossovers for new development, or changes to existing crossover locations. It is also important to contact Council's Engineering Department to ascertain whether access will be affected by any local road works.

Shared vehicular cross access may be required over parcels of land to give customer and service traffic access to streets wherever access to Great Eastern Highway or other important roads is inappropriate or should be minimised. In this situation, vehicle access provision shall take the form of easements in gross granting right of carriageway for public access over a portion of private property to allow vehicle access to side roads. Where this is required, all documentation is to be prepared by the City's solicitors and costs shall be met by respective owners.

## **7. Building Facades**

The primary street frontage of all buildings must have a facade predominantly constructed of brick, concrete, glass or steel or a combination of these materials acceptable to the City. Where a proposed structure is to extend from one street frontage to another, as distinct from the double street frontage of a corner lot, there must be a full height facade to both street frontages of the above materials or similar materials acceptable to the City.

In the cases of walls fronting secondary streets, the construction must be as above to a minimum height of two metres except that in the case of a building having walls in excess of five metres to plate height the construction must be increased to half the vertical height of the wall. The City shall retain the discretion to determine which is a primary and which is a secondary street frontage.

## **8. Fencing and Walls**

It is the City's intention that in the 'Mixed Business' zone fencing facing any street frontage should be kept to a minimum to allow for an attractive and open streetscape. In special circumstances, the City may allow fencing facing a street frontage or along a secondary street frontage, provided that in the opinion of the City it is of exceptionally high quality, is visually permeable, and visually appealing.

In the 'Mixed Business' zone:

- (a) the use of cyclone link mesh fencing is prohibited for any fence other than a boundary fence; and
- (b) the use of barbed wire in any fence is prohibited.

## **9. Public Art**

Council's Local Planning Policy No. 11 requires the provision of Public Art for new developments that are valued at over \$4.5 million in certain zones, including the 'Mixed Business' zone. The public art contribution is 1% of the estimated cost of development, and may be provided in the form of public art on the relevant site, or alternatively the payment of cash-in-lieu to the City for use on public art in the public realm adjoining the site.

A copy of Local Planning Policy No. 11 is available from the City's website [www.belmont.wa.gov.au](http://www.belmont.wa.gov.au) (refer Services, Planning, Local Planning Scheme 15).

## **10. Discretion to Vary Standards**

Without affecting the generality of Local Planning Scheme No. 15 clause 5.2.3, for residential development in the 'Mixed Business' zone the City may allow a relaxation or variation of the standards and requirements applicable to the 'Mixed Business' zone if the City is satisfied that the matters referred to in items (a) and (b) conditioning the discretion in Local Planning Scheme No. 15 clause 5.5.3 are complied with.

## **11. General**

Please contact the City's Planning Department in relation to zoning and permitted uses. If further technical advice is needed, an appointment should then be made with one of City's Planning Officers.

The City's Planning Department can provide written comments on preliminary plans (that are to scale). This service is subject to payment of a fee (refer to Schedule of Planning Fees).

On receipt of the preliminary comments request and payment of the fee, a Planning Officer will carry out an assessment and will then refer the request to our internal Development Control Group (DCG) meeting for comments. DCG consists of representatives from the City's Planning, Building, Health, Business Development and Engineering Departments. Following the DCG meeting, the Planning Officer will then advise the applicant in writing of the outcome.

The aim of this service is to identify matters that may need to be addressed prior to the lodgement of a formal development application, thus providing more certainty to developers as to whether a proposal is likely to be approved or refused. It should be understood that this service is not intended to fast track the development application process.

If you have any queries in relation to the above, please contact the City's Planning Department on (08) 9477 7222.

Disclaimer: This Fact Sheet should be read in conjunction with the City's Local Planning Scheme, relevant Local Planning Policies and where applicable Western Australian Planning Commission planning bulletins and policies.

Extract of Table 2 – Car Parking Requirements  
from Local Planning Scheme No. 15

**Car Parking Requirements**

<b>Land Use/Use Class</b>	<b>Minimum Parking Provision</b>
Amusement Centre/ Betting Agency	1 space for every 10m <sup>2</sup> of NLA
Auction Mart	Parking to be at the discretion of the City
Automotive & Marine Sales Premises	1 space for every 40m <sup>2</sup> of vehicle display showroom plus 1 space per 50m <sup>2</sup> outdoor trade display.
Caretaker's Dwelling	1 space per dwelling
Child Day Care Centre	1 space for every employee plus 1 space per every 8 children allowed under maximum occupancy.
Civic Use/ Club Premises/ Night Club/ Public Amusement/ Public Worship/ Reception Centre	1 space for every 4 persons whom the building is designed to accommodate.
Community Home	1 space per employee or staff member plus 1 space for every 3 beds
Community Purposes	Parking to be negotiated with the City
Consulting Rooms & Consulting Rooms - Group	4 spaces for every practitioner
Convenience Store	6 spaces per 100m <sup>2</sup> of GLA for any shop plus 1 space per petrol pump
Corner Shop/ Home Store	5 spaces in addition to residential requirement
Educational Establishment	<p>Education Establishment (Private Primary School) 1 space per classroom.</p> <p>Education Establishment (Private Secondary School) 1 space per classroom, plus 1 space for every 25 students the school is designed to accommodate for the final year of secondary education.</p> <p>Education Establishment (Private Tertiary) 1 space for every 6 students the building is designed to accommodate, plus 1 for each faculty staff member, or employee, plus additional requirements for auditoriums or stadiums.</p>

Land Use/Use Class	Minimum Parking Provision
	Education Establishment (Other) 1 space for every 4 students the establishment is designed to accommodate.
Family Day Care	A paved pick-up area in addition to residential requirements
Fuel Depot/ Transport Depot	1 space per 75m <sup>2</sup> GFA or 1 space per employee whichever is the greater
Funeral Parlour	6 spaces plus 1 space for every 4 persons where a chapel is included
Health Centre	4 spaces for every practitioner plus 1 bay per 20m <sup>2</sup> GFA available to the public
Health Studio <i>AMD 1 GG 15/12/2015</i>	1 space for every 20m <sup>2</sup> of NLA
Hospital	1 space for every 4 hospital beds plus 1 space for each staff member on duty
Hotel/Motel	1 space for every 2m <sup>2</sup> of bar and lounge floor area. (1 space for every 4m <sup>2</sup> of seating only areas) plus 1 space for every bedroom. Where other facilities are provided parking is to be negotiated with the City.
Industry - Cottage	1 space per employee in addition to residential requirements
Industry - Light	1 space for every 50m <sup>2</sup> of open space used for industrial purposes, plus 1 space for every 50m <sup>2</sup> of GFA; or 1 space for each employee, whichever is the greater.
Industry - Service	1 space for every 50m <sup>2</sup> of open space used for industrial purposes, plus 1 space for every 50m <sup>2</sup> of GFA; or 1 space for each employee, whichever is the greater.
Industry/Workshop/Factory	1 space for every 50m <sup>2</sup> of open space used for industrial purposes, plus 1 space for every 50m <sup>2</sup> of GFA; or 1 space for each employee, whichever is the greater.
Laundromat	1 per 20m <sup>2</sup> of NLA
Lunch Bar	6 spaces for every 100m <sup>2</sup> of NLA
Nursing Homes/Aged Persons Hostels	1 space for every 4 beds 1 space for every employee
Office	1 space for every 30m <sup>2</sup> of NLA or 1 space for each employee, whichever is greater

Land Use/Use Class	Minimum Parking Provision
Plant Nursery	1 space for every 50m <sup>2</sup> of display and sales area
Restaurant	1 space for every 4 seats
Restricted Premises	6 spaces for every 100m <sup>2</sup> NLA
Service Station	1 space for every service bay plus 1 space for every employee (bowser bays shall be excluded from any calculation of parking bays)
Shop	6 spaces per 100m <sup>2</sup> of NLA
Showroom	1 space for every 40m <sup>2</sup> of NLA
Studio	1 space per 40m <sup>2</sup> display area plus 1 bay per employee
Take Away/ Fast Food Outlet	6 spaces for every 100m <sup>2</sup> of NLA plus 1 space for every 4 seated customers (car queuing areas <u>may</u> be permitted to be calculated as parking spaces)
Tavern	1 space for every 2m <sup>2</sup> of bar and lounge floor area (1 space for every 4m <sup>2</sup> of seating only areas)
Vet Consulting Rooms	4 spaces for every practitioner
Vet Hospital	2 spaces for every employee
Video Store	6 spaces for every 100 m <sup>2</sup> NLA
Warehouse	1 space for every 100m <sup>2</sup> of GFA plus 1 space for every 100m <sup>2</sup> of open space used for warehousing purpose.
Warehouse Retail Outlet	6 spaces per 100m <sup>2</sup> of Gross Floor Area (GFA) plus 1 space per 100m <sup>2</sup> of open space used for warehousing (storage) purpose.
Any other use	To be determined by the City

**5.17 Bicycle Parking**

- 5.17.1 In the case of Uses listed in Table 3, having regard to the likely demand, the City may require bicycle parking bays to be provided at the ratio specified in that table in addition to the number of car parking bays to be provided.
- 5.17.2 When considering an application for planning approval for development in respect of which bicycle parking bays are required to be provided under the Scheme, the City shall have regard to, and may impose conditions as to the design and location of such bays.
- 5.17.3 Where bicycle parking spaces are required to be provided for the use of staff, shower and changing facilities shall be provided, the design and location of such facilities being to the satisfaction of the City, and the number of such facilities being at the following ratios:
- (a) number of secure well ventilated equipment lockers 1 per cycle parking space.
  - (b) number of showers: 1 male and 1 female shower in separate change rooms per 10 cycle parking spaces, 2 male and 2 female showers in separate change rooms 10-30 cycle parking spaces, 3 male and 3 female showers in separate change room 30+ cycle parking spaces.
