

Profile (as it will appear in the election materials)

GEE, Janet

GEE, Janet is eligible to stand for election as a resident of the City of Belmont.

For over 35 years I have called Belmont home, actively being involved with the community.

Previously serving as a councillor at the City of Belmont performing the duties to the best of abilities, I studied and received a Diploma in Local Government. this qualification ensures the knowledge gained officers me an understanding of how to represent electors of the East Ward and the wider community.

For over 6 years I attended council meetings asking questions on behalf of the residents. This has given me knowledge of what has been on the agenda in that time. I was involved in the petition for council to address parking at the Epsom venue Shopping Precinct.

I am passionate about wanting to see a great future Belmont, whilst ensuring rates are kept as low as possible. With my Local Government Diploma, passed councillor experience and long-term attendance at meetings, I am ready to represent the East Ward. I have no political affiliation; council is about the local community not party politics.
