

# Private Contributions to Drainage Works

## Policy Objective

To ensure that developments which need to discharge storm water off site make suitable contribution toward the City's drainage system.

## Policy Detail

The policy allows developers to contribute towards the cost of upgrading Council's drainage system in order to facilitate subdivision and development of land by providing an effective stormwater disposal system.

Contributions are to be paid by developers for developments or subdivisions which require the discharge of storm water runoff off site to the City's street drainage system. The Chief Executive Officer is authorised to assess developments or subdivisions and calculate and levy a drainage contribution. The amount of cost contribution shall be determined from the total cost of drainage upgrading works based on a pro rata runoff contribution for the catchment.
