116358	14/11/2022 16:21	Phil Marks			The foreshore path in Rivervale appears to have subsided as a result of the sweeper driving along it.	In Progress	14/11/2022 16:25	The footpath has been replaced previously and the current condition is most likely due to slight movement in the bank and not due to sweeping activity. This section of footpath will require further investigation.

According to Police/Homeswest/Bentley Hospital she often stops taking it. This results in disruptive behaviour that usually includes shouting and swearing loudly from 5-6am until 9-10pm daily. This is very distressing (I've witnessed it multiple times myself) and have received several calls from residents now. I have asked them to report to Cassie Rowe and Police and HomesWest but can this address please be flagged when Officers next meet with dept of Housing? Thanks	Completed	26/10/2022 10:36	The City has little influence over such a sensitive and difficult matter however the matter will be raised with the Department of Communities for them to take whatever action is practical and appropriate. Following this an email was sent to the Department of Communities bringing this matter to their attention for them to take any action that they may be able to take to manage their tenant.
