Removal of Swimming Pool/Spa Information

A removed swimming pool or spa is when the entire shell/structure has been completely removed from the property.

Consideration needs to be given for the effective removal of the entire shell/structure so as not to impact on any future development on the property.

The remaining excavation should be backfilled in layers with clean sand and compacted in accordance with Australian Standard 3798–2007 Guidelines on earthworks for commercial and residential developments.

An Authorised Officer from the City will be required to conduct a site inspection to confirm the swimming pool / spa has been removed.

By signing this form, we declare that the swimming pool or spa has been removed from the above property.
