

City of Belmont House Numbers on Kerbs

Date of Publication: 22/02/18

A house number painted on the kerb is a visual identification from the road for emergency services and visitors.

General Comment

Council supports the clear identification of house numbers on kerbs for ease of access by emergency vehicles and visitors. Refer to Council Policy BEXB43.

There is no obligation on property owners to have their house number painted on the kerb.

Approval Process

No approval is required from Council to have a house number painted on the kerb however a minimum standard is required and therefore house numbers painted on kerbs within the City of Belmont will be required to meet the specifications below.

It is the property owner's responsibility to engage appropriately qualified suppliers to undertake the work and ensure that the City's specifications are met.

Specifications

1. House numbers painted on kerbs shall be 110mm high and represent the current version of AS 1744
2. House numbers shall be painted mid-way on the kerb and located 1.0 metre from the transition of the crossover, within the property frontage. They are to have a matt olive green background.

The house numbers shall be painted in reflective yellow paint with glass beads applied whilst paint is wet for optimum adherence.

3. The background shall extend 30mm clear on the side and 10mm on top and bottom of all alpha –numeric characters.
4. See the reverse of this Fact Sheet for a sample of the required format for the numbering.

Maintenance Responsibility

Council accepts no responsibility for the quality of workmanship or the maintenance of house numbers painted on kerbs.

However, where works undertaken by City require the removal/replacement of kerbs, the City will (prior to works commencing) record those properties with an existing house number painted on the kerb and reinstate that number once the works have been completed and the kerb replaced.
