Bulk bins

To order a bulk bin or on demand collection, visit belmont.wa.gov.au or call the City of Belmont's waste contractor, Veolia, on 9350 7182. Veolia will take your bulk bin order and provide a reference number over the phone. Waiting times can vary according to demand.

Green or blue bulk bins

Most residential properties (except for medium and high density residential) within the City are entitled to four free bulk bins each financial year. You can choose between blue bins for household material and green bins for garden waste.

Using the green bins for green waste such as branches, fronds, prunings and lawn clippings (not turf or sods) is a great way to reduce landfill as your green waste will be made into mulch.

- **Weekday blue bulk bins**, are usually delivered on either Monday or Tuesday and will remain on site for three evenings and two days.
- **Weekend blue bulk bins**, are usually delivered on a Thursday or Friday and will remain onsite over the weekend.
- **Green bulk bins** will be delivered on a Wednesday and removed the following Wednesday.

Bulk bin tips:

- Leave the bin where it has been placed by the Veolia driver.
- Keep the area around the bin clear so the Veolia driver can easily remove the bin.
- If a bin needs to be emptied by the City due to misuse, you will be responsible for costs incurred.
- Do not fill the bulk bin over the top of the bin edge.
- Do not have contents sticking out at angles above the top of the bin as this can interfere with the truck's lifting equipment.

If you need to dispose of much bulkier items, you may be eligible to exchange one bulk bin entitlement for a waste disposal voucher to the Ranford Road Resource Recovery and Waste Transfer Station (6X4 trailer). The location of the facility and other details are shown on the waste disposal voucher.

Waste disposal vouchers can be collected at the City of Belmont's Civic Centre at 215 Wright Street, Cloverdale. Please note, waste disposal vouchers cannot be used for asbestos, mattresses or tyres.

Household hazardous waste

There are many household waste and recyclable items that cannot be placed in either your General Waste Bin or your Recycling Bin. These products are classed as Household Hazardous Waste (HHW). HHW items including aerosol cans and batteries cause fires in collection vehicles and material sorting facilities, so must not be placed in either of your kerbside bins.

HHW can be safely disposed of for free at the Ranford Road Resource Recovery and Waste Transfer Station.

- Up to 20kg/L per material type
- No commercial quantities

For a full list of Household Hazardous Waste and disposal options, see the Waste and Recycling Option A-Z page of this Guide.

For more information visit wastenet.net.au or call 1300 422 664.
