

CITY OF BELMONT

Asbestos, Motor Oil, Plate Glass, Mattress, Bed Base, Car Battery and E-Waste Disposal Day

Date of Publication 13/10/2020

9am – 2pm, Sunday, 7 March 2021

Operations Centre, 180 Planet Street, Carlisle

City of Belmont residents and ratepayers only

Items which will not be accepted: Gas cylinders, paint and household hazardous waste. These items can be disposed of free at charge at Red Hill Waste Management Facility. Fluorescent light tubes can be disposed of at the City's Civic Centre.

Items which will be accepted: Asbestos, motor oil, plate glass, mattresses, bed bases, car batteries and e-waste.

Asbestos products such as sheets from fences, floors, walls and roofs, old linoleum, brake pads, some insulation, lagging tape, eaves-lining, guttering and pipes will be accepted.

Asbestos must be wrapped and sealed in heavy duty 'builders' plastic to ensure safe transportation to the Operations Centre. Once wrapped, the asbestos should be placed on a pallet or similar so a forklift can safely lift the material from your vehicle. Alternatively, each sheet can be wrapped individually for easy manual handling.

Each household is limited to the **equivalent of six (6) fence sheets only**, so remember to bring a helper if you have a heavy or large load. **No additional asbestos containing material greater than the equivalent of six sheets will be accepted.**

Residents are required to pour **motor oil** into a large oil drum on site; contaminated empty containers are then disposed of on site. Up to 60 litres per resident will be accepted. Motor oil as waste from commercial operations will not be accepted.

Enclosed foot wear and proof of property ownership or residency within the City of Belmont is required.

For further information please contact Infrastructure Services on 9477 7118 or at belmont@belmont.wa.gov.au.
