

Profile (as it will appear in the election materials)

**KULCZYCKI,
Christopher**

KULCZYCKI, Christopher is eligible to stand for election as a resident of the City of Belmont.

My passion for the local community stems from being a lifelong resident of Belmont, with three generations of my family having called Belmont home. I was educated locally, attending Cloverdale Primary School and Belmont City College. I currently work in finance.

My areas of focus will be: good financial management and governance; advocate increasing our urban tree canopy; examine opportunities to improve our environment and increase liveability; promote further investment into our parks and sporting facilities; explore crime prevention strategies to make Belmont safer; support community services for families and seniors; and encourage better planning outcomes.

I understand the community desires a fresh approach on many issues. Council has been stagnant in recent years and I will bring my energy to advocate better outcomes. Ratepayers and residents in Belmont deserve better.

My drive to shape and deliver a sustainable future for Belmont motivates me to be your representative on Council.
