Green Kids Care

Date of Publication : 15/12/2014

In a world where the word “ENVIRONMENT” has become part of our everyday language, our kids seem to have an excellent understanding of environmental issues. Children are being well educated at such young ages as to the importance of our unique natural environment and presented with ways to easily help protect and restore it.

There are many environmental initiatives kids can get involved in, both at school and in the home. Some of these are listed below:

- **Water Corporation’s Waterwise Schools Program** (www.watercorporation.com.au)
- **City of Belmont TravelSmart to School Program, Foreshore Revegetation Work & Planting Days** (Ph.9477 7257)
- **EMRC’s R-Gang waste management initiative** (www.emrc.org.au)
- **Swan River Trust’s School Education Program** (www.swanrivertrust.wa.gov.au)
- **Programmes offered by the South East Regional Centre for Urban Landcare** (www.sercul.org.au)
- **Young Reinventor of the Year** ([www.switchyour thinking.com](http://www.switchyourthinking.com))
- **Worm Farms & Compost Bins**
- **Plus many more**

For more information on programs available to kids wanting to get involved in environmental enhancement, contact Local or State Government Departments throughout Western Australia.

Cloverdale Primary School at the “Integrated Education Day” organised by SERCUL
