Minutes of the Ordinary Council Meeting held via Microsoft Teams on 26 April 2022 commencing at 7.03pm.

Minutes

Present

Cr P Marks, Mayor (Presiding Member)	East Ward
Cr R Rossi, JP (Deputy Mayor)	West Ward
Cr M Bass	East Ward
Cr B Ryan	East Ward
Cr N Carter	South Ward
Cr J Davis	South Ward
Cr S Wolff	South Ward
Cr G Sekulla, JP	West Ward
Cr D Sessions	West Ward

In attendance

Mr J Christie	Chief Executive Officer
Ms J Gillan	Director Development and Communities
Ms M Reid	Director Infrastructure Services
Mr W Loh (dep 7.45pm)	Manager Planning Services
Mr D Boylan	Manager City Facilities and Property
Ms M Lymon	Acting Manager Governance
Ms S Bryan	Coordinator Property
Ms D Morton	Acting Coordinator Marketing and Communications
Ms J Cherry-Murphy	Senior Governance Officer
Ms H Mark	Governance Officer

Members of the gallery

There were 15 members of the public observing and two press representatives.

I Official Opening

7.03pm The Presiding Member welcomed all those in attendance and declared the meeting open.

The Presiding Member read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Noongar Whadjuk people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging.

I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

The Presiding Member invited Cr Sekulla to read aloud the Affirmation of Civic Duty and Responsibility on behalf of Councillors and Officers. Cr Sekulla read aloud the affirmation.

Affirmation of Civic Duty and Responsibility

I make this affirmation in good faith and declare that I will duly, faithfully, honestly, and with integrity fulfil the duties of my office for all the people in the City of Belmont according to the best of my judgement and ability.

I will observe the City's Code of Conduct and Standing Orders to ensure efficient, effective and orderly decision making within this forum.

2 Apologies and leave of absence

Ms M Bell (apology)

Director Corporate and Governance

3 Declarations of interest that might cause a conflict

3.1 Financial Interests

Nil.

3.2 Disclosure of interest that may affect impartiality

Name	Item No and Title	Nature of Interest (and extent, where appropriate)
Cr Rossi	Item 12.2 Community Leasing - Belmont Sports and Recreation Club and Belmont City Bowling Club	Cr Rossi was a social member of the BSRC until January 2022 and has given prizes to the BCBC in the past.
Cr Davis	Item 12.2 Community Leasing - Belmont Sports and Recreation Club and Belmont City Bowling Club	Cr Davis is a social member of the Belmont Sports and Recreation Club.
Cr Carter	Item 12.2 Community Leasing - Belmont Sports and Recreation Club and Belmont City Bowling Club	Cr Carter was a social member of the BSRC until January 2022.
Cr Marks	Item 12.2 Community Leasing - Belmont Sports and Recreation Club and Belmont City Bowling Club	Cr Marks is a former patron of the Bowling Club.
Cr Sekulla	Item 12.2 Community Leasing - Belmont Sports and Recreation Club and Belmont City Bowling Club	Cr Sekulla was previously a member of the BSRC.

4 Announcements by the Presiding Member (without discussion) and declarations by Members

4.1 Announcements

Nil.

4.2 Disclaimer

7.07pm The Presiding Member drew the public gallery's attention to the Disclaimer.

The Presiding Member advised the following:

'I wish to draw attention to the Disclaimer Notice contained within the Agenda document and advise members of the public that any decisions made at the meeting tonight can be revoked, pursuant to the Local Government Act 1995.

Therefore members of the public should not rely on any decisions until formal notification in writing by Council has been received.'

4.3 Declarations by Members who have not given due considerations to all matters contained in the business papers presently before the meeting

Nil.

5 Public question time

5.1 Responses to questions taken on notice

The following questions were taken on notice at the 22 March 2022 Ordinary Council Meeting. Ms Hollands was provided with a response on 12 April 2022. The response from the City is recorded accordingly:

Question 1

- a) At the end of September 2021, how many staff on any one given day worked in any of the City of Belmont facilities including library, museum, civic centre and the operations centre to name some of the properties?

Response

The City does not maintain records of the movement of staff working within and between City facilities on a daily basis. To undertake a review and collect such information for the purpose of answering the question would impose an unreasonable resource impost on the City and as such will not be undertaken.

- b) What staffing numbers applied to these same facilities as of last Friday? I am not asking for working from home numbers, I am specifically asking for those that are working in the City facilities.

Response

Refer to the response to Question 1a.

Question 3

- a) There have been a number of events cancelled at the moment with the covid excuse. How many events have been or are likely to be cancelled and how much will the cost saving be to the ratepayer and what will this saving be directed to in future?

Response

The City will continue to monitor the Global Pandemic and the Directions of the State Government and take all necessary action to protect staff and the community. The City will continue to assess the provision of events in accordance with State Government Directions and risk mitigation. Any savings as a result of the cancellation of events and others savings, will be identified as part of the calculation of the year-end surplus and Council will determine the appropriate allocation of surplus funds as part of the 2022-2023 annual budget process.

- b) In addition to the savings on events, what other savings will be made as a result of covid and how much will the savings be? Please include the Councillor meal allowance, drinks and the food we have previously heard is passed out to volunteers.

Response

Refer to the response to Question 3a.

5.2 Questions from members of the public

7.08pm The Presiding Member drew the public gallery's attention to the rules of Public Question Time as written in the Public Question Time Form. In accordance with rule (I), the Mayor advised that he had registered two members of the public who had given prior notice to ask questions.

5.2.1 Ms S Carter, Ascot

At the Ordinary Council Meeting of 22 March 2022, I asked a question about an IT breach, more specifically, non-compliance with IT procedures. As my question did not specifically refer to the IT non-compliance contained within the Auditor General's covering letter to the Financials within the Annual Report 2021, my question was not answered or taken on notice.

While I subsequently did receive correspondence from the Chief Executive Officer, I ask that the response to me be recorded within these Minutes for the public record as my concerns are about protection of privacy of residents and ratepayers and Council's adopted use of CCTV data analytics software by the City of Belmont.

1. Could the CEO please provide his response to me at this meeting, or at the least table a copy of his reply to me with the April OCM Minutes?

Response

The Chief Executive Officer stated the question would be taken on notice.

Item 12.1 Funding Commitment Metronet – DA6 - Southern Main Drain – hybrid urban stream vs living stream. Executive Role of Council, no consultation.

We all know that what happens upstream affects downstream. The stream called the Southern Main Drain is identified in Item 12.1. This stream runs from Kalamunda Hills and discharges into the Swan River Foreshore between the Tonkin Highway and Garvey Park. It is clear from this item the City wants a hybrid urban stream but the Water Corporation oppose this and support a living stream.

2. What is a hybrid urban stream – can it be better described?

Response

The Chief Executive Officer stated the proposed hybrid urban stream for Development Area 6 is a hybrid of:

- **A piped section through public open space 3 (which is adjacent to the Boulder Avenue, First Street and Central Avenue street block);**
- **A terraced living stream in an urban setting with tiered drainage channels through public open space 1 and 2 (generally bound by Boulder Avenue, First Street and Kanowna Avenue).**

3. Has there been a 'complex' environmental assessment on the wetlands downstream assessing the proposed changes to the stream by the City of Belmont or Metronet? If no, when is this likely to happen?

Response

The Chief Executive Officer stated there is no requirement for a 'complex' environmental assessment to be undertaken in support of the draft Activity Centre Plan. However, detailed design work and modelling will be undertaken in support of the proposed Southern Main Drain transformation. This work can only occur once the concept has been supported and approved by the relevant State agencies.

4. Is the City confident when it hands over the lead of this project, that the State Government will properly consider the environmental impact and undertake public consultation?

Response

The Chief Executive Officer stated it is expected that the State Government would consider the environmental impact as required by relevant legislation. The City is committed to working collaboratively with the State Government to facilitate community engagement in progressing the planning framework for the precinct.

5.2.2 Ms Hollands on behalf of Belmont Resident and Ratepayer Action Group (BRRAG)

1. Opposite the Epsom Avenue shops there is a carpark with approximately 26 bays. Is this a City of Belmont carpark and if so how much did it cost the ratepayer to build and who was it intended to be used by for example additional car bays for visitors to the shops or for residents to park and ride?

Response

The Chief Executive Officer stated this carpark is under the care and control of the City. From aerial photography, the car park on the north/east side of Epsom Avenue between Edwards Crescent appears to have been constructed as far back as 1974

with formal markings evident from 1981. Costs at that time are unknown. The intent, while many years ago, would have been to provide additional parking for the shopping precinct, owners, staff and customers at that time and into the future. Parking is currently unrestricted and available to anyone.

2. There is a training centre next door to the shopping area. Did a planning application come before the City of Belmont and if so was the application for a training centre and if so how many carparks were required?

Response

The Chief Executive Officer stated the question would be taken on notice.

3. A couple of years ago a resident tried to get a TPO on a tree in his backyard. Council was going to do a policy for TPO's and nothing has been forthcoming. When can we expect to see this policy before council? Has council considered looking at the tree policies of other local governments that do it better than us such as Victoria Park to see how we can increase our tree canopy since they manage it?

Response

The Chief Executive Officer stated a draft Policy has been developed. Several Local Government tree policies were reviewed and considered in developing the Policy. The Policy is currently being reviewed internally; it is anticipated that the Policy will be presented to Council for consideration in mid-late 2022.

4. Great Eastern Hwy between Redcliffe Bridge and Belgravia Street is particularly lacking in trees and looks quite hideous. Has Main Roads been contacted by the City of Belmont to plant trees in this area and if so what was their response? Is the City able to do it even though it is up to Main Roads?

Response

The Chief Executive Officer stated the City has been engaging with Main Roads WA on an ongoing basis regarding streetscapes that fall under their responsibility within the City, including Leach Hwy, Great Eastern Hwy and Tonkin Hwy. The City awaits receipt of a landscaping design from Tonkin Gap Alliance for the Tonkin Hwy/Great Eastern Hwy area. Upon receipt of this design, the City will have a better understanding of the extent of landscaping planned for this area. It is relevant to note that the median width on Great Eastern Hwy does not comply with the guidelines issued by Mains Roads WA in relation to the minimum buffer required for planting vegetation with a trunk greater than 100mm in diameter. Based on the road designation and infrastructure included within the median, the City would not recommend taking over planting and maintenance of this location.

5. Around a year ago the CEO agreed to do a policy for complaints between residents with WA Ombudsman as a result of a badly handled complaint. To my knowledge this has not been done so when can it be expected?

Response

The Chief Executive Officer stated the commitment made to the Ombudsman was to review the process for dealing with complaints of that nature. The City implemented a process in 2021 and is currently developing policies for management and investigation of complaints.

6. When are we likely to see the gratuity policy amended to reflect the requirement of the local government regulations? Previously we were told it was not done or was in the process of being done.

Response

The City's Gratuity Payments and Gifts to Employees Policy is consistent with the requirements of the Local Government Act, the Local Government Regulations and the City's Industrial Agreements. The Policy is amended as required by the Local Government Act, the Local Government Regulations and the Industrial Agreements.

5.2.3 Ms L Hollands, Redcliffe

1. If an agreement is reached tonight with respect to the matter of the BCBC and BSRC particularly with respect to the greens will the BCBC be guaranteed first preference for use for Pennants and Club Days including Championships?

Response

The Chief Executive Officer stated yes, the BCBC will be given priority over the booking of the greens in line with City policy for all seasonal hirers. After their booking requirements have been addressed the City will open the booking of the greens up to any other interested prospective hirer.

2. How much has it cost to date for lawyers, conciliators, consultants and any other external party that has tried to get an outcome?

Response

The Chief Executive Officer stated to date, the total is \$14,250.

3. With an increasing likelihood that State government will be removing most restrictions before the next council meeting, will the City of Belmont be opening up meetings to residents to attend in person and will all restriction be removed such as proof of vaccination and mask wearing in the event both are gone at a State level? If not why not?

Response

The Chief Executive Officer stated a similar question was asked at the Council Meeting on 22 March 2022 by Ms Hollands and the City's position remains unchanged. As the State Government releases information the City will act accordingly in regard to the decreasing of restrictions. However, given the recent announcement by the State Government today, this will be considered at the Information Forum on 3 May 2022.

4. Does that mean the Council may not comply with State Government directions?

Response

The Presiding Member stated it is a decision of Council who will make the decision on 3 May.

5. The public could then still be facing being locked out and the City could still have all these rules that are not State Government rules?

Response

The Chief Executive Officer stated the City will be discussing this with Councillors on 3 May and a decision will be made shortly after as to whether or not the current restrictions will remain in place. It would be premature to anticipate what the decision on 3 May will be. An announcement will be made shortly after the decision is made.

6. Why isn't the City following State Government rules?

Response

The Chief Executive Officer stated the City is fully compliant with State Government directions.

7. Shopping trolleys are still causing a major headache around Belmont. A new policy more recently was introduced with tougher rules for shop keepers. Has anyone been fined as a result of shopping trolley and if so how much revenue has it raised?

Response

The Chief Executive Officer stated on 27 October 2020, the City's new Consolidated Local Law 2020 was approved. The new local law (not a policy) resulted in stricter requirements pertaining to the management of abandoned shopping trolleys.

In the financial year 2021-2022 to date, the City has impounded 91 trolleys and issued 87 infringements (\$17,400). The shop owner of four abandoned trolleys could not be identified and no infringement could be issued.

7.26pm As there were no further questions, the Presiding Member declared Public Question Time closed.

6 Confirmation of Minutes/receipt of Matrix

6.1 Ordinary Council Meeting held 22 March 2022

Officer Recommendation

Davis moved, Wolff seconded

That the Minutes of the Ordinary Council Meeting held on 22 March 2022 as printed and circulated to all Councillors, be confirmed as a true and accurate record.

Carried Unanimously 9 votes to 0

6.2 Matrix for the Agenda Briefing Forum held 19 April 2022

Officer Recommendation

Sessions moved, Ryan seconded

That the Matrix of the Agenda Briefing Forum held on 19 April 2022, as printed and circulated to all Councillors, be received and noted.

Carried Unanimously 9 votes to 0

7 Questions by Members on which due notice has been given (without discussion)

Council role

- Advocacy** When Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council eg adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting local laws, local planning schemes and policies.
- Review** When Council reviews decisions made by Officers.
- Quasi-Judicial** When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

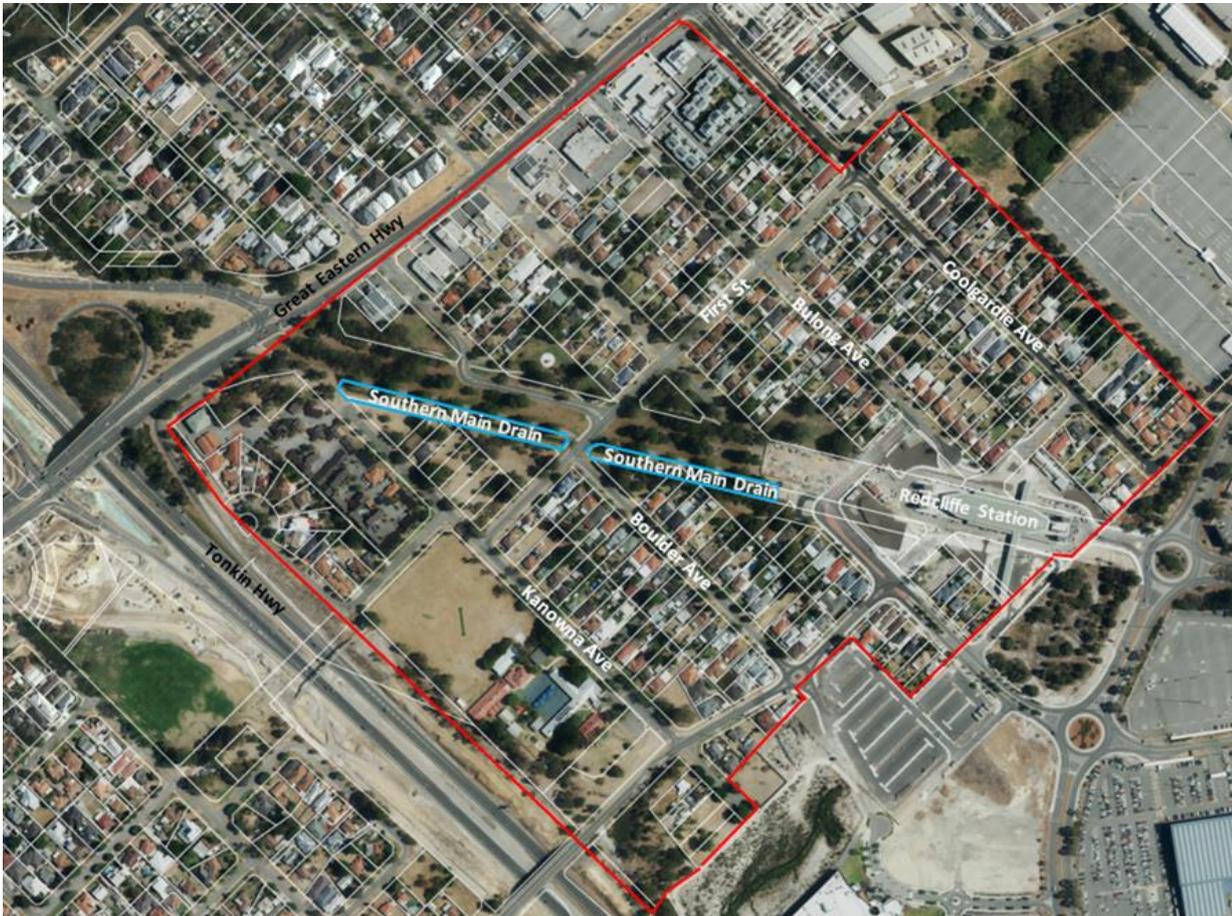

For Council to consider a funding offer of \$4.38 million from Metronet for the delivery of infrastructure within the Development Area 6 (DA6) precinct, its implications for the precinct, and the likely commitments and obligations on the City's part.

Summary and key issues

- The City of Belmont has prepared the draft Redcliffe Station Precinct Activity Centre Plan to guide development within the DA6 precinct.
- This Plan identifies the need for infrastructure modifications, to support redevelopment within the precinct and the operation of the Metronet Redcliffe Station. The modifications relate to the Water Corporation's Southern Main Drain, roads and services and the delivery of public open space. Except for the Southern Main Drain, these works are proposed to be funded through a Development Contribution Plan.
- The State Government is proposing to provide up to \$4.38m towards various infrastructure upgrades within the DA6 precinct, to improve amenity.
- It is expected that the City progresses the planning framework and prioritises delivery of certain infrastructure items with the funding.
- There are concerns which are likely to prevent the City from delivering the expected outcomes, including:
 - The expectation that the City should fund regional infrastructure works – i.e., conversion of the Southern Main Drain to a hybrid urban stream.
 - The inability to gain support from the Water Corporation for the proposed hybrid urban stream concept.
 - The expectation that the City takes on responsibility for ongoing maintenance (mowing, irrigation and revegetation of water sensitive urban design elements) for land parcels earmarked as future state development sites.
- To address some of these concerns, Council has the option of requesting Metronet to reallocate funding towards upgrading the Southern Main Drain. Notwithstanding this, clear and formal commitments are required from the relevant State Government agencies to provide assurance that the City's significant financial commitment to the project will be met with the agreed actions by the State agencies.
- Given the absence of these commitments from the relevant State Government agencies at this point, as well as the complexities in establishing such an agreement, it is recommended that Council pursue the further alternative of requesting that Development WA takes responsibility for progressing the planning framework for the precinct.

Location

The DA6 precinct encompasses land bound by Great Eastern Highway (GEH), Coolgardie Avenue, Redcliffe Road, Perth Airport and Tonkin Highway, Redcliffe (refer to Figure 1).

Figure

1: Development Area 6 Precinct

The precinct contains the Metronet Redcliffe Station and the Southern Main Drain, which is located along the former Brearley Avenue reserve, and several land parcels which are currently reserved Parks and Recreation with portions envisaged as future State development sites.

Consultation

As this relates to an executive role of Council, there has been no community consultation undertaken on this matter.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 1: Liveable Belmont

Strategy: 1.2 Plan and deliver vibrant, attractive, safe and economically sustainable activity centres

Strategy: 1.3 Ensure activity centres have a thriving economy

Strategy: 1.4 Attract public and private investment and businesses to our City and support the retention, growth and prosperity of our local businesses

Goal 2: Connected Belmont

Strategy: 2.2 Make our City more enjoyable, connected and safe for walking and cycling

Strategy: 2.4 Promote alternative forms of transport

Goal 3: Natural Belmont

Strategy: 3.4 Provide green spaces for recreation, relaxation and enjoyment

Goal 5: Responsible Belmont

Strategy: 5.4 Advocate and provide for affordable and diverse housing choices

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations

Strategy: 5.7 Engage in strategic planning and implement innovative solutions to manage growth in our City

Policy implications

Local Planning Policy No. 14 – Development Area 6 Vision

Local Planning Policy No. 14 (LPP 14) was adopted by Council on 23 February 2016 and provides a statutory basis for implementing the DA6 Vision Plan. The Policy requires any Structure Plan prepared for the precinct to have regard to the Vision Plan. In summary, the Vision Plan for DA6 provides:

- The identification of the future Redcliffe Train Station in the eastern portion of the precinct.
- The creation of a linear public open space area spanning between GEH and the future Redcliffe Station, with the existing Southern Main Drain being redeveloped into a living stream.
- The redevelopment of the existing residential neighbourhood, with a mix of three, six, eight and 13 storey buildings, with higher intensity mixed use development being focused around Redcliffe Train Station and properties fronting GEH.

- Modifications to the internal road networks, including:
 - The closure of Brearley Avenue.
 - Connecting Bulong Avenue and Second Street, on the northern side of the train station.
 - Connecting Central Avenue across the former Brearley Avenue road reserve.
 - Connecting Boulder Avenue and Kanowna Avenue East across the former Brearley Avenue road reserve.

Statutory environment

Strategic Planning Framework

Perth and Peel @ 3.5 Million

The State strategic planning framework documented under the WAPC 'Perth and Peel @ 3.5 million' guides the planning direction of the City. It recognises that a 'business-as-usual' approach to planning will not adequately accommodate Perth's growth and is likely to result in significant detriment to the liveability of the Perth metropolitan area. It is also likely to put a strain on finances, resources and the environment. There is a directive from the State Government to plan areas in such a way that would:

- Promote a more energy efficient and consolidated urban form.
- Reduce the overall need to travel.
- Support the use of public transport, cycling and walking for access to services, facilities and employment.

It is widely accepted that higher residential densities and mixed use developments within walkable catchments of activity centres and high frequency transit nodes have the potential to reduce car dependence, increase accessibility for those without access to private cars and therefore reduce road congestion and infrastructure demand. It also provides for housing diversity and opportunities for more affordable living within vibrant areas that are well connected with services, employment and public transport.

Perth and Peel @ 3.5 million identifies the Redcliffe Station precinct as forming part of the wider Perth Airport activity centre. Activity centres are intended as hubs that attract people for a variety of activities and would mainly consist of a concentration of commercial uses with a varying proposition of other uses such as residential, or in the case of Perth Airport, aviation services. Ultimately, the residential area surrounding the future Redcliffe Station should be planned to accommodate transit-oriented development and make an attractive place to live and work.

Draft Redcliffe Station Precinct Activity Centre Plan

The draft Redcliffe Station Precinct Activity Centre Plan has been prepared to coordinate future redevelopment of the Redcliffe Station precinct. More specifically, it provides for:

- Mixed commercial and residential development immediately surrounding Redcliffe Train Station and abutting GEH and residential development throughout the remainder of the precinct.
- Built form controls premised on precinct areas, including minimum site area requirements, plot ratio, minimum and maximum building height, street setbacks and car parking requirements.
- A central area of public open space in the former Brearley Avenue road reserve and the realignment of the Southern Main Drain.
- The identification of a road hierarchy and movement network for vehicles, pedestrians and cyclists, as well as the consideration of street design and traffic management and safety measures.
- Strategies for the management and treatment of stormwater runoff within the precinct.
- The identification of infrastructure and servicing requirements required for the redevelopment of the precinct.
- Infrastructure funding and delivery measures, including consideration of staging and implementation.

Statutory Planning Framework

Amendment No. 15 to Local Planning Scheme No. 15

Amendment No. 15 to Local Planning Scheme No. 15 (LPS 15) proposes to:

- Introduce the 'Urban Development' zone and apply it to the Redcliffe Station precinct to serve as an underlying zoning that facilitates the implementation of the Activity Centre Plan (ACP).
- Establish a Development Contribution Area (DCA) over the Redcliffe Station precinct and an associated Development Contribution Plan to serve as a mechanism for sharing common costs associated with delivering infrastructure to the precinct.
- Update the boundaries of the DA6 precinct to accord with established road alignments within the Perth Airport estate.
- Introduce new provisions applicable to the DA6 precinct that provide for the implementation of the ACP and establish expectations for the future planning of land within Perth Airport estate.

State Planning Policy 3.6 – Development Contributions for Infrastructure

State Planning Policy 3.6 – Development Contributions for Infrastructure (SPP 3.6) sets out the principles and considerations that apply to development contributions for the provision of infrastructure in new and established urban areas, as well as the form, content and process to be followed. The need for the infrastructure included in a DCP must be clearly demonstrated (need) and the connection between the development and the demand created should be clearly established (nexus).

A Development Contribution Plan operates by requiring landowners to make a financial contribution towards infrastructure when undertaking subdivision and/or development, with the funds collected being expended in accordance with an adopted staging plan.

Redcliffe Station Precinct Development Contribution Plan

On 10 December 2019, Council resolved to support the preparation of a Development Contribution Plan to provide for the sharing of infrastructure costs amongst developing landowners within the precinct, and to facilitate the implementation of the ACP.

The redevelopment of Redcliffe Station precinct requires significant investment in infrastructure and ongoing administration to support both new development in the area and the operation of the future Redcliffe Train Station. Table 1 below outlines the infrastructure and administration items proposed for insertion in the DCP, their associated cost estimate and the rationale for their inclusion. Given these cost estimates were prepared to support the December 2019 report to Council, it would be necessary to take into account price increases during the intervening period.

No.	Infrastructure & Administration Item	Rationale	Estimated Cost
1A	Development of Public Open Space Corridor (POS 1, POS 2 and POS 3)	The Public Open Space Corridor will serve as recreational space for future residents and contribute to the overall POS provision for the precinct. As such, it directly benefits and is needed as a result of future development within the precinct.	\$4,120,238
2A	Construction of Road 1 (Kanowna Avenue to Boulder Avenue)	The construction of Road 1, and the removal of the existing temporary road infrastructure, will serve as an access point from the precinct and allow for the creation of POS 2, which will directly benefit and is needed as a result of future development within the precinct.	\$389,000
2B	Upgrade all Local Roads	The upgrade of local roads within the precinct will improve the streetscape amenity, slow traffic and encourage walking/cycling in the precinct. These upgrades are required to support the intensification of land use and development within the precinct.	\$6,800,000
3A	Electricity Infrastructure – Underground Network	The undergrounding of power within the precinct will improve streetscape amenity, safety and reliability of the power network. As such, it directly benefits and is needed as a result of future development within the precinct.	\$7,150,000
3B	Water Supply Infrastructure – Upgrades	The need to upgrade water infrastructure in the precinct is a direct result of increased development within the precinct.	\$1,038,000
3C	Wastewater Infrastructure – Upgrades	The need to upgrade wastewater infrastructure in the precinct is a direct result of increased development within the precinct.	\$1,362,000

No.	Infrastructure & Administration Item	Rationale	Estimated Cost
3D	Gas Infrastructure – Upgrades	The need to upgrade gas infrastructure in the precinct is a direct result of increased development within the precinct.	\$472,000
4A	Preparation Costs	The costs incurred by the City of Belmont in preparing the planning framework for the precinct directly benefits the precinct by facilitating redevelopment.	\$460,395
4B	Administrative Costs (0.3% per annum for 10 years)	The costs incurred by the City of Belmont for implementation of the ACP and the administration of the DCP directly benefits and is needed as a result of future development within the precinct.	\$639,937
Total			\$22,431,570

Table 1: Development Contribution Plan items

As outlined above, the progression of a development contribution plan for the Redcliffe Station precinct requires LPS 15 to be amended to insert operational provisions into Schedule No. 11 of the Scheme Text.

Metropolitan Redevelopment Authority Act 2011

The Metropolitan Redevelopment Authority Act provides for the Governor, on recommendation of the Planning Minister, to declare land as a redevelopment area. Prior to making a recommendation to the Governor, the Planning Minister must:

1. Have regard to whether including the land in a redevelopment area will facilitate the regeneration of the area, the provision of land suitable for commercial or residential purposes close to public transport or the establishment of new industries.
2. Have regard to the likely effect of including the land in a redevelopment area on the effectiveness and integrity of the land use planning system and whether including the land is consistent with orderly and proper planning.
3. Provide the WAPC and relevant local government with at least 30 days to make recommendations on the proposed content of regulations associated with the redevelopment area.

Background

State Government Responsibilities and Progression of Planning Framework

There are a number of State agencies involved in delivering and implementing a planning framework for the DA6 precinct. The roles and objectives of each agency are outlined in the table below.

Agency	Role	Comment
City of Belmont	The City has undertaken a range of community consultation in order to establish a vision and subsequent planning framework for the precinct.	Whilst the City has prepared a draft planning framework for the precinct to deliver a holistic high quality outcome, there are a number of challenges that require State Government to take the lead role. The City has raised this as an area of concern since the inception of the project.
Public Transport Authority	Delivering Redcliffe Station and associated parking and access.	Once construction is complete, the Public Transport Authority will only be involved in the operating the train station.
Metronet	Delivery of the Redcliffe Station and State Government development sites.	<p>Metronet was established to work with key stakeholders to coordinate planning and development outcomes.</p> <p>It is considered that Metronet is well placed to coordinate the desirable outcomes for the precinct. The City has continually raised these matters but has not been included in any State level discussions or negotiations.</p> <p>It has become clear that Metronet's priority is delivery of the Redcliffe Station and immediate surrounds, but not the wider precinct.</p>
Water Corporation	Responsible for provision and maintenance of water infrastructure, including suitable treatment and upgrading of the Southern Main Drain.	The Water Corporation has advised that they are not supportive of the proposed hybrid urban stream and that the drain should be converted into a full living stream. However, Water Corporation has also advised that there is no funding available to deliver this living stream.
Department of Water and Environmental Regulation	Ensuring sustainable environmental and water management measures.	Directing sustainable water and environmental outcomes; in particular, appropriate water sensitive urban design treatment and upgrading of the Southern Main Drain.
Department of Planning, Lands and Heritage	The Department of Planning, Lands and Heritage are responsible for determining the draft Activity Centre Plan and reviewing the associated Local Planning Scheme Amendment to provide a recommendation to the Western	<p>The Department assesses the precinct planning framework to ensure alignment with State planning and development policies.</p> <p>One of the prominent matters arising from preliminary consultation with the community is whether the</p>

Agency	Role	Comment
	Australian Planning Commission and Minister for Planning.	allocation of existing Park and Recreation Crown land reserves as future development parcels in lieu of achieving the specified 10 percent Public is acceptable.
Development WA	DevelopmentWA is the State Government's development agency. Under the provisions of the Metropolitan Redevelopment Authority Act 2011, DevelopmentWA works closely with relevant stakeholders to facilitate high quality land development outcomes.	DevelopmentWA is enabled through legislation to lead coordination among State agencies to deliver the desired development outcomes. DevelopmentWA has been engaged to progress planning and development of other Metronet Station precincts, but not Development Area 6.
Main Roads WA	Responsible for the closure of Brearley Avenue and Great Eastern Highway which is located adjacent to the precinct.	Since the closure of Brearley Avenue, Main Roads WA has not had significant involvement within the precinct. It is noted that the land which previously formed the Brearley Avenue roadway needs to be converted from road reserve to the designated zone or reserve once the planning framework is finalised.

Table 2: Role of State agencies

In 2019 the State Government announced that DevelopmentWA (formally the Metropolitan Redevelopment Authority), which is the State Government development agency, would progress planning frameworks for land surrounding Bayswater and High Wycombe Stations. Redcliffe Station was not included in this announcement and the City subsequently wrote to the Director General of the Department of Planning, Lands and Heritage (DPLH) to seek clarification on the matter (Attachment 12.1.1).

Due to the need for land-reassembly and complex coordination of State agencies and infrastructure in the Redcliffe Station precinct, the City considered that the powers afforded to DevelopmentWA would provide the appropriate planning instrument to ensure good planning outcomes are achieved. As an alternative, the City considered that an Improvement Scheme may be appropriate to guide redevelopment within the precinct.

The City was subsequently advised that there was no intention for DevelopmentWA to lead progression of the planning framework for the precinct or for an Improvement Scheme to be initiated. The City has continued to progress a planning framework for the Redcliffe Station precinct in the absence of a coordinating role from the State.

Development Area 6 Planning Framework

Given the complexities associated with the draft ACP, it was considered important that the community were afforded as much opportunity as possible to provide feedback. To

facilitate this, Council endorsed the first draft of the Redcliffe Station Precinct ACP for pre-consultation at the 10 December 2019 Ordinary Council Meeting. Pre-consultation was subsequently undertaken on the Plan in 2020.

Following pre-consultation, Council resolved to adopt for public consultation the draft ACP, Development Contribution Plan (providing for the funding of infrastructure) and associated Local Planning Scheme amendment. The City needs consent from the Western Australian Planning Commission (WAPC) to formally advertise and seek public submission on these draft documents. The WAPC has not granted approval to advertise on the basis that State funding commitments relating to the Southern Main Drain have yet to be confirmed. The unresolved arrangement for upgrades to the Southern Main Drain would have significant implications for the precinct as the hybrid urban stream transformation is at the forefront of the community’s vision for the precinct and is vital to facilitating a high level of amenity.

State Government Funding Commitment

In December 2021, Metronet wrote to the City advising that the State Budget for the 2021-2022 and 2022-2023 Financial Years includes a total funding commitment of \$4.38 million. The funds are intended to activate and improve the amenity in the Metronet Redcliffe Train Station Precinct. The funds are proposed to be provided to the City to undertake the works in accordance with the table below.

Proposed Work	Allocation
Clearing, revegetation and fencing of the Southern Main Drain	\$520,000
Public open space upgrades	\$750,000
Public open space maintenance	\$300,000
Central Avenue extension	\$2,240,000
Servicing of future State development sites	\$570,000
Total	\$4,380,000

Table 2: Breakdown of proposed State Government funding commitment

Further analysis of the funding commitment will be detailed in the officer comment section of this report.

Officer comment

Whilst the funding commitment from Metronet is appreciated, a number of aspects require further consideration. The details are discussed in the following sections of this report.

Southern Main Drain

Funding of Upgrades

Metronet proposes that a portion of the funding (\$520,000) is allocated to the clearing, revegetation and fencing of the Southern Main Drain. This is inconsistent with the draft ACP to convert the drain into a hybrid urban stream within public open space as the focal point for the community.

Metronet is of the view that the City of Belmont should bear the responsibility of upgrading the drain. On the contrary, it is not appropriate for the City of Belmont to fund and deliver the modifications as:

- The drain is a State Government asset which serves a regional function of conveying water from Kalamunda to the Swan River. It is noted that stormwater from the newly constructed Metronet Redcliffe Train Station also discharges into the Southern Main Drain.
- There is no 'nexus' to justify funding of upgrades to regional infrastructure through the Development Contribution Plan as the Southern Main Drain does not service the precinct.
- It is improper for the City to expend municipal funds for the purposes of upgrading regional infrastructure. The City can however expend funds on upgrading public open space surrounding the drain as there is a direct correlation between future development and the need for high quality public open space within the precinct.

It is envisaged that the upgrade and consequent realignment of the drain enables the consolidation of various portions of the existing Crown land Parks and Recreation reserves, which would then become available to the State for future development purposes. This provides the nexus and supports the view that upgrading of the Southern Main Drain should be funded by the State.

Form of Upgrades

During discussions in February 2022, the Water Corporation affirmed that it is only supportive of upgrade to the Southern Main Drain in the form of a full living stream as opposed to a hybrid urban stream with a piped portion. The Water Corporation's position does not take into consideration the wider needs of the precinct. There is a need to balance the competing interests of various stakeholders. In this case, a number of State Government agencies have expressed their interest as a priority in development of the precinct. The Water Corporation and Department of Water and Environmental Regulation (DWER) require a full living stream; this impacts on the DPLH requirements for functional public open space and Metronet's delivery of State development sites. It is also considered that delivering a full living stream within the precinct will result in the removal of a significant number of mature trees which the community and residents have expressed concerns over.

It has been the City's consistent position that a hybrid urban stream option presents a balance in addressing the interests of each stakeholder. This option is capable of achieving high quality water sensitive urban design principles, mature tree retention and delivery of functional public open space, while providing land development parcels to support the Transit Oriented Development precinct.

While the hybrid urban stream may be a reasonable option, the City does not have the authority to legitimately downgrade or set aside the priorities of State Government agencies. It is more effective for a State led agency such as Metronet or DevelopmentWA to coordinate the matter.

Central Avenue Extension

Metronet proposes that \$2.24 million of the funding is allocated to the extension of Central Avenue to complete the connection between the intersections of First Street and Second Street as outlined in the draft Activity Centre Plan (refer to Figure 2 below).

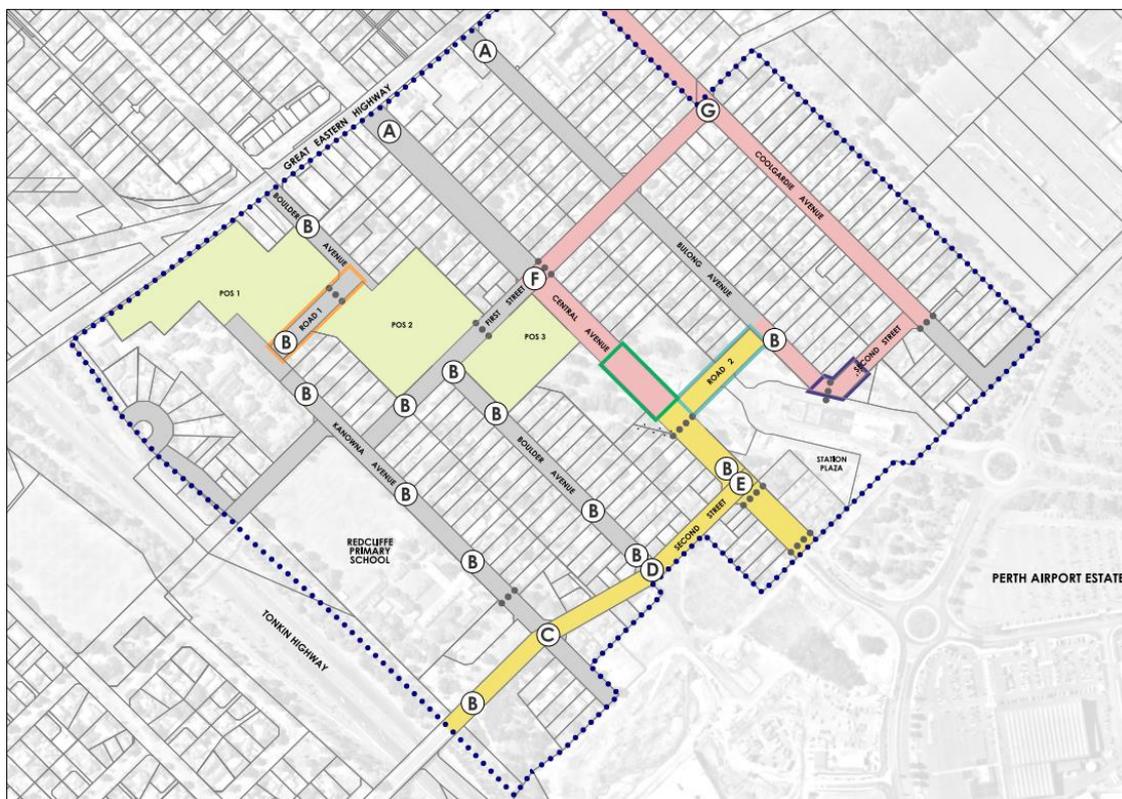

Figure 2: Proposed Central Avenue extension

The construction of this portion of Central Avenue will facilitate access to the adjacent land parcel which is Crown land earmarked as a future development site under the draft ACP.

It is noted that the draft Development Contribution Plan associated with the draft ACP includes funding of the Central Avenue extension. Given this, it is not necessary for Metronet to allocate the current funding to the extension of Central Avenue.

If Metronet considers extension of Central Avenue should be prioritised to facilitate access to the adjacent site, then the City may consider prefunding the work which can then be recouped through the Development Contribution Plan.

A detailed design exercise is required to determine the interface arrangements between the upgraded Southern Main Drain and the Central Avenue extension, and whether staging of the works as discrete projects is possible. In any case, it is desirable for the works to be carried out concurrently to minimise construction mobilisation costs as well as disruption to the community.

Given the above, Metronet should consider reallocating the State's intended funding for the extension of Central Avenue towards upgrading of the Southern Main Drain to a hybrid urban stream as envisaged in the draft Activity Centre Plan.

Public Open Space

Funding of Upgrades

A range of public open space upgrades are proposed under the draft ACP. The provision of public open space within the precinct has been divided into three key areas which are identified as POS1, POS2 and POS3 in Figure 3. This equates to 3.79ha in public open space, representing 9.46% of developable land within the precinct.

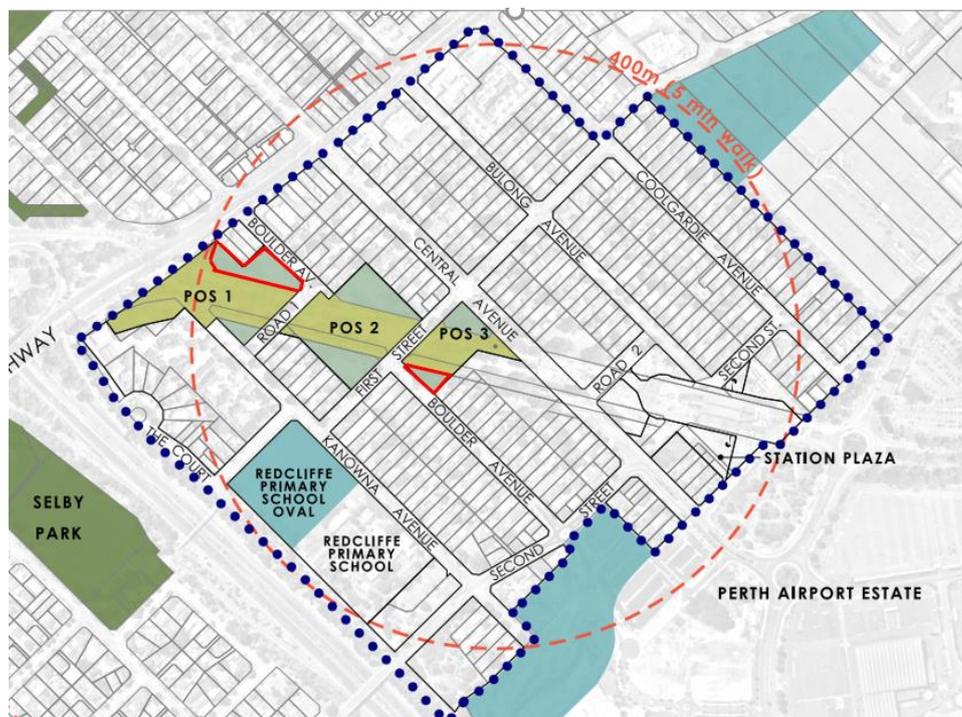

Figure 3: Proposed public open space – draft Structure Plan

Metronet proposes \$750,000 of funds towards upgrading public open space within the precinct. It should be noted that similar to the Central Avenue extension, the upgrading of public open space could ultimately be funded through the development contribution plan. Applying Metronet funding to upgrade the public open space at this stage could complement works to upgrade the Southern Main Drain to a hybrid urban stream. Depending on the final costs of developing the hybrid stream, any funding channeled to public open space upgrades may reduce the Public Open Space cost component under the draft Development Contribution Plan for landowners in the precinct. In such a case, the draft Development Contribution Plan will be revised.

Reconfiguration of Land Parcels

As a variation to the pre-consultation of the draft Activity Centre Structure Plan, Metronet has suggested reconfiguration of public open space within the precinct as per Figure 4, where:

- The land parcel to the southeast of POS3 is reserved as public open space; and
- The land parcel to the east of POS1 is earmarked for future State led development.

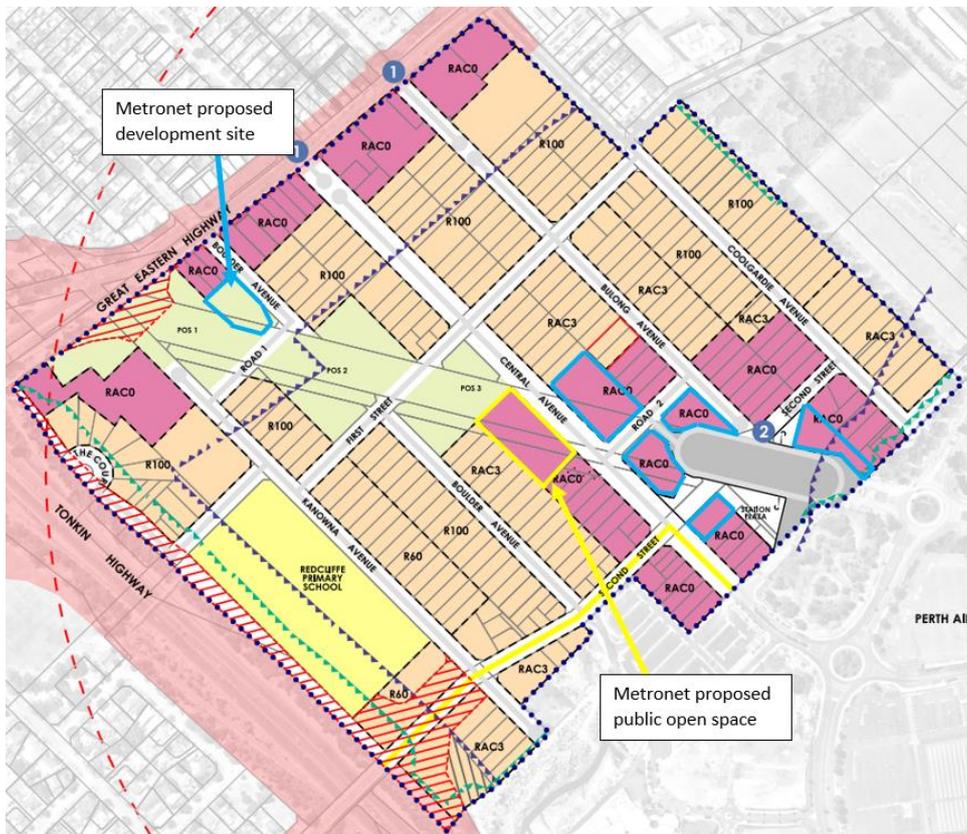

Figure 4: Metronet's proposed development sites

Metronet's public open space configuration presents the following implications for consideration:

- The draft Structure Plan currently proposes 3.5ha of unrestricted public open space within the precinct. The State's proposal would result in small reduction to approximately 3.4714ha of unrestricted public open space within the precinct.
- The alignment of the Southern Main Drain and ultimately the hybrid urban stream dissects the land parcel to the southeast of POS3. This presents constraints for future development of that land parcel. It is considered that Site 6 would be more advantageous as a development site for the State. However, the opportunity for the Site 6 land parcel to supplement POS1 by providing more functional open space in a consolidated area would be lost.

In light of the above, it is considered that the public open space configuration contained within the draft ACP is more appropriate than the configuration proposed by Metronet. However, to facilitate informed decision making, it is considered appropriate to seek

community feedback on Metronet's proposed public open space configuration. As part of the advertising of the draft ACP, the City could concurrently seek feedback from the community on the alternative public open space configuration.

Public Open Space and Future State Development Site Maintenance

Metronet proposes to provide \$300,000 to install turf and reticulation, with the expectation that the City would take on the responsibility for ongoing maintenance of public open space and future State development sites.

The City would ordinarily be deemed to be responsible for maintenance of public open space in the precinct, however the ongoing maintenance of future State development sites needs further consideration:

- Whilst these sites were previously used as public open space, they are earmarked for future development as part of the State's Housing Diversity Pipeline Project. The State is proposing that a minimum social housing ratio of 1:5 dwellings be provided on the lots through this project.
- The sites are located directly adjacent to Redcliffe Station and the Public Transport Authority (PTA) have offered funding to install turf and reticulation for the land parcels, which will otherwise remain vacant until such a time that they are developed.
- There is an opportunity for the turfed sites to be enjoyed by Redcliffe Station patrons and the wider DA6 community while they are vacant.
- Metronet has not provided a timeframe as to when they intend on developing the subject sites, and it is not appropriate for the City to expend municipal funds on maintenance of the sites once the initial funds from Metronet are exhausted.

In light of the above, the City could consider facilitating the installation of the turf and reticulation, and maintenance of the State's future development sites as an extension of the maintenance regime of public open space in the precinct. It would be necessary for the State to reimburse the City for these maintenance costs, and this would be a temporary arrangement until such a time that the sites are formalised as development sites.

If Council resolves to endorse this proposal, and the State Government are amenable to this arrangement, it is proposed that a legal agreement would be established to specify the responsibilities and obligations of each party. It is also considered necessary for signage to be installed on the sites which identifies that the land is owned by the State Government and clarifies that the land will be developed in the future.

Servicing of Future State Development Sites

Metronet is proposing to provide \$570,000 towards the servicing of future State development sites but has not provided details on what infrastructure services this would cover.

The Development Contribution Plan prepared for the precinct makes provision for the delivery of a range of common infrastructure works including utility infrastructure upgrades required to support redevelopment within the precinct. These upgrades relate to water, wastewater, electricity and gas which are not otherwise funded by servicing agencies.

It is not appropriate for the City to take responsibility for installation of site specific services for future development sites, albeit State Government sites. It is therefore recommended that the City advise the State that it will not undertake service installation for future State development sites.

Options to Progress Planning Framework

Having regard for the above, three options have been developed for Council to consider:

Option 1 – Accept the \$4.38m funding commitment and undertake works

Metronet proposes to provide \$4.38m for the City to deliver the following works:

- Clearing, revegetation and fencing of the Southern Main Drain
- Public open space upgrades
- Servicing of future State development sites
- Public open space and future State development site maintenance.

Whilst the funding commitment would facilitate delivery of infrastructure within the precinct, clarity over the intent of the funding commitment is needed. Investment by the State to showcase high-quality development as a catalyst for the precinct is desirable. Good public realm urban design and quality public open space is required to fulfil a sense of place for the precinct. There are a number of concerning implications associated with Option 1:

- The basis for the funding allocation and associated cost estimates are unclear. If the City were to accept the funding commitment from the State there is a risk that the works could cost more than the allocated funds provided by the State. The City would therefore become responsible for additional costs.
- It is not appropriate for the City to take responsibility of upgrades to the Southern Main Drain which is a State agency asset. It is not reasonable for the City to expend municipal funds to upgrade regional infrastructure that does not service the local government area. Acceptance of Metronet's funding implies that the City would assume responsibility for future upgrades to the Southern Main Drain.

To compound the matter, it is noted that the Water Corporation are not supportive of a hybrid urban stream; they have affirmed that a full living stream should be delivered as an upgrade for the Southern Main Drain. Therefore, the planning framework which is currently not advertised, is still in its infancy stage.

The vision for the precinct highlights the transformation of the Southern Main Drain as a high amenity stream in an urban parkland setting as the focal point for the community. This vision was developed in consultation with the community and stakeholders. Given this impasse which threatens the ability to deliver the vision, it would be necessary to revisit the planning framework for the precinct and reconsider the community's aspirations for DA6.

- The public open space configuration proposed by the State is not consistent with the public open space configuration contained within the draft ACP. It is considered that

the public open space configuration contained within the draft ACP provides a more useable and high-quality outcome.

- The public open space upgrade can be funded under the proposed Development Contribution Plan and it is not necessary for Metronet to fund these works.
- Metronet has not specified the infrastructure items associated with the funding for preparation for future State development land parcels. Nonetheless, it is not appropriate for the City to take responsibility for establishing site specific service infrastructure for future development parcels albeit State Government landholdings. It is noted that precinct infrastructure to facilitate implementation of the planning framework would be funded through a Development Contribution Plan. It is not essential for Metronet to allocate funding to these infrastructure works.
- The PTA is proposing to fund the turfing and reticulation of future State development sites adjacent to Redcliffe Station. While Metronet has proposed allocating funds for the City to take responsibility for interim maintenance of future development sites, the timeframe associated with formalising the land tenure of these existing Parks and Recreation reserve land parcels as zoned land for development is unknown. It would be necessary for the State to enter into a legal agreement with the City to specify the responsibilities of each party and the parameters of the arrangement.

The funding from Metronet at this stage should not be taken to automatically offset the obligations for contribution under a formalised Development Contribution Plan when development occurs on the respective development land parcels. Metronet would need to clearly present the case if this were the intention.

Financial and Risk Implications

Metronet's basis for the cost estimates is unknown. If the City accepts the funding commitment from the State, there is a risk that the works could cost more than the allocated funding provided by Metronet. The City would be left with the responsibility of covering additional costs, which could be substantial.

Given the implications and the uncertainty associated with this option, it is recommended that Council does not proceed with this option.

Option 2 – Request the State redirect funds to upgrade the Southern Main Drain

Council could consider committing to prefund infrastructure works which are recoverable through the Development Contribution Plan, and seek that Metronet reallocates funding towards upgrading the Southern Main Drain.

Metronet has proposed the clearing, revegetation and fencing of the Southern Main Drain as an interim measure until the City is in a position to fund upgrades to the drain in accordance with the draft ACP. As previously outlined, it is not appropriate for the City to fund and upgrade the drain, either through the Development Contribution Plan or municipal funds, as it is regional infrastructure that does not service the precinct or municipal area.

Costs for items such as the construction of Central Avenue, the establishment of public open space and the installation of service infrastructure for the precinct can be funded via

the Development Contribution Plan. This provides an opportunity for the \$2.99 million associated with these works to be redirected towards upgrading of the Southern Main Drain in accordance with the draft ACP.

While Metronet has indicated in principle that they could consider reallocation of funding towards upgrading of the Southern Main Drain, clear commitments are needed from the Water Corporation and DWER as the responsible agencies to undertake the Southern Main Drain modifications.

Given the interface between the Central Avenue extension, public open space upgrades and Southern Main Drain modifications, it is desirable for these works to be undertaken concurrently. This would require a financial commitment from the City to prefund the works, as no funds would have been collected through the Development Contribution Plan at this initiation phase. Reimbursement for the prefunding would occur as money is collected through the Development Contribution Plan as properties within the precinct are developed.

Financial and Risk Implications

There are several risks associated with this option:

- The Development Contribution Plan for the precinct has not been endorsed even for advertising by the WAPC. Without the certainty that the Central Avenue extension and public open space establishment are included in the Development Contribution Plan, there is a risk that the City may not be able to recoup its expenses for delivering these works, therefore presenting a significant financial risk.
- Even with an established Development Contribution Plan, prefunding the infrastructure works requires a significant financial contribution from the City. Development contributions are only payable when properties are redeveloped, and there is no certainty to the uptake and timing of when development will occur within the precinct. This means that there is no guarantee as to when the City would be able to recoup its expenses.
- Previous estimates indicate that the cost of upgrading the Southern Main Drain to a hybrid urban stream at approximately \$4.5 million. This means further technical consultancy work is required to establish the extent of work achievable with the available \$2.99 million Metronet funding.

It is probable that the \$2.99 million in funding will not be sufficient to achieve the outcomes desired for the Southern Main Drain. There is also concern that the DWER and Water Corporation will not support the design. This means that the financial outlay for further consultancy work to examine designs within the \$2.99 million budget could be futile.

Having regard for the complexities outlined above, and given the Southern Main Drain is regional infrastructure that does not service the precinct or municipal area, it is considered necessary for Metronet or DevelopmentWA as lead State agencies to coordinate and implement upgrades to the Southern Main Drain.

If Council contemplates this option, it would be necessary to seek formal commitments from Metronet to guarantee that funding will be allocated to the Southern Main Drain, and also gain approval from the Water Corporation for the preferred hybrid urban stream design.

Considering the risks and uncertainty associated with this option, it is recommended that Council does not proceed with this option.

Option 3 – Request that DevelopmentWA progress and implement the planning framework for the precinct

Considering the complexities discussed in Options 1 and 2, as well as the limitations in the City's authority over decisions with State Government assets and interests, Council may consider requesting that DA6 is declared a redevelopment area under the provisions of the *Metropolitan Redevelopment Authority Act 2011* and that DevelopmentWA take on responsibility as the lead State Government agency to progress the planning framework for the precinct.

The community worked closely with the City to form up the Vision Plan for the precinct in 2013 and have over many years patiently participated in development of the planning framework. They have continually sought certainty regarding the planning framework for their landholdings and the precinct more broadly. At this point, the community are keenly supportive for a planning framework to guide high-quality redevelopment outcomes.

To date, the City has taken the lead role in progressing the planning framework for Development Area 6, but has been unable to resolve key issues with State agency stakeholders, including:

- State funding for upgrades to the Southern Main Drain.
- Whether the hybrid urban stream is an acceptable design outcome to balance different priorities across the relevant government agencies.

The statutory powers afforded to DevelopmentWA provide the appropriate instrument to facilitate good planning outcomes for the precinct. This would enable land-reassembly and complex coordination of State Agencies, with DevelopmentWA as the lead State agency to ascertain the priority interests among the agencies. It is noted that DevelopmentWA is currently engaged to coordinate the planning frameworks for land surrounding other Metronet Station precincts.

Financial and Risk Implications

Given the lengthy delays in gaining State Government support to resolve issues that the City has raised on a number of previous occasions, it is necessary for this matter to be addressed promptly to provide the community with certainty for future development of their property. Whilst the City would no longer take the lead role in progressing a planning framework for the precinct, it is considered that DevelopmentWA could deliver a planning framework for the precinct in a more effective and timely manner with the statutory powers afforded to them. The City would still have an important role in assisting DevelopmentWA and liaising with the community in delivering a planning framework and high amenity outcome for the precinct.

There is a risk that DevelopmentWA may not agree to take on responsibility for the precinct, however this is outweighed by the risk implications for the City if the other options are pursued.

An alternative if DevelopmentWA does not take on progressing the planning framework for the precinct would be for the City to revisit and re-engage with the community to revise the vision and plan for the precinct. It is necessary to take into consideration any evolution in aspirations from the community given the changes to the proposed hybrid urban stream and form of public open space, and the likely changes to amenity for the precinct. While this process would mean significant delays for development in the precinct, it ensures proper and transparent planning.

It is recommended that Council pursue Option 3 and explore the alternatives associated with this option if the need arises.

Concurrent Option – Establish discrete Agreement for interim maintenance of State owned sites

Notwithstanding the above options, the PTA are finalising works associated with the train station, including the landscape treatment of future development land parcels adjacent to the train station site (Figure 5). The PTA have offered to contribute \$264,000 in funds towards installing turf and reticulation for these land parcels with the expectation that the City would then be responsible for the ongoing maintenance of the landscaping.

Figure 5: Future State development parcels surrounding train station

While the land tenure of these sites is currently reserved for Parks and Recreation, they are Crown land parcels earmarked as future development sites under the draft ACP. This means that the State Government are the custodians and should bear responsibility for ongoing maintenance of the land. As the timeframe for development on these sites is unknown, it is desirable to ensure a high standard of maintenance given their interface with the train station. To facilitate this outcome, the Council may consider including these sites in its maintenance regime for the surrounding park land and seek reimbursement of the maintenance costs from the State. Such an arrangement should be formalised through a legal agreement specifying the responsibilities and obligations of each party.

As a standalone matter separate from Options 1, 2 and 3, it is recommended that Council endorses this proposal to the State.

Conclusion

The City has worked closely with the community to develop a planning framework which aims to facilitate the redevelopment of the area into a high amenity, transport orientated precinct. The Southern Main Drain is at the forefront of this vision and is proposed to be converted into a hybrid urban stream, set within public open space.

The State Government is proposing to contribute \$4.38 million in funding towards delivering certain infrastructure items within the precinct. As outlined in this report, there are a number of concerns regarding the funding commitment. Particularly, given the commitment does not extend to the transformation of the Southern Main Drain into a hybrid urban stream as envisioned by the community. In light of this, there are a number of implications for the precinct and the likely commitments and obligations on the City's part.

There is a high level of uncertainty over Metronet's cost estimates associated with Option 1. It is likely that further significant financial input from the City would be required to deliver the outcomes expected in return for Metronet's funding under this option. It is irreconcilably inappropriate for the City to expend municipal funds to upgrade the Southern Main Drain which is regional infrastructure that does not service the municipal area.

Even if Metronet provides the full amount of funding to upgrade the Southern Main Drain contemplated under Option 2, the City does not have any legitimate authority to override Water Corporation's position that the upgrades must be in the form of a full living stream. There is genuine concern that pursuing either Option 1 or Option 2 places significant financial burden on the City, with very narrow prospect that the envisaged outcomes will be achieved.

It is considered that the statutory powers afforded to DevelopmentWA provide the appropriate instrument to facilitate good planning outcomes for the precinct, as proposed by Option 3. The risk under Option 3 is that DevelopmentWA does not invest itself in progressing the planning framework for DA6. This means that the status quo remains, and the City would be left to lead the planning framework for the precinct. In this case, it is recommended that the City revisits the vision for the precinct rather than take on the risks associated with Options 1 and 2.

Financial implications

The financial implications associated with each option has been discussed above.

Environmental implications

There are no dominant environmental implications associated with the consideration of the proposed funding commitment and progression of the planning framework.

It is noted that the planning framework for the precinct proposes to transform the Southern Main Drain into an environmentally sustainable hybrid urban stream.

Social implications

If the planning framework for the precinct is not progressed in a timely manner, development surrounding Redcliffe Station will be delayed. This will mean a delay in housing opportunities for the growing population. Without the critical mass of housing and activity around the train station, it will not function at its intended capacity which undermines the viability of operations but also has flow on effects on vibrancy, activity and amenity for the community.

If alternative options for the design and configuration of the Southern Main Drain are investigated for the precinct, this has the potential to impact on public open space delivery and may lead to a less desirable urban design outcome for the community.

Due to the delays in progressing a planning framework for the precinct, the community has been provided with little certainty over the future of their homes and property in the precinct. The delay has also meant that many residents have been left in limbo over decisions they need to make to cater for their personal housing needs in future years.

Officer Recommendation

That Council:

1. Endorses the proposal for the City to undertake interim landscaping maintenance work for the land parcels in Development Area 6 which are earmarked for future development as State Government landholdings, including:
 - a. Seeking reimbursement for the ongoing maintenance costs from the State.
 - b. Specifying that this maintenance arrangement is temporary and will only be in place until the land parcels are formalised as development sites.
 - c. Outlining the need for signage to be installed on the sites that identifies the land as a State Government asset which is subject to future development.
 - d. Directing the Chief Executive Officer to establish the maintenance arrangements through a legal agreement with Metronet.
2. Directs the Chief Executive Officer to write to:
 - a. Metronet to express the City's concerns over the nature of the proposed funding commitment.
 - b.
 - (i) The Governor
 - (ii) Minister for Transport; Planning; Ports
 - (iii) Western Australian Planning Commission Chairman
 - (iv) Director General of the Department of Planning, Lands and Heritage.

to request that the precinct be established as a redevelopment area under the *Metropolitan Redevelopment Authority Act 2011* and that DevelopmentWA

take responsibility for progressing the planning framework for the Development Area 6 precinct.

- c. The Premier and State Member for Belmont to:
- (i) Express the City's concerns over the lack of funding for necessary upgrade to the Southern Main Drain that will impact on liveability and sustainable housing for a large segment of the Belmont community, and request that funds earmarked for the servicing of State land parcels and other associated infrastructure be rediverted to the upgrading of the main drain with redevelopment of the wider precinct to be pursued and funded through an appropriate planning mechanism;
 - (ii) Seek commitment for further funding to transform the Southern Main Drain into a hybrid urban stream; and
 - (iii) Request support for the precinct to be established as a redevelopment area under the *Metropolitan Redevelopment Authority Act 2011*.

Note:

Cr Rossi put forward the following Alternative Motion.

Alternative Councillor Motion

Rossi moved, Sekulla seconded

That Council:

1. Endorses the proposal for the City to undertake interim landscaping maintenance work for the land parcels in Development Area 6 which are earmarked for future development as State Government landholdings, including:
 - a. Seeking reimbursement for the ongoing maintenance costs from the State.
 - b. Specifying that this maintenance arrangement is temporary and will only be in place until the land parcels are formalised as development sites.
 - c. Outlining the need for signage to be installed on the sites that identifies the land as a State Government asset which is subject to future development; and the need to update the signage to clearly indicate the type of development contemplated for the sites as plans are developed.
 - d. Directing the Chief Executive Officer to establish the maintenance arrangements through a legal agreement with Metronet.
2. Directs the Chief Executive Officer to write to:

- a. Metronet to express the City's concerns over the nature of the proposed funding commitment.
- b.
 - (i) The Governor
 - (ii) Minister for Transport; Planning; Ports
 - (iii) Western Australian Planning Commission Chairman
 - (iv) Director General of the Department of Planning, Lands and Heritage.

to request that the precinct be established as a redevelopment area under the *Metropolitan Redevelopment Authority Act 2011* and that DevelopmentWA take responsibility for progressing the planning framework for the Development Area 6 precinct.
- c. The Premier and State Member for Belmont to:
 - (i) Express the City's concerns over the lack of funding for necessary upgrade to the Southern Main Drain that will impact on liveability and sustainable housing for a large segment of the Belmont community, and request that funds earmarked for the servicing of State land parcels and other associated infrastructure be rediverted to the upgrading of the main drain with redevelopment of the wider precinct to be pursued and funded through an appropriate planning mechanism;
 - (ii) Seek commitment for further funding to transform the Southern Main Drain into a hybrid urban stream; and
 - (iii) Request support for the precinct to be established as a redevelopment area under the *Metropolitan Redevelopment Authority Act 2011*.
- d. All landowners in Development Area 6 to:
 - (i) Provide them an update on the progress of the planning framework for Development Area 6, including the rationale for Council's decision on the funding offer from the State; and
 - (ii) Seek their support to establish the precinct as a redevelopment area.

Carried Unanimously 9 votes to 0

Reason

Many landowners have been waiting in limbo unsure of what is happening in the precinct, and they should be updated of the progress and the issues faced in Development Area 6.

PERTH WA 6001

Dear Ms McGowan

PLANNING AND LAND MATTERS IN THE CITY OF BELMONT

The City of Belmont is currently dealing with several planning and land matters which require coordination with the Department of Planning, Lands, and Heritage. I would appreciate a meeting with you, the Chairman of the Western Australian Planning Commission and relevant staff at the Department to discuss the following matters in particular.

1. Redcliffe Metronet Precinct

Planning Implementation Framework

The Western Australian Planning Commission has yet to make a decision on the ultimate statutory planning framework for the Redcliffe Metronet Precinct. It is noted that the Metropolitan Redevelopment Authority's responsibility now extends over the Bayswater and Forrestfield train station precincts. It is considered that the powers afforded to the Metropolitan Redevelopment Authority provide the appropriate planning instrument to ensure good planning outcomes are realised. However, it is unclear why Redcliffe has not been included in the Metropolitan Redevelopment Authority's charge.

There is a need for land re-assembly, and complex coordination of state agencies and infrastructure in the Redcliffe precinct, this is compounded by the unpredictable and sometimes volatile sentiment of the community which has influenced decision making for the precinct in the past. One such example is the significant delay in the closure of Brearley Avenue.

I understand that that Landcorp have carried out a development feasibility study and have indicated concerns that the proposed development densities in the precinct are not viable in the current market. It has always been the City's approach to redevelopment precincts that in order to ensure that long term sustainable development outcomes are achieved, it is inappropriate to allow short term market demands to lead development of such areas.

The City is interested in discussing the possibility of extending the remit of the Redevelopment Authority over the Redcliffe precinct and the alternative of imposing an Improvement Scheme as an appropriate implementation instrument. It is the City's position that a Local Planning Scheme does not provide adequate controls to catalyse the long term sustainable development outcomes desired for the Redcliffe Metronet precinct.

Infrastructure Pre-funding

The fragmentation of land ownership in the Redcliffe Metronet Precinct presents infrastructure funding challenges as no particular developer/landowner could reasonably be expected to coordinate the delivery of infrastructure to the area. Furthermore, the ability to deliver substantial infrastructure at the initial stages of development is unlikely without pre-funding commitments from other sources (e.g. State agencies and/or local government).

The City's preliminary estimates indicate a substantial infrastructure cost burden for development. The most significant infrastructure items relate to the realignment of the Southern Main Drain and the upgrade of services, particularly electricity and telecommunications.

The realignment of the Southern Main Drain will allow Crown land to be developed; therefore it is considered that the cost associated with its realignment should be borne by the beneficiary (i.e. the Crown).

If an Improvement Scheme is considered to be the appropriate implementation instrument, it is necessary to establish what financial contributions to infrastructure will be made by the State Government to enable the preparation of a Development Contribution Plan over the Precinct.

2. Crown Reserve Fauntleroy Avenue, Ascot

There are a number of inconsistencies in how the Fauntleroy Avenue Regional Foreshore Reserve is established. It is suggested that a review of the existing Parks and Recreation (P & R) reservation alignment under the Metropolitan Region Scheme (MRS) for properties bounded by the Swan River, Fauntleroy Avenue, Hay Road and Hilton Grove, Ascot should occur. The City has identified several impediments to achieving the objectives of the reservation and it is considered that an amendment to the MRS is required. Background to this request forms Attachment 1.

Lot 7134 (1) Hilton Grove

The City seeks support from the Department to realign a portion of the reserve to enable a suitable interface between the reserve and an adjoining residential property. Background to this request forms Attachment 2.

Lot 7134 (1) Hilton Grove, Ascot (Reserve 26219) is a parcel of Crown Reserve vested with the City of Belmont for the purpose of Public Recreation. The Reserve is located within the Swan Canning Development Control Area and is reserved for Parks and Recreation under the MRS. The width of Reserve 26219 is not consistent with the Reservation boundary to the east/upstream, which is much narrower. The existing topography of the land limits the ability to provide public access and recreation through the area without undertaking significant works that would be detrimental to riparian vegetation, and may in any event be futile due to erosion.

Staff at the Department have not favoured the proposal to realign the reserve boundary as it would be inconsistent with policy. However, I feel that the circumstances of this matter are unique and would not set an undesirable precedent. It would be beneficial for us to discuss the options to address the matters that City officers have identified.

I would be grateful if your staff would contact my Executive Assistant, Ms Shervaun Steenson (9477 7202; shervaun.steenson@belmont.wa.gov.au) to arrange a suitable time for the Mayor, myself and relevant senior staff to meet with you to discuss the highlighted issues.

Yours sincerely

JOHN CHRISTIE

Council role

- Advocacy** When Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council eg adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting local laws, local planning schemes and policies.
- Review** When Council reviews decisions made by Officers.

- **Quasi-Judicial** When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

To consider the consultant's report titled "Lease – 400 Abernethy Road, Cloverdale". (Confidential Attachment 12.2.1 refers), legal advice regarding this report (Confidential Attachment 12.2.2) and alternative options for consideration in relation to the leasing matters associated with the premises at 400 Abernethy Road currently leased to Belmont Sports and Recreation Club (BSRC).

Summary and key issues

Two organisations, the BSRC and Belmont City Bowling Club (BCBC) are in dispute over access/utilisation of facilities at 400 Abernethy Road, Cloverdale. Subsequent to an unsuccessful attempt at professional mediation in March 2021 and efforts by the City to resolve this matter, an independent consultant was engaged by the City to conduct a review of the disputation and provide a report for consideration by Council on identified options to satisfactorily resolve the dispute.

Key issues addressed in the consultant's report include:

- City documentation relating to the historical and current lease arrangement for 400 Abernethy Road, Cloverdale.
- Correspondence between the BSRC and BCBC.
- Summary of meetings held with stakeholders, including the matters of concern for each party.
- Options to resolve the disputation.
- Recommendations for Council consideration.

Due to concerns in relation to the City's ability to implement the options outlined in the consultant's report, legal advice was sought. The advice confirmed that the options were either not viable or not recommended from a legal perspective. City officers subsequently developed additional options for consideration by Council.

Location

The site and building, the premises leased by the BSRC, is located at 400 Abernethy Road, Cloverdale. The leased area is highlighted in red on the aerial image below.

Consultation

Consultation was undertaken with the BSRC and BCBC in relation to this matter, details of the consultation undertaken by the independent consultant is outlined in the attached report.

City Officers have engaged with Jackson McDonald (Lawyers) to provide advice on the legality of the options proposed by the independent consultant.

Several neighbouring local governments and bowling/sporting and recreation clubs were surveyed with regards to lease terms, asset maintenance and governance in the preparation of this report:

1. City of Stirling
2. City of Bayswater
3. City of Joondalup
4. Town of Victoria Park
5. Bayswater Bowling and Recreation Club
6. Joondalup Sports Association
7. Morley/Noranda Recreation Club.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.2 Manage the City's assets and financial resources in a responsible manner and provide the best possible services for the community

Policy implications

There are no policy implications associated with this report.

Statutory environment

There are no specific statutory requirements in respect to this matter.

Background

The BSRC and BCBC are in dispute over access/utilisation of facilities at 400 Abernethy Road, Cloverdale.

At the 24 August 2021 Ordinary Council Meeting, the following Notice of Motion was carried unanimously:

- “1. Given the recent deterioration in the relationship between Belmont Sport and Recreation (BSRC) and the Belmont City Bowling Club (BCBC), the City should obtain legal advice regarding whether:
 - The historical agreement between the BSRC and BCBC relating to the use of the greens has any legal standing
 - The BCBC has the right to continue to manage and maintain the bowling greens, as they have done so from 1996 until the recent cancellation of this arrangement by the BSRC
 - The BCBC has the right to have priority use of the internal lounge area within the BSRC
 - There are clauses within the lease to ensure that the BSRC maintains positive working relationships with users of the building and bowling greens
2. If the BSRC does not resolve relations with the BCBC by the end September 2021, that Council directs the CEO to prepare a report to Council outlining the potential options available to the City to resolve this matter.”

It was considered by Council that the increasingly fraught relations between the two groups has had a significant impact on the relations on site and the reputation of both groups.

Comment

Despite efforts made by the City, BSRC and BCBC, agreement and resolution of the issues were not able to be reached. This included professional mediation between the BSRC and the BCBC.

The City therefore engaged an independent consultancy firm to conduct a review of the dispute between the two groups in relation to lease and license access arrangements at

the premises. The resulting consultant's report provides background information, an assessment of the current situation, identified options for resolving the matter as well as a recommended option. The report prepared by the consultant titled "Lease – 400 Abernethy Road, Cloverdale" is provided as Confidential Attachment 12.2.1.

Based on concerns in relation to the City's ability to implement the options from a legal perspective, the City sought advice from Lawyers as to the legality of the options proposed by the consultant and the ability for the options to be implemented in a practical sense (refer Confidential Attachment 12.2.2).

The following table outlines the options presented by the consultant and comments in relation to the implementation of each option identified through advice received from the Lawyer:

Option	Overview	Summary Of Legal Advice/Issues
Consultant Option 1 – Status Quo Modified	Modification to existing lease to provide BCBC with responsibility for bowling greens	<p>Lease cannot be altered without agreement of both parties. Issues remain over the facilities required to support the BCBC which cannot be excised from the leased area and the parties cannot agree on how the use of these facilities will be allocated or the associated cost.</p> <p>Even if agreed, this option would initiate rewriting almost every provision in the lease.</p> <p>If the parties cannot reach an agreement to a sub-lease, it is unlikely an agreement would be reached on a joint lease/co-tenant arrangement. The BCBC have advised the City that they prefer not to be a party to a joint agreement with the BSRC.</p>
Consultant Option 2 – Provide new facilities	Construction of a fit for purpose bowling facility for the benefit of BCBC	<p>While legally possible, this would come at a significant cost. Research undertaken in relation to recently completed facilities, indicates the costs could run into many millions of dollars.</p> <p>Cost benefit analysis in relation to this option is poor, based on low member numbers versus cost. With Master Planning and aged buildings on site, it is also not recommended to develop a new facility on this location at this time.</p> <p>The proposal for a stand-alone facility is contrary to the approach of the City and other local governments in recent years, which is to move away from stand-alone facilities towards co-located facilities.</p>
Consultant Option 3 – Preparation of new lease/s No 1	Termination of lease with BSRC and preparation of new tri party lease between the City, BSRC and BCBC	<p>This approach requires the two parties to negotiate and agree terms of a new Head Lease providing for the specific needs of each party. Clubs cannot currently agree on shared use arrangements under a sub-lease. The BCBC have advised the City that they prefer not to be a party to a joint agreement with the BSRC.</p>

Option	Overview	Summary Of Legal Advice/Issues
Consultant Option 4 – Preparation of new lease/s No 2	Termination of lease with BSRC and preparation of new lease exclusive of bowling greens and a new lease for the bowling greens be prepared with BCBC	The comments under Option 3 above, also apply to this Option 4. Similar to Option 1, unresolved issues remain over the facilities required to support the BCBC which cannot be excised from the leased area and the parties cannot agree on how the use of these facilities will be allocated or the associated cost under the existing lease agreement that could be executed under a sub-lease arrangement.

Advice received from the Lawyers has indicated that on the whole, the options proposed by the consultant:

1. Are not able to be implemented and/or would have significant challenges with managing on an ongoing basis; or
2. Would require the parties to negotiate and agree. This has not been achievable over the past year of negotiation with City officers, a mediator and the consultant; or
3. Are not recommended from a legal viewpoint.

The consultant and BCBC have suggested the execution of the current lease between the City and the BSRC was the reason for the break down in the relationship between the two clubs and the change of approach in relation to maintaining the bowling greens, whereby the BSRC took over maintaining the bowling greens from the BCBC. The City provides the following clarifications relevant to these concerns:

- Under both the current and previous lease agreement, the BSRC was responsible for maintaining the bowling greens and under both leases, at any time the BSRC could have taken over maintenance of the greens. The arrangement between the BCBC and BSRC, whereby the BCBC maintained the bowling greens, was an arrangement outside the lease agreement between the BCBC and BSRC.
- The key difference between the two documents, is that the current lease provides clarity in relation to the circumstances under which the bowling greens are to be maintained to competition standard (in accordance with Bowls WA requirements), whereas the previous lease was silent in relation to the standard of maintenance or reference to the bowling greens (which fell under “lawn areas” under the previous lease).
- The current lease also provides improved clarity in relation to general maintenance responsibilities between the Lessor and Lessee.
- Based on the City’s engagement with both clubs and reviewing historical documentation, there is evidence of challenges with relations between the BSRC and BCBC prior to the execution of the current lease agreement.

While the previous lease expired on 29 June 2010, between the expiry date and date of execution of the current lease (May 2021), the City had made ongoing attempts to obtain the agreement of the BSRC to the draft lease.

Although the preferred course of action would have been to have an updated lease in place shortly after the expiry of the previous lease in June 2010, the leases do contain holding over provisions which ensures both parties are protected under the provisions of the expired lease on a month-to-month basis.

In reviewing the consultant's report and legal advice, Officers contacted several neighbouring local governments and bowling and recreation clubs in order to gather comparable examples of the lease terms and governance structures in place for like facilities.

Lease terms:

- All four surveyed local governments have bowling clubs within their local government authorities (LGA).
- All four LGAs own bowling facilities, all of which are leased to a tenant. The arrangements in place are a mix of a lease:
 - direct to a bowling club; or
 - sports and recreation association where the bowling club is a user or subtenant of the sport and recreation association, the user arrangement in place is mostly informal and the observations were that this was based on a good working relationship between the clubs.
- Three out of four LGAs grant peppercorn leases with the lessee responsible for operational costs including utilities, ESL, insurance and telecommunications.
- Two out of four lessees are responsible to pay local government rates.
- One out of the four local governments have introduced a leasing policy whereby the City covers the cost of utilities. It should be noted that in general terms this is a unique arrangement for a lease agreement.

Asset maintenance:

- In all cases, the lessee is responsible for general repairs and maintenance. In some, the LGA manages the physical maintenance and on-charges the costs.
- In general, the lessor is responsible for structural maintenance. However, this can be determined on a case-by-case basis.
- Generally, if the assets were installed by the LGA (air conditioning, commercial kitchen appliances, etc.) the LGA would be responsible for the replacement. If the assets were installed by the current leaseholder, they would be responsible for its replacement.
- In all cases, the lessee is responsible for maintenance costs of the bowling greens.

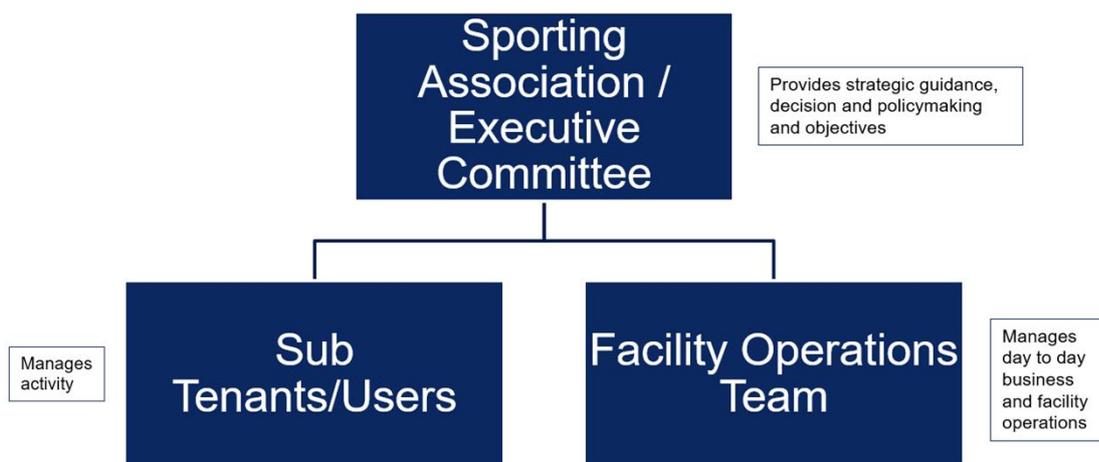

Funding:

- City of Stirling - Occasional funding is provided on a case-by-case basis. Clubs are encouraged to apply for grants that are available.
- City of Bayswater - No ongoing, recurrent arrangements. The City runs an annual community grants program that can be accessed by all eligible groups and

organisations within the LGA for upgrades/renovations to facilities. Terms of the grant dictate that the group/organisation are expected to cover a minimum of 20% of the cost.

- City of Joondalup - Annual contribution to bowling clubs for greens maintenance was established in 2013 of \$5,000 (this amount has been indexed each year and the current amount is around \$5,600). The amount of funding provided is halved for synthetic greens.
- Town of Victoria Park - Operating subsidy grant is available that can be used towards outgoings or improvement projects. The subsidy can be accessed by lessees where mutually beneficial objectives are agreed and reported on.
- City of Belmont – Annual grant of \$32,000 is available to Belmont City Bowling Club for contribution towards greens maintenance in addition to grant opportunities that are available to all eligible not for profit organisations within the City.

In addition to the above detail, it is prudent to note that based on the feedback received in all comparable cases, good relationships exist within the clubs and are paramount to the success of any arrangements, either formal or informal. Based on the feedback, below is an example of an effective governance model:

Officers have developed five options for the consideration of Council. These are discussed in detail below.

Option 1: Provide the BSRC and BCBC with an absolute deadline for the negotiation of terms of a sub-lease agreement, by 30 May 2022.

As the Lessor, the City has no right or obligation to participate in discussions or negotiations between a Lessee and a prospective or formalised Sub-Lessee. In accordance with the current lease agreement, the City and the Minister for Lands have rights of approval for any sub-lease with absolute discretion to withhold consent for any reason.

To date, a significant amount of time has been spent by the City either directly or indirectly through the involvement of independent mediators to attempt to facilitate a positive resolution between the BSRC and the BCBC in relation to reaching terms of agreement.

Under this option, it is recommended that the City provide notice to the BSRC and the BCBC with an absolute deadline for the negotiation of terms of a sub-lease agreement. The notice should provide clear direction that the parties are to negotiate in good faith and that evidence of the schedule of negotiations should be recorded. As part of this communication, the City would confirm that the club undertaking the maintenance of the bowling greens on the site, will receive the grant currently in place (\$32,000) to assist with the cost of greens maintenance.

While the City in its capacity as Lessor would not typically be involved in the development of sub lease or third-party user terms, the City does provide support and guidance to clubs on matters such as strategic planning and governance through its Leisure team. Support of this kind is also available through the Department of Local Government, Sport, and Cultural Industries and from Bowls WA as the peak body for bowls in WA.

It is notable to mention that during the most recent attempt to facilitate a positive outcome between the BSRC and the BCBC, in October 2021, officers reviewed details of the negotiations to this point and prepared a draft term sheet for consideration by both parties. The details in this document considered the previous comments and requests of both clubs. A copy was provided to Bowls WA who agreed that the terms were reasonable and workable for a bowling club in general terms. An overview of the terms is provided in the table below (note, information was current at the time of negotiations in relation to membership numbers for the BCBC):

Item	Proposed Term
Length of Agreement	In line with (Head) Lease
Areas of property covered in agreement	<u>Exclusive use</u> Bowling greens A + B <u>During Pennants</u> <ul style="list-style-type: none"> • An appropriate indoor lounge area • Small kitchen <u>At all times</u> Access to toilets and bar
Use of bowling greens	<u>Exclusive use</u> Bowling greens A + B
Maintenance responsibility	BSRC responsible to maintain greens A + B to Bowls WA Competition Standard BSRC responsible for maintenance and replacement of lawn maintenance equipment

Item	Proposed Term
	BSRC to purchase lawn maintenance equipment from the BCBC for a fee of \$1.00
Fees	<p>\$13,900* per annum</p> <p>*This is calculated as per below:</p> <p>$(A - B) / 2$</p> <p>A = maintenance costs of 2 greens (as per BSRC User Agreement)</p> <p>B = grant for maintenance contribution from the City</p> <p><i>For the BCBC, this equates to \$3.34 per week, per member (based on 80 BCBC members)</i></p> <p><i>For the BSRC, this equates to \$3.34 per week, per member income to the bar</i></p>

The correspondence further stated that while these proposed items would represent the essential terms of the agreement, should consensus be reached, more detail would need to be added to capture additional items including, but not limited to:

- The use of bowling equipment for external bookings;
- Bowling club volunteers to support external bookings;
- Hospitality/food packages for external bookings; and
- Installation of synthetic turf.

The BSRC reviewed this proposal and responded with acceptance of these terms, save for minor amendments (refer to Confidential Attachment 12.2.3). The BCBC provided written responses to both the City and the BSRC to note that the proposed terms were unacceptable to them.

Refer Confidential Attachment 12.2.3 for copies of this correspondence.

At the time of preparing this report, both clubs were contacted to confirm their current position in relation to ongoing negotiations for potential shared use of the site. A summary of this feedback is provided below:

Belmont Sports and Recreation Club:

1. Remain willing to negotiate
2. Unable to contribute financially to BCBC, however the BSRC have offered cost/profit sharing arrangement (income from third party users of the bowling greens would be deducted from the cost of maintaining the greens, balance of profit shared)
3. Experiencing difficulty in managing during current COVID environment (typical within the hospitality sector at this time)

4. Have requested assistance from the City for the cost of maintaining the bowling greens to competition standard between July and November in lieu of receiving no contribution from the BCBC for these costs.

Belmont City Bowling Club:

1. Wish to have bowling greens under their control
2. Want continuation of the grant of \$32,000 per annum or City to cover a portion of the cost of the greenskeeper
3. Want \$25,000 per annum contribution for the remainder of the greens maintenance cost from City or BSRC
4. Preference not to be party to a joint agreement.

Confidential Attachment 12.2.4 is a proposal submitted to the City by the BCBC, that was received on Tuesday, 12 April 2022 at 8:33pm. A summary of the proposal is outlined below:

1. BCBC is given security of tenure through a lease or agreement
2. BCBC is to be given first priority for booking the lounge area, with the proposal specifically referring to the “Bowlers Lounge”
3. BCBC is given full control of the bowling greens, shed, office, small kitchen, ladies room, bowls lockers and storage.

As advised by the Lawyers and for the reasons outlined within this report, it is not possible to excise a portion of the area currently leased to the BSRC to create a separate lease directly with the BCBC, in order to provide exclusive use for spaces within the building.

Although a lease directly between the City and the BCBC for a portion of the building is not possible, if a group were to be given an exclusive lease for outdoor areas and a building (or portion of), the group would typically cover all costs associated with occupying those areas (including but not limited to routine maintenance, utilities, telecommunications etc.).

As the proposal was received after the finalisation of this report, a full analysis of the potential costs involved with operating the areas requested within the proposal has not been possible. Based on information available regarding costs associated with occupying and operating the areas requested, the City estimates that it would be in excess of \$125,000 per annum. No details have been provided in the proposal in relation to how the costs associated with the proposed exclusive use areas would be funded by the BCBC.

Should the BCBC and BSRC be willing to negotiate, the proposed terms contained in the proposal received from the BCBC (Confidential Attachment 12.2.4) could form part of a sub-lease between the two parties, within which the financial arrangements could be addressed and agreed upon.

Strengths

Weaknesses

Collaboration of clubs would be viable financially and socially. Harmony between the use of the bowling greens and ancillary facilities.	Reliant on major improvements to the relationship between the clubs.
Opportunities	Threats
Fresh start.	Existing relationship issues and history.

Failing agreement by the BSRC and the BCBC by the absolute deadline, under Option 1 a consensus from all parties should be acknowledged that the BSRC remain as Lessee and would continue to operate the facility in accordance with the existing Lease.

Strengths	Weaknesses
Not reliant on a positive relationship between the clubs. Conclusion of the issue for the BSRC.	Does not respond to the issues of the BCBC.
Opportunities	Threats
Fresh start.	The BCBC not having access to bowling facilities at 400 Abernethy Road.

Option 2: Terminate the lease with the BSRC by providing the six months’ notice and undertake an Expression of Interest process for the property during the notice period.

Under this option, the City would terminate the existing Lease in accordance with *Clause 22. Right to terminate upon notice*; whereby the City can terminate the lease agreement for any reason upon six months written notice to the Lessee.

Within the six month notice period, the City would prepare and advertise an Expression of Interest for the property. The Expression of Interest would include a scope of requirements for interested parties to respond to.

- Lease/City Maintained – City responsible for all maintenance, rent payable (ideally based on cost recovery or above)
- Lease/Lessee Maintained – Lessee responsible for all maintenance, peppercorn rent
- Management Agreement – multiple users (consortium of recreational clubs)

Local governments are increasingly moving towards a model where maintenance of Council assets is kept in house, with tenants being responsible for payment of these costs under a

cost recovery plan. This ensures that maintenance of facilities is kept in line with agreed service levels within the Council’s asset management plans and ensures compliance with all relevant regulatory requirements. However, there are also several examples where successful and profitable clubs and community organisations take a land lease for a site and then develop and manage their own facility. In order for a lease based on the lessee undertaking maintenance to be viable, respondents would need to demonstrate both financial and operational ability to commit to good quality asset management and maintenance of the facility.

Respondents to the EOI may request a financial contribution toward establishment costs and/or fit out where the existing premises does not meet their specific requirements.

Strengths	Weaknesses
<p>Not reliant on a positive relationship between the clubs.</p> <p>Provides Council with an opportunity to see what (if any interest) the appetite is within the community for a revised operating model at the 400 Abernethy Road site.</p> <p>The BSRC and the BCBC could consider responding to the EOI process.</p>	<p>While the City can terminate the lease ‘for any reason’, it could be seen to be unreasonable to terminate based on failure to negotiate a sublease with a third party.</p> <p>In the absence of an agreed sub-lease, if the BCBC is unable to reach an agreement with the successful respondent to the EOI process, the matter will not be resolved.</p>
Opportunities	Threats
<p>Fresh start.</p>	<p>While legal to terminate, the decision could be challenged by the BSRC in the event the club determines this is unreasonable.</p>

Option 3: Terminate the lease with BSRC and City resume control of the site as a venue for hire - all maintenance of the buildings and surrounds (including the greens) to be undertaken by the City.

Under this option, the City would terminate the existing Lease in accordance with *Clause 22. Right to terminate upon notice*; whereby the City can terminate the lease agreement for any reason upon six months written notice to the Lessee.

Within the six month notice period, the City would prepare a plan for the spaces within the facility to be made available under hire arrangements to be managed by the Venue Bookings team.

Strengths	Weaknesses
-----------	------------

Not reliant on a positive relationship between the clubs.	<p>While the City can terminate the lease ‘for any reason’, it could be seen to be unreasonable to terminate based on failure to negotiate a sublease with a third party.</p> <p>Could require significant expense to bring the facility up to the standards of other venues currently available for hire within the City.</p> <p>The City would need to commit additional staff and resources to manage the venue on a daily basis.</p>
Opportunities	Threats
Fresh start.	While legal to terminate, the decision could be challenged by the BSRC in the event the club determines this is unreasonable.

Option 4: The City to take responsibility for the maintenance of the greens to the appropriate standard, removing the greens maintenance clause from the lease.

Under this option the City would become responsible for the maintenance of the greens through the appointment of a contractor. This would ensure that the greens are maintained to the appropriate standard. The grant of \$32,000 provided to the BCBC would cease. However, the City would take on the additional cost for greens maintenance.

The City would recover costs associated with maintenance of the bowling greens through the application of hire fees for using the greens, as the City does with other sporting groups using its active reserves. User fees would be determined on an annual basis when reviewing the City’s Fees and Charges, and this would be based on a market analysis undertaken against similar facilities within other LGAs.

Agreement between the two clubs (or other users wishing to hire the greens) would still be required for access to spaces within the facility leased by the BSRC, for the BCBC. The bowling greens would also need to be excised from the leased area, in the event the BSRC does not agree to the excision, the City would need to consider a secondary option.

Strengths	Weaknesses
Not reliant on relationship between the clubs to agree who should maintain the greens.	<p>Reliant on the two clubs coming to a formal agreement with regard to access to the facility.</p> <p>Reliant on the BSRC relinquishing portion of their lease area and effectively relinquishing a potential revenue stream from their business.</p>

Opportunities	Threats
Fresh start.	Additional unrecoverable costs to the City.

Option 5: Provide the BSRC and BCBC with an absolute deadline for the negotiation of terms of a sub-lease agreement, by 30 May 2022, based on terms recommended by the City.

As noted under Option 1, in October 2021 City officers developed draft terms for consideration, that while deemed reasonable by Bowls WA for a bowling club in general terms, the terms were not supported by the BCBC and minor amendments were requested by the BSRC.

Although the City would not typically become involved in or determine the terms of a sub-lease, in an effort to resolve this matter a modified version of the terms suggested previously to the clubs by the City has been developed. The modified terms provide improved clarity regarding terms, use and financial support:

Item	Proposed Term
Length of Agreement	In line with (Head) Lease
Areas of Property Covered in Agreement	<p><u>Exclusive use</u></p> <ul style="list-style-type: none"> • BCBC - Bowling greens A + B from sunrise through to 6pm each day • BSRC – Bowling green C at all times, and access to A + B from 6pm each day through to the close of business for that day. <p><u>BCBC Access During Pennants</u></p> <ul style="list-style-type: none"> • An appropriate indoor lounge area • Small kitchen • To be booked with at least two months' notice by the BCBC to the BSRC <p><u>BCBC Access - At all times</u></p> <ul style="list-style-type: none"> • Access to toilets and bar
Maintenance Responsibility	<ul style="list-style-type: none"> • BSRC is responsible for maintaining greens A, B and C to a standard suitable for social bowls and greens A + B are to be kept to Bowls WA Competition Standard. • The City will provide the BSRC with a one-off grant of up to \$10,000 for the purpose of purchasing greens maintenance equipment (reimbursement of actual cost up to \$10,000; proof of purchase required). • BSRC responsible for the ongoing provision, maintenance and replacement of greens maintenance equipment.

Item	Proposed Term
	<ul style="list-style-type: none"> • Synthetic green, if it proceeds, will be installed on bowling green A or B.
Financial Support	<ul style="list-style-type: none"> • BCBC will no longer be provided with the \$32,000 grant, on the basis the club is no longer maintaining bowling greens. • BSRC will be allocated an ongoing grant of \$32,000 per annum (for the remaining term of the lease) to support the cost of maintaining the bowling greens. • BSRC will provide exclusive access to an appropriate lounge area during pennant competitions (with 1 hour set up and 1 hour pack down allowance each day). Usage will be free of charge and the BCBC is to provide two months' notice of booking requirements. • Hire fees and food/beverage packages associated with special events held or hosted by the BCBC, are to be negotiated between the two parties, however there is no obligation on the BSRC to provide a discounted rate and hire is subject to availability.
KPI Driven Financial Support for BCBC	<p>In the event the BCBC meets all of the following KPIs each year, the Club will be able to access an Annual KPI Grant of \$10,000 through to the expiry of the sub-lease:</p> <ul style="list-style-type: none"> • A detailed Financial Sustainability Plan outlining how the Club intends to become progressively independent from the City's funding. • Sponsorship funds sought, grants attained and income which support the recurring operational expense requirements and the outcomes of these activities. • Active promotion and marketing of the club to ensure member growth and that a more diverse cohort of club members is achieved, with a focus on attracting members of a diverse age, culture and abilities. • Partnerships with wellbeing and/or active living providers/services in the promotion, delivery and hosting of two physical health and wellbeing workshops/forums, to be based around bowling as an activity to promote healthy living. • Representation and attendance by two members of the BCBC at the City's Access and Inclusion and/or the Belmont Age Friendly Focus Group (and the subsequent development of new networks as a result of being an active member of these Focus Groups). <p>Partial meeting of KPIs will not attract a partial payment of the KPI Grant. The above KPIs will be recorded under a Memorandum of Understanding, on the standard terms and</p>

Item	Proposed Term
	<p>conditions applicable to similar groups, including reporting requirements.</p>
<p>KPI Driven Financial Support for BSRC</p>	<p>In the event the BSRC meets all of the following KPIs each year, the Club will be able to access an Annual KPI Grant of \$10,000 through to the expiry of the head lease:</p> <ul style="list-style-type: none"> • Bowling greens are always maintained to the required standard including maintaining greens A, B and C to a standard suitable for playing social bowls and maintaining greens A + B to Bowls WA Competition Standard. • A detailed Financial Sustainability Plan outlining how the Club intends to become progressively independent from the City's funding. • Sponsorship funds sought, grants attained and income which support the recurring operational expense requirements and the outcomes of these activities. • Active promotion and marketing of the club to ensure member growth and that a more diverse cohort of club members is achieved, with a focus on attracting members of a diverse age, culture and abilities. • Partnerships with wellbeing and/or active living providers/services in the promotion, delivery and hosting of two physical health and wellbeing workshops/forums, to be based around bowling as an activity to promote healthy living. • Representation and attendance by two members of the BSRC at the City's Access and Inclusion Focus Group (and the subsequent development of new networks as a result of being an active member of this Focus Group). <p>Partial meeting of KPIs will not attract a partial payment of the KPI Grant. The above KPIs will be recorded under a Memorandum of Understanding, on the standard terms and conditions applicable to similar groups, including reporting requirements.</p>
<p>Fees</p>	<ul style="list-style-type: none"> • BCBC are to pay the BSRC \$14,000 per annum as a maintenance contribution for the use of the bowling greens, whilst all of the bowling greens are grass. • BCBC are to pay the BSRC a reduced fee of \$10,000 per annum as a maintenance contribution for the use of the bowling greens, upon installation of a synthetic green. • BSRC will retain all income generated from the bowling greens (including but not limited to corporate bowls and

Item	Proposed Term
	bowling green hire) outside the designated hours of use for the BCBC.

This option would undergo a review 12 months prior to the expiry of the head lease in May 2026, with a review undertaken of the performance of each club in relation to the delivery of its KPIs, financial management and club growth in relation to membership numbers and diversity of membership. Continuation of the KPI driven grants would be considered as part of the evaluation of the performance of each club and intended future leasing arrangements. In the event the BSRC and BCBC mutually agree to a modified version of the terms outlined under Option 5, this will be subject to the changes not incurring any additional costs for the City and is subject to the acceptance of the City.

In accordance with the current lease agreement, the City and the Minister for Lands have rights of approval for any sub-lease with absolute discretion to withhold consent for any reason.

Failing agreement by the BSRC and the BCBC by the absolute deadline, under Option 5, a consensus from all parties should be acknowledged that the BSRC remain as Lessee and would continue to operate the facility in accordance with the existing Lease. If the clubs do not reach an agreement under Option 5, no grant funding would be payable to either party aside from the standard grant programs available to all groups and clubs within the City.

Strengths	Weaknesses
<p>Collaboration of clubs would be viable financially and socially.</p> <p>Harmony between the use of the bowling greens and ancillary facilities.</p>	<p>Reliant on major improvements to the relationship between the clubs.</p>
Opportunities	Threats
<p>Fresh start.</p>	<p>Existing relationship issues and history.</p>

Financial implications

Costs associated with the engagement of a consultant and legal advice related to this matter are captured within the City Facilities and Properties operational budget.

In relation to the proposed options, detailed below is an estimate of the cost associated with each option:

Option 1: No cost except for the existing grant of \$32,000, minimal officer time.

Option 2: Costs associated with an EOI process (including advertising, officer time, legal expenses etc,) is estimated at \$30,000. This would be funded through the City Facilities

and Property operational budget. EOI respondents may request financial support as part of their submission to assist with establishment costs.

Option 3: Estimated costs for the City to manage the facility as a venue for hire would need to take into consideration the following items, including but not limited to annual building maintenance of around \$90,000, greens maintenance known to be circa \$75,000 and utilities of around \$37,000. The City’s expenditure of \$32,000 a year in the form of a grant to the BCBC for greens maintenance would be reduced to \$0.

The property would also cease to be liable for local government rates, which would further reduce existing annual expenditure by \$13,000. Cost is estimated at \$157,000 per annum and potential income would offset this amount.

The City may also need to consider additional costs to implement this option, including items such as infrastructure to bring the facility up to the standards of other venues currently available for hire within the City, including the installation of a new security and access control system. The City would also need to commit additional staff and resources to manage the venue on a daily basis.

Option 4: The costs to maintain the greens to competition standards is known to be circa \$75,000 per annum. Cessation of the \$32,000 grant to BCBC will leave a shortfall of around \$43,000 which would need to be budgeted for by the City.

This does not include the cost of utilities used for maintaining the greens which are currently covered under the BSRC lease arrangements. Separate meters would need to be installed to support the provision of electricity and water to the bowling greens, which is estimated at \$25,000 (one off cost) and the ongoing cost of utilities which is estimated at \$16,000 per annum. There would also be legal fees associated with the preparation of new lease sketches required for excising the bowling greens from the leased area, which are estimated at \$6,000.

Option 5: The costs associated with this option relate to grants to be provided to the BSRC in support of maintaining the bowling greens, equating to \$32,000 per annum and two KPI driven grants which includes two grants of \$10,000 each per annum for the BCBC and the BSRC to support the delivery of programs and growth for both clubs. Both grants are subject to the parties meeting KPIs associated with accessing the grants and would apply through to the expiry of the head lease and sub-lease for each party. One additional one-off grant is available (up to \$10,000) to assist with the purchase of maintenance equipment for the bowling greens. Some officer time, can be managed with existing resources.

Financial estimates for option implementation	
Option 1	Nil cost, except for existing grant in place for \$32,000
Option 2	Approx. \$30,000, plus any dispensations requested by respondents as part of EOI submission
Option 3	Approx. \$157,000 per annum plus staffing costs and security upgrades. Potential income would offset this amount.

Option 4	Approx. \$90,000 per annum, plus an initial establishment cost of \$31,000
Option 5	\$32,000 to \$52,000 (in the event both clubs meet grant requirements), plus a one-off grant up to \$10,000 for equipment acquisition

Conclusion

The City has outlined within this report details relating to five options which are summarised in the table below:

Option Ref.	Overview
1	Provide the BSRC and BCBC with an absolute deadline for the negotiation of terms of a sub-lease agreement by 30 May 2022. Failing agreement, acknowledge the BSRC's right to quiet enjoyment of the premises (status quo remains).
2	Terminate the lease with the BSRC by providing the six months' notice and undertake an Expression of Interest process for the property during the notice period. Suitable proponents could apply based on any of the following options: <ul style="list-style-type: none"> a. Lease – City responsible for all maintenance, rent payable (based on cost recovery or above); b. Lease – Lessee responsible for all maintenance, peppercorn rent; or c. Management Agreement – multiple users (consortium of recreational clubs)
3	Terminate the lease with BSRC and the City resumes control of the site as a venue for hire, all maintenance of the buildings and surrounds (including the greens) to be undertaken by the City. Terminate the annual grant to the BCBC for greens maintenance.
4	The City takes over responsibility for the maintenance of the bowling greens to the appropriate standard, removing the greens maintenance clause from the lease, excising the bowling greens from the lease (subject to BSRC consent) and terminating the annual grant to the BCBC for greens maintenance.
5	Provide the BSRC and BCBC with an absolute deadline to agree to the terms of a sub-lease agreement by 30 May 2022, based on the terms outlined by the City under Option 5. Failing agreement, acknowledge the BSRC's right to quiet enjoyment of the premises (status quo remains). The existing annual grant for greens maintenance to the BCBC is terminated and three new grants are established, two to the BSRC and one to BCBC.

In formulating a recommendation in relation to what the City's officers believe is the most appropriate option, the City has considered a number of factors including existing

relationship challenges on site, contributing factors to the existing issues and the current financial and membership situation for each club.

Outlined below are some of the key considerations in relation to providing a recommendation to Council:

- In the event the lease was terminated and another lessee secured for the premises through an EOI process, to be a user on site, the BCBC would need to negotiate and agree on a sub-lease. Based on the City's experience to date in engaging with the two clubs and external advice provided in relation to the participation of the parties during the investigation, similar challenges may be faced under a new lessee and there would be no guarantee they would be able to reach an agreement in relation to a sub-lease with the BCBC. On this basis the City believes there is a high probability that the existing issues on site will not be resolved through lease termination at this time.
- If the bowling greens were to be excised and placed under a direct lease with the BCBC (or any other bowling club), the club would still be reliant on access to the main building for bathroom facilities and social areas, without an agreement with the head lessee this option would not be viable. Similarly, the building is not designed in a manner that would lend itself to being split into separate leased areas.
- From a cost benefit analysis, investing in new standalone facilities for a single club with low membership numbers would not be a prudent use of financial resources. Standalone facilities do not align with a modern approach for facility provision, whereby use is maximised through co-locating sporting clubs and/or community groups into a hub.
- The City is conscious of the financial position and member numbers associated with the BCBC, and believes it is important for this club to partner with larger club (as a head lessee) to ensure its future success.
- The City must be mindful of both the needs and existing arrangements in place for the other sporting clubs and community groups across the City.

While the City recognises that there will be varying degrees of angst for the individual clubs for all options, based on the outcome of the investigation undertaken and all factors considered, City officers consider Option 1 as the preferred option, with Option 5 as the second preferred option.

Environmental implications

There are no environmental implications associated with this report.

Social implications

Failure to resolve the issues between the clubs could have a negative impact on the clubs and their members as well as a negative reputational impact on the City. Conversely, steps taken to resolve the issues, for example through lease termination, may in turn have a negative impact on the clubs and their members, as well as a negative reputational impact on the City.

Officer Recommendation

That Council:

1. Endorse Option _____, as detailed within the Comments section of the report.
2. Directs the Chief Executive Officer to take all necessary action to implement this decision.
3. The costs associated with the decision in Recommendation 1 above are to be considered as part of the 2022-2023 Budget process, if required.
4. Directs the Chief Executive Officer to make adjustments to the budget for 2021-2022 to implement the decision in Recommendation 1 above, if required.

Note:

Cr Sekulla put forward the following Alternative Motion.

Cr Davis and Cr Sessions suggested amendments to the Alternative Motion, which was agreed to by Cr Sekulla.

Alternative Councillor Motion

Sekulla moved, Carter seconded

That Council:

1. Endorse Option 4, as detailed within the Comments section of the report.
2. That Belmont Sports and Recreation Club is provided with a pro-rata payment for a contribution equivalent to \$32,000 per annum to support the Club with costs associated with undertaking bowling green maintenance during the 2021-2022 financial year, to be funded through the annual contribution of \$32,000 previously available to support the Belmont City Bowling Club with the cost of maintaining the bowling greens. This new contribution of \$32,000 per annum will:
 - Be subject to the Belmont Sports and Recreation Club entering into a Memorandum of Understanding with the City in relation to the provision of a contribution to support the Belmont Sports and Recreation Club with maintaining the bowling greens to Bowls WA standard as needed (on an interim basis); and

- Remain payable on a pro-rata, monthly basis until the City takes over the maintenance of the bowling greens.
3. The contribution previously provided to the Belmont City Bowling Club to assist with costs associated with maintaining the bowling greens will cease, effective immediately.
 4. Directs the Chief Executive Officer to take all necessary action to implement this decision.
 5. The costs associated with the decision in Recommendation 4 above are to be considered as part of the 2022-2023 Budget process, if required.
 6. Directs the Chief Executive Officer to make adjustments to the budget for 2021-2022 to implement the decision in Recommendation 1 above, if required.
 7. Acknowledges the deputations from representatives of the BSRC were given at the Agenda Briefing Forum. These deputations were provided to the City in writing and confirm that the “BSRC gives a commitment to the BCBC to provide wherever and whenever possible the BCBC’s preferred congregation and preparation areas. To also provide the BCBC with an office, ladies lounge area, storage facility and locker rooms for both men’s and ladies BCBC members at the BSRC’s cost.”
 8. Directs the CEO to write to the BSRC and the BCBC informing them of the Council’s resolution and encouraging both Clubs to enter into discussions in good faith to resolve the access issues to the facility by way of an agreement or memorandum of understanding, including BSRC membership for bowlers

Carried by Absolute Majority 9 votes to 0

Reason

1. Option 4 is the best outcome for both clubs.
2. The relationship between the two clubs has been adversely affected.
3. The bowling greens maintenance will be managed by the City of Belmont. The Belmont City Bowling Club will communicate to the City of Belmont in greens management and maintenance matters.
4. Both parties have not achieved an agreement. Further negotiations outcome may be dissentious with no positive result.
5. Option 4 will allow the Belmont City Bowling Club to commence bowling.
6. The provision of a contribution to the Belmont Sports & Recreation Club assists this club with costs associated with undertaking greens maintenance.
7. It is important that the City of Belmont supports both clubs, the Belmont Sports & Recreation Club and the Belmont City Bowling Club for the benefit of the local community.

12.3 Annual Electors' Meeting Minutes - 16 March 2022

Attachment details

Attachment No and title
1. Annual Electors Meeting 16 March 2022 Minutes [12.3.1 - 7 pages]

Council role

- Advocacy** When Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council eg adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting local laws, local planning schemes and policies.
- Review** When Council reviews decisions made by Officers.
- Quasi-Judicial** When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

For Council to consider the outcomes and confirm the Minutes of the Annual Electors' Meeting held on Wednesday 16 March 2022 (refer Attachment 12.3.1).

Summary and key issues

In accordance with Section 5.33 of the *Local Government Act 1995*, Council endorsement and confirmation of the Minutes of the Annual Electors' Meeting held on Wednesday, 16 March 2022 is required.

Council is also required to consider decisions made at the electors' meeting and record the reason for any decision made at a Council Meeting in response to a decision made at an electors' meeting in the minutes.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations

Policy implications

There are no policy implications associated with this report.

Statutory environment

Section 5.27 of the *Local Government Act 1995* requires that a general meeting of electors be held once every financial year. The meeting is to occur not more than 56 days after the local government accepts the Annual Report.

'5.27 Electors' general meetings

- (1) A general meeting of the electors of a district is to be held once every financial year.

- (2) A general meeting is to be held on a day selected by the local government but not more than 56 days after the local government accepts the annual report for the previous financial year.
- (3) The matters to be discussed at general electors' meetings are to be those prescribed.'

The City of Belmont 2020-2021 Annual Report was formally adopted at the 22 February 2022 Ordinary Council Meeting.

Regulation 15 of the *Local Government (Administration) Regulations 1996* outlines the matters to be discussed at the electors' general meeting.

'15. Matters to be discussed at general meeting (Act s5.27(3))

For the purposes of Section 5.27(3), the matters to be discussed at a general electors' meeting are, firstly, the contents of the annual report for the previous financial year and then any other general business.'

Section 5.32 of the *Local Government Act 1995* requires that the minutes of the electors' general meeting be kept and made available for public inspection before the Council Meeting at which decisions made at the electors' meeting are first considered.

Section 5.33 of the *Local Government Act 1995* requires all decisions made at electors' meetings be considered at the next available Ordinary Council Meeting, or, if not possible at a Special Council Meeting called for that purpose, whichever happens first. The reasons for a decision made at a Council Meeting in response to a decision made at an electors' meeting are to be recorded in the minutes of the Council Meeting.

Background

The Annual Electors' Meeting was held on Wednesday 16 March 2022 at the City of Belmont Civic Centre, 215 Wright Street, Cloverdale.

Officer comment

Public notice of the Annual Electors' Meeting was placed in The West Australian on Wednesday 2 March 2022 and Perth Now on 3 March 2022 and 10 March 2022.

Public notice was also placed on the notice board in the City of Belmont Civic Centre, the e-Community Board in the Ruth Faulkner Library, the City's website and advertised on social media.

There were four electors in attendance, being:

Mr J Bass
Mrs J Carn
Mrs G Godfrey
Mrs D Metcalf

The following decision was made at the Annual Electors' Meeting held on Wednesday 16 March 2022:

- Receipt of the City of Belmont 2020-2021 Annual Report.

Questions and responses in relation to the reports included in the 2020-2021 Annual Report are included in the minutes of the meeting (refer Attachment 12.3.1)

Under general business, the Mayor invited any further questions. Questions and responses are included in the minutes of the meeting.

There were no questions taken on notice and no Notices of Motion received.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Officer Recommendation

That Council confirm the Minutes of the Annual Electors' Meeting held on Wednesday 16 March 2022 (refer Attachment 12.3.1) as a true and accurate record.

Officer Recommendation adopted en bloc by Absolute Majority - Refer to Resolution appearing at Item 12.

I Welcome

7.05pm The Presiding Member welcomed all those in attendance and declared the meeting open.

The Presiding Member read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Noongar Whadjuk people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging. I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

2 Apologies and leave of absence

Cr G Sekulla, JP

West Ward

3 Report of the Mayor

The Report of the Mayor is contained in the 2020-2021 Annual Report. The Mayor asked if there were any questions on the report.

There were none.

4 Report of the Chief Executive Officer

The Chief Executive Officer's report is contained in the 2020-2021 Annual Report. The Mayor asked if there were any questions on the report.

There were none.

5 Receiving the Annual Report

The Presiding Member asked if there were any questions on the 2020-2021 Annual Report.

Ms G Godfrey asked the following questions:

1. Why is this meeting being held in March when it is normally held in December?

Response

The Chief Executive Officer advised that this was as a result of a delay in the audited accounts being received from the Office of the Auditor General (OAG).

2. Was the cause of the delay due to the City or State Department?

Response

The Chief Executive officer advised that the City were notified by the OAG late in 2021 that there would be a delay in the audited accounts being received due to staffing issues at the OAG.

3. On page 65 of the Annual Report the amount for Parks and Gardens is \$22,826,376. Is this for maintenance or assets and why has it been the same for the last two years in a row?

Response

The Chief Executive Officer advised that he believed the amount was the total cost of maintenance of parks and gardens, including foreshore reserves.

Note: The Chief Executive Officer sent further clarification to Ms Godfrey following the meeting as follows:

I can confirm that this amount relates to the asset valuation of the Parks and Gardens turf areas. The amount has remained the same as the previous year as there was no depreciation applied to this asset class over the past 12 months. The depreciation on this asset class is reviewed every three years.

4. The reserve for the Oasis, is that the reserve the City are putting aside to refurbish the oasis, or do the Oasis pay towards the cost?

Response

The Chief Executive Officer advised the reserve was for refurbishment at the Oasis as and when required.

Officer Recommendation

Ms G Godfrey moved, Mr J Bass seconded

That the City of Belmont [Annual Report 2020-2021](#) be received.

Carried 4/0

7.19pm The Presiding Member advised that the meeting required to be adjourned for a few minutes as the Chief Executive Officer had an urgent matter to deal with.

7.21pm The Presiding Member re-opened the meeting.

6 General business

6.1 Mrs J Carn, Cloverdale

1. Who told the Council that the Belmont City Bowling Club do not want to be there any more?

Response

The Mayor and the Chief Executive Officer stated that no-one had mentioned this.

6.2 Mrs D Metcalf, Kewdale

1. Does the City of Belmont want a Bowling Club in Belmont?

Response

The Mayor stated that the City certainly does.

2. Is the Council aware it is ignoring the skills and basis of the Bowling Club with changes from the original Lease, giving the Belmont Sports and Recreation Club (BSRC) total control, and the BSRC are missing out from money because we cannot play?

Response

The Chief Executive Officer stated the terms and conditions of the new lease are similar. The BSRC have always been responsible for the maintenance of the Leased area, which includes the bowling greens, however, the previous Lease did not mention the bowling greens specifically and the new Lease does.

3. Why has the report on this matter moved to April? This is causing anxiety for many people as they have to travel far to play matches that should have been held in Belmont.

Response

The Chief Executive Officer stated information was presented to Council at an Information Forum last week. A number of questions were raised by Councillors and further research is required. Staff have been requested to undertake a review of other clubs/facilities in other local government areas. Extra time is required for staff to undertake this research by contacting other organisations and local governments.

6.3 Mrs G Godfrey, Redcliffe

1. Our club is asking for serious consideration to action the synthetic green. We were told nothing will be done until the sub-lease is resolved. We have a Federal grant verbally accepted. Our members have saved up \$100,000. The Council need to get organised and put in place the tender. I want a commitment from elected members that this will be in next year's budget.

Response

The Chief Executive officer advised that the funds for the synthetic green are in this year's budget. Representatives from the Bowling Club were reluctant to commit the \$100,000 due to clauses in the Lease that BSRC could terminate the Lease with three months' notice and the City could terminate the Lease with six months' notice. The Chief Executive Officer stated he was willing to commit to take this forward and would formally write to the Bowling Club asking for their commitment and if the BCBC commit, Officers can commence this project.

7 Closure

There being no further business, the Presiding Member thanked everyone for their attendance and closed the meeting at 7.40pm.

12.4 Accounts for Payment - March 2022

Attachment details

Attachment No. and title
1. Accounts for Payment - March 2022 [12.4.1 - 13 pages]

Voting Requirement	:	Simple Majority
Subject Index	:	54/007-Creditors-Payment Authorisations
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	N/A
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

- Advocacy** When Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council eg adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting local laws, local planning schemes and policies.
- Review** When Council reviews decisions made by Officers.
- Quasi-Judicial** When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

To present to Council the list of expenditure paid for the period 1 March 2022 to 31 March 2022 under delegated authority.

Summary and key issues

A list of payments is presented to the Council each month for confirmation and endorsement in accordance with the *Local Government (Financial Management) Regulations 1996*.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.2 Manage the City's assets and financial resources in a responsible manner and provide the best possible services for the community

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations

Policy implications

There are no policy implications associated with this report.

Statutory environment

Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996* states:

“If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared:

- (a) the payee's name;
- (b) the amount of the payment;
- (c) the date of the payment; and

(d) sufficient information to identify the transaction.”

(3) A list prepared under sub regulation (1) is to be presented to Council at the next ordinary meeting of Council after the list is prepared; and recorded in the minutes of that meeting.

Background

Council has delegated to the Chief Executive Officer under Delegation 1.1.18 to make payment from the Municipal and Trust Fund account. In accordance with Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996*, where this power has been delegated, a list of payments each month is to be compiled and presented to Council.

Officer comment

The following summary of payments are recommended for confirmation and endorsement.

Payment type	Payment reference	\$
Municipal Fund Cheques	788785 to 788792	5,115.89
Municipal Fund EFTs	EF079951 to EF078306	2,589,664.35
Municipal Fund Payroll	March 2022	1,450,072.84
Trust Fund EFT	EF078047 to EF078048	7,335.19
Total Payments for March 2022		4,052,188.27

A copy of the Authorised Payment Listing is included as Attachment 12.4.1.

Financial implications

All expenditure included in the Authorised Payment Listing is in accordance with Council's Annual budget.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Officer Recommendation

That the Authorised Payment Listing for March 2022 as provided under Attachment 12.4.1 be received.

Officer Recommendation adopted en bloc by Absolute Majority - Refer to Resolution appearing at Item 12.

12.5 Monthly Activity Statement as at 31 March 2022

Attachment details

Attachment No and title
1. Financial Activity Report March 2022 [12.5.1 - 9 pages]

Voting Requirement	:	Simple Majority
Subject Index	:	Monthly Activity Statement as at 31 March 2022
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	N/A
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

- Advocacy** When Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council eg adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting local laws, local planning schemes and policies.
- Review** When Council reviews decisions made by Officers.
- Quasi-Judicial** When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

To provide Council with relevant monthly financial information for the period ending 31 March 2022.

Summary and key issues

The following report includes a concise list of material variances and a Reconciliation of Net Current Assets for the month ending 31 March 2022.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.2 Manage the City's assets and financial resources in a responsible manner and provide the best possible services for the community

Policy implications

There are no policy implications associated with this report.

Statutory environment

Section 6.4 of the *Local Government Act 1995* in conjunction with Regulations 34 (1) of the *Local Government (Financial Management) Regulations 1996* requires monthly financial reports to be presented to Council.

Regulation 34(1) requires a monthly Statement of Financial Activity reporting on revenue and expenditure.

Regulation 34(5) determines the mechanism required to ascertain the definition of material variances which are required to be reported to Council as a part of the monthly report. It also requires Council to adopt a “percentage or value” for what it will consider to be material variances on an annual basis. Further clarification is provided in the Officer Comments section.

Background

The *Local Government (Financial Management) Regulations 1996* requires that financial statements are presented on a monthly basis to Council. Council has adopted 10% of the budgeted closing balance as the materiality threshold.

Officer comment

The Statutory Monthly Financial Report is to consist of a Statement of Financial Activity reporting on revenue and expenditure as set out in the Annual Budget. It is required to include:

- Annual budget estimates
- Budget estimates to the end of the reporting month
- Actual amounts to the end of the reporting month
- Material variances between comparable amounts
- Net current assets as at the end of the reporting month.

Previous amendments to the Regulations fundamentally changed the reporting structure which requires reporting of information consistent with the “cash” component of Council’s budget rather than being “accrual” based.

The monthly financial report is to be accompanied by:

- An explanation of the composition of the net current assets, less committed* and restricted** assets
- An explanation of material variances***
- Such other information as is considered relevant by the local government.

*Revenue unspent but set aside under the annual budget for a specific purpose.

**Assets which are restricted by way of externally imposed conditions of use e.g. tied grants.

***Based on a materiality threshold of 10%.

In order to provide more details regarding significant variations as included in Attachment 12.5.1 the following summary is provided.

Report Section	Budget YTD	Actual YTD	Comment
Expenditure - Capital			
Computing	592,500	71,393	Variance due to Disaster Recovery to Cloud Project and

Report Section	Budget YTD	Actual YTD	Comment
			Redevelopment of BelNet yet to commence
City Facilities & Property	106,500	0	Purchase of equipment for Glasshouse project yet to occur and consultancy project associated with land asset management yet to commence.
Town Planning	90,500	0	Purchase of new fleet yet to occur and timing variance for Springs development contribution.
Environment	471,320	86,617	Variance is due to project phasing of Esplanade Foreshore Stabilisation Project & Garvey Park Section 2 Project.
Grounds Operations	1,188,959	354,502	Timing variance due to playground replacement projects for Miles Park and Middleton Park and various irrigation projects.
Road Works	2,394,384	2,027,502	Budget variance due to timing of receipt invoices for road works on Abernethy Road and other minor variances.
Streetscapes	179,741	110,275	Phasing of renewal of irrigation/landscaping of Forester Park - Abernethy Rd and timing of Bus Shelter Renewal Program has resulted in variances.
Operations Centre	162,172	70,609	Variance due to timing of replacement of plant.
Building Operations	2,355,132	1,873,702	Variance due to budget timing of the Glasshouse Project and Belmont Tennis Club Lighting Upgrade Project.
City Projects	94,295	43,958	Variance relates to Wilson Park Netball Court Project. The commencement date of the project has been deferred to 2022/2023.
Expenditure - Operating			

Report Section	Budget YTD	Actual YTD	Comment
Finance Department	1,606,731	1,435,956	Variance attributed to salaries due to vacancies and auditing fees not yet invoiced.
Computing	2,283,341	2,123,302	Software licenses and subscription invoices have not been received.
Marketing & Communications	1,771,422	1,329,175	Salaries are below budget due to vacancies.
Insurance	896,365	982,385	Additional workers compensation adjustment required for 2018 - 2020 based on actual performance.
Executive Services	1,137,931	1,043,255	Salaries are below budget due to vacancies.
Records Management	615,376	549,770	Salaries are below budget due to vacancies.
Human Resources	1,377,316	1,196,262	Salaries are below budget due to vacancies.
Organisational Development	705,584	575,671	Salaries are below budget due to vacancies.
Governance	2,597,959	2,316,341	Variances due to timing of Activity Based Costing allocations.
Belmont Trust	135,000	41,982	Variance due to timing of legal and consultancy costs.
Accommodation Costs	521,425	441,570	Cleaning costs & equipment maintenance are lower than anticipated.
Rates	2,545,540	2,453,286	Salaries are below budget due to vacancies.
City Facilities & Property	698,749	599,709	Variance due to the new on-line booking system (fees for the system are now deducted straight from the booking fee for each venue) and salaries are below budget due to vacancies.
Belmont Community Watch	1,013,636	874,854	Variance due to outstanding invoices for security services.

Report Section	Budget YTD	Actual YTD	Comment
Crime Prevention & Comm Safety	761,940	705,507	Variance due to timing of reimbursement of positive engagement grant funds.
Health	1,198,528	1,111,229	Salaries are below budget due to vacancies.
Engagement Strategies	1,156,839	1,065,944	Variances for salaries and other services.
Town Planning	2,191,395	1,966,347	Variances for salaries, legal and consultancy costs.
Sanitation Charges	3,964,466	3,429,228	Variance due to outstanding invoices relating to rubbish services and salaries.
Marketing & Communications	485,550	307,068	Variance due to cancellation of community events (Kidz Fest, Harmony Day) because of COVID-19.
Ruth Faulkner Library	2,375,296	2,140,838	Various minor timing variances due to outstanding invoices and salaries due to vacancies.
Community Place Making	106,666	25,763	Various Art Programs are not proceeding due to current restrictions.
Community Wellbeing	393,073	331,050	Variance is due to consultancy costs relating to Wilson Park netball courts which have been deferred to next financial year.
Community Development	483,788	385,320	Variance due to the spread of donations and project management costs.

Grounds Active Reserves	1,034,815	971,432	Variance relates to timing of invoices for various parks maintenance works.
Grounds Overheads	1,209,513	1,132,337	Variance relates to salaries, wages, and superannuation costs due to vacancies
Streetscapes	1,656,790	1,088,165	Variance relates to budget timing of various budget lines and

Report Section	Budget YTD	Actual YTD	Comment
			savings in wages due to vacancies.
Operations Centre	627,621	680,293	Variance resulting from more fleet usage than anticipated.
Building Operations	1,026,976	964,656	Variance due to salaries, activity-based costing allocations and consulting costs.
Public Works Overheads	1,051,753	982,091	Wages below budget due to vacancies.
Plant Operating Costs	749,700	678,859	Wages below budget due to vacancies.
Technical Services	2,019,714	1,860,123	Variance due to budget phasing of consultancy costs and agency staff.
City Projects	570,396	382,213	Variance due to budget phasing of consultancy costs.
Other Public Works	635,859	527,018	Street lighting costs are paid one month in arrears.
Revenue - Capital			
Human Resources	(154,868)	(33,975)	Variance due to Miscellaneous Entitlements Reserve are below budget spread and vehicle replacement deferred to 2022/2023.
Environment	(84,053)	Nil	Grant income yet to be received.
Grounds Operations	Nil	(53,650)	Grant Income for Gerry Archer Turf was received ahead of budget.
Road Works	(933,779)	(534,655)	Variance for grant income due to capital scheduling being amended.
Revenue - Operating			
Finance Department	(1,603,988)	(1,435,956)	Activity Based Costing (ABC's) recoveries are currently below budget.
Computing	(2,419,122)	(2,123,302)	Activity Based Costing (ABC's) recoveries are currently below budget.

Report Section	Budget YTD	Actual YTD	Comment
Insurance	(865,726)	(948,554)	Insurance reimbursements are higher than expected.
Records Management	(617,617)	(549,770)	ABC recoveries are currently below budget.
Human Resources	(1,132,025)	(1,196,262)	ABC recoveries are above budget.
Rates	(52,767,466)	(52,995,299)	Variance due to the budget phasing of ex gratia rates and favourable interim rating.
Financing Activities	(334,377)	(236,922)	Bank interest is lower than anticipated.
Town Planning	(881,350)	(806,403)	ABC recoveries are currently below budget.
Sanitation Charges	(7,064,219)	(6,660,884)	Variance due to grant income for the Better Bins Program has not been received.
Streetscapes	(120,000)	(55,023)	Contribution income for Orrong Road is expected to be received later in the financial year.
Customer Service	(404,578)	(455,222)	ABC recoveries are above budget.
Public Works Overheads	(994,204)	(908,347)	Wages and salaries recoveries below budget.
Plant Operating Costs	(747,449)	(662,776)	Plant utilisation recovery below budget.

In accordance with *Local Government (Financial Management) Regulations 1996*, Regulation 34 (2)(a) the following table explains the composition of the net current assets amount which appears at the end of the attached report.

Reconciliation of Net Current Assets to Statement of Financial Activity		
Current Assets as at 31 March 2022	\$	Comment
Cash and investments	83,136,824	Includes municipal and reserves
- less non-rate setting cash	(50,691,444)	Reserves

Receivables	3,011,218	Rates levied yet to be received and Sundry Debtors
ESL Receivable	(505,364)	ESL Receivable
Stock on hand	203,049	
Total Current Assets	35,154,283	
Current Liabilities		
Creditors and provisions	(9,583,354)	Includes ESL and deposits
- less non-rate setting creditors & provisions	3,949,123	Cash Backed LSL, current loans and ESL
Total Current Liabilities	(5,634,231)	
Net Current Assets 31 March 2022	29,520,052	
Nett Current Assets as Per Financial Activity Report	29,520,052	
Less Committed Assets	(29,020,052)	All other budgeted expenditure
Estimated Closing Balance	500,000	

Financial implications

The presentation of these reports to Council ensures compliance with the *Local Government Act 1995* and associated Regulations, and also ensures that Council is regularly informed as to the status of its financial position.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Officer Recommendation

That the Monthly Financial Reports as at 31 March 2022 as included in Attachment 12.5.1 be received.

Officer Recommendation adopted en bloc by Absolute Majority - Refer to Resolution appearing at Item 12.

City of Belmont

Monthly Financial Activity Statement for the Period Ending March 2022

Note: Material variances have been identified in accordance with the Local Government (Financial Management) Regulations 34(1)(d) and Australian Accounting Standards (AASB 1031). A variance on the budgeted closing balance has been applied in the determination of material variances.

I 3 Reports by the Chief Executive Officer

I 3.1 Request for leave of absence

Cr Davis requested leave of absence for the period 4 September 2022 to 4 October 2022.

Recommendation

Sekulla moved, Sessions seconded

That Cr Davis be granted leave of absence for the period 4 September 2022 to 4 October 2022.

Carried Unanimously 9 votes to 0

I 3.2 Notice of motion

Nil.

I 4 Matters for which the meeting may be closed

Note:

The Presiding Member advised that in accordance with Section 5.23(2) of the Local Government Act 1995 in order to discuss Confidential Item 14. 1 Council will need to go behind closed doors.

As there were no questions or debate on this item, the meeting did not proceed behind closed doors.

14.1 Annual Information Systems Audit Outcomes: Advice to Minister: Statutory Requirement (s7.12A Local Government Act 1995)

Committee Recommendation

Rossi moved, Bass seconded

That Council receive the report and:

1. Endorse the City of Belmont Action Plan (Confidential Attachment 14.1.1 and Confidential Attachment 14.1.2) addressing the recommendations; and
2. Directs the Chief Executive Officer to advise the Minister for Local Government of the City of Belmont's proposed actions.

Carried Unanimously 9 votes to 0

15 Closure

There being no further business, the Presiding Member thanked everyone for their attendance and closed the meeting at 8.57pm.
