**Elected Members are reminded to retain any
confidential papers for discussion with the minutes.**

**Minutes of the Ordinary Council Meeting held in the Council Chamber,
City of Belmont Civic Centre, 215 Wright Street, Cloverdale on Tuesday
24 June 2025 commencing at 6:31pm.**

Minutes

Present

Mayor R Rossi, JP (Presiding Member)	Mayor
Cr D Sessions (Deputy Mayor)	West Ward
Cr G Sekulla, JP	Central Ward
Cr J Harris	Central Ward
Cr B Ryan	East Ward
Cr P Marks	East Ward
Cr J Davis	South Ward
Cr C Kulczycki	West Ward

In attendance

Mr J Christie	Chief Executive Officer
Mr S Downing	Director Corporate and Governance
Mr W Loh	Director Development and Communities
Mr M Murphy	Director Infrastructure Services
Ms D Dabala	Manager Governance and Legal
Ms S Jessop	Manager Finance
Ms G Carter-Nguyen	Manager PR & Stakeholder Engagement
Mrs J Cherry-Murphy	Coordinator Governance
Mr J Vidal	IT Support Officer
Ms S Bell	Governance Officer

Members of the gallery

There were 16 members of the public in the gallery and no press representatives.

1 Official Opening

6:31pm The Presiding Member welcomed all those in attendance and declared the meeting open.

The Presiding Member read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Whadjuk Noongar people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging.

I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

The Presiding Member invited Cr Marks to read aloud the Affirmation of Civic Duty and Responsibility on behalf of Elected Members. Cr Marks read aloud the affirmation.

Affirmation of Civic Duty and Responsibility

I make this affirmation in good faith and declare that I will duly, faithfully, honestly, and with integrity fulfil the duties of my office for all the people in the City of Belmont according to the best of my judgement and ability.

I will observe the City's Code of Conduct and Standing Orders to ensure efficient, effective and orderly decision making within this forum.

2 Apologies and leave of absence

Nil.

3 Declarations of interest that might cause a conflict

3.1 Financial Interests

Nil.

3.2 Disclosure of interest that may affect impartiality

Name	Item No and Title	Nature of Interest (and extent, where appropriate)
Cr J Harris	12.2 – Urban Forest Strategy	I advocated on the topic of sustainable transport in Belmont as a member of the public, and prior to Council I also participated in the public engagement for the Sustainable Transport Strategy.
Mayor R Rossi	12.3 - Sustainable Transport Strategy	I attended a community meeting on 22 June where the proposed Sustainable Transport Strategy was raised.
Cr C Kulczycki	12.3 - Sustainable Transport Strategy	On 22 June 2025, I hosted a community meeting where I discussed the proposed Sustainable Transport Strategy with community members who had enquired about it.
Cr D Sessions	12.3 - Sustainable Transport Strategy	I know the person who made a deputation about this item at the Agenda Briefing Forum.
Cr J Davis	12.4 - Corporate Business Plan and Long-Term Financial Plan	Member of Belmont Oasis.
Cr J Harris	12.4 - Corporate Business Plan and Long-Term Financial Plan	I advocated on the topic of the Wright Street pedestrian crossing before joining Council.
Cr C Kulczycki	12.4 - Corporate Business Plan and Long-Term Financial Plan	I am a member of the Ruth Faulkner Library.

Cr G Sekulla	12.4 - Corporate Business Plan and Long-Term Financial Plan	Sekulla family has a 73 year membership and relationship with the City of Belmont RSL. I am currently an affiliate member of the City of Belmont RSL. Centenary Park and Middleton Park are playing fields used by the Ascot Eagle Junior Cricket Club (AEJCC). I am a member of AEJCC and my daughters play cricket for the club.
Cr D Sessions	12.4 - Corporate Business Plan and Long-Term Financial Plan	Peet Park is the home ground of Belmont Junior Football Club, and I volunteer there.
Mayor R Rossi	12.6 - Adoption of 2025-26 Annual Budget	I am a member of the Belmont RSL Club and Belmont Seniors Centre.
Cr J Davis	12.6 - Adoption of 2025-26 Annual Budget	Member of Belmont Sports and Recreation Club. Member of Belmont Oasis.
Cr J Harris	12.6 - Adoption of 2025-26 Annual Budget	I am a member of the Ruth Faulkner Library and the Belmont Potters Group.
Cr C Kulczycki	12.6 - Adoption of 2025-26 Annual Budget	I am a member of the Ruth Faulkner Library.
Cr G Sekulla	12.6 - Adoption of 2025-26 Annual Budget	Sekulla family has a 73 year membership and relationship with the City of Belmont RSL. I am currently an affiliate member of the City of Belmont RSL. Centenary Park and Middleton Park are playing fields used by the Ascot Eagle Junior Cricket Club (AEJCC). I am a member of AEJCC and my daughters play cricket for the club.
Cr D Sessions	12.6 - Adoption of 2025-26 Annual Budget	I was a member of the Belmont Junior Football Club Committee until late 2024. My son plays football there, and I am a parent volunteer. Belmont Junior Football Club home ground is Peet Park.

4 Announcements by the Presiding Member (without discussion) and declarations by Members

4.1 Announcements

"I wish to acknowledge the passing of former Councillor Glyn Doney, who represented West Ward for 16 years from 1987 to 2003.

May he rest in eternal peace."

4.2 Disclaimer

6:38pm The Presiding Member drew the public gallery's attention to the Disclaimer.

The Presiding Member advised the following:

'I wish to draw attention to the Disclaimer Notice contained within the Agenda document and advise members of the public that any decisions made at the meeting tonight can be revoked, pursuant to the *Local Government Act 1995 (WA)*.

Therefore members of the public should not rely on any decisions until formal notification in writing by Council has been received.'

4.3 Declarations by Members who have not given due consideration to all matters contained in the business papers presently before the meeting

Nil.

5 Public question time

5.1 Responses to questions taken on notice

5.1.1 Ms Hollands on behalf of Belmont Resident and Ratepayer Action Group

The following questions were taken on notice at the 27 May 2025 Ordinary Council Meeting. Ms Hollands was provided with a response on 11 June 2025. The response from the City is recorded accordingly:

1. At the 15 April 2025 Ordinary Council Meeting, I asked again as I had not had a proper answer to my previous question at the 25 March 2025 Ordinary Council Meeting, 'what date did Council pass the rules the Mayor refers to at the start of the meeting as being the rules of public question time, as they are not Standing Orders?'. The response I received from the City from my question at the 15 April 2025 Ordinary Council Meeting stated that 'none of the legislation and documents cited enable the City to set the rules for public question time without recourse to the appropriate legislative authority, nor do they state that the Standing Orders do not apply.' It further stated that 'the Standing Orders and the public question time form together govern public question time. This form is not a matter for Council, and it is operational.'

As it is now clearly stated in the City's response that the form had not been passed by Council, and that the City cannot set rules without going through the proper legislative channels, why are we still referring to this document at the start of the meeting when it is the Standing Orders that govern the meetings? and,

- i) What section of the Act or Regulations state both the Standing Orders and the form govern the rules of public question time together?

Response

This matter has been previously dealt with, with answers provided to both Ms Hollands in her own right and on behalf of BRRAG. As previously advised, the City's Public Question Time Form is the tool by which members of the public can participate in public question time and is consistent with the Act, Regulations and Standing Orders. The form summarises the requirements and procedures of Public Question Time under these instruments and provides easier guidance for people on how they can participate in public question without having to refer the Act, Regulations or Standing Orders themselves (being a total of some 715 pages).

4. Did anyone else receive a letter regarding causing a disturbance at a meeting? and,
- i) If you're just asking questions how is that a disturbance?

Response

No. The reason the Mayor sent a letter to Ms Hollands (on behalf of BRRAG) on 24 March 2025 was to respond to BRRAG's letter to the Mayor and Councillors in March 2025.

The Mayor's letter in reply focused primarily on addressing BRRAG's questions on the Standing Orders dealing with submissions and deputations. The Mayor took the opportunity of this correspondence to advise BRRAG about the Standing Orders 6.3 given Ms Holland's repeated disputing of the Mayor's responses during meetings and not complying with the Mayor's directions. On this point, the Mayor noted in his letter the requirements of both Standing Orders 6.3(2), being the requirement to extend due courtesy and respect to the Council and to comply with any direction by the Presiding Member, and 6.3(3), which deals with disturbance by persons observing a meeting.

- i) Asking a question at public question time that is appropriately framed and asked is unlikely to be a disturbance, however the question might prompt behaviour by an observer which could constitute a disturbance.**

5.1.2 Mr Russell on behalf of Belmont Potters Group

The following questions were taken on notice at the 27 May 2025 Ordinary Council Meeting. Mr Russell was provided with a response on 11 June 2025. The response from the City is recorded accordingly:

3. What meaningful changes were made to the Arts and Culture Strategy 2025-2030 following community consultation? and,
- i) How are those changes documented or explained back to the community?

Response

Work on the initial draft of the Arts and Culture Strategy commenced in 2022 and reflected community feedback captured at the time through surveys, in particular the annual Catalyse Community Perception Surveys, the biennial Community Wellbeing Scorecard and Ruth Faulkner Library surveys. Whilst this feedback was useful in guiding the early development of the Strategy around the areas of Library, Museum, Lifelong Learning and Placemaking, it lacked the detail to guide the Strategy's direction across the broader arts and culture sector.

To address this, specific consultation was undertaken between March and July 2023 to explore community sentiment and aspirations across the full breadth of arts and culture. During this period, community members were given the opportunity to participate through facilitated focus groups and stakeholder sessions. These forums enabled participants to explore and discuss early concepts, provide input on draft ideas, and highlight areas to focus. Feedback captured during this process played a key role in shaping the final Strategy, highlighting the need for more diverse creative opportunities, increased cultural inclusivity, the importance of collaboration, better support for local artists, and more regular opportunities for participation.

In addition to this targeted engagement, the City continued to use other methods to capture feedback, including face-to-face engagement at events and post-event surveys. The 2022 draft Strategy was subsequently reshaped to reflect the broader aspirations and priorities that emerged from the full consultation process.

As a result, the final Strategy includes:

- **A broader scope that brings together Libraries, Museums, Arts, Community Events and Placemaking under one cohesive vision.**
- **Three new guiding pillars: Places + Spaces, Culture = Life, and Power of Connection, each aligned with community-identified priorities.**
- **A stronger emphasis on inclusivity, cultural diversity, lifelong learning, and partnership-driven delivery.**

These changes are embedded throughout the final document, with dedicated sections outlining consultation findings, community priorities, and how feedback informed the strategy's direction—ensuring transparency and demonstrating that the community's input translated into tangible outcomes.

4. How does the consultation process for the Arts and Culture Strategy 2025-2030 compare to the process followed for the City's Community Safety and Crime Prevention Plan, the Local Planning Strategy, or the Open Public Space Strategy, all of which include a publicly available draft, formal comment periods, and clear summary of community feedback prior to Council endorsement?

Response

The consultation process for each strategy may vary in accordance with the nature of the strategy, and the suitability of engagement channels for each stakeholder group. Prescribed statutory procedures for documents such as the Local Planning Strategy require advertising via a Public Notice.

Public Notices can have a limited reach and is a very simplistic channel of communication, suited to open form comments, and is not precise in gaining feedback on specific matters from targeted stakeholders. The public notice approach of advertising a strategy for comment after it has been written is also a traditional approach to community engagement and doesn't always deliver strong results.

Since the adoption of the Engagement Strategy 2023 and beyond in late 2023 the City has been building engagement capacity internally and as a result more projects are focusing engagement efforts prior to strategy development to ensure strategies are written with community input, rather than seeking community input after the strategy has already been developed.

5.2 Questions from members of the public

6:39pm The Presiding Member drew the public gallery's attention to the rules of Public Question Time as written in the Public Question Time Form.

In accordance with rule (I), the Mayor advised that he had registered 13 members of the public who had given prior notice to ask questions.

The Presiding Member invited members of the public who had yet to register their interest to ask a question to do so. One further registration was forthcoming.

5.2.1 Ms L Hollands, Redcliffe

1. How much is the promotion of the 'Visit Belmont' campaign costing us? and,
 - i) In terms of success outcomes, how does it rate for Belmont in comparison to the Adachi campaign?

Response

The Chief Executive Officer stated that the 'Visit Belmont' campaign is an action under the City's Economic Development Strategy that Council budgeted \$20,000 for the marketing campaign to promote businesses within the City. The Chief Executive Officer stated that he would take the latter part of the question on notice.

2. As section 5.3.3.1 of the *Local Government Act 1995 (WA)* stated that 'all decisions made at an Electors' Meeting are to be considered at the next Ordinary Council Meeting', how does Council think they have considered the decisions from the Annual Electors' Meeting when they were passed en bloc without any discussion? and,
 - i) How have they complied with the Act?

Response

The Chief Executive Officer stated that after the Annual Electors' Meeting, a report is drafted and provided to Council for consideration. Council has the discretion to adopt this report en bloc, or to discuss the items, and clearly Council felt there was no need to further discuss these matters. With the report provided to Council, Council was able to give this item due consideration.

3. When is Council going to get serious and take a lead on policies for trees on private land, preventing trees on private property from being removed due to development?

Response

The Director Development and Communities stated that the Tree Preservation Order (TPO) has specific requirements for the value of 'significant' trees, which is defined in the Council TPO Policy. There is nothing stopping landowners from retaining trees on their property. The Local Planning Strategy has also identified actions towards encouraging tree preservation and development on private land.

4. As the City of Rockingham has recently amended their legal representation policy which provided Elected Members \$10,000 towards legal proceedings for defamation against residents, will the City of Belmont follow suit and amend their policy?

Response

The Chief Executive Officer stated the Council Policies are all currently under review ahead of the next Local Government election. These will be presented to Council in two tranches, likely in December 2025 and February 2026. Council will then be able to consider any policy that requires amendment.

5.2.2 Ms Hollands on behalf of Belmont Resident and Ratepayer Action Group

1. At the 27 May 2025 Ordinary Council Meeting I asked 'what section of the Act or *Local Government (Administration) Regulations 1996 (WA)* state both the Standing Orders and the Public Question Time form govern the rules of Public Question Time together'. The response I received from the City referring me to previous correspondence on this matter did not answer my question. Therefore, I am asking again, what section of the Act or the Regulations state both the Standing Orders and the Public Question Time form govern the rules of Public Question Time together?

Response

The Chief Executive Officer stated that this is a matter the City has dealt with on a number of occasions and provided a number of responses to Ms Hollands, and that the City's position remains unchanged. The Chief Executive Officer further referred Ms Hollands to previous correspondence sent to her by the Mayor, and from the City.

2. I did ask a specific question regarding which sections of the Act or Regulations govern Public Question Time, and I feel it was not answered in any of the correspondence?

Response

The Chief Executive Officer further stated that the City has provided correspondence on this matter to Ms Hollands dated the 19 December 2024 and have provided further responses in questions taken on notice. The resident should refer to those pieces of correspondence which clearly articulate the City's position.

3. In a letter sent to me, the Mayor quoted rules relating to being a disturbance at meetings. We have also discovered that I am the only person to receive such a letter. Previously the City has stated in the chamber that they recognise the Belmont Resident and Ratepayer Action Group (BRRAG) as a political organisation, given that section 62 of the *Equal Opportunity Act 1984 (WA)* states that 'it is unlawful for a person who, whether for payment or not, provides goods or services, or makes facilities available, to discriminate against another person on the ground of the other person's religious or political conviction', why am I as the President of BRRAG in receipt of the sole letter to gallery attendees regarding disturbance behaviour? and,
 - i) Why am I being held responsible for the gallery if they react to my question and cause a disturbance?

Response

The Chief Executive Officer stated that responses have been provided to Ms Hollands previously at the 15 April 2025 Ordinary Council Meeting, and in correspondence sent to Ms Hollands by the City. The Chief Executive Officer further stated that he would suggest Ms Hollands is not responsible for the behaviour of people in the public gallery, and that the reference the Mayor made was because Ms Hollands failed to comply with a direction of the Presiding Member, and that matter is what was referred to in the letter from the Mayor. It was nothing to do with public question time, it was in relation to failing to comply with a direction of the Presiding Member.

4. Will the minutes be amended?

Response

The Chief Executive Officer stated that his recollection is that the minutes are accurate, and have been passed by Council.

5. The Development Assessment Panel (DAP) recently passed the hotel development in Redcliffe which has a shortfall of 138 car bays, comprised of 120 short-stay apartments and 78 hotel rooms, with 55 car carparks, including those for staff. Why did officers recommend a development with a shortfall of 138 car bays when it is based on occupant managing, and not taking bookings? and,

- i) What is the City and Councillors going to do about this in terms of fixing policies, so a precedent is not set in Belmont?

Response

The Director Development and Communities stated that the reasons for the officer recommendation are contained in the DAP report. To clarify the shortfall in car parking bays, it was based on a number of previous DAP decisions and the ratio adopted for those decisions, and the officer recommendation highlighted that it is three car bays short of what is consistent in other previous approvals. If it is found once the development is completed that the car parking is occurring in a manner other than what was approved, City officers will investigate and act accordingly.

6. The DAP has also had a case with a 0.75 ratio of car bays for apartments along Great Eastern Highway. Why when a precedent had been set for 0.75, has staff allowed for a 0.3 in their recommendations?

Response

The Director Development and Communities stated that the report explains clearly that the 0.75 is the standard specified under the R-Codes for single bedroom dwellings, and that the report goes on to discuss the ratio adopted by other like developments within the City of Belmont. The result of these like developments have shown that there have not been any car parking issues. The applicant also provided information on their current operations and the demand for car parking based on these operations. The Director Development and Communities further stated that the members of the DAP are not bound by the officer recommendation, and have to consider what is explained in the report to determine whether the officer recommendation is appropriate.

5.2.3 Mr M Cardozo, Redcliffe

1. Currently the City of Belmont does not have clear guidance on whether PowerPoint presentations can be used by those giving deputations at Agenda Briefing Forums. Can the City consider updating its Public Submission Time and Deputation Proforma to include a tick-box for residents to indicate that they would like to present a PowerPoint presentation alongside their deputation? and,
 - i) Will the City formalise a clear position on the use of PowerPoint presentation during Agenda Briefing Forums?

Response

The Chief Executive Officer stated that the question would be taken on notice.

2. The Matrix of the Agenda Briefing Forums includes generalised summaries of points raised and officer responses under 'Notes from Forum,' without indicating who asked the question or what the question actually was. Will the City commit to publishing the actual questions asked with the responses provided, or at a minimum attributing questions to the Elected Member who raised them in the minutes of the Agenda Briefing Forum?

Response

The Chief Executive Officer noted that both Agenda Briefing Forums and Ordinary Council Meetings are not recorded verbatim, and stated that the question would be taken on notice.

3. Will the City consider including a brief summary of the key points raised in submissions and deputations at Agenda Briefing Forums, particularly in instances where the Proformas have no infilled detail, so that the public can better understand community input?

Response

The Chief Executive Officer noted that if the Public Submission Time and Deputation Proformas were provided to the City in writing, this would make this easier, but they are often left without those details. The Chief Executive Officer stated that the question would be taken on notice.

4. In relation to the City of Belmont's YouTube videos and content, who is responsible for making the decision to disable all comments across the City's YouTube videos and livestreams? and,
 - i) Will the City consider review this approach of disabling comments in light of Council Policy 55 – Community Engagement?

Response

The Chief Executive Officer stated that the question would be taken on notice.

5.2.4 Mr Cardozo on behalf of Belmont East Ward Connect

1. Recent City strategies, including the Urban Forest Strategy and Sustainable Transport Strategy went through a public feedback period, but do not include a published summary of submissions. Can the City explain why some strategies include these community feedback summaries, whilst others do not?

Response

The Chief Executive Officer stated that a number of recent strategies have undergone community consultation upfront, inclusive of the Urban Forest Strategy and Sustainable Transport Strategy, as such the approach might slightly vary. The Chief Executive Officer stated that the question would be taken on notice.

2. How does the City ensure that community feedback for a strategy is responded to when the feedback is not published within the final strategy?

Response

The Chief Executive Officer stated that as per his response to Mr Cardozo's previous question, some strategies have significant community consultation and engagement during the development of that strategy, and was accordingly taken into consideration. The Chief Executive Officer stated that the remainder of the question would be taken on notice.

3. Will the City commit to retrospectively publishing the summaries of submissions from community feedback as well as responses from officers for strategies such as the Urban Forest Strategy and Sustainable Transport Strategy?

Response

The Chief Executive Officer stated that the question would be taken on notice.

4. Will the City release the audio recording of the 18 June 2025 Agenda Briefing Forum, and publish a public link to it to allow the deputation and associated discussion to be shared with the community? and,
 - i) If the City declines to release the audio, will it instead commit to publishing a full transcript or full record of the deputation and discussion?

Response

The Chief Executive Officer noted that as he has stated previously this evening, Agenda Briefing Forums are not recorded verbatim, and that the Mayor makes a statement at the opening of the Agenda Briefing Forum stating that the audio is for minute taking purposes only. The Chief Executive Officer stated that the remainder of the question would be taken on notice.

5.2.5 Ms B Scharfenstein, Redcliffe

1. A resident recently brought to attention of the City hazardous pedestrian crossing conditions at Boulder Avenue and Second Street due to vision being obstructed by street parked cars. Will the City consider a simple measure to increase visibility of oncoming traffic for pedestrians and vehicles, such as the installation of a convex mirror in the middle of the roundabout? and,
 - i) If not, why not?

Response

The Director Infrastructure Services stated that City officers have been dealing with this concern, and that Ms Scharfenstein's suggestion could be considered and would be taken on notice due to the technical nature of the query.

2. On 11 November 2024 I wrote to Chief Executive Officer advising there was no pedestrian footpath crossovers from First Street to Boulder Avenue, and to access the Boulder Avenue playground. On the 24 November 2024, the Director Infrastructure Services advised he would have his team look into this, as of current I have not received any further communication on the progress of this matter, nor have any works taken place. Why has there been no apparent attempt to fix these footpaths or install crossovers?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

3. Belmont on the Move Integrated Movement Strategy 2017-2027 included actions such as better pedestrian connectivity and school access improvements. These actions are not identified in the Sustainable Transport Strategy 2025-2030, will neighbourhood level delivery still form part of the implementation plan? and,

ii) Will potential solutions be workshopped with the community?

Response

The Director Infrastructure Services stated that the place-based initiatives from Belmont on the Move are now included in the Activity Centre Planning Strategy that was endorsed by Council in February 2024. The actions and initiatives outlined in the Sustainable Transport Strategy will be developed in the implementation plan.

4. Belmont on the Move Integrated Movement Strategy 2017-2027 included advocacy priorities including bus priority lanes, station area planning and upgrades around Wright Street. Can the City clarify whether any of these have progressed? and,

i) How will advocacy outcomes be tracked in the Sustainable Transport Strategy 2025-2030?

Response

The Director Infrastructure Services stated that the City is always advocating, especially with external agencies such as the Public Transport Authority on these matters. Those actions would have taken place during the lifetime of the Belmont on the Move Integrated Movement Strategy. The Director Infrastructure Services further stated that in relation to reporting within the Sustainable Transport Strategy, that this is considered in the initiatives under performance, which will be fleshed out as part of the implementation plan.

7:10pm Sessions moved, Harris seconded, that Public Question Time be extended.

Carried unanimously 8 votes to 0

For: Davis, Harris, Kulczycki, Marks, Rossi, Ryan, Sekulla and Sessions

Against: Nil

5.2.6 Ms K Moore, Kewdale

1. On Safe Active Streets where speeding is common and bike paths end abruptly without alternatives, how is the City addressing these design gaps and enforcing compliance?

Response

The Director Infrastructure Services stated that this matter is covered under the Sustainable Transport Strategy's 'Prosperity' initiatives, with the aim to improve accessibility and connectivity. The individual projects will be fleshed out in the implementation plan.

2. How will the City move beyond integrated transport ticketing models to adapt other systematic and cultural changes that support independent safe travel for children in Belmont?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

3. Will the Sustainable Transport Strategy deliver visible improvements in the next 5 years? and,
 - i) What specific changes such as safer crossings, speed enforcements or connected bikes routes can families expect within this timeframe, or are these improvements several years away from implementation, particularly in reference to Surrey Road Safe Active Street?

Response

The Director Infrastructure Services state that the Surrey Road improvements would be expected within the next 5 years. In relation to the wider infrastructure initiatives, particularly in relation to cycle streets, green networks and the long-term cycle network, there is a considerable body of investigation work required on those to determine what is feasible and deliverable. The Director Infrastructure Services further stated that the vast bulk of Belmont's roads are too narrow for protected cycle lanes. At this juncture officers are unable to determine what is feasible and what is fundable.

4. The Sustainable Transport Strategy 2025-2030 identifies key community concerns including high-speed roads, insufficient crossings and unsafe interactions between vehicles and cyclists. Most initiatives in the Strategy are limited to investigation or advocacy, with only one linked to progressing actions. Can the City clarify what specific safety improvements will be delivered in the short-term?

Response

The Director Infrastructure Services stated that all of the initiatives in the Strategy are targeted towards improving safety and connectivity for the whole community. There are a lot of investigations required to determine what is feasible. There are actions for improving accessibility and connectivity which the Director Infrastructure Services would expect to be delivered in the short-term, particularly in relation to the connectivity of footpaths where the City does not need to engage with a significant number of external agencies. Actions to be completed on roads will often result in engagement with agencies such as Main Roads, the Public Transport Authority and the Department of Transport. A lot of advocacy is required as these projects exist within a complicated space, where the City is only a smaller part of a larger chain.

5.2.7 Ms A Hawkins, Lathlain

1. Quite a few local roads in Belmont are heavily used by school children, many of which have been mapped out by the 'Your Move' Department of Transport program. These routes don't seem to be mapped in the Strategy, how are these local school routes being captured in the Sustainable Transport Strategy?

Response

The Director Infrastructure Services stated that one of the actions in the Strategy is to improve accessibility and connectivity to educational facilities. The City's Sustainable Transport officer is strongly involved in the Your Move program, and is well aware of these routes. The Director Infrastructure Services stated that he would expect these to be prioritised in the implementation plan stage.

2. The Belmont on the Move Integrated Movement Strategy 2017-2027 contains clear objectives around infrastructure delivery, whereas the Sustainable Transport Strategy 2025-2030 does not appear to contain measurable performance indicators, why has this changed since 2017?

Response

The Director Infrastructure Services stated that section 9 of the Strategy details performance monitoring and the metrics that will be used. The Strategy is not a plan, and the next stage of the implementation plan will include that level of detail and targets.

3. During the community consultation for the Strategy, there was a map which respondents could map out areas of concern. Will these responses be considered as part of the plan, as it appears the information from the map wasn't included in the strategy?

Response

The Director Infrastructure Services stated that it is expected the feedback that has been received will form part of the implementation plan, particularly in terms of accessibility and connectivity.

4. Will the community be involved in the process of developing the Sustainable Transport Strategy's implementation plan?

Response

The Director Infrastructure Services stated that yes, it is expected that the community will be involved in some of the initiatives, especially the larger projects such as the Long-Term Cycle Network, and the Green Cycle Streets. There is a large body of investigative work involved in these projects and it is likely the community will be involved in the community engagement for these projects and in the consideration of alternative options in relation to matters such as Belmont's narrow roads and their limitations.

5.2.8 Ms L Harding, Rivervale

1. If the City is not releasing any implementation plan until after the Sustainable Transport Strategy is endorsed, what guarantee does Council and the community have that the implementation plan will follow the guidelines for integrated transport planning as published by the West Australian Planning Commission?

Response

The Director Infrastructure Services stated that the implementation plan would not follow those guidelines, as those guidelines are extremely detailed and follow the same format that is used by officers when developing business cases to be provided to Council. The work and investigations under this Strategy will inform options that are

available to deliver an integrated network plan. The City's goal is to get to a position where the City has sufficient information to develop an integrated transport plan which is practical and deliverable, where the alternatives and costings are also known. Ultimately, this would be brought back to Council, and if endorsed would then go to the project prioritisation process to determine funding.

2. Will the City consider forming a sustainable transport community advisory group, including residents, Councillors, officers and local stakeholders to monitor implementation and provide feedback throughout the lifetime of the Sustainable Transport Strategy's implementation plan?

Response

The Director Infrastructure Services stated that this is something the City could consider, however with 28 initiatives under the Sustainable Transport Strategy, there is a large number of projects under each initiative, several of which would result in community consultation regardless. The Director Infrastructure Services stated that the question would be taken on notice, as to have a steering committee for this volume of work requires further consideration.

3. Can the City provide a continuity table showing which of the Belmont on the Move Integrated Movement Strategy's 73 space-place projects have been implemented, absorbed by the Sustainable Transport Strategy, or abandoned?

Response

The Director Infrastructure Services stated that the place-based initiatives from Belmont on the Move Integrated Movement Strategy 2017–2027 are now in the Activity Centre Planning Strategy.

4. The Sustainable Transport Strategy 2025-2030 claims that community consultation shaped it. Could the City clearly map how each of the questions in the survey influenced each initiative within the Strategy?

Response

The Director Infrastructure Services stated that it is his opinion that feedback from the community has been considered and integrated into the initiatives. The community highly prioritising sustainable transport is clearly evident, and the Director Infrastructure Services stated that he rejects the notion that community feedback has not been incorporated into the initiatives.

5.2.9 Mstr N Morch, Lathlain

1. In order to encourage more people to ride bikes, I think the City should improve bike security at places of interest such as shopping centres. How is the City planning to improve bike security at public places?

Response

The Director Infrastructure Services stated that this matter is covered in the Sustainable Transport Strategy, under 'Place' which includes transport support infrastructure such as bike stations, and end of trip facilities at key locations. Part of this would be achieved under advocacy, and part can be actioned by the City. The City's Sustainable Transport Officer also provides free bicycle locks to members of the community. The City has also engaged with Belmont Forum in relation to this concern.

The Director Development and Communities further stated that the City has a network of over 600 CCTV cameras, and partners closely with businesses to provide advice on security appraisals, CCTV network and security.

5.2.10 Ms D Ransome, Ascot

1. In relation to the Urban Forest Strategy, does the Council acknowledge that the Tonkin Gap Project and the projected loss of mature trees in the Ascot Stabling Precinct will affect the City of Belmont's current tree canopy?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

2. Given that the Council plans to investigate available policy mechanisms as a key action to address the issue of tree loss due to infill development, will Belmont ratepayers face restrictions on developing on their land, whilst large mature trees have all been removed for the Tonkin Gap Project and Ascot Stabling Projects?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

3. After approving infill in Belmont which sets a precedent that landowners can develop their land, will Council inform ratepayers of what policy mechanisms will be put in place for tree retention?

Response

The Director Development and Communities stated that the draft Local Planning Strategy has identified options for development incentives where significant trees are retained, or where specific sustainability outcomes are achieved. It also discusses introducing deep-soil zones for non-residential properties, and investigating a minimum tree-to-car parking bay ratio for non-residential properties. Many tree canopy initiatives are being considered within the draft Local Planning Strategy.

7:38pm Sessions moved, Harris seconded, that Public Question Time be extended for a second time.

Carried unanimously 8 votes to 0

For: Davis, Harris, Kulczycki, Marks, Rossi, Ryan, Sekulla and Sessions

Against: Nil

5.2.11 Ms M Morch, Lathlain

1. Does the City have a plan to tackle the issue of vehicles overhanging pedestrian pathways near Rivervale Primary School?

Response

The Director Development and Communities stated that if a member of the public observes a vehicle parked on a footpath, they should contact the City Rangers for enforcement of the offence.

In relation to vehicles overhanging the footpath, the Director Infrastructure Services further stated that this will be discussed with officers and stated that the question would be taken on notice.

The Director Corporate and Governance further took on notice the suggestion of using the City's Marketing team to advertise the correct parking procedures to limit vehicles parking on footpaths.

2. With regards to the developments on Mort Street, Rivervale and the increase in on-street parking, how is the City working to resolve the problem of on-street parking to make roads and footpaths safe?

Response

The Director Development and Communities stated that the dwellings on Mort Street were approved with the number of car bays in accordance with the R-Codes, which is a State Government controlled policy. Parking on the street, as long as vehicles are parked legally, is permitted within time limits which may vary in range. Apart from those residing in the new developments, anyone is entitled to park on the street. It is the hope, with changes to sustainable transport, that this might alleviate the pressure placed on owning and parking vehicles.

3. Will the Sustainable Transport Strategy's Implementation Plan include actions for safety for students across Belmont?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

5.2.12 Miss H Dorizzi, Rivervale

1. What is the Council going to do for kids who want to ride around the City of Belmont?

Response

The Director Infrastructure Services stated that the Sustainable Transport Strategy intends to make it easier and safer for the community to use sustainable transport, and that matters such as these will be fleshed out in the implementation plan.

5.2.13 Ms A Dorizzi, Rivervale

1. Will the Implementation Plan include a delivery timeline for each initiative and identify which actions are proposed within one, 3 or 5 years? and,
 - i) Will it be available to the public like the previous Strategy's Implementation plan and like other Local Government plans?

Response

The Director Infrastructure Services stated that the question would be taken on notice.

2. The Sustainable Transport Strategy does not mention the Department of Transport's "Your Move" programme which helps support schools and organisations to improve the uptake of active transport. What is the percentage of schools within the City of Belmont who are registered for this programme? and,
 - i) Do you intend to support the schools to increase this number?

Response

The Director Infrastructure Services stated the question would be taken on notice. The City are actively involved with schools on promoting the Your Move programme and increasing the number of children coming to school via active transport modes.

3. Why aren't the Your Move Schools and Maps included in the Strategy?

Response

The Director Infrastructure Services stated that the Strategy does reference accessibility and connectivity to schools. There are a number of Your Move maps, but they would be very much at an implementation level rather than at a strategic level.

5.2.14 Mr M Russell, Cloverdale

1. Can the City clarify which quick win or demonstration projects from the Belmont on the Move Strategy have been completed since 2017 and which are being considered for implementation in the next 12-24 months while the Strategy remains in effect?

Response

The Director Infrastructure Services stated that the only quick win that he can recall being referenced in Belmont on the Move was in relation to cycling streets, the City delivered Surrey Road in 2019.

With regards to quick wins on the next stage of this journey, that will be fleshed out again in the Implementation Plan. The Director Infrastructure Services did speak to Cr Harris in more detail on this previously in relation to what can be done with connecting some of the City's bus stops. Bus stops could possibly be something that can be

moved on quite quickly as the City does not necessarily have to engage with Main Roads, Perth Transport Authority, Department of Transport, or Western Power to do that, so that will be fleshed out further in the Implementation Plan.

2. How does the Draft Sustainable Transport Strategy align with existing objectives in Belmont Corporate Business Plan, related to school access, road safety, and Metronet area planning, and will this alignment be reflected in the Implementation Plan or Annual Budget Reviews?

Response

The Director Infrastructure Services stated that the initiatives in the Sustainable Transport Strategy are lined up with the City's 5 Strategic Pillars – People, Place, Planet, Prosperity, and Performance.

3. The Draft Sustainable Transport Strategy does not include a strategy map or summary. Will the City commit to publishing a condensed version of the Strategy to support accessibility and community engagement?

Response

The Director Infrastructure Services stated that there is a vision statement in the Sustainable Transport Strategy, this is under Section 1.2 Aspirations and Objectives, it is the first paragraph under this. The City plans to prepare a shorter version of Sustainable Transport Strategy, because it needs to be more accessible, and this is something officers will do once this has been endorsed.

4. Why is the City not making implementation plans for strategies available to the public and what is stopping the City from doing so?

Response

The Chief Executive Officer stated that while a lot of detail goes into the implementation plans, and these generally guide the direction for staff within the organisation, that may be something that the City could consider in future depending on the content and detail. When these are progressed, the public will see them progress through Council, because some on those projects will be significant expenditure items within the Annual Budget and Council will need to give consideration to that. The Chief Executive Officer said this is something we can take on notice.

7:53pm As there were no further questions, the Presiding Member declared Public Question Time closed.

6 Confirmation of Minutes/receipt of Matrix

6.1 Matrix for the Agenda Briefing Forum held 17 June 2025

Officer Recommendation

Sessions moved, Davis seconded

That the Matrix of the Agenda Briefing Forum held on 17 June 2025, as printed and circulated to all Elected Members, be received and noted.

Carried Unanimously 8 votes to 0

For: Davis, Harris, Kulczycki, Marks, Rossi, Ryan, Sekulla and Sessions

Against: Nil

6.2 Ordinary Council Meeting held 27 May 2025

Officer Recommendation

Sekulla moved, Sessions seconded

That the Minutes of the Ordinary Council Meeting held on 27 May 2025, as printed and circulated to all Elected Members, be confirmed as a true and accurate record.

Carried Unanimously 8 votes to 0

For: Davis, Harris, Kulczycki, Marks, Rossi, Ryan, Sekulla and Sessions

Against: Nil

Nil.

8 Questions by members without notice

8.1 Responses to questions taken on notice

Nil.

8.2 Questions by members without notice

8.2.1 Cr Sessions

1. Can you please consider putting a motion together for the WALGA Zone Meeting requesting advocacy to the State Government for a review and tightening of the 90 day exemption rule in relation to Short Term Rental Accommodation? Currently anyone in the City can rent their house out on Airbnb for up to 90 days a year without development approval and without being subject to City's policies. I believe this is unfair on surrounding neighbours and there is no management policy to protect them, or the property and it is unfair for those that run Short Term Accommodation with the correct development approval and development compliance. I believe it is a State Government loophole that needs to be closed.

Response

The Chief Executive Officer stated that yes he can do that. The Chief Executive Officer requested that Cr Sessions provides the content of her question which will assist him with drafting the motion.

2. Could Councillors please get an update on the current status of the lighting upgrade at Peet Park in Kewdale? The lack of lighting means the Belmont Junior Football Club cannot have any girls teams as all games are played on Friday night. Girls in the local areas are having to go over to other clubs and in turn their siblings go to other clubs to play sport.

Response

The Director Infrastructure Services stated that the project is in design at the moment, lighting is the first part of the project to be delivered. The City has received application forms for the CSRFF and State Funding commitment through Cassie Rowe. Officers are awaiting the application form for funding through Zaneta Mascarenhas. This project is ongoing and the Director Infrastructure Services expects it will be delivered in the 2026 calendar year.

8.2.2 Cr Kulczycki

1. At the March Ordinary Council Meeting, Council endorsed an amended version of the Draft Local Planning Strategy, this document must be provided to the Western Australian Planning Commission for certification, what is the progress on the certification and when might the City and Council be informed of its decision?

Response

The Director Development and Communities stated that the Department Planning Lands and Heritage have informed City officers that it will be later this year when the assessment and report will be provided to the WA Planning Commission to consider consent for the City to advertise the Draft Local Planning Strategy. At this stage the Planning department is nonetheless progressing with drafting scheme provisions and the Manager Planning Services will be providing an update at the next Information Forum to explain where the City is at and what the proposed approach is to keep things moving.

2. There have been consequences of the recent Main Roads roadworks at the intersection of Great Eastern Highway and Kooyong Road. Kooyong Road is a local distributor road and there is a concern amongst residents about the new layout which has reduced the width of the southeast lane of Kooyong Road. Due to this configuration and the close proximity of the bus stop to the intersection, this has had subsequent impacts on traffic flow into Rivervale and consequently the efficiency of the northeast turning lane on Great Eastern Highway. What can the City do to notify Main Roads WA and the Public Transport Authority about these impacts and explore options to potentially move the stop to alleviate the bottleneck and improve safety for all transport users?

Response

The Director Infrastructure Services stated that the question would be taken on notice. There were land resumptions that came to Council in relation to that matter to improve access.

12.1 Local Emergency Management Arrangements and Recovery Plan

Voting Requirement	: Simple Majority
Subject Index	: 108/004
Location/Property Index	: N/A
Application Index	: N/A
Disclosure of any Interest	: Nil
Previous Items	: 26 May 2020 OCM (Item 12.8) – Local Emergency Management Arrangements
Applicant	: N/A
Owner	: N/A
Responsible Division	: Development and Communities

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

For Council to consider adopting the City of Belmont/Town of Victoria Park Local Emergency Management Arrangements (General Plan), and the City of Belmont Recovery Plan (2025).

Summary and key issues

It is a statutory requirement that the City of Belmont and Town of Victoria Park joint Local Emergency Management Arrangements (LEMA) (General Plan) and the City of Belmont's Recovery Plan (Recovery Plan) are fully reviewed every five years or after a major emergency incident. The last major review was completed and endorsed at the 26 May 2020 Ordinary Council Meeting (OCM) (Item 12.8).

The purpose of the LEMA and Recovery Plan is to set out how the City coordinates and operates during the response and recovery phases of an emergency. The combined LEMA General Plan and its supporting documents have been designed to ensure that appropriate strategies are in place to minimise the adverse effects on the community after a natural disaster, emergency or major incident.

Following a series of workshops and stakeholder engagement sessions, the City of Belmont and Town of Victoria Park's joint LEMA General Plan and the

Recovery Plan have been reviewed and prepared in accordance with State Emergency Management requirements (refer Attachment 12.1.1 and Attachment 12.1.2).

The Town of Victoria Park is also in the process of formally adopting the updated versions of the LEMA and its own Recovery Plan.

Once adopted by the respective local governments, minor reviews will be undertaken annually following any exercises or tests of the LEMA before the next full review in five years' time.

Officer Recommendation

That Council:

1. Adopts the City of Belmont and Town of Victoria Park Local Emergency Management Arrangements General Plan and supporting documents (Attachment 12.1.1).
2. Adopts the City of Belmont Local Emergency Management Recovery Plan and supporting documents (Attachment 12.1.2).

Officer Recommendation adopted en bloc by an absolute majority - Refer to Resolution appearing at Item 12.

Location

Not applicable.

Consultation

No public consultation is necessary in this review process.

As part of the required engagement process, training and consultation involved the following:

Internal

- Mayor and Deputy Mayor
- Executive Leadership Team
- Relevant Managers, Coordinators and staff

External

The Local Emergency Management Committee (LEMC), including:

- Belmont State Emergency Service
- Belmont Forum
- Boronia Pre-Release Centre
- Crown Perth
- Curtin University
- District Emergency Management Advisor
- Department of Communities
- Department of Fire and Emergency Services
- Department of Primary, Industry and Regional Development
- Department of Transport
- Main Roads
- Optus Stadium
- Perth Airport
- Perth Racing
- Perth Freight Terminal
- Public Transport Authority
- St John Ambulance
- Town of Victoria Park
- Water Corporation
- Western Australian Police
- Western Power

Additional feedback was sought from various industry specialists who have significant Emergency Management knowledge and experience, including:

- The District Emergency Management Advisor (DEMA)
- Staff from Department of Communities
- A Fire and Emergency Management Consultant
- Department of Fire and Emergency Services Superintendents
- Belmont Police

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: People

Outcome: 1. A safe, healthy community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

The *Emergency Management Act 2005 (WA)* (the Act) provides for the prompt and coordinated management of emergencies within the State.

The Act identifies a formal State, District and Local level emergency management structure, specifies responsibilities and allocates them to each level of government.

Among other requirements, each local government must establish an active LEMC and formulate and maintain effective Emergency Management Arrangements and a Recovery Plan.

Local government is also responsible for the management of recovery activities following an emergency affecting their community.

The following provisions apply:

Emergency Management Act 2005 (WA)

Section 41 Emergency Management Arrangements in Local Government Districts

- (1) A local government is to ensure that local emergency management arrangements for emergency management in the local government's district are prepared.

Section 42 Reviewing and Renewing Local Emergency Management Arrangements

- (1) A local government is to ensure that its local emergency management arrangements are reviewed in accordance with the procedures established by the State Emergency Management Committee.
- (2) Local emergency management arrangements may be amended or replaced whenever the local government considers it appropriate.

Part 3.8 of the State Emergency Management Procedure specifies that a local government must ensure review of the LEMA after a major incident, or every five years, or whenever the local government considers it appropriate.

Background

City of Belmont and Town of Victoria Park have a combined Local Emergency Management Committee (LEMC) and Local Emergency Management Arrangements (LEMA).

Combined LEMCs and LEMAs are common across the Perth metropolitan area, especially in small and mid-sized Local Government areas.

Historically the City of Belmont and Town of Victoria Park have shared responsibility for the State Emergency Service (SES) unit with both communities exposed to similar urban related risks. For this reason, in 2006 the State Emergency Management Committee (SEMC) recommended that the City of Belmont and Town of Victoria Park share a combined LEMC and LEMA.

A major review of the LEMA every five years or after a major emergency is a statutory requirement. The last major review was completed in 2020 with the updated LEMA being endorsed at the OCM held 26 May 2020 (Item 12.8).

The State Emergency Management Policy also requires minor reviews of the LEMA to be undertaken annually following any exercises or tests of the LEMA. Over the last five years the City has undertaken a series of workshopped "emergencies" as well as responding to a number of actual incidents (Belmont and Kewdale factory fires, Ascot Marina boat fire and Victoria Park cafe fire opposite the City's Operation Centre). Post incident reviews from all these workshops and incidents identified the need for a more simplified format of the LEMA General Plan, Recovery Plan, and their supporting documentation.

The City engaged the services of a consultant to assist in a series of key stakeholder workshops and consultations and has fully reviewed and updated both Plans. The Plans have been simplified making them easy to read, understand and implement at a time of crisis.

The existing joint Recovery Plan has been separated providing tailored Recovery Plans for the City of Belmont and the Town of Victoria Park. This was done to provide each organisation with a better targeted, community focused Plan that reflects local demographics and provides each organisation's specific contacts and details.

The purpose of the LEMA General Plan and the Recovery Plan, and their supporting documents, is to structure how the City coordinates and operates during the response and recovery phases of an emergency.

Both Plans have been designed to ensure that appropriate strategies are in place to minimise adverse effects on the community and to restore normality as quickly as possible following an emergency event.

The Town of Victoria Park are also in the process of formally adopting the updated versions of the LEMA and their Recovery Plan.

Report

The City of Belmont and Town of Victoria Park's combined LEMA – General Plan 2025 and the City of Belmont's specific Recovery Plan and their supporting documents have been prepared in accordance with the Act and Guidelines.

The purpose of the LEMA is not to coordinate the first respondents or Hazard Management Authorities (HMAs) in an emergency, or to strategise against the possibility of an emergency. Its purpose is to provide structure as to how the City coordinates and operates during the response and recovery phases of an emergency.

The combined LEMA General Plan and its supporting documents have been designed to ensure that appropriate strategies are in place to prepare to minimise the adverse effects on the community after a natural disaster, emergency or major incident.

The City's own Recovery Plan and its supporting documents outline the mechanisms and strategies for the City to effectively recover from the aftermath of a disaster or emergency, with the objective of having a minimal impact on the community and to restore normality as quickly as possible.

The content of the General and Recovery Plans can be summarised as follows:

- Specific details of the local areas in an emergency management context (evacuation constraints such as rivers, highways, key infrastructure and railway lines, major facilities, community events).
- Related documents, policies, agreements, understandings, and commitments.
- Identification of High-Risk persons and groups within the community.
- Identification of Animal Welfare needs and management processes.
- Register of available resources and contacts.
- Financial arrangements for funding emergency and recovery related activities.
- Local roles and responsibilities during and following an emergency.
- Identification of major hazards and the HMAs responsible for those hazards.
- Communications Plan.
- Identification of facilities suitable for use during and following an emergency (evacuation/welfare centres, meeting rooms).
- Identification of Local Recovery Coordinators.
- Exercise, review and report requirements for the LEMA.

- An operational Recovery Plan.
- Activation of Recovery Plan, operational checklists and managed withdrawal of services.
- Local management structure and identification of functions and membership of the Local Recovery Coordinating Group and its
- Sub-Committees.
- Department of Communities – Local Emergency Welfare Plan

The LEMA General Plan and Belmont specific Recovery Plan, and their supporting documents have been tabled with the City of Belmont/Town of Victoria Park LEMC. Once endorsed and adopted by Council both Plans will be tabled by the LEMC with the District Emergency Management Committee (DEMC) and the SEMC for their endorsements.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

The alignment of Local, State and Federal Emergency Management Arrangements assists in the management of emergency situations and the City of Belmont's role in the local community's recovery from emergencies.

During and after a time of extreme crisis the community expects local government to take care of them, provide emergency support and assist them in their recovery.

1.5 Glossary of Terms and Acronyms

Refer **Appendix 1** for glossary directly related this document.

For the State glossary for the emergency management sector in Western Australia – [Click Here](#).

1.6 Related Documents & Arrangements

To enable integrated and coordinated delivery of emergency management within the City of Belmont and Town of Victoria Park, these arrangements, support plans and other related documents should be read in conjunction and are consistent with State Emergency Management Policies and State Emergency Management Plans.

1.6.1 State Emergency Management Plans

Copies of relevant [State Emergency Management Plans](#) including State Hazard Plans are available on the [WA Government Website](#), including:

- State EM Plans
- State Hazard Plans
- State Support Plans
 - Emergency Relief and Support
 - Emergency Public Information
 - Animal Welfare in Emergencies
- National EM Plans.

1.6.2 Local Emergency Management Plans

The following emergency management plans support the City of Belmont and Town of Victoria Park Local Emergency Management Arrangements (LEMAs) and should be read in conjunction with each other, these include:

- City of Belmont and Town of Victoria Park Local Recovery Plan 2025 (Stand-alone plans)
- Business Continuity Plan (Stand-alone plan)
- City of Belmont and Town of Victoria Park Risk Analysis (see **Appendix 3**)
- City of Belmont and Town of Victoria Park Higher Risk Persons & Groups Plan (see **Appendix 6**)
- City of Belmont and Town of Victoria Park Animal Welfare Plan - 2025 (see **Appendix 8**)

1.7 Local Emergency Management Policies

Policies for emergency management refer to any policies, which are unique to City/ Town, being bylaws or operational policies. The City of Belmont and Town of Victoria Park policies relating to emergency management include:

- Emergency Management Policy – See **Appendix 5(a) & Appendix 5(b)**

1.8 Agreements, Understandings and Commitments

1.8.1 Mutual Aid Agreement

The City of Belmont and Town of Victoria Park along with other local governments, organisations and agencies signed a memorandum of understanding for the provision of mutual aid during emergencies and post incident recovery.

The purpose of these memorandum is to:

- Facilitate the provision of mutual aid, between, during emergencies and post incident recovery.
- Enhance the capacity of your communities to cope in times of difficulty.
- Demonstrate capacity and willingness by working cooperatively and sharing resources where possible.

Agreement Parties	Description
City of Belmont and Town of Victoria Park	Reciprocal agreement to share equipment and resources.
Crown Perth	Use of facility in the event that own facility is unavailable.

For further information in regard to MOU's and agreements with the City/ Town – See **Appendix 12**

2. Overview

2.1 Area Covered

The City of Belmont and Town of Victoria Park are located less than 10km east of Perth CBD across the Swan River. The combined area of the two Local Governments totals to 58 square kilometres.

Figure 1: Map of the City of Belmont and Town of Victoria Park

Suburbs of each Local Government area:

CITY OF BELMONT	TOWN OF VICTORIA PARK
Dwellings: 22,643 (Area 40 sq km)	Dwellings: 18,136 (Area 18 sq km)
Ascot	Bentley (Part of)
Belmont	Burswood
Cloverdale	Carlisle
Kewdale	East Victoria Park
Perth Airport	Lathlain
Redcliffe	St James (Part of)
Rivervale	Victoria Park

Surrounding Local Governments:

City of Bayswater (North)	City of Canning (South)
Town of Bassendean (North)	City of South Perth (West)
City of Swan (North-East)	City of Perth (North-West)
City of Kalamunda (East)	City of Canning
City of Gosnells	

2.2 History and Culture

The City of Belmont and Town of Victoria Park area, like much of the broader Perth region, is situated on the traditional lands of the Whadjuk Noongar people, one of the 14 language groups within the Noongar Nation. The Swan River holds profound cultural and spiritual significance for the Whadjuk Noongar, as it is linked to the Waugal, a powerful creation spirit believed to have formed the river and its surrounding features. A culturally significant site near the Causeway is known as 'Matta Gerup' (knee deep).

European settlement began in 1829 with the establishment of the Swan River Colony. The City of Belmont, established in 1961, attained City status in 1979. Initially focused on agriculture and horse racing, Belmont has grown into a diverse area combining residential, industrial, and commercial development, with Perth Airport as a major feature. The Town of Victoria Park was historically an inner suburb of the City of Perth until 1994, when it became a separate local government area. Today, it is a vibrant, multicultural suburb known for its dynamic community and is home to prominent landmarks such as Optus Stadium and Crown Perth.

2.3 Population and Demographics

The City of Belmont and Town of Victoria Park's population and demographics information is summarised below. Additional Census 2021 data for City/ Town can be found [here](#).

City of Belmont

42,806 Population	1.6% Annual Growth	296 Natural Increase	725 Net Overseas Migration	-339 Net Internal Migration
-----------------------------	---------------------------------	-----------------------------------	---	--

All data are from 30 June 2020, unless stated otherwise.

Town of Victoria Park

37,784 Population	2.1% Annual Growth	135 Natural Increase	921 Net Overseas Migration	-293 Net Internal Migration
-----------------------------	---------------------------------	-----------------------------------	---	--

All data are from 30 June 2020, unless stated otherwise.

Source: <https://population.gov.au/data-and-forecasts/dashboards/population-local-government-areas>
The Town of Victoria Park has a Community Profile that states that the population is 42,352.
 - <https://profile.id.com.au/victoria-park>

2.4 Climate

The climate of the City of Belmont and Town of Victoria Park (East Perth) is described as hot, dry summers and light winters. The average annual temperature ranges from 17-31°C in summer to 8-19°C in winter. The average rainfall in City of Belmont and Town of Victoria Park (East Perth) is estimated to be 730 mm, depending on location, and occurs mainly in winter from June to August.

2.5 Topography

The City of Belmont and Town of Victoria Park, located in east of Perth, features a generally flat to gently undulating topography, with some slight rises, particularly in the northern areas. It lies along the Swan River's southern banks, with low-lying, flat land near the river's edge, including wetlands and reclaimed land. The area has been heavily developed, though the natural landscape retains traces of its historical watercourses and wetlands. The topography's relatively flat nature makes it ideal for urban development, contributing to Belmont's mix of residential, commercial, and recreational spaces.

2.6 Economic Profile

The City of Belmont has a diverse economy driven by manufacturing, logistics, retail, and service sectors. Its proximity to Perth Airport and the CBD supports industries such as warehousing, distribution and business services. The retail sector is growing, with Belmont Forum as a key hub, and the tourism and hospitality industries benefit from the city's location near the Swan River. The workforce is varied, with employment across retail, logistics, construction, and services, making Belmont an economically vibrant area.

The Town of Victoria Park has a vibrant and diverse economy, with key sectors including retail, hospitality, professional services, and residential development. The town's proximity to Perth's CBD and key transport routes, such as the Graham Farmer Freeway, makes it a hub for both businesses and residents. The retail sector is strong, with both large shopping centres and local boutique stores. The hospitality industry thrives with numerous cafes, restaurants, and entertainment venues. Ongoing residential development and revitalisation projects contribute to a growing local economy. Employment is spread across a variety of industries.

2.7 Critical Infrastructure

Critical infrastructure includes physical facilities, supply chains, systems, assets, major arterial roads and rail networks, information technologies and communication networks which, if destroyed, degraded or rendered unavailable for an extended time, would significantly affect the social or economic wellbeing of the City of Belmont and Town of Victoria Park community.

2.7.1 Electrical Supply

Power to all developments within the City of Belmont and Town of Victoria Park is supplied by Western Power. Current supplies are considered adequate however any major increase in demands may impact supply.

2.7.2 Gas Supply

Gas is supplied to households and businesses via a gas network managed by ATCO Gas.

2.7.3 Sewerage System

The City of Belmont and the Town of Victoria Park are serviced by sewerage infrastructure. The sewerage systems in these areas are managed by the Water Corporation. City of Belmont and the Town of Victoria Park does not have its own dedicated sewage treatment plant. Wastewater from east of Perth is typically transported to one of the nearby regional treatment plants such as Subiaco Wastewater Treatment, Woodman Point or Beenyup Plants.

2.7.4 Water Supply

The water supply for the City of Belmont and the Town of Victoria Park is managed by the Water Corporation, with water sourced primarily from dams, groundwater, and desalination plants. The water undergoes treatment at local plants before being distributed through an extensive pipeline network to residential, commercial, and industrial customers. The system includes storage in reservoirs and water towers to maintain supply pressure and ensure reliable distribution.

2.7.5 Medical Services

Royal Perth Hospital	197 Wellington Street, Perth	(08) 9224 2244
Bentley Hospital	18-56 Mills Street, Bentley	(08) 9416 3666
Belmont City Medical Centre (not for emergency care)	321 Abernethy Road, Cloverdale	(08) 9277 3999
Victoria Medical Group	734 Albany Hwy, Victoria Park	(08) 9473 7888

The closest hospitals to the City of Belmont and the Town of Victoria Park are Royal Perth Hospital, located west of the area across the Swan River, and Bentley Hospital, situated to the south. Only Royal Perth Hospital offers emergency care service, however both offer medical services and outpatient treatment.

2.7.6 Transport & Airport Facilities

ROAD:

The City of Belmont and Town of Victoria Park has a comprehensive road network that enhances transportation and access in the region. Key transport links include:

Albany Highway	Connects Perth to Albany and other regional centres
Great Eastern Highway	Connects Perth to the East /West transport route
Leach Highway	Connect Fremantle with the Perth Airport
Tonkin Highway	Connects Armadale to Perth and to the Great Northern Highway
Shepperton Rd	Connects Perth to South East Corridor
Orrong Rd/ Graham Farmer Freeway	Connects Perth to South East Corridor which lead to the Kewdale Welshpool industrial areas and key arterials to Leach, Tonkin and Roe Highways.
Welshpool Road	Connects Shepperton Road past several arterial Roads

The City of Belmont has 234 kilometres of sealed roads, and the Town of Victoria Park has 175 kilometres of sealed roads; neither local government has unsealed roads. To see updates on current road conditions visit [Main Roads Travel Map - Map](#)

AIRPORT:

Perth Airport, located about 10 km east of the Perth CBD and is Western Australia's primary aviation hub, serving both domestic and international flights. It features four main terminals split across two precincts and supports travel for passenger and freight traffic, plus the mining and resources sector with FIFO services. The airport is connected by road via the Tonkin and Great Eastern Highways, public transport, and the Airport Line train.

RAILWAY:

The Perth train network consists of five main lines and is an integral part of public transportation in the Perth metropolitan area, managed by Transperth. For Perth railway line maps – [click here](#).

The railway line flyovers within the City of Belmont and the Town of Victoria Park are located at:

Riversdale Road	Oats Street
Great Eastern Highway	Welshpool Road
Roberts Street	Leach Highway
Archer Street	

BRIDGES:

There are several bridges that service the City of Belmont and Town of Victoria Park areas and all from significant arterial accesses to and from the Perth City and key industrial locations, as well as the Perth Airport precinct and these are as follows:

The Causeway Bridge	East Perth / Burswood	Causeway
Windan Bridge	East Perth / Burswood	Graham Farmer Freeway
Garratt Road Bridge	Bayswater / Ascot	Garratt Road
Mooro-Beeloo Bridge (Redcliffe Bridge)	Bayswater / Ascot	Tonkin Highway
Stanton Rd Bridge (connects Redcliffe to Perth Airport Precinct)	Ascot/Perth Airport Precinct	Tonkin Highway
Leach Highway Flyover/ Interchange (connects Perth Airport/ Tonkin Hwy)	Kewdale/Perth Airport Precinct	
Kewdale Rd/ Horrie Miller Drive (Kewdale Industrial Area Perth Airport Indust. District)	Kewdale/Perth Airport Precinct	
Tonkin Hwy Bridge - Fly over/ Abernathy Rd Kewdale Industrial District	Kewdale/Perth Airport Precinct	
Leach Hwy Flyover / Orrong Rd	Kewdale / Welshpool	
Leach Hwy Flyover / Abernathy Rd	Kewdale	
Tidewater Way Bridge Over Swan River entering Black Swan Island, Ascot		

2.7.7 Communications Infrastructure

For maps of Telstra mobile coverage [click here](#).

2.7.8 Public Facilities

3. Emergency Management Planning

3.1 Aim and Purpose

Aim of this LEMA is to **minimise** the effects of, ensure a coordinated response to, and provide an effective recovery from, an emergency affecting City of Belmont and Town of Victoria Park.

Purpose of this LEMA is to **maximise** safety and ensure sound recovery of the City of Belmont and Town of Victoria Park community, preserving lives, livelihoods and environment, in the event of an emergency.

3.2 Objectives

Understand the roles and responsibilities of government and non-government agencies/ individuals involved in emergency management

Describe the provisions for coordinating emergency operations and activities relating to emergency management performed by persons/agencies within these LEMAs

Describe the emergencies likely to occur within or around the City of Belmont and Town of Victoria Park

Describe strategies and priorities for emergency management within the City of Belmont and Town of Victoria Park

Explain matters pertaining to emergency management within the City of Belmont and Town of Victoria Park prescribed by the regulations and within (s.41(2)) of the Emergency Management Act (2005)

Promote a consistent multi-agency approach with community engagement, relating to emergencies within the City of Belmont and Town of Victoria Park.

3.3 Scope

This document does not detail procedures for Hazard Management Agencies (HMAs) when dealing with an emergency. These should be detailed in the HMA's individual plans. These arrangements are to ensure HMAs, Support Agencies and stakeholder parties are ready to deal with the identified emergencies in a coordinated manner should they arise.

This LEMA only:

Apply to the area of the City of Belmont and Town of Victoria Park

Cover areas where the City of Belmont and Town of Victoria Park provides support to HMAs at an emergency incident

Detail the City of Belmont and Town of Victoria Park's capacity to provide resources to support an emergency, while still maintaining business continuity and responsibilities relating to recovery management

3.4 Roles and Responsibilities

See **Appendix 2** for details of specific roles and responsibilities for officers or see the [LEMC Handbook](#)

3.5 Resources

The HMAs or their Control Agency (CA) are responsible for determining the resources required for their specific hazards and operations.

Refer **Appendix 4** for the City of Belmont and Town of Victoria Park's **Contacts and Resources Directory** information (confidential) for specific details of resources available.

3.6 Local Mutual Aid

Authority to release resources to assist in other agencies will rest with the CEO (or delegate). (**See TBC - MOU Appendix 12**)

3.7 Financial Arrangements

The emergency funding principle is to ensure accountability for the expenditure incurred. The organisation with operational control of any resource shall be responsible for paying all related expenses associated with its operation during emergencies, unless other arrangements are established.

[State EM Policy Section 5.12](#), [State EM Plan Sections 5.4, 6.10](#) and [State EM Recovery Procedures 1-2](#) outline the responsibilities for funding during multi-agency emergencies. The City of Belmont and Town of Victoria Park recognises the above and is committed to expending such necessary funds within its current budgetary constraints as required to ensure the safety of its residents and visitors.

3.7.1 Authority to Incur Expense

The CEO, or delegate authority (e.g. Local Recovery Coordinator (LRC)), should be approached immediately when an emergency occurs that requires resourcing by the City of Belmont and Town of Victoria Park, to ensure the desired level of support is achieved. E.g.: Local Recovery Coordinator- Local Liaison Officer.

3.7.2 Response

All City of Belmont and Town of Victoria Park resources are registered and identified in the City/ Town asset register located in the Contacts and Resource Directory (see **Appendix 4**).

Staff and resources are available for response to emergencies in accordance with Sections 38 and 42 of the [Emergency Management Act 2005](#). Where possible, a single person shall be appointed to the position of Finance Officer during an emergency.

3.7.3 DRFAWA

The [Disaster Recovery Funding Arrangements](#) (DRFA) is an arrangement, not an agreement, between the Commonwealth and States and Territories. These arrangements identify the relief and recovery assistance that the Commonwealth will contribute financially. The DRFA determines the terms and conditions that must be met if States are to claim financial assistance from the Commonwealth. See **Appendix 12** for the Local Recovery Plan 5.2 for further details.

»»» ACTION

- **City/ Town to appoint a single person to the position of Finance Officer to ensure in-house accounting and documentation processes are in-line with DRFAWA's reporting and claim requirements.**
- **City/ Town to allocate an account number immediately an operation is mounted to provide and record the necessary funding required.**
- **In a declared State of Emergency when the incident meets DRFAWA eligibility requirements the City/ Town is to seek recovery funding – see Local Recovery Plan**

4. Local Emergency Management Committee

4.1 Introduction

The City of Belmont and Town of Victoria Park has established a LEMC under Section 38(1) of the [Emergency Management Act \(2005\)](#) to oversee, plan and test the LEMAs.

The LEMC is not an operational committee but a working group, which includes representatives from agencies, organisations and community groups that are relevant to the identified risks and LEMAs for the area. The LEMC will assist in developing LEMAs and coordinate its emergency management partners/stakeholders within its region.

For more information see the [LEMC Handbook](#) that provides a summary of the WA emergency management arrangements, key roles, and responsibilities and best practice advice for the administration of LEMC.

4.2 LEMC Role

The LEMC performs a vital role when assisting the City of Belmont and Town of Victoria Park and its community to be prepared for major emergencies by:

Developing, enhancing and testing preparedness planning from a multi-agency perspective having local knowledge of hazards, demographic and geographic issues

Providing advice to HMAs/CAs to develop localised hazard plans

Providing a multi-agency forum to analyse and treat local risk

Providing a forum for multi-agency stakeholders to share issues and learnings to ensure continuous improvement

Investigate community engagement initiatives towards emergency awareness and emergency management information

4.3 LEMC Procedures

The LEMC shall meet as determined by the Executive Officer on the second Monday of every March, June and September and the first Monday of December. The LEMC shall meet quarterly or more frequently as required by [Emergency management procedures](#) 3.7.

Each LEMC meeting should consider, but not be restricted to, the following matters:

Confirming local emergency management contact details of key stakeholders
Reviewing any post-incident reports and post exercise reports generated since last meeting
Progressing emergency risk management processes
Progressing treatment strategies arising from emergency risk management process
Progressing development or review of local emergency management arrangements
Progressing and investigation of a range of community engagement initiatives
Other matters determined by the local government and SEMC direction

LEMC will also consider other issues including annual reporting, training, grant funding applications, special projects and other matters as necessary. Also considered will be initiatives to enhance community awareness and resilience in emergency management matters.

4.4 LEMC Membership

LEMC membership includes the City of Belmont and Town of Victoria Park representatives and the Local Emergency Coordinator OIC WAPOL. Relevant government agencies, industries and other statutory authorities will nominate their representatives to be members of the LEMC.

The City of Belmont and Town of Victoria Park, in consultation with the parent organisation members, determines the appointment term of LEMC members. Representatives from community and community groups will be invited to attend as required. For details on membership roles and responsibilities. (**Appendix 2**)

4.4.1 LEMC Members

Agency	Position	Voting
City of Belmont Town of Victoria Park	LEMC Chair	✓
	LEMC Deputy Chair	✓
	Local Recovery Coordinator (LEC)	✓
	Local Government Liaison Officer (LGLO)	✓
	Local Government Executive Officer	✓
	Local Government Managers	✓
	Media/ Communications Officer	✓
	Administration Support Officer	✓
Belmont Forum	Manager	✓
Belmont SES	Manager	✓
Boronia Pre-Release Centre	Representative	✓
Crown Perth	Representative	✓
Curtin University	Representative	✓
Department of Communities	Emergency Relief and Support Officer	✓
Department of Fire & Emergency Services (DFES)	District Emergency Management Advisor (DEMA)	
Department of Fire & Emergency Services (DFES)	District Officer(s) Emergency Management	✓
Department of Primary Industries & Regional Development (DPIRD)	Representative	✓
Optus Stadium	Representative	✓
Pacific National	Representative	✓
Perth Airport	Representative	✓
Perth Racing	Representative	✓
WA Police - Belmont	OIC / Local Emergency Coordinator	✓
WA Police - Cannington	OIC	✓
WA Police - Kensington	OIC	✓
Water Corporation	Representative	
Western Power	Representative	✓
Community Members	Representative	

The list above is not limited, with members co-opted as, and when, required.

4.5 LEMC Reporting

4.5.1 Annual Reporting

After the end of every financial year, each LEMC is to prepare an annual report on activities undertaken and submit it to the DEMC for the district (Section 40(1) EM Act). Annual reports must be completed using the templates provided in [State Emergency Management Preparedness Procedure](#) 3.17.

4.5.2 Preparedness Reporting

The Annual and Preparedness Report Capability Survey (sent out mid-April completed by June) is submitted to the Minister for Emergency Services by 31st October each year. The report enables the State to gain a greater understanding of the requirements to manage large-scale and/or multiple emergency events. [State EM Procedure](#) 3.18.

4.6 LEMC Special / Emergency Meetings

A special meeting for LEMC members may be called by the LEMC Chair City of Belmont or the Town of Victoria Park, informing CEOs of the City of Belmont and Town of Victoria Park. The Local Emergency Coordinator/s (OIC Police Belmont, OIC Kensington) shall be consulted around Extraordinary/Special LEMC meetings.

Extraordinary meetings can be called for situations of impending emergency or special circumstances requiring all LEMC members to be present and updated.

A LEMC Special Agenda can be viewed at **Appendix 11 (a)**

5. Managing Risk

5.1 Emergency Risk Management

Emergency Risk Management is defined as 'a systematic process which contributes to the wellbeing of communities and the environment. The process considers the likely effects of hazardous events and the controls by which they can be minimised.'

The City of Belmont and Town of Victoria Park and its LEMC recognise that risk management is a critical component of the emergency management process. This risk management process paves the way for the City of Belmont and Town of Victoria Park and its LEMC partner agencies to work together to implement treatments to mitigate risks to the community.

The City of Belmont and Town of Victoria Park's Emergency Risk Management Assessments meet the requirements as per [State Emergency Management Prevention and Mitigation Procedure 2.1](#) – see **Appendix 2**.

5.2 Risks Identified

The City of Belmont and Town of Victoria Park has undertaken a risk analysis within its district using the [National Emergency Risk Assessment Guidelines](#), the Western Australian Emergency Risk Management Guide, which are aligned with the Australian/New Zealand International Standard Organisation (AS/NZS ISO 31000:2018) Risk Management – Principles and Guidelines as directed by SEMC.

Emergency Risk Assessment Workshops for the communities of the City of Belmont and Town of Victoria Park were conducted in early 2020.

The greatest risks identified were:

The relevant HMA's are responsible for the above risks and will develop, test, and review appropriate emergency planning for their designated hazard. There are 29 State Hazards in Western Australia under State emergency legislation to view State Risk Profile Fact Sheets – [click here](#)

Responsible agencies may require local resources and assistance to manage an emergency. Requests for assistance/support and resources will normally be channelled through the Incident Support Group (ISG) established by the HMA/CA.

5.3 Risk Management Planning

The City of Belmont and Town of Victoria Park are committed to developing and implementing local Emergency Risk Management strategies according to their priority.

The City of Belmont and Town of Victoria Park's Risk Register from 2020 can be viewed at **Appendix 3**

Note: The Risk Register is currently under review through the State Risk Project.

6. Response & Coordination Emergency Operations

The Emergency Management Act 2005 allows Hazard Management Agency/s (HMA)'s to be established. They are created due to their functions under written law or because they have specialised knowledge, expertise and resources in respect to a particular hazard. HMAs will nearly always be responsible for leading a response to an emergency in relation to the type of hazard relevant to that agency. (See [State Emergency Management Plan](#) - **Appendix C** to view Hazard Management Agencies and Controlling Agencies responsibility list for WA hazards).

HMAs may require resources and assistance to manage emergencies. The City of Belmont and Town of Victoria Park recognises this and is committed to providing assistance/support if the required resources are available through the ISG when it is formed. For Contacts and Resources see **Appendix 4**

6.1 Activation of Local Arrangements

When an incident is assessed as Level 2 or 3 the HMA/Controlling Agency (CA) Incident Controller (IC) must make an incident declaration to ensure all agencies involved in the response are aware of the conditions and potential for escalation.

Town/ City will ensure all requested support is available to the HMA/CA

LRC will advise the CEO of the need to convene the City/ Town's LRG as necessary

LRC will assess need to activate the LRP after becoming aware of, or on advice from the HMAs IC

If the City of Belmont and Town of Victoria Park's LRC decides not to convene and activate the appropriate LRG and LRP, due to statutory and/or other agencies adequately addressing the situation, the LRC will continue to monitor the situation and keep the CEO and Council briefed accordingly.

6.2 Incident Support Group

The ISG provides support to the Incident Management Team (IMT) and is made up of people represented by different agencies that may/are involved in the incident.

The CA appointed IC convenes the ISG to assist with coordinating services and information during a major incident. HMAs and combat agencies may require resources and assistance to manage emergencies and to clearly identify priorities for sharing information and resources. The City of Belmont and Town of Victoria Park is committed to providing assistance/support, if required resources are available, through the ISG if, and when, informed.

6.2.1 Triggers for Incident Support Group

The triggers for an ISG are defined in the [State EM Policy](#) Statement 5.2.2 and State Emergency Management Plan Section 5.1 being:

6.2.2 Incident Support Group Membership

The ISG is made up of agency representatives that provide support to the CA. Emergency management agencies may be called on to provide liaison officers for the ISG.

The City of Belmont and Town of Victoria Park's LRC should be a member of the ISG from the onset, ensuring consistency of information flow, situational awareness and effective transition handover to recovery.

Representation on the ISG may change regularly depending upon the incident, agencies involved, and consequences caused by an emergency. Agencies supplying staff for the ISG must ensure the representative(s) has authority to commit resources and/or direct tasks within their organisation/agency.

6.2.3 Incident Support Group Meeting Location and Frequency

The IC determines the frequency of meetings depending on the nature and complexity of incident. As a minimum, there should be at least one meeting per incident. Clearly identifying priorities and objectives of the agencies sharing information and resources will ensure good coordination. **The IC is responsible for the location** of meetings in consultation with the City of Belmont and Town of Victoria Park.

The following table identifies suitable locations where ISG meetings can be held within City of Belmont and Town of Victoria Park.

City Of Belmont			
Venue	Address	Contact	Facilities
Belmont Civic Centre Rivervale Room - Primary	215 Wright Street, Cloverdale	(08) 9477 7222	Meeting room, internet, laptops, kitchen, whiteboard, projector, photocopier.
Belmont Operations Centre Training Room - Secondary	180 Planet Street, Carlisle	(08) 9477 7222	Meeting room, internet, laptops, kitchen, whiteboard, projector, photocopier.

Town Of Victoria Park			
Venue	Address	Contact	Facilities
Victoria Park Administration Centre Djeran Meeting room (Meeting Room 3) - Primary	99 Shepperton Road, Victoria Park	(08) 9311 8111	Meeting room, internet, whiteboard, photocopier, 2-way
Crown Perth - Secondary	Great Eastern Highway, Burswood	(08) 9362 8888	Conference room, internet

Where possible, ISG meetings may also be made available virtually, via an appropriate platform.

6.3 Incident Control Centre

Identified Incident Control Centres (ICC) can serve as central command centres during incidents for the Incident Management Team (IMT) to effectively control/coordinate incident operations.

For level 2 and 3 incidents, the Incident Control Centre (ICC) for an emergency will be designated by the HMA 'Incident Controller'.

Where the HMA requests an alternate location for the ICC, or where the primary location is non-serviceable, the following facilities are available if deemed appropriate for use:

City of Belmont ★			
Venue	Address	Contact	Facilities
Belmont Civic Centre	215 Wright Street Cloverdale	(08) 9477 7222	Meeting room, internet, laptops kitchens, whiteboards, projector, photocopier
Belmont Operations Centre Training Room	180 Planet Street Carlisle	(08) 9477 7222	Meeting room, internet, laptops kitchens, whiteboards, projector, photocopier

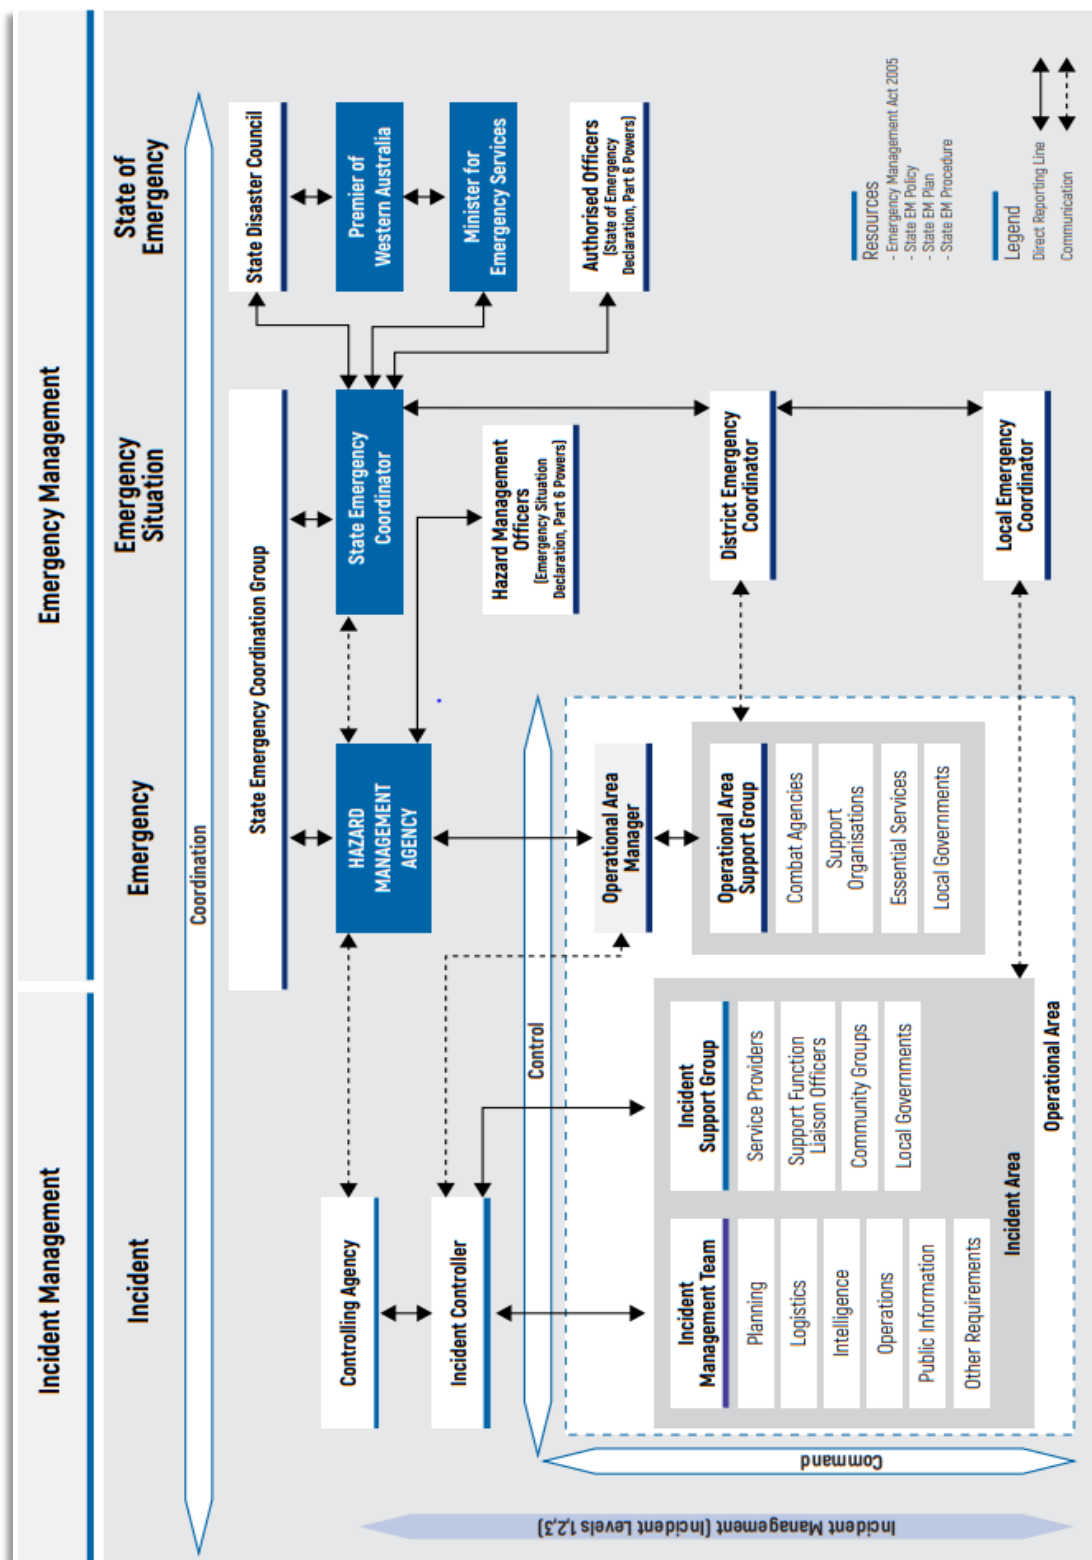

TOWN OF VICTORIA PARK ♥			
Venue	Address	Contact	Facilities
Victoria Park Depot Meeting Room	199 Star Street, Welshpool	(08) 9311 8111	Meeting room, photocopier, internet, whiteboard

6.4 State of Emergency

The Minister may declare a state of emergency (Section 56(1) [Emergency Management Act 2005](#)), when extraordinary measures are necessary to respond to an actual or imminent emergency for the protection of life, property and/or the environment. If a state of emergency is declared, the State of Emergency Coordination Group will be established.

During a state of emergency or emergency situation, the ability of emergency management agencies to share information is crucial. Section 72 of the [Emergency Management Act 2005](#) allows for relevant information to be shared between Hazard Management Officers (HMOs) or Authorised Officers and HMAs for the purposes of emergency management, despite any law of the State relating to secrecy or confidentiality.

7. Media Management & Public Information

Communities threatened or affected by emergencies have an urgent and vital need for adequate direction and timely information to help them become aware of the emergency and take appropriate actions to safeguard life and property.

HMA/CAs are responsible for disseminate information in the response phase of an incident.

The IC/Manager authorises and manages media and public information to reflect multi-agency involvement, and the following principles will apply:

HMA/CAs will manage all media releases under State Support Plan – Public Information

The IC/Manager will authorise all media releases and public information alerts for the incident after consultation with the HMA / CAs

All media releases are to reflect multi-agency incident management, detail all agencies' involvement and carry the agencies' identification

Must relate to incident only, not to operational protocols, procedures or administration. These issues will be referred to the relevant agency

Each agency is provided with copies of multi-agency incident media releases as soon as possible before release

All media releases issued by any agency at State level will reflect multi-agency involvement

7.1 Public Communication Systems

7.1.1 Local Government Local Communication Systems

The City of Belmont and Town of Victoria Park has the ability to support official emergency messaging through local communication systems including:

Website page

Local newsletters

Social media

Community notice boards

Emergency Management SMS system

Community/ Local radio stations

Any information for release to the media or public must be forwarded and approved by the CEO. The Mayors of the City of Belmont and Town of Victoria Park are the spokespersons to make statements to the press on behalf of the City of Belmont and Town of Victoria Park. The City of Belmont and Town of Victoria Park CEO, or a delegated representative, will be the Media and Public Information Officer.

7.1.2 Standard Emergency Warning Signal

stop & listen
Standard Emergency Warning Signal

A Standard Emergency Warning Signal (SEWS) is broadcast immediately prior to major emergency announcements on the radio, television, and other communication systems. A SEWS is only used in emerging situations of extreme danger when people need to be warned to take urgent and immediate action to reduce the potential for loss to life or property.

In Western Australia, DFES authorises SEWS broadcasts or the Regional Director of the Bureau of Meteorology (BoM) for weather and flood related events. When deciding to issue SEWS, the authorities will consider the following four factors:

- 1 • Possible loss of life or a major threat to many properties or the large-scale environment
- 2 • Impact is expected within 12 hours or is occurring at the time
- 3 • A large number of people need to be warned
- 4 • One or more incidents are classified as destructive

To listen to the SEWS sound [click here](#).

7.1.3 Emergency WA

Emergency WA

Emergency WA is Western Australia's trusted source for emergency information. You can find information about alerts and warnings for emergencies across Western Australia, along with other useful information such as Fire Danger Ratings, Total Fire Bans, Prescribed Burns and Burn Offs. Access at <https://www.emergency.wa.gov.au>

7.1.4 Emergency WA App

The Emergency WA app is Western Australia's trusted, official source for fast and accurate information during emergencies – helping you make informed decisions to stay safe. The app, available in the [App Store](#) or [Google Play](#), delivers instant notifications on a mobile device about warnings, incidents, Total Fire Bans and elevated Fire Danger Ratings in your area.

Information on Emergency WA comes directly from emergency responders. The app provides all the features of the Emergency WA website with the ability to set up customised notifications, so you receive the types of alerts that are important to you.

7.1.5 Emergency Alert System

An Emergency Alert automatically delivers warnings direct to an area where lives may be in danger. It does not replace current public information tools or the need for community to remain vigilant and look after its own safety. It is an additional tool used to alert people in a specific location in immediate danger.

All home phones (landlines), including silent numbers, are automatically registered on Emergency Alert. Mobile phones are automatically registered to the billing address.

In emergencies, HMAs authorise the broadcast of messages by Emergency Alert.

7.1.6 DFES Public Information Line

DFES recorded information line	1300 657 209
Emergency WA website	www.emergency.wa.gov.au
DFES website	www.dfes.wa.gov.au
SES assistance	132 500

7.1.5 Additional Information Outlets

Local ABC Radio	720 AM or 531AM
BOM information line	1300 659 210
BOM website	www.bom.wa.gov.au

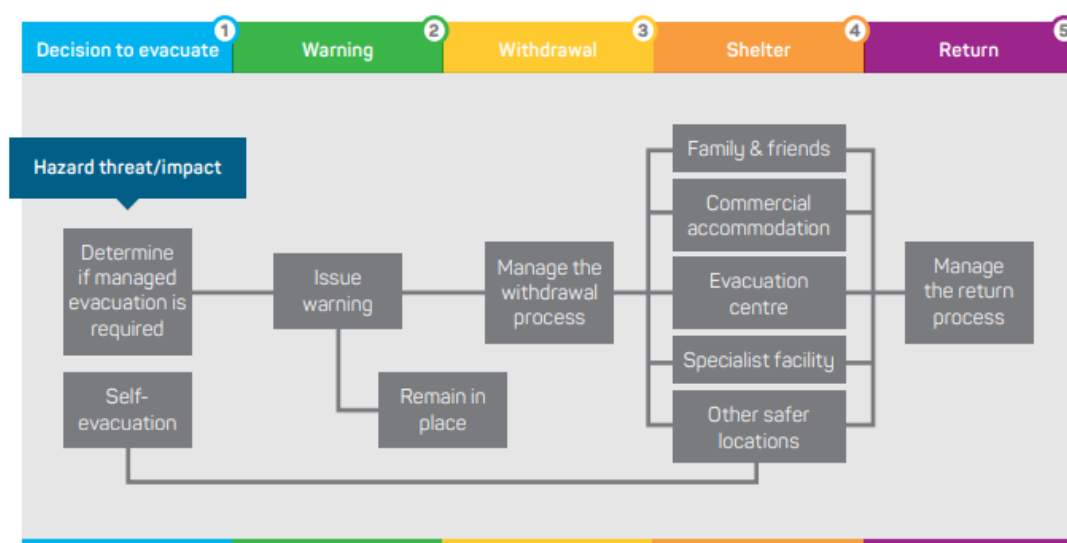

»»» ACTION

- The City/ Town acknowledges that public information and media management is critical in times of emergency.
- HMAs/CA IC responsible for information/media releases in response phase of incident.
- The City/ Town media releases are coordinated by the City/ Town's delegated Officer approved by CEO.
- The MAYOR or CEO (or delegated person) are the only parties to give public statements to media.
- Public warning systems shall be used, when necessary, under HMAs/CA IC authority.
- The City/ Town will support official emergency information by reiterating the messages via the City/ Town's communication avenues (Social media) website, SMS, etc.).

8. Evacuation

Evacuation is a risk management strategy that may be used to reduce loss of life or lessen the effects on a community, prior to the onset of, or during, an emergency. People who are threatened by a hazard will be moved to a safer location and, typically, their eventual safe and timely return.

In accordance with [State EM Policy](#) s5.7, evacuation planning is covered in five stages.

8.1 Evacuation Management

Evacuating people and/or animals from an area affected by a hazard is one of the strategies that may be used by emergency management agencies to mitigate the potential loss of, or harm to, life.

Evacuating residents is not always the optimum solution to managing the risk. Alternatives such as shelter in place, quarantine and/or controlling or restricting movement, should also be considered where appropriate.

The [WA Community Evacuation in Emergencies Guidelines](#) assist emergency management agencies to plan for and conduct community evacuation for all hazards.

8.1.1 Decision

The IC appointed by designated HMAs/CA or an authorised officer, makes the decision to evacuate when community members at risk do not have the capability to make an informed decision when loss of life or injury is imminent.

8.1.2 Timelines

Alternatives such as, '**shelter in place**' or '**prepare, stay and defend**', should be considered.

Deciding to evacuate or recommending evacuation should be made as early as possible. Late evacuation may potentially expose communities to greater levels of risk and escalate the situation.

8.1.3 Combat Agency for Evacuation

WAPOL will coordinate the evacuation in a planned and safe manner. Determining risk, need for long or short-term evacuation and immediate or planned evacuation, may be necessary.

8.1.4 Evacuation Centres

The Department of Communities is mandated to provide emergency accommodation (Evacuation Centres) as per the State Support Plan Emergency Relief & Support. With the support of the City of Belmont and Town of Victoria Park, Communities will ensure the Evacuation Centres are audited and considered fit for purpose. – see **Appendix 9**.

CITY OF BELMONT			
Building Name	Site Address	Capacity	Contact details
Belmont Oasis Leisure Centre	Cnr Abernethy Rd and Alexander Rd, Belmont	500	(08) 9277 1622
Forster Park Hall	Cnr Abernethy Rd and Keane St, Cloverdale	300	(08) 9477 7222
Rivervale Community Centre	Cnr Surrey Rd & Francisco St, Rivervale	235	(08) 9477 7222
Redcliffe Community Centre	33 Morgan Rd, Redcliffe	230	(08) 9477 7222

TOWN OF VICTORIA PARK			
Building Name	Site Address	Capacity	Contact details
Victoria Park Leisurelife Centre	34 Kent Street, East Victoria Park	500	(08) 9373 5450

8.2 Higher Risk Persons and Groups

City of Belmont and Town of Victoria Park relies on agencies responsible for Higher Risk Persons and Groups to ensure suitable planning and response capabilities to support those special needs clients.

Sections of the community with special needs such as aged, tourist facilities, children, physical disabilities, could be considered 'Higher Risk Persons'. **Appendix 6, Higher Risk Persons and Groups Plan**, provide guidance around working with and actions in evacuation assisting groups.

8.3 Evacuation Routes

Evacuation routes are principally from evacuation assembly areas to Evacuation Centres. Owing to the varying complexity within different emergencies, the IC HMAs/CA and WAPOL will determine strategic course of action at the time, particularly timelines for the evacuation. Extensive mapping information can be obtained from the City of Belmont, Town of Victoria Park and other State agencies.

8.4 Isolation and Quarantine

Directions regarding isolation, quarantine, physical distancing and health requirements are common during human epidemic/pandemic, animal/plant pests or diseases and hazardous material emergencies. These may add to the complexity of community evacuations and should be considered as part of planning to mitigate any risks ensuring evacuations can be carried out safely.

The inability to comply with any isolation or quarantine requirements and/or restrictions should not stop a person from being evacuated. Managing the immediate threat, protecting and preserving life must be paramount considering strategic control priorities that identify roles and actions for the emergency response, where there are concurrent risks or competing priorities. Seek advice from the HMAs for a hazard requiring isolation and quarantine when developing an emergency evacuation plan.

8.5 Return

HMAs/CA is responsible for deciding when to return evacuated residents. Their return will be conducted in consultation with affected community and relevant health and welfare agencies including Department of Communities and the Department of Health and relevant City of Belmont and Town of Victoria Park officers. For Department of Communities Local Emergency Relief and Support Plan– see **Appendix 7**.

»»» ACTION

- **HMAs/CA IC makes decisions to evacuate.**
- **LEMC and the City/ Town assist by pre-planning for evacuation.**
- **All alternatives to be considered.**
- **Decision to evacuate made as soon as possible.**
- **Higher Risk Persons and Groups to be a special consideration in an evacuation**
- **Routes and maps sourced via City/ Town Intramaps or Google maps or partner agencies.**
- **Ensure evacuation centre protocols and procedures are enacted – See Local Emergency Relief and Support Plan - Appendix 7.**

9. Emergency Relief & Support

The Dept of Communities (Communities) is mandated to provide Emergency Relief and Support in alignment with the State Support Plan: Emergency Relief and Support.

Emergency relief and support services provide immediate and ongoing social supports to alleviate, as far as practicable, the effects on people impacted by an emergency. These are provided across six functional domains:

The Local Emergency Relief and Support Plan (LERSP **Appendix 7**) has been developed by Communities to provide information about the activation, management and coordination of emergency relief and support before during and after an emergency.

9.1 Communities Local Evacuation Centre Coordinator (LECC)

See - **Appendix 2** for description of Roles and Responsibilities – Welfare

9.2 Local Government Liaison Officer (LGLO) (Emergency Relief and Support)

The City of Belmont and Town of Victoria Park nominates and appoints the Local Government Liaison Officer (LGLO) to assist the LECC to manage emergency evacuation centres such as building opening, closing, security and maintenance.

A City of Belmont and Town of Victoria Park staff member will be appointed the LGLO – see **Appendix 2** for description of Roles and Responsibilities – Emergency Relief and Support

9.3 Register Find Reunite

Is a service that lets family, friends and emergency services know that you are safe in the event of an emergency. Communities will activate Australian Red Cross when these services are required during emergencies.

Communities has reciprocal arrangements with [Australian Red Cross](#) to undertake this process.

9.4 Evacuation Centres

The City of Belmont and Town of Victoria Park in conjunction with Communities has identified suitable facilities within different localities.

These centres have been assessed and extensive information provided within the Evacuation Centres Register available for activation as required by the HMAs/IC (see **Appendix 7** for the City of Belmont and Town of Victoria Park's nominated Evacuation Centres, and **Appendix 9** for the Emergency Evacuation Centre's Directory).

Communities establishes evacuation centres as an emergency shelter option, from which to coordinate emergency relief and support services. These centres remain operational until alternative arrangements can be made for persons impacted by the emergency.

Communities is responsible for working cooperatively with the HMA, Local Government and LEMC members to identify suitable facilities that can be used as evacuation centres appropriate for hazards that are high risk to the region.

9.4.1 Animals in Emergencies

Animals are not permitted within Evacuation Centres. The only exception to this rule is certified guide dogs who have the appropriate national and international recognised standard of training.

The City of Belmont and Town of Victoria Park will support and assist with animal management wherever possible through the **Animal Welfare in Emergencies Plan (Appendix 8)**.

The owner or carer of an animal is responsible for its welfare and must decide, where possible, if their animals will be evacuated or remain on location and plan for how this will be achieved.

The Department of Primary Industries and Regional Development (DPIRD) is responsible for coordinating animal welfare services in emergencies as per [State EM Policy](#) s5.9.7 and [State Support Plan – Animal Welfare in Emergencies](#).

The City of Belmont and Town of Victoria Park Animal Support Plan (see **Appendix 8**) is aligned with the State's plan and provides detailed emergency management arrangements related to the welfare and management of animals including domestic pets, horses, livestock and wildlife.

»» ACTION

- **Communities are responsible for managing relief and support of people.**
- **DPIRD is responsible for managing the welfare of animals.**
- **Communities develops, maintains and enacts CoB Local Emergency Relief & Support Plan.**
- **The City/ Town Deputy Chair is the LGLO.**
- **Register Find Unite responsibility actioned by Communities supported by Australian Red Cross.**
- **Identified Evacuation Centres refer Emergency Evacuation Centres – APPENDIX 7.**
- **Rangers to support DBCA, DPIRD in animal support actions.**

10. Recovery

The recovery process begins during the response phase. It is important to identify community needs as early as possible to begin planning for the transition from response to recovery.

The Local Recovery Plan (LRP) is a separate plan to provide guidance in recovery, and is part of the overall LEMA, which can be viewed and read in conjunction with this Plan.

The City of Belmont and Town of Victoria Park LRP (***stand-alone plan***) guides and establishes sound recovery management, concepts, principles and values for City of Belmont and Town of Victoria Park staff, partnering agencies and community following significant impact from any emergency.

11. Exercising & Review

11.1 Exercising

The aim of conducting an exercise is to:

Test effectiveness of local arrangements and provide a pathway for improvement

Bring together members of emergency management agencies and give them knowledge of, and confidence in, their roles and responsibilities

Help educate community about local arrangements and programs

Allow participating agencies an opportunity to test their operational procedures and skills in simulated emergency conditions

Test the ability of separate agencies to work together on common tasks, and to assess effectiveness of coordination between them

11.1.1 Exercise Frequency

In accordance with State EM Policy, Plans and Procedures that outline arrangements for exercising, the LEMC is required to conduct at least one exercise annually. The September LEMC meeting will combine the LEMC meeting with an exercise.

11.1.2 Exercise Reporting

Exercise schedule and post exercise reports will be forwarded to the District Emergency Management Committee as part of LEMC's annual report.

11.2 Review of LEMA

The LEMA and associated support plans are to be reviewed in accordance with [State EM Policy](#) Section 2.5 and amended/replaced whenever the City of Belmont and Town of Victoria Park considers appropriate (Section 42 of EM Act).

Timeline to review and amend will be:

Contact lists reviewed and updated quarterly – Contacts and Resource Directory (Appendix 4)

A review is conducted after training that exercises the arrangements or relevant support plans

An entire review of the LEMA and associated support plans will be done every five years, as risks may vary due to climate, environment and population changes

GLOSSARY OF TERMS & ACRONYMS

Glossary of Terms

Terminology used throughout this document shall have the meaning as prescribed in either Section 3 of the *Emergency Management Act 2005* or as defined in the [State EM Glossary](#).

Term	Meaning
AIIMS	Australasian Interagency Incident Management System is a nationally adopted structure to formalise a coordinated approach to emergency incident management
Combat	To take steps to eliminate or reduce the effects of a hazard on the community
Combat Agency	A Combat Agency prescribed under section 6(1) of the <i>Emergency Management Act 2005</i> is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an emergency management activity prescribed by the regulations in relation to that agency
Command (Vertically within an Organisation)	The direction of members and resources of an organisation in the performance of the organisation's roles and tasks. Authority to command is established in legislation or by agreement with an organisation. Command relates to organisations and operates vertically within an organisation
Control	The overall direction of emergency management activities in an emergency situation. Authority for control is established in legislation or in an emergency plan and carries with it the responsibility for tasking and coordinating other organisations in accordance with the needs of the situation. Control relates to situations and operates horizontally across organisations
Controlling Agency (CA)	An agency nominated to control the response activities to a specified type of emergency. The responsibility for being a Controlling Agency stems from either: <ul style="list-style-type: none"> ○ legislation other than the <i>Emergency Management Act 2005</i>; or ○ by agreement between the relevant Hazard Management Agency and one or more agencies
Coordination	Bringing together organisations and elements for effective response, primarily concerned with systematic acquisition and application of resources (organisation, manpower and equipment) IAW requirements imposed by the threat or impact of an emergency. Coordination relates primarily to

Appendix 1

Term	Meaning
	resources, and operates, vertically, within an organisation, as a function of the authority to command, and horizontally, across organisations, as a function of the authority to control.
Disaster	see EMERGENCY
District	Means an area of the State that is declared to be a district under Section 2.1 of the <i>Local Government Act 1995</i>
District Emergency Management Advisor (DEMA)	The person appointed by the State Emergency Coordinator to provide advice and support to their District Emergency Management Committee in the development and maintenance of emergency management arrangements and carry out other emergency management functions under the direction of the State Emergency Coordinator
District Emergency Management Committee (DEMC)	A District Emergency Management Committee established under section 31(1) of the <i>Emergency Management Act 2005</i>
Emergency	<p>The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response.</p> <p>The term "emergency" is used on the understanding that it also includes any meaning of the word "disaster"</p>
Emergency Management (EM)	<p>The management of the adverse effects of an emergency including:</p> <ul style="list-style-type: none"> ○ prevention - the mitigation or preventing of the probability of the occurrence of, and the potential adverse effects of, an emergency; ○ preparedness - preparation for response to an emergency; ○ response - the combating of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery; and ○ recovery - the support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psychosocial and economic wellbeing
Emergency Risk Management	A systematic process which contributes to the wellbeing of communities and the environment (Australian Disaster Resilience Glossary)
"Function" Support Coordinator	That person appointed by an organisation or committee to be the coordinator of all activities associated with a particular

Appendix 1

Term	Meaning
	support function, e.g. Coordinator, Medical Coordinator, etc, and includes coordinating the functions of other organisations that support that particular function, e.g. Red Cross in the State Emergency Relief and Support Plan
Hazard	An event, situation or condition that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of persons or animals; or destruction of, or damage to property or any part of the environment and is defined in the <i>Emergency Management Act 2005</i> or prescribed in the <i>Emergency Management Regulations 2006</i>
Hazard Management Agency (HMA)	A public authority, or other person, prescribed by the <i>Emergency Management Regulations 2006</i> to be a Hazard Management Agency for emergency management, or an aspect of emergency management, of a hazard
Incident	The occurrence or imminent occurrence of a hazard
Incident Area	The area defined by the Incident Controller for which they have responsibility for the overall management and control of an incident
Incident Controller (IC)	The person designated by the relevant Controlling Agency, to be responsible for the overall management and control of an incident within an incident area and the tasking of agencies in accordance with the needs of the situation [note: agencies may use different terminology, however, the function remains the same]
Incident Management Team (IMT)	A group of incident management personnel comprising the Incident Controller, and the personnel they appoint to be responsible for the functions of operations, planning and logistics. The team headed by the Incident Controller which is responsible for the overall control of the incident
Incident Support Group (ISG)	A group of agency/organisation liaison officers convened by the Incident Controller to provide agency specific expert advice and support in relation to operational response to the emergency
Lifelines	Systems or networks that provide for the circulation of people, goods, services and information upon which health, safety, comfort and economic activity depend
Local Emergency Coordinator	The person appointed by the State Emergency Coordinator to provide advice and support to their Local Emergency Management Committee in the development and maintenance of emergency management arrangements, assist hazard management agencies in the provision of a

Appendix 1

Term	Meaning
	coordinated response during an emergency in the district to carry out other emergency management functions under the direction of the State Emergency Coordinator
Local Emergency Management Committee (LEMC)	A Local Emergency Management Committee established under section 38 of the <i>Emergency Management Act 2005</i>
Municipality	Means the district of the local government
Operation	An Incident or multiple Incidents which impact, or is likely to impact, beyond a <u>localised</u> community or geographical area
Operations Area	The area defined by the Operational Area Manager for which they have overall responsibility for the strategic management of an emergency. This area may include one or more incident areas
Operations Area Manager	The person designated by the relevant HMA, responsible for the overall management of an operation within a defined operational area and the provision of strategic direction and operational coordination to agencies and Incident Controller(s) in accordance with the needs of the situation
Operations Area Support Group (OASG)	A group of agency/organisation liaison officers convened and Operational Area Manager to provide agency specific expert advice and support in relation to strategic management of the emergency
Prevention	The mitigation or prevention of the probability of the occurrence of, and the potential adverse effects of, an emergency
Preparedness	Preparation for response to an emergency
Response	The combatting of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery
Recovery	The support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, and the psychological and economic wellbeing
Risk	A concept used to describe the likelihood of harmful consequences arising from the interaction of hazards, communities and the environment:

Appendix 1

Term	Meaning
	<ul style="list-style-type: none"> the chance of something happening that will have an impact upon objectives. It is measured in terms of consequence and likelihood; a measure of harm, taking into account the consequences of an event and its likelihood. For example, it may be expressed as the likelihood of death to an exposed individual over a given period; and expected losses (of lives, persons injured, property damaged, and economic activity disrupted) due to a particular hazard for a given area and reference period. Based on mathematical calculations, risk is the product of hazard and vulnerability
Risk Management	Coordinated activities of an organisation or a government to direct and control risk
Risk Register	A register of the risks within the local government, identified through the Community Emergency Risk Management process
Risk Statement	A statement identifying the hazard, element at risk and source of risk
State Emergency Management Committee (SEMC)	Committee established under section 13 of the <i>Emergency Management Act 2005</i>
Support Organisation	A public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for providing support functions in relation to that agency
Telecommunications	The transmission of information by electrical or electromagnetic means including, but not restricted to, fixed telephones, mobile phones, satellite phones, e-mail and radio.
Treatment Options	A range of options identified through the emergency risk management process, to select appropriate strategies which minimise the potential harm to the community.
Vulnerability	The characteristics and circumstances of a community, system or asset that make it susceptible to the damaging effects of a hazard. There are many aspects of vulnerability, arising from various physical, social, economic, and environmental factors that vary within a community and over time

LWAPOL	Local Western Australian Police

Appendix 2

Roles & Responsibilities

Various officers, agencies and organisations undertake activities in relation to emergency management in Western Australia. Below is summary of key roles and responsibilities, for more specific details see [State EM Plan](#) – Appendix E. For a full list of Management Agencies and Controlling Agencies for Western Australian Hazards see [State EM Plan](#) – Appendix C.

Hazard Management and Controlling Agencies

Type of Hazard	Hazard Management Agency	Controlling Agency
AIR CRASH	Commissioner of Police	WA Police Force
ANIMAL OR PLANT, PESTS OR DISEASES	Agriculture Director General	Department of Primary Industries and Regional Development
Injury or threat to life of persons trapped by the COLLAPSE OF A STRUCTURE OR LANDFORM (collapse)	Fire and Emergency Services Commissioner	DFES
CYCLONE	Fire and Emergency Services Commissioner	DFES
EARTHQUAKE	Fire and Emergency Services Commissioner	DFES
LOSS OF OR INTERRUPTION TO THE SUPPLY OF ELECTRICITY that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of a person (Electricity supply disruption)	Coordinator of Energy	Energy Policy WA
FIRE	Fire and Emergency Services Commissioner	<ul style="list-style-type: none"> • DFES within gazetted fire districts or where DFES brigade or unit established. • DBCA on land it manages outside gazetted fire districts. • City of Belmont and Town of Victoria Park in City of Belmont and Town of Victoria Park districts outside of gazetted fire districts and DBCA land.

Appendix 2

Type of Hazard	Hazard Management Agency	Controlling Agency
FLOOD	Fire and Emergency Services Commissioner	DFES
LOSS OF OR INTERRUPTION TO THE SUPPLY OF NATURAL GAS , that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of a person (gas supply disruption)	Coordinator of Energy	Energy Policy WA
Actual or impending SPILLAGE, RELEASE OR ESCAPE OF A BIOLOGICAL SUBSTANCE that is capable of causing loss of life, injury to a person or damage to the health of a person, property or the environment	Chief Executive Officer, Department of Health	Department of Health
Actual or impending SPILLAGE, RELEASE OR ESCAPE OF A CHEMICAL, RADIOLOGICAL or other substance that is capable of causing loss of life, injury to a person or damage to the health of a person, property or the environment	Fire and Emergency Services Commissioner	DFES
HEATWAVE	Chief Executive Officer, Department of Health	Department of Health
HOSTILE ACT	Commissioner of Police	WA Police Force
HUMAN EPIDEMIC	Chief Executive Officer, Department of Health	Department of Health
LAND SEARCH – for persons lost or in distress, that requires a significant coordination of search operations	Commissioner of Police	WA Police Force
LOSS OF OR INTERRUPTION TO THE SUPPLY OF LIQUID FUEL as defined in the Liquid Fuel Emergency Act 1984 (Commonwealth) section 3(1), that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of a person (liquid fuel supply disruption)	Coordinator of Energy	Energy Policy WA

Appendix 2

City of Belmont and Town of Victoria Park

Roles and Responsibilities

Local role	Description of Responsibilities
City of Belmont and Town of Victoria Park	<ul style="list-style-type: none"> Responsibilities of the City of Belmont and Town of Victoria Park (the City/ Town) as a Local Government are defined in Section 36, EM Act: Ensure that effective local emergency management arrangements are prepared and maintained for its district Manage recovery following an emergency affecting the community in its district Perform other functions given to the City/ Town under the Act The City/ Town also accepts responsibility for management of its resources The responsibility for co-ordination of community support to counter effects of an emergency during both response to and recovery from emergencies Development and testing of LEMA
Local Emergency Coordinator (LEC)	<ul style="list-style-type: none"> The responsibilities of LEC are defined in Section 36 of the EM Act For 'the City/ Town' the position of Local Emergency Coordinator is held by the WA Police, and represented by the Belmont and Kensington Police Station OIC's having the following functions: <ul style="list-style-type: none"> To provide advice and support to the LEMC for the district in development and maintenance of emergency management arrangements for the district To assist Hazard Management Agencies in the provision of a coordinated response during an emergency in the district To carry out other emergency management activities in accordance with directions of State Emergency Coordinator
LG Liaison Officer (Emergency Relief & Support)	<ul style="list-style-type: none"> During an evacuation where a City of Belmont or Town of Victoria Park facility is utilised by Department of Communities provide advice, information and resources regarding the operation of facility
LG Liaison Officer (to the ISG/IMT)	<ul style="list-style-type: none"> During a major emergency, the liaison officer attends ISG meetings to represent City of Belmont and Town of Victoria Park, provides local knowledge input and provides details contained in the LEMA

Appendix 2

Local role	Description of Responsibilities
City of Belmont and Town of Victoria Park – Incident Management	<ul style="list-style-type: none"> Where an identified evacuation centre is a building owned and operated by the City/ Town, provide a liaison officer to support Communities. Ensure planning and preparation for emergencies is undertaken Implement procedures that assist community and emergency services to deal with incidents Ensure all personnel with emergency planning and preparation, response and recovery responsibilities are properly trained in role Keep appropriate records of incidents that have occurred to ensure continual improvement of City/ Town's emergency response capability Liaise with the incident controller (provide liaison officer) Participate in ISG and provide local support
Other City of Belmont and Town of Victoria Park Officers	<p>As determined by the Incident, the following Officers are members of the Local Recovery Group:-</p> <ul style="list-style-type: none"> City / Town Chief Executive Officer City / Town Local Recovery Coordinator City / Town Council Representatives City / Town Environmental Health City / Town Senior Ranger/ EM Officer City / Town Chief Bush Fire Control Officer Local Unit Manager State Emergency Services

Emergency and Support Agencies

Agency	Description Of Responsibilities
Controlling Agency	<p>An agency nominated to control the response activities to a specified type of emergency</p> <p>Function:</p> <ul style="list-style-type: none"> Undertake all responsibilities as prescribed in Agency specific legislation for Prevention and Preparedness Control all aspects of the response to an incident During Recovery ensures effective transition to Recovery to LG

Appendix 2

Agency	Description Of Responsibilities
Hazard Management Agency	<p>HMA is a public authority or individual who, due to their functions under any written law, or their specialised knowledge, expertise, and/or resources, is responsible for emergency management (EM) or the specified aspect of EM in the designated area of the hazard for which they are prescribed. [s. 4(3) of the Act]</p> <p>Function:</p> <ul style="list-style-type: none"> • Undertake responsibilities where prescribed for these aspects [EM Regs] • Appointment of Hazard Management Officers [s. 55 of the Act] • Declare / Revoke Emergency Situation [s. 50 & 53 of the Act] • Coordinate the development of the State Hazard Plans for that hazard [SEMP 2.2] • Ensure effective transition to recovery by City of Belmont and Town of Victoria Park
Combat Agency	<p>A Combat Agency is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an EM activity prescribed by the regulations in relation to that agency</p>
Support Agency	<p>A public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources is responsible for providing support functions in relation to that agency</p> <p>Functions:</p> <ul style="list-style-type: none"> • Restoring essential services affected by the emergency • Providing "function" support as part of the tactical plan, e.g. Dept of Communities to provide emergency relief and support services • Managing their resources and those given to them in support of their specific function • Providing progress reports to the designated Incident Manager or Operations Area Manager • Providing progress reports to the higher levels of their organisation • Provide an Agency Liaison Officer to participate as part of the Incident Management Group upon request of the HMA/CA • Attend post incident debriefs • Contributing a post operation report or post incident analysis

Appendix 2

Emergency Relief and Support

Agency	Description Of Responsibilities
Department of Communities (Communities)	<ul style="list-style-type: none"> Establish, chair and manage the activities of the State Emergency Relief and Support Committee and Emergency Relief and Support Coordination Group, where determined appropriate by Communities District Director Prepare, circulate, test and maintain the Local Emergency Relief and Support Plans Represent Communities and the emergency relief and support services function on the LEMC and Local Recovery Group Establish and maintain the Local Evacuation Centre Ensure personnel and organisations are trained and exercised in their emergency relief and support responsibilities Coordinate provision of emergency relief and support services during response and recovery of emergency Represent Communities on the Incident Support Group when required
City/ Town Local Government Liaison Officer (Emergency Relief and Support)	<ul style="list-style-type: none"> Coordinate emergency relief and response on behalf of the City/ Town Coordinate initial arrangements in lieu of Communities Local Evacuation Coordinator attendance Provide assistance to the Local Evacuation Centre/s including <ul style="list-style-type: none"> Maintenance of establishments Security of establishments Opening and closing establishments
Australian Red Cross	<ul style="list-style-type: none"> Undertake process recording displaced persons for National Register In partnership with the City/ Town and Communities undertake Outreach and in support in affected areas
City/ Town Rangers	<ul style="list-style-type: none"> Assist with Animal Management in effected areas and at Evacuation Centres

Likelihood Level	Annual exceedance probability in % (AEP)	Average recurrence interval (ARI) (indicative)	Frequency (indicative)
Almost Certain	63% per year or more	1 year or less	Once or more per year
Likely	10 - <63% per year	1-10 years	Once per 10 years
Unlikely	1 - <10% per year	11-100 years	Once per 100 years
Rare	0.1 - <1% per year	101-1000 years	Once per 1000 years
Very Rare	0.01 - <0.1% per year	1001-10,000 years	Once per 10,000 years
Extremely Rare	<0.01% per year	10,000 years or more	Once per 100,000 years

Source - WA ERM Guide 2015 - Table 8: Likelihood level

Appendix 3

Source: WA Risk Register Tool (WARR)

City of Belmont / Town of Victoria Park Consequence Table					
	Insignificant	Minor	Moderate	Major	Catastrophic
People					
Mortality	Not Applicable	At least 1 death	At least 1 death	At least 1 death	At least 8 deaths
Injuries / Illness	1. serious injury or any minor injuries.	1 person critically injured with long-term or permanent incapacitation or 1 person seriously injured.	1 person critically injured with long-term or permanent incapacitation or 1 person seriously injured.	1 person critically injured with long-term or permanent incapacitation or more than 8 serious injuries	More than 8 critical injuries with long-term or permanent incapacitation or more than 80 serious injuries
Economy					
Loss in economic activity and/or asset value	Decline of economic activity and/or loss of asset value < \$503,800	Decline of economic activity and/or loss of asset value > \$503,800	Decline of economic activity and/or loss of asset value > \$6,038,000	Decline of economic activity and/or loss of asset value > \$60,380,000	Decline of economic activity and/or loss of asset value > \$603,800,000
Impact on important industry	Inconsequential business sector disruption	Significant industry or business sector is impacted by the emergency event, resulting in short-term (i.e. less than one year) profit reductions	Significant industry or business sector is significantly impacted by the emergency event, resulting in medium-term (i.e. more than one year) profit reductions	Significant structural adjustment required by identified industry to respond and recover from emergency event	Failure of a significant industry or sector
Environment					
	No damage to ecosystems at any level	Minor damage to ecosystems and species recognised at the local or regional level	Minor damage to ecosystems and species recognised at the state level	Minor damage to ecosystems or species recognised at the national level	Permanent destruction of an ecosystem or species recognised at the local, regional, state or national level
Loss of species and/or landscapes					
			Significant loss or impairment of an ecosystem or species recognised at the local or regional level	Significant loss or impairment of an ecosystem or species recognised at the state level	Severe damage to or loss of an ecosystem or species recognised at the national or state level
				Severe damage to or loss of an ecosystem or species recognised at the local or regional level	Significant loss or impairment of an ecosystem or species recognised at the national level
Loss of environmental value	Inconsequential damage to environmental values of interest	Minor damage to environmental values of interest	Significant damage to environmental values of interest	Severe damage to environmental values of interest	Permanent destruction of environmental values of interest
Public Administration					
	Governing bodies' delivery of core functions is unaffected or within normal parameters	Governing bodies encounter limited reduction in delivery of core functions	Governing bodies encounter significant reduction in the delivery of core functions	Governing bodies encounter severe reduction in the delivery of core functions	Governing bodies are unable to deliver their core functions
Governance Functions					
			Available resources are required to divert some available resources to deliver core functions or seek external assistance to deliver some of their core functions	Governing bodies are required to divert a significant amount of available resources to deliver core functions or seek external assistance to deliver the majority of their core functions	
Social Setting					
Community wellbeing	Community social fabric is disrupted	Community social fabric is damaged	Community social fabric is broken	Community social fabric is significantly broken	Community social fabric is irreparably broken
	Existing resources sufficient to return the community to normal function	Some external resources required to return the community to normal function	Significant external resources required to return the community to normal function	Extraordinary external resources are required to return the community to functioning effectively	Community ceases to function effectively, breaks down
	No permanent dispersal	No permanent dispersal	Some permanent dispersal	Significant permanent dispersal	Community disperses in its entirety
Community Services					
Culturally important objects	Inconsequential / short term impacts	Isolated / temporary reductions	Ongoing reductions	Reduced quality of life	Community unable to support itself
	Minor damage to objects of cultural significance	Damage to objects of identified cultural significance	Damage or localised widespread damage to objects of identified cultural significance	Widespread damage or localised permanent loss of objects of identified cultural significance	Widespread and permanent loss of objects of identified cultural significance
Culturally important activities	Minor delay to a culturally important community event	Delay to or reduced scope of a culturally important community event	Delay to a major culturally important community event	Temporary cancellation or significant delay to a major culturally important community event	Permanent cancellation of a major culturally important community activity

Appendix 5(a)

City of Belmont

Emergency Management Guideline

1. Overview

The purpose of the Emergency Management Guideline is to provide a framework for the mitigation and management of emergency incidents within the City of Belmont designated municipal area. Emergencies are those which endanger or threaten to endanger lives, property, or the environment, and which require a significant and coordinated response, and cannot be addressed through normal operational procedures.

Effective emergency management arrangements enhance the community's resilience against emergencies through strategies that apply prevention, preparedness, response, and recovery (PPRR) activities.

The City of Belmont has been designated as a specified area under Part 3 Section 35 of the [Emergency Management Act 2005](#). For the purposes of managing emergencies in Belmont, this designation places the responsibilities for emergency management upon the City.

2. Objectives

The key objectives of the guideline are to:

- Minimise impact from emergencies within the City of Belmont on community, staff and property
- Coordination of successful disaster recovery for community using the Local Recovery Plan
- Reduce the consequences of emergencies by providing and supporting the Belmont Local Emergency Management Committee who utilise sound emergency management and risk management principles

3. Scope

This guideline applies to all emergency incidents in the areas encompassed by the City of Belmont, as defined in the [Local Government Act \(1995\)](#).

These arrangements serve as a guide to emergency management at the local level. An emergency may escalate and require management at a district or state level.

Appendix 5(a)

4. Definitions

Designated City Officer

City of Belmont staff member or contractor designated as a representative of the City in regard to performance of duties related to emergency management/ response as required.

Emergency

The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response.

Emergency Management

The management of the adverse effects of an emergency including prevention, preparedness, response, and recovery (PPRR).

Hazard Management Agency (HMA)

A public authority, or other person, prescribed by the *Emergency Management Regulations 2006* to be a hazard management agency for emergency management, or an aspect of emergency management, of a hazard.

Hazard

An event, situation or condition that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of persons or animals; or destruction of, or damage to property or any part of the environment and is defined in the *Emergency Management Act 2005* or prescribed in the *Emergency Management Regulations 2006*.

Incident Controller

The person designated by the relevant Controlling Agency, to be responsible for the overall management and control of an incident within an incident area and the tasking of agencies in accordance with the needs of the situation.

Local Emergency Management Committee (LEMC)

A local emergency management committee established under Section 38 of the *Emergency Management Act 2005*.

Local Emergency Coordinator

The person appointed by the State Emergency Coordinator (WA Commissioner of Police) to provide advice and support to their local emergency management committee in the development and maintenance of emergency management arrangements, assist hazard management agencies in the provision of a coordinated response during an emergency in the district and carry out other emergency management functions under the direction of the State Emergency Coordinator.

Appendix 5(a)

5. Expectations

The City of Belmont expects.

Effective Local Emergency Management Arrangements (LEMA), inclusive of specific local emergency plans, will be prepared and maintained for City of Belmont, consistent with the State Emergency Management Policy, State Emergency Management Plan, and relevant State Hazard Plans, State Support Plans and National Plans.

Advice and support will be provided to the City of Belmont / Town of Victoria Park combined LEMC in the development of the Local Emergency Management Arrangements (LEMA).

Emergency management activities will be undertaken in accordance with the endorsed LEMA.

Potential risks within the City of Belmont will be assessed and strategies developed to eliminate or reduce the likelihood of emergencies occurring in accordance with the ISO 31000:2018 Risk Management – Guidelines.

Designated City officers will assist hazard management agencies in the provision of a coordinated response during an emergency incident within the City of Belmont area.

Measures will be maintained wherever possible, ensuring that should an emergency occur, resources and services are capable of coping with the effects of the incident.

Following an emergency, appropriate action will be taken to return the site and/ or infrastructure to normal operational conditions, and to develop and implement strategies to identify and manage the ongoing social and psychological needs of those affected by the emergency (i.e., Recovery phase).

Other emergency management activities e.g. evacuation, emergency relief and support provision etc. will be undertaken in accordance with the advice of the Local Emergency Coordinator.

6. Roles and Responsibilities

The City Chief Executive Officer is responsible for developing and implementing the procedures to ensure compliance with this guideline.

All City staff have a responsibility to comply with the guideline and to provide support as requested by the Incident Controller/ Local Emergency Coordinator during an emergency incident.

Appendix 5(a)

7. Statutory Compliance

The guideline reflects the requirements of:

- Emergency Management Act 2005
- Emergency Management Regulations 2006
- State Emergency Management Policy (2023) and State Emergency Management Plan (2024)
- Belmont and Victoria Park Local Emergency Management Arrangements (LEMA 2025)
- Belmont and Victoria Park Local Recovery Plan (2025)

8. Effective Date

This guideline is effective from **June 2025**

9. Review Date

This guideline will be reviewed every two (2) years.

10. Custodian

The City Chief Executive Officer is responsible for the development and management of the Emergency Management Guideline

11. Guideline Authorisation

This guideline details the City of Belmont's requirements for emergency management within its designated area.

Appendix 5b

Policy number	Governance will provide the policy number [Subject]
Policy title	Emergency Management
Strategic outcomes supported	S1 – Helping people feel safe

Policy objective:

The key objectives of the policy are to:

- Minimise impact from emergencies within the Town of Victoria Park on community, staff and property
- Coordination of successful disaster recovery for community using the Local Recovery Plan
- Reduce the consequences of emergencies by providing and supporting the Town of Victoria Park's Local Emergency Management Committee (which is a combined Local Emergency Management Committee with the City of Belmont) who utilise sound emergency management and risk management principles

Policy scope:

This policy applies to all emergency incidents in the areas encompassed by the Town of Victoria Park, as defined in the [Local Government Act \(1995\)](#). These arrangements serve as a guide to emergency management at the local level. An emergency may escalate and require management at a district or state level.

Policy definitions:

Designated Town Officer

Town of Victoria Park staff member or contractor designated as a representative of the Town in regard to performance of duties related to emergency management/ response as required.

Emergency

The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response.

Emergency Management

The management of the adverse effects of an emergency including prevention, preparedness, response and recovery (PPRR).

Appendix 5b

Hazard Management Agency (HMA)

A public authority, or other person, prescribed by the *Emergency Management Regulations 2006* to be a hazard management agency for emergency management, or an aspect of emergency management, of a hazard.

Hazard

An event, situation or condition that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of persons or animals; or destruction of, or damage to property or any part of the environment and is defined in the *Emergency Management Act 2005* or prescribed in the *Emergency Management Regulations 2006*.

Incident Controller

The person designated by the relevant Controlling Agency, to be responsible for the overall management and control of an incident within an incident area and the tasking of agencies in accordance with the needs of the situation.

Local Emergency Management Committee (LEMC)

A local emergency management committee established under Section 38 of the *Emergency Management Act 2005*.

Local Emergency Coordinator

The person appointed by the State Emergency Coordinator (WA Commissioner of Police) to provide advice and support to their local emergency management committee in the development and maintenance of emergency management arrangements, assist hazard management agencies in the provision of a coordinated response during an emergency in the district and carry out other emergency management functions under the direction of the State Emergency Coordinator.

Policy statement:

It is the policy of the Town of Victoria Park that:

1. Effective Local Emergency Management Arrangements (LEMA), inclusive of specific local emergency plans, will be prepared and maintained for the Town of Victoria Park, consistent with the State Emergency Management Policy, State Emergency Management Plan, and relevant State Hazard Plans, State Support Plans and National Plans.
2. Advice and support will be provided to the Belmont and Victoria Park LEMC in the development of the Belmont and Victoria Park LEMA.
3. Emergency management activities will be undertaken in accordance with the Belmont and Victoria Park LEMA.

Appendix 5b

4. Potential risks within the Town of Victoria Park will be assessed and strategies developed to eliminate or reduce the likelihood of emergencies occurring in accordance with the [ISO 31000:2018 Risk Management – Guidelines](#).
5. Designated Town officers will assist hazard management agencies in the provision of a coordinated response during an emergency incident within the Town of Victoria Park area.
6. Measures will be maintained wherever possible, ensuring that should an emergency occur, resources and services are capable of coping with the effects of the incident.
7. Following an emergency, appropriate action will be taken to return the site and/ or infrastructure to normal operational conditions, and to develop and implement strategies to identify and manage the ongoing social and psychological needs of those affected by the emergency (i.e., Recovery phase).
8. Other emergency management activities e.g. evacuation, emergency relief and support provision etc. will be undertaken in accordance with the advice of the Local Emergency Coordinator.

Roles and Responsibilities

The Town Chief Executive Officer is responsible for developing and implementing the procedures to ensure compliance with this policy.

All Town staff have a responsibility to comply with the policy and to provide support as requested by the Incident Controller/ Local Emergency Coordinator during an emergency incident.

Effective Date

This policy is effective from **June 2025**

Review Date

This policy will be reviewed every two (2) years

Custodian

The Town Chief Executive Officer is responsible for the development and management of the Emergency Management Policy.

12 December 2023	Major review of TOR	B Mentz	11 March 2024

Date of next scheduled review: June 2028.

The terms of reference for the Belmont/Victoria Park LEMC outline the general roles, functions, and parameters of the LEMC to be applied during LEMC meetings and other Committee activities.

This LEMC has been convened to assist cooperation, information sharing and the development of interagency relationships that will assist emergency management planning to benefit the local community.

1. Authority

The City of Belmont and Town of Victoria Park have established this Local Emergency Management Committee under section 38 of the Emergency Management Act 2005. The LEMC operates in accordance with a range of emergency management requirements including the Emergency Management Act 2005 and State Emergency Management Plans and Policies.

2. Committee Name

The name of the committee shall be the City of Belmont and Town of Victoria Park, Local Emergency Management Committee.

3. Scope

The Belmont/Victoria Park LEMC deals with emergency management within the areas/suburbs contained within the City of Belmont and Town of Victoria Park.

Appendix 5c

4. Purpose

- To advise and assist Belmont/Victoria Park in ensuring that Local Emergency Management
- Arrangements (LEMAs) are established.
- To consult with emergency management agencies and other persons in the development,
- review and testing of the LEMA.
- To conduct other emergency management activities as directed by the State Emergency
- Management Committee or as prescribed by the Regulations.

5. Objectives

The Belmont/Victoria Park LEMC will work towards:

- Undertaking annual reviews and updating their LEMA's which are used as a guide in responding to and assisting in the recovery from emergency event.
- Undertaking regular testing of the LEMAs in consultation with key, emergency management agencies and other identified organisations within the Belmont/Victoria Park area.
- Promoting community awareness on emergency management, local risks, and the communities' role in preparing for emergencies.
- Improving community resilience.
- Maintaining and building on strong working relationships between LEMC members and their organisations and agencies.
- Ensuring appropriate training is being provided to key nominated personnel within the City of Belmont and Town of Victoria Park to undertake their roles.

6. Membership

In the formal decision-making process, each local government holds two votes. Each external agency has one vote. The Chair holds a casting vote if required. The District Emergency Management Advisors (DEMA's) is only an advisor to the committee (non-voting member). Each voting member is encouraged to have a proxy attend, where they are unavailable.

Additional members may be invited as determined by the LEMC, to offer specialist advice on a range of matters pertaining to emergency management.

Voting Members:

City of Belmont (any two of the below)

- Coordinator Community Safety (Chair)
- Emergency Management/Community Safety Crime Prevention Officer (Executive Officer)
- Manager Safer Communities (Local Recovery Coordinator)
- Coordinator Business Planning, Improvement & Risk Business Planning, Improvement & Risk and Business Continuity Officer

Town of Victoria Park (any two of the below)

- Safety Coordinator (Deputy Chair)
- Local Recovery Coordinator
- Business Unit Manager – Parks
- Business Unit Manager – Customer Service
- Coordinator Rangers

Appendix 5c

Other Key Voting Members

- Belmont Forum
- Belmont SES
- Boronia Pre-Release Centre
- Crown Perth
- Curtin University
- Department of Communities
- Department of Fire and Emergency Services - Fire and Rescue Service
- Department of Fire and Emergency Services - State Emergency Service
- Perth Airport
- Perth Freight Terminal
- Perth Racing
- St John Ambulance
- WA Police – Belmont
- WA Police – Cannington
- WA Police – Kensington
- Western Power

Non-Voting Members

- Department of Fire and Emergency Services – District Emergency Management Advisor (DEMA)

7. Management

LEMC Position	Organisation	Officer
Chairperson	City of Belmont	Coordinator Community Safety
Deputy Chairperson	Town of Victoria Park	Safety Coordinator
Executive Officer	City of Belmont	Emergency Management Community Safety Crime Prevention officer

Responsibilities

Local	Description of responsibilities
Chair	Provide leadership and support to the LEMC to ensure effective meetings and high levels of emergency management planning and preparedness for the local government district is undertaken.
Deputy Chair	Coordinate the development and submission of committee documents in accordance with legislative and policy requirements including the Annual and Preparedness Survey, LEMC Annual Business Plan. Maintain Local Emergency Management Arrangements on behalf of Town of Victoria Park.
Executive Officer	Coordinate the LEMC meetings (agenda's, minutes, member register). Coordinate the development and submission of committee documents in accordance with legislative and policy requirements including the Annual and Preparedness Survey, Annual Business Plan. Develop and maintain Local Emergency Management Arrangements on behalf of City of Belmont.

Appendix 5c

8. QUORUM

The quorum for LEMC Meetings is 50 percent of the membership.

9. MEETINGS

- Meetings will be held quarterly (March, June, September, December) on the second Monday of the month. If this falls on a public holiday, the meeting will be held on the Monday prior.
- The exception to the above is the December meeting, this will be held on the first Monday of the month, due to increased, demand and commitments, having been placed on key committee members, at this time of the year.
- Agendas shall be distributed at least five business days before the meeting.
- Minutes shall be distributed within ten business days of the meeting.

2. Defining - Higher Risk Persons & Groups (HRPG)

Higher Risk Persons and Groups (HRPG) within the overall population have a higher risk degree of demographic or socioeconomic vulnerability, rendering them more likely to be adversely affected by disaster. They can be defined by the characteristics of a person or group that affect their capacity to anticipate, cope with, resist, and recover from the impact of a disaster (natural or non-natural).

A definition that could be considered for "Higher Risk" persons and groups is:
Having concerns with Communication, Medical, Independence, Supervision, and Transportation services and homelessness.

2.1 Influencing Factors: HRPG

2.1.1 Socioeconomic Status

Includes employment, income, housing (e.g. homelessness) and education level. People with lower socioeconomic status are more likely to lack resources needed to follow instructions on emergency preparedness. They might be unable to stockpile food, for example, or not have the ability to evacuate.

2.1.2 Age

The old and the young are particularly vulnerable during emergencies. Older adults are more likely to have medical problems that put them at an increased risk during a disaster. They might have limited sight, hearing, cognitive ability, and physical strength.

Young children are also more at risk. They have yet to develop the resources, knowledge, or understanding to effectively cope with disaster, and they are more susceptible to injury and disease. Young children are also more vulnerable when they are separated from their parents or guardians, for example, at school or in day-care.

2.1.3 Visitors

Tourists or people visiting the area may be unaware of possible hazards and potentially be unprepared if an emergency occurs. Majority of travellers will be unfamiliar with the local area.

2.1.4 Culturally and Linguistically Diverse (CaLD)

People with limited English proficiency have a limited ability to read, speak, or write in English. These groups might/may have trouble understanding emergency directives if language barriers are not addressed when developing emergency alert messages. Race and ethnicity contribute to social vulnerabilities and are tied to issues of socioeconomic status. Social and economic marginalisation contributes to the vulnerability of these groups.

Appendix 6

2.2 Medical Issues and Disability

Persons with a disability include those with a cognitive, physical, or sensory impairment that limits a major life activity. People with physical impairments might include those with limited sight, hearing, or mobility or those who are dependent on electric power to operate medical equipment. For many people with medical conditions and disabilities, their ability to hear, understand, or respond to a warning is impaired. This category also includes individuals with access and functional needs.

2.3 City of Belmont/Town of Victoria Park Higher Risk Persons & Groups (HRPG):

2.3.1 Childcare Facilities and Schools

The City of Belmont (The City) facilitates a 'School Leaders Liaison' group to support positive engagement with young people and children. The City collaborates with all schools to provide access to qualified youth workers and early intervention programs, including case management, after-school activities, drop-in sessions, outreach support, and referrals to specialist agencies. Similarly, for childcare centres, the City facilitates an 'Early Years' network. This network is a collective of parents, carers, community group members, and early years' service providers (including childcare services) who work together to improve the health, development, and opportunities for children (ages 0 to 8) and their families within the City of Belmont community.

The Town of Victoria Park administers a local networking group that includes childcare centres, schools and organisations working with children. The Family and Children Connect Vic Park group is a community-focused group dedicated to supporting families by connecting them to local services, raising awareness of parenting support, and fostering a healthy, inclusive environment for all. The group comprises a variety of organisations, including local health services, educational institutions, community centres, and support services for culturally and linguistically diverse (CaLD) families and families with children with disabilities.

2.3.2 Living with Disabilities

The City of Belmont (The City) implements its Access and Inclusion Plan annually with a range of activities and internal and external advocacy initiatives to improve access and inclusion throughout the LGA. Additionally, the City facilitates an Access and Inclusion Advisory Group which meets quarterly and allows for the community to provide feedback on access and inclusion matters to staff and elected members. The City collaborates with Mission Australia, Valued Lives, Sussex Street Community Legal Centre, Interchange, Visibility, Maxima, Workpower and Wanslea who are locally based services providers supporting people living with disability within the City.

Local disability community housing providers include:

- Ability Centre
- Autism WA
- Brightwater
- Identity WA
- Nulsen Disability Services
- St Judes.

Appendix 6

The Town of Victoria Park has an Access and Inclusion Plan and administers an Access and Inclusion Advisory group which meets regularly. Members of this advisory group also includes electoral members.

The Town also maintains a [Disability Support Services Directory](#).

2.3.3 Residential Aged Care (RAC) and Independent Living (IL) facilities

The City of Belmont (The City) implements its Age Friendly Strategy annually with a range of activities and internal and external advocacy initiatives to support the needs of seniors throughout the LGA. Additionally, the City facilitates an Age Friendly Advisory Group which meets quarterly and allows for the community to provide feedback on relevant matters to staff and elected members. The City collaborates with the Belmont Senior Citizens Association, Seniors Sport, and Recreation Council and MercyCare who are locally based services providers supporting seniors within the City.

The City has four Independent Living Unit complexes, managed by Southern Cross Care WA for residents over 55 at Ascot Close, Wahroonga, Gabriel Gardens and Wahroonga. Southern Cross Care also manage the Faulkner Park Retirement Centre owned by the City which includes 72 units. Other residential care facilities located in the City include:

- Aegis Karalee
- Aegis Lakeside
- Aegis Parkview
- Brightwater
- Hall and Prior
- CraigCare Ascot Waters.

The Town of Victoria Park has an operating subsidy arrangement with Connect Victoria Park and Harold Hawthorn Community Centre.

2.3.4 Culturally and Linguistically Diverse (CALD) groups

The City of Belmont implements its Multicultural Strategy annually with a range of activities and internal and external advocacy initiatives to support the needs of multicultural communities throughout the LGA. Additionally, the City facilitates a Cultural Diversity Advisory Group which meets quarterly and allows for the community to provide feedback on relevant matters to staff and elected members.

The Town of Victoria Park is building a CaLD email list of various multicultural organisations that exist across the Town.

Appendix 6

3. Introduction

3.1 Aim

To define emergency management arrangements relating to the evacuation, emergency relief and support and care of Higher Risk Persons and Groups (HRPG) and related support networks, before, during and after emergencies throughout the City of Belmont and Town of Victoria Park (hereby referred to as 'the LG's').

3.2 Objectives

3.3 Scope

This Plan covers the City of Belmont and Town of Victoria Park Local Emergency Management Arrangements that apply to responders and Higher Risk Persons and Groups (HRPG) and their networks that may become involved with managing and responding and recovering from emergencies within the City of Belmont and Town of Victoria Park.

3.4 Related Documents

This Plan forms part of the City of Belmont and Town of Victoria Park Local Emergency Management Arrangements (LEMAs) and should be read in conjunction with these plans and their related support documents. They also interface with other hazard specific, emergency management and recovery plans at local, district and state levels.

3.5 Plan Responsibilities

The City of Belmont and Town of Victoria Park is responsible for developing, implementing and revising this Plan in consultation with key stakeholders, combat agencies and other support organisations in accordance with the related Emergency Management and other related Legislation.

Appendix 6

4. EM for Higher Risk Persons & Groups (HRPG)

4.1 Planning

In accordance with the Western Australian Community Evacuation in Emergencies Guideline, *Local Emergency Management Plans are to include information which will assist the Controlling Agency in the operational planning process. This includes having specific arrangements in place for Higher Risk Persons and Groups*, such as unaccompanied children, schools, aged care facilities, caravan and holiday parks, persons with disabilities, and culturally and linguistically diverse communities (CALD), disadvantaged (e.g. homelessness).

4.2 Higher Risk

Higher Risk (social vulnerability) is defined by the characteristics of a person or group that affect their capacity to anticipate, cope with, resist and recover from effect of a disaster and emergencies.

Commonly accepted categories include

Socioeconomic status	Race and ethnicity
Age	Medical issues
English language proficiency	Disabilities
The disadvantage (homeless)	

Appendix 6

4.3 Higher Risk Persons & Groups in Emergency Management Cycle

4.3.1 Prevention

- ✓ Developing specialised HRPG Plan for community members.

4.3.2 Preparedness

- ✓ Create evacuation contingencies for higher risk community members.
- ✓ Conduct outreach and engagement.
- ✓ Determine additional resource requirements.
- ✓ Consider evacuation facilities, transport and special requirements.

4.3.3 Response

- ✓ Consider resource allocations in emergencies.
- ✓ Provide target data for **Incident Management Team (IMT)** use.
- ✓ Prioritise response efforts for higher risk communities.
- ✓ Customise communication efforts.

4.3.4 Recovery

- ✓ Determine resource allocation.
- ✓ Identify higher risk sub populations that are least resilient.
- ✓ Track recovery and any on-going problems.

4.4 Organisational Roles and Responsibilities

Organisations with responsibilities identified under this Plan are listed in the following table. Participating organisations will be required to provide assistance under this Plan in the event of an emergency, which will, or may, affect higher risk persons and groups, directly or indirectly.

Agency / Local Gov't	Roles / Responsibility
Department of Fire and Emergency Services (DFES)	<ul style="list-style-type: none"> ➤ Hazard Management ➤ Evacuation decisions and coordination ➤ Support Agency
Department of Communities	<ul style="list-style-type: none"> ➤ Evacuation centres ➤ Emergency Relief and Support Plan ➤ Financial assistance to affected persons ➤ Displaced persons
Western Australia Police (WAPOL)	<ul style="list-style-type: none"> ➤ Hazard Management

Appendix 6

	<ul style="list-style-type: none"> ➤ Traffic Management ➤ Investigation and enforcement ➤ Alerts and evacuation execution
Disability Services	<ul style="list-style-type: none"> ➤ Client contact database ➤ Identification of specialist requirements
City of Belmont and Town of Victoria Park	<ul style="list-style-type: none"> ➤ Support Agency ➤ Information Technology ➤ Facilities resources

5. Communications

The communications plan must accommodate the needs of HRPG to provide concise instructions before, during, and after a disaster.

5.1 Considerations and Strategies – Higher Risk Persons & Groups (HRPG)

- ✓ Use short sentences and plain language to allow for easy translation of materials. Consider using a sixth grade reading level or lower.
- ✓ Provide written materials in bilingual or multi-lingual format.
- ✓ Include visual aids such as pictures and maps to reinforce key messages.
- ✓ Repeat key information.
- ✓ Include directions and phone numbers.
- ✓ Use large fonts.
- ✓ Identify preferred communication methods (face-to-face, phone, word-of-mouth), and develop messages accordingly.
- ✓ Identify preferred media through which messages are delivered. Is it the local newspaper, radio station, or local clubs and religious organisations?
- ✓ Consider working with media and communications specialists.

6. Response

6.1 Responsibility in Response

The Hazard Management Agency/Control Agency Incident Controller is responsible for activating this Plan and to determine the extent of the response and the requirement to evacuate HRPG.

The City of Belmont and Town of Victoria Park will advise the Incident Controller (IC) of this Plan and suggest appointing a **Higher Risk Persons & Groups Coordinator (HRPGC)** to oversee the plan.

Appendix 6

6.2 Notification and Communications

The **Incident Management Team (IMT)** and the **HRPGC** will determine and activate the notification of the response and an appropriate communications plan.

6.3 Levels of Response

The **IMT** and **HRPGC** will determine the level of response and implement the response action plan.

7. Evacuation

7.1 General Considerations

- ✓ Deciding which HRPG's may need to be moved, where they will be taken and how they will be transported are important considerations when preparing for any evacuation.
- ✓ A plan should detail arrangements and establish procedures for moving people to safe and secure facilities away from danger zones during a threat.
- ✓ If HRPG do not possess their own transport, they should make prior alternative arrangements with neighbours, their organisation and other network organisations.
- ✓ Identification is important in the case of aged and infirm or children during an evacuation. Carers and those with responsibility must ensure they can list, account for, and identify all persons in their care.
- ✓ Records should be kept verifying persons and physical status. Methods may involve identification tags, photographs, and documentation.
- ✓ Establish a procedure to assist any persons requiring specialised medical attention and mobility assistance, i.e., those most at risk, during emergency.

7.2 HRPG: Evacuation Planning Considerations

Availability of safe evacuation routes, considering:

- | | | |
|--------------------------|--------------------------------|--------------|
| ➤ surrounding vegetation | ➤ fire fuel loadings | ➤ topography |
| ➤ watercourses | ➤ possibility of road closures | |

Proximity of and anticipated response times by local emergency agencies

Time required to vacate the property, including time to transport

Appendix 6

Owners' need for backup power supply should the mains power fail, especially night evacuation

Owners' requirements for effective internal and external emergency communications

Any need for additional assistance for care and attention in an emergency

7.3 Arrangements for Assistance

Arrangements and requests for assistance will be made to the IMT and coordinated through the HRPGC.

Contacts and resources for support and assistance see section 9.

7.3.1 Evacuation and Relocation Readiness

Suggestions for readiness actions for HRPG for emergency use:

	Torch, radio and spare batteries	First-aid items (discuss with your Org.)	
	Mobile phone and contact phone numbers	Personal medicine grab and go containers	
	Mobility aids readiness	Suitable clothing and carry bag	
	Family/support group/organisation details	Personal precious items	

7.3.2 Assistance to Evacuate

Carers and responsible organisations need to notify emergency agencies early with following details:

- | | |
|--|-----------------------------------|
| ✓ Location of HRPG's | ✓ Contact details of HRPG's |
| ✓ Understand and relay needs for physical assistance | ✓ Alternative contact information |

Appendix 6

7.4 Incident Management Team Responsibilities

The IMT's roles and responsibilities are to determine the need for evacuation taking into consideration:

- | | |
|---|--|
| ✓ The threats, hazards and risks | ✓ Assess and determine transport routes |
| ✓ The predicted path of the threat | ✓ Determine the evacuation points |
| ✓ Determine what is at risk | ✓ Communicate the HRPG Plan and intentions at earliest possible time to persons and groups identified in this Plan |
| ✓ Assess practicality of a large-scale evacuation during a response | ✓ Ensure accurate records are kept of persons relocated in an emergency |

7.4.1 HRPG Responsibilities

Higher risk persons and their carer organisations are responsible for:

- ✓ Making the decision to stay or evacuate early, before the property is directly affected by the incident
- ✓ Implementing the required aspects of the personal and organisational evacuation plan
- ✓ Ensuring that all higher risk persons are identifiable

7.5 Local Government Responsibilities

The **City of Belmont and the Town of Victoria Park** are responsible for preparing, planning for and to determine and document evacuation considerations:

- ✓ The threats, hazards and risks
- ✓ The predicted threat or hazard behaviour
- ✓ Determine what is at risk
- ✓ Assess and assist the practicality of a large-scale evacuation during a response
- ✓ Assess and assist determine transport routes
- ✓ Determine and document the evacuation points
- ✓ Identify and document safe havens, locations, and facilities
- ✓ Identify and document required and available resources, needed to enable structured and safe evacuation of HRPG's from areas under threat

Appendix 6

7.6 Financial Arrangements for Response

The IMT will coordinate all financial arrangements at the Emergency Coordination Centre. Record and document all matters relating to the financial management and arrangements relating to HRP.

8. Recovery

8.1 Responsibility for Recovery

The IC will determine the 'recovery phase' on completion of the 'response phase' and complete the Impact Assessment ready for handover to the Local Government CEO and **Local Recovery Coordinator (LRC)**.

The City of Belmont and Town of Victoria Park LRC and their respective Local Recovery Groups are responsible for implementing the 'recovery phase' of an incident.

8.2 Transition to Recovery

The IC needs to declare the area safe prior to approving or supporting the movement of affected people back to an incident affected property.

Appendix 6

Local Emergency Relief and Support Plan

Belmont/Victoria Park LEMA Cannington Region

City of Belmont / City of Canning / City of South Perth / Town of Victoria Park

Emergency Relief and Support Directorate, Department of Communities

Tabled and accepted at the Local Emergency Management Committee
Belmont and Victoria Park LEMC - 2 December 2024
Canning and South Perth LEMC - 4 February 2025

December 2024

For activation of Emergency Relief and
Support services for hazards defined under the WA

Emergency Management arrangements
call 0418 943 835

Appendix 7

Activation summary

Alert – stage one

- The Hazard Management Agency (HMA) or Controlling Agency is responsible for placing the Department of Communities (Communities) and the relevant Local Government/s on alert.
- Communities may engage with the Local Government/s, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the Local Emergency Relief and Support Plan (LERSP) arrangements, to enable emergency relief and support service delivery for the response to the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.
- The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.
- All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on Media@communities.wa.gov.au.

Stand down – stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.
- The Local Government is responsible for managing the overall recovery efforts affecting their community.
- When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

Acknowledgement of Country

The Department of Communities acknowledges the Aboriginal and Torres Strait Islander people as the traditional custodians of all the lands in Western Australia.

We recognise their continuing connection to their lands, waters and sky. We pay our respects to the Aboriginal and Torres Strait Islander people with whom we work, who we serve and protect. We also pay our respects to the Aboriginal and Torres Strait Islander cultures, and to their Elders past and present.

Appendix 7

Introduction

The Department of Communities (Communities) is the support organisation responsible for providing and coordinating emergency relief and support services (previously welfare) for the 28 prescribed hazards, as specified in the emergency management legislation. The Local Emergency Relief and Support Plan (LERSP) details the operational activities for the management and coordination of emergency relief and support services under the Local Emergency Management Arrangements (LEMA).

This LERSP is to be read in conjunction with the LEMA and [the State Support Plan - Emergency Relief and Support](#). This LERSP refers to a range of existing plans and documents relating to emergency relief and support services, including directions to websites and other sources where further information can be obtained.

Purpose

The purpose of this LERSP is to detail the activities for the activation and coordination of emergency relief and support services before, during and after emergencies within the Local Emergency Management Committee or Local Government boundary. The objective of this LERSP is to outline:

- the activation, and stand-down protocols of Communities and partner agencies
- Communities' responsibilities for the preparedness, response and recovery coordination of emergency relief and support services and resources, and
- the responsibilities of partner agencies to support emergency relief and support service delivery.

Scope of activated services

Emergency relief and support services provide immediate and ongoing social supports to alleviate, as far as practicable, the effects on people impacted by an emergency. These are provided across six functional domains:

- Emergency accommodation - the provision of temporary shelter for impacted people evacuating from or displaced by an emergency.
- Emergency food – coordination of basic and essential food support for impacted people without the capacity to self-manage resulting from an emergency.
- Emergency clothing and personal requisites – coordination of basic and essential clothing, and personal items for emergency impacted people.
- Emergency personal support services – the provision of a variety of assistance for emergency impacted people. This can include early psychosocial support, practical assistance, and referral to advisory services, counselling or psychological services.
- Registration and reunification – the process of enabling emergency impacted people in a community to be traced and reunited with family and friends.
- Financial assistance – the coordination of financial assistance which, depending on the nature of an emergency, may be available to eligible impacted people affected by the event.

City of
BelmontTOWN OF
VICTORIA PARK

Appendix 7

Levels of response

When activated, Communities utilises the Australasian Inter-service Incident Management System (AIIMS) model to support decision making and delivery of emergency relief and support services. This includes establishing a management structure designed to deliver the key functions of control, planning, operations and logistics.

Communities is responsible for determining and implementing the appropriate response operating model based on the scale of the emergency event. This approach involves conducting an assessment on the severity and specific requirements to decide the level of emergency relief and support services required.

Communities may undertake pre-emptive preparedness activities before an Australian Warning System (AWS) Alert is provided.

The potential or actual severity of the emergency events are broadly classified as:

- Level 1 – minor community and infrastructure impact, locally managed, supported by resources from the Local Government.
- Level 2 – medium complexity, locally managed, supported by resources from the region and if required State-wide resources.
- Level 3 – high complexity, centrally manage, supported by State-wide resources.

Via the Communities on-call number 0418 943 835, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP, at any level will concurrently activate the State Support Plan - Emergency Relief and Support.

Depending on the nature of the emergency, and the scale of service demand, emergency relief and support services may be provided through the following approaches:

- remotely, by establishing the Disaster Response Hotline (1800 032 965)
- providing outreach via mobile teams for identified on-ground face-to-face support, or
- static service delivery from a designated physical location such as an evacuation centre or recovery hub.

The appropriate mode of delivery will be agreed in consultation with the HMA or Controlling Agency.

Partner agencies

Communities is responsible for identifying partner agencies at local and regional levels, capable of supporting a sustainable and scalable delivery of emergency relief and support services during the response and recovery stages of an emergency. Partner agencies may include other government, industry, and social sector organisations.

Communities is responsible for the costs associated with the delivery of emergency relief and support services, where a partner agency is engaged. Communities is not responsible for self-activated agency's costs during an emergency event.

Appendix 7

Communities and partner agencies negotiate prior to activation for the required operating resources to deliver emergency relief and support.

State-level partner agency responsibilities supporting the delivery of emergency relief and support services can be viewed in the State Support Plan – Emergency Relief and Support, appendix B.

Exchange of information

Communities may establish exchange of information agreements with HMAs, Local Governments and partner agencies. This is completed in preparation for an emergency response and recovery to ensure:

- disclosure and exchange of personal information of impacted people affected by an emergency.
- allows relevant information to be shared between HMA's, authorised officers and agencies for the purposes of emergency management.

Media enquiries and public information

All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on Media@communities.wa.gov.au. The HMA or Controlling Agency is responsible for the public information management function. This includes preparing and distributing timely information and instructions in the relevant language(s) to identified cultural groups living within the Local Government.

Prevention and Preparedness

Prevention

Prevention is defined as the mitigation or prevention of the probability of the occurrence of, and the potential adverse effects of, an emergency.

Communities does not have any assigned responsibilities for prevention.

HMAs are assigned responsibility for prevention within emergency management legislation. Other emergency management agencies may also undertake prevention activities.

Preparedness

Preparedness is defined as the 'preparation for response to an emergency'.

- Communities is responsible for undertaking emergency relief and support planning and preparedness activities to ensure efficient service delivery should this LERSP be activated. This includes an understanding of partner agency capabilities to support Communities when requested.
- Partner agencies, with support from Communities, are responsible for developing plans in readiness for response and recovery mobilisation.
- Support organisations providing support to people at higher risk during emergencies are responsible for the planning provisions to cater for their specific needs throughout the emergency, such as an evacuation.

Appendix 7

- Hazard Management Agencies are responsible for emergency management preparedness activities for their prescribed hazards. Local planning arrangements are provided in the LEMA.

Pre-determined evacuation centres

Communities establishes evacuation centres as an emergency shelter option, from which to coordinate emergency relief and support services. These centres remain operational until alternative arrangements can be made for persons impacted by the emergency.

Communities is responsible for working cooperatively with the HMA, Local Government and LEMC members to identify suitable facilities that can be used as evacuation centres appropriate for hazards that are high risk to the region.

Communities, with support from the Local Government is responsible for conducting an annual risk assessment and audit of each pre-determined evacuation centre. The purpose of the audit is to identify evacuation centres that are appropriate for the hazard-specific risks relevant to the region and to identify opportunities for Local Governments to upgrade facilities to mitigate risks.

Pre-determined evacuation centres can be found in Appendices - Page 13

Pre-positioning of emergency equipment

Communities is responsible for the placement of equipment and supplies to support an emergency event. Generally, this placement is aligned with an evacuation centre or Communities regional office location.

Communities is responsible for conducting an annual audit on pre-positioned emergency relief and support emergency equipment and supplies. This audit ensures that there is adequate fit for purpose stock, ready to be deployed quickly and efficiently in the event of an emergency.

Pre-positioned emergency equipment can be found in Appendices – Page 14

Appendix 7

Response

The *Emergency Management Act 2005* defines response, as combating the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery.

When activated, Communities is responsible for supporting the HMA or Controlling Agency through the coordination and delivery of emergency relief and support services to the community.

The HMA or Controlling Agency is responsible for the overall response in an emergency. If requested by the Local Government, Communities can support with recovery activities.

Stages of response

Communities operates a graduated response model to determine and implement the appropriate scale of emergency relief and support services. This approach involves conducting a needs assessment to determine the specific requirements and level of services required.

As mentioned, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.

Alert – stage one

- The HMA or Controlling Agency is responsible for placing Communities and the Local Government on alert.
- Communities may engage with the Local Government, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the LERSP arrangements, to enable emergency relief and support service delivery for the response for the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm Communities is being activated.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.

Appendix 7

Stand down – stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm this direction.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.

At-risk community groups

The HMA or Controlling Agency is responsible for directing organisations that support at-risk community groups to shelter in-place or evacuate.

Aligned with their organisation's own emergency activation plans, as a first option, support organisations are requested to evacuate to a similar facility in a safer location. Where required, Communities may be directed to support evacuated at-risk community groups.

Emergency Accommodation

The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.

Communities is responsible for coordinating and assessing the provision of temporary accommodation for people displaced by an emergency or evacuating from an emergency. Communities may utilise a range of emergency accommodation options to support people impacted by an emergency.

Expenses related to the activation of evacuation centres that are not approved by the HMA and/or Controlling Agency, will not be covered by Communities.

To ensure the safety of evacuees, staff and volunteers, Communities will not support the HMA/Controlling Agency to establish evacuation centres:

- in bushfire emergency warning areas, and will only establish evacuation centres in Bushfire Watch and Act areas, with Incident Controller confirmation it is safe
- if there are no safe access routes to the evacuation centres, and
- if there are structural and/or health concerns with the evacuation centre.

In circumstances where an evacuation centre is already established in a bushfire emergency warning area, in consultation with the Incident Controller, Communities will:

- conduct a risk assessment, and
- implement mitigation strategies.

In the event of an unusual damage claim resulting from the use of the facility as an evacuation centre, Communities will facilitate processes with the HMA/Controlling Agency to respond to the claim.

City of
Belmont

TOWN OF
VICTORIA PARK

Appendix 7

Alternate accommodation sites

In large scale state-level impact emergencies, local facilities may be inadequate to ensure the safety of all evacuees, staff, and volunteers. Communities is responsible for requesting the use of facilities from Local Governments or private owners to support impacted people from other Local Governments.

Animal welfare in emergencies

No pets or animals are allowed in an evacuation centre due to health and safety considerations, except for assistance animals, like guide and hearing dogs.

Owners or caregivers are responsible for their animals and are encouraged to make arrangements to ensure their welfare throughout all stages of an emergency.

The Department of Primary Industries and Regional Development has been assigned the role and responsibility for coordinating animal welfare services in emergencies. This is supported by the Local Government, where possible.

Further details can be found in the [State Support Plan – Animal Welfare in Emergencies](#) or the Local Animal Welfare Plan in the LEMA (if applicable).

Emergency Food

The HMA or Controlling Agency may coordinate food security during an emergency event, such as where there is limited food access due to geographical isolation.

Communities is responsible for coordinating emergency food provision to people impacted by an emergency where emergency relief and support service delivery is activated. This does not include food provision to staff from other emergency management organisations or partner agencies.

Communities cannot accept food prepared by any person or organisation without a Food Handling Certificate issued by the Local Government.

Emergency Personal Support Services

Communities is responsible for coordinating and connecting people impacted by an emergency to personal support services.

Emergency personal support services aim to assist impacted people to cope with the psychosocial, well-being, personal and practical needs following an emergency. These services can encompass a variety of supports to community and impacted people to build capacity and to compliment natural supports.

Communities may engage partner agencies to support the coordination of services personal support to impacted people and communities.

City of
Belmont

TOWN OF
VICTORIA PARK

Appendix 7

Emergency Financial Assistance

Communities is responsible for coordinating and connecting eligible people impacted by an emergency to financial assistance and related services.

The below categories of financial assistance may be provided on a case-by case basis to people deemed eligible.

- Immediate financial assistance (Category 1) – non-means tested short term assistance provided to impacted people to buy food, clothing, and personal requisites. Category 1 financial assistance is capped at a nominal amount per person, per household and is provided to impacted people based on an assessment of need.
- Temporary accommodation assistance (Category 2) – non-means tested assistance provided to impacted people based on an assessment of need.
- Essential household contents (Category 3) – means tested assistance provided to impacted people, whose contents within their primary place of residence has been directly impacted by an emergency. This assistance is to maintain a basic standard of living by contributing towards the replacement of essential household items (e.g., cooking utensils, bedding, furniture, and whitegoods). This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.
- Essential structural repairs (Category 4) – means tested assistance provided to impacted home owner-occupiers to undertake essential repairs to their principal residences. This assistance enables the impacted person to make their home condition safe to inhabit. This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.

Emergency Clothing and Personal Requisites

Communities is responsible for coordinating and connecting people impacted by an emergency to clothing and personal requisites. These services can encompass a variety of supports to community and impacted people to compliment natural supports.

Communities will coordinate and provide personal requisites when:

- impacted people do not have access to their own provisions, or
- impacted people cannot fund their own provisions due to financial restraints.

Communities is not responsible for the provision of medication or coordination of donated funds, goods and services.

Registration and Reunification

The registration of impacted people in an emergency enables reunification with family and friends. Enquiries about impacted people can be coordinated, intrastate, interstate or internationally. To facilitate the reunification of impacted people, Communities may activate an appropriate system to facilitate registration and reunification services.

Communities will support the HMA or Controlling Agency to ensure appropriate public messaging is provided when activated.

Appendix 7

Recovery

Recovery is defined in the *Emergency Management Act 2005* as 'the support of emergency-affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psycho-social and economic wellbeing'. The recovery process begins as soon as the emergency occurs impact. Recovery operates in parallel to the response phase and may continue after the response phase is complete.

Under the *Emergency Management Act 2005*, Local Government is responsible for managing recovery following an emergency affecting their community. Local Governments are guided by their Local Recovery Plans within their LEMA and may appoint a Local Recovery Coordinator. The Local Government may seek support from Communities during recovery. When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

Approach to recovery

Communities' recovery activities are underpinned by the National Principles for Disaster Recovery. This is delivered across the social, built, economic and natural environments. Communities operates within a scalable recovery model to determine and implement the appropriate level of emergency relief and support services required to respond to the needs of impacted people and community.

To support the needs of the community during large scale recovery programs, Communities emergency relief and support services may be funded under the Disaster Recovery Funding Arrangements.

Communities will undertake an evaluation of the effectiveness of recovery activities, including an assessment of preparedness activities for future impacts.

Cessation of recovery

Cessation of emergency relief and support services as part of a recovery program will be determined in consultation with the Local Government and may be dependent on community needs, access to other support services, impacted people and the community's resilience.

RSPCA (WA)	Royal Society for the Prevention of Cruelty to Animals
RWWA	Racing and Wagering Western Australia
WILDLIFE	All native species of animals and birds

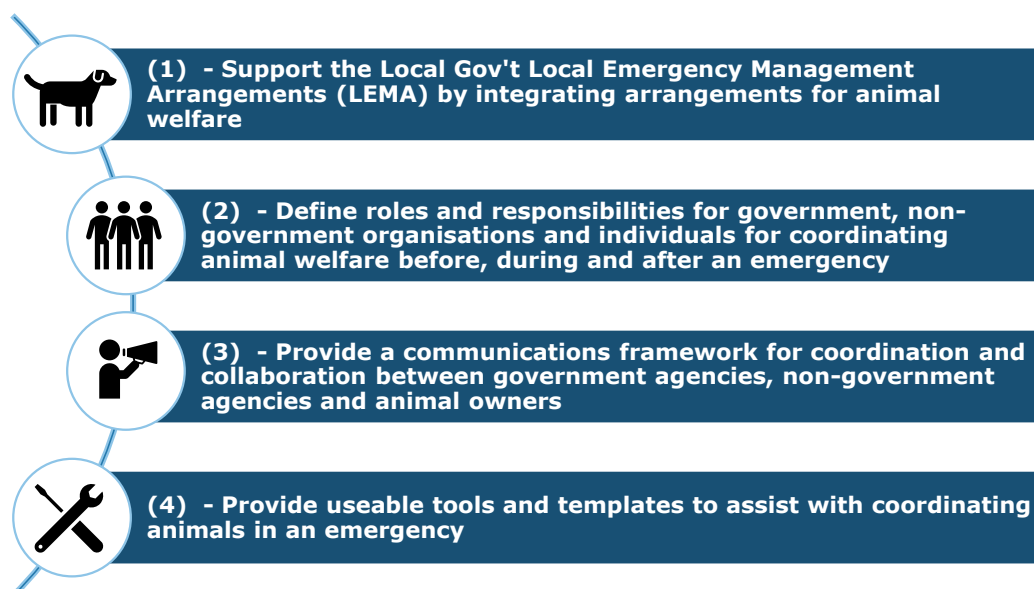

Appendix 8

2. Introduction

2.1 Aim

The aim of the City of Belmont/Town of Victoria Park Animal Welfare in Emergencies (the Plan) is to detail emergency management arrangements relating to the welfare and management of animals including domestic pets, horses, livestock and wildlife before, during and after an emergency.

2.2 Objectives

2.3 Scope

The scope of this Plan is to provide a coordinated approach to managing animal welfare impacts to domestic pets, livestock, and wildlife, as a direct result of an emergency incident within the municipal boundaries of the City of Belmont and the Town of Victoria Park.

For the purposes of this Plan, and to align with the State Support Plan, animals have been classified into the following five categories:

-  **Livestock** – any buffalo, camel, cattle, deer, emu, goat, ostrich, pig, poultry and sheep.
-  **Horses** – any horse or equine hybrid.
-  **Domestic Pets** – animal other than horses kept primarily for companionship, hobbies, sport or work.
-  **Wildlife** – an animal that is indigenous to Australia's land or waters, living without regular human intervention or support.

Note, prior to being taken into care or under controlled supervision, there is no owner or carer for wildlife.

Appendix 8

2.4 Related Documents

- [State Support Plan – Animal Welfare in Emergencies](#)
- Belmont/Victoria Park Local Emergency Management Arrangements

2.5 Legislation and Codes

- Animal Welfare Act 2002
- Biosecurity Conservation Act 2016
- Emergency Management Act 2005
- Department of Agriculture and Food (codes of conduct and operating codes)
- RSPCA (WA) Codes of Conduct

2.6 National Planning Principles for Animals in Emergencies

1. Explicitly recognise that integrating animals into emergency management **plans will improve animal welfare** outcomes
2. Explicitly recognise that integrating animals into emergency management plans will help secure **improved human welfare and safety** during disasters
3. Aim, for the benefit of emergency managers and animal welfare managers, to **clearly identify roles and responsibilities within command-and-control structures** in sufficient detail to allow for implementing effective animal welfare measures
4. Recognise the **wide range of parties involved in animal welfare** at each stage of the disaster cycle and ensure these organisations are consulted when disaster plans are written or reviewed
5. Respect the role of local government, especially with reference to animal welfare and animal management arrangements within the local area, as 'first responders' in disasters and **acknowledge the LG's understands local needs** and available resources
6. Consider how best to ensure the Plan is effectively integrated and implemented by, for example, extensive consultation during the planning process or **including an animal welfare** element in requirements for **disaster training** exercises
7. Include **effective communication** about implementing the Plan with those parties who may be involved as well as those who may be affected by disasters
8. Communicate in **language that is clear and accessible** to all stakeholders including the public.

Appendix 8

3. Organisational Roles and Responsibilities

3.1 Animal Owner/Carer

The owner or carer of an animal is responsible for its welfare and should include planning for its welfare in preparedness for, response to and recovery from an emergency.

Human life will always take precedents over animal welfare.

3.2 State Government

3.2.1 Department of Primary Industries and Regional Development (DPIRD)

DPIRD is responsible for coordinating the provision of animal welfare services to support the animal owner in an emergency.

DPIRD is recognised as the Hazard Management Agency (HMA) for animal pest or disease and plant pest or disease that could result in an outbreak that potentially could cause significant damage to the environment and/or harm humans and industry.

3.2.2 Department of Biodiversity, Conservation and Attractions (DBCA)

DBCA is responsible for coordinating the provision of animal welfare services to animals in the Perth Zoo and advising the animal owner of wildlife and wildlife parks. Note, prior to being taken into care or under controlled supervision, there is no owner or carer for wildlife.

3.2.3 Department of Communities (Communities)

Communities is responsible for opening Evacuation Centres to provide temporary shelter for persons rendered homeless by an emergency, or due to an evacuation from an emergency. For health and safety reasons no animals, including pets, are permitted in evacuation centres with the exception of guide dogs.

3.2.4 WA Police

A Police Officer has the powers to move, direct or prohibit the movement of animals within, into, out of or around the emergency area, if an emergency situation or state of emergency is declared.

Appendix 8

3.3 Local Govt's. of Belmont and Victoria Park

The local government will support and manage animals in an emergency by ensuring an Animal Welfare Plan is in place and ready for activation to assist the Local Emergency Management Arrangements.

The Local Gov't. Recovery Coordinator will appoint an Animal Welfare Coordinator (AWC) and Animal Welfare Assistant(s) (see **Annexure 3**) to be responsible for implementing this Plan and providing Situational Reports (see **Annexure 4**) for IMT and/or Incident Support Group (ISG) to meet and liaise with DPIRD.

3.4 Key Stakeholders

Key Stakeholders including non-government organisations and local community groups can assist with animal welfare in emergencies including:

RSPCA – takes the lead role in welfare of domestic pets and is supported by DPIRD

Veterinarians – local veterinarians can provide a wide range of medical services for sick and injured animals and have arrangements with LG Rangers for emergency care and shelter

Community Groups – can be considered for mobilisation to assist professional staff to cope with the scale of a crisis including domestic pets, horses and wildlife

Full list of Key Stakeholders (see **Annexure 1**)

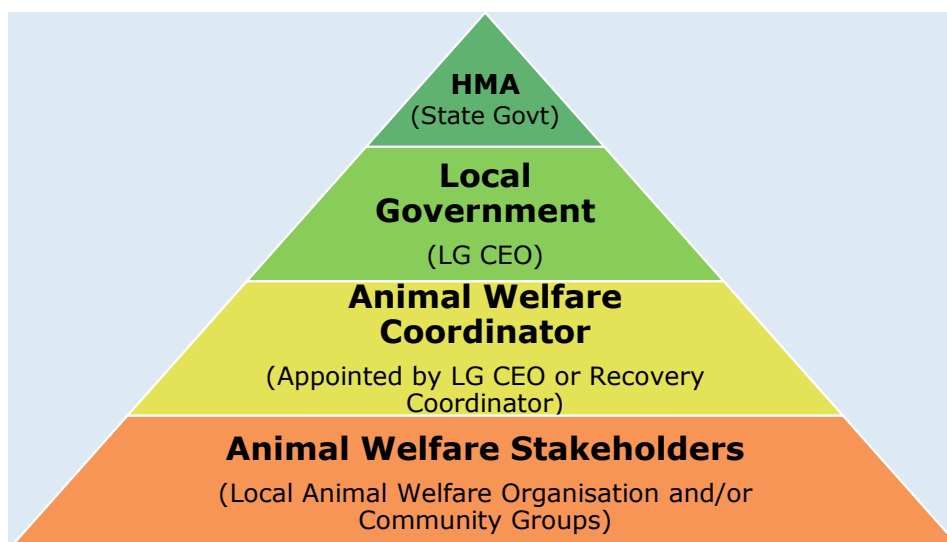

Figure 1: Animal Welfare Support Plan Structure

Appendix 8

4. Preparedness

Preparedness is defined as being ready to respond to an emergency. It includes steps that can be taken before an emergency occurs to reduce the loss of life and livelihoods via simple initiatives such as planning, training, and education.

4.1 Preparedness Responsibilities

4.1.1 Animal Owner/Carer or Responsible Organisation

The owner, carer or organisations who oversee specified controlled facilities such as those located within the Ascot and Belmont Park Racing precincts are responsible for ensuring a reasonable level of preparedness for their animals. It is suggested to have a documented plan that includes:

- ✓ Determining if the animal(s) will be evacuated or remain onsite.
- ✓ Visiting DPIRD website for planning templates and DFES website for Factsheets and Publications.
- ✓ Ensuring suitable areas and adequate provisions available for animals left on a property to minimise the risk of harm (area at lowest risk of hazard impact, access to sufficient food and water for prolonged absence).
- ✓ Ensuring transport is adequate and available to relocate the animals early under potential logistical constraints (road closures, window of safe evacuation).
- ✓ Knowing the exact location of Animal Evacuation Centre(s) or safe havens.
- ✓ Making sure animals are identifiable (animal is registered/micro-chipped, National Livestock Identification System).
- ✓ Ensuring provisions for the animal's(s) care are included on evacuation.

4.1.2 Local Govt's. of Belmont and Victoria Park

The local government can support emergency preparedness activities with its local communities in the event of an incident. Planning considerations for LG to **support owners or carers** include:

- ✓ Access to information and resources for persons evacuating with animals.
- ✓ Availability of transportation support and advice.
- ✓ Availability of locations to house evacuated animals.
- ✓ Management of displaced or stray animals.
- ✓ Assessment of impacted animals.
- ✓ Treatment of impacted animals.
- ✓ Euthanasia.
- ✓ Disposal of deceased animals.
- ✓ Provision of emergency food, water, shelter.
- ✓ Recovery arrangements.

Appendix 8

4.1.3 Planning considerations for Local Govt. to support key stakeholders include:

- ✓ Timely communication of information that is clear and concise.
- ✓ Activating the plan according to the level of the emergency.
- ✓ Coordinating assistance to welfare centres with people presenting with animals.
- ✓ Coordinating assistance to Animal Evacuation Centres.
- ✓ Situational Reports of animal welfare issues to ISG.
- ✓ An Animal Welfare Sub Committee to manage recovery issues.

4.1.4 Key Stakeholders

Key Stakeholders' core business will direct their precise preparedness activities.

Planning considerations for key stakeholders may include:

- ✓ Developing and testing a plan well before an emergency occurs.
- ✓ Preparing animal emergency kits.
- ✓ Preparing volunteers including training.
- ✓ Preparing network of carers or foster carers.
- ✓ Preparing premises for large influx of animals.
- ✓ Establishing a registration or contact point for information.
- ✓ Preparing vehicles for transportation.
- ✓ Preparing cages, collars, leads, bowls, buckets and other equipment.
- ✓ Preparing treatment areas or sites.
- ✓ Preparing food or feed supplies.

4.2 Community Information and Education

DPIRD develops and maintains publications to assist community education for animal welfare in emergencies which are available on the [DPIRD website](#).

DFES has a wide range of educational material for community engagement activities that can be accessed via the [DFES website](#) and for volunteers via the DFES Volunteers Hub.

The local governments of Belmont and Victoria Park promotes community emergency preparedness including the importance of animal welfare in emergencies using State agency resources and key messages.

Appendix 8

5. Response

Response is defined as activities that combat the effects of the event, provide emergency assistance for casualties, and help reduce further damage and help speed recovery operations (EM Act).

5.1 Plan Activation

The Local Government CEO, on advice from the HMA or Controlling Agency, will determine when to activate this Plan.

Triggers for activating the Plan may include:

Animal welfare is beyond the capacity of local government and capability of owners or carers

Local Community Evacuation Centre is activated

Large scale carcass disposal requirements

DPIRD may support this Plan prior to the State Support Plan – Animal Welfare being activated, by providing advice, communications and connection to animal welfare stakeholders or service providers.

DPIRD will liaise with the HMA or Controlling Agency to coordinate the State animal welfare arrangements when required.

5.2 Levels of Response

The Incident Controller is responsible for assessing the level or severity of the incident as per [State EM Response Procedure 4.2.](#)

In accordance with incident management principles, incidents are broadly classified into three levels, namely Level 1, Level 2 and Level 3.

5.3 Response Responsibilities

5.3.1 Owner/Carer or Responsible Organisations

- ✓ Manage animals they are responsible for by activating emergency plans for before, during and after the emergency.
- ✓ Stay up to date through official emergency advice to make informed decisions.

Appendix 8

5.3.2 Local Govt's. (LG's) of Belmont and Victoria Park

- ✓ Activate the LG's Animal Welfare Support Plan in consultation with the HMA/CA via IMT and/or ISG meetings.
- ✓ CEO or Recovery Coordinator to appoint 'Animal Welfare Coordinator' (in most incidents this would be the Senior Ranger).
- ✓ Animal Welfare Coordinator to appoint 'Animal Welfare Assistant(s)' as required, this may be a LG's employee or volunteer from animal welfare organisation.
- ✓ Liaise with DPIRD to provide a coordinated approach to animal welfare response actions, where relevant.
- ✓ Provide a location suitable for evacuation of domestic pets and horses (see Contacts and Resource Directory for suitable sites)
- ✓ For livestock owners that cannot be readily located or contacted consideration should be given to impounding livestock at alternative locations.
- ✓ Provide situational reports (*Annexure 4*) on animal welfare matters to the HMA/CA via IMT and/or ISG meetings.

5.2.3 Key Stakeholders

- ✓ Provide support and/or assistance to the LG's and/or DPIRD as requested.
- ✓ Contact relevant staff/volunteers to be on standby and ready to assist on request.
- ✓ Key stakeholders are advised to actively and continually stay informed of the emerging incident via www.emergency.wa.gov.au and make appropriate preparations to become active depending on the organisation's role.

5.3 Financial Arrangements for Response

The IMT will coordinate all financial arrangements at the Emergency Coordination Centre. All financial management and arrangement matters relating to Animal Welfare are to be recorded and documented using the Forms provided at **Annexure 8** of this Plan.

The owner, carer or organisations who oversee specified controlled facilities such as those located within the Ascot and Belmont Park Racing precincts are responsible for the costs associated with the welfare of his/her/their animal.

During an emergency, it may not be possible to identify or contact the owner or carer and an authorised officer may be required to undertake activities for the animal's welfare without prior consultation. Section 56 of the Animal Welfare Act (2002) provides for a person who has incurred costs under certain sections of the Act to apply for the recovery of costs from the owner or carer.

Appendix 8

6. Planning for Evacuation

Evacuation is a risk management strategy that involves moving people (and their animals) threatened by a hazard to a safer location and, typically, their eventual safe and timely return.

6.1 Evacuation Responsibilities

6.1.1 Owner/Carer or Responsible organisation

The owner, carer or organisations who oversee specified controlled facilities such as those located within the Ascot and Belmont Park Racing precincts are responsible for determining, where possible, if their animals will be evacuated or remain on location and plan for how this will be achieved.

Considerations for animal owners or carers include:

- ✓ Availability of safe evacuation routes, considering the type of emergency situation and the possibility of road closures
- ✓ Time required to vacate the property, including time to gather, identify and load animals
- ✓ Handling equipment needed for moving animals and ensuring accessibility in an emergency
- ✓ Limited access to own transport for animals – owners or carers should make prior alternative arrangements with neighbours and local transporters
- ✓ Ensure animals can be identified, which is important in case they become lost or mixed with others during an evacuation.
- ✓ Records should be kept verifying ownership or status as a carer.
- ✓ Any problematic animals deemed difficult to manage or dangerous should be kept contained to ensure the safety of other evacuating animals.

6.1.2 Local Govt's. (LG's) of Belmont and Victoria Park

The LG is responsible for preparing, planning for, and determining evacuation considerations, including:

- ✓ Assessing possible threats, hazards and risks
- ✓ Assessing the practicality of a large-scale evacuation during a response by liaising with the HMA/ Incident Controller and DPIRD
- ✓ Assessing and identifying the safest transport routes, consider signage
- ✓ Determining the evacuation locations and facilities suitable for animals (see *Annexure 9*)
- ✓ Ensuring information is included in public warnings, which can be requested via IMT/ISG meetings.
- ✓ Registering animals presenting at the Animal Evacuation Centre(s) using the Animal Evacuation Registration Form (see *Annexure 2*)

Appendix 8

- ✓ Maintaining a central point for all enquiries and dissemination of information, including a rescue display list (see *Annexure 7*)
- ✓ Ensuring food and water are available and accessible at the Animal Evacuation Centres

7. RECOVERY

The LG's of Belmont and Victoria Park are responsible for managing recovery following an emergency affecting the community in its district as per s36(b) of the EM Act.

7.1 Recovery Responsibilities

7.1.1 Hazard Management Agency/Controlling Agency

- ✓ Ensure animal welfare is included in post emergency debriefs and reviews
- ✓ Refer and use the Summary Sheet: Evacuated Animals Register from the Animal Welfare Coordinator in all report documentation related to animal welfare (see *Annexure 6*)

7.1.2 Local Govt's.(LG's) of Belmont and Victoria Park

- ✓ Include animal welfare considerations in recovery plans, consider establishing an 'Animal Welfare Sub-Committee' to assist with managing ongoing animal welfare issues post emergency
- ✓ Liaise with DPIRD to transition the ongoing animal welfare activities back to the control of LG's and the owner or carer
- ✓ Review the effectiveness of the LG's Animal Welfare Support Plan with Key Stakeholders

7.1.3 Key Stakeholders

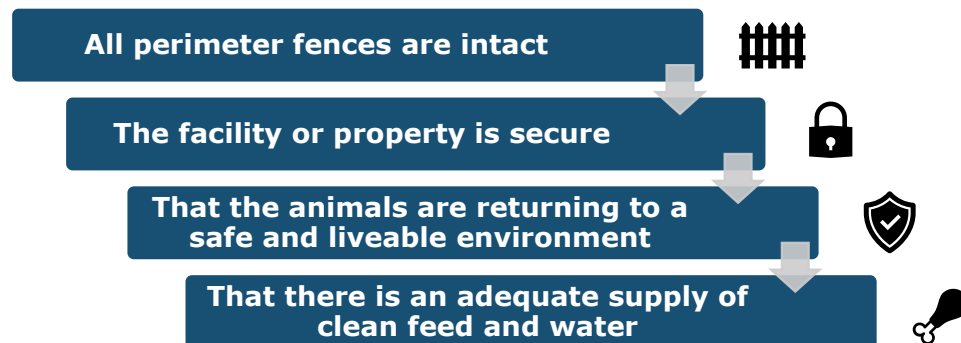

- ✓ Assist the LG's and/or DPIRD in post-incident activities as requested
- ✓ Debrief staff and/or volunteers within organisations or community groups, as it is important not to under-estimate the impacts on personnel involved in emergency response

Appendix 8

7.2 Transition to Recovery

The Incident Controller needs to declare the area safe prior to approving or supporting the movement of animals back to an incident affected property.

Before animals are returned to a facility or property ensure:

Always consider:

Animals may be traumatised/stressed from a significant incident or major change in their environment.

Annexure 3 – Animal Welfare Coordinator & Assistant Roles

Animal Welfare Coordinator

When the Animal Welfare Support Plan is activated the Animal Welfare Coordinator will:

- Establish and maintain liaison with the CEO and/or Recovery Coordinator concerning all animal welfare issues and management decisions.
- Provide Situational Reports to the CEO and/or Recovery Coordinator for IMT or ISG meetings.
- Establish and maintain contact with the Animal Evacuation Centre before, during and after an emergency as support.
- Establish and maintain contact with the Evacuation Centre (for Humans only) and provide assistance with animal welfare issues if requested.
- Appoint Animal Welfare Assistant(s), if required, to assist with administrating logistics associated within this Plan.
- Ensure Animal Welfare support equipment and consumables are maintained and available at all times.
- Request Veterinarians' support and assistance for animals requiring assessment or treatment as approved by HMA/IC.
- Liaise with LG Media Officer and the HMA/IC to prepare and release public information concerning animal welfare as required.
- Arrange debriefing sessions during and post incident with Animal Welfare Assistants, Volunteers, LG Staff, and associated agency representatives.
- Assist DPIRD and/or DBCA with animal welfare activities as requested or directed by the Controlling agency or HMA.
- Seek authorisation from the HMA/IC to patrol areas affected by the emergency (in consultation with DPIRD/DBCA) to assist impacted wildlife.

Animal Welfare Assistant

When the Animal Welfare Support Plan is activated the Animal Welfare Assistant(s) will:

- Provide support and assistance to the Animal Welfare Coordinator to manage animal welfare issues as requested.
- Maintain appropriate records for animals evacuated to the Animal Evacuation Centre or temporary animal welfare facility established.
- Manage the welfare and safety of animals received at the Animal Evacuation Centre or any temporary animal welfare facility established.
- Liaise with available Veterinarians for animals requiring assessment or treatment.
- Participate in patrols of the area affected by the emergency to assist affected wildlife once the area is deemed safe to do so by the HMA/IC.

Appendix 8

Annexure 5 – Animal Evacuation Centre Checklist

The Animal Welfare Coordinator assigns this role

ON ACTIVATION		
Task	Notes	Complete P
1. Ensure the facility is not at risk or likely to be affected by the hazard Refer to the Emergency WA website www.emergency.wa.gov.au and confirm location is not within a Watch & Act area. Consider the surroundings and remember multiple incidents can occur simultaneously. Continually monitor the situation.		<input type="checkbox"/>
2. Ensure the facility has the capacity to support a large influx of animals and people. If an event is currently underway or scheduled in the next three days, consider redirecting the request to another facility.		<input type="checkbox"/>
3. Ensure the facility is operational <ul style="list-style-type: none"> • Club rooms, kitchen and amenities to be in good working order. • Perimeter fencing secure. • Reliable source of power and water • Unrestricted road access and consider route to Department of Communities evacuation centre 		<input type="checkbox"/>
4. Contact facility members who are available to volunteer and assist with managing the Animal Welfare Centre. <ul style="list-style-type: none"> • Report availability of volunteers to the Animal Welfare Coordinator or LG Rangers • Draft a basic roster 		<input type="checkbox"/>
5. Establish a registration point Note any directions and contact details on the gate sign. Most likely to be located in the club rooms to coordinate the following services: <ul style="list-style-type: none"> • Informing users of facility/centre arrangements • Logging the details of all incoming and outgoing animals • Collecting ground fees (if applicable) • Encouraging all persons to register at https://register.redcross.org.au/ • Maintaining a central point for all queries and the dissemination of information 		<input type="checkbox"/>

Appendix 8

MANAGEMENT DURING EMERGENCY		
Task	Notes	Complete P
<p>6. Waiving of fees and rules</p> <p>In extenuating circumstances, the Animal Evacuation Centre may choose to waive the ground fee and any of the facility rules. This decision must be:</p> <ul style="list-style-type: none"> • Made in good faith. • Documented • Communicated to the Facility Manager as soon as practicable. <p>This is most likely to involve dogs and unattended animals at the grounds.</p>		<input type="checkbox"/>
<p>7. Catering arrangements</p> <p>The facility is under no obligation to cater for the displaced people, and they should be told this from the outset. Any donated food should be prepared in accordance with food safety standards.</p> <ul style="list-style-type: none"> • The details of the closest shops should be circulated, and kitchen facilities may be used by those wishing to prepare their own food • Any displaced person still requiring these basic needs should be redirected to the Department of Communities evacuation centre. 		<input type="checkbox"/>
<p>8. Donations</p> <p>The centre is not to be used as a collection point for donated goods. The only donations that may be accepted are:</p> <ul style="list-style-type: none"> • Animal feed • Animal medical supplies and services • Approved catering supplies and services • Facility consumables (i.e. toilet paper) 		<input type="checkbox"/>
<p>9. Communication - SITREP</p> <p>The Facility Manager is to maintain communication with the following organisations:</p> <ul style="list-style-type: none"> • Animal Welfare Coordinator • LG Ranger Services (to inform IC via ISG) • Department of Communities • Other Public Equestrian Facilities <p>Subsequent SITREPS are to be provided every 12hrs at a minimum, or as the situation changes.</p>		<input type="checkbox"/>

Appendix 8

MANAGEMENT DURING EMERGENCY		
Task	Notes	Complete P
10. Animals with unknown owners It is likely that rescued animals with unknown owners will be brought to the centre. This is to be recorded on the registration form, the animal photographed, and its details forwarded to the Ranger Services of the relevant Local Government. The Rangers may impound the animal at the facility and cover all costs of its welfare until the owner is identified. It is not permitted to leave the grounds without their permission.		<input type="checkbox"/>
11. Administration and finance Keep accurate records, of all the centre's activities, key decisions and expenditure. This information may be required for the post incident review. Costs may be claimable, however, confirmation of this is often required prior to activation.		<input type="checkbox"/>
12. Delegation of roles Depending on the size and nature of the incident consider appointing following positions: <ul style="list-style-type: none"> • Front gate attendant • Registration/admin officer • Safety officer. 		<input type="checkbox"/>
13. Relief arrangements and shift changes Depending on the size and nature of the incident consider relief arrangements for the Animal Welfare Coordinator and any delegated roles. Advise that the centre has an on-site Animal Welfare Coordinator at all times. When this is not possible the contact details of an off-site Animal Welfare Coordinator is to be made publicly available at the centre.		<input type="checkbox"/>

Appendix 8

STAND DOWN		
Task	Notes	Complete P
14. Closure of centre The centre is closed at the discretion of the Animal Welfare Coordinator in consultation with the Facility Manager and LG. 24hrs notice must be provided to vacate the grounds.		<input type="checkbox"/>
15. Those requiring long term accommodation Residents whose properties are destroyed, inaccessible or uninhabitable are to be redirected to Department of Communities or LG for support services.		<input type="checkbox"/>
16. Unclaimed animals Any animals who do not have an identified owner after the closure of the centre are to be reported to the LG Ranger Services.		<input type="checkbox"/>
17. Clean up The facility is to be left in a clean usable state so it can quickly return to general business. It is expected the centre users will assist with this task. Any major damage is to be reported to the Facility Manager.		<input type="checkbox"/>

Appendix 8

POST EMERGENCY		
Task	Notes	Complete P
18. Debrief The Animal Welfare Coordinator is to ensure that hot and cold debriefs are undertaken with those who are involved with the centre, such as: <ul style="list-style-type: none"> • Facility Manager • Feedback from users as they leave • Hosting an official debrief session. 		<input type="checkbox"/>
19. Request for information It is likely the facility will be contacted for details of those involved to assist with recovery. If a major incident review is to be undertaken, they may also be approached for a submission. The Facility Manager will validate the information to be released.		<input type="checkbox"/>
20. Amendments Any proposed changes to this document must be raised with and endorsed by the Facility Manager and LG, in consultation with DFES and Department of Communities.		<input type="checkbox"/>

Situation Report

City of Belmont and Town of Victoria Park Incident Support Group Meeting

EVENT		
SIT REP #	DATE	TIME PERIOD
DISTRIBUTION		
<ul style="list-style-type: none"> • Council members as required • CEO & Executive team • Managers • Local Emergency Management Committee & Local Recovery Group • Other organisations as necessary <p><i>Note: City/ Town can determine who receives the SITREPs based on relationships and need.</i></p>		

Situation Summary

- What has happened, where and when
- Overview of immediate effects from the impact of the event
- Estimate of the problem – size, scope, area, access, numbers involved including any secondary hazards
- Work health and safety (WHS) summary, casualties

Actions Taken

- Brief reporting of actions completed – for the period covered by the sitrep
- Who and what is involved, location of site control/s,
- Activities undertaken by engaged resources
- Impact statistics, numbers of properties affected/visited, number of personnel by agency

Actions to be Completed

- Brief reporting of scheduled/planned/proposed actions – for the period covered by the sitrep
- Assessment of effects of operations conducted to date
- Future intentions & resources required, i.e. where operation expects to be by next sitrep

Issue(s)

- Present brief description of issue/s that are known/reasonably expected to arise before the next sitrep is issued e.g. a shortage of a given resource, significant WHS issues

Appendix 12

Memorandum of Understanding ("MoU")

Between

City of Belmont and Town of Victoria Park

For the Provision of Administrative and Mutual Support Related to

Emergency Management

5-year Agreement (2025 – 2030)

Appendix 12

Purpose

The purpose of this Memorandum is to:

1. Share the administrative requirements and responsibilities related to the Local Emergency Management Arrangements (LEMA), and the Local Emergency Management Committee (LEMC).
2. Assist the mutual aid and support between the City of Belmont and the Town of Victoria Park during emergencies and post-incident recovery.
3. Enhance the capacity of both our communities to cope during emergencies.
4. Articulate the willingness of both City of Belmont and Town of Victoria Park to cooperate and share resources during emergencies.

Parties

City of Belmont and Town of Victoria Park.

Definitions

Terms used in this Memorandum are as defined in the Emergency Management Act 2005 and Emergency Management Act Regulations 2006 unless specified otherwise.

Provider means the party providing assistance.

Requestor means the party requesting assistance.

Guiding Principle

The guiding principle is that any support (including the extent of the support) provided by the City of Belmont or the Town of Victoria Park to the other during an emergency event shall be at the discretion of the Provider and should not compromise the operational capabilities of the Provider.

Partnering Objectives

In times of community distress due to an emergency, partners to this Memorandum agree in accordance with the Guiding Principle to where possible:

1. Provide available resources to respond to the emergency if requested.
2. Assist with post-incident recovery in the community using available resources.

Appendix 12

Appendix 12

Allocation of Resources

1. The allocation of a staff and equipment Provider is an operational issue and shall be determine and remains the responsibility of the Chief Executive Officer (CEO) of the Provider.
2. This Memorandum articulates the support of both CEOs from the City of Belmont and Town of Victoria Park in a commitment to supporting either Local Government Authority, which is backed by their respective elected members.

Collaborative Commitments

1. The City of Belmont and the Town of Victoria Park have established a combined Local Emergency Management Committee (LEMC), as required under the Emergency Management Act 2005, and supporting regulations, including any relevant State Emergency Management policies.
2. The City of Belmont and the Town of Victoria Park shall endeavour to hold LEMC meetings every three months. City of Belmont or Town of Victoria Park shall alternate hosting the LEMC meetings, with the Town of Victoria Park and the City of Belmont each hosting two meetings annually.
3. The Town of Victoria Park and the City of Belmont shall endeavour to conduct, at least one Emergency Management Desktop Exercise (EMDE) annually with the Town of Victoria Park and the City of Belmont alternate hosting the EMDE within their respective municipalities.
4. The City of Belmont and the Town of Victoria Park have established a combined Local Emergency Management Arrangement (LEMA) (General Plan) which includes a shared resourcing responsibilities for the administrative needs for managing the General Plan under the Emergency Management Act 2005, and supporting regulations, including any relevant State Emergency Management policies.
5. Where requested and operationally feasible, the Provider shall equipment and/or provide human resources to assist with emergency recovery management, for immediate response and short-term recovery.
6. The Requestor shall make all requests for support through the Incident Controller (IC) of the designated Hazard Management Agency (HMA), in consultation with either the City of Belmont's or Town of Victoria Park's Local Recovery Coordinator (LRC) (as applicable) and/or Local Emergency Coordinator (LEC), dependant on where the incident is occurring within these local government districts.

Appendix 12

7. The Provider shall remain responsible for the personnel and equipment provided to assist the Requestor including ensuring that all personnels and equipment are adequately covered by the Provider's insurance notwithstanding that the personnel are undertaking work outside the Provider's district and the equipment is used outside the Provider's district.
8. The Providers will be responsible for costs associated per their legislative responsibilities to their employees and for their equipment unless otherwise agreed in writing.
9. The Requestor shall be responsible for incidental costs such as catering, accommodation, OHS issues, transport, fuel, and storage incurred by the Provider's personnel and equipment when providing assistance to the Requestor.
10. In the event of an emergency qualifying for State and Commonwealth Funding assistance, such assistance will be sought by the Requestor in compliance with the Requestor's relevant policies.

Duration and Amendment

1. This Memorandum takes effect upon signing by all parties.
2. Subject to such annual review that may be undertaken, this Memorandum shall remain in force for an initial period of 5 years, with an option to extend for another 5 years by agreement of all parties, or until terminated.
3. This Memorandum can only be altered, varied, or modified by written agreement of all parties.
4. This Memorandum shall be reviewed annually to ensure it remains current and appropriate. The annual review will determine if the Agreement is to be extended or terminated.

Termination

This Memorandum may be terminated by mutual agreement of all parties in writing at any time.

Withdrawal

Any party may withdraw from this Memorandum by providing the other party with three months' written notice addressed to the CEO of the other party.

1.7 Related Documents, Agreements and Understandings, Special Considerations

1.7.1 Related Documents

The Local Recovery Plan (LRP) is consistent with State Emergency Management Policies and State Emergency Management Plans and should be read in conjunction with City of Belmont's Local Emergency Arrangements.

Details are held by City of Belmont's Administration Offices at:

City of Belmont

215 Wright Street, Cloverdale (*During normal business hours*)

City of Belmont website: www.belmont.wa.gov.au

For related State Plans, Policy, Legislation, Procedures and Guidelines and Resources - [click here](#).

1.8 Agreements, Understanding and Commitments

1.8.1 Mutual Aid Agreement

The City of Belmont is in an agreement, along with other local governments, organisations and agencies, for the provision of mutual aid during emergencies and post incident recovery.

The purpose of this agreement is to:

- Facilitate the provision of mutual aid during emergencies and post incident recovery.
- Enhance the capacity of communities to cope in time of difficulty.
- Demonstrate the capacity and willingness by working cooperatively and share resources within the region.

The parties included in this agreement are:

City of Belmont	Town of Victoria Park
City of Canning	City of Kalamunda

For other Agreements, Understandings and Commitments in place for the City of Belmont see Contacts and Resources (LEMA - General Plan - **Appendix 4 or Appendix 12**)

2. Recovery

2.1 Overview

The [Emergency Management Act 2005](#) (WA) (the Act) defines recovery as 'the support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community psychosocial and economic wellbeing'.

During, and following, an emergency, the City of Belmont is the closest form of governance to the local community and is in the best position to lead, manage and coordinate community recovery. State Government departments, supporting agencies, community members, community groups and community service organisations cooperate with, or directly support, the City of Belmont.

City of Belmont recognises disaster recovery is more than simply replacing what has been destroyed and rehabilitating those affected.

Disaster recovery is a complex, dynamic and potentially protracted process rather than just a remedial process.

For this reason, City of Belmont, and its Local Recovery Group (LRG), adopt the National Principles of Disaster Recovery, while also aligning these to strong recovery values when engaged in recovery activities.

2.2 Authority

This LRP has been prepared in accordance with the Act and endorsed by City of Belmont's LEMC and City of Belmont Council. The Plan is tabled for noting with the District Emergency Management Committee (DEMC) and State Emergency Management Committee (SEMC).

2.3 Purpose

To establish detailed planning, arrangements and processes to restore, as quickly as possible, the quality of life in an affected community so it can continue to function as part of the wider community.

2.4 City of Belmont Recovery Principles

City of Belmont Local Recovery Plan (LRP) and its Local Recovery Group (LRG) will be aligned to all aspects of recovery, incorporating the Australian National Disaster Recovery Principles that are considered central to successful recovery, being:

Understanding the **CONTEXT**

City of Belmont recognises that successful recovery hinges on an understanding of its diverse and rich community heritage within its local government area, having its own history, values and dynamics and will always consider them.

Recognising **COMPLEXITY**

City of Belmont acknowledges the complex and dynamic nature of both emergencies and the diverse nature of its communities.

Using **COMMUNITY-LED** approaches

City of Belmont recognises that successful recovery is based on involving the community and commits to being responsive, flexible and engaging to support communities into the future.

COORDINATING all activities

City of Belmont will be the hub for a successful recovery ensuring a planned, coordinated and adaptive approach between communities, partner agencies and industry, based on continuing assessment of impacts and needs.

COMMUNICATING effectively

City of Belmont understands the imperative of effective communication for successful recovery and will ensure the Recovery Communications Plan (see Appendix 3) is activated to ensure community and partners are always informed and heard.

Building **CAPACITY**

City of Belmont appreciates that successful recovery recognises, supports and builds on individual community and organisational capacity and resilience and, at every opportunity, will allow programs and processes to do this.

2.5 Recovery Values

City of Belmont will apply sound disaster recovery **Values** to all activities by:

1. Considering consequences of actions ensuring **NO HARM** to disaster affected communities
2. Providing **LEADERSHIP** for City of Belmont's communities
3. Recognising City of Belmont's key role is to foster **COLLABORATION** between partner agencies and community
4. **EMPOWERING** individuals and groups to effectively carry out recovery activities
5. **ACTING** as quickly as possible, however, planning for the **LONG-TERM** (see Value 1)
6. **TRANSITION** to normal services will be part of the Recovery Long-Term Strategy
7. **CAPTURING** lessons learnt for building capacity and resilience for the City of Belmont community

2.6 City of Belmont Vision & Values

The City of Belmont's vision is to be home to a diverse and harmonious community, thriving from the City's opportunities of its unique, riverside location.

- Teamwork** People building relationships to work together to achieve common goals.
- Leadership** To focus and inspire people to achieve.
- Integrity** To act in an honest, professional, open and accountable manner.
- Innovation** To create new, innovative and alternative ways of working.
- People Focus** To work safely. To communicate and consult in order to understand people's needs.

2.7 Community Development in Recovery

Community development is a process that empowers individuals and groups within a community to collectively identify and address their needs, challenges, and aspirations. This method is particularly valuable in recovery, highlighting the essential role of Local Government Community Development Officers.

Community Development Officers are skilled professionals in engaging residents, coordinating community initiatives, advocating for vulnerable/ higher risk populations, and fostering capacity building. Their expertise and knowledge uniquely position them to support and advise in recovery planning.

Key opportunities for Community Development Officers in recovery include:

Providing opportunities for disaster-affected people to 'have their say' and enable people to have power to influence (when they may feel powerless following the impact of an emergency)

Working 'with' people rather than 'doing things to' or 'for' them

Supporting people to come to terms with their different life circumstances and move forward into a new, changed reality, which may provide new adaptive socioeconomic and disaster preparedness opportunities

Source: [Community Recovery – Handbook 2](#) (Australia Disaster Resilience)

2.8 Threats

As the City of Belmont is diverse, several impacts need to be considered that may affect how the Plan is implemented in times of emergency:

Consideration	Season
Storm Season	March - October
Flooding Event	Riverine Flooding (Swan River)
Public Events: <ul style="list-style-type: none"> Perth Cup – 20,000 people Kidz Fest – 10,000 people Harmony Cultural Festival – 5,000 people Avon Decent Family Fun Day - 1,000 people Ascot Open Day - 7,000 people Ascot Summer Carnival - 7,000 people Ascot Racecourse Melbourne Cup - 20,000 people Ascot Railway Stakes Day - 16,000 people Ascot Winterbottom - 7,000 people Ascot Kingston Town - 6,000 people Christmas in the Park – 6,000 people Australia Day 	December October - November March 1 st Sunday in August October October to March 1 st Tuesday in November November November December Held in December 26 th January
Major Facilities: <ul style="list-style-type: none"> Ascot Racecourse Perth Airport (Domestic/ International) Perth Freight Terminal (Kewdale Rail) Belmont Forum 	All Year (Including Perth Cup) All Year All Year All Year
Road/ Rail Transport: <ul style="list-style-type: none"> Tonkin Highway Leach Highway Great Eastern Highway Orrong Road/ Graham Farmer Freeway Perth Freight Line, Kewdale Redcliffe Train Station 	All Year All Year All Year All Year All Year All Year
At Risk Persons in Belmont: <ul style="list-style-type: none"> 12 Aged Care Facilities 4 Childcare Centres 15 Schools 	All year All year All year
Bio Security and Health Hazards	All year

2.9 Scope

This LRP is limited to the boundaries of the City of Belmont. It details the recovery plan for the community and will not detail how individual organisations will conduct recovery activities within their core business areas.

The LRP is a support plan to City of Belmont's Local Emergency Management Plans and Arrangements. The Plan is a guide to managing recovery at a local level.

2.10 Geographic Location

The area covered by this Plan is the geographic area covered by the City of Belmont under the Local Government Act (1995). The City is located in the eastern part of the Perth metropolitan area, Western Australia, and lies approximately 7 kilometres from the Perth Central Business District (CBD). It is bordered by the Swan River to the north and east, providing a scenic waterfront and recreational areas.

Geographically, the City is characterised by a mix of residential, commercial, and industrial zones, with a notable concentration of businesses near key transport hubs, including the Perth Airport and the Great Eastern Highway. It is well connected by major roads, including the Tonkin Highway, Great Eastern Highway, and Graham Farmer Freeway, offering easy access to both the CBD and surrounding areas. The suburb is also served by public transportation, with bus routes and train services available, making it convenient for commuters.

The area is flat with few significant elevation changes. The Swan River also runs along the eastern boundary, providing waterfront access and scenic views. The City of Belmont is known for its diverse community, proximity to Perth's airport and convenient access to both city amenities and natural spaces.

The City of Belmont includes the suburbs of:

Ascot	Belmont	Cloverdale	Kewdale
Perth Airport	Redcliffe	Rivervale	

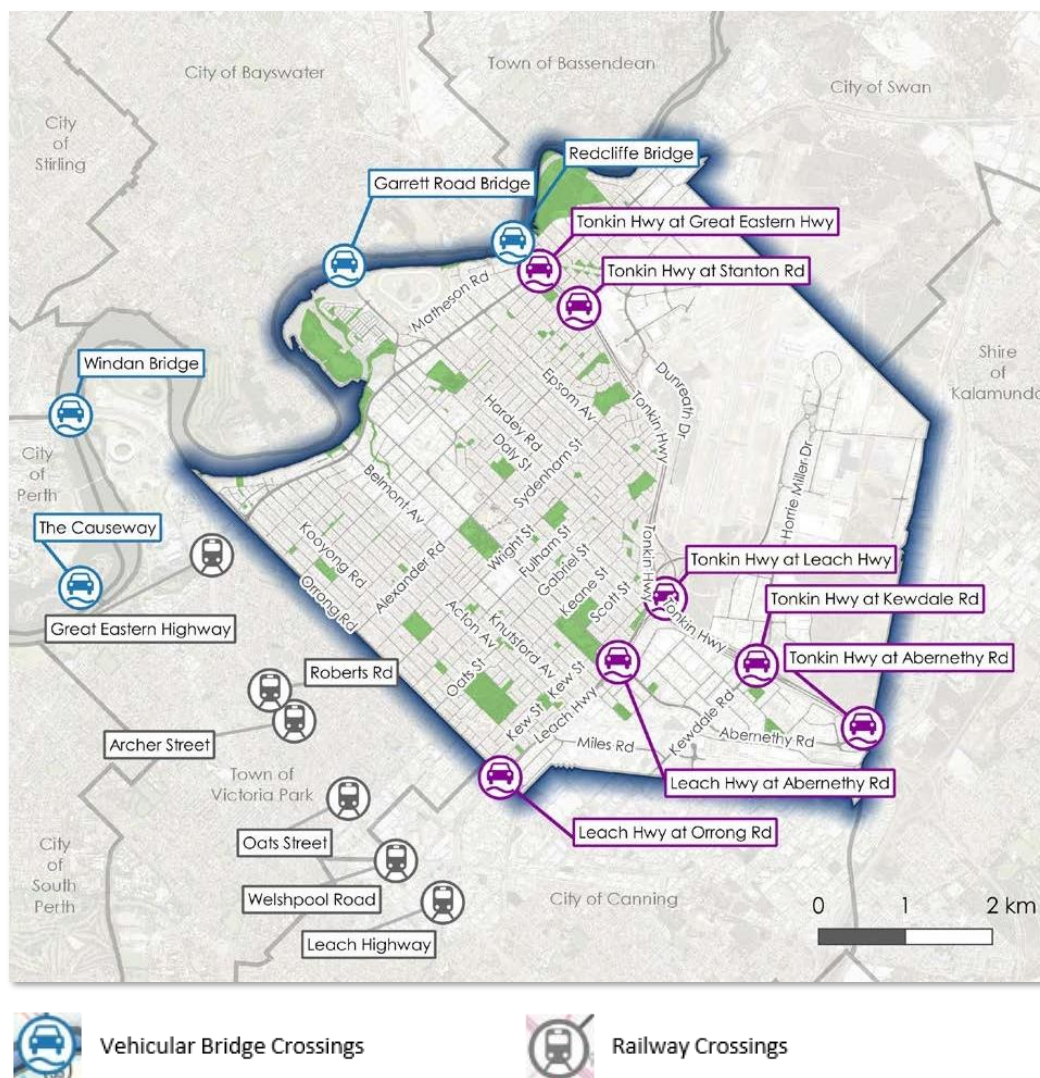

Figure 1: Location of the City of Belmont

3. Activation & Actions

3.1 Activation of Recovery

Activation of the LRP will occur upon CEO approval and based on advice offered by the HMA/CA, and the Local Recovery Coordinator (LRC). Assistance required for recovery will be assessed by:

The LRG Chairman, together with the LRC, is responsible for implementing the recovery processes of the LRP, once it is activated.

3.1.1 Emergency Management Phases

There are four phases of emergency management known as Preparedness, Prevention (or mitigation), Response and Recovery (PPRR). These are not distinct linear segments independent of each other but can overlap and run concurrently.

As illustrated in Figure 2, recovery starts at response and is the process of adjusting to the new normal after an emergency.

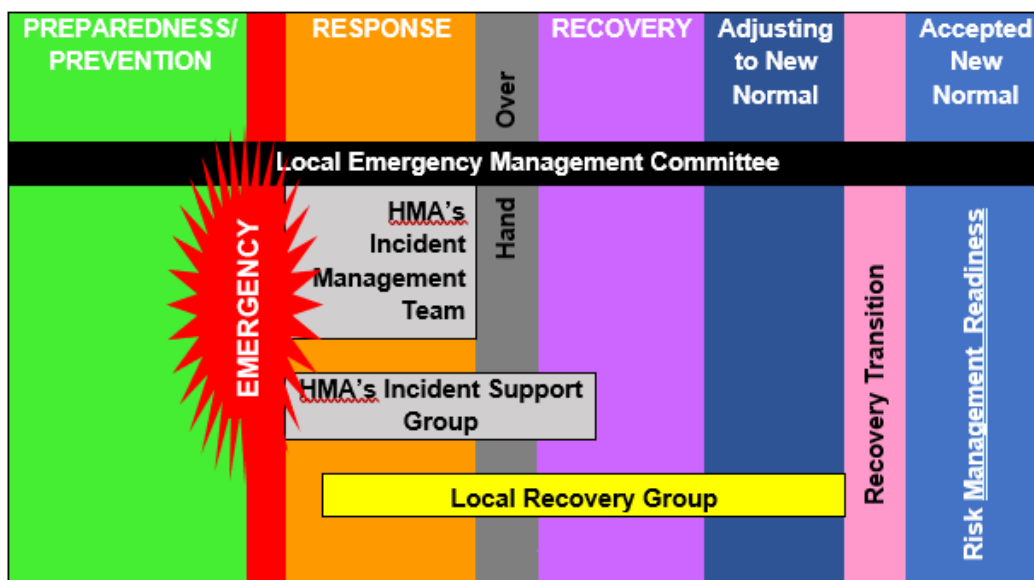

Figure 1: Phases of emergency management (PPRR)

3.1.2 Stages of Recovery

After a disaster event, an affected community needs to face a new reality and embark on their journey of recovery. Successful recovery is responsive and flexible, engaging communities and empowering them to move forward. The City of Belmont understands accompanying a community through all the phases of disaster recovery requires a long-term commitment.

Figure 2: Effect of Disaster on Ongoing Community Development and Interface with Relief and Recovery

Source: [Community Recovery – Handbook 2](#)

»»» ACTION

- HMA/CA, DBCA and LRC consults and advises City of Belmont CEO of recovery activation.
- Assessment of assistance is determined.
- Local Recovery Plan is activated.

3.2 Response to Recovery Responsibilities

The City of Belmont will initiate the LRP while response activities are still in progress, as key decisions during the response phase are likely to directly influence and shape recovery. Regardless of response engagement, as soon as possible the LRG will be assembled so it can be briefed on the emergency incident and to detail contingencies. This will allow for a smooth transition from response to recovery. The LRG also represents the community (advocates) to advise on priorities and impacts.

The Local Recovery group will:

Understand key impacts and tasks

Connect with key agencies and community

Include the LRC in ISG meetings from onset

Identify recovery requirements and priorities as early as possible

Handover of event management from response to recovery from the HMA/CA to the City of Belmont shall be formalised in line with HMA/CA responsibilities and procedures.

An Impact Statement (IS) is a key element of the handover process, and the HMA/CA is responsible for delivering this to City of Belmont's CEO.

The CEO has discretion accepting this handover of responsibility and can take advice from LRC and LRG, in consultation with HMA/CA. ***Acceptance should not occur unless the CEO and the LRC and LRG are fully aware of the extent of the effects on the community and are willing to take on the responsibilities.***

»»» ACTION

- Recovery initiated while response still in progress.
- LRC to attend ISG meetings and liaise with IC.
- LRG convened and briefed on incident ensuring coordinated recovery recommendations.
- CEO to sign off response to recovery handover with HMA/CA on completion of IS providing an acceptable and agreeable standard.
- CEO to sign off response to recovery handover with HMA/CA IS completed.

3.3 Impact Statement & Needs Assessment

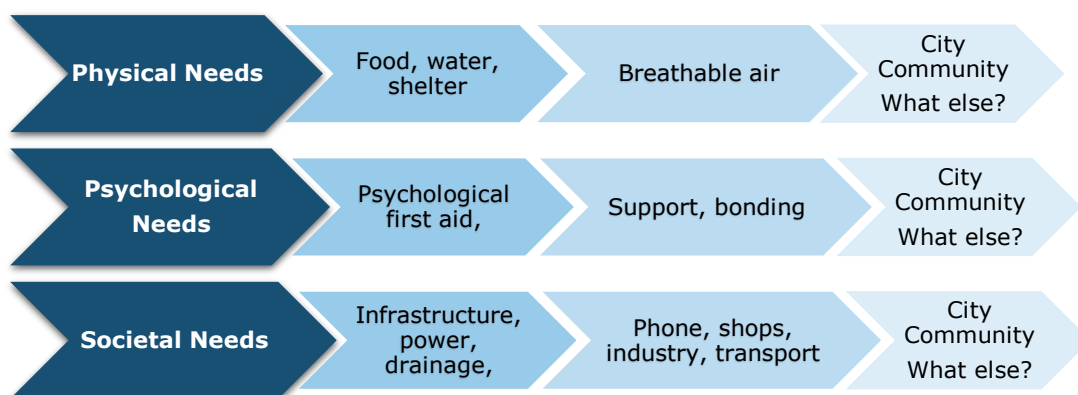

3.3.1 Impact Statement (IS)

The event CA will complete an IS in consultation with the ISG. It will contain a detailed description of the impact on the affected community and provides the LRC and the LRG with a starting point for recovery of individuals, community and infrastructure. The Impact Statement will be completed as recommended in the [State Emergency Management Procedure 5.4](#).

The State Recovery Team has developed an [Impact Statement Template](#) and [Impact Statement Guide](#) to assist Controlling Agencies in Level 2 or 3 incidents where there are impacts requiring recovery activities.

3.3.2 Needs Assessment

A **Needs Assessment** of the affected area should be completed as early as possible. Requirements of affected community will change over time and **NEEDS** reassessed periodically.

Needs:

Broadly be defined as:

What has been affected?	Require contact for further information?
What information is needed?	Best contact details?
What assistance is required?	Information on assistance for neighbours?

Needs Outreach:

Involves visiting people in their homes or temporary accommodation to provide access to core recovery information and services. Consider trained volunteers from Australian Red Cross (ARC) partner with the City of Belmont and other identifiable volunteers who speak directly to affected individuals to determine their requirements:

Establishes contact ASAP with the affected

Captures data to assist the LRG prioritise allocation of resources

Provides opportunity to share critical information with affected community

Attachment 3 in the (Emergency Event) **Recovery Communications Plan**, within **Appendix 3- of the Local Recovery Plan**

3.3.3 Sources of Information - Impact & Needs Assessment

The IS and Needs Assessment (NA) process must be done as soon as possible after the emergency. Sources that may assist in the collection of this data may include:

HMA/CA

Insurance assessors

Business associations (Chamber of Commerce)

City of Belmont Building Surveyors, Engineers and Environmental Health Officers and Rangers

Emergency Relief and Support agencies – identifying persons in need of immediate assistance

Australian Red Cross (ARC) has systems to register individuals presenting at Evacuation Centres and resources to assist in outreach activities and will be activated by HMA/CA

Outreach Needs Assessment form can be found at:

(Local Recovery Plan, Appendix 3 – (Emergency Event) Recovery Communication & Engagement Plan, Attachment 3)

»» ACTION

- Recovery initiated while response still in progress.
- LRC to attend ISG meetings and liaise with IC.
- LRG gathered and briefed ensuring recovery begins.
- CEO to sign off response to recovery handover with HMA/CA IS provided.
- Recovery initiated while response still in progress.
- LRG Outreach Needs Assessment will be actioned ASAP, when safe, after event.
- Red Cross contacted ASAP to establish partnership in recovery activities.

3.4 Operational Recovery Plan

Where significant reconstruction and restoration is required, the LRC/LRG should prepare an Operational Recovery Plan (ORP).

The ORP shall provide a full description and extent of community damage, both physical and human, and detail plans for restoration and reconstruction including community and development activities. See **Appendix 6** for an ORP template.

»»» ACTION

- **LRG/LRC to prepare ORP where significant reconstruction and restoration is required.**

3.5 Long-Term Recovery Strategy

The Recovery Process is most successful when it is designed to evolve, change and ultimately assist the community in returning to normal. This transition requires a comprehensive strategy that gradually integrates the recovery services into existing mainstream services. The Long-Term Recovery Strategy should be developed to achieve a holistic and enduring recovery for the community.

To build resilience in future emergencies, the economic environment, infrastructure and natural environment need to be considered. Where appropriate, the City of Belmont will develop a collaborative, comprehensive recovery strategy with and for the community. This will also incorporate how the community's needs have changed over time. A further outreach program may be instigated to check on the community's wellbeing.

»»» ACTION

- **City of Belmont to develop a collaborative, comprehensive and inclusive long-term community recovery strategy, which may include any changes in community needs and further outreach activities.**
- **City of Belmont to identify potential partnerships with existing community organisations and services and ascertain their capacity to support recovery process in the medium and long term.**

3.6 Managed Withdrawal

The City of Belmont and its LRG will provide a clear path in the transition of recovery activities, programs, services and communications to mainstream service providers and ongoing community development, while working towards maintaining the community's health and wellbeing.

»»» ACTION

- **City of Belmont will communicate via the LRG sub-committees when relevant service providers and agencies will be withdrawing services from the affected area.**
- **LRG to identify recovery programs that will 'phase down', 'phase out' or be 'handed over' to the community to continue.**

4. Operational Recovery Management

4.1 Management Structure

Full details of the Management Structure and Sub-Committee functions can be viewed in **Appendix 1**.

4.2 Local Recovery Group (LRG)

The LRG will coordinate and support local management of the recovery processes within the community, subsequent to a major emergency, in accordance with [State Emergency Management Policy](#) and Local Recovery Plan (LRP). Local Recovery Group (LRG) membership will expand or contract depending on recovery and community needs and requirements.

4.2.1 Membership

Chairperson	City of Belmont CEO/Mayor
Local Recovery Coordinator	LRG Representative, as appointed by the CEO
Executive Officer	City of Belmont CEO to nominate a Senior Officer
City of Belmont and Town of Victoria Park LEMC members	LEMC – members are required
State Government	Relevant government agencies and other statutory authorities will nominate their representatives to be members depending on incident type. Recommended: <ul style="list-style-type: none"> • HMA/CA (initially) • Department of Fire and Emergency Services (initially) • WA Police (initially) • Department Biodiversity Conservation & Attractions • Department of Communities • Lifelines • Main Roads WA • St John Ambulance Service (initially) • Department of Health • Department of Food and Agriculture WA • Insurance Council of Australia
Non-Government Organisations	ARC, local service clubs, aged care, schools, others as required
Identified Community Members	To be identified depending on event and location

4.2.2 Functions - Local Recovery Group.

Appoints key positions within the LRG
Establishes sub-committees as required
Assesses requirements for recovery activities relating to physical/psychological/social wellbeing of the community, along with economic, infrastructure and natural environment with assistance from partnering agencies
Develops an ORP to coordinate a recovery process that considers: <ul style="list-style-type: none"> • Long-term planning and goals for City of Belmont • Assessing recovery needs and determining recovery functions still required • Developing a timetable, identifying responsibilities for completing major functions
Needs of youth, aged, disabled, culturally linguistically diverse (CaLD)
Allowing full community participation and access
Allowing monitoring and reporting of the recovery process
Facilitates provision of services, exchange of public information and acquisition of resources
Negotiates effective use of available resources and support from State and Commonwealth
Monitors progress of recovery, receives periodic reports from recovery agencies
Ensures a coordinated multi-agency approach to community recovery
Makes appropriate recommendations, based on lessons learnt, to the LEMC to improve the community's recovery readiness and planning

4.3 Community Involvement – Cultural & Diversity Inclusiveness

The City of Belmont is a diverse and harmonious community with a strong emphasis on relationships, honesty and a crucial focus on community needs. During the City's recovery, including priorities, strategies and decision-making, the City will strive to involve the affected community's values and differences.

Key stakeholders and delegates will be chosen from the community to ensure broad representation. These delegates may be included on relevant LRG sub-committees, depending on the emergency's nature and effect.

When threatened or affected by an emergency, all community members are encouraged to be actively involved in their own and shared recovery. To assist community efforts, formal recovery agencies will provide structured support, communications and coordination.

4.4 Local Recovery Group Sub Committees

Depending on the size of an emergency, sub-committees may be established to assist LRG by addressing a specific component of the recovery process. Each sub-committee will report its activities, through its nominated Chair, to LRG. For a full list of functions of various sub-committees see **Appendix 1**.

4.5 State Government Involvement

During the recovery process, the State government may provide support and assistance to the City of Belmont. The structure of the State Recovery Coordination is shown below.

4.5.1 State Recovery Coordinator/State Recovery Controller

Figure 3: State Government Coordination Structure

Note: Refer Appendix 1 – City of Belmont Local Recovery Group Management Structure and Functions Page 2, regarding the City’s sub-committee structure.

The **State Recovery Coordinator (SRC)** supports a whole of government approach and coordinates the maintenance of the State recovery arrangements and plans, through the SEMC recovery sub-committee.

The SRC supports the operation of State level recovery coordination through the State Recovery Coordination Group (SRCG).

The Premier appoints the **SRC**, this is done when an emergency affects several communities, is ongoing, requires State level assistance to resolve issues and needs a regional coordination approach.

4.5.2 State Recovery Coordination Group

The SRCG is responsible for coordinating State level recovery in complex or prolonged recovery operations and develops a state level operational recovery plan. Its effectiveness must be evaluated after the State level recovery coordination process has occurred.

»»» ACTION

- **City of Belmont will establish an LRG management structure relevant to event size and complexity.**
- **LRG will establish membership from City of Belmont staff, supporting agencies and community members.**
- **LRG will operate within recognised functions and relevant sub-committee structure.**
- **LRG will actively encourage and invite community participation within the LRG.**
- **LRG will actively engage with State Government to maximise recovery resources and synergies between Local and State recovery activities.**

5. Financial Management

5.1 Financial Management

5.1.1 Insurance

The owner has primary responsibility for safeguarding and restoring public and private assets affected by an emergency. City of Belmont's assets are registered for insurance and financial reporting in line with the Department of Local Government, Sport and Cultural Industries Integrated Planning and Reporting Asset Management Guidelines.

5.1.2 Financial Records

The City of Belmont will assign records/invoices of costs associated with an emergency to specific cost centres. This ensures accurate records associated with the recovery process, are easily identifiable and accessible at any time.

5.1.3 Internal Finance

Responsibilities for expending City of Belmont funds:

Where possible, expenditure of funds should be discussed with the CEO or nominated senior officer. If a senior officer is nominated, personnel within the sequence guide activations (**Appendix 4**) must be notified as soon as possible. The nominated senior officer must have an appropriate authorisation level required to enable funds to be spent. (**Refer to Appendix 2 – Recovery Roles and Responsibilities of City of Belmont Staff**)

»»» ACTION

- All invoicing and costs related with the emergency is allocated against emergency cost centres.
- CEO and/or nominated senior officer have authority to expend funds on emergency event.

5.2 Financial Assistance

The State Emergency Management Policy

State Emergency Management Policy (SEMP) Section 5.12 outlines the responsibility of the HMA/CA to meet costs associated with an emergency.

Financial Assistance in Recovery

The owner has primary responsibility for safeguarding and restoring public and private assets affected by an emergency. Government recognises that communities and individuals do not always have resources to provide for their own recovery and financial assistance is available in some circumstances. Information on these relief arrangements can be found in the State Emergency Management Plan for State Level Recovery Coordination ([SEMC EM Plan Section 6.10](#)).

5.2.1 Disaster Recovery Funding Arrangements – Western Australia (DRFAWA)

[Disaster Recovery Funding Arrangements-Western Australia](#) (DRFAWA) is an arrangement between the State and Commonwealth. It provides certain measures to support relief and recovery efforts following a disaster deemed 'eligible'.

To be eligible, it must be a natural disaster or terrorist act for which:

- A coordinated multi-agency response is required
- State expenditure exceeds the small disaster criterion (\$240,000 not including insurance related expenditure), and
- It must be a terrorist event or one of 10 specific natural disasters.

Once the emergency has been determined as a large-scale costly event, City of Belmont shall immediately contact the WA State Administrator of DRFAWA.

DRFAWA Officers can be contacted via:

Email: drfawa@dfes.wa.gov.au
Phone: 1800 920 659
Website: [Recovery Funding - Department of Fire and Emergency Services](#)

5.2.2 Premiers Natural Disaster Recovery Fund

Premier's Natural Disaster Recovery Fund will help bridge the gap of existing support mechanisms funded through Local, State and Commonwealth Government allocations, by tailoring support to the needs of the specific community and assessing applications and allocating funds in a timely manner.

The new recovery fund, (will vary up to \$20,000 depending on the cohort and assessed need), will provide financial support to individuals, households, local businesses and community groups facing ongoing disruption and losses as they recover from natural disasters. The new recovery fund can be activated in addition to the Premier's Relief Payments, which are made available following significant natural disaster events and offer immediate financial assistance to residents to go towards paying for items such as food and clothing.

Funds will be distributed by partners, The Australian Red Cross and the Western Australian Council of Social Services (WACOSS) following an assessment process.

5.2.3 Premiers Relief Payments

The Premier's Relief Payment aims to help Western Australians affected by emergencies by providing financial assistance to cover expenses like food, clothing, personal effects, transport, and emergency accommodation.

Full Payment: A one-off payment of \$4,000 per household for eligible applicants whose home was destroyed or suffered severe damage and is uninhabitable.

Partial Payment: A one-off payment of \$2,000 per household for eligible applicants whose home suffered partial damage.

Applications for the Premier's Relief Payment on the Department of Fire and Emergency Services website <https://recovery.dfes.wa.gov.au/#premiers-relief-payment>

5.2.4 Centrelink

When a major disaster has significantly affected individuals and families, the Australian Government may provide the Disaster Recovery Payment, a one-off, non-means tested payment to eligible adults (\$1,000) and eligible children (\$400). For more information, visit <https://www.humanservices.gov.au/individuals/help-emergency>

»»» ACTION

- On advice an emergency is an eligible event, and significant resources have been expended LRC will direct City of Belmont to contact DRFAWA Officers for advice and guidance.
- Premier Relief Payments and Recovery Funds can be Access as Required.
- In an eligible major disaster, LRC will assist affected individuals connect with Centrelink for assistance payments.
- For significant emergency events, immediately begin to track costs in case claims can be presented to DRFAWA.

6. Appeals, Donations & Volunteers

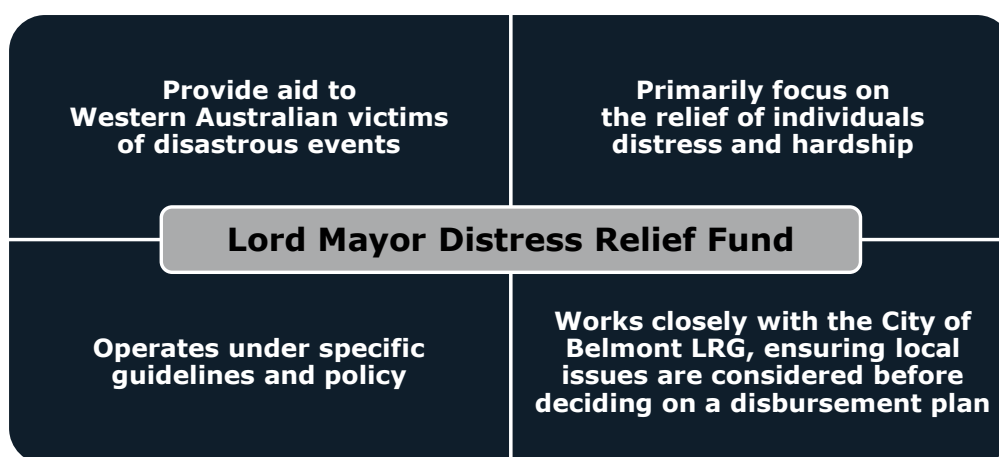

6.1 Appeals and Donations

6.1.1 Lord Mayors Distress Relief Fund

City of Belmont will advise and direct the distribution of monetary donations through the Lord Mayor's Distress Relief Fund (LMDRF).

The LMDRF primary focus is to:

LRG authenticates applications and provides recommendations to LMDRF for financial assistance to be disbursed. For more information see: <http://www.appealswa.org.au>

6.1.2 Donations of goods

At every opportunity, donations of physical goods should be discouraged due to significant difficulties when managing physical items. Cash donations are easier to manage and provide the opportunity to use local services, which in turn assists with the recovery of local businesses.

View the [National Guidelines for Managing Donated Goods](#) for best practice management.

6.1.3 Donations of Cash

LRG will encourage the use of the LMDRF for cash donations and if deemed necessary, a separate account will be opened.

[State EM Procedures](#) Pg. 176, Management of Public Fundraising and Donations

6.1.4 Non-Government Organisations (NGO) Assistance

NGOs may offer assistance by way of emergency relief funds, shelter or supplies. All offers or requests should be coordinated through the LRG. **See Section 7 for further details**

6.1.5 Donations of Service and Labour

The City of Belmont or its LRG should coordinate any donations of services/labour to assist with recovery.

6.1.6 Managing Spontaneous Volunteers

Spontaneous volunteers may emerge offering support and assistance to the affected community. In the first instance, the City of Belmont and its LRG will determine the process to deal with this situation and if support agencies are required to assist managing volunteers.

The likely sources of volunteers are:

Community groups	Various sporting and social clubs
Members of the public	Religious organisations

Volunteers attached to organisations and service clubs should be covered under the Work Health Safety Act 2020 and, therefore, have work health and safety duties.

For more information refer to the [Work health and safety for volunteer organisations guide](#).

»»» ACTION

- **On advice of eligibility following a disaster, LRC will direct City of Belmont Officers to contact LMDRF for advice and guidance.**
- **Spokesperson to advise that City of Belmont will not accept donations of goods.**
- **All financial donations will be direct through the LMDRF.**
- **Offers of assistance will be directed to LRG.**

7. Emergency Relief Organisations & Volunteers - (Not for Profit)

7.1 Australian Red Cross

The Australian Red Cross has over `100 years' experience of dealing with people in crisis.

A wide range of helpful resources can be found on the [Australian Red Cross](https://www.redcross.org.au/) website to help communities prepare for, respond to, and recover from disasters.

7.2 Disaster Relief Australia

Disaster Relief Australia (DRA) unites the skills and experiences of Aust. Defence Force veterans, emergency responders and motivated civilians to deploy Disaster Relief Teams throughout Australia. DRA operates nationally at disaster relief and recovery operations. When deployed, DRA integrates into existing emergency management arrangements.

DRA can operate independently or as part of an integrated task force offering capabilities and services:

Work order management	Home repairs
Spontaneous volunteer management	Route clearance and property access
Incident management	Medical & health support to vulnerable communities
Damage and impact assessments	Aerial damage assessment and mapping
Debris management and restoring access	Resilience and capacity building
Logistics management & humanitarian aid	

For further information on how DRA can support and enhance community recovery activities for local governments, following an emergency, contact Annette Turner Duggan, Disaster Relief Team Manager WA, at Annette.Turner-Duggan@disasterreliefaus.org or 0411 252 388.

7.3 Rapid Relief Team

Rapid Relief Team (RRT) delivers hope and relief to people across the globe. Whether it be fire, flood or humanitarian need, RRT expands their support services to meet the need at hand. Their mission is to serve people with care and compassion in their time of need.

Contact details action.au@rrtglobal.org website address <https://www.rrtglobal.org>

7.4 Emergency Volunteers WA

Emergency Volunteer WA (managed by Volunteering WA) is the peak body for volunteering in Western Australia. Their role is to connect people to community groups who need help outside of formal frontline emergency services roles.

Volunteering WA is a member of the State Emergency Relief and Support Committee (SERSC)

During times of crisis, Volunteering WA may be activated dependant of the Dept. of Communities needs to support the community, by recruiting volunteers and directing offers of gratuitous support from the community.

For more information and registration contact at:
emergency.volunteer.org.au

»»» ACTION

- **LRG will refer managing the volunteers to local service clubs and support organisations.**
- **LRC and LRG will give consideration to requesting volunteer agency assistance.**
- **LRG will refer volunteers to Emergency Volunteering at <https://emergency.volunteer.org.au> and local service clubs and support organisations.**

8. Facilities & Resources

8.1 Hazard Management Agency Response Resources

The HMA is responsible for certain resources and will determine which are required to combat the hazards.

8.2 City of Belmont Contacts & Resources and Assets Directory

The 'City of Belmont Emergency Contacts and Resources Directory' can be found in City of **Belmont's Local Emergency Management Arrangements General Plan - Appendix 4.**

This document is reviewed and updated quarterly at each LEMC meeting and contains:

City Emergency
Contact Details

Contact details of
Service Providers

Contacts details for
Resources

8.3 Community Recovery Facilities Recovery Centre & One-Stop-Shop

The purpose of a **Recovery Centre** (RC) and a **One-Stop-Shop** (OSS) is to bring together all agencies involved in the recovery process to ensure effective communication and coordination of resources, information, and tasks.

The LRC will decide where to establish the RC (which could be ongoing for a significant length of time) and the OSS (usually immediate and shorter length of time), which will depend upon the location, extent, and severity of the emergency. Alternative centres will be explored as required on availability of premises following an event.

The following locations have been identified as a suitable RC:

Venue	Address	Contact	Facilities
Belmont Civic Centre Rivervale Room - Primary	215 Wright Street, Cloverdale	(08) 9477 7222	Meeting room, internet, laptops, kitchen, whiteboard, projector, photocopier.
Belmont Operations Centre Training Room - Secondary	180 Planet Street, Carlisle	(08) 9477 7222	Meeting room, internet, laptops, kitchen, whiteboard, projector, photocopier.

Depending on the incident's severity, the OSS may be established to provide a central location for the public to receive assistance from all the relevant agencies in the short term. The OSS should be located as close as possible to the affected community area. Often the nominated evacuation centre may make a natural transition into the OSS. Where this option is not viable, other facilities should be considered in consultation with the Department of Communities and other relevant stakeholders.

Guidelines for establishing the RC and OSS can be viewed at **Appendix 7**.

»»» ACTION

- **LRC/ LRG to determine location for RC and establish as soon as possible.**
- **OSS to be established immediately following event and located appropriately.**

8.4 City of Belmont & Recovery Staff

8.4.1 Staff considerations

The City of Belmont must continue to fulfil its critical service obligations to the community while considering the demands of recovery operations on staff to ensure continuity of regular business processes.

8.4.2 Staffing levels

Recovery operations can be complex and lengthy and depending on the nature of the event, some recovery services may be required for months or years, which may require additional staff being employed.

City of Belmont must ensure availability of adequate staff and, if necessary, employ additional staff. If appropriate, forward a request for assistance to the LRG for consideration.

(See *Local Emergency Management Arrangements - General Plan - Appendix 12 MOU Agreements*).

8.4.3 Stress & fatigue

Throughout the recovery process, senior staff must consider and monitor fatigue, stress and pressure on staff; make allowances for any staff members who live in the affected community and have been personally touched by the situation. City of Belmont management should consider additional support for staff, depending on the disaster's nature and impact.

Senior staff should access the City of Belmont current Employee Assistance Programs for staff as necessary.

8.4.4 Staff communication

Regularly brief staff to keep up to date with all activities and recovery progress. Disseminate situation reports throughout the workplace. As staff interact with community members every day, they can relate the City and LRG's current extensive activities and actions.

The City of Belmont will arrange a formal debriefing for all staff as they transition from recovery back to normal duties.

»»» ACTION

- **City of Belmont staff to be regularly briefed on current situation and activities within recovery.**
- **Stress and fatigue of City of Belmont staff to be monitored and assistance provided where appropriate.**
- **As soon as possible, determine increase in staffing level to meet demands (refer 1.8.1).**

9. Roles & Responsibilities

9.1 Local Emergency Management Committee (LEMC)

City of Belmont's LEMC is a planning committee with the role of developing local emergency management plans (arrangements) for its district.

To assist City of Belmont, manage its recovery activities, during the response phase, some members may be part of the ISG while also forming part of the LRG.

9.2 Local Recovery Coordinator (LRC)

City of Belmont's LRC has been appointed in accordance with the [Emergency Management Act 2005](#), Section 41(4).

A deputy has also been appointed and trained to undertake the role in case the primary appointee is unavailable when an emergency occurs. See **Appendix 2**.

9.3 Local Recovery Group (LRG)

City of Belmont's LRG is the strategic decision-making body that oversees the recovery process. The LRG has a key role in coordinating recovery activities to rebuild, restore and rehabilitate the social, built, economic and natural environments of the affected community.

LRG is formed from LEMC members responsible for specific recovery and restoration tasks, support organisations, non-government organisations and significant community representatives.

9.4 City of Belmont Roles & Responsibilities

A comprehensive list of the LRC's duties, roles and responsibilities for disaster recovery and identified City of Belmont staff can be viewed at **Appendix 2**.

9.5 External Agencies Recovery Roles & Responsibilities

The WA State Government along with non-government organisations should provide a range of services and resources to the recovery effort and should be used wherever possible.

9.5.1 Department of Communities

The [State Emergency Management Plan](#), section 5.5.4, states Communities has the primary responsibility for coordinating the provision of Emergency Relief & Support services across six functional domains:

9.5.2 Higher Risk Persons and Groups (Vulnerable, Disadvantaged and Disabilities)

City of Belmont has a diverse range of community members at Higher Risk. These could be the vulnerable, disadvantaged and persons with disabilities. The City of Belmont will strive to ensure inclusion of this group of community members being well considered in recovery efforts.

All community members at Higher Risk, are encouraged to have a Person-Centred Emergency Prepared Plan in place. More information around P-CEP can be found at: <https://collaborating4inclusion.org/pcep/pcep-tools/>

Further information can be found within the City of Belmont Higher Risk Persons & Groups Plan including community contacts and supporting agencies, found in: **Local Emergency Management Arrangements - General Plan at Appendix 6.**

A complete list of agencies and their roles and responsibilities can be viewed in the [State Emergency Management Plan](#) at [Appendix E](#).

»» ACTION

- All City of Belmont staff could be engaged in various stages of disaster recovery.
- Specific City of Belmont staff identified in this Plan should be familiar with the roles and responsibilities involved with disaster recovery.
- Dept of Communities is the lead agency in emergency relief and support.
- External agencies should be engaged and used wherever possible.

10. Communications

Recovery communication is the practice of sending, gathering, managing, evaluating, and disseminating information.

In an emergency and during the response phase, the HMA/CA manages communications.

The CA officially hands responsibility for communication to the local government leading the recovery complete with the IS, as the transfer of event management to recovery is conducted. The local government coordinates the recovery of the affected community, including communications.

Communities threatened by, or experiencing, an emergency have an urgent and vital need for direction and information. They need to know what is likely to happen (or has happened), what to do and what to expect. They also need to know what the authorities are doing.

10.1 Recovery Communications Plan

A template for the Recovery Communications Plan has been developed to guide recovery communications. It details a vision, mission, and direction for communicating with the affected community and is provided to the LRG.

The Recovery Communication & Engagement Plan can be found at **Appendix 3**.

10.2 Spokesperson/s

During recovery, City of Belmont's spokesperson will be the City of Belmont Mayor and or CEO. The CEO may delegate authority for specific person/s to act as a spokesperson.

»»» ACTION

- **The Recovery Communications Plan will be used to provide guidance in public information and communications.**
- **For further guidance refer Communication in Recovery Guidelines <https://www.wa.gov.au/government/document-collections/emergency-management-guidelines>**

11. Stand Down

Recovery doesn't have a definite end date; however, City of Belmont will consult with all interested parties to decide when it will resume normal service delivery. This decision will be made depending on the severity and nature of the emergency, and the effect on City of Belmont and the community.

11.1 Debriefing

The City of Belmont's Officer responsible for Human Resources will instigate a formal debriefing session(s) for all staff and through the Employee Assistance Program (EAP) as required, while City of Belmont transitions from recovery back to normal duties.

11.2 Evaluation

Under State emergency management guidelines, the one-year anniversary of the emergency marks the time when the local government must provide an evaluation report of its activities in recovery. ([State EM Policy](#) 6.10 - Review of Recovery Activities)

The LRC will provide the State Recovery Coordinator with a formal report that reflects on the recovery process undertaken by the City of Belmont and its LRG.

See **Appendix 11** Post-Incident Analysis, and **Appendix 10** Local Recovery Group Standard Reporting Template.

»»» ACTION

- **A formal Post Recovery Analysis will be held for LRG for evaluation and application of lessons learnt (see Appendix 11).**
- **A formal debrief will be held for City of Belmont staff for evaluation and application of lessons learnt.**
- **Assistance will be made available through EAP for any staff working in the recovery process.**
- **Formal report compiled by LRC for council and State Recovery Coordinator.**

Appendix 1

City of Belmont Local Recovery Group Management Structure and Functions

1.1 Initial Recovery Management Structure during Response phase

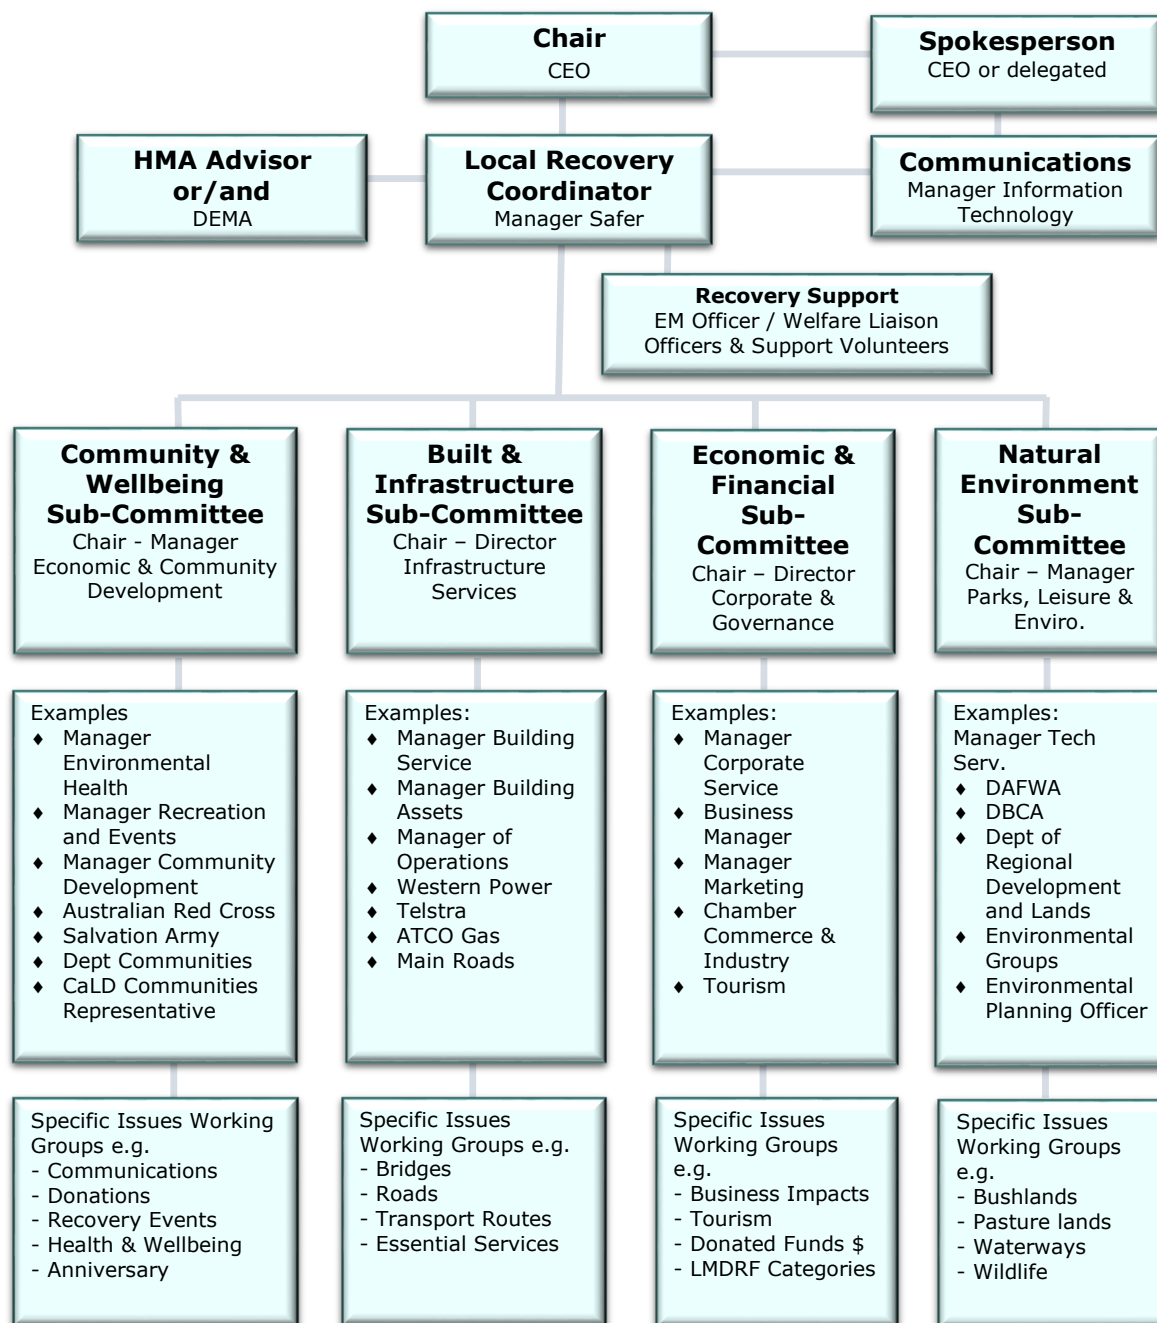

1.2 Partial Recovery Management Structure – Initial

(Depending on community impact and complexity of event)

1.3 Full Management Structure (Comprehensive/Complex Event)

1.4 Local Recovery Group Sub-Committee Functions

Social Community Wellbeing Sub-Committee

Functions:

Provides advice and guidance to assist in restoration and strengthening of community wellbeing post event

Facilitates understanding of needs of affected community in relation to its wellbeing

Ensures the affected community is informed and involved in recovery processes so actions and programs match its needs

Assesses and recommends medium and long-term priority areas to City of Belmont for consideration to assist with restoration and strengthening of community wellbeing

Assesses the requirement for personal support services in the short, medium and long-term

Facilitates resources (financial and human) as required to complement/assist existing local services

Monitors progress of local personal service providers and receives regular progress reports from agencies involved

Built Infrastructure Sub-Committee

Functions:

Assesses requirements for restoration of services and facilities with assistance from responsible agencies

Assesses restoration process and reconstruction policies, programmes, and facilitates reconstruction plans where required

Reports progress of restoration and reconstruction process to the City of Belmont Recovery Group

Assesses and recommends priority infrastructure projects assisting with recovery process in immediate, short, medium and long-term

Finance Economics Sub-Committee

Functions:

Provides advice and guidance to assist in restoration and strengthening of the City economy after the event

Makes recommendations to LMDRF on the orderly and equitable disbursement of donations and offers of assistance to individuals suffering personal loss and hardship, as a result of the event

Develops eligibility criteria and procedures by which payments from the LMDRF will be made to affected individuals which:

1. Ensure the principles of equity, fairness, simplicity and transparency apply
2. Ensure procedures developed are straightforward and not onerous to individuals seeking assistance
3. Recognise the extent of loss suffered by individuals
4. Complement other forms of relief and assistance provided by government and the private sector
5. Recognise immediate-, short-, medium- and longer-term needs of affected individuals
6. Ensure the privacy of individuals is protected at all times.

Facilitates disbursement of financial donations from corporate sector to affected individuals, where practical

Natural Environment Sub-Committee

Functions:

Provides advice and guidance to assist with restoration of natural environment post event

Facilitates understanding of needs of affected community in relation to environmental restoration

Assesses and recommends priority areas, projects and community education to assist with recovery process in immediate and short-term regarding restoration of environment including weed management and impacts on wildlife

Assesses and recommends medium and long-term priority areas to the City of Belmont for consideration to assist in the restoration of the natural environment in the medium to long- term

Appendix 2

Recovery Roles and Responsibilities of City of Belmont Staff

Local Recovery Coordinator

Manager Safer Communities

Forms part of Incident Support Group (ISG) to provide a coordinated response during an emergency

Facilitates and coordinates all recovery actions as directed by Local Recovery Group (LRG)

Advises and informs the community regarding all aspects of recovery as per communication strategy

Assesses community recovery requirements for each emergency in liaison with HMA to:

1. Provide advice to the CEO on requirements to activate Local Recovery Plan (LRP) and convene the LRG
2. Provide advice to the LRG

Undertakes the functions of the Executive Officer to the LRG

Facilitates the acquisition and appropriate application of materials, staff and financial resources

Manages resources required for an emergency disaster with assistance from Recovery Centre Coordinator

Coordinates local recovery activities, in accordance with plans, strategies and policies determined by the LRG

Monitors the progress of recovery and provides periodic reports to the LRG

Liaises with the State Recovery Coordinator on issues where State level support is required or where there are problems with local services

Ensures regular reports are made to the State Recovery Coordination Group on progress of recovery

Arranges a debriefing session for all participating agencies and organisations as soon as possible after stand-down including collating data developed throughout recovery for future reporting

Ensures all emergency events and related meetings are minuted and all Emergency Coordination Centre and Recovery Centre records are kept for 7 years for the coronial inquest and legal defence purposes

Chair

Local Recovery Group – CEO

- ✓ Provides information to the LEMC Chair on issues that need to be addressed from Authority's and LRG perspective

Chair

Local Emergency Management Committee – Coordinator Community Safety

- ✓ Identifies any issues that arise from the LRG and communicates to the relevant LEMC member for consideration and action

Recovery Support Officer

Executive Secretary.

- ✓ Provides administrative support as required to members of the LRC and LRG

City Of Belmont Liaison Officer

Manager PR & Stakeholder Engagement

- ✓ Liaises with the HMA and Communication Coordinator
- ✓ Ensures a consistent message is released to the community and internal staff

Recovery Centre Coordinator (Rcc)

Manager Economic & Community Development

- ✓ Develops Management Arrangements, including the Local Recovery Plan (LRP)
- ✓ Appoints a deputy
- ✓ Prepares, maintains and exercises Recovery Centre (RC)
- ✓ Monitors and reviews information relating to centres (e.g. location, facilities)
- ✓ Builds and activates a team to open and manage centre
- ✓ Disseminates information on location, functions and hours of operation to public in conjunction with the Communication Coordinator
- ✓ Accesses and authorises the City to commit resources to the centre
- ✓ Coordinates the presence of relevant external agencies
- ✓ Ensures all emergency events and related meetings are minuted and all RC records are kept for 7 years for the coronial inquest and legal defence purposes
- ✓ Works in partnership with HMAs and SEMC Secretariat, during non-disaster periods, to increase recovery awareness and promote recovery planning with key stakeholders

Recovery Communications Coordinator

Manager PR & Stakeholder Engagement

- ✓ Liaises with other relevant Hazard Management Agencies
- ✓ Ensures communication strategy is in place to share information internally and externally
- ✓ Writes and distributes media statements in line with LG policy
- ✓ Writes, produces and distributes promotional material
- ✓ Advises Management Team on media issues
- ✓ Assists with preparing protocols for dealing with the media
- ✓ Reviews & implements Recovery Communication Plan in consultation with the LRC & LRG

Work Health & Safety Officer

Manager Work Health and Safety

- ✓ Provides advice to all sections of the LRG on WHS Risk Management during emergencies
- ✓ Liaises with relevant external services or agencies in relation to WHS practices

Information Technology Support Officer

Manager Information Technology

- ✓ Ensures normal services continue as the demand potentially increases from an emergency
- ✓ Ensures IT equipment and resources available for Service Units requesting support and equipment

Community Services Coordinator

Coordinator Community Development

- ✓ Liaises with Dept. of Communities (Communities) Evacuation Centre Coordinator
- ✓ Assesses requirements for support services in short, medium and long-term
- ✓ Facilitates resources (financial and human) as required to complement/assist existing local services
- ✓ Monitors local service providers and receives regular progress reports from agencies involved
- ✓ Ensures maximum community involvement
- ✓ Ensures immediate and long-term individual and community needs are met
- ✓ Makes recommendations to the LRG

Community Family Services

Community Development Officer

- ✓ Ensures normal services continue as the demand potentially increases from an emergency
- ✓ Provides advice/progress to the LRG on issues affecting Children/Family services

Engineer Operations and Logistics

Manager Infrastructure Services

- ✓ Ensures normal services continue as the demand potentially increases from an emergency
- ✓ Assesses requirements for restoring services and facilities with the assistance of responsible agencies
- ✓ Assesses the restoration process and the reconstruction policies and programs and facilitate reconstruction plans where required
- ✓ Reports the progress of the restoration and reconstruction process to the LRG

Field Coordinator Supervisors

Manager City Facilities & Property

- ✓ Assists with operational response as requested by Engineering Operations Logistics

Financial Recovery Coordinator

Manager of Finance

- ✓ Acquires, distributes and accounts for funds
- ✓ Liaises with the LRG to identify financial implications of emergency event
- ✓ Committees established to manage donations, appeals, etc.
- ✓ Keeps records of all costs as a result of the emergency (cost centre to track \$)
- ✓ Liaises with Communities to gain access of potential emergency funding
- ✓ Liaises with State Officers after declaration made that activates the DRFAWA fund
- ✓ Acts as representative to ensure appropriate recuperation of funds spent

City Of Belmont Emergency Resource Officers

Rangers

- ✓ Assists Local Recovery Coordinator (LRC) as required

Economic Recovery Coordinator

Coordinator Economic Development

- ✓ Liaises with the Financial Recovery Coordinator to ensure funding is available for critical economical infrastructure affecting business operations
- ✓ Assists businesses with recovery following an incident
- ✓ Liaises with the business community to ensure immediate/urgent needs are addressed
- ✓ Assists with DRFAWA funding arrangements if required
- ✓ Liaises with insurance companies and provides assistance where required to fast track claims from businesses (for example, provide temporary local office space for insurance assessors)

Waste Services Officer

Coordinator Waste Management

- ✓ Ensures waste services continue as the demand potentially increases from an emergency

Health Risk Advisor

Coordinator Environmental Health

- ✓ Ensures normal services continue as the demand potentially increases from an emergency
- ✓ Provides advice/information to the LRG on issues affecting environmental health resulting from the emergency
- ✓ Evaluates/assesses properties affected by the emergency post event
- ✓ Liaises with Dept. of Health as required on behalf of the LGA

Supervisor Building Maintenance

Coordinator Building, Facilities and Operations

- ✓ Evaluates building structures following an emergency
- ✓ Assists with emergency permits
- ✓ Liaises with planning implementation, engineers and building practitioners

Building Structural Officer

Building Surveyor

- ✓ Evaluates/assesses building structures following an emergency
- ✓ Provides assistance to residents affected by a disaster with advice and processing of building plans

Business Risk Management Officer

Coordinator Business Planning, Improvement & Risk

- ✓ Develops a business continuity plan to ensure LG Business continues during and after the emergency/recovery process
- ✓ Advises on Risk Analysis of Recovery Plan and actions

Supervisor Parks Maintenance

Coordinator Parks

- ✓ Assists with an operational response as requested by LRG and Engineer Operations and Logistics

Appendix 3 - (Emergency event) Recovery

Communication & Engagement Plan

Publication date: 17/02/25

Overview

Project Context/ Background

<Brief outline of the details of the emergency event>

Strategic Alignment

The role of the City of Belmont during an emergency and subsequent recovery is to empower and support the community so it feels an active partner in its recovery. To have a strategy in place to manage and/or avoid any adverse public actions and/or reactions which relate to the recent emergency.

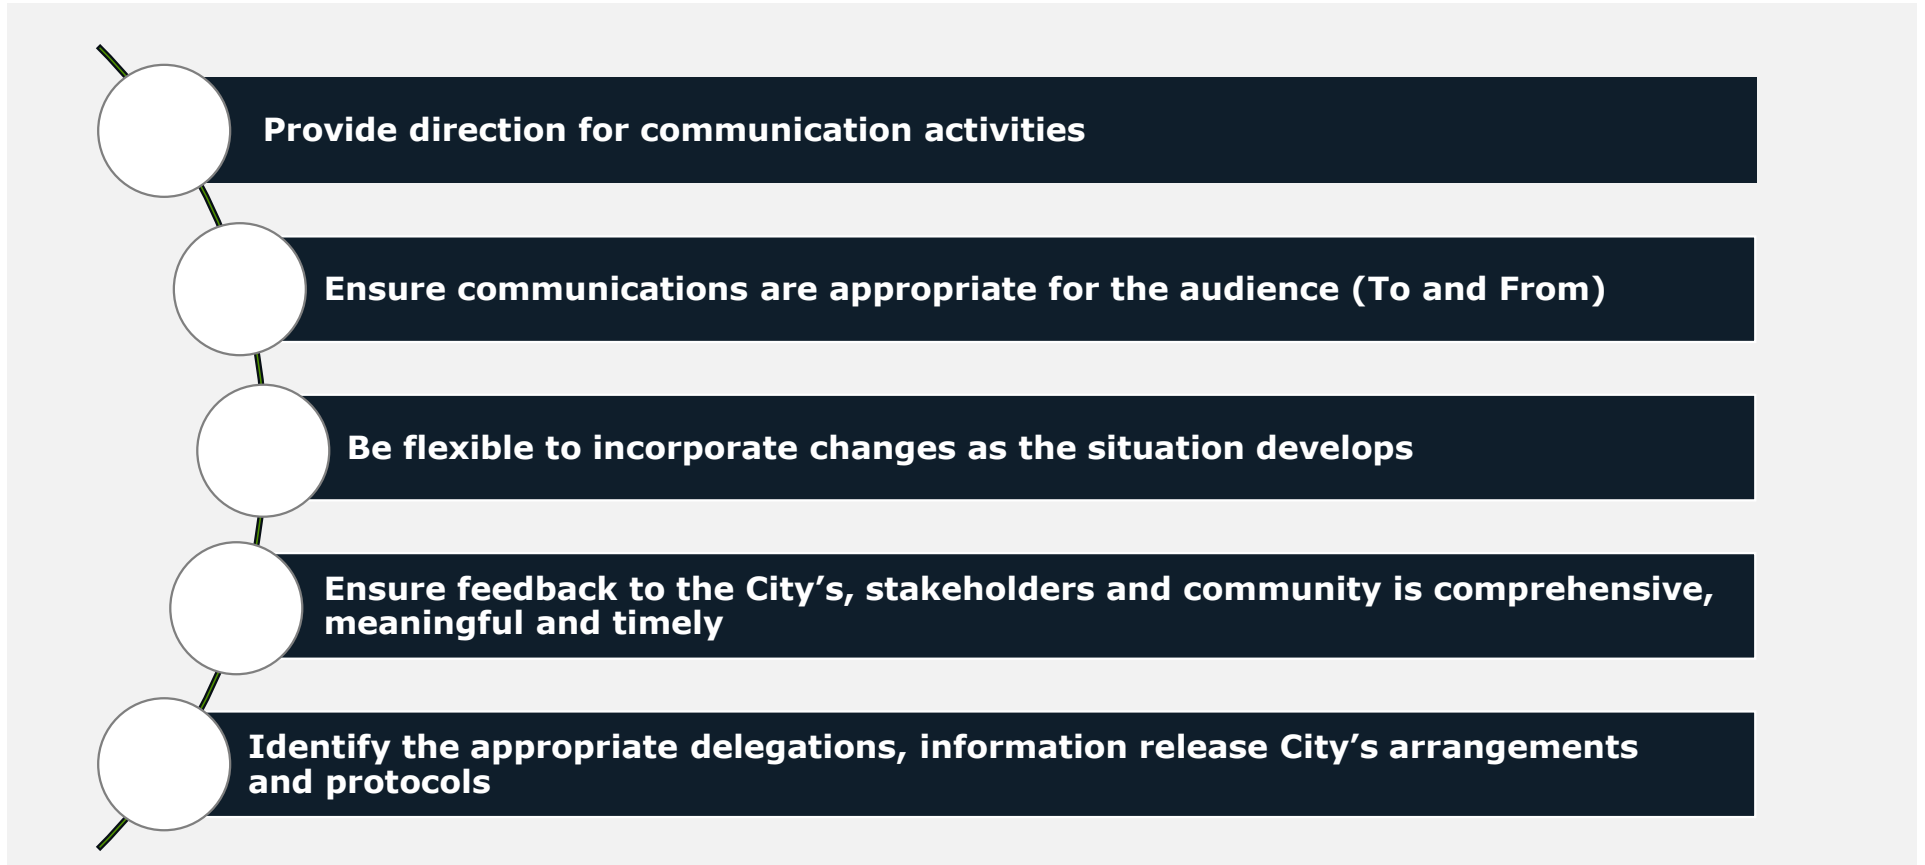

To achieve this we will:

- Provide widespread regular high-quality information to disaster affected community members and the greater community.
- Acknowledge the psychological challenges and complexities of communicating with a community that has been affected by the disaster.
- Encourage and promote two-way communication to better understand the community’s needs and concerns.

Engagement Overview

Objectives

Stakeholder Engagement Mapping

Stakeholder	Impact	Interest	Influence	Contact Description	Tactic
Primary audience					
Disaster affected community members	H	H	M	<ul style="list-style-type: none"> Reach those who have been directly affected and may be seeking assistance. Consider outreach and using this database. 	<ul style="list-style-type: none"> Provide recovery contacts and key information to aid decisions via outreach. City's website to be kept updated with recovery information.
Displaced persons	H	H	M	<ul style="list-style-type: none"> Displaced persons need to remain contactable. Use a variety of networks to reach people. 	<ul style="list-style-type: none"> Maintain master database of affected persons. Agencies to share information to build a clear picture of where people are and their contacts.
City of Belmont community	M	H	H	<ul style="list-style-type: none"> Reach those who like to be kept up-to-date on local news and happenings. Use existing community networks so all requests for support and assistance can be provided. 	<ul style="list-style-type: none"> City's Website/ Belmont Connect project page Recovery Newsletter Local Paper Community Radio TV Interviews Community Events Group Gatekeeper Networks
Recovery agency partners	H	H	H	<ul style="list-style-type: none"> Ensure a coordinated effort and that all messages provided to the community are consistent 	<ul style="list-style-type: none"> All messages coordinated through Local Recovery Coordinator's office.
Local recovery group and sub-committees	H	H	H	<ul style="list-style-type: none"> Provide information to the following committees: <ul style="list-style-type: none"> Finance Social Wellbeing Infrastructure Natural Environment 	<ul style="list-style-type: none"> Maintain spreadsheet database of all sub-committee meetings highlighting actions, time schedules, responsibilities and outcomes, which are available across four sub-committees
City staff and Elected members	M	H	M	<ul style="list-style-type: none"> Provide information about the challenges to enlist appropriate solutions and provide actions. 	<ul style="list-style-type: none"> Staff newsletter/Intranet information on what is 'happening' in recovery. Customer service information sheet for incoming enquiries.

Attachment 12.1.2 Local Recovery Plan

					<ul style="list-style-type: none"> Recovery information is a regular Council agenda item
Hard to reach community	H	M	L	<ul style="list-style-type: none"> Reach out to community that may not have visited recovery centres or attended community meetings and may not know help is available. 	<ul style="list-style-type: none"> Outreach conducted at interval: <ul style="list-style-type: none"> Immediately after impact 6 monthly follow up 12 monthly follow up Ensure special issue of Recovery News attached to rates notices. Consider phone outreach.
Affected businesses and their employees	H	H	M	<ul style="list-style-type: none"> Maintain communication with affected businesses. Provide information and assistance so businesses can continue to operate and employ staff 	<ul style="list-style-type: none"> Liaise with affected businesses. Engage key support agencies that aid the business community and ensure communication is encouraged
State & Federal govt agencies and reps	M	M	H	<ul style="list-style-type: none"> Keep governments informed of City's challenges to enlist appropriate assistance 	<ul style="list-style-type: none"> Ensure key strategies and actions undertaken are communicated to State/Fed. Gov't agencies to ensure common objectives and goals are met and a united front is projected for recovery.
Secondary audience					
Media agencies	M	M	H	<ul style="list-style-type: none"> Provide information to: <ul style="list-style-type: none"> Authorised State and local newspapers State and local radio State and local television 	<ul style="list-style-type: none"> Weekly newspaper updates. Monthly radio interviews updates. Encourage good news recovery stories for TV/Radio. Community events. Develop and manage an agreed reporting rhythm.
Business community	L	M	M	<ul style="list-style-type: none"> Keep the business community informed. 	<ul style="list-style-type: none"> Form working groups of affected businesses so they are hubs to distribute information.
Wider WA Community	M	M	M	<ul style="list-style-type: none"> Keep the wider community informed. 	<ul style="list-style-type: none"> Encourage wider syndication of good news stories and media releases.

Stakeholder Engagement Risk

Stakeholder	Potential Risks	Mitigation
All stakeholders	<ul style="list-style-type: none">Information overload	<ul style="list-style-type: none">Ensure information is fresh, different and interesting, e.g. consider news items found about other affected communities and their recovery.Ensure all information presented addresses a community need, thus minimising superfluous information.
All stakeholders	<ul style="list-style-type: none">Material poorly designed and ineffective in communicating key messages	<ul style="list-style-type: none">Design material so it is clear, easy to use and written in appropriate language for the chosen audience.
All stakeholders	<ul style="list-style-type: none">Material and information too late or too infrequent	<ul style="list-style-type: none">Have weekly or fortnightly deadlines.
All stakeholders	<ul style="list-style-type: none">Other agencies sending mixed messages	<ul style="list-style-type: none">Make sure all agencies are aligned and messages are consistent.
	<ul style="list-style-type: none">	<ul style="list-style-type: none">
	<ul style="list-style-type: none">	<ul style="list-style-type: none">
	<ul style="list-style-type: none">	<ul style="list-style-type: none">

Communications Overview

Key Messages

Messages must be consistent with the overall purpose of the communication and meet the requirements of the City, stakeholders and the community.

Key messages to be delivered to both primary and secondary target audiences are:

Message: What do you want your audience to think, feel or do?	Purpose: Does this message meet your communication objective?
✓ All concerns/issues, whether great or small, matter to the City and are being addressed.	Objective 4, 3
✓ Current situations and information received will be acted upon.	Objective 2, 4
✓ The whole community is being informed and kept up to date.	Objective 4
✓ The community is an active partner in recovery and is consulted on decisions and activities that are organised.	Objective 1, 3
✓ The community is empowered by the information received and is encouraged to be self-sufficient to build capacity.	Objective 1

Strategies and Tactics

Channel	Stakeholder	Responsible	Status	Tactics and Costs
Phase one – on the same page				
Internal communications	Staff		ongoing	<ul style="list-style-type: none"> Regular updates pointing to where to find more information. Enewsletters, briefings etc...
Elected member communications	Elected members		ongoing	<ul style="list-style-type: none"> Regular updates pointing to where to find more information. Enewsletters, briefings etc...
Local recovery group communications	Recovery Group		ongoing	<ul style="list-style-type: none"> Regular updates pointing to where to find more information. Enewsletters, meetings, shared files etc...
Collate contact information	Disaster affected		ongoing	<ul style="list-style-type: none"> Gather contact information on those affected in accordance with privacy standards. Save in secure ECM folder
Belmont Connect site	All		ongoing	<ul style="list-style-type: none"> Created to house current information on recovery and feedback
Phase two – engage				
Signage/ posters	All			<ul style="list-style-type: none"> Information on recovery meetings and where to go for info
Media responses/ statements and interviews	Media agencies			<ul style="list-style-type: none"> Following City's media protocol and Crisis Communications Plan
Postcards/ letters	Community			<ul style="list-style-type: none"> For letterbox drops of affected areas/ invitations to meetings
Recovery Enewsletters	Community			<ul style="list-style-type: none"> Sent to City's enews database – 11,000 residents
Website news	Community			<ul style="list-style-type: none"> Updated regularly and linking to Belmont Connect site
Belmont Connect engagement tools	Community			<ul style="list-style-type: none"> Feedback mechanisms – monitored and responded to.
Feedback/ question forms	Community			<ul style="list-style-type: none"> Hardcopy for those with no digital access.
Outreach activities	Hard to reach			<ul style="list-style-type: none"> Utilise existing networks to help spread the word and try to get in touch with hard to reach
Recovery community meetings	Community			<ul style="list-style-type: none"> Gather community feedback on recovery activities.

Other channels and tactics to be added				•
Total costs				

To be updated as required.

Evaluation

Are our communications and engagement tools successful in meeting the objectives?

Channel	Review mechanisms	Review notes/ Opportunities for Improvement
Emergency/Disaster Event Recovery Newsletter	Register any feedback into Belmont Connect and self-assess after publication	
Media coverage	Distribute via weekly media monitoring reports. Discuss with CEO at weekly media meeting	
Belmont Connect and website news	Assessing page visitors, visits and contributions Feedback received	
Community meetings	Attendee numbers Notes of the events published Post event feedback survey	
Social media	Monitor City’s social media and those of other community networks if available	

Communications Plan Review

This plan is to be updated regularly by communications lead as communications are required and approved by Local Recovery Group Chair or CEO. It will be saved in a shared location for easy viewing and to ensure correct version control.

Attachment 4 – Community Recovery Meeting Guidelines

Community Recovery Meeting

We promise to listen to you and do our best to answer your questions honestly and tell you exactly what we know. There will be many questions that we don't have answers to yet. Please accept this is our reality and we are doing everything we can to get these questions answered by the responsible agencies.

Unity at Community Meetings – Together we stand

- ✓ Let's keep the right thing at the centre: let's do the very best we can for our recovery as a community
- ✓ Together we are better and stronger: let's keep the spirit of community strong (and your City of Belmont Park workers are part of that community)
- ✓ Treat each other with dignity and respect: everyone's concerns matter and are equally important
- ✓ Keep it as civil as you possibly can: abusive language is not acceptable and is not helpful
- ✓ Listen respectfully to each other and try to understand the other's point of view
- ✓ Only one person to speak at a time... we can only hear one person at a time
- ✓ Say what you need, and what you need to know
- ✓ Constructive suggestions are welcomed... everyone can be part of the problem-solving process
- ✓ It is OK to leave the room at any point. We have Councillors here who can help you if you feel overwhelmed

Appendix 4(a)

Recovery Operational Sequence Guide/Checklist

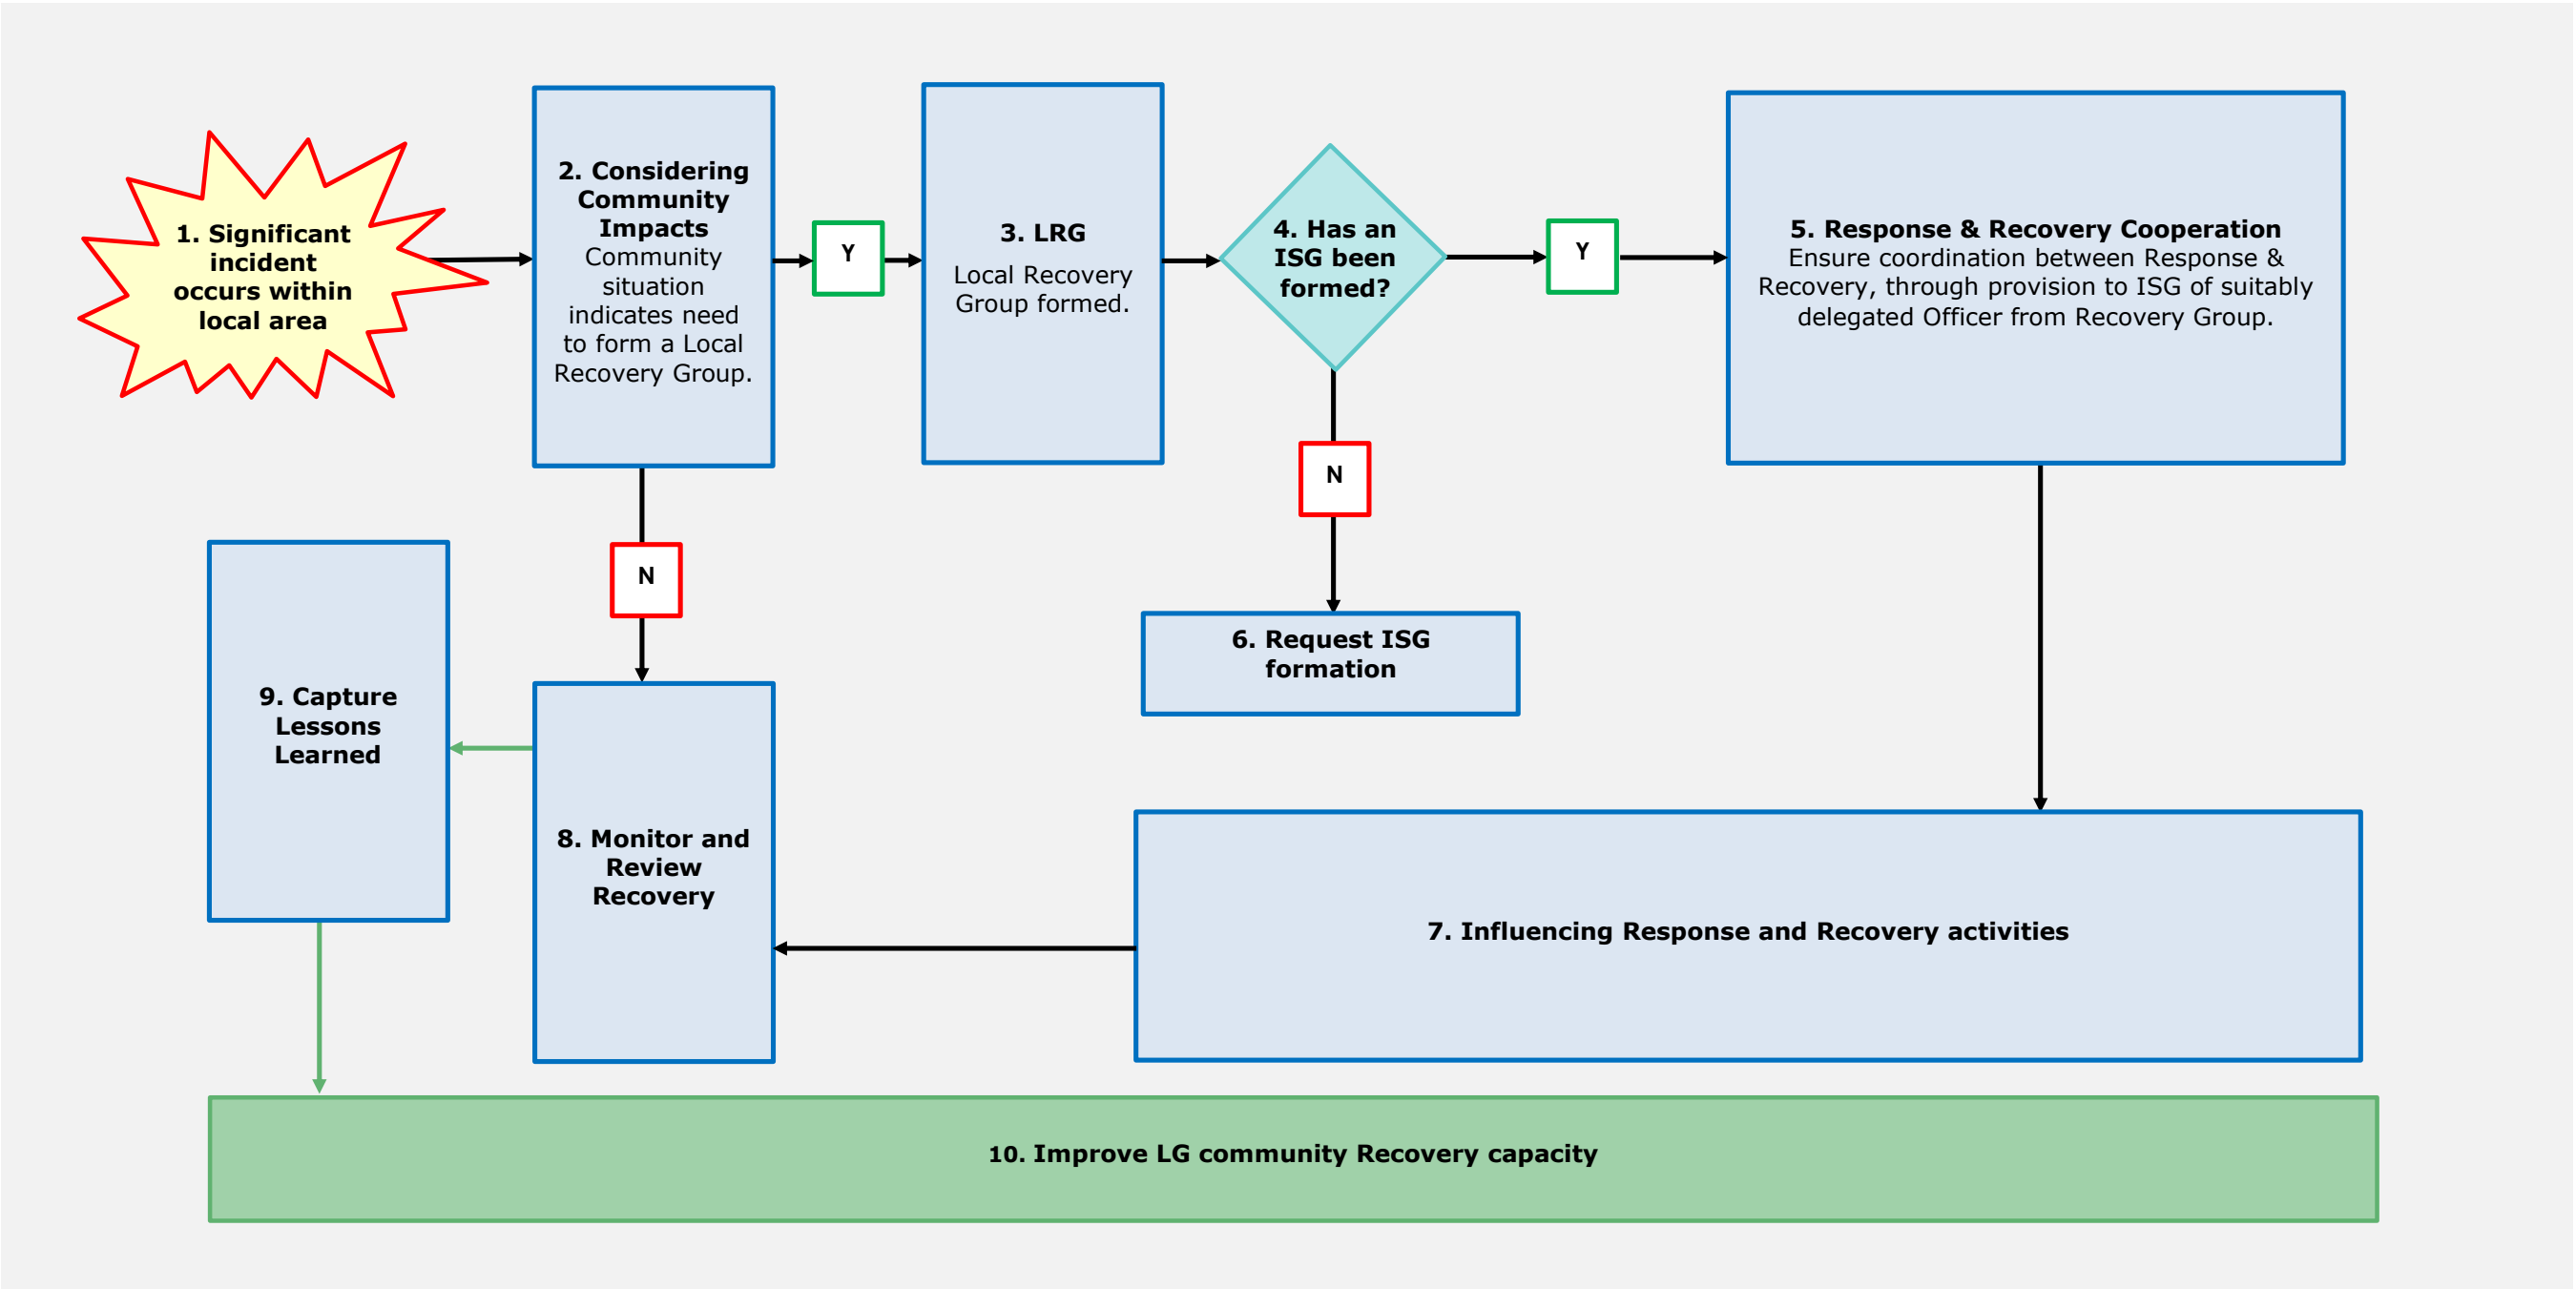

Situation	Organisation/Action
Alert (Transition) Advice of an emergency with potential to require local coordination of recovery activities	HMA/Controlling Agency <ul style="list-style-type: none"> Ensure Local Emergency Coordinator (LEC) and affected LGA's are advised of extent of potential recovery support requirements. State EM Policy - <i>6.2.1 – The Controlling Agency is responsible for the coordination of an assessment of all impacts relating to the four recovery environments (social, built, economic and natural) prior to cessation of the response, including a risk assessment and treatment plan to provide for safe community access to the affected area. Where required, an Impact Statement must be completed, prior to the transfer of responsibility for management of recovery to the LGA's affected area.</i> <i>6.2.2 – The relevant Controlling Agency with responsibility for the response to an emergency must initiate a range of recovery activities during the response to that emergency, as detailed in the State EM Plan (section 6.4).</i> Include LGA's Local Recovery Coordinators- in briefings/ Incident Support Group (ISG).
	City of Belmont <ul style="list-style-type: none"> Establish liaison with Local Recovery Coordinator (LRC)/Local Recovery Group chairperson and appropriate core members considering requirement for local level coordination of recovery support. Advise and liaise with LRG members.
Activation Requirement for local level coordination of recovery identified/requested	City of Belmont <ul style="list-style-type: none"> When requested by, or on the advice of, the HMA or ISG, convene LRG and where required, establish a management structure.
	LRC <ul style="list-style-type: none"> Arrange for conduct of on-site assessment, if appropriate. Maintain links with affected organisations to identify and coordinate the provision of recovery support.
Stand Down On completion of local recovery activities.	City of Belmont/LRC <ul style="list-style-type: none"> Ensure handover of responsibility for ongoing recovery activities to a managing agency. Advise LEC (informal) and LRG members of stand-down. Conduct debrief/post operations review and prepare report to the LEMC, with copies to the DEMC, the HMA and the Chair SEMC and Chair SEMC Community Resilience and Recovery Sub-Committee (SEMC). Manage the implementation of post operations report recommendations and revision of Local Recovery Plan as required.

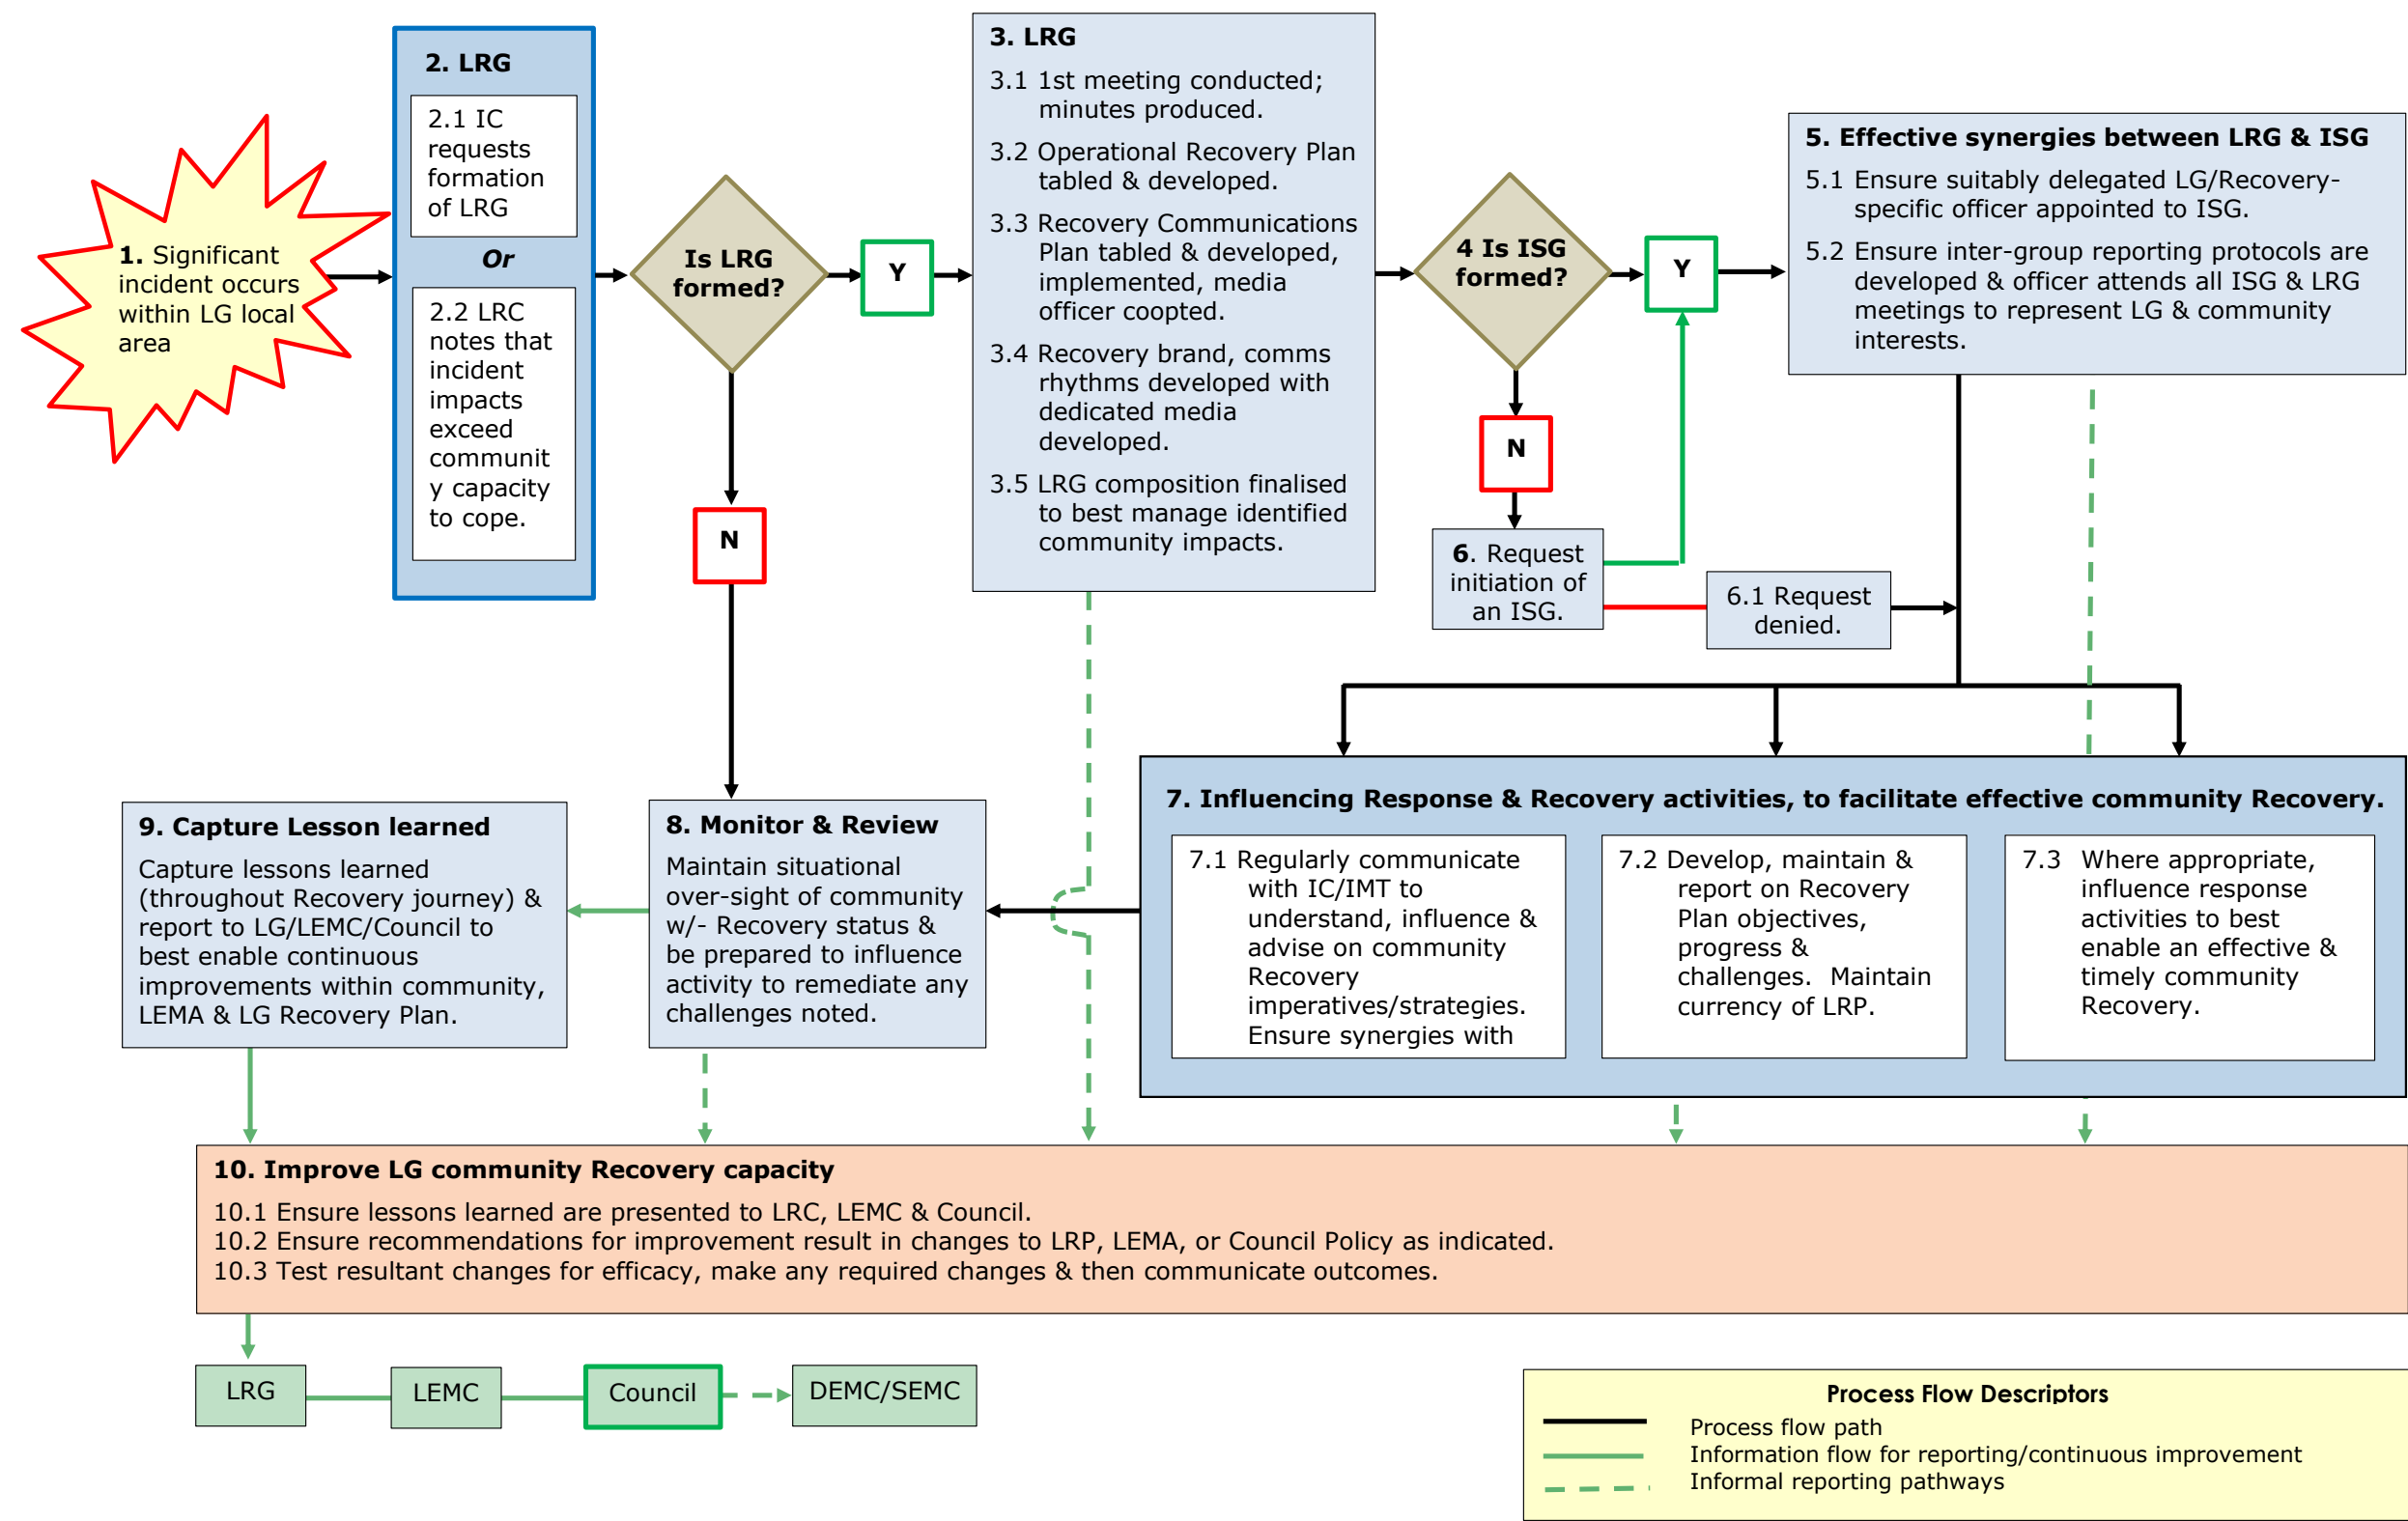

Appendix 4(b)

Community Disaster Recovery- Responsibility, Accountable Consulted, Informed (RACI) Matrix - Recovery Actions Flow Chart

Community Recovery Process Flowchart

Community Recovery – RACI Matrix

Serial	Incident	LRC	LRG	CEO	Mayor	Incident Controller	Local Emergency Coordinator	Community
1	Significant incident occurs within the City of Belmont local area

I	Informed	Prior to & post event
RA	Responsible & Accountable	

Appendix 5

Recovery Action Checklist

Checklist: Recovery actions for Local Recovery Group and Local Recovery Coordinator

Please use the right-hand column to record your progress

Transition from Response	IC shall include the LRC in critical response briefings	✓
	LRC shall ensure the IC is aware of recovery requirements and tasks prior to terminating the state of emergency	✓
	LRG shall ensure that agencies with response and recovery obligations are aware of their continuing role	
	LRG to confirm whether the event has been proclaimed an eligible natural disaster under the Disaster Recovery Funding Arrangements Western Australia and if so, what assistance measures are available	
	LRC shall initiate key recovery arrangements and ensure formalisation of handover takes place	
	Ensure HMA completes an Impact Statement, and it is available for handover	
Management Structure	Ensure the appointment of a Deputy LRC has occurred	
	If required advise Local Recovery Centre Coordinator to activate the Local Recovery Centre	
	Facilitate representative sub-committee to coordinate and action recovery tasks and disseminate decision as required	
	Ensure and facilitate the completion of the Needs and Impact assessment	
	Assume public information responsibilities from response agency and provide information to the Authority's Coordinator Corporate Communications to disseminate to the community	
	Facilitate/advise on State/Federal Disaster Relief Funding, (DPIRD, Centrelink) and facilitate/advise on private aid and funding	
	Prepare oral and written financial and non-financial reports and briefs within Operational Recovery Plan	
	Provide adequate administration support to all recovery functions	
	Provide a succinct reporting system to the City of Belmont, State RC, LRG, community	

	Recruit and work with representatives of the affected community and include in recovery planning	
	Establish strategies for uniting the community behind agreed objectives (events, meetings)	
	Establish One-Stop-Shop and Recovery Centres providing advice, information and assistance to community during the recovery period	
	Enact Recovery Communication Plan for sharing information and enabling listening	
Impact and Needs Assessment	Use intelligence/planning information from the response operation and ensure LRC is liaising with HMA through response	
	Confirm the total area of impact for determination of survey focus	
	Set out the immediate information needs: infrastructure problems and status, damage impact and patterns, and welfare issues	
	Link with parallel data-gathering work	
	Identify and close information gaps (establish the "big picture").	
	Assess the financial and insurance requirements of affected parties	
	Gather evidence to support requests for government assistance	
	Ensure all relevant information is strictly confidential to avoid use for commercial gain	
Inspections and Needs Assessments – Technical	Establish and define the purpose of inspection/assessment and expected outcomes	
	Consistently apply agreed criteria (requiring a common understanding by the people undertaking the survey process)	
	Collect, interpret and analyse data	
	Establish a method/process to determine the type of information needed for this recovery operation: <ul style="list-style-type: none"> How and who will gather the information (single survey) How information will be shared How information will be processed and analysed How the data will be verified (accuracy, currency and relevance) 	
	Manage the process to minimise calling back	
	Coordinate, select and brief staff	
	Maintain confidentiality and privacy of assessment data	

Attachment 12.1.2 Local Recovery Plan

Data Management	Allocate responsibility for data management tasks ensuring proper process of relevant data transfer	
	Use templates/spreadsheets for impact assessment and for tracking assistance provided	
State Government Involvement	Establish robust relationships with key regional government agency representatives, and appoint them to appropriate LRG Sub-Committees and RCC, as required	
	Instigate liaison with DFES Recovery Officers (DRFAWA) for the recovery claim process	
	Attend ASAP to requests for information from government agencies	
Public Information	Ensure spokesperson available (CEO, delegated) to speak with the media	
	Manage public information in accordance with Recovery Communication Plan	
	Identify priority information needs	
	Monitor social media, and media and counter misinformation	
Rehabilitation and Assistance	Establish a mechanism for receiving expert technical advice from lifeline groups	
	Monitor and assist rehabilitation of critical infrastructure	
	Prioritise recovery assistance in line with community needs	
	Prioritise public health to restore health services and infrastructure	
	Assist and liaise with businesses to re-establish and reopen	
	Restore community and cultural infrastructure (including education facilities)	
	Restore basic community amenities for meetings and entertainment	
	Facilitate emergency financial assistance through the Department for Communities (Communities)	
	Be aware of need to adjust capital works and maintenance programs	

Implementation of Risk Management Measures	While doing the hazard analysis: <ul style="list-style-type: none"> Identify essential services and facilities in high-risk areas Consider the restoration betterment options for essential services 	
	Identify betterment options based on research and consultation	
	Undertake urgent hazard reassessment based on new (event) information and relate to the Town's Emergency Risk Management Plan	
Financial Management	Review financial strategies including use of Budget line items for tracking all recovery expenses	
	Communicate with financial agencies, including insurance companies	
	Keep financial processes transparent, appeal monies, etc.	
	Liaise with LMDRF for process and protocols for managing appeals system	
	Ensure recording of all expenditure during recovery, (expenditure, receipts, timesheets, contractors) for DRFAWA claims	
Reporting	Provide a succinct reporting system to the City of Belmont, State RC, LRG, community	
	Provide adequate administration support to all recovery functions	
Recovery Long-Term Strategy (including Managed Withdrawal)	Continually review the Recovery Management process with a view to withdrawing as the community takes over	
	Conduct a Long-Term Recovery Strategy workshop with community representatives and key stakeholder organisations including managed withdrawal strategies	
	Ensure ongoing public information and communications including avenue for reporting and management of unresolved community recovery issues	
	Stage a public event of acknowledgement and community closure	
Recovery Post Analysis Report (Lessons Learnt)	Conduct a debrief and Post Recovery Analysis with key community members and key stakeholder organisations towards preparing a Recovery Lessons Learnt Report	
	Conduct a debrief and Post Recovery Analysis with the City of Belmont staff and elected members towards preparing a Lessons Learnt Report	

Appendix 6

Operational Recovery Plan Template

Operational Recovery Plan

Emergency Event: (Type and location)

Date of Emergency: _____

HMA/CA Incident Level: ____ **Declared as:** _____

Section 1

Introduction:	
Background on the nature of the emergency or incident	Compile the type of event and basic outline of sequence of events
Aim or purpose of the plan	Like all management tools think about why you are engaged in recovery and what you hope to achieve overall
Authority for plan	As a local authority you are charged with the responsibility of recovery under the Emergency Management Act 2005

Section 2

Assessment of Recovery Requirements:	
Details of loss and damage	Residential, commercial and industrial buildings, transport, essential services (including state and local government infrastructure). Your primary <u>Impact Statement</u> (IS) from HMA will give you an initial overview. This can be added to when subsequent reports are made.
Estimates of costs of damage	You may get indications from IS. Further indications could be from insurance agencies, also lifeline infrastructure may assist assessment.

Temporary accommodation requirements	Include details of evacuation centres opened, displaced persons, need for temporary accommodation, relocating displaced persons.
Additional personnel requirements (general and specialist)	It is imperative that you enlist as much help as you can in the initial stages. This may be specialist assistance or simply manpower to cope with the increased workloads.
Human services (personal and psychological support) requirements	On completion of Outreach Individual Needs Assessment, you would have initial contact with your affected community ascertaining what physical and psychological resources are required in the immediate, short and medium term, understanding the impact on community.
Health issues	Medical/Health personnel and City EHOs will assess any significant issues (water, food spoilage, medical supplies or medivac).

Section 3

Organisational Aspects:
Details the composition, structure and reporting lines of the groups, sub-committees and working groups set up to manage the recovery process.
Details the inter-agency relationships and responsibilities.
Details the roles, key tasks and responsibilities of the various groups/committees and those appointed to various positions including the Local Recovery Coordinator.

Section 4

Operational Aspects:	
Details resources available and required	Give list of resources deployed and confer with the LRG network for future resources.
Redevelopment Plans (includes mitigation proposals for betterment)	This could be inappropriate in the early stages, however, should be part of the Long-Term Recovery Strategy in future reporting.
Reconstruction restoration programme and priorities	Detail agencies engaged in their specialist fields and estimates for re-establishing lifelines, waste, and restoration.
Includes programs and strategies of government agencies to restore essential services	Consider betterment when engaged in rebuilding.
Includes the local government program for	Local events, meetings, coffee get togethers, recreation, breakfast BBQs, etc.

community services restoration	
Financial arrangements	Assistance programs <u>DRFAWA</u> , insurance, public appeals, <u>LMDRE</u> , and physical and monetary donations.
Public information dissemination	From the Communication Plan outline what and how your communication is being staged.

Administrative Arrangements:	
Administration of recovery funding	General financial issues.
Public appeals policy and administration	Including policies and strategies for office and living accommodation, furniture and equipment details for additional temporary personnel.
Information management processes	How is the management and recording process being undertaken.
Reporting rhythm	Who, when and how is the reporting being undertaken.

Section 5

Conclusion:

Give an overall summary highlighting immediate, short, medium and long-term priorities and timetable.

Signed by: _____
Chairperson Local Recovery Group or Local Recovery Coordinator

Date: _____

Appendix 7

Local Recovery Centre (RC) Guidelines & Event Guideline

Aim

To assist the impacted community in their medium to long term recovery by providing coordinated collocation of agencies to attend to psychosocial support in a neutral environment, ensuring people feel safe, welcome and comfortable.

Objectives

The objectives of a Recovery Centre are:

- ✓ To connect people with each other and with agencies and organisations which can assist people in their recovery
- ✓ To identify vulnerable individuals or families that may require immediate assistance from service providers who can address their particular needs and what those needs may be.
- ✓ To promote the importance of wellness and provide practical tools for coping with trauma and grief
- ✓ To provide regular, high-quality information on recovery milestones and other important information related to the recovery and be known as the primary location for up-to-date information
- ✓ To promote and demonstrate disaster preparedness to reduce the anxiety that may be felt within the community due to their experience
- ✓ To acknowledge the psychological challenges and complexities faced by the impacted community

Location:

Ideally the Recovery Centre will be in a central location to the impacted community and to public transport.

Building Features:

Specific features to consider in a potential building include:

- ✓ The building needs to be accessible for disabled persons
- ✓ A reception area and a comfortable place for people to wait
- ✓ Large rooms that will be suitable for office space
- ✓ An interview room for appointments with individuals and families

- ✓ Public toilets
- ✓ A multipurpose function room that has the capacity for meetings and events
- ✓ Storage such as a shed for storing 'new' donated items
- ✓ Kitchen suitable for catering for small events and acting as a staff room
- ✓ Ensure adequate parking is available

Set-up Considerations

Suggestions to consider for physically setting up a Recovery Centre include:

- ✓ Office furniture including desks, chairs, bookshelves, white boards, waiting room couch, meeting room fold out tables (light easy to move)
- ✓ Office equipment including computers, printer, photocopier, phones
- ✓ Secure disposal of confidential papers
- ✓ Essential Services such as power, phone and internet will need to be connected
- ✓ Signage for the public and visiting stakeholders to locate with ease
- ✓ Children's corner with colouring in books and pencils and small toys
- ✓ Artwork to lighten and brighten the mood

Steps to Establish Recovery Centre:

Not all Local Governments will have the convenience of a spare building that is ready to be occupied. The following options may need to be considered:

- ✓ Rental of lease agreement for building
- ✓ Building modifications
- ✓ Mobile office building (donga)
- ✓ Arrange hire, lease or purchase of office equipment
- ✓ Second-hand furnishing
- ✓ Cleaning and rubbish collection

Record Keeping:

The Emergency Management Act 2005 allows information to be shared between State Agencies and the Town of Victoria Park.

It is recommended that LRC keeps a master database base that records:

- ✓ Property address
- ✓ Is it destroyed or damaged

- ✓ Owner contacts (including email, mobile number)
- ✓ Renters contacts (if rental or Dept of Communities)
- ✓ Insured or uninsured
- ✓ Received Centrelink Immediate Payment
- ✓ Received assistance from Department of Communities
- ✓ Applied for LMDRF
- ✓ Email collection for Newsletter and other important information
- ✓ Received Outreach from Australian Red Cross

Management of Recovery Centre (RC):

The following should be considered in the running of RC:

- ✓ All staff at the RC should be wearing identification such as name badges that show the organisation they working for
- ✓ Beware of and monitor the health and safety issues, paying particular attention to staff stress and security for the staff and building
- ✓ Establish a process for regular operational staff briefing and debriefing

Recovery Events:

RC Staff will likely attend a wide range of recovery events that are located at the RC or within the impacted area.

Natural community desire will be to have social gatherings for their demographics, for example farmers will want to gather with other farmers.

Recovery activities will need to flex with the community's recovery as people's circumstances change. See Recovery short, medium and long term.

To assist in the management of recovery events see the attached 'Town of Victoria Park Recovery Event Planning Template'.

Closing of the Recovery Centre (RC):

The following should be considered in the running of RC:

- ✓ The RC will become an important point of community focus and solidarity. It is not unusual for the centre to open for months or even years
- ✓ Liaise with key stakeholders to establish the appropriate time for the RC to be closed and report to LRG
- ✓ Communicate well in advance with the community that the centre will be closed and on what date
- ✓ Ensure all people who have used the centre are contacted and notified of how they can access services in the future
- ✓ Consider a public function to thank all involved or have an official closing ceremony
- ✓ Consider an article in the local newspaper about the closing of the centre, what its purpose was, what it accomplished, services provided to the community
- ✓ Sync closure of recovery centre with formal cessation of recovery with community celebration.

Attachment 1

The recovery timeline: short, medium and long term

Short-term recovery (where we've been)

Short-term recovery is also called relief. The aim of relief is to address and support the immediate needs of individuals, businesses and the community affected by the event. Relief often happens while essential services are still being restored to the level where response agencies are no longer required to maintain them.

Relief agencies will usually undertake some form of impact assessment to get a clear idea of the extent of the impacts. This includes understanding the geographical extent of the impacts (i.e. how big), the human impacts (i.e. who is affected and are there casualties), the property and infrastructure impacts (i.e. what is damaged or destroyed), and the environmental impacts (i.e. are there threats to health and sanitation).

Medium-term recovery (where we are now)

The transition from short-term recovery to medium-term recovery happens when response agencies are 'stood down'. Medium-term recovery continues the coordinated process that was established during relief. Affected communities continue to be supported in terms of emotional, social and physical support. During this phase, critical physical infrastructure will be rebuilt, and the restoration of the economy and of the environment will begin.

Long-term recovery (where we're heading)

Recovery can continue for a very long time after an event: often it will take years. The role of the agencies and recovery groups continues to be critically important over these years, and it is best to plan for long-term recovery properly ahead of time, which is why we want to make this long term recovery strategy with you.

One of the key aims of long-term recovery should be to help the community become more resilient and more independent of agency support. This is why community-driven recovery is so important: it enables us to begin as we mean to continue: with community leading the way and with agencies in the supporting role.

Appendix 8

Emergency Relief and Support and Health Services

Relief activities meet the immediate food, shelter and security requirements of those affected by the emergency. Whereas Recovery activities provide information, resources, personal support and community infrastructure necessary for individuals and communities to achieve self-sufficiency and sustain independent functioning. In some instances, these activities may continue for months or even years.

The following link provides related support plans and detailed information:

[Emergency Management Support Plans](#)

The City of Belmont Local Emergency Relief and Support Plan provides local contingencies for health, emergency relief and support are to work in conjunction with State Agencies and other Non-Profit Organisations.

Principles:

The recovery principles of health and wellbeing after emergencies are:

Response and recovery actions actively support individuals, families and businesses

Community and Wellbeing Sub-committee encourages community to participate in community recovery decision-making

The overall needs assessment of individuals and families is evaluated as early as possible

Personal support strategies are integral to overall recovery management process

Measures are taken to mitigate the effects of future emergencies on community

Recovery programs be coordinated to support and enhance community

Strategies:

Strategies to implement the principles of community and wellbeing recovery following an emergency are shown in **conceptual, management** and **service delivery** classifications. They are proposed as examples, rather than as an exclusive listing of strategies that might be invoked in all circumstances.

Conceptual:

- Encourage emergency service agencies to implement procedures relating to personal support services (e.g. identify potential welfare needs)
- Support and promote individuals, families and businesses of the affected community
- Support and promote community improvements
- Purchase replacement goods and services locally via local businesses and trades people wherever practical
- Maintain the integrity of local community groups and experts and their capabilities
- Build on existing organisations and networks through activating available systems within the community
- Encourage support of local community groups and experts
- Encourage agencies to employ local residents
- Source government grants, distribution of appeal funds and charitable payments to assist with supporting needs of individuals and families during the recovery process
- Avoid duplication of services and identify gaps

Management:

- Identify all aspects of community and wellbeing that may be required
- Establish liaison between community and wellbeing groups, community and government agencies in the community
- Establish Community and Wellbeing Sub-Committee representatives from Health and Wellbeing groups, the community and government agencies
- Provide community with information about recovery process and resources available through the Community and Wellbeing Sub-Committee via Communication Plan processes
- Ensure community participation in the Community and Wellbeing Sub-Committee
- Conduct inter-agency briefings and feedback sessions on effectiveness and progress of welfare recovery process
- Identify gaps in Community and Wellbeing services for consideration in risk management processes
- Develop risk management assessments aimed at minimising future Health and Wellbeing requirements

Service Delivery:

Ensure service delivery personnel are aware of the range of services available and appropriate referral processes

Ensure service delivery personnel are aware of the local welfare circumstances pre- and post-emergency

Ensure service delivery personnel have good interpersonal skills and understanding of the local community

Provide community and wellbeing services in a timely, fair, equitable and flexible manner; ensure services and/or information is coordinated and provided by a variety of means

Ensure availability and accessibility to community and wellbeing and recovery information and services

Appendix 9

Local Recovery Plan – Action Items

Activation of Recovery

Approached by HMA/CA IC to initiate

LRC advises the City's CEO of recovery activation

Assessment of assistance determined

LRP is implemented

Response to Recovery transition of event responsibilities

Recovery initiated while response still in progress

LRC to attend ISG meetings and liaison with Incident Controller

LRG gathered and briefed ensuring coordinated transition

CEO to sign off response to recovery handover with HMA/CA with Impact Statement developed and agreed by CA IC

Impact Statement and Needs Assessment

Recovery initiated while response still in progress

LRC to attend ISG meetings and liaise with Incident Controller

LRG gathered and briefed ensuring coordinated transition

CEO to sign off response to recovery handover with HMA/CA. Impact Statement is provided

LRG Outreach Needs Assessment will be carried out ASAP, when safe, after event

Aust. Red Cross contacted ASAP to establish agreed partnership in recovery activities

Operational Recovery Plan

LRC to prepare Operational Recovery Plan where significant reconstruction and restoration is required

Strategic Long-Term Recovery Plan

The City to develop a collaborative, comprehensive and inclusive long-term recovery strategy for the community, including objectives and timelines

Managed Withdrawal

The City will communicate via the LRG sub-committees when relevant service providers and agencies will be withdrawing services from the affected area

The City to identify potential partnerships with existing community organisations and services and ascertain their capacity to support the recovery process in the medium and long-term

LRG to identify recovery programs that will 'phase down', 'phase out' or be 'handed over' to the community to continue

Establishing LRG Management Structure

The City will establish the LRG management structure relevant to event size and complexity

LRG will establish membership from City staff, supporting agencies and community members

LRG will operate within recognised functions and relevant sub-committee structure

LRG will actively encourage and invite community participation within the LRG

LRG will actively engage with State Government to maximise recovery resources

Financial Management

All invoicing and costs associated with the emergency event to be allocated against the City's emergency event cost centre

On advice emergency is an eligible event and significant resources have been expended, LRC will direct the City to contact DRFAWA Officers (DFES) for advice and guidance

CEO and/or nominated senior officer have authority to expend funds on emergency event

In an eligible major disaster LRC will assist affected individuals connect with Centrelink for assistance payments

Appeals and Donations

On advice of eligibility following a disaster, LRC will direct the City officers to LMDRF for advice and guidance

Spokesperson will advise that the City **will not** accept donations of goods

All financial donations will be direct through the LMDRF

Offers of assistance will be directed to LRG

Spontaneous Volunteers

The City's LRG will refer spontaneous volunteers to local service clubs and support agencies to manage

Consider contacting and utilising the services of **Disaster Relief Australia**

Recovery Coordination Centre and One-Stop-Shop

LRC/LRG to determine location for Recovery Centre and establish as soon as possible

One-Stop-Shop to be established immediately following event and located appropriately

STAFF – City of Belmont

City staff to be regularly briefed on current situation and activities within recovery

Stress and fatigue of City staff to be monitored and assisted where appropriate

As soon as possible determine staffing level increase to meet demands

City of Belmont Staff – Recovery Roles and Responsibilities

All City staff could be engaged in various stages of disaster recovery

Specific City staff identified in this Plan should be very familiar with the roles and responsibilities involved with disaster recovery

External agencies/ organisations are to be engaged and used wherever possible

Disaster Event Recovery Communication Plan

The Recovery Communication Plan will provide guidance when distributing public information and communications

Debriefing and Evaluation

The LRG will hold a formal Post Incident Analysis to evaluate the process and apply lessons learnt

A formal debrief will be held for City staff to evaluate the process and apply lessons learnt

Assistance will be made available through EAP for any staff working in the recovery process

LRC will compile a formal report for Council and State Recovery Coordinator

LRP amended (as required) to incorporate lessons learned for continuous improvement

Appendix 10

Local Recovery Group Standard Reporting Template

LOCAL RECOVERY GROUP – RECOVERY REPORT

<Insert Emergency Situation Here>

City of Belmont Recovery Group

Report No:

To: Chairperson, SRG/State Recovery Coordinator

Situation Update:

Should include full damage report (once only) and estimated amount in dollars, work in progress including estimated completion dates, details of difficulties or problems being experienced.

Proposed Activities:

Should include plans and strategies for resumption of normal services (where appropriate), plans for mitigation works, dates of commencement and completion of reconstruction works, possible disruption of activities of other agencies.

Special Assistance:

Requirements:

Includes support from other agencies, LRG intervention with priorities.

Financial Issues:

May include support from LRG for additional funding from Treasury.

Recommendations:

Name & Signature: _____

Position: _____

Date: _____

Appendix 11

Post Incident Analysis – Emergency and Recovery Management

Issue	Comment	Recommendations
Was notification/mobilisation satisfactory/appropriate?		
Was the Management/Administration structure effective?		
Reporting relationships clear? (Did you know who to report to?)		
Was the transition from Response Phase to Recovery Phase clearly established?		
Were Recovery Objectives/Actions clearly defined?		
Were Recovery Arrangements useful or require review/upgrade?		
Inter-agency liaison Any issues working/liasing with other agencies/ organisations?		

Emergency Management - Recovery Support Arrangements Are relevant Agency/Organisation arrangements established/current?		
Was an Impact Statement Assessment form completed – YES or NO		
If Yes, was this been signed off and accepted by the CEO? YES or NO		

Appendix 12

Principles Of Conflict Resolution Guide

1. Think Before Reacting

The tendency in a conflict situation is to react immediately. After all, if we do not react, we may lose our opportunity. To resolve conflict successfully it is important to **think** before we react—consider the options, weigh the possibilities. The same reaction is not appropriate for every conflict.

Principles and Values – P1, P3, P5, V1, V2, V3

2. Listen Actively

Listening is the most important part of communication. If we do not hear what the other parties are communicating, we cannot resolve a conflict. Active listening means not only listening to what another person is saying with words, but also to what is said by intonation and body language. The active listening process also involves letting the speaker know that they have been heard. For example, “What I heard you say is.....”, in other words, paraphrase and confirm understandings.

Principles and Values – P1, P4, V1, V2, V4

3. Assure a Fair Process

The process for resolving a conflict is often as critical as the conflict itself. It is important to assure that the resolution methods chosen, as well as the process for affecting that method is **fair to all parties** to the conflict. Even the perception of unfairness can destroy the chances of a resolution.

Principles and Values – P2, P3, P4, V2, V3

4. Attack the Problem

Conflict can be very emotional. When emotions are high it is much easier to begin attacking the person on the other side, than it is to solve the problem. The only way conflicts get resolved is when we **attack the problem and not each other**. What is the problem that lies behind the emotion? Focus on what are the causes of the conflict, not the symptoms?

Principles and Values – P2, P4, P5, V1, V2, V3

5. Accept Responsibility

Every conflict can have many sides and there is enough responsibility for everyone. Attempting to place blame only creates resentment and anger that heightens any existing conflict. To resolve a conflict, we must be prepared to **accept our share of the responsibility** and eliminate the concept of blame.

Principles and Values – P2, P5, V1, V2, V5

6. Use Direct Communication

Say what we mean and mean what we say. Avoid hiding the ball by talking around a problem. The best way to accomplish this is to use "I-Messages". With an **"I-Message"** we *express our own wants, needs or concerns to the listener*. "I-Messages" are clear and non-threatening way of telling others what we want and how we feel. A **"you-message"** blames or criticizes the listener. It suggests that the person is at fault.

Principles and Values – P5, V2, V4

7. Look for Interests

Positions are usually easy to understand because we are taught to verbalize what we want. However, if we are going to resolve conflict successfully, we must uncover why we want something and what is important about the issue in conflict. Remember to look for the **true interests of the all the parties** to the conflict.

Principles and Values – P2, P3, V2, V3,

8. Focus on the Future

To understand the conflict, it is important to understand the dynamics of the relationship including the history of the relationship. However, to resolve the conflict, we must focus on the future. **What do we want to do differently tomorrow?**

Principles and Values – P2, P6, V5, V6

9. Options for Mutual Gain

Look for ways to assure that we are all better off tomorrow than we are today. Our gain at the expense of someone else only prolongs conflict and prevents resolution.

Principles and Values – P2, P3, P5, V1, V2, V3

10. Timeframes for consideration

Be prepared to preface any planning discussions with the likely requirement for staged planning. Some things can be resolved in the short term, while some matters may need more careful planning and decision making, into the median and longer terms. Not all matters can or should be decided immediately. Manage that expectation and provide examples of why this may be important (i.e., Marysville Recreation Centre)

Principles and Values – P3, P4, P5, V1, V2, V5

Recovery Principles and Values alignment

P	Recovery Principles

Cr Harris disclosed at Item 3 of the Agenda "Disclosure of Interest" an Impartiality Interest in the following item in accordance with Regulation 22 of the *Local Government (Model Code of Conduct) Regulations 2021*.

12.2 Urban Forest Strategy

Voting Requirement	:	Simple Majority
Subject Index	:	30/027
Location/Property Index	:	City of Belmont
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	Urban Forest Strategy endorsed by Council at its Ordinary Council Meeting 26 August 2014
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Infrastructure Services

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To seek Council endorsement of the Urban Forest Strategy 2025-2030, as provided in Attachment 12.2.1.

Summary and key issues

- The City's Urban Forest Strategy was first endorsed by Council at its Ordinary Council Meeting (OCM) 26 August 2014. At that time, the City was identified as having an average canopy cover of 9.1%.
- The approach arising from that Strategy has consistently delivered increases in canopy cover throughout the public realm, particularly within the City's public open space.
- The City began a detailed research process in 2022 to inform development of an updated Strategy.
- The City commissioned canopy mapping in 2023 which calculated the average canopy cover as 14.27% - a net increase in canopy of 5.17%.
- Community consultation was undertaken in May 2024 to inform the preparation of the Urban Forest Strategy 2025-2030. The engagement highlighted the popularity of the City's existing 'Verge Garden' and 'Trees

for Residents' programmes. Common themes included increased educational workshops with continued planting within the public realm.

- The Strategy sets out a framework guided by two key focus areas: (1) Manage and Protect our existing urban forest assets, and (2) Expand and Enhance the urban forest, promoting resilience, diversity, and connectivity.

Officer Recommendation

That Council:

1. Endorses the Urban Forest Strategy 2025–2030.
2. Authorises the Chief Executive Officer to:
 - a. Approve minor changes to the Urban Forest Strategy 2025-2030 as required.
 - b. Arrange for the Urban Forest Strategy to be graphically designed prior to publication.

Note:

Cr Kulczycki put forward the following Alternative Motion.

Alternative Councillor Motion

Kulczycki moved, Sessions seconded

That Council:

1. Endorses the Urban Forest Strategy 2025–2030, subject to the following amendments:
 - a. Add a new part 5.1.2.2 as follows:
 - b. "Identify legacy verges treated with synthetic turf and develop an engagement strategy to encourage their conversion to finishes that comply with contemporary standards."
 - c. Add a new part 5.2.1.2 as follows:
 - d. "Utilise high-resolution canopy mapping, obtained on a biennial basis, to monitor the effectiveness of the new Scheme and Local Planning framework in supporting an integrated planning approach that promotes high-quality development and urban canopy growth."
 - e. Renumber existing parts 5.2.1.2 and 5.2.1.3 to 5.2.1.3 and 5.2.1.4 respectively.
 - f. Add a new part 5.2.1.5 as follows:

- g. "Strive for a city-wide increase in canopy cover across all land use types, and an absolute increase in canopy on land under the City's control that contributes to urban greening."

2. Authorises the Chief Executive Officer to:

- a. Approve minor modifications to the Urban Forest Strategy 2025–2030 as required.
- b. Arrange for the Urban Forest Strategy to be professionally designed prior to publication.

Reasons

- The City does not plant street trees on verges treated with synthetic turf which was installed prior to its prohibition under the Consolidated Local Law 2020, which limits the effectiveness of the Strategy. Synthetic turf also has negative environmental impacts, including increased surface temperatures and reduced soil health, which are detrimental to tree growth.
- Council should pursue all opportunities to align and integrate existing strategies to maximise the value of data-driven planning approaches.
- A city-wide increase in canopy cover must be a strategic priority, reflecting both Council's intent and community feedback received during consultation.
- Sustainable development should be central to planning and decision-making, supporting innovative design and the City's strategic objective of becoming "one of Perth's most liveable and desirable inner-city locations".
- Future development in the City's commercial precincts – particularly the Belmont Business Park and Kewdale Industrial Area – must contribute to the creation of a sustainable urban canopy that extends beyond residential areas, promoting biodiversity linkages across greater Perth.

Consultation

To inform the development of the Urban Forest Strategy 2025-2030, the City undertook a 4-week community engagement process in May 2024 using multiple formats including social media and Belmont Connect. The engagement sought to gauge community sentiment towards the City's urban forest and existing greening initiatives, and to identify the key concerns and priorities for our community.

The City received 254 survey responses with over 650 unique suggestions provided on the development of the urban forest. This data was collated with the City's most recent Catalyse survey results.

The success of the City's existing greening initiatives was evident, with respondents praising the 'Verge Garden' and 'Trees for Residents' programs. Respondents advocated for more educational workshops and materials to improve community awareness. Planting within the public realm, including street verges and medians, was another key priority with over 80% of respondents indicating a high level of support for increased street tree planting.

The community considered the key threats to the urban forest to be:

- Urban Development – 78%
- Climate change – 47%
- Lack of Public awareness – 46%

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: People

Outcome: 1. A safe, healthy community.

Outcome: 3. People of all ages and abilities feel connected and supported.

Key Performance Area: Planet

Outcome: 4. Healthy and sustainable ecosystems.

Outcome: 5. Climate resilience.

Key Performance Area: Place

Outcome: 6. Sustainable population growth with responsible urban planning.

Outcome: 7. Attractive and welcoming places.

Outcome: 8. A city that is easy to get around safely and sustainably.

Key Performance Area: Prosperity

Outcome: 9. A progressive, vibrant and thriving economy with active participation in long-life learning.

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Outcome: 11. A happy, well informed and engaged community.

Policy implications

There are no implications to the City's Urban Forest Policy (CP48).

Statutory environment

There are no specific statutory requirements relating to this matter.

Background

The City of Belmont endorsed its first Urban Forest Strategy in 2014. At that time, the City was identified as having an average canopy cover of 9.1%. The strategy outlined a plan to expand the urban forest through delivery of a targeted tree-planting program, introduction of community-based greening initiatives, and operational alignment with industry best-practice. This approach has consistently delivered increases in canopy cover throughout the public realm, particularly within the City's public open space.

Since the original strategy was adopted, the Western Australian Government has delivered significant planning policy reform, including changes to the *Planning and Development (Local Planning Schemes) Regulations 2015 (WA)* and the Residential Design Codes (R-Codes) aimed at streamlining processes, improving consistency, and promoting housing and infrastructure development.

Similarly, the discipline of Urban Forestry has evolved in response to the emerging challenges of climate change, water security and urbanisation. Technological advances in remote sensing, aerial imagery and artificial intelligence have transformed how Local Government's manage, monitor and plan for the urban forest.

In May 2022, the City began a detailed research process to inform development of an updated strategy. This included:

- Comparative analysis of existing urban forest strategies and plans, at the Local and State level, within the Perth Metropolitan area and nationally
- Systematic review of the literature, case studies, and other scientific publications to determine current best practice standards in urban forestry
- Evaluation of current and projected local context including demographics, housing demand / supply, residential density, and designated activity centres and development precincts
- Visual Tree Assessment of all street trees to determine current health, condition, species and age-class distribution of the urban forest
- Analysis of available canopy data and trend analysis to effectively identify emerging challenges and opportunities for the City's urban forest

Report

Urban forests are widely recognised and valued for the environmental, social and economic benefits they provide, particularly in highly developed areas. Trees and other vegetation provide a wide range of ecosystem services, such as improving air and water quality, nutrient cycling and thermal regulation. As urban populations grow and density increases, access to high-quality greenspace is becoming increasingly important. Research demonstrates that a well-developed urban forest is a key determinant of community resilience, health and wellbeing outcomes. As such, urban forest levels are considered in planning policy at an international, national, state, and local level.

The City's urban forest makes a significant contribution towards each of the five (5) key performance areas identified in the Strategic Community Plan 2024-2034 and aligns with the City's broader goals of social, economic and environmental sustainability. The Urban Forest Strategy 2025-2030 positions the urban forest as an important element of community infrastructure which shapes the liveability and landscape character of our City.

Canopy Analysis

In 2023, the City commissioned canopy mapping using a combination of high-resolution aerial imagery and LiDAR (Light Detection and Ranging) technology which calculated the average canopy cover as 14.27%. This indicates a net increase of 5.17% over a 12-year period.

The canopy data was analysed according to land use and suburb to identify high level trends. Canopy cover as a percentage of total land area varies significantly between land use categories. The highest percentage cover is located within public open space (POS), including parks and reserves, foreshore areas, and

other state government land. A large proportion of this land area is under the City's care and control, providing the greatest opportunity for urban greening.

Over 65% of the City's urban forest is located on privately owned land, of which over a third falls within the Perth Airport Estate.

Figure 1: Canopy cover as a percentage of land use category.

Canopy Trends

To establish general trends, the raw data from the City's 2016 and 2023 canopy surveys was analysed according to land use category to enable comparison. Over this 7-year period, the City gained a total of 63.60 hectares of urban forest. The greatest increase in canopy cover (excluding Perth Airport Estate) was achieved in the City's public open space, which saw an increase in canopy cover of 18.47 hectares. This increase in canopy cover was however offset by the loss of 13.82 hectares of canopy from residential land over the same period with trees on private property removed to accommodate infill development.

Figure 2: Percentage change in canopy cover per land use category between 2016 and 2023.

Future Forest

The Strategy acknowledges that a multi-disciplinary approach to urban forest management is required, through integration of urban design, planning, community health and environment objectives.

The range of benefits provided by urban trees increases as they reach their full horticultural potential, a timeframe which may span several human generations. Growing a forest for the future therefore requires a commitment to manage the City's trees and other vegetation in the long-term interest of the community as a whole. This means ensuring the value of the urban forest is adequately recognised, considered, prioritised and planned for at a strategic level.

The Strategy proposes 2 key focus areas:

- Manage and Protect
- Expand and Enhance

Manage and Protect:

The Strategy recognises that the appropriate management and protection of existing trees is one of the most effective ways to maximise urban forest benefits for the community. This will be achieved through:

- Improving our urban forest data,
- Communicating the value of the urban forest, and
- Recognising and protecting existing urban forest assets

Expand and Enhance:

To continue growing the urban forest, the City will deliver greening initiatives to build resilience, social and environmental outcomes, and achieve maximum return on investment. This will be achieved through:

- Developing and implementing a targeted approach to urban greening,
- Encouraging urban greening on private property,
- Planning for environmental change,
- Investing in innovative urban design.

Financial implications

The City has provisioned \$3,800,000 per annum in the Long Term Financial Plan to support planting programmes across the life of the Strategy.

Other financial considerations arising from the Strategy include:

Biennial Canopy Mapping	\$480,000
Condition Inspection Audits	\$600,000
Verge Garden Program	\$50,000
Trees for Residents Program	\$40,000

(all above cost estimates cover the full five-year lifecycle of the Strategy)

Environmental implications

The endorsement of the Urban Forest Strategy 2025-2030 will enhance the City of Belmont's local natural environment and support the City in expanding the urban forest which provides considerable environmental benefits to the community.

Social implications

The urban forest provides considerable social benefits as outlined in the Strategy. Examples of such social benefits include:

- Improved mental wellbeing
- Increased recreation
- Improved character and sense of place
- Reduced heat-related illnesses
- Improved social cohesion

The recommended reference for this publication is City of Belmont (2023) Urban Forest Strategy (Revision 2023), Parks, Leisure and Environment, City of Belmont.

The City of Belmont acknowledges the Whadjuk Noongar people as the Traditional Owners of this land and we pay our respects to Elders past, present and emerging.

We further acknowledge their cultural heritage, beliefs, connection, and relationship with this land which continues today.

We acknowledge all Aboriginal and Torres Strait Islander peoples living within the City of Belmont.

Executive Summary

The City of Belmont is the 'City of Opportunity'. It is the gateway to Perth, home to a diverse and harmonious community with thriving industrial and commercial precincts yet situated on the picturesque banks of the Derbarl Yerrigan (Swan River). It is also home to a diverse range of landscapes rich in natural beauty.

The City of Belmont recognises the urban forest as an important asset which shapes the liveability, character, and landscape of our City, and provides a range of social, economic, and environmental benefits shared by the community.

As urban populations grow and density increases, access to high-quality greenspace is becoming increasingly important in promoting community health and wellbeing. At the same time, it is becoming more difficult to establish and retain trees in highly constrained urban environments – a challenge which will be exacerbated by a warming climate and population growth.

A thriving and resilient urban forest is integral to achieving the City's vision for a green, healthy, and well-connected City. In recognition of this, the *Urban Forest Strategy 2025-2030* outlines the City's commitment to protect, enhance and expand the urban forest.

Our Vision For The City's Urban Forest

Quality urban forest supporting a healthy, diverse, and thriving community.

To support this vision, the strategy proposes two (2) key focus areas:

- | | |
|------------------------------|--|
| 1. Manage and Protect | our existing urban forest assets |
| 2. Expand and Enhance | the urban forest, promoting resilience, diversity and connectivity |

1 Introduction

1.1 Context

The City recognises the urban forest as an important element of community infrastructure. To ensure a thriving and resilient urban forest remains a feature of Belmont into the future, it must be a key consideration in strategic planning and decision making. The Urban Forest Strategy 2025-2030 outlines the City's long-term vision for the urban forest and provides a framework to deliver this vision.

Our urban forest is made up of City and State managed land (21%) and private land (79%) all of which contribute to the liveability of our City. The retention and development of a healthy urban forest is a responsibility shared by all landholders including government, industry, and the community. The advantages are also shared, extending beyond lot boundaries to benefit the community as a whole¹. It is important to note the City's management authority only applies to land under its care and control. However, the City will continue to promote the importance of the urban forest and work with other landholders to identify greening opportunities that improve connectivity throughout the public and private realm.

The City of Belmont adopted its first Urban Forest Strategy in 2014. At that time, the City was identified as having one of the lowest canopy covers in the Perth metropolitan area². The strategy outlined a plan to expand the urban forest through delivery of a targeted tree-planting program, introduction of community-based greening initiatives, and operational alignment with industry best-practice. This approach has consistently delivered increases in canopy cover throughout the public realm, but with an estimated 65% of the urban forest located on privately owned land, this remains the City's biggest challenge.

In 2023 the City commissioned an analysis of the City's urban forest using a combination of high-resolution aerial imagery and airborne LiDAR (Light Detection and Ranging). This process established the current average canopy cover for the total Local Government Area (LGA) as 14.27%, including the Perth Airport Estate and South Guildford. (Note: the City of Belmont's Local Government Area boundary was amended in 2017 to include a small portion of South Guildford, increasing the total land area of the LGA).

While canopy remains a key component of the urban forest and a useful indicator of success, the City's *Urban Forest Strategy 2025-2035* takes a 'whole-of-forest' approach in recognition of the cumulative benefits green infrastructure provides when managed in an integrated manner³

1.2 Strategic Alignment

The City of Belmont's *Strategic Community Plan 2024- 2034* is the key informing document which outlines the City's vision and plan for the future. It provides strategic direction for the organisation and informs the City's supporting policy framework. This Urban Forest Strategy makes a significant contribution towards the desired outcomes in the *Strategic Community Plan 2024-2034* and reflects the community's aspirations for a green, healthy, and sustainable City.

Figure 1: Desired outcomes featured in the *Strategic Community Plan 2024-2034*.

The Urban Forest Strategy compliments several strategic documents which have a clear environmental focus, building upon a decade of work by the City. This strategy, together with the City's *Strategic Community Plan*, *Public Open Space*, *Streetscape Enhancement*, and *Environment and Sustainability* strategies, forms a robust framework for the sustainable management of the City's urban forest.

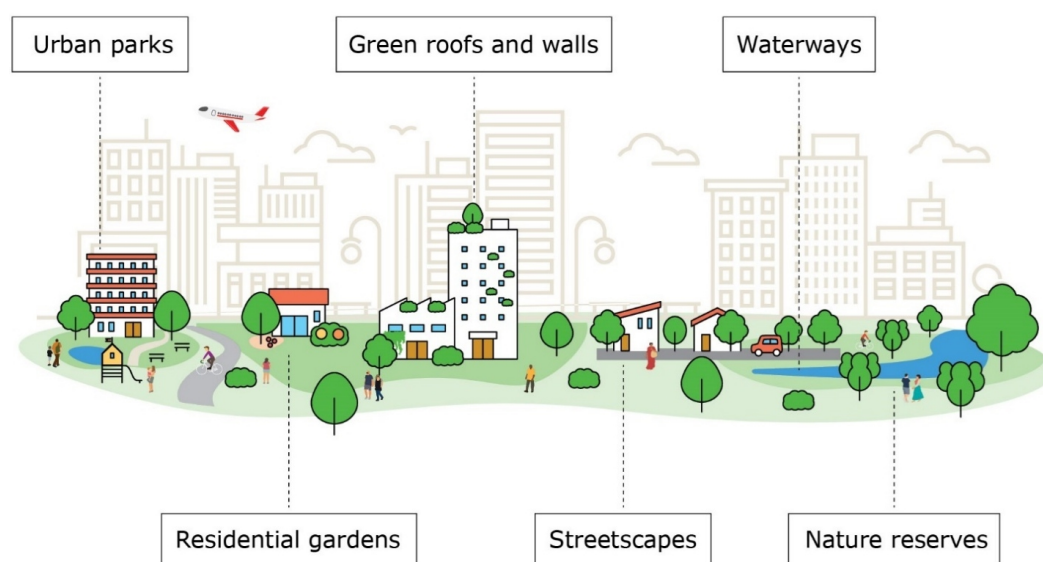

Figure 2: City of Belmont's strategic framework for management of the urban forest.

1.3 What Is An Urban Forest?

The term 'urban forest' refers to all elements of green infrastructure (trees and plants) growing in an urban environment, on both public and private land⁴. This includes parks, natural areas, utility corridors, streetscapes, community gardens, green walls or roofs, and any other vegetation.

Urban Forestry combines the disciplines of arboriculture, urban planning, landscape architecture, engineering and economics. It is defined as the science of *managing trees and natural ecosystems in and around urban areas to maximise the physiological, sociological, economic and aesthetic benefits that trees provide the wider community*⁵.

A healthy and resilient urban forest is characterised by a diverse range of species, structural layers and age classes. The more diverse the forest, the more benefits it provides – from shade and insulation to screening and visual amenity. Well-designed cities that consider the spatial arrangement and distribution of green infrastructure can provide vital habitat and ecological connectivity through the urban landscape⁶.

1.4 Benefits Of An Urban Forest

Trees and other vegetation are critical components of a healthy urban environment and, through natural processes, provide a wide range of ecosystem services such as improving air and water quality, nutrient cycling and thermal regulation⁷. Urban forests are widely recognised and valued for the environmental, social and economic benefits these services provide, particularly in highly developed areas. Planning for green infrastructure is a key focus in urban design policy at an international, national, state, and local level, due to its demonstrated effectiveness in boosting the sustainability and resilience of cities and communities⁸.

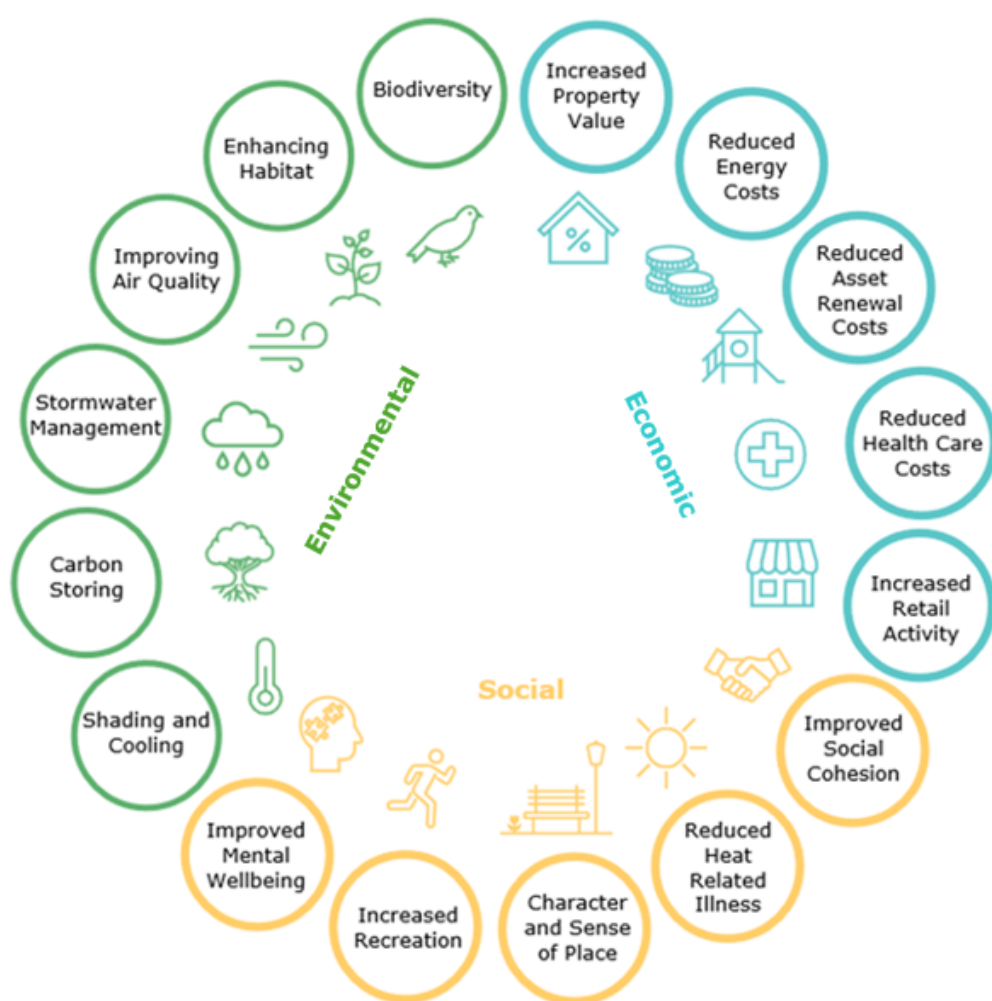

Figure 3: Benefits of an urban forest.

1.4.1 Environmental Benefits

Biodiversity

The southwest of Western Australia is a recognised global biodiversity hotspot⁹. Many of our local species are endemic to this region and rely on native vegetation for habitat and food provision. Biodiversity is a reliable indicator of ecosystem health. Forests with high species diversity are more resistant to pest and disease pressure and our changing climate. By promoting species diversity, we are growing a stronger, healthier and more resilient urban forest¹⁰.

Enhancing Habitat

As urban areas increase in both size and density, vegetation becomes increasingly fragmented. This limits the carrying capacity of the habitat and can cause native fauna to become isolated, increasing the risk of negative interactions such as vehicle collision. Improving the quantity, quality and connectivity of the urban forest is essential to restore habitat and ecological corridors in urban areas¹¹.

Improving Air Quality

As an inner-city council, our community is exposed to pollutants from high volumes of traffic and industrial land uses. Urban forests act as natural filters, intercepting particulate matter and absorbing pollutants from the air such as carbon dioxide, carbon monoxide, nitrogen dioxide and sulphur dioxide. These natural processes improve air quality and positively impact community health outcomes¹².

Stormwater Management

Urban trees and other vegetation intercept and store water within their canopy, reducing the reliance on stormwater infrastructure during heavy rainfall events¹³. This water is then evaporated or absorbed into soil, providing moisture for plant growth and contributing to urban cooling through evapotranspiration¹⁴. Excess water continues to infiltrate the soil profile, filtering and removing contaminants, and recharging groundwater aquifers¹⁵.

Cities are characterised by impervious materials and infrastructure, limiting infiltration. During rain events, water travels over surfaces as runoff, transporting heavy metals, hydrocarbons, sediment and other pollutants to stormwater¹⁶. In the City of Belmont, stormwater flows directly into important water bodies including Tomato Lake, Centenary Park, and the Swan River. Increasing catchment permeability through water sensitive urban design (WSUD) reduces runoff and helps prevent water quality issues in our urban lakes and wetlands¹⁷.

Carbon Storing

Carbon dioxide emissions are the primary driver of climate change in Australia, with the combustion of fossil fuels accounting for 90% of emissions¹⁸. Urban forests play a vital role in combating climate change through the process of carbon sequestration. Trees and other vegetation absorb carbon dioxide from the air during

photosynthesis, storing carbon in their biomass and releasing oxygen back into the atmosphere¹⁹.

Shading and Cooling

Urban areas typically experience average temperatures several degrees warmer than surrounding areas – a phenomenon known as the Urban Heat Island (UHI) effect. The materials used in buildings and infrastructure attract, absorb and radiate heat, increasing surface and ambient temperatures. Local temperatures are also influenced by transport, industry, and electricity use²⁰. Trees and vegetation help mitigate urban heat by providing shade, releasing moisture through evapotranspiration, and altering air flow, effectively cooling the surrounding area²¹. The health and wellbeing benefits are discussed further in the following section.

1.4.2 Social Benefits

Improved Mental Wellbeing

The urban forest provides a valuable connection to nature that is often lacking in highly developed areas. Communities with access to high quality greenspace experience lower levels of stress and anxiety, and a stronger sense of general wellbeing²². Canopy cover alone is an effective indicator of mental wellbeing. A study in New South Wales found that neighbourhoods with less than 10% canopy cover experienced more than double the incidence of psychological distress compared with well-treed suburbs²³.

Increased Recreation

The physical health benefits of the urban forest are extensive and range from improved immune system functioning, shorter recovery periods, and reduced incidence of diabetes and obesity²⁴. However, the positive effect on cardiovascular health is the most widely studied²⁵. Access to parks and nature reserves provides the space and opportunity for everyday recreation such as walking the dog, sport, or simply meditating.

Character and Sense of Place

The urban forest enhances the amenity and landscape character of cities. Trees in prominent locations act as landmarks, while interlocking canopies form avenues and provide wayfinding functions. A single mature tree adds visual interest through scale, or when contrasted against the ever-changing fabric of our cities²⁶. The form and aesthetics of trees and green spaces can create a unique sense of local identity.

Trees and plants are often recognised and celebrated for their cultural significance²⁷. Every Australian State and Territory has a unique floral emblem²⁸, while other natives are featured in 'bush ballads', literature and art²⁹. Species such as the mungie (*Nuytsia floribunda*) or 'WA Christmas tree', have important spiritual significance to Noongar people, connecting them to ancestors and the afterlife³⁰. Others were valued as resources, providing bush tucker, tools and materials. A 'scar tree' at Garvey Park is one of several registered Aboriginal cultural heritage sites located in the City of Belmont³¹.

Reduced Heat-Related Illness

Heat is the leading cause of weather-related illness and mortality in Australia³². Prolonged exposure to high temperatures can cause serious illness and exacerbates underlying conditions such as cardiovascular and respiratory disease³³. These impacts are more prevalent in urban areas and projected to worsen under future climate scenarios³⁴. Vulnerable populations are at increased risk due to low baseline health, social isolation, and restricted access to air conditioning and medical services³⁵. Urban forests regulate ambient temperatures and promote cooling, improving thermal comfort³⁶.

Improved Social Cohesion

Green, liveable neighbourhoods provide opportunity for neighbours to connect through daily activities. Residents living in well-treed areas with local greenspace spend more time outdoors, increasing social interaction and fostering a sense of community identity and belonging³⁷. Volunteer planting events bring people together to shape their local environment. Over time, the community can see their contribution to the urban forest grow, deepening a connection to place³⁸.

Crime prevention through environmental design (CPTED) has been a key principle of urban planning for several decades and a recognised best practice approach to enhance community safety³⁹. Scientists have demonstrated the link between high ambient temperatures and negative psychosocial behaviour⁴⁰. Studies in Australia and abroad are now refining the correlation between crime rates and canopy loss due to urban expansion⁴¹. Well-designed neighbourhoods with inviting and accessible green spaces increase activation and passive surveillance, deterring potential antisocial behaviour⁴².

1.4.3 Economic Benefits

Increased Property Value

Urban forests enhance the streetscape appeal of neighbourhoods – a benefit which can now be expressed in monetary terms. Economic modelling reliably demonstrates the positive influence local canopy has on property prices⁴³. Large-scale economic analysis across 23 Perth suburbs found that broad-leaved verge trees increased the median property price by nearly \$17,000⁴⁴. A similar study in Sydney linked a 10% increase in canopy cover to a \$50,000 increase in average property value⁴⁵. These results demonstrate the value that communities place on the aesthetics and landscape character provided by a healthy urban forest.

Reduced Energy Costs

Trees and vegetation promote cooling through shade and evapotranspiration, minimising reliance on air conditioning during our hot Perth summers⁴⁶. They also act as effective windbreaks, reducing heating costs in winter, while green roofs and walls provide year-round thermal insulation. One Australian study asserts urban street trees provide a 5-10% reduction in annual heating and cooling costs⁴⁷, while forests with greater structural diversity achieved even greater cooling potential⁴⁸. This results in lower energy consumption, reduced greenhouse gas emissions and financial savings⁴⁹.

Reduced Asset Renewal Costs

A significant tree canopy can provide quality shade to community infrastructure, such as playgrounds and roads, increasing serviceability and asset lifespan.

Well-developed canopies reduce UV exposure by up to 75%⁵⁰, with subsequent reduction in maintenance and renewal costs. A 2009 study indicated that 20% canopy cover provided an average 11% improvement in pavement condition, resulting in up to 60% savings on resurfacing over a 30-year period⁵¹.

Reduced Health Care Costs

Urban parks and spaces with shady trees, walking paths and wildlife are known to increase physical activity and improve physical and mental health⁵². The economic value of these health benefits has been studied extensively on an international scale and is of increasing importance in the context of future climate scenarios. In the Australian health sector, an increase in local canopy cover from less than 10% to 30% or higher is estimated to yield cost savings of \$19.3M for every 100,000 patients⁵³.

Increased Retail Activity

Urban streets and commercial areas lined with trees and vibrant green spaces can significantly enhance the appeal of shopping districts, leading to increased economic activity and productivity of workers. Well-greened commercial areas with a higher number of large canopy trees attract more shoppers, encourage them to travel further, stay longer and visit more frequently, ultimately boosting revenue for local businesses⁵⁴.

2 City of Belmont Context

2.1 Pre-European Settlement

"Goorgyp is the Whadjuk Noongar word for the Belmont area where the river runs through the land. The name may be derived from goorgeeba, the reeds on the riverbed, or koordjikotji, the reed warbler birds that live in them.

This area was part of a territory held by a family group of Noongar people known as the Beeloo. In 1829, at the time of colonization the family was headed by Munday. He is remembered locally through the naming of Munday Swamp, an ancient turtle fishing ground at the edge of Perth Airport.

The Swan River and local waterways such as Tomato Lake were ideal for hunting and fishing. The Wargyl, the creation serpent was said to have formed the Swan River as he moved towards the sea. The deep part of the river where the banks dropped off sharply was said to be patrolled by the Wargyl, and swimming in that area was forbidden. The original route of Great Eastern Highway was based on traditional Aboriginal Dreaming trails, leading Noongar communities to the coast and the hills." (Nannup, 2023)

The land on which our City exists today was once a diverse ecosystem, comprised of low-lying wetlands and open forests and woodlands, characterised by jarrah, marri and wandoo along the foreshore, with banksia woodlands extending southeast from the river⁵⁵.

Figure 4: Early plans of the City of Belmont from 1847.

2.2 Early Development

The development and expansion of the last century has significantly altered the natural landscape of the Perth region. Vegetation was systematically cleared, and wetlands were drained, providing fertile soil for pastoral land and market gardens⁵⁶. The district was named after Belmont Farm, one of the first farms to be established in the Swan River Colony. Vast allotments provided the space and opportunity for horse racing, which has been a prominent feature of Belmont's local identity since the late 1840s⁵⁷.

The area has been shaped by periods of rapid growth, particularly during the 1890s goldrush and the post-war era. Housing demand incentivised subdivision of allotments and settlement expanded into new neighbouring suburbs. The conversion of the air force base to a commercial airport after the war, along with increasing construction and land costs, led to development of Belmont's thriving industrial precinct⁵⁸. Local employment further stimulated housing demand prompting the creation of several new parks including Miles Park, Selby Park and Tomato Lake Reserve⁵⁹.

The proximity to Perth City and access to key transport routes and infrastructure, including the domestic and international airport, positioned Belmont as a freight and logistics hub, facilitating the City's expansion into the 20th century.

2.3 The City of Belmont Today

Today, the City of Belmont spans 3,965 hectares and comprises a mix of land uses, circa 79% of which is privately owned land (3,145 ha). Well-developed industrial, commercial, and mixed-use precincts continue to support a thriving local economy, with several commercial retail and entertainment precincts including Belmont Business Park, and the Kewdale Industrial Estate which accommodates transport, postal, and warehousing operations. Road reserves account for 583 hectares, including major distributor roads managed by Main Roads WA, such as Tonkin and Leach Highways⁶⁰.

Figure 5: Aerial image of the City of Belmont. March 2025.

An estimated 5,000 local businesses support over 63,000 jobs, with over 20% of local employment in the transport, logistics and warehousing sector. The City has remained a logistics hub, delivering freight services on a local, regional, national and international scale. In 2023/2024, the City of Belmont's economy contributed \$11.08 billion, or 2.64%, to Western Australia's Gross State Product (GSP)⁶¹.

This unique character brings both opportunities and challenges. The City of Belmont is one of 11 Councils in the Perth Metropolitan area with a hard surface proportion of over 50%⁶². City-managed public open space accounts for 237 hectares, just under 6% of the total land area. This includes sections of the Swan Canning Riverpark, land for stormwater detention and conveyance purposes, and other land vested in the City's care and control.

Figure 6: Total area (ha) per Land Type in City of Belmont

2.4 Our Community

The City of Belmont is home to a culturally and linguistically diverse community with over 40% of residents born overseas⁶³. The population is estimated at 46,133, having more than doubled over the last 30 years, and is projected to reach over 62,000 by 2046⁶⁴.

The most significant change to the urban landscape in Belmont over the last five years has been the increased density of residential developments⁶⁵. In 2021, medium and high-density housing made up 37% of residential properties – 13% higher than the wider Perth average. This is reflected in residential demographics, with the largest category of dwellings being sole-person households, and a 40% rental population⁶⁶. Further population growth will be accommodated through both high-density residential and infill development, increasing the importance of well-provisioned, multi-functional and accessible public open space. Several high-density developments have been identified in Rivervale, Belmont and Ascot; with additional supply of medium-to-high density housing in the Redcliffe area⁶⁷.

Figure 7: Change in dwelling structure in City of Belmont from 2016 to 2021 (ABS 2016,2021)

Household demographics vary notably between suburbs representing a diverse housing market. In recent years, the area has attracted a large population of young professionals, workers and couples. Almost three quarters of the City's residents work outside of the LGA indicating the City's role in providing affordable housing options for city-based workers. A large percentage of households in the City do not own a car, indicating higher community reliance on public and active transport methods. In fact, 7.6% of Belmont residents use a bus to travel to work – twice the Perth average. The local government area is serviced by an extensive bus network with connections to Perth City, the airport, and other regional destinations⁶⁸.

Figure 7: Belmont at a glance statistics⁶⁹.

2.4.1 Community Engagement

The City's approach to tree management and planning must be informed by the needs and expectations of our community. For this reason, it is critical the City understands the perceived value that residents and businesses place on our urban forest and the role it plays in the community. Increasing community awareness of the benefits trees provide in urban environments helps to foster a sense of ownership and connection to the urban forest, leading to greater participation, support and overall satisfaction⁷⁰. An effective approach to community engagement will continue to be a critical component of the City's ongoing management of the urban forest.

In May 2024, the City invited the community to participate in an online survey to inform development of this Urban Forest Strategy. The engagement sought to gauge community sentiment towards the City's urban forest and existing greening initiatives, and to identify the key concerns and priorities for our community.

The engagement was delivered over a 4-week period using multiple formats including social media and Belmont Connect. The City received 254 survey responses with over 650 unique suggestions provided on the development of the urban forest. This data was collated with the City's most recent Catalyse survey results to inform the development of this strategy.

The success of the City's existing greening initiatives was evident, with respondents praising the 'verge garden' and 'trees for residents' programs and welcoming further expansion. Respondents also advocated for more educational workshops and materials to improve community awareness. Planting within the public realm, including street verges and medians, was another key priority with over 80% of respondents indicating a high level of support for increased street tree planting.

Respondents delivered a clear message of community support for the introduction of policy mechanisms to incentivise urban greening and tree retention. Urban development was identified by 78% of respondents as the greatest threat facing today's urban forest. Climate change (47%) and a lack of public awareness (46%) also rated highly, with innovative urban design playing a critical role in addressing climate adaptation and resilience.

Figure 9: Word cloud proportionately displaying prominent themes in survey responses

3 Our Urban Forest

3.1 Our Urban Forest Journey

Canopy mapping is an efficient method for land managers to compare and monitor tree cover over time at defined spatial scales. High-resolution imagery can identify variations in canopy area, condition, volume and height with a high level of precision, enabling early identification of canopy change (growth and loss). Data can be filtered and analysed to guide strategic decision-making, inform planning policy and canopy growth projections, and evaluate the effectiveness of greening initiatives and urban forest management practices.

In 2014, researchers delivered Australia's first benchmarking report comparing urban canopy cover in metropolitan areas across all States and Territories. In Western Australia, 29 Local Government Areas were analysed, representing 64% of the State's population. *i-Tree Canopy*, a peer-reviewed software package which applies statistical algorithms to satellite imagery, was used to calculate canopy cover within each LGA boundary. Based on 2011 imagery, the City of Belmont was identified as having the lowest tree canopy cover in the greater Perth region, at 9.1%⁷¹.

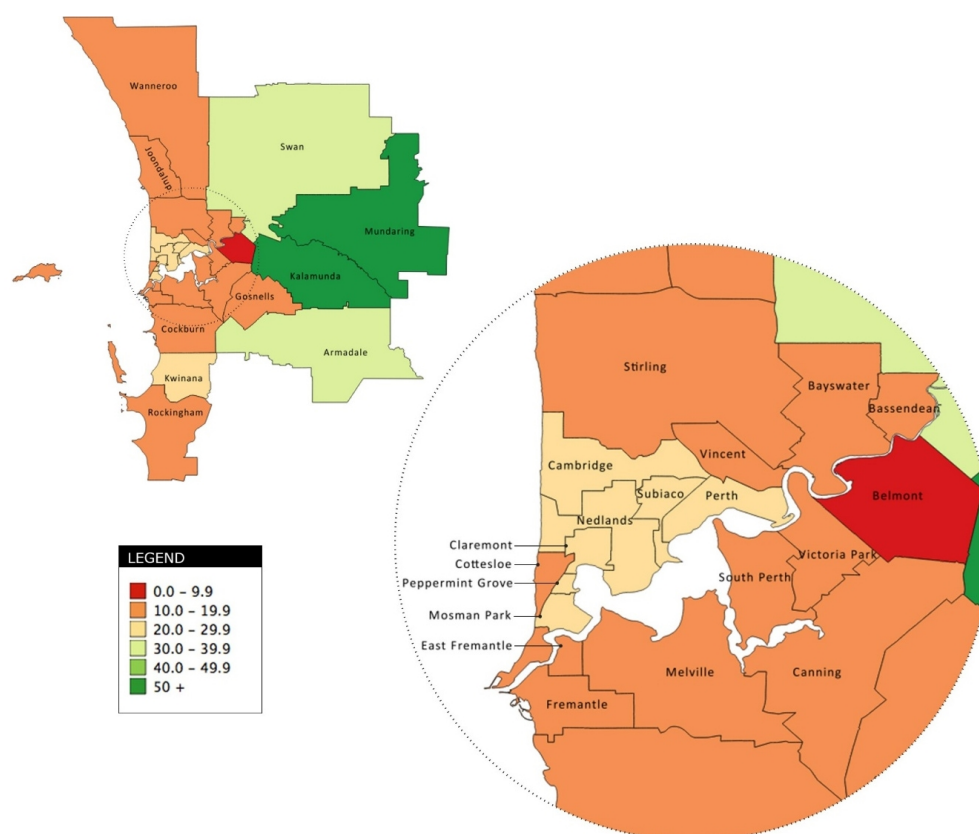

Figure 10: Canopy cover in the Perth metropolitan area (%) by Local Government Area (ISF & UTS 2014)

The City commissioned its own canopy mapping to inform development of its first Urban Forest Strategy in 2011. High resolution aerial imagery was used to retrospectively calculate canopy cover as at a chosen baseline of 2001. The process was then replicated using 2012 imagery to determine any change. Despite increasing canopy cover within public open space and road reserve, the data demonstrated a net loss of over 16 hectares of urban forest, all of which occurred on private land. In response, the City set an initial target in 2014 to meet or exceed the 2001 baseline canopy cover⁷².

3.2 The Urban Forest Today

The most recent analysis of the City's urban forest was undertaken in 2023 using a combination of high-resolution aerial imagery and airborne LiDAR (Light Detection and Ranging). LiDAR is a remote sensing technology which scans the ground surface with a long-range laser and can detect elevation changes in the landscape to a high degree of vertical accuracy ($\pm 5\text{cm}$)⁷³. The data was then processed using a combination of software packages which apply algorithms to categorise the land surface. Vegetation was categorised into seven height strata, ranging from groundcovers to large trees, with all vegetation greater than 2.5m high included as 'canopy'. This process established the current average canopy cover for the total Local Government Area (including the Perth Airport Estate) as 14.27%.

The 2023 canopy survey data was analysed according to Land Use and Suburb. Nine Land Use categories were applied, which include a combination of different Zones and Reserves under both the Metropolitan Region Scheme (MRS) and the City's Local Planning Scheme (LPS) No. 15 (Table 1).

Table 1: Zones and Reserves in each Land Use category

Public Open Space	Parks & Recreation Private Recreation Ascot Racecourse Urban includes Parks & Recreation (LPS)	Civic & Cultural Parks & Recreation Residential includes local parks zoned Residential, or which have no zone	Special Development Precincts mixed-use development, primarily for residential purposes
Road reserve	Primary Regional Roads Other Regional Roads	Local Roads Major Distribution Road	
Private property	Urban includes Residential, Civic & Cultural, Commercial, Mixed-Use, Special Development Precincts, Public Purposes, Places of Public Assembly, Residential & Stables, Service Stations, Town Centre (LPS) Public Purposes Perth Airport Estate and public schools Industrial Railways	Civic & Cultural Commercial Industrial Mixed Business Mixed Use primarily residential purposes Town Centre	Place of Public Assembly private schools and recreation, including Ascot Racecourse Public Purposes public schools Residential Residential & Stables Service station

Around 79% of the City's total land area is privately owned, with Perth Airport Estate being the largest commercial landholder. Under the *Airports Act 1996*, the Perth Airport Estate is governed by the Federal government and is therefore not subject to the City's statutory planning authority⁷⁴ under the state's planning framework. As 1,355 hectares of the airport estate fall within the City's LGA it accounts for over a third of the total land area.

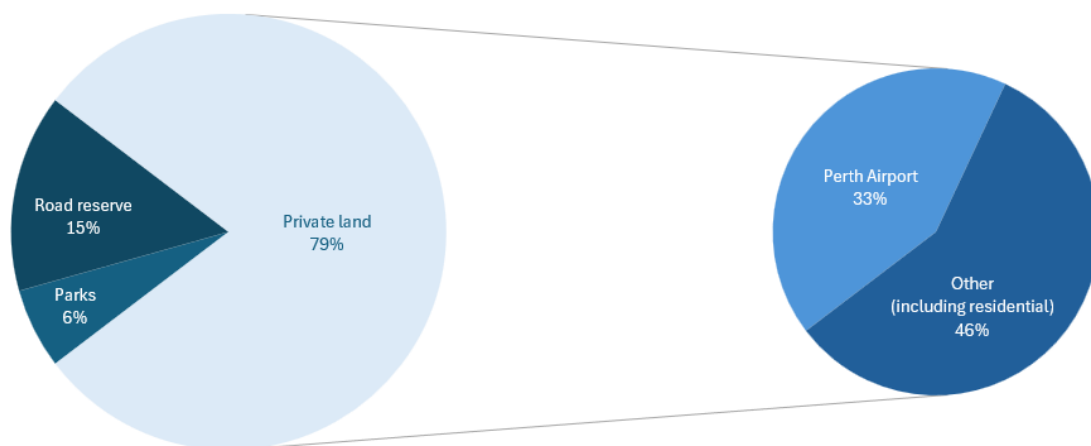

Figure 11: Proportion of the City of Belmont LGA within each Land Use category (as a % of total land area).

Canopy cover as a percentage of total land area varies significantly by Land Use. Not surprisingly, the highest percentage cover is located within public open space (POS), including parks and reserves, foreshore areas, and other state government land. A large proportion of this land area is under the City's care and control, providing the greatest opportunity for urban greening.

Despite having only 12% total canopy cover, private property contains over 65% of the City's urban forest, some 33% of this is within the Perth Airport Estate.

Figure 12: Canopy cover as a percentage of land use category, with inset showing the % contribution of each land use category to the City's Urban Forest.

3.3 Canopy Trends

Consistent and accurate canopy data collected at regular intervals is necessary to effectively monitor trends over time, inform realistic canopy targets, and prioritise greening initiatives. In preparation of this Strategy, a range of data sets between 2009 and 2023 were analysed to measure the change in the City's canopy cover over time. Unfortunately, the methodology and categorisation vary between sources, making a reliable measurement of change difficult.

To establish general trends, the raw data from the City's 2016 and 2023 canopy surveys was analysed according to land use category to enable comparison. Over this seven-year period, the City gained a total of 63.60 hectares of urban forest. The greatest increase in canopy cover (excluding Perth Airport Estate) was achieved in the City's public open space, which saw an increase in canopy cover of 18.47 hectares. However, the loss of 13.82 hectares of canopy from residential land over the same period has somewhat muted this achievement, with trees on private property increasingly removed to accommodate infill development.

These results demonstrate the positive impact the City's urban greening initiatives have had within the public realm. However, with 65% of the City's current canopy cover located on private property, the potential loss of this canopy represents the greatest risk to growing the urban forest.

Figure 13: Percentage change in canopy cover per land use category between 2016 and 2023

3.4 Suburb Profiles

Across the City there has been an increase in canopy cover from 12.67% in 2016 to the current 14.27%. This growth has not been even across the City's suburbs with Cloverdale and Rivervale experiencing a net loss in canopy over this period – see Figure 13 below.

Ascot and South Guildford are best provisioned by urban forest, with 24.7% and 22.6% canopy cover respectively. They are the only two suburbs with over 20% canopy cover, having both seen an increase in canopy cover over the last 7 years, benefiting from large areas of river reserve. Kewdale, Belmont and Redcliffe all experienced minor canopy expansion (less than one percentage point). Suburbs with a higher proportion of commercial and industrial land, such as Belmont, Kewdale and the Perth Airport Estate, have the lowest average canopy cover (between 10 and 15%) due to the prevalence of hard surfaces and built infrastructure.

Figure 14: Change in canopy cover per suburb as a percentage of total land area (2016 to 2023).

ASCOT

Ascot has a residential population of 3,095 over 370 ha. It is one of the City's most unique suburbs with Ascot Racecourse and the residential stable precinct (combined land use of 91.7 ha) representing a quarter of Ascot's total land area.

Between 2016 and 2023, Ascot has seen the largest increase in canopy cover (excluding Perth Airport). This growth was predominantly within the Swan Canning Riverpark which is City managed land.

The City manages 60 ha of foreshore reserves, which presents the greatest opportunity for the expansion of Ascot's urban forest.

BELMONT

The suburb of Belmont has a population of 6,959 people across 437 ha. A large portion of the suburb is comprised of Belmont Business Park (131 ha), in addition to low-density residential housing. Belmont has very limited City managed land and is reliant on private land for urban forest growth.

The City manages approximately 18 ha of public open space in Belmont. One of the largest pockets of remnant bushland (4 ha), Signal Hill, is found within Belmont.

CLOVERDALE

Cloverdale has a residential population of 8,864 people across 394 ha. The primary land use of Cloverdale is residential (194 ha).

Cloverdale recorded a loss of 1.29 hectares of canopy between 2016 and 2023, largely due to ongoing residential densification resulting in the loss of trees on private property.

The rate of residential development in Cloverdale doubled between 2024 and 2026, with further growth predicted over the next 10 years⁷⁵.

KEWDALE

Kewdale has a population of 7,397 across 771 ha. This suburb is comprised of residential and industrial separated by Leach Highway.

Kewdale Industrial Area accounts for approximately 440 ha, contributing to Kewdale's average canopy cover of just 10.54% - the lowest in the LGA.

Achieving urban forest growth in industrial precincts such as Kewdale will be a significant challenge, but there is opportunity within the parcels of Water Corporation land (13 ha) spread throughout the area.

The City manages approximately 30 ha of public open space within Kewdale, including Tomato Lake (21 ha).

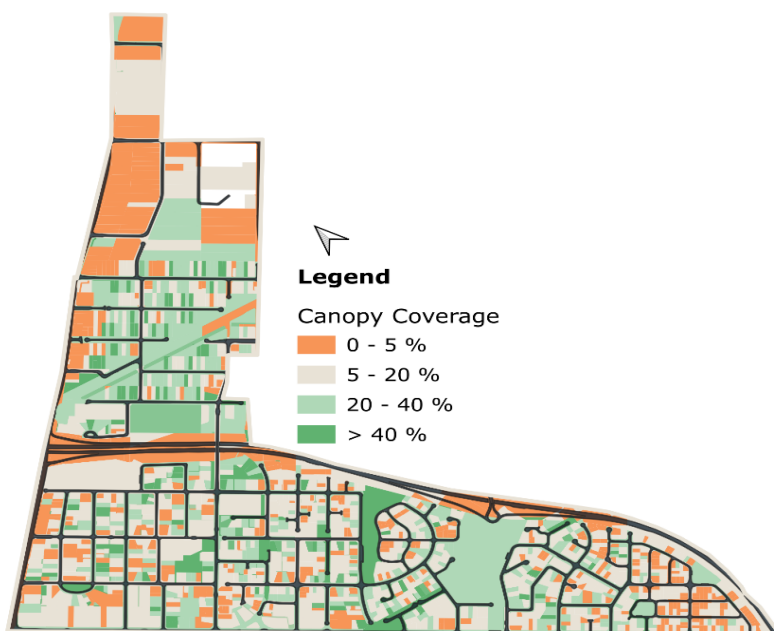

REDCLIFFE

Redcliffe has a residential population of 5,030 across 272 ha. This is primarily a residential suburb with a pocket of industrial area.

Development Area 6 within Redcliffe will see significant redevelopment in the coming years. This presents an opportunity to expand our urban forest with better quality public open space and development.

Redcliffe is home to some of the City's larger public open spaces, such as Redcliffe Park and Brealey Avenue, with a total managed area of 30 ha.

RIVERVALE

Rivervale is the most densely populated suburb in the City of Belmont, with residential population of 10,897 across 330 ha. It has a combination of high-density apartments along the river's edge and low-density suburban housing.

Rivervale lost 1.4 hectares of urban forest between 2016 and 2023. Much like Cloverdale, predicted increases in high-density urban development are likely to result in further canopy loss⁷⁶.

Rivervale has the lowest provision of accessible public open space of any suburb (approximately 15.9 ha) which limits opportunities for urban forest expansion.

PERTH AIRPORT

A significant portion (1,335ha) of the Perth Airport Estate sits within the City of Belmont, including a combination of airfield, terminals, commercial properties, road reserve and native bushland. The estate is managed by Perth Airport Pty Ltd and governed under Federal legislation.

Although the average canopy cover across the Perth Airport Estate is only 10.9%, this makes up approximately 148.3 hectares and accounts for over 28% of the urban forest contained within the City's LGA. A high percentage of this canopy cover is located within the native bushland and includes remnant vegetation, and the Federally listed Banksia Woodlands Threatened Ecologically Community (TEC), in addition to several other priority flora species⁷⁷. Over recent years Perth Airport, in collaboration with Main Roads WA, has invested in its landscape infrastructure adding additional trees and groundcover plantings to its road network.

SOUTH GUILDFORD

A small section of land in South Guildford (36 ha) was transferred to the City of Belmont during a boundary realignment in 2017. It includes a combination of the Swan Canning Riverpark and foreshore reserve, native bushland and industrial land with an average canopy cover of 22.6%.

A large portion of this land is managed and maintained by the Department of Planning Land and Heritage. The City is working closely with the Department to identify tree planting opportunities and explore the development potential of the area in line with the City's *Public Open Space Strategy 2022-2040*.

4 Key Challenges

4.1 Urban Development

Within the last few decades, the average Australian home has changed dramatically. Detached houses with large front and back yards are increasingly subdivided into medium and high-density dwellings. This trend is attributed to various factors including growth of urban populations, land availability, construction costs and a shift in consumer priorities. Perth has the smallest average lot size in Australia, at just 399 square meters. Contemporary housing designs seek to maximise the internal living space on small lot parcels, leaving less room for trees and other vegetation⁷⁸. As suburban backyards disappear, it is critical that the extent, distribution and quality of public open spaces and urban canopy cover is a key consideration in urban planning policy.

Figure 15: Example of typical infill development - Kooyong Road, Rivervale between 2011 (top) and 2021 (bottom)

The supply of medium and high-density dwellings is a critical factor in addressing housing demand and cost of living pressures. Compact activity centres can help limit urban sprawl and improve liveability by increasing the connectivity of neighbourhoods. This contributes to improved community health and wellbeing outcomes by facilitating access to public infrastructure and health services, reducing commute distances, and increasing levels of outdoor recreation and active transport⁷⁹.

The population of the Perth Peel region is projected to reach 3.5 million by 2050. To limit urban expansion within a defined metropolitan footprint, the State Government has introduced ambitious targets to increase the average residential density in the

region by 50%, with 47% of new dwellings created through infill development. The *Perth and Peel @ 3.5 million* frameworks identify the proposed activity centres and development precincts to accommodate this growth. The City is located in the Central sub-region, categorised as a secondary strategic metropolitan centre. The suburbs of Belmont and Rivervale have been identified as activity centres with potential for further urban consolidation, while the Redcliffe Activity Precinct is projected to boost local housing supply with the addition of up to 4,000 medium-to-high density dwellings⁸⁰.

Infill development is widely recognised as the key driving force behind canopy loss in urban areas in the Perth metropolitan region. The State Government's 2024 amendments to the Residential Design Codes (R Codes) do not provide any incentives for tree retention for the subdivision and development of single lots in R30-40 zones - the most common form of infill development. With 65% of the City's urban forest located on private property, infill development therefore poses the largest risk to its retention and development. The investigation of available policy mechanisms is considered a key action to address this issue as we move forward.

4.2 Climate Change

As the impacts of climate change intensify, Perth will experience higher average temperatures and a significant reduction in annual rainfall⁸¹. Rainfall replenishes soil moisture levels, recharges the aquifer and flushes wetland systems. However, Perth's annual average rainfall has declined by around 20% since the mid-1970s, with a further 40% predicted reduction by 2060⁸².

Approximately 70% of the water used in the Perth and Peel region is sourced from groundwater, including domestic and industrial purposes⁸³. The City relies heavily on groundwater for the irrigation of trees and landscaped areas. Regular watering is needed during a tree's establishment period, typically a minimum three-year period, to ensure optimal growth and longevity. Persistently low soil moisture levels will negatively impact tree health and decrease the cooling potential of the forest through a reduction in evapotranspiration.

Reduced rainfall and over abstraction have caused water levels within the superficial aquifer to drop significantly. The Department of Water and Environmental Regulation (DWER) has indicated reductions to licence allocations between 10 to 30%⁸⁴, highlighting water security as a significant risk to the ongoing management and expansion of the urban forest.

4.3 Urban Heat Island (UHI) Effect

The 2021 Australia State of the Environment Report identified urban heat as a key challenge facing Australian cities which will be exacerbated by the effects of climate change. The impact of rising temperatures and an increased frequency of heatwaves is predicted to disproportionately impact Cities and urban areas – a phenomenon known as the Urban Heat Island (UHI) effect.

The materials used in buildings and infrastructure typically absorb more heat compared to natural landscapes, causing higher average surface temperatures and ambient heat. This heat is radiated back into the surrounding environment, leading to higher evening

temperatures⁸⁵. This effect is demonstrated in the 2018-2019 Urban Heat Index data recorded by the CSIRO, which indicates a temperature difference of over 7°C in the City's built-up areas including the Kewdale Industrial Precinct and the Perth Airport Estate⁸⁶. Prolonged exposure to high temperatures can lead to heat-related illness and exacerbate existing medical conditions, disproportionately impacting vulnerable populations.

Figure 16: Average increase in land surface temperature in City of Belmont (CSIRO 2019).

The City's urban forest will play an increasingly vital role in building community resilience to the effects of climate change. The City's *Public Open Space* and *Streetscape Enhancement* strategies acknowledge the role of the urban forest mitigating the UHI effect and identify the need to prioritise urban greening initiatives that target areas of high urban heat and low existing canopy cover.

Climate resilience within the forest must also be pursued, with one study finding over 50% of all urban forest species already exceeding their climatic tolerance range⁸⁷. Elevated temperatures and concentrated heat from reflective surfaces can scorch leaves and bark, lowering the likelihood of survival during extreme heat events.

5 Urban Forest – Future Focus

The City of Belmont aims to become one of Perth’s most liveable and desirable inner-city locations, and recognises that a healthy, thriving urban forest is key to achieving this vision.

The range of benefits provided by urban trees increases as they reach their full horticultural potential – a timeframe which may span several human generations. Growing a forest for the future therefore requires a commitment to manage the City’s trees and other vegetation in the long-term interest of the community as a whole. This means ensuring the value of the urban forest is adequately recognised, considered, prioritised and planned for at a strategic level.

To achieve the City’s vision for our future forest, the strategy proposes two (2) key focus areas:

- | | |
|------------------------------|--|
| 1. Manage and Protect | our existing urban forest assets |
| 2. Expand and Enhance | the urban forest, promoting resilience, diversity and connectivity |

5.1 Manage and Protect

The City’s efforts in expanding the urban forest are evident in our parks, reserves, foreshores, bushland and streetscapes; with canopy cover increasing throughout the public realm. However, these efforts towards a truly connected and integrated urban forest are hindered by the loss of trees on private land – a trend which is evident throughout the Perth metropolitan region.

Trees need time to establish and grow before they can effectively provide ecosystem services, meaning the potential benefits may not be fully realised for many years, or even decades, as a tree develops to maturity. Therefore, the appropriate management and protection of existing trees is one of the most effective strategies to maximise the benefits the urban forest provides.

5.1.1 Improve Urban Forest Data

To effectively manage the urban forest, we must have a good understanding of its extent, distribution, health and condition. The consistent collection and analysis of urban forest data is essential for future planning and for effective monitoring of urban forest performance over time. The regular visual assessment of trees and other green infrastructure assets enables early identification of emerging issues such as pest and disease presence, water stress, or other vegetative decline.

The Local Government Insurance Scheme (LGIS) estimates tree related incidents make up around a third of all claims⁸⁸. Therefore, it is important the City documents its approach to managing tree risk, including the endorsed frequency and methodology of assessing and quantifying tree risk. Maintaining a thorough record of all tree assessments, including any action taken to address identified hazards, protects the City from undue liability.

To achieve this the City will:

1. Deliver a comprehensive inspection program to assess the health, structure and condition of City trees and other green infrastructure assets.
2. Invest in a comprehensive tree management software package which can record and manage tree audit data to support informed decision making.
3. Use tree audit data to estimate useful life expectancy (ULE) and develop succession planting plans which promote diversity in age-class distribution and mitigate the impacts of localised canopy gaps.
4. Undertake high resolution canopy mapping on a biennial basis for analysis at the LGA, suburb and lot parcel level.

5.1.2 Communicate the Value

With 65% of the City's canopy located on private land, the community plays a vital role in the success of the urban forest. There has been a high level of community support and participation in the City's existing greening initiatives and demonstrated demand for educational workshops and materials. Despite a consistently high level of support for urban greening initiatives from the wider community, individual responses to tree issues vary. Concerns such as leaf litter, allergies, or perceived risk can sometimes obscure the benefits that urban trees provide. An effective engagement strategy to raise awareness and increase community support through meaningful engagement opportunities will be an important element of the City's ongoing management of the urban forest.

To achieve this the City will:

1. Draw inspiration from successful community engagement campaigns to date and build on these to communicate the benefits of the urban forest to the environment and the community at large.

5.1.3 Recognise and Protect Existing Assets

To achieve the City's vision for the urban forest there is a clear requirement to protect our existing tree canopy. As the density of inner-city suburbs increases, it is crucial that the benefits of development are carefully balanced against the loss of greenspace and canopy, and the resulting impacts on both the community and environment.

All trees located on land which is under the care and control of the City are protected under City Policy, Local Law, and in some cases, State legislation. A monetary value is assigned to all City trees proposed for removal using an endorsed tree valuation method. Not only does this disincentivise the unnecessary removal of trees, but it also ensures the community is adequately compensated for any loss.

Unlike other Australian states, the WA planning framework currently has no provision to regulate tree removal on private property. Considering 65% of the City's canopy is located on private land, the absence of a State-led planning mechanism to effectively regulate and incentivise tree protection represents a significant risk to our urban forest.

In consideration of this, the City will:

1. Advocate for amendments to state planning legislation to regulate and incentivise protection of trees on private land.

5.2 Expand and Enhance

The City of Belmont is the logistics hub of Western Australia. A thriving local economy supports over 60,000 jobs across several industrial, commercial, and mixed-use precincts. 79% of the Local Government Area is privately owned, with Perth Airport Estate occupying a third of the total land area. This makes expansion of the urban forest extremely challenging. Nonetheless, the City's average canopy cover increased from 9.1% in 2011 to 14.27% in 2023. In order to continue growing the forest and achieve maximum return on investment, the City will take a targeted approach to urban greening initiatives.

5.2.1 Develop and Implement Targeted Urban Greening

The majority of the City's canopy growth over the last seven years (excluding the Perth Airport Estate) has been achieved in public open space (POS). POS caters for a range of recreation needs, and at only 6% of the total land area, planting opportunities are finite. In order to expand the urban forest, the City has developed and is implementing targeted programmes such as its tree-planting and streetscape enhancement programmes to maximise planting across POS, verges and streetscapes. The verge is crown land and forms part of the road reserve. Green verges have the potential to form important ecological corridors that connect parks, reserves, bushland and foreshore areas throughout the City. Well-designed streetscapes also facilitate pedestrian movement and encourage active transport, connecting neighbourhoods, activity centres, business precincts, public infrastructure and community facilities.

To continue the expansion of our urban forest, the City will:

1. Use Spatial information to inform a targeted urban greening program which delivers on multiple social and environmental outcomes. Projects will be identified in walkable catchment areas and prioritised according to urban heat index and existing canopy cover.
2. Continue with existing tree-planting programmes with an aim to plant 3,000 trees per annum across City-controlled land to 2030.
3. Actively seek opportunities to collaborate with State Government (e.g. Water Corporation, Main Roads WA, Department of Planning Lands and Heritage) to deliver urban greening initiatives on underutilised land.

5.2.2 Encourage Urban Greening On Private Property

The City's community greening initiatives, including the 'Verge Garden' and 'Trees for Residents' programs, have been highly successful. Interest and participation remain strong across the community.

To build on this success, the City will:

1. Expand the Verge Garden program to business customers as a means of addressing low canopy cover in the industrial and commercial precincts.

2. Investigate incentivising tree retention on private property. For example, providing access to tree management tools and resources can empower residents and property managers to confidently manage trees on private property.

5.2.3 Plan For Environmental Change

To ensure our urban forest remains resilient into the future, the City must anticipate and plan for the impacts of a changing environment. Increasingly long, hot and dry summers are seeing the average establishment period for new trees increase from three to five years, with supplementary watering on a reactive basis in response to observed water stress. The cooling capacity of the forest is also impacted, with trees closing stomata to reduce evapotranspiration and preserve water.

A clear plan to build resilience and adapt to the impacts of climate change is essential to ensure the ongoing health and growth of the urban forest.

To support this, the City will:

1. Model future water demand to support increased tree planting and urban greening initiatives under a range of projected climate scenarios
2. Prepare an adaptive framework for the management of public open space in a drying environment.
3. Maximise species and age-class diversity across the urban forest.
4. Actively pursue partnerships with research institutions on contemporary and emerging urban forest issues, including scientifically rigorous trials of new and underutilised street tree species which are resilient to climate change, pest and disease, and other urban pressures.

5.2.4 Innovative Urban Design

It is increasingly difficult to establish and grow new trees in the urban environment. Below ground, compacted soils and underground services restrict root development, and impervious surfaces prevent water infiltration reducing soil moisture. Above ground, tall buildings block sunlight and create wind tunnels, and reflective surfaces concentrate heat burning leaf and bark tissue. Tree performance is further hindered by high ambient temperatures, increased disturbance and pollution, while tree canopy potential may be limited by conflict with buildings and other infrastructure requiring regular over-pruning.

To support tree development in urban environments, the City will:

1. Investigate the use of engineered elements such as structural cells and soils, and stormwater harvesting infrastructure to support tree establishment and growth.
2. Develop a suite of design and construction notes which will allow the City to set the desired standards, provide technical guidance and ensure quality control for urban forest infrastructure.

6 Measuring Success

A thriving and resilient urban forest is integral to achieving the City's vision for a green, healthy, and well-connected city.

To support the City's vision for our future forest, an implementation plan which captures all actions across the two key focus areas will be developed. Actions will be fully costed, prioritised and phased over a 5-year period.

The implementation plan will also establish the framework used to monitor and report on the City's progress towards Strategy objectives in the City's annual report.

Mayor Rossi, Cr Kulczycki and Cr Sessions disclosed at Item 3 of the Agenda "Disclosure of Interest" an Impartiality Interest in the following item in accordance with Regulation 22 of the *Local Government (Model Code of Conduct) Regulations 2021*.

12.3 Sustainable Transport Strategy

Voting Requirement	:	Simple Majority
Subject Index	:	N/A
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	Belmont on the Move: Integrated Movement Network Strategy (BoTM) endorsed at the 23 August 2016 OCM
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Infrastructure Services

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To seek Council endorsement of the Sustainable Transport Strategy 2025-2030, as provided in Attachment 12.2.1.

Summary and key issues

- There are currently two documents that inform the City's sustainable and active transport initiatives, Belmont on the Move: Integrated Movement Network Strategy (BoTM) from 2016 and the Sustainable Transport Plan (STP) from 2019. The new Sustainable Transport Strategy 2025 - 2030 (STS) integrates BoTM and STP into a single strategic document.
- The City engaged an independent traffic and planning consultant to assist with the development of the Sustainable Transport Strategy 2025 - 2030).
- Community consultation was undertaken in October 2024 to inform the preparation of the STS. Common themes that arose from the engagement included active transport concerns, lack of street lighting, narrow footpaths, interactions between modes of transport on paths and roads, and concerns with public transport connectivity and safety.

- A wide review of the existing transport network and emerging technology and trends was undertaken to develop the Priority Initiatives identified in the STS.
- The Priority Initiatives are aligned with the City's strategic pillars: People, Planet, Place, Prosperity, and Performance.

Note:

Cr Harris put forward the following Alternative Motion.

Alternative Councillor Motion

Harris moved, Sessions seconded

That Council directs the Chief Executive Officer to:

1. Publish the draft Sustainable Transport Strategy 2025–2030 for a 21-day comment period with the following amendments:
 - a. Publish a map after the implementation plan has been completed, showing the location, short description and status of each infrastructure project (whether they are under investigation, designed, budgeted for construction, or complete). Update the map annually each July and host it on the City's website.
 - b. When resurfacing or repaving works are planned on sections of road that are part of the Long Term Cycle Network, combine roadworks and cycling infrastructure in a single project.
 - c. Advocate to the State Government for an increase to the WA Bike Network Grants.
 - d. Explore cycling infrastructure grant funding opportunities around the Redcliffe Train Station.
2. Present the results from the above public comment period, suggested modifications and the resulting draft Strategy to Council for approval.

Reasons

- Public comments on strategies are required to make sure we are meeting community expectations.
- Transparency and accountability in infrastructure delivery are necessary to deliver projects in a way that keeps the public informed.
- Reducing double-handling of infrastructure projects saves money and reduces the need to rip up perfectly good road surfaces.

Lost 1 vote to 7

For: Harris

Against: Davis, Kulczycki, Marks, Rossi, Ryan, Sekulla and Sessions

Note: Cr Sessions put forward the following foreshadowed motion.

Foreshadowed Alternative Councillor Motion

Sessions moved, Harris seconded

1. That Council endorse this strategy for public consultation/feedback only, prior to Council endorsing the full Sustainable Transport Strategy.
2. The public consultation will involve:
 - a. Displaying a public notice on the City's notice boards and website.
 - b. Advertising of the consultation period through the City's social media channels.
 - c. Notifying all participants of the October 2024 questionnaire, that the strategy is complete and ready for consultation and feedback.

Reasons

- Before we even consider making any changes to this strategy, I think we need to understand the community feelings about it.
- The Content, and intent of the Local Government Act 1995 is intended to result in –

(Part 1, S1.3) (2)

(b) greater community participation in the decisions and affairs of local governments; and

(c) greater accountability of local governments to their communities;

Part 2. Division 2. Section 2.10 Role of Councillors

(a) represents the interests of the electors, ratepayers and residents of the district and takes account of the interests of other persons who work in, or visit, the district;

(c) facilitates communication with the community about council decisions;

- In our last Community Scorecard, Consultation was rated as 'ok'. Let's improve that.

Lost 3 votes to 5

For: Harris, Rossi and Sessions

Against: Davis, Kulczycki, Marks, Ryan and Sekulla

Officer Recommendation

Marks moved, Sekulla seconded

That Council:

1. Endorses the Sustainable Transport Strategy 2025–2030.
2. Authorises the Chief Executive Officer to:
 - a. Approve minor changes to the Sustainable Transport Strategy 2025–2030 as required.
 - b. Arrange for the Sustainable Transport Strategy to be graphically designed prior to publication.

4 votes to 4

For: Davis, Marks, Ryan and Sekulla

Against: Harris, Kulczycki, Rossi and Sessions

In accordance with s5.21 of the *Local Government Act 1995 (WA)*, the Mayor used his casting vote in the negative.

Lost 4 votes to 5

Location

Not applicable.

Consultation

Community consultation to inform the preparation of the STS was held in October 2024. An online questionnaire was published on the Belmont Connect website inviting the community to outline how they use sustainable transport within the City and what improvements they would like to see.

In person events were also held across various locations in the City during Bike Month where attendees were directed to the online questionnaire. There were multiple avenues for feedback including a mapping tool, online survey and in-person.

A total of 199 contributions from 158 contributors were gathered from the survey, while 128 posts were gathered from 59 contributors.

The common themes and areas of concern included:

1. Active transport concerns:
 - High-speed roads
 - Busy road crossings
 - Insufficient crossings
 - Crime theft, and property damage
 - Separated bike paths/lanes
 - Better connectivity
2. Lack of street lighting
3. Narrow footpaths
4. Interaction on roads, streets and shared paths:
 - Cyclists and e-scooter riders travelling at high speeds in proximity to pedestrians.
 - Frightening interactions between cars and cyclists on the road/ pedestrians on footpaths.
5. Public Transport:
 - Lack of connectivity and frequency
 - Price
 - Safety and anti-social behaviour

In addition to the above community results, the City's MARKYT Community Scorecard surveys from both 2023 and 2024 showed similar concerns and high priorities as follows:

- Safety and crime prevention.
- Lighting of streets and public places.
- Streetscapes, trees and verges.
- Sustainable practices and climate change.
- Senior's services and care.
- Traffic Management.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: People

Outcome: 1. A safe, healthy community.

Outcome: 2. A strong sense of pride, belonging and creativity.

Outcome: 3. People of all ages and abilities feel connected and supported.

Key Performance Area: Planet

Outcome: 4. Healthy and sustainable ecosystems.

Key Performance Area: Place

Outcome: 6. Sustainable population growth with responsible urban planning.

Outcome: 7. Attractive and welcoming places.

Outcome: 8. A city that is easy to get around safely and sustainably.

Key Performance Area: Prosperity

Outcome: 9. A progressive, vibrant and thriving economy with active participation in long-life learning.

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Outcome: 11. A happy, well informed and engaged community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Under the *Local Government Act 1995 (WA)* the City is responsible for public roads, footpaths and thoroughfares.

However, the implementation of regulatory signs and lines, along with reduced speed limits will require the approval of Main Roads WA. New pedestrian crossings will require approval by the Children's Crossing Committee and Main Roads WA.

Background

The City's Belmont on the Move: Integrated Movement Network Strategy (BoTM) was endorsed at the 23 August 2016 Ordinary Council Meeting. BoTM focused on local planning and place-based measures to effect change in travel behaviours over a 10-year horizon. Actions identified in BoTM were brought forward and incorporated into the City's Activity Centre Planning Strategy, endorsed by Council at the 27 February 2024 OCM.

The City's STP, prepared in June 2019, was transport focused, aiming for an accessible, pedestrian and cyclist friendly City.

In recognition of the interrelationships between the BoTM and the STP, the STS has been prepared which reviews and integrates the previous documents into a single Strategy to guide future initiatives for the City.

Report

The City engaged a consultant in July 2024 to assist with the development of the STS. The development of the STS included the following:

- Desktop reviews of the existing BoTM and STP
- Consideration of relevant City policies and strategies
- Consideration of global, national and state priorities
- Community engagement
- Assessment of the existing transport network
- Consideration of emerging transport technology, trends and opportunities
- Development of Priority Initiatives aligned to the City's strategic pillars - People, Planet, Place, Prosperity, and Performance

While the City has some autonomy in delivering local initiatives, it operates within a broader governance framework. As such many transport and infrastructure projects must align with State Government policies, involve collaboration with external stakeholders, and often require advocacy. In recognition of this, the City's role has been considered in the development of the STS Priority Initiatives:

- Lead
- Advocate
- Facilitate
- Deliver
- Educate
- Regulate

A number of initiatives, in particular education-based initiatives, are underway and will continue during the life of the strategy. Infrastructure initiatives such as the Long Term Cycle Network and Green Routes require detailed investigation to determine the feasibility, scope and funding required for delivery. Previous actions identified in BoTM have been carried forward into the City's Activity Centre Planning Strategy and will be included in the STS implementation plan.

The effectiveness of the STS initiatives in influencing the adoption of sustainable transport modes will be evaluated during the lifecycle of the Strategy.

Financial implications

Upon council endorsement of the STS, City officers will progress scoping and cost estimation of the Priority Initiatives which will be prioritised and considered for funding under the annual budget processes.

The proposed 2025-26 budget includes a provision of \$100,000 for capital works arising from the Strategy.

Environmental implications

There may be some short-term environmental implications during any significant works implementation, such as road and footpath modifications. These will be considered further and mitigated wherever possible in the design phase.

The STS in the longer term promotes the development of green cycle routes linking City paths, streetscape enhancements such as green verges and street trees with footpath and cycle route planning and development. These initiatives will improve the environment for active transport behaviour, while also providing practical benefits such as shade and shelter.

Social implications

There are several positive community benefits associated with the STS:

- Improved neighbourhood accessibility and connectivity across the City
- Education programmes that raise awareness and promote the benefits of adopting sustainable, active transport behaviours, such as improved mental health and well-being.
- Improved safety of movement for vulnerable users such as pedestrian and cyclists.
- Improved comfort, safety and security at bus stops.

Executive Summary

The City of Belmont's Sustainable Transport Strategy (STS) provides a framework for developing a sustainable, inclusive, and accessible transport system within the City's boundaries. This STS has been prepared to align with the City's broader vision of fostering a well-connected, safe, and environmentally responsible transport network that enhances the quality of life for all residents.

The outcomes of this strategy will not only provide better travel choices for residents but will also improve public health outcomes, reduce transport-related emissions, and enhance social equity and economic opportunities by creating an accessible, well integrated transport system.

In 2017, the City introduced Belmont on the Move: Integrated Movement Network Strategy (BotM), a 10-year strategic transport plan shaped by extensive community engagement. This was followed by the Sustainable Transport Plan (STP) in 2019—the City's first dedicated transport plan. Building on the foundations of BotM and the STP, the STS continues to prioritise community consultation, data-driven analysis, and improvements for a more efficient walking, cycling, and public transport networks.

The STS outlines priority initiatives, detailing the City's role in their delivery and how each initiative aligns with the City's five sustainability pillars—People, Planet, Place, Prosperity, and Performance—as set out in the Strategic Community Plan 2024–2034.

1. Introduction and Context

1.1 Context

The Sustainable Transport Strategy 2025 – 2030 aims to expand the concept of transportation beyond just moving from location A to B by demonstrating that travel choices can be pathways to achieving personal, social, environmental, and economic goals.

As the population of the City is projected to reach over 62,000 by 2046¹ and considering the limited capacity of the current road network, there is an urgency to reduce the use of private vehicles and focus on shifting travel behaviours towards sustainable transport modes. In response, the City is actively working towards creating a well-connected and safe transport network for its residents.

As the City embarks on an exciting period of growth, a proactive approach to planning for the future is a key focus. The purpose of this STS is to support the City's vision, as described in Section 1.2 and be supportive of sustainable transport options. This STS will create a real change by keeping the goal of moving towards a more sustainable city at the forefront of all decisions and recommendations.

According to the Department of Transport (DoT), active travel to school has seen a significant decline from 75% to 25% along 40 years, with half of children travelling to school by car as passengers despite living only one kilometre away.² The impacts of declining active travel to schools have numerous long term effects including increased travel times, more traffic congestion, less opportunity for skills development and self-efficacy, childhood obesity and chronic disease.

1.2 Aspirations and Objectives

The City of Belmont aspires to be a model of sustainability in transport, where every journey embraces smarter travel choices, encourages increased movement, and enhances community vitality, environmental care, and responsible governance.

The STS seeks to enhance the vision of the City of Belmont (“the City”) as a City of Opportunity, being home to a diverse and harmonious community, thriving from the opportunities of our unique, riverside city.

Recognising that active travel is the most sustainable transport option, the City focuses on making walking, cycling, and wheeling the preferred modes of transport for short trips, while also supporting emerging technologies and public transport for longer journeys. The STS prioritises the need to create more walkable neighbourhoods, a well-connected cycling network, with integrated public transport connections. The overarching aim is to enable individuals of all ages and abilities to enjoy the benefits of sustainable travel, regardless of their chosen mode of transportation.

Additionally, by fostering a culture of sustainable travel, the City supports federal and state agencies in Western Australia, and will advance its aim of reducing carbon footprint—contributing to both the City’s Environment and Sustainability Strategy and Australia’s Net Zero Plan by 2050³.

In light of the above, the STS outlines key objectives aligning with the City’s sustainability approach—People, Planet, Place, Prosperity, and Performance—as established in the Strategic Community Plan 2024–2034, and which will guide the priority initiatives outlined in section 8.

Therefore, the STS describes:

- The aspirations for the City’s sustainable transport network.
- How the City will implement and resource the priority initiatives.
- Best practices that inspire this plan.
- How success will be measured.

People: to ensure all travel choices contribute to healthier and safer communities.

People: to foster a cleaner and climate-conscious environment

Prosperity: to support a flourishing and attractive economy.

Place: to foster a more inviting, safer and liveable neighbourhoods

Performance: to lead with innovative and exemplary governance

City of Belmont’s Five Performance Areas and STS’s Objectives

1.3 City's Sustainable Transport Journey

The transport network is crucial to liveability within the City and must be resilient to challenges such as population growth, an ageing population, climate change, and evolving urban forms. A safe, well-connected, and reliable transport network offers numerous benefits, including promoting community health and well-being by encouraging active lifestyles, as well as providing access to employment, education, and essential goods and services.

In 2017, the City's Belmont on the Move – Integrated Movement Network Strategy (BotM)⁴ was a strategic planning document which focused on planning over a ten-year horizon. It included extensive community engagement, demand drivers, transport strategies by mode.

Expanding upon BotM, the Sustainable Transport Plan (STP)⁵ was the City's first transport-focused Plan which was completed in 2019. The STP focused on community consultation and data evaluation, identified sustainable transport corridors and had a focus around the City's cycle, footpath and public transport networks. This STS has reviewed and consolidated the BotM and the STP, ensuring that all previous recommendations and initiatives from both documents have been reviewed for current relevance or modified accordingly.

Previous concepts suggested for implementation across the City in both the BoTM and STP will be considered as part of the City's continued commitment to enhancing sustainable transport.

1.3.1 Green Routes

The objective for developing Green Routes is to encourage increased physical activity in the community. There is an opportunity to increase physical activity in everyday activities such as walking to local parks, engaging people in aged care facilities and encouraging less experienced bike riders. In describing the Green Routes, it is important to identify the destinations, the connecting elements, and the landscape features that create a unique 'sense of place' and contribute to the comfort and appeal of accessing places by cycling and walking.

The following key elements should be considered for green routes:

- Improved wayfinding signage and line marking
- Improved lighting
- High quality paths (ideally shared or separated paths where possible)
- Safe crossing points
- Unique/distinct landscaping

Interaction between pedestrians and cyclists in Faulkner Park, City of Belmont.

1.3.2 Cycle Streets

The STP suggested an initiative to implement Cycle Streets in specific locations within the City as demonstration projects for expansion in years to come. Many of these streets have undergone traffic calming and have been closed to through-traffic at intersections, while maintaining connectivity and access for cyclists and pedestrians, creating filtered permeability for pedestrians and cyclists.

The corresponding reductions in traffic volumes and speeds make these streets ideal targets for Cycle Streets, which are streets where separated cycle lanes are prioritised and people would be comfortable to cycle two-abreast with limited overtaking by vehicles⁶.

Cycle Streets design considerations. Source: DoT - Planning and Designing for Active Transport in Western Australia | All Ages and Abilities Contextual Guidance

1.3.3 Sustainable Transport Corridors

Whilst it is not practical or feasible to encourage people to choose sustainable transport modes for every trip, there is an aspiration where movement by private vehicle can be replaced by sustainable modes through behaviour change programs.

A number of key corridors have been identified within the City for investment in walking, cycling or public transport. These corridors were selected as they give sustainable transport alternatives at locations where the potential for shifting transport modes is likely to produce the most effective results.

- Corridor 1:** GEH
- Corridor 2:** Orrong Road / Surrey Road
- Corridor 3:** Movement to Redcliffe Train Station
- Corridor 4:** Victoria Park to Central Belmont
- Corridor 5:** Cloverdale to Oats Street Train Station
- Corridor 6:** Bayswater to Central Belmont
- Corridor 7:** Tonkin / Leach Highways
- Corridor 8:** Central Belmont to Airport

Sustainable Transport Corridors

2. Travel Behaviour Costs and Benefits

Sustainable transport modes, such as walking, cycling, public transportation, and e-rideable devices, offer a range of advantages over private vehicle usage, benefiting individuals, communities, and the environment. With growing concerns about climate change, congestion, and urban liveability, shifting towards sustainable transport systems is critical for the City and provides a range of benefits including the following:

Environmental Benefits

Emissions associated with transport are not limited to the gases released during vehicle operation. Rather, they encompass the entire life cycle of a vehicle—from the extraction of raw materials and manufacturing to transportation, maintenance, and eventual disposal. This comprehensive impact is referred to as embodied energy, and it represents a significant, though often overlooked, source of greenhouse gas emissions.

One of the most significant advantages of sustainable transport is its lower environmental impact. In 2022, 13% of WA's CO₂ emissions were produced by the road transport sector, with 6% coming from cars alone. Over the last 30 years, CO₂ emissions per person increased by 12% in Western Australia, compared to the national average, which declined by over 6%⁷. Sustainable modes, such as cycling and walking, produce zero emissions, while public transport and electric vehicles (EVs) dramatically reduce per capita carbon output. By expanding sustainable transport infrastructure, the City can contribute towards achieving Australia's goal of net-zero emissions by 2050.

Economic Benefits

Economic development refers to progress toward community goals such as increasing employment, supporting local small businesses and key industries like bike shops and adventure tourism, and boosting income, productivity, property values, and tax revenues.

Closely tied to this is the concept of economic opportunity and resilience, which emphasises affordable access to economic opportunities and the ability to withstand unexpected financial stresses, such as reduced income or sudden expenses. This resilience is especially crucial for individuals who are physically, economically, or socially disadvantaged, as they often face greater barriers and vulnerabilities during times of economic strain⁸.

Sustainable transport provides substantial cost savings for individuals and municipalities. Public transportation is generally more affordable than private vehicle ownership, which involves expenses such as fuel, maintenance, insurance, and parking. For example:

- **Private car:** Typical annual vehicle registration costs approximately \$ 2,000, while monthly fuel costs approximately \$135.
- **Public Transport:** with the Transperth SmartRider card, standard public transport fares range in Perth between \$2.80 to \$3.15 for 1-zone travel and \$4.16 to \$4.68 for 2-zone travel. Daily fares are capped at \$10.40 a day⁹.
- **Cycling:** Maintenance costs range from \$300 to \$500 annually.
- **Walking:** Minimal costs, mostly limited to occasional footwear replacement.
- Cities also benefit financially by reducing road maintenance costs and mitigating congestion-related economic losses. Additionally, improved cycling and pedestrian infrastructure can boost local economies by increasing foot traffic to businesses.

Health and Wellbeing

Active transport modes like walking and cycling encourage physical activity, reducing the risk of lifestyle-related diseases. In Australia, engaging in at least 30 minutes of walking daily has been associated with a 35% reduction of heart disease and stroke and a 40% lower risk of developing Type 2 diabetes. Public transport also promotes movement, as it often requires walking to and from stops.

Additionally, sustainable transport reduces air pollution, which is linked to respiratory issues and other health problems. Creating safer and more accessible walking and cycling paths within the City will promote healthier lifestyles for residents, including factors such as user mental health, productivity, and overall performance, particularly for employed individuals and students. Research indicates that students who engage in physical exercise before school tend to be much more focused.

Social and Community Benefits

The adoption of active modes, and more people on the streets in the City, allows for improved passive surveillance, stronger and more connected communities by promoting social interactions and inclusivity. Public transport provides mobility options for individuals who are non-car drivers or may not have access to private vehicles, such as seniors, students, and low-income residents.

Well-designed pedestrian and cycling-friendly spaces create inviting public areas where residents can interact, improving overall urban livability. The types of non-car drivers are identified below:

	Group	Description
	Youths (ages 12-24)	May not yet have driver’s licenses or access to vehicles
	Seniors	May no longer drive due to age-related challenges or may have licence restrictions
	Adults with disabilities	Face physical or cognitive limitations that make driving difficult or unsafe
	Low-income households	May not afford the costs of vehicle ownership
	Impaired individuals	Temporarily unable to drive due to alcohol, drugs, or distractions
	Visitors	Often do not have a vehicle or local driver’s license
	Walkers/Bikers by choice	Choose active travel for health, enjoyment, or environmental reasons

Traffic Reduction and Safety

A key challenge for the City is managing traffic congestion, which leads to longer commute times, increased stress, and higher accident risks. Sustainable transport modes alleviate congestion by reducing the number of cars on the road. Enhanced cycling infrastructure and pedestrian-friendly designs also improve road safety, lowering the risk of accidents for all users. By prioritising sustainable transport, the City can create a safer, more efficient mobility network.

The Social-Ecological Model (SEM) is a framework commonly used in health and behavioural sciences, provides guidance to identify the various influences that can shape individual behaviours¹⁰. Using this framework to examine some key drivers and barriers to adopting more sustainable transport options, several factors emerge which contribute to a person’s choice in their travel behaviour, as outlined below.

- Intrapersonal:** Internal factors such as knowledge, attitudes, beliefs and skills.
- Interpersonal:** External influences from family, friends, peers and close circles.
- Institutional:** Influences from schools, workplaces, and other formal organisations.
- Community:** Factors related to the broader community, including social networks, community resources, and local norms.
- Public Policy:** Laws, regulations, and policies that affect health and well-being.

Social-Ecological Framework. Source: Bronfenbrenner, 1979

3. Global Change Through Local Solutions

3.1 Global Priorities

The United Nations’ (UN) Sustainable Development Goals (SDGs) provide a global roadmap to increase prosperity, end social justice and poverty, and improve health and well-being, all while protecting the environment for current and future generations. Seventeen goals were agreed by all UN member states, including Australia. The City will be a catalyst for change, promoting and facilitating the holistic achievement of goals and relevant targets in the local community.

UN Sustainable Goals

UN Sustainable Goals

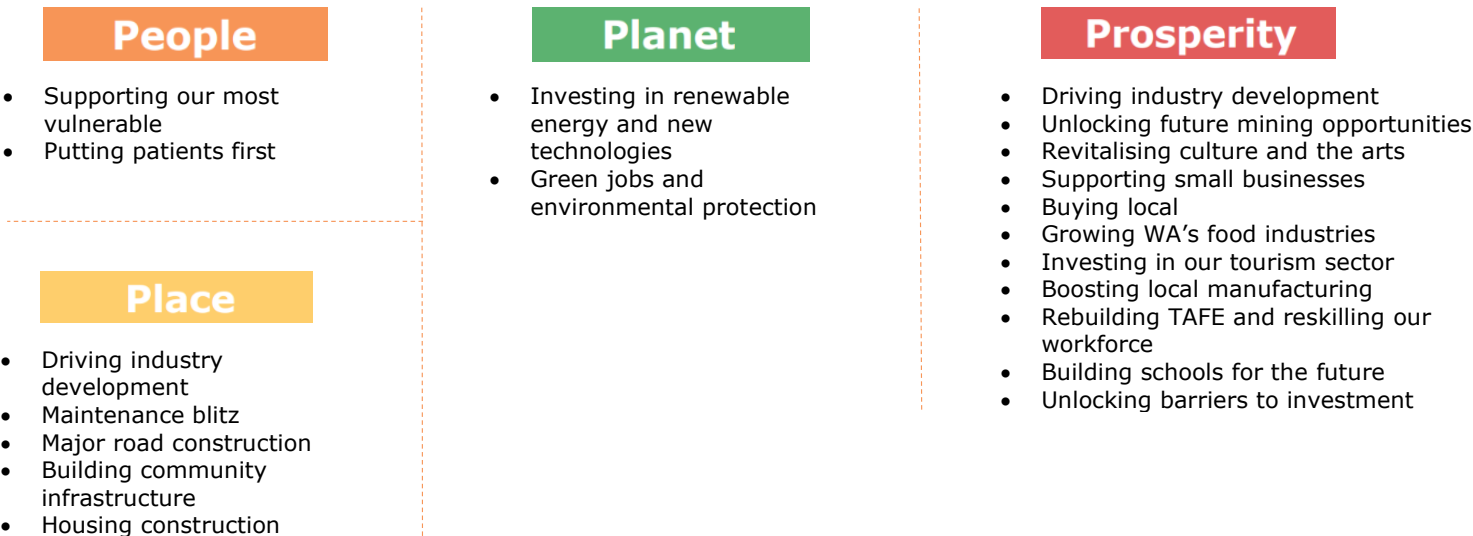

3.2 National Priorities

Australia’s commitment to achieving net-zero greenhouse gas emissions by 2050 is outlined in the *Net Zero Plan* (the Plan), which serves as the nation’s roadmap to transition towards a sustainable and low-emissions economy. Whilst the Plan sets a clear pathway towards 2050, it also acknowledges the need for ongoing policy development and adaption to emerging technologies and market dynamics.

To enable the Plan, six sector reduction plans have been created across electricity and energy, transport industry, agriculture and land, resources and the built environment as a whole of economy required approach. The City is passionate and eager to work towards achieving this goal and promoting more active modes of transport.

3.3 State Priorities

The State Government of Western Australia has more than 100 agencies, each with their own priorities. The City regularly reviews priorities across all areas of government to align service delivery. In response to the COVID-19 pandemic, the State Government of Western Australia prepared a *WA Recovery Plan* with 20 priorities.

WA Recovery Plan Priorities. Source: City of Belmont Strategic Community Plan 2024-2030

These priorities align with the overall goal of the STS in promoting active travel and assist with supporting the government's plan for building a climate-resilient community which focuses on a low-carbon future. The policy commits to addressing climate change by collaborating with all sectors of the economy to achieve net-zero greenhouse gas emissions by 2050.

In line with the target of net zero emissions by 2050, the WA Government has pledged to reduce its own emissions by 80% below 2020 levels by 2030¹¹.

As part of this initiative, the government is enhancing Perth's walking and cycling infrastructure through an \$8.6 million investment in 2025. This funding will support the development of new active transport infrastructure aimed at improving connectivity to existing public transport networks, including METRONET stations¹².

3.4 Belmont Community Profile

The City's diverse demographics, encompassing wide range of ages, abilities, preferences and lifestyles, play a crucial role in shaping the City's transportation needs. By understanding the current situation, it will allow for a greater understanding and effectiveness of the initiatives that will form part of this STS.

The City is a multicultural community with around 117 different ancestries and over 40.9% of its residents born overseas.¹ A transport network serves individuals of all ethnicities and cultures, facilitating opportunities for community interaction, whether through public transportation or active travel methods that enable social engagement. However, usage patterns can vary among different communities, including preferences for alternative modes of transport such as walking, wheeling, cycling, and public transit.

To appropriately cater to the diverse demographics of the City, a number of considerations have been made throughout the STS to ensure any active transport improvements can be interpreted accordingly. For example, given the City's diversity, there has been a focus on equitable access to sustainable transport infrastructure and services through universal design and wayfinding to ensure all information is accessible and culturally responsive.

3.5 Literature Review

In preparing this STS, several documents were reviewed pertaining but not limited to land use, transport and strategic initiatives, along with relevant documentation within the City, to broaden perspectives on travel options. These documents were critical to understanding previous and current approaches to planning and designing for more active transport modes and where planning and feasibility for certain areas within the City has already been undertaken. A list of these documents is contained in the appendices.

3.6 Community Consultation

In October 2024, an online community questionnaire was published on the Belmont Connect website, inviting respondents to answer 11 questions related to how they use sustainable transport within the City and what improvements they would like to see. In person events were also held across various locations in the City during Bike Month (October 2024), attendees were directed to the online community questionnaire.

A total of 199 contributions out of 158 contributors were gathered from survey, while 128 posts were gathered from 59 contributors. Respondents had multiple avenues to share their feedback, thoughts, and ideas, including the following:

- **Mapping Tool:** Participants could visit Belmont Connect to place pins on an interactive map, marking locations of interest and providing comments.
- **Survey:** Respondents were invited to share details about their travel habits within the City.
- **In-Person:** Respondents could provide feedback at the Civic Centre, during community events or through visits requested - by schools, community support centres, and other institutions - ensuring that engagement was accessible to diverse community groups.

Community Consultation in the City of Belmont

The feedback gathered plays a crucial role in shaping the facilities and services that will enhance the City's liveability and connectivity. It also helps identify key themes and opportunities related to the experiences of residents as they walk, ride, wheel, or use public transport throughout the City.

When participants were asked which modes of transport were used on a typical day of travel (multiple-choice), the highest percentages were:

78% travel by car, which is reflective of the ABS 2021 Census data,

48.5% walk,

38.9% use public transport.

Walking and public transport percentages are both much higher than the recorded ABS 2021 Census data. However, this could be due to participants already walking or cycling on the day of the questionnaire or during the in-person events.

When participants were asked whether they owned a bike (including an e-bike) or other micromobility device, the highest percentages were:

45% of respondents owned bicycles,

39% did not own any form of bicycle or other micromobility device.

Respondents Typical Travel Day Transport Mode Choice

Respondents Owning of a Bicycle or other Micromobility Device.

Attachment 12.3.1 Sustainable Transport Strategy - 2025 - 2030

A notable outcome from the community questionnaire is based on an ideal scenario. When participants were asked which modes of travel would be preferred if all traffic, accessibility, and safety barriers were removed (multiple-choice), it was revealed that:

- 60% cycling,
- 50% public transport,
- 45% walking,
- 38% car.

Respondents’ mode of choice if all barriers were removed.

Finally, when asked the question regarding the priority level the City should assign to improving cycling and micromobility infrastructure, the most common response fell within the 80-100% range.

Level of Priority for Cycling and Micromobility Infrastructure Improvements.

Attachment 12.3.1 Sustainable Transport Strategy - 2025 - 2030

One of the survey questions directed respondents to engage with the mapping tool and pin locations where they encountered barriers preventing them from using active transport, whilst another asked what might encourage a user to take public transport or ride/cycle/use a mobility device more. Overall, of the 199 contributions recorded, the common themes and areas of concern included the following:

- **Active Transport Concerns:**
 - High-speed roads
 - Busy road crossings
 - Insufficient crossings
 - Crime, theft, and property damage
 - Separated bike paths/lanes
 - Better connectivity
- **Lack of street lighting**
- **Narrow footpaths**
- **Interaction on roads, streets and shared paths:**
 - Cyclists and e-scooter riders traveling at high speeds close to pedestrians
 - Frightening interactions between cars and cyclists on the road;
- **Public Transport**
 - Lack of connectivity and frequency
 - Price
 - Safety and anti-social behaviour

In addition to the above community results, the City's MARKYT Community Scorecard surveys from both 2023 and 2024 showed similar concerns and high priorities for key themes, including:

- Safety and crime prevention
- Lighting of streets and public places
- Streetscapes, trees and verges
- Sustainable practices and climate change
- Seniors' services and care
- Traffic Management

The findings also show that 21% of surveyed residents have never used public transport; and 29% have never walked, cycled, or used a scooter or skateboard for commuting purposes.

Catalyse 2023 MARKYT Community and Wellbeing Scorecard.. Source: City of Belmont

4. Emerging Technology and Trends

Connectivity, automation, ride-sharing and electric propulsion are driving change across all aspects of mobility, from the way we move around to how we plan and develop infrastructure for the future.

Emerging technology presents an exciting opportunity to enhance the existing transport network within the City. DoT's *Planning and Designing for Bike Riding in WA* serves as a guideline for shared and separated paths for establishing optimal infrastructure to support various emerging technologies.

With new trends such as e-rideable and micro-mobility devices becoming increasingly popular given that they allow a range of user groups to choose a simple, fast and cost-effective alternative mode of transport, they also lead to greater diversity, reliability and efficiency, while addressing longer-distance trips.

Walking, wheeling and riding modes for all ages and abilities. Source: DoT

4.1 Mobility Devices

A mobility device, or micromobility device, is any tool or equipment designed to assist individuals in moving from one place to another¹³, enhancing functionality and independence for people with varying levels of physical ability.

In general, these devices make up your everyday travel modes from a parent pushing a pram to go for a walk, to an elderly person riding in a mobility scooter (typically a four-wheeled electric scooter), to their local shop or a parent taking their children on a leisure ride.

4.2 E-rideables

In recent years, there has been substantial progress in the adoption of emerging transport technologies, particularly e-rideable devices. This category encompasses a range of options, including e-scooters, hoverboards, e-skateboards, e-skates and eUnicycle all of which are typically powered by human motion and operate at higher travel speeds.

E-rideables offer the City’s residents a more sustainable alternative to private vehicles, producing less noise and pollution. Additionally, they present a cost-effective travel option for users, potentially removing the need to own a private car.

The emergence of e-rideable devices presents an exciting opportunity for the City to consider the design and management of its transport network, with a focus on these modes of transportation. Given that riders are typically vulnerable road users sharing roadways with vehicles, it is essential to consider the need for shared space with pedestrians and separated paths where possible.

Taxonomy of active travel modes Source: Cook et al., 2022, under CC BY 4.0 Elsevier.

	Cargo e-bike	Small Car
Typical monthly fuel cost (approx.)	\$5	\$135
Carbon dioxide emissions per km	0-2 g/km	146.5 g/km
Annual ownership cost (approx.)	\$250	\$11,230
Carry what you need	Usually	Usually
Suitable for short trips	Yes	Not always

Cargo E-Bike and Small Car Cost Comparison. Source: West Cycle

These technological advancements not only enhance the enjoyment of cycling but also improve safety and efficiency. They help build rider confidence, encouraging more individuals to incorporate cycling into their daily commutes and recreational activities. Consequently, the uptake of e-cycling as a preferred mode of transport, a leisure activity or travelling short distances to the next transport stop is considered likely to increase as a result.

Whilst e-ridable devices have many benefits, there are also cons that come with their use including conflicts with pedestrians on footpaths, high speeds, safety issues with users unaware how to operate devices appropriately to name a few.

With the rising popularity of e-ridable devices and numerous incidents recorded around Perth, the DoT introduced e-ridable road laws in December 2021.

E-Rideable Current Laws

One person per device 	Helmets required 	Age requirement 16+	Bell or verbal warning 
Lights and reflectors required 	Speed on footpaths 	Speed on bike paths, shared paths and local road 	No travel on road 

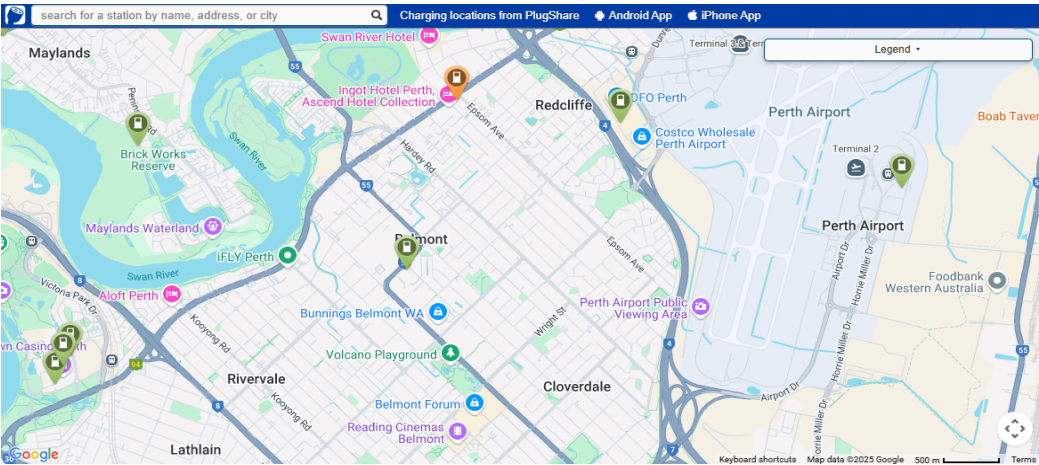

E-Rideable Current Laws. Source: Department of Transport

4.3 Electric and Autonomous Vehicles

The transition to Electric Vehicles (EVs) and the development of Autonomous Vehicles (AVs) are reshaping the future of sustainable transport. According to the Department of Transport’s WA Vehicle Analysis Summary for 2024, the transport sector in Western Australia contributes 16%¹⁴ of the state’s greenhouse gas emissions. The steady increase in adoption of EVs in Western Australia has great potential to reduce greenhouse gas emissions from the transport sector.

Reports indicate that a higher percentage of battery-operated EVs suggests a growing preference for fully electric solutions over hybrids. The shift not only highlights a positive trend toward sustainable travel options but also indicates a potential for further growth as technology and infrastructure continue to develop. The continued increase in EV registrations reflects an ongoing commitment to environmental sustainability in the region.

To ensure EVs are convenient and efficient, the State Government’s EV Strategy includes investing over \$200 million to support the electrification of cars and buses in Western Australia¹⁵. This includes rebates for consumers buying a new EV or hydrogen fuel cell vehicle and WA EV Network providing access to fast charging stations along major transport routes, the Charge Up grant scheme for Local

RAC EV Charging Station Map. Source: RAC

Government Authorities (LGAs), not-for-profits, and Small and Medium-sized Enterprise (SMEs) installing charging infrastructure around the state, and the provision of electric buses and charging infrastructure at key depots. Royal Automobile Club (RAC) provided an interactive map to easily locate charging stations across Western Australia and can be accessed through [EV charging stations map](#).

RAC Intellibus®. Source: RAC

In September 2024, the State Government rolled out one of eighteen new electric Perth CAT buses which have begun passenger services in the Perth CBD. These buses are WA's first locally made electric buses, marking a major milestone toward achieving a cleaner, low-emissions public transport network¹⁶. Additionally, Western Australia Local Government Association (WALGA) is currently underway in coordinating the purchase and installation of 105 charging stations across 22 Local Governments in WA and the purchase of 129 EVs. The project aims to overcome barriers for LGAs when transitioning to EVs and moving towards achieving Australia's net zero emissions target by 2050¹⁷.

In addition to these electrification efforts, AVs offer transformative potential to improve the accessibility and efficiency of the transport network by reducing crashes caused by human error, leading to safer travel. AVs also offer commuters additional transport options. However, careful planning is essential to ensure that these vehicles integrate seamlessly with existing transport modes and do not introduce new challenges. As cities adopt these emerging technologies, they have opportunities to promote and integrate sustainable travel options.

In partnership with the City of South Perth and supported by the State Government, the RAC Intellibus® was Australia's first driverless and electric vehicle to operate on public roads. The trial which also visited Geraldton and Busselton, provided more than 28,000 passengers the chance to experience the potential benefits of automated vehicle technology first-hand. ¹⁸.

5. Existing Transport Network

The transport network plays a crucial role within any local government area, facilitating access to locations and ensuring the movement and delivery of goods and services. It is essential to explore how the existing built environment within the City can be reconfigured to eliminate barriers to active transport and promote more sustainable travel modes.

According to the 2021 ABS Census data, while car remains the preferred mode of transport for commuting to work among City residents, it is encouraging to note that a higher proportion of residents utilise active travel options compared to the Greater Perth average (9.6% for Belmont vs 7.4% for Greater Perth).¹⁹

The City is committed to making active transport a more regular choice for commuters by prioritising well-connected and continuous infrastructure, creating safer and slower streets, and promoting walking and cycling through positive behaviour change initiatives.

The City's performance ratings for footpaths, trails, and cycleways, as reported in the 2024 MARKYT Scorecard²⁰, have shown consistent results over recent years, with a current score of 59, surpassing the industry average of 51. The rating for access to information on walking, cycling, and public transport was at 57. This suggests that while the City is performing well, there is an opportunity to implement positive change as future growth and planning continue.

5.1 Walking

The City has an extensive network of local and regional footpaths and shared use paths, which include a total of 252km of footpaths throughout the City. The grid-like nature of the road network within the City enhances pedestrian movement and accessibility, with the City's street network including a footpath on the majority of streets along at least one side.

Pedestrian ramps of varying quality and design are typically available at crossing points throughout the street network. Higher-quality crossings are strategically located at key areas, including local centres, select traffic signals, and intersections with significant vehicle-pedestrian interaction. Additionally, parks such as Garvey Park and Tomato Lake feature a network of well-designed pedestrian paths, providing seamless connections to and from the parks, with particularly popular routes along the Swan River.

The only raised formalised pedestrian crossings are located on Belmont Avenue, within the Belmont Forum car parking area. Grade-separated crossings for pedestrians are provided on the regional road network Great Eastern Highway (GEH), Orrong Road, Tonkin Highway and Leach Highway.

The City has implemented enhanced crossing facilities at major intersections, including Francisco Street, Alexander Road, Wright Street, and Oats Street. These modifications are designed to slow vehicle traffic and improve safety for both cyclists and pedestrians.

The quality of the network, along with its design and safety features, varies based on the age of the infrastructure and its location. Footpaths differ in quality and condition, with fault surveys being conducted every two years and full footpath condition surveys every four years.

Additionally, incorporating other factors such as pedestrian activity, traffic volumes, network linkage, and topography to prioritise footpath renewals and upgrades would help guide effective infrastructure planning.

Footpath Network of City of Belmont. Source:

5.2 Cycle Network

Belmont 'Your Move' Map. Source: City of Belmont

The City’s current cycle network includes 90 kilometres of shared paths and 24 kilometres of sealed shoulders and cycle lanes, encompassing facilities along GEH and a network of quieter streets. Two local bicycle routes serve as the backbone of the cycling network; however, the grid layout of the road system means that local cycling routes are less clearly defined, making every street potentially accessible to cyclists.

A PSP runs alongside Tonkin Highway, while a network of high-quality shared paths can be found along Leach Highway and the Swan River, as well as parallel to GEH, Dunreath Drive, and Airport Drive. The Belmont Your Move map, an initiative by the DoT designed to provide information on walking, cycling, and public transport, illustrates the various shared paths, bicycle lanes, and sealed shoulders throughout the City.²¹

In 2019, the Department of Transport’s Safe Active Streets Program (SAS) identified Surrey Road as a suitable location for a bicycle boulevard. This project spans 4.4 kilometres, from the GEH underpass in Rivervale to the PSP at the end of Jeffery Street in Kewdale. Traffic speeds have been reduced to 30 km/h, and the road environment features large blue STS pavement markers with prominent white and yellow bike symbols painted on the surface.

Whilst the completion of the SAS has seen positive growth in the number of people using the route for bike riding, particularly over weekends, there have been numerous opportunities for improvement identified, some of which include the reapplication of SAS blue patches to improve visibility, enhancing existing road treatments and updating existing road signage on the approaches to display the 30km/h.

Additionally, the City currently provides four bike repair stations where cyclists can adjust or inflate their tires, located at:

- Garvey Park in Ascot
- Tomato Lake Reserve off President Street in Kewdale
- Surrey Road Underpass at GEH
- Belmont Hub

Safe Active Street Surrey Road. Source: City of Belmont

5.2.1 Long Term Cycle Network (LTCN)

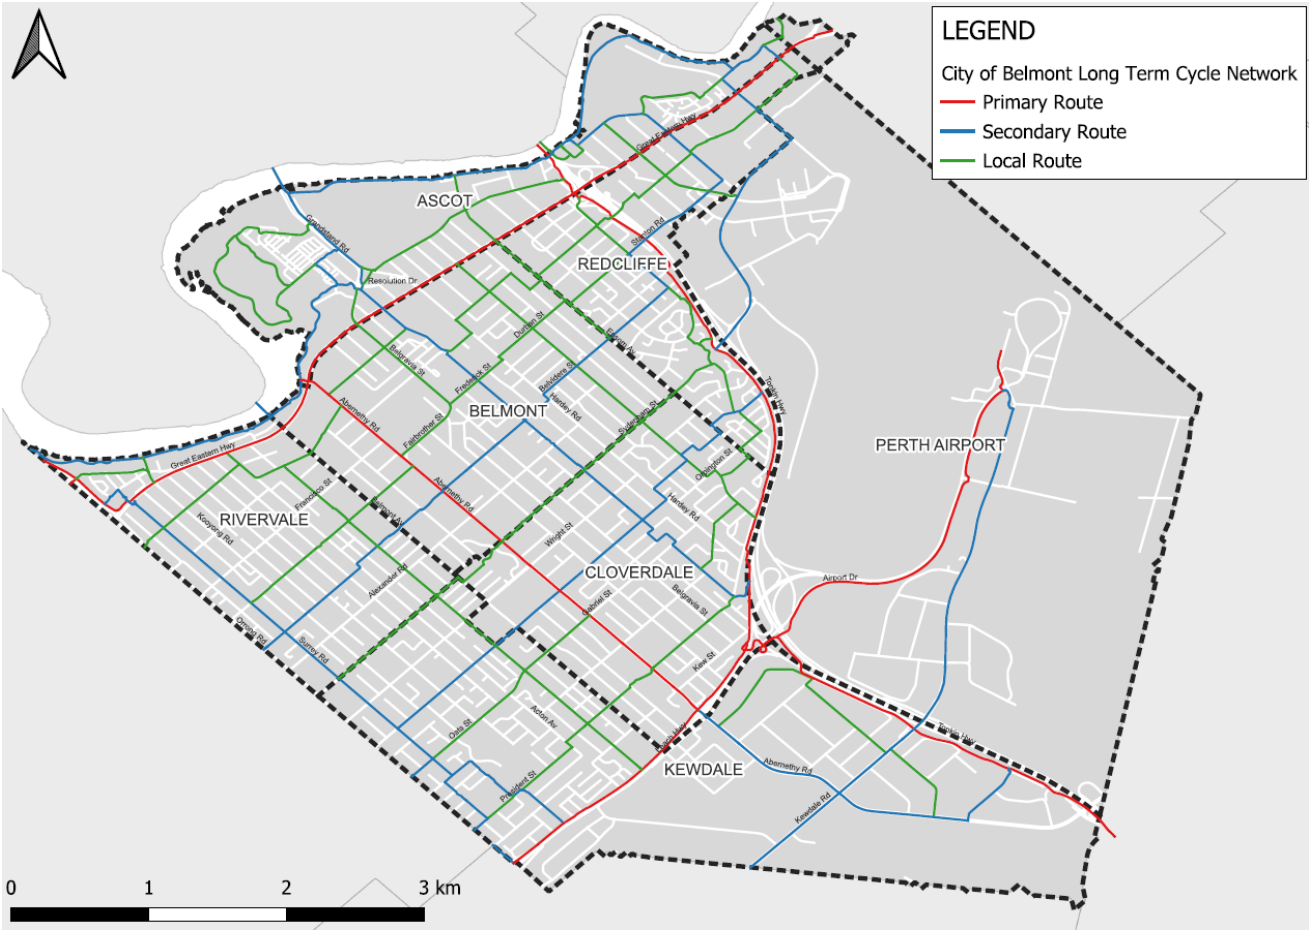

The DoT is working with various local governments across Perth and Peel to develop a long term planned network of bicycle routes that link parks, schools, community facilities and transport services, to contribute to making bike riding a convenient and viable option.

The Western Australian Cycling Network Hierarchy designates routes by their function, which indicate the level of demand on the route, connectivity to different areas, roads, access points and activities that take place along the route.

	1. PRIMARY ROUTE	2. SECONDARY ROUTE	3. LOCAL ROUTE
Function	Primary routes are high demand corridors that connect major destinations of regional importance. They form the spine of the cycle network and are often located adjacent to major roads, rail corridors, rivers and ocean foreshores. Primary routes are vital to all sorts of bike riding, including medium or long-distance commuting / utility, recreational, training and tourism trips.	Secondary routes have a moderate level of demand, providing connectivity between primary routes and major activity centres such as shopping precincts, industrial areas or major health, education, sporting and civic facilities. Secondary routes support a large proportion of commuting and utility type trips, but are used by all types of bike riders, including children and novice riders.	Local routes experience a lower level of demand than primary and secondary routes, but provide critical access to higher order routes, local amenities and recreational spaces. Predominantly located in local residential areas, local routes often support the start or end of each trip, and as such need to cater for the needs of users of all ages and abilities.

Western Australian Cycling Network Hierarchy. Source: Department of Transport

The City has a long-term aspirational cycling network, with primary routes running along major roads such as Tonkin Highway, GEH, Leach Highway and Abernethy Road. Various secondary routes and local routes are also proposed throughout with routes and linkages arranged in a grid-like pattern.

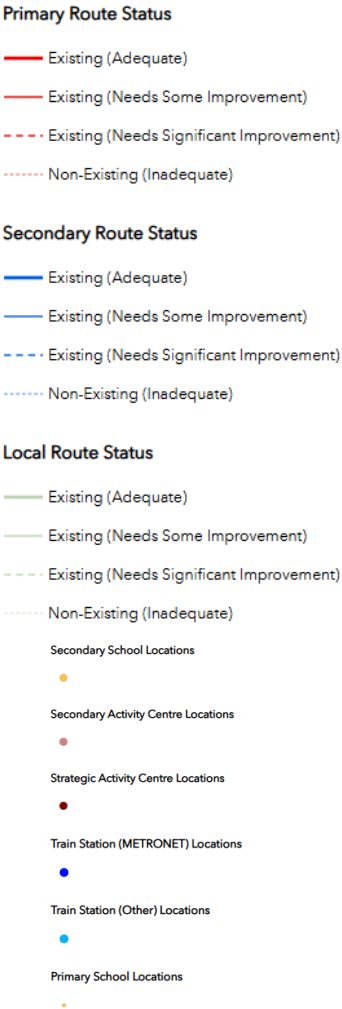

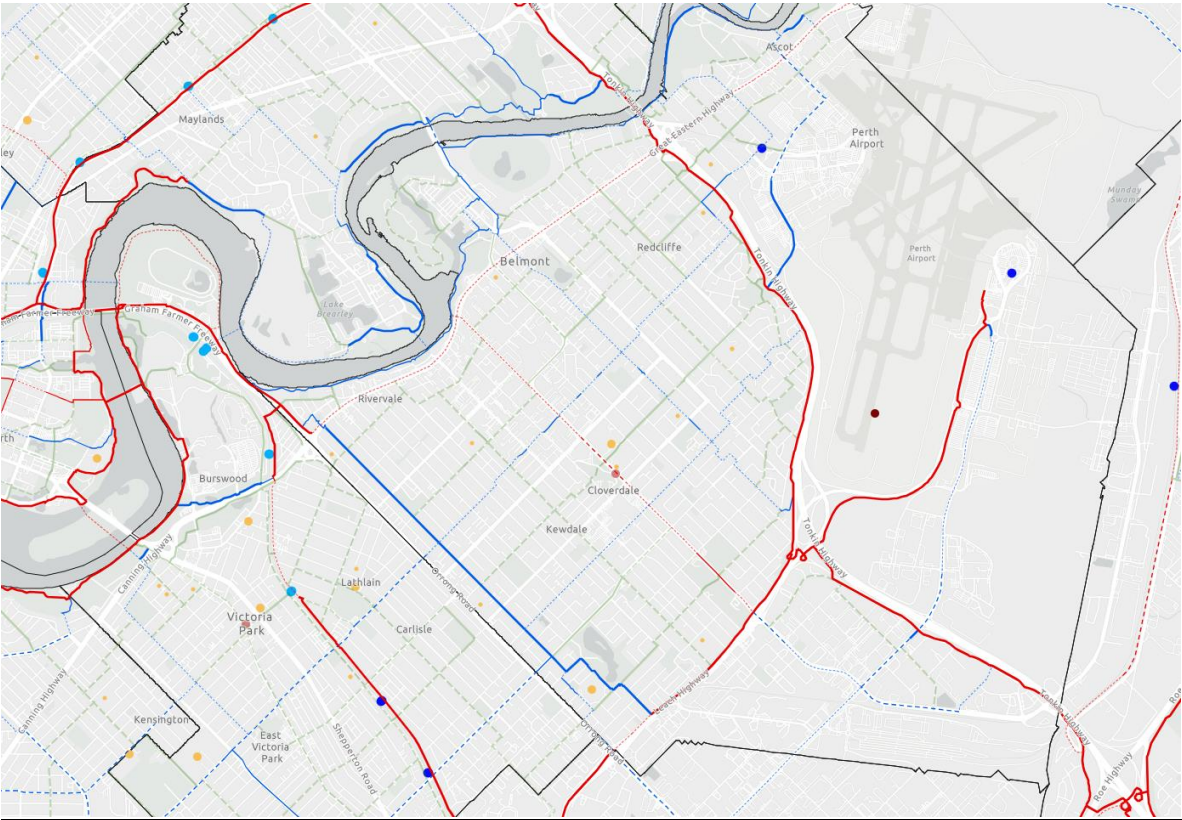

LTCN City of Belmont. Source: Department of Transport Perth and Peel Long Term Cycle Network (2024)

Attachment 12.3.1 Sustainable Transport Strategy - 2025 - 2030

A comparison between the aspirational plan and the current cycling network in the City highlights areas for improvement, especially around the Belmont, Rivervale and Cloverdale suburban areas. The LTCN being an aspirational network allows for modifications; however, the reality of the network itself is very much long-term.

Despite these challenges, the City has made progress and will continue to develop its cycling network towards the LTCN goal over time, as priorities and funding allow.

LTCN Route Status (City of Belmont). Source: Department of Transport Perth and Peel Long Term Cycle Network (2024)

5.3 Public Transport Network

Public transport is essential for connecting residents of the City to key destinations within the City and other strategic areas where people commute to and from work. High-quality, easily accessible public transport is crucial not only for those without private transportation but also for promoting a decrease in the number of private vehicles traveling to, from, and within the City.

The Public Transport Authority (PTA) has continually been investing in Perth’s public transport network and exploring ways in which residents could be encouraged to choose alternative ways to commute. For example, passengers were able to enjoy free travel on trains, buses and ferries in summer in December 2024 to February 2025, following its success in the previous year.

Over the summers of 2023 and 2024, 8.3 million SmartRider boardings across bus, train and ferry services were recorded, which resulted in a 42% increase in total boardings for the 23/24 year. To compliment this initiative, parking was free when using a SmartRider

at parking stations, within that same year according to the PTA Annual Report, Transperth experienced 144+ million boardings, the highest results since 2015-16. This marked the largest year-on-year increase in total boardings on record, driven by the introduction of the two-zone fare cap in January 2022 and a 27% increase in the number of timetabled weekly services across Perth.

The City’s residents can conveniently and easily connect to numerous key destinations within and outside the local area, such as the Perth Airport, Perth CBD and the Welshpool industrial area. Connections to key destinations have been made simple for commuters where taking one bus that runs frequently will ensure quick and timely arrivals without major traffic delays to and from daily commutes.

Navigating around the City has been made easier for commuters with the City’s website and the Your Move Map which highlight various routes and transit connections throughout the City.

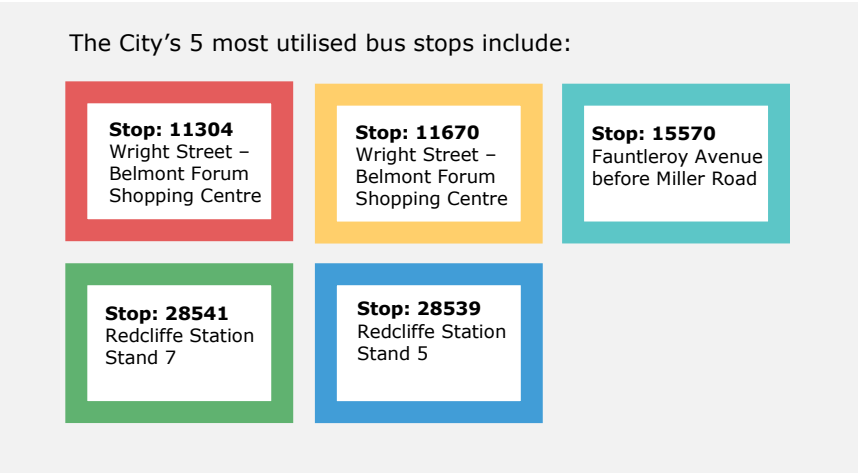

5.3.1 Bus Services

The City is currently well-served by 16 standard bus routes operating daily from 6am to 8pm, with a bus interchange located at Redcliffe Train Station. During weekdays, services run approximately every 20 minutes during peak hours, every 45 minutes during off-peak times, and every 30 to 60 minutes on weekends²².

Additionally, there are four high-frequency bus routes within the City, operating daily from 4:30 a.m. to just past midnight. These routes offer services approximately every 10 minutes during weekday off-peak periods, every 5 minutes during peak times, and every 15 minutes on weekends and public holidays. The high-frequency routes are as follows:

- **Route 935:** Redcliffe Station to Kings Park
- **Route 940:** Redcliffe Station to Elizabeth Quay
- **Route 998:** Clockwise Circle Route
- **Route 999:** Anti-clockwise Circle Route

Bus Services in City of Belmont

5.3.2 Train Services

The City is currently serviced by one suburban train station, Redcliffe Train Station which began operation in 2022 and is located within Zone 1 of the Transperth fare system. The station is located along the Airport line extending from High Wycombe to Claremont and includes stops at the Perth Airport and Perth CBD.

The station provides riders with two bike shelters and 88 bicycle bays, to encourage large numbers of those choosing ride.

METRONET Airport Line Stations. Source: City of Belmont

The need for timetable alignment between train and bus services at the Redcliffe Train Station has been considered by the PTA to encourage and provide users with an easy and seamless connection, with services running every 5 minutes within peak AM and PM periods from 5:30am to just past midnight.

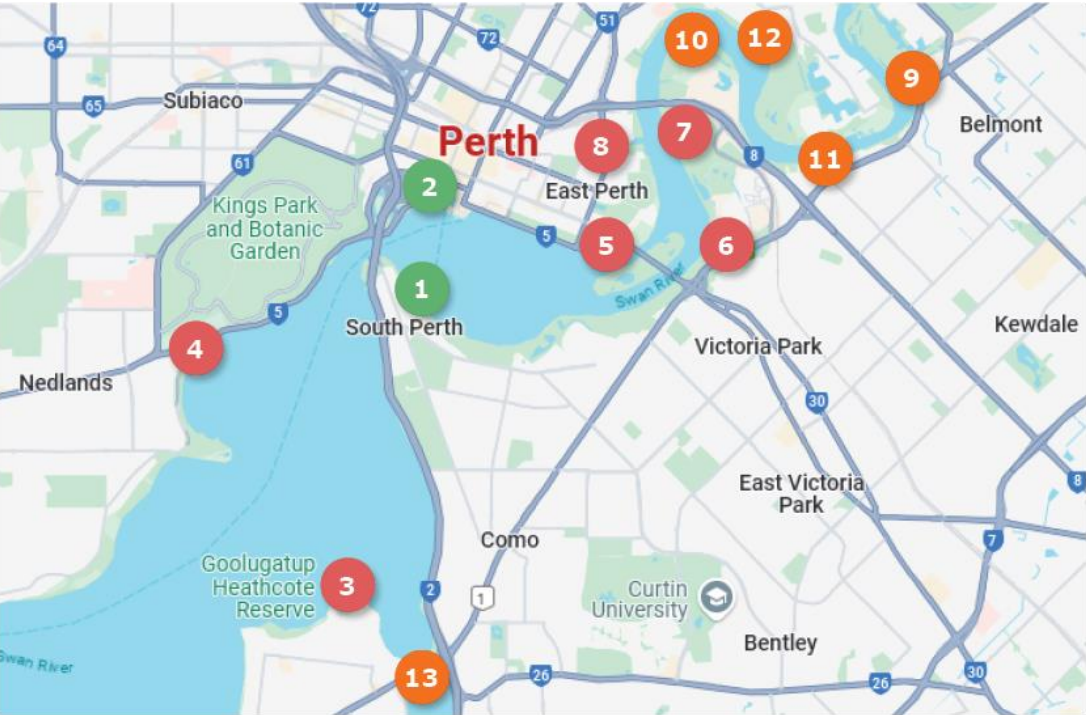

5.3.3 Ferry Services

The State Government has recently explored the introduction of several new ferry routes along the Swan River, with the City identified as having two potential stop locations. This consideration follows a significant increase in ferry usage, with boardings rising to nearly 110,000 in January 2024, an increase of 49,000 from January 2023.

However, ferry transport is not included in this STS, as it is a State Government initiative. At present, there is no definitive timeline for the implementation of these proposed ferry stops.

However, discussions around potential locations within the suburbs of Belmont and Rivervale along the Swan River have been in consideration by the State Government²³. To encourage future ferry use, active travel options and public transport links directly to the potential future stops would be highly encouraged for the City to support.

Ferries of the future

Swan River Ferry Map. Source: Transperth

Already in operation	Being investigated	Future consideration
1 Elizabeth Quay	3 Applecross	9 Belmont
2 South Perth	4 Matilda Bay	10 Belmont Park
	5 Point Fraser	11 Rivervale
	6 Burswood Park	12 Maylands
	7 Optus Stadium	13 Canning Bridge
	8 Claisebrook Cove	

5.4 Road Network

The road network in the City is well-developed, featuring a traditional grid pattern for local streets and series of major strategic highways including Tonkin Highway, Leach Highway, GEH and Orrong Road. These highways have been upgraded extensively within the City over the past 10-15 years and now function effectively to distribute regional traffic to and around the City.

The Grandstand Road / Belgravia Street / Abernethy Road corridor performs a District Distributor function through the heart of the City, serving the city centre, mixed business area and connecting to the important Garratt Road Bridge over the Swan River.

The existing road network is crucial for traffic movement throughout the broader Perth area, given its strategic proximity to Perth Airport and its connectivity to major industrial and employment centres in Kewdale and the Belmont Mixed Business Area. A well-defined local distributor road network facilitates movement within the area.

Road Hierarchy (City of Belmont). Source: Main Roads Western Australia

There are also a number of ongoing future road network plans that aim to improve safety for all road users. An example is the Orrong Connect, a project led by Main Roads Western Australia (MRWA), centred around improving this corridor's function as a transport and freight corridor, as well as improving travel times, safety and accessibility for all road users.

The City has completed a comprehensive traffic study in the Redcliffe area to examine road usage and planned developments, including upgrades to Perth Airport, Redcliffe Rail Station and Development Area 6 (DA6). The study aims to determine optimal short-, medium-, and long-term treatments for the area.

Road Speed Limit (City of Belmont). Source: Main Roads Western Australia

5.5 Road Safety

The Western Australian Driving Change – Road Safety Strategy for Western Australia 2020-2030, sets out the State’s vision for reducing the number of people killed, seriously or severely injured by 50-70% by 2030. The overarching foundation of this Strategy recognised a Safe System approach, which identifies strategies to improve safety throughout the road network. These strategies focus on safer speeds, road network improvements and safer driver behaviour.

The Casualty Crashes bar chart within the City between 2019 and 2023 reveals an increase in these type of crashes especially compared to previous years. The accompanying Cumulative Crashes Heatmap further highlights areas with the highest concentration of crashes during the same period.

Interestingly, the data shows an increase in casualty crashes during the COVID-19 years (2020-2021) despite an overall drop in traffic volumes during this period counterintuitive to what is generally expected (i.e. less traffic equals less crashes). While it is difficult to pinpoint the exact reason for the spike in crashes, one theory suggests that elevated anxiety and stress levels caused by the pandemic and lockdowns can negatively affect driver behaviour and decision making.

Casualty Crashes from 2019 - 2023 (City of Belmont). Source: Main Roads Western Australia

The Cumulative Crashes Heatmap focuses strictly on pedestrian, cycling and e-rideable crashes. This highlights pre-existing safety issues associated with active transport modes and will assist with the development of active transport related safety measures.

Unsurprisingly, a large proportion of crashes occur on busy state arterial roads such as GEH, Orrong Road, Tonkin Highway and Leach Highway; and local arterial roads such as Abernethy Road. These roads carry significant traffic volumes and contain a large number of signalised intersections which contain a greater concentration of crashes.

Cumulative Crashes Heatmap from 2019 – 2023 (City of Belmont). Source: Main Roads Western Australia

Crash severity risk map. Source: DoT

A detailed analysis of crash data by suburb reveals the severity and key patterns of incidents involving pedestrians, cyclists, and other mobility device users. This helps identify specific locations where safety improvements are most needed. The subject detailed crash dataset is included in the appendix, offering further insight into the distribution and characteristics of these incidents across the City.

In line with the crash data findings, the image below highlights the correlation between vehicle speed and the severity of injuries for pedestrians and cyclists. Notably, a vehicle speed of 30 km/h is likely to provide a 90% chance of survival for a vulnerable road user if struck.

6. Gaps in Existing Network

It is important for everyone in the City's local community to access and enjoy the local streets. Which is why closing the gaps in the existing networks is important, with more paths, crossings, safer bike riding and walking options for everyone to enjoy.

The community consultation, internal feedback and saddle survey identified a range of gaps within the City's existing network. The key focus areas raised include:

- **Active transport** (e.g. footpaths, bike paths, pram ramps, missing wayfinding signages, etc.)
- **Road safety** (e.g. reduced speed limits, pedestrian crossings, traffic calming devices etc.)
- **Community safety** (e.g. street lighting, bike storage locations, crime prevention etc.)
- **Education of Active Modes** – workshops or other informative measures in which the community members are aware of the active modes available and their benefits, how to use them and how to get around the City safely.
- **Community perception** – working towards ways in which the community would prefer the choice of active transport to get them from location A to location B.
- **Wayfinding** – creating more universal wayfinding options for local residents given the diversity within the City.

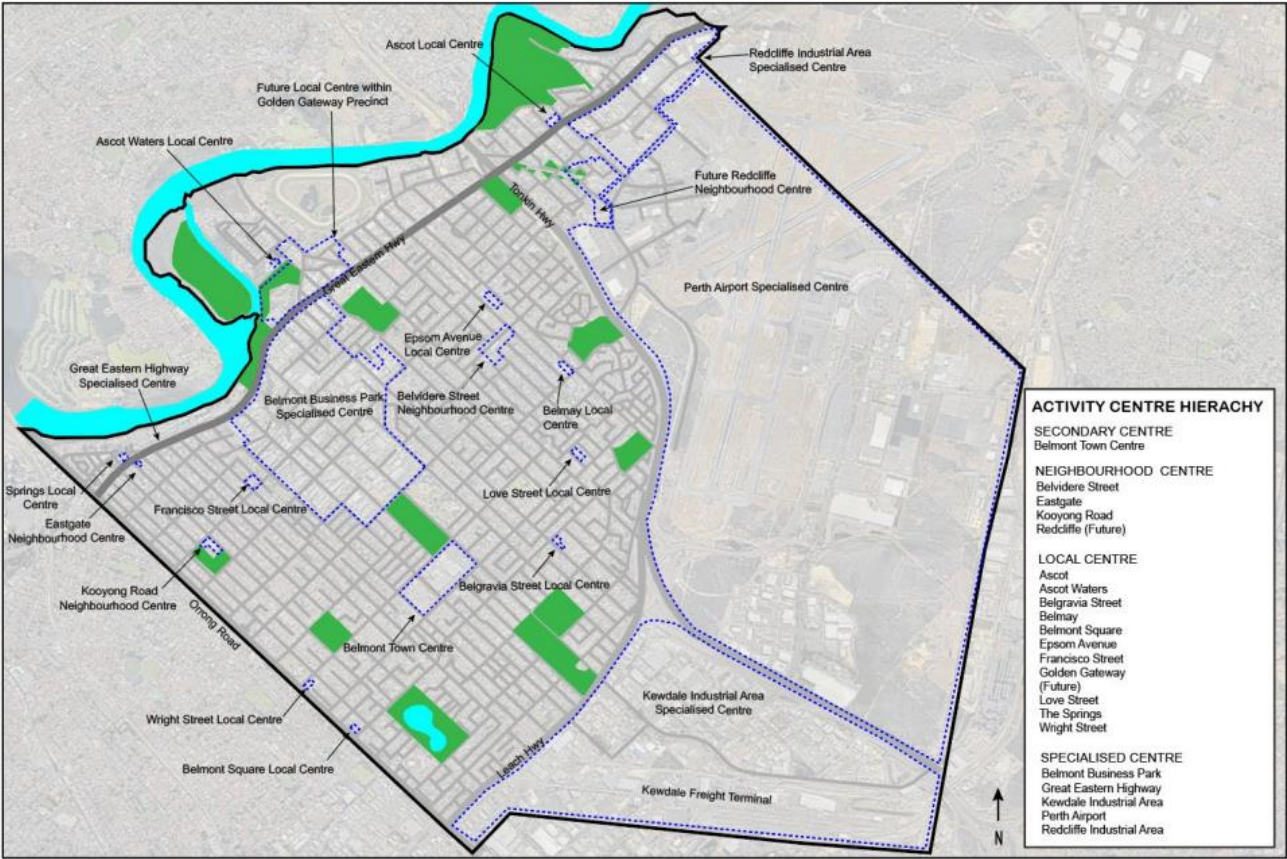

Effective infrastructure planning must support safe and efficient movement across the City, aligning with how the community lives, works, and accesses goods and services. By coordinating land use, infrastructure, and transport, the City can create more connected, functional, and liveable environments.

6.1 Activity Centre Planning Strategy

The City endorsed the Activity Centre Planning Strategy (ACPS) for adoption at the 27 February Ordinary Council Meeting (OCM) of 2024. The ACPS considers the hierarchy of activity centres, against the guidance provided under *State Planning Policy 4.2 – Activity Centres for Perth and Peel (SPP4.2)* located within the City.

The ACPS was developed in consultation with the community and received submissions for consideration during the advertising period from October to November 2023.

The ACPS represents a comprehensive strategic document for shaping the City’s new Local Planning Strategy and Planning Scheme. The document will guide the future planning, coordination and economic sustainability of the City’s activity centres.

Activity Centre Locations – City of Belmont

The ACPS has the following structure:

Part One

Part One provides an overarching background and includes a description of demographic trends, strategic and economic context, details of previous community consultation, and sets out the future vision, strategies and objectives.

Part Two

Part Two provides an in-depth analysis of each activity centre and sets out actions under three key focus areas as follows:

- **Centre Context:** The context section analyses the current centre boundary, associated catchment area, and the zoning and residential densities within and surrounding the activity centres.
- **Movement:** The movement section analyses the current movement network (walking, cycling, private vehicles and public transport) within and surrounding each activity centre, and details areas which can be investigated for improvement.
- **Place:** The place section focusses on the potential to improve the overall attractiveness of activity centres through the investigation of actions relating to streetscape improvements, open spaces/ meeting places of public art.

Key themes and actions relating to the STS identified across the various Activity Centre Plans are summarised as follows:

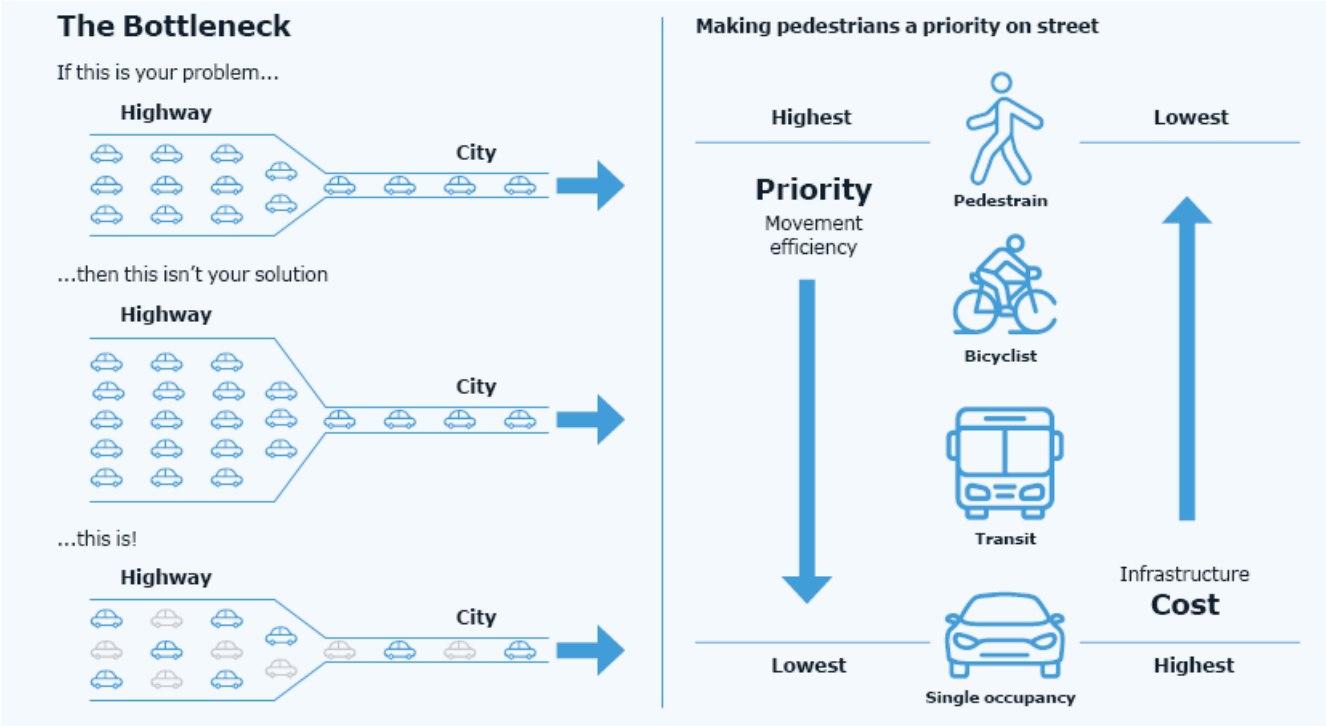

- **Cycle Network:** Cycling is not really encouraged within activity centres and there is an opportunity for improvements such as dedicated lanes or additional on-road safety measures in place to protect cyclists from motor vehicles.
- **Public Transport:** Some activity centres do not have bus stops either located within or close proximity.
- **Road Safety:** There is an opportunity to reduce speeds within an activity centre to 40 km/hr or 30 km/hr as planned for the Belvidere Street upgrade project under development by the City. Other potential areas include Epsom, Belmay and the vicinity of Belmont Forum. Infrastructure measures such as traffic calming, street tree planting, median and verge landscaping can positively influence driver behaviour to slow down and improve the environment for active transport modes of travel such as pedestrian movements and cycling. These infrastructure measures will support the development of pedestrian and cyclist priority crossings, along with travel behaviour programs to reduce car usage.
- **Public Realm:** Opportunity for enhanced spaces and places that are open and freely accessible to everyone, towards improving a sense of place, including streets, laneways and roads, parks, public plazas, waterways and foreshores.
- **Wayfinding Signs:** Opportunity to improve wayfinding signage that promotes alternative active and public transport modes with activity centres.

Car Parking: Investigate payment-in-lieu of parking plan and the implementation of limited time parking for example the Belmont Town Centre and the Belvidere Neighbourhood Centre. These initiatives will help facilitate driver behaviour change and improve the attractiveness of active transport modes.

7. Exploring Opportunities

Historically, road infrastructure and rail corridors have fragmented neighbourhoods, resulting in reduced safety, attractiveness, and accessibility for other users. These divisions create significant barriers that discourage active transportation participation.

Addressing gaps and implementing strategies that create a safer environment for sustainable urban mobility will help reduce costs, both for the City and the residents, reduce traffic congestion, and increase in participation in active transportation. By doing so, it is possible to encourage residents to integrate active transportation into their daily routines, making it a viable choice for all while addressing future traffic volume challenges.

7.1 Making it Easy, Attractive, Social and Timely

To support the shift towards more active and sustainable transport choices, The Easy-Attractive-Social-Timely (EAST) framework offers simple yet effective principles to help guide policy makers and the design of services. Behavioural insights have gained traction globally, including in Australia, where Behavioural Insights units in New South Wales and Victoria have successfully applied these insights to improve public services and community outcomes. The core principles of this framework are as follows:

Make it Easy

Means to simplify whenever possible, reduce friction and effort from users of a service. Travel decisions are often driven by habit, and individuals tend to select the most convenient options. When a transportation mode becomes complicated or requires a level of effort, individuals are likely to abandon it.

Example: If a person must transfer between three different buses to reach work, they may be dissuaded from using bus services altogether.

Make it Attractive

We are more likely to do something that our attention is drawn towards. An appealing environment encourages exploration and engagement. People are generally more inclined to partake in activities that capture their interest. Moreover, offering incentives for sustainable travel choices can further motivate individuals.

Example: displaying bright, informative posters at bus stops can raise awareness about nearby destinations, or a workplace might host a morning tea for employees who choose active commuting methods. Or incorporating beautification such as great artwork on streetscapes or green areas.

EAST Insights. Source: Behaviour Institute UK

Make it Social

We are greatly encouraged and motivated to take action when we have support, connection, and a sense of social validation and belonging. Incorporating a social aspect into active and sustainable transportation can enhance participation.

Example: organising a group bike ride or a neighbourhood walk with friends and/family can foster positive choices through social interaction.

Make it Timely

It's important to consider the timing in understanding when people are most likely to embrace change, try new experiences; or identify what they would like to see as a regular action. Transportation options must be prompt and reliable to facilitate a shift in preferred travel modes while remaining cost-effective.

Example: an individual is less likely to choose bus travel if service is limited to once per hour. However, if the bus fare is significantly lower than the cost of using a private vehicle, they may be more willing to tolerate longer wait times.

EAST Insights. Source: Behaviour Institute UK

7.2 Activation around Stations

Placemaking is a strategic process aimed at enhancing spaces by addressing their unique characteristics and needs. This approach fosters vibrant and thriving environments that encourage users and visitors to linger and fully enjoy these areas.

Activating spaces may involve various elements, such as shaded seating, mobile coffee carts, appealing wayfinding signage, lighting installations, public art, designated areas for small market stalls, and green spaces—all of which serve to draw local residents to specific locations.

The EAST framework can be incorporated in new initiatives City-wide to influence commuters' travel behaviour, with the following examples:

Easy: The Redcliffe Train Station is strategically well located, providing commuters with direct access to the Perth CBD and the Perth Airport. Numerous buses travel to the station across the City making it easy to get to.

Attractive: The adjacent image illustrates effective, attractive and visually engaging wayfinding signage with bright colours and high visibility, that could be incorporated in or around the station's existing designs.

Social: Around the world, stations have used active design—such as colouring or enhancing staircases—to encourage more people to choose stairs over escalators. These small design prompts help users move more throughout the day, creating easy opportunities for healthier habits and small wins.

Timely: Real-time information at bus stops helps residents and visitors make informed travel choices, improving accessibility, reducing wait times, and encouraging greater use of active and public transport.

Interactive digital sign at bus stop by Just Digital Signage. Source: Sunshine Coast Council

7.3 Cycling to Stations

Cycling to public train stations offers an excellent opportunity for individuals to integrate cycling into their longer commutes, particularly to frequently visited destinations such as workplaces in the Perth CBD. Within the City, Redcliffe Train Station is conveniently located to the east, near Perth Airport, serving as an accessible transit point for residents from Redcliffe, Belmont, and Cloverdale. The station features ample bicycle parking and a dedicated bike shelter.

Additionally, while the Armadale Train Line stations are situated outside the City’s boundaries, they remain within a reasonable cycling distance for many residents of Rivervale and Kewdale.

To promote cycling throughout the City, the installation of simple, attractive, and brightly coloured wayfinding signage could be beneficial. This signage would indicate distances and estimated travel times from various locations to key destinations within the City.

Attachment 12.3.1 Sustainable Transport Strategy - 2025 - 2030

The City of Zurich, Switzerland, has implemented an initiative through the introduction of the Zurich Card for visitors. The card provides a range of discounts on travel, gastronomy, attractions and more, making experiences within the local area and surrounding region more accessible and attractive²⁴. This initiative aims to boost the local economy while highlighting that many of these experiences can be reached using active and public transport options.

7.4 Skinny Streets

The Skinny Streets concept, developed in the 1990s in the United States, aims to reduce the standard widths of municipal streets in response to community concerns about traffic speeds and road safety. Narrowing key connecting streets improves road safety, encourages slower traffic speeds, and enhances the overall amenity for all street users. Examples of attractive narrow streetscapes include the Dutch-style "Woonerf" and other similar road layout concepts.

7.5 Healthy Streets

Similarly, the Healthy Streets approach has been implemented across NSW and WA since 2019. This program emphasises that every decision regarding the built environment, no matter how minor, presents an opportunity to enhance living conditions and public health. It incorporates 10 indicators that promote social, economic, and environmental sustainability through effective street design and management, of which each of the indicators help in determining how healthy a street is. The focus is on building upon existing conditions to continuously improve rather than striving for a fixed end goal.

Healthy Streets Indicators and before vs after example. Source: Healthy Streets Ltd, 2025

7.6 Pop-up Bicycle Lanes Program

In 2020, the Department of Transport and Planning in Melbourne launched a pop-up bicycle lane program aimed at encouraging increased bicycle usage among residents. This initiative employs temporary infrastructure that can be modified based on community feedback and ongoing assessments. The proposed routes were designed to remain in place for 12 to 18 months, after which they could either be removed or, if deemed successful, transitioned into permanent cycling routes.

The selected routes addressed identified "missing gaps" in the cycling network, with input gathered from the community during the consultation process. The program proved to be a successful initiative, resulting in an increase in the number of community members utilising bicycles.

Separated bicycle lanes were very popular amongst the community consultation feedback results, as they would assist in making bike riders feel safer sharing the roads. This particular program could be implemented on roads known to be popular with like riders (STRAVA data/ LTCN maps for primary routes) to improve safety and connectivity within the City.

Pop-up Cycle Lanes in Melbourne. Source: Victoria State Government, Department of Transport and Planning

7.7 Think of the Impact Car Dooring Campaign

"Car dooring" refers to the incident where a driver or passenger opens a car door into the path of a cyclist, potentially leading to serious injuries. In response to this issue, the *Think of the Impact* campaign was developed by the City of Sydney and NRMA to raise awareness and reduce the incidence of such accidents.

The campaign aimed at both drivers and cyclists, encouraging motorists to check for cyclists before opening their doors. Advertising efforts included placements on the backs of buses and taxis, roadside billboards, and stickers on car doors and bicycles, all designed to remind individuals to be vigilant and watch out for one another. The Campaign has been successful with over 20,000 stickers requested by both bike and car users.

Think of the Impact Advertising. Source: City of Sydney Council

7.8 Share the Path

As the number of cyclists increases, fostering mutual respect between pedestrians and cyclists on shared paths has become increasingly important. The Share the Path program is a face-to-face educational initiative in Sydney, conducted two times a week, where local government staff and cycling education suppliers engage with people walking and riding about courteous behaviour. Key discussion points include giving way to pedestrians, slowing down, passing at a safe distance, and ringing bells in advance as a courtesy when passing people walking.

In these sessions, bike mechanics provide free tune-ups, facilitating longer conversations with people riding. During these interactions, they distribute bells, maps, and information about upcoming events, projects, and cycling courses. Overall, the program has been successful in encouraging both beginner and experienced riders to get involved, ride courteously, and make use of the free services provided to them.

Share the Path Program. Source: City of Sydney Council

7.9 Safe Active Streets Pilot Program

Safe Active Street Pavement Markings. Source: Department of Transport

The Department of Transport has been collaborating with various local governments across Western Australia to develop "Safe Active Streets," where traffic management measures, are being tested and assessed to encourage people to walk, cycle, and use other active transport modes in their communities.

The Safe Active Streets typically consist of a mix of physical infrastructure such as single land slow points and raised intersections, as well as signage and pavement markings, to slow vehicular traffic to a maximum speed of 30 km/h.

8. Moving Forward

8.1 Key Stakeholders

As the City moves towards a sustainable future and focuses on ways to adapt to predicted growth, it is important to acknowledge the variety of key State Government agencies and groups which form part of the Western Australian transport portfolio. The City will aim to work and explore various opportunities with the below agencies and groups to ensure the City's goals can be achieved moving forward.

Transport Portfolio Governance Council

- Department of Transport (DoT) - representing the 3 key transport agencies including MRWA and PTA
- METRONET
- Office of Major Transport Infrastructure Delivery (OMTID)

Bike Riding Reference Group (BRRG) in WA

- DoT
- Department of Health (DoH)
- Department of Biodiversity, Conservation and Attractions (DBCA)
- Department of Planning, Lands and Heritage (DPLH)
- Department of Local Government, Sport and Cultural Industries (DLGSC)
- Department of Education (DoE)
- Road Safety Commission
- WA Police Force
- Tourism WA
- WestCycle
- Western Australian Local Government Association (WALGA)
- Institute of Public Works Engineering Australia (IPWEA)
- Australian Institute of Traffic Planning and Management (AITPM)
- Royal Automobile Club of Western Australia (RAC)
- Healthway

Key Infrastructure Delivery Providers

- Water Corporation
- Western Power
- MRWA
- PTA
- City of Belmont

Local and Vicinity Stakeholders

- Local schools and educational institutions
- Local commercial precincts and business associations
- Local community organisations and resident groups
- Perth Airport (federally regulated, locally influential)
- Neighbouring LGAs

8.2 The City’s Purpose and Roles

In accordance with the *Local Government Act 1995 (WA)*, the City’s purpose is to meet the needs of current and future generations through an integration of social advancement, environmental protection and economic prosperity.

While the City has some autonomy in delivering local initiatives, it operates within a broader governance framework. Many transport and infrastructure projects must align with state policies, involve collaboration with external stakeholders, and often require advocacy.

Lead

We lead community engagement and strategic planning to create a shared vision.

Advocate

We are a voice for the local community on local and contemporary issues.

Facilitate

We enable service delivery through partnerships, funding and other support.

Deliver

We provide infrastructure, services, events and communications to meet local needs.

Educate

We deliver public education programs for improved sustainability and wellbeing.

Regulate

We comply with enforce legislation, regulations, local laws and policies.

City’s Role, Corporate Business Plan 2024-2034. Source: City of Belmont

8.3 Priority Initiatives

The STS seeks to create greater opportunities for the City’s diverse community to access essential and significant life experiences, feel connected, included, and empowered.

The STS supports the City’s long-term vision and aligns with its five strategic pillars: People, Place, Planet, Prosperity, and Performance. The strategy will play a key role in delivering the desired outcomes across these pillars by making it easier for people to travel and engage with their surroundings in more meaningful and sustainable ways, ultimately contributing to a greater impact.

The following outlines the priority initiatives identified through the STS and explore how they contribute to the City’s broader goals of growth, inclusivity, and resilience.

Strategic Community Plan 2024-2034 – City of Belmont

8.3.1 People

We have a diverse, harmonious, healthy and active community, where everyone feels safe and there is a strong sense of connection, belonging and pride in the area. The integration of sustainable transport options strengthens this sense of community while promoting an eco-friendly travel choice.

Desired Outcomes

- 1: A safe, healthy community.
- 2: A strong sense of pride, belonging and creativity
- 3: People of all ages and abilities feel connected and supported

Priority Initiatives	City's Role
Deliver structured engagement programmes to raise awareness and educate the community on sustainable transport options and benefits.	
Collaborate with schools to encourage active travel modes through tailored engagement programmes	
Host active transport events to promote sustainable transport, leveraging social networks and community-wide participation.	
Promote road safety campaigns and programs for road users, including drivers, cyclists and e-scooter riders.	
Provide sustainable transport infrastructure at City events to encourage active transport.	
Improve comfort and safety by upgrading bus stops with amenities such as seats, shelters, and lighting, where suitable.	
Adopt universal access design principles for infrastructure upgrades for all mobility users.	

8.3.2 Planet

As we look to the future, we are committed to sustainable transport solutions that make intelligent use of our resources. By prioritising a sustainable transportation system, we aim to reduce emissions, improving the long-term health and well-being of our community and the planet.

Desired Outcomes

- 4: Healthy and sustainable ecosystems.
- 5: Climate resilience.

Priority Initiatives	City’s Role
Integrate streetscape enhancements such as green verges and street trees with existing and planned footpaths and cycle routes.	
Investigate opportunities to expand the EV and micromobility charging network, powered by renewable energy sources.	
Advocate to State Government for LED street lighting upgrades to improve safety for sustainable transport users	

8.3.3 Place

Enhancing accessibility with greener, more attractive streetscapes encourages slower speeds and improved safety building stronger social acceptance of sustainable transport. These actions align with our goals for sustainable population growth through responsible urban planning, making it easier and more enjoyable to move around the city.

Desired Outcomes

6: Sustainable population growth with responsible urban planning.

7: Attractive and welcoming places.

8: A city that is easy to get around safely and sustainably

Priority Initiatives	City's Role
Progress investigations to determine development requirements for the Long-Term Cycle Network - for future funding advocacy.	
Progress investigations for development of Cycle Streets, where infrastructure encourages and prioritises cyclist use over vehicles.	
Progress investigations for development of Green Routes, where routes link with parks and public open spaces.	
Progress actions identified in the City's endorsed Activity Centre Planning Strategy (ACPS), as per ACPS timeframes.	
Investigate routes and areas for reduced speed limit implementation as an improved environment for safe active travel modes.	
Advocate to State Government for inclusion of sustainable transport infrastructure with major network upgrades such as Orrong Road and Great Eastern Highway.	
Advocate to Main Roads WA to upgrade traffic signals for enhanced and safer pedestrian phases.	
Encourage the provision of active transport facilities for all new land use developments, located in key growth and high-density areas.	
Install improved sustainable transport support infrastructure such as bike stations and end of trip facilities at key locations.	
Expand local wayfinding signs to ease navigation for pedestrians, cyclists, and public transport users within the City.	

8.3.4 Prosperity

We are building a city where sustainable transport connects people to jobs, education, leisure, and tourism, and other essential activities. Leading by example, we are fostering a thriving, inclusive economy and vibrant community life.

Desired Outcomes

9: A progressive, vibrant and thriving economy with active participation in lifelong learning

Priority Initiatives	City's Role
Improve accessibility and connectivity to commercial and industrial precincts, educational institutions, community and City facilities.	
Improve accessibility and connectivity to Public Transport infrastructure.	
Advocate to the PTA for improved public transport sequencing by expansion and alignment of timetables and bus routes.	
Advocate for improved accessibility and connectivity through integration and expansion of the existing metropolitan transport network.	

8.3.5 Performance

In shaping a sustainable transport future, we listen to our community, embrace best practice, and lead with integrity. We are committed to inclusive, forward-thinking planning and speaking up for solutions that create positive impacts beyond the city’s borders.

Desired Outcomes

- 10: Effective leadership, governance and financial management.
- 11: A happy, well-informed and engaged community.

Priority Initiatives	City’s Role
Monitor and report progress on delivery of the initiatives identified in this Strategy.	
Monitor and report on the effectiveness of STS initiatives towards influencing behavioural change and increased use of sustainable transport modes.	
Maximise grant opportunities to fund sustainable infrastructure projects	
Investigate best practice in sustainable transport solutions, and adapt strategies and initiatives where feasible	

9. Performance Monitoring

The initiatives identified above will be progressed under a detailed implementation plan for the 5-year lifecycle of this strategy. Delivery of implementation plan actions will be monitored and reported against targets.

The effectiveness of the STS initiatives in influencing behaviour change and increased adoption of sustainable transport modes will be evaluated against the following metrics:

- **Sustainable Transport Usage** - Walking, cycling, and public transport use.
- **Private Vehicle Dependency** - Single-occupancy car trips, and traffic congestion.
- **Road Safety** - Pedestrian and cyclist-related accidents.
- **Community Participation** - Participation in active transport programs and local initiatives.
- **Community Satisfaction** - Improved satisfaction with pedestrian and cycling amenities.
- **Adoption of Emerging Mobility Trends** - Adoption of e-mobility solutions.
- **Funding Effectiveness** – City funds versus external grant funds.

The following data collection methods will be included to measure progress against the above metrics:

- **Census Data** – Journey To Work Census Data (when available).
- **Bike Count Data** – e.g. Super Tuesday bike count data.
- **Traffic Map MRWA Data** - Annual bicycle count data on PSPs.
- **MRWA Crash Data** – Review of crash reports involving vulnerable road users.
- **PTA Public Transport Patronage Reports** – Review changes in patronage levels.
- **DoT Your Move Program Activity** - Number of registered schools and workplaces and level of activity in the program.
- **Community Scorecard Surveys** – Insights on commuting travel choices, safety perceptions and priorities.

Appendix

A. Crash Data

A. Crashdata

This section presents an analysis of crash patterns using a 5-year dataset from MRWA. The focus is on identifying any spatial trends, severity levels, and contributing factors across different suburbs. By examining the distribution and nature of crashes over time, the analysis highlights high-risk areas—particularly for vulnerable road users—and supports considerations for road safety improvements.

Crash Severity Legend

- **Fatal:** Crashes resulting in one or more fatalities.
- **Hospital:** Crashes where individuals are injured and require hospital treatment.
- **Medical:** Crashes involving injuries that require medical treatment but not hospitalisation.
- **PDO Major:** Property Damage Only valued at \$3,000 or more.
- **PDO Minor:** Property Damage Only valued at less than \$3,000.

A.1 Rivervale

- North-west suburbs show the highest crash density and hospitalisation rates, often near road ends and along GEH.
- Crash recorded within this area mostly focused on GEH, many of which were the result of people attempting to cross the road. Based on the information provided, speeding does not appear to be the main cause in most cases which suggests that inattentive drivers being a key reason.
- Surrey Road, despite being a safe active street, also saw a fair share of bicycle crashes mostly caused by drivers turn in/out of side roads suggesting that they were not paying attention to cyclists on Surrey Road.
- Southern and eastern areas have more dispersed, low-severity incidents, mostly involving bikes or e-bikes.
- Crashes are more frequent near activity hubs, high density areas, intersections with 60km speed limit roads, and bus stops with higher usage rates.
- Rivervale had the highest number of crashes recorded within the City.
- No fatal crashes recorded.

Opportunities exist for the City to review crossing points, speed reduction measures, and bike infrastructure in high-risk, mixed-use areas.

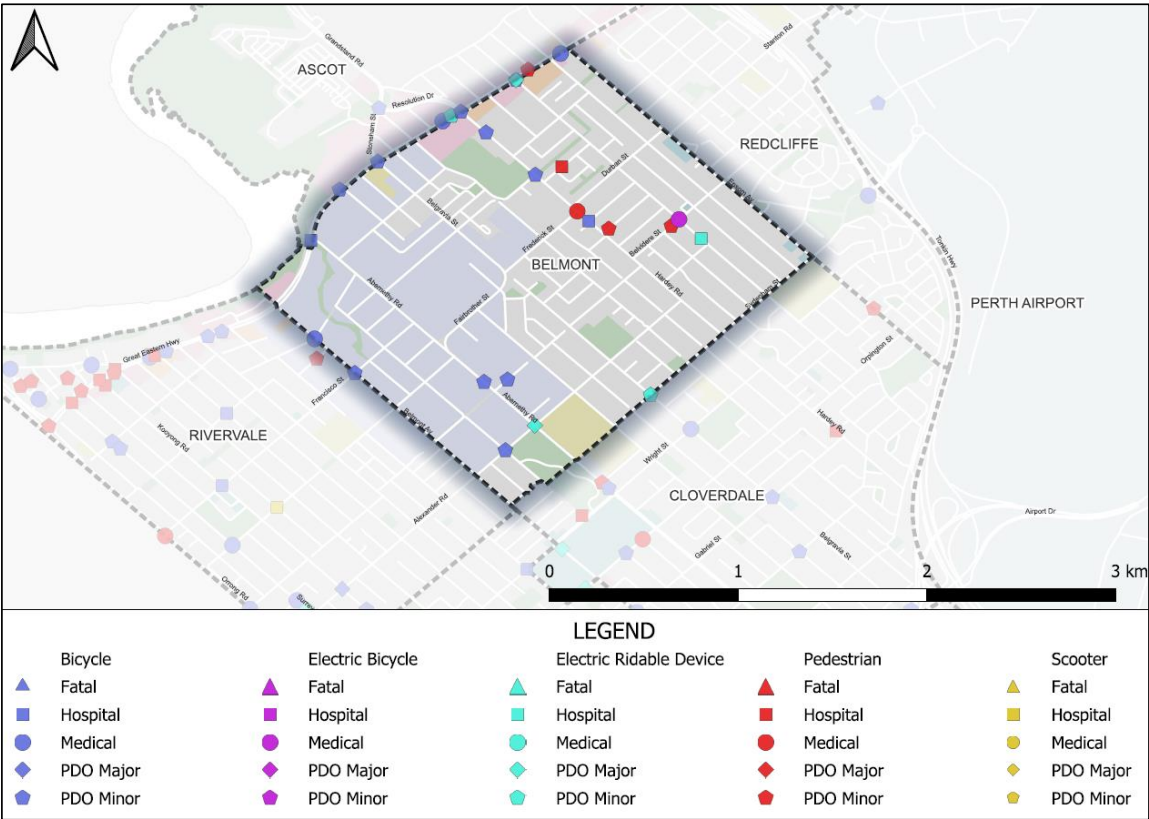

Severity of Crashes 2019-2023 - City of Belmont – Rivervale. Source: Main Roads Western Australia

A.2 Belmont

- Second highest number of incidents recorded
- Predominance of bicycle crashes
- Only 1 crash involving an e-bike
- A cluster of these incidents is located in north-eastern Belmont, with a mix of hospital-level, medical, and PDO outcomes.
- Severity is generally minor to moderate
- No fatal crashes recorded.
- Notable hotspots include:
 - Intersections along Hardey Road, a 60 km/h residential corridor with high-frequency bus services
 - GEH, showing a consistently higher number of incidents
 - Southern sections along Abernethy Road and Belmont Avenue
- Crashes predominantly occur at intersections of high-volume, high-speed roads, and around schools and activity centres, suggesting a strong link to mixed-use and high-foot-traffic areas.

Opportunities exist for the City to review crossing points, speed reduction measures, and protection for pedestrians and cyclists along transport corridors and near community hubs.

Severity of Crashes 2019-2023 - City of Belmont - Belmont. Source: Main Roads Western Australia

A.3 Ascot

- One recorded bike-related crash, classified as PDO Minor.
- The incident occurred at the roundabout of Resolution Drive and Grandstand Road.
- No other crash patterns could be identified in Ascot.
- Crashes along GEH were analysed under the Belmont suburb.

Severity of Crashes 2019-2023 - City of Belmont – Ascot. Source: Main Roads Western Australia

A.4 Cloverdale

- Bicycle-related crashes involving pedestrians
- No fatalities recorded.
- A couple of incidents with e-rideable users.
- Most crashes were PDO Minor.
- Crashes show a dispersed pattern, with clusters near activity centres, particularly around Belmont Forum and local schools—areas of high road user interaction.

Opportunities exist for the City to review crossing points, speed reduction measures and lighting near schools and commercial precincts.

Severity of Crashes 2019-2023 - City of Belmont – Cloverdale. Source: Main Roads Western Australia

A.5 Kewdale

- Crashes are generally dispersed, with a notable cluster along Orrong Road and other surrounding arterial routes.
- Most incidents are of minor to moderate severity
- A predominance of crashes is observed at intersections and along higher-speed, high-volume roads such as Wright Street and Oats Street, which form part of a public transport corridor.
- One fatal crash was recorded on Tonkin Highway, a state-managed road near the airport boundary.

Opportunities exist for the City to review intersection safety, speed reduction measures on key corridors, road safety near schools and in public transport zones.

Severity of Crashes 2019-2023 - City of Belmont – Kewdale. Source: Main Roads Western Australia

A.6 Redcliffe

- A low number of recorded crashes, predominantly involving pedestrians.
- Only 1 crash involving an e-bike.
- Most incidents occurred at intersections and near activity centres along the GEH.
- While the overall volume is low, the location of these incidents suggests a need to review pedestrian safety measures in high-traffic, mixed-use areas.

Opportunities exist for the City to review crossing points at key intersections and pedestrian visibility and safety near commercial areas along major corridors.

Severity of Crashes 2019-2023 - City of Belmont – Redcliffe. Source: Main Roads Western Australia

A.7 Airport

- A total of three accidents were recorded, all classified as PDO Minor.
- All incidents occurred around car parking areas, with no other significant patterns identified.

The Perth Airport area is under federal jurisdiction.

Cr Davis, Cr Harris, Cr Kulczycki, Cr Sekulla and Cr Sessions disclosed at Item 3 of the Agenda "Disclosure of Interest" an Impartiality Interest in the following item in accordance with Regulation 22 of the *Local Government (Model Code of Conduct) Regulations 2021*.

12.4 Corporate Business Plan and Long-Term Financial Plan

Voting Requirement	:	Absolute Majority
Subject Index	:	140/002, 140/015
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	N/A
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To seek Council endorsement of the:

- Corporate Business Plan 2025–2029 (Attachment 12.4.1), and
- Long-Term Financial Plan 2025-2035 (Attachment 12.4.2)

Summary and key issues

The City's Strategic Community Plan 2024-2034, Corporate Business Plan 2024-2028 and Long-Term Financial Plan 2024-2034 were adopted by Council at its Ordinary Council Meeting held on 24 June 2024.

These three documents are integrated as required by the *Local Government Act 1995 (WA)*, the *Local Government (Administration) Regulations 1996 (WA)* and the recommendations of the Department of Local Government, Sport and Cultural Industries' (DLGSCI) Integrated Planning and Reporting Framework .

The *Local Government (Administration) Regulations 1996 (WA)* requires a local government to review its Strategic Community Plan (SCP) every two years, and its Corporate Business Plan (CBP) annually. The Long Term Financial Plan (LTFP) is also subject to annual review to ensure alignment with the CBP.

The CBP and LTFP are due for review and have been revised as required. The revised Corporate Business Plan (CBP 2025-2029) and revised Long Term Financial Plan (LTFP 2025-2035) now require Council endorsement by 30 June 2025.

Note:

Cr Harris put forward the following Alternative Motion.

Alternative Councillor Motion

Harris moved, Sessions seconded

That Council:

1. Endorses the Long-Term Financial Plan 2025-2035, as per Attachment 12.4.1;
2. Endorses the Corporate Business Plan 2025-2029, as per Attachment 12.4.2 with the following modification:
3. Include under Outcome 8, an Action numbered 8.1.4, reading "Construct new, formal pedestrian crossings on Wright St (between the City Hub and Belmont Forum) and on Fulham Street";
4. Authorises the Chief Executive Officer to:
 - a. Make any minor changes to the Corporate Business Plan 2025-2029 and Long-Term Financial Plan 2025-2035 as required;
 - b. Include the 2025-26 budget information in the Corporate Business Plan 2025-2029, when the budget is endorsed by Council; and
 - c. Arrange for the Corporate Business Plan 2025-2029 and Long-Term Financial Plan 2025-2035 to be graphically designed prior to publication.

Reasons

- The zebra crossings on Wright Street and Fulham Street have been a long-term project for the City.
- The bus stops on either side of the Wright Street crossing are the most used in the City, and Belmont Forum is an area of high pedestrian activity. There is a clear need for formalised pedestrian crossings.

- These projects were included in the previous version of the Corporate Business Plan.
- On-ground works for the projects have not been begun yet.
- As the projects are not yet done, it would be premature to remove them from the Corporate Business Plan.

Lost 2 votes to 6

For: Harris and Sessions

Against: Davis, Kulczycki, Marks, Rossi, Ryan and Sekulla

Officer Recommendation

Kulczycki moved, Harris seconded

That Council:

1. Endorse the Corporate Business Plan 2025-2029, as per Attachment 12.4.1;
2. Endorse the Long-Term Financial Plan 2025-2035, as per Attachment 12.4.2;
3. Authorise the Chief Executive Officer to:
 - a. Make any minor changes to the Corporate Business Plan 2025-2029 and Long-Term Financial Plan 2025-2035 as required;
 - b. Include the 2025-26 budget information in the Corporate Business Plan 2025-2029, when the budget is endorsed by Council; and
 - c. Arrange for the Corporate Business Plan 2025-2029 and Long-Term Financial Plan 2025-2035 to be graphically designed prior to publication.

Carried unanimously by absolute majority 8 votes to 0

Consultation

Corporate Business Plan 2025-2029 – Following review of the CBP by all Managers and the Executive Leadership Team, modifications to the CBP have been made to create the CBP 2025-2029. The CBP 2025-2029 was then circulated to Elected Members via memorandum, inviting their feedback.

Long Term Financial Plan 2025-2035 - Input from all Managers and the Executive Leadership Team informed modifications to the LTFP to update the LTFP 2025-2035.

No specific community consultation is required for the CBP or LTFP, however both reflect the SCP 2024-2034 which was reviewed, developed and approved by Council in 2024 following community and Council workshops, a community survey and benchmarking using the Markyt Community Scorecard.

Strategic Community Plan implications

In accordance with the 2024-2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

The *Local Government (Administration) Regulations 1996 (WA)* provides as follows:

19DA. Corporate business plans, requirements for (Act s. 5.56)

- (1) A local government is to ensure that a corporate business plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- (2) A corporate business plan for a district is to cover the period specified in the plan, which is to be at least 4 financial years.

- (3) A corporate business plan for a district is to —
- (a) set out, consistently with any relevant priorities set out in the strategic community plan for the district, a local government's priorities for dealing with the objectives and aspirations of the community in the district; and
 - (b) govern a local government's internal business planning by expressing a local government's priorities by reference to operations that are within the capacity of the local government's resources; and
 - (c) develop and integrate matters relating to resources, including asset management, workforce planning and long-term financial planning.
- (4) A local government is to review the current corporate business plan for its district every year.
- (5) A local government may modify a corporate business plan, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.
- (6) A council is to consider a corporate business plan, or modifications of such a plan, submitted to it and is to determine* whether or not to adopt the plan or the modifications.

*Absolute majority required.

Background

Under the *Local Government Act 1995 (WA)* (the Act) and the *Local Government (Administration) Regulations 1996 (WA)* (the Regulations), all local governments in Western Australia are required to develop a Strategic Community Plan and a Corporate Business Plan, supported and informed by resourcing and delivery strategies, including the Long-Term Financial Plan. These three Plans drive the development of each local government's annual budget and help local governments plan for their community's future.

The City of Belmont's strategic and corporate planning processes are designed to meet the business needs of the City whilst addressing the requirements of the Act, the Regulations and the DLGSCI Integrated Planning and Reporting Framework and guidelines.

A Strategic Community Plan (SCP) is a long term, overarching strategic planning document that outlines the future aspirations and priorities for the community and sets out the key outcomes and objectives to achieve these. To ensure the SCP remains current and reflects community aspirations and

priorities, the SCP must undergo a minor review every two years and a major review every four years. The City's SCP 2024-2034 was adopted by Council, following a major review, at its Ordinary Council Meeting on 24 June 2024. The SCP is scheduled to undergo a minor review in 2026.

The Corporate Business Plan (CBP) complements the City's SCP. The CBP translates the aspirations, desired outcomes and objectives of the SCP into operational priorities, detailing how these operational priorities will be resourced and implemented over a four-year period.

The CBP and Long Term Financial Plan (LTFP) are required to be reviewed annually.

This year's CBP review is a minor review to update actions and reflect the progress of initiatives and projects, update the list of supporting documents and key information such as references and finances.

Report

The CBP is a significant part of the City's Integrated Planning and Reporting Framework, and is structured in alignment with the SCP's five Key Performance Areas:

- People
- Planet
- Place
- Prosperity
- Performance

The CBP articulates how the outcomes and objectives of each SCP Key Performance Area will be delivered through services, projects, initiatives and actions.

The proposed modifications to the CBP from this year's review ensure that the CBP 2025-2029 is current and that the actions contained within it reflect the progress of initiatives to meet the aspirations identified in the SCP.

The LTFP informs the delivery of SCP and CBP initiatives and actions as it enables the City to set priorities based on resourcing capabilities for short, medium and long term delivery of community requirements. The LTFP 2025-2035 is a critical document that underpins and influences the direction of the City's spending and investment now and going forward.

The LTFP is reviewed annually, providing an overview of the City's current financial position, approach to financial planning, revenue sources and the long-term projects the City is working to deliver to benefit the community over the next 10 years and ensure the City's long-term sustainability.

Council should note the following:

- The budget will be inserted into the CBP 2025-2029, once the Annual Budget is endorsed at the June 2025 OCM; and
- The CBP 2025-2029 and LTFP 2025-2035 will be graphically designed for publishing after endorsement.

Financial implications

The CBP 2025-2029 is informed by the LTFP 2025-2035 and is budgeted in the Annual Budget 2024-2025.

The LTFP 2025-2035 enables the City to set priorities based on its financial resources and ensure the City's long-term sustainability.

Environmental implications

The CBP describes how the City is working to achieve outcomes and objectives under the Key Performance Area 'Planet' in the SCP 2024-2034.

Social implications

The CBP describes how the City is working to achieve outcomes and objectives under the Key Performance Area 'People' in the SCP 2024-2034.

Attachment details

Attachment No and title	
1.	Long Term Financial Plan 2025-2035 [12.4.1 - 32 pages]
2.	Corporate Business Plan 2025-2029 [12.4.2 - 48 pages]

Long Term Financial Plan 2025-2035

Purpose

The City of Belmont (the City) is committed to transparent, responsible and accountable financial management. To achieve this, we have implemented the Integrated Planning and Reporting Framework introduced by the Department of Local Government, Sport and Cultural Industries which requires all Western Australian local governments to prepare a 10-year long term financial plan linked to a Strategic Community Plan and a Corporate Business Plan.

The City's Long Term Financial Plan 2025-2035 (LTFP) is Council's 10-year financial planning document and is a key resource that facilitates the delivery of the commitments made in our Strategic Community Plan 2024-2034. It enables us to set priorities based on our financial resources.

As such, it is a critical document that underpins and influences the current and future direction of City spending and investment.

The LTFP is reviewed annually to ensure the City's long term sustainability, and provides an overview of its financial position, approach to financial planning, revenue sources, and the long term projects we are working on to deliver benefits to our community over the next 10 years.

The following figure illustrates how the LTFP informs the Integrated Planning and Reporting Framework.

It should be noted that a number of assumptions are used in the LTFP. The LTFP and associated model is a forecasting and planning tool and is limited by the accuracy of the assumptions and other information used at the time of preparation.

The LTFP helps measure the City's capability to fund the Strategic Community Plan outcomes and also provides guidance to ensure the City continues to operate in an ongoing financially sustainable manner.

Integrated Strategic Planning

The Strategic Planning Framework outlines the method to achieve a sustainable local government through adopting a holistic approach to planning and reporting. It involves improving the integration of various statutory planning and reporting processes undertaken by the City through streamlining business processes, with input from the community.

A key element of the Integrated Planning and Reporting Framework is the Long Term Financial Plan. It is created with consideration for forecast income, cash flow, rate setting, financial position and equity statements, and enables the City to set priorities based on resourcing capabilities for short, medium and long term delivery of community requirements.

Strategic Directions

The principal guidelines for the Long Term Financial Plan are provided by the City's Strategic Community Plan.

The Strategic Community Plan 2024-2034 outlines our 10-year vision and key objectives. The City of Belmont exists to enable and motivate the community by creating opportunities for all to truly belong. In accordance with the *Local Government Act 1995*, our purpose is to meet the needs of current and future generations through an integration of social advancement, environmental protection and economic prosperity.

Our City

Belmont at a Glance

Located on Whadjak Noongar Country, along the banks of the Derbal Yaragan (Swan River), people have had a connection with Goorgyp (Belmont) for tens of thousands of years, with the area offering plentiful opportunities to live, trade, and recreate.

Situated 6km from Perth, the City of Belmont offers diverse housing, business and investment opportunities in two riverside suburbs (Ascot and Rivervale), four urban localities (Belmont, Cloverdale, Kewdale, and Redcliffe) and the Perth Airport precinct.

Today, the City of Belmont is a thriving municipality of over 45,000 residents with extensive parklands, a number of thriving shopping destinations and major industrial estates, and outstanding public facilities. This includes Ascot Racecourse and surrounding residential stables precinct, the picturesque marina at Ascot Waters and Adachi Park with spectacular views of the Swan River, and Belmont Hub. The Hub is an iconic, state-of-the-art, multilevel community facility that houses the museum, library, digital hub, senior citizens club and much more.

Being a city of opportunity, and one that deeply respects and values diversity, the City of Belmont has attracted and welcomed a large population of new migrants. More than 40% of residents were born overseas and 63 languages are spoken across the district. The City hosts various multicultural festivals, events and activities throughout the year to promote and celebrate this diversity. This includes fostering a Sister City relationship with Adachi-ku in Japan since 1984.

Key Statistics

The following provides a snapshot of the City of Belmont:

Key General Statistics		Key Financial Statistics	
Area	40km ²	Rates revenue	62,356,757
Population	45,976	Fees and charges	11,451,293
Number of electors <i>(April 2024)</i>	27,330	Operating revenue	84,420,803
Number of properties	23,189	Operating expenditure	88,596,522
Number of employees (FTE)	234.83	Cash backed reserves	78,884,276

**Financial statistics are per 2025-26 Budget*

Our Services

The City of Belmont is responsible for providing a range of infrastructure and services to the community. Over the life of the LTFP, comprehensive income is projected to increase from \$23.9 million in year 1 to \$37.6 million in year 10. This figure includes capital grants, subsidies and contributions assumed to be received for significant capital projects in the later years. Excluding these, income is projected to increase from \$0.4 million in year 1 to \$11.5 million in year 10.

	Opening	Closing
Revenue	\$84,707,235	\$122,737,258
Expenses	\$84,290,401	\$111,256,056
Capital grants, subsidies and contributions	\$6,332,229	\$2,343,854
Total comprehensive income	\$23,950,769	\$37,636,765

Services provided by the City fall into the following programs prescribed under the *Local Government (Financial Management) Regulations 1996*. Estimates of expenditure and income have been calculated for each of these programs.

Program	Explanation
Governance	<p>Objective: To provide a decision making process for the efficient allocation of limited resources.</p> <p>Activities: All costs associated with the elected members of Council, together with all costs associated with the general governance of the district. Includes all costs generated by the full allocation of administration costs in accordance with the principles of Activity Based Costing.</p> <p><i>Expenditure: Opening \$10,742,840 - Closing \$11,775,590</i></p> <p><i>Revenue: Opening \$195,522 - Closing \$255,107</i></p>
General purpose funding	<p>Objective: To collect revenue to allow for the provision of services.</p> <p>Activities: Includes the cost of collecting rates revenue and all general purpose funding e.g. Grants Commission funding.</p> <p><i>Expenditure: Opening \$3,957,700 - Closing \$5,691,000</i></p> <p><i>Revenue: Opening \$74,660,607 - Closing \$110,394,094</i></p>
Law, order, public safety	<p>Objective: To provide services to help ensure a safer and environmentally conscious community.</p>

Program	Explanation
	<p>Activities: Provision of regulatory services related to cat and dog control, seasonal bush fire, parking and dumping. Implementation of community safety crime prevention services and initiatives to address fear and perceived fear of crime and anti-social behaviour in the community.</p> <p><i>Expenditure: Opening \$4,951,974 - Closing \$5,262,368</i></p> <p><i>Revenue: Opening \$504,335 - Closing \$658,052</i></p>
Health	<p>Objective: To provide an operational framework for environmental and community health.</p> <p>Activities: Provision and administration of public health services including the inspection of food, public building, skin penetration and lodging house premises. Compliance related to substandard housing, noise, pests, asbestos and onsite waste water disposal. Support for externally provided child immunisation services.</p> <p><i>Expenditure: Opening \$1,920,458 - Closing \$2,441,145</i></p> <p><i>Revenue: Opening \$376,470 - Closing \$491,206</i></p>
Education and welfare	<p>Objective: To provide services to disadvantaged persons, the elderly, children and youth.</p> <p>Activities: Support of community organisations and the provision of programs, services, policy, infrastructure and advocacy focused on supporting the wellbeing and interests of children, youth, adults and seniors. Includes priority focus on advancing interests of First Nations people, diverse abilities and cultural backgrounds.</p> <p><i>Expenditure: Opening \$3,431,969 - Closing \$3,639,910</i></p> <p><i>Revenue: Opening \$110,893 - Closing \$144,690</i></p>
Housing	<p>Objective: To provide and maintain aged persons housing and other leased accommodation.</p> <p>Activities: Maintenance and operational expenses associated with the provision of housing for aged persons and other leased accommodation.</p> <p><i>Expenditure: Opening \$813,974 - Closing \$941,595</i></p> <p><i>Revenue: Opening \$315,980 - Closing \$435,784</i></p>
Community amenities	<p>Objective: To provide services required by the community.</p> <p>Activities: Includes sanitation (household refuse); stormwater drainage; town and regional planning and development; the provision of rest rooms, public toilet facilities and protection of the environment.</p> <p><i>Expenditure: Opening \$12,188,571 - Closing \$11,467,962</i></p> <p><i>Revenue: Opening \$8,589,255 - Closing \$11,207,030</i></p>

Program	Explanation
Recreation and culture	<p>Objective: To establish and effectively manage infrastructure and resources which will help the social well being of the community.</p> <p>Activities: Provision and maintenance of public community and sporting facilities including the Belmont Oasis Leisure Centre, and programs that meet community need including the provision, maintenance and operation of a public library and museum.</p> <p><i>Expenditure: Opening \$23,762,769 - Closing \$26,729,185</i></p> <p><i>Revenue: Opening \$492,805 - Closing \$678,511</i></p>
Transport	<p>Objective: To provide safe, effective and efficient transport services to the community.</p> <p>Activities: Construction and maintenance of streets, roads, footpaths, cycleways and Council Operations Centre. The control of street parking and the control of traffic management within local streets.</p> <p><i>Expenditure: Opening \$14,807,238 - Closing \$33,669,416</i></p> <p><i>Revenue: Opening \$995,915 - Closing \$1,301,524</i></p>
Economic services	<p>Objective: To help promote the local government and its economic wellbeing.</p> <p>Activities: The retention, attraction and support of businesses and provision of economic development focused programs, services, policy and advocacy.</p> <p><i>Expenditure: Opening \$4,502,266 - Closing \$5,736,879</i></p> <p><i>Revenue: Opening \$301,994 - Closing \$394,034</i></p>
Other property and services	<p>Objective: To monitor and control operating accounts.</p> <p>Activities: Private works, public work overheads, plant operations. A summary of salaries and wages total costs and any other miscellaneous activities that cannot otherwise be classified in the above.</p> <p><i>Expenditure: Opening \$4,369,374 - Closing \$5,730,908</i></p> <p><i>Revenue: Opening \$91,017 - Closing \$118,757</i></p>

Cash Reserves

The establishment and funding of cash reserves is a financial management strategy to ensure sufficient funds exist to fund future expenditure that cannot otherwise be financed without having a material impact on the budget.

The table below outlines the various reserves Council has established and their respective purposes. A review of these reserves has been undertaken from the perspective of currency of purpose with an intent to reduce the number currently held, with the following including details applicable to the reserves effective at the conclusion of year 1. Further detail on movement in reserves is included at Appendix B.

Name of Reserve	Purpose of the Reserve
Aged Accommodation Reserve	This reserve is used to provide for the long term maintenance of Gabriel Gardens and Orana aged housing units. <i>Opening balance \$1,076,273 - Closing balance \$1,671,418</i>
Aged Community Care Reserve	This reserve is used to fund the provision of aged care community services within the City. <i>Opening balance \$250,392 - Closing balance \$388,853</i>
Aged Persons Housing Reserve	This reserve is used to manage the surplus/deficit position and capital improvements of the City's aged housing centres. <i>Opening balance \$4,315 - Closing balance \$6,702</i>
Aged Services Reserve	This reserve is used to fund the provision of aged services within the City. <i>Opening balance \$1,218,044 - Closing balance \$1,891,586</i>
Ascot Waters Marina Maintenance & Restoration	This reserve is used to provide for the ongoing maintenance and future redevelopment needs of the marina at Ascot Waters. <i>Opening balance \$1,109,241 - Closing balance \$1,722,617</i>
Belmont Oasis Refurbishment Reserve	This reserve is used to fund the future refurbishment of the Belmont Oasis Leisure Centre. <i>Opening balance \$12,293,994 - Closing balance Nil</i>
Belmont Trust Reserve	This reserve is used, to fund costs in relation to the Belmont Trust land. <i>Opening balance \$1,819,263 - Closing balance \$363,324</i>
Building Reserve	This reserve is used to fund the replacement and refurbishment of the City's Building assets or project works. <i>Opening balance \$9,682,453 - Closing balance \$15,905,513</i>
Capital Projects Reserve	This reserve is used to manage municipal funding for capital works projects to occur over multiple financial years. <i>Opening balance \$5,222,526 - Closing balance \$665,088</i>
Carry Forward Projects Reserve	This reserve is used to manage municipal funding for incomplete projects carried forward to the following financial year. <i>Opening balance \$1,932,342 - Closing balance \$2,851,284</i>
Car Parking Reserve	This reserve is used to fund any activities that create or enhance car parks and includes funds received as cash in lieu for this purpose. <i>Opening balance \$70,842 - Closing balance \$1,469,723</i>
District Valuation Reserve	This reserve is used to spread the costs of the triennial revaluation of properties for rating purposes over three years.

Name of Reserve	Purpose of the Reserve
	<i>Opening balance \$214,819 - Closing balance \$184,936</i>
Election Expenses Reserve	This reserve is used to spread the costs of the biennial Council elections over two years. <i>Opening balance \$158,906 - Closing balance \$236,632</i>
Employee Entitlements Reserve	This reserve is used to part fund the long service leave liability of the City's staff in addition to providing funding for unforeseen expenditures relating to other employee entitlements. <i>Opening balance \$3,375,853 - Closing balance \$5,016,837</i>
Environment Reserve	This reserve is used to fund environmental programs. <i>Opening balance \$972,452 - Closing balance \$88,088</i>
Faulkner Park Retirement Village Buy Back Reserve	This reserve is used to fund the future buy-back of the Faulkner Park Retirement Village from existing residents. <i>Opening balance \$2,691,625 - Closing balance \$4,180,011</i>
Faulkner Park Retirement Village Owners Maintenance Reserve	This reserve is used to provide for the future major maintenance and refurbishment requirements at the Faulkner Park Retirement Village. <i>Opening balance \$550,353 - Closing balance \$854,683</i>
Information Technology Reserve	This reserve is used for the replacement and enhancement of the City's core business hardware and software requirements. <i>Opening balance \$1,579,440 - Closing balance \$1,727,690</i>
Infrastructure Reserve	This reserve is used for the enhancement, replacement and refurbishment of park and streetscape infrastructure assets or project works. <i>Opening balance \$1,158,146 - Closing balance \$11,916,630</i>
Insurance Reserve	This reserve is used to fund self insurance expenses and major fluctuations in insurance premiums. <i>Opening balance \$6,305,914 - Closing balance \$9,792,890</i>
Plant Replacement Reserve	This reserve is used to fund the shortfall between income generated through plant operation recoveries and replacement costs of the City's heavy plant. <i>Opening balance \$1,467,617 - Closing balance \$326,938</i>
Property Development Reserve	This reserve is used to fund any property development within the City including the acquisition and/or redevelopment of land and buildings. This reserve also receives the proceeds of any land or building sales. <i>Opening balance \$26,780,198 - Closing balance \$43,989,349</i>
Public Art Reserve	This reserve is used to fund the acquisition of public art for display in the City, as well as to support alternative arts initiatives, including community-driven projects, ephemeral or temporary art installations, and artist studios or workshops. <i>Opening balance \$371,838 - Closing balance \$577,454</i>

Name of Reserve	Purpose of the Reserve
Waste Management Reserve	This reserve is used to fund waste management initiatives and activities. <i>Opening balance \$6,305,914 - Closing balance \$9,792,890</i>
Underground Power Reserve	This reserve is used to secure funding in relation to Underground Power Projects. <i>Opening balance \$0 - Closing balance Nil</i>

Cash reserves are projected to increase from \$81.3 million at the end of year 1 to \$110 million in year 10. This increase in reserve funds is as a result of surplus funds transferred to reserve for future project funding.

Cash Reserves

Key Assumptions

The LTFP's projections are based on a number of assumptions regarding the City's operational revenue and expenditure. While earlier years contain a high level of accuracy, the capacity to accurately predict the City's financial position for the remaining period is diminished and includes reasonable estimates only.

The key assumptions are detailed in the table below.

Key Assumptions	
Rates revenue	<p>The increase each year is determined as part of the annual budget process and largely depends on cost pressures as the City attempts to maintain a balanced operating budget and a balanced budget. The City has traditionally maintained rate in the dollar increases close to the Perth Metropolitan annualised Consumer Price Index (CPI) which is also the case for the LTFP at 3.6%.</p> <p>The City's rates base is diversified comprising Residential, Commercial and Industrial differential rate categories. The City also receives an ex gratia payment through the airport. The LTFP includes an allowance of 0.65% in rates growth, which approximates a 1% increase in residential properties and 0.5% increase in commercial properties each year. The</p>

	<p>LTFP also includes allowances for known developments based on currently available information.</p> <p>Each year the City offers a 5% discount to ratepayers who pay their rates in full by the due date. This discount approximates \$2.5 million for year 1 and a total of \$26 million over the life of the LTFP.</p>
Fees and Charges	Fees and charges are largely cost recovery, with the increase used in the LTFP linked to the Perth Metropolitan CPI.
Grants, subsidies and contributions	<p>Operating grants are based on the Perth Metropolitan CPI.</p> <p>Capital grants are based on known capital grants which beyond the first year are based predominantly on reliable road grant estimates. Where project costs exceed \$5 million, the LTFP assumes 1/3 State and 1/3 Australian government grant funding.</p>
Interest revenue	Interest revenue is based on current rates of return of 4.5% for early years, reducing to the Perth Metropolitan CPI in the later years of the LTFP.
Employee costs	A 4% growth rate has been included as per the City of Belmont Inside Workforce Industrial Agreement 2023 and Outside Workforce Industrial Agreement 2023 approved by Western Australian Industrial Relations Commission in January 2024. Increases beyond the current Agreements will likely revert to the long-term average of 3% or the Perth Metropolitan CPI.
Materials and contracts	<p>Material and contract increases are based on the Perth Metropolitan CPI.</p> <p>An allowance of 3.5% of capital expenditure has also been included for future maintenance costs of new assets.</p>
Utility charges	Increases in utility charges are based on the Perth Metropolitan CPI.
Depreciation	Depreciation has been included at the current adopted depreciation rates and also factors in increases to fixed assets as a result of capital expenditure. The LTFP does not however include an allowance for increases in depreciation as a result of asset revaluations.

CPI Forecast

Inflation is now within the Reserve Bank of Australia's (RBA) target range of 2-3%, as interest rates have slowed demand in some parts of the economy. Inflation is expected to settle around the middle of the RBA's target range. Current expectations are that the CPI measure of inflation will increase for a short period when cost-of-living support measures end.

Other Assumptions

Sensitivity Analysis

Assumptions play a pivotal role in the LTFP as they do during the annual budgeting process.

A number of key assumptions which underpin the LTFP are based on the most objective information available at the time.

One of the benefits of the LTFP is the City's ability to measure its capacity to fund future significant projects. Funding for such projects, depending on the level required, will be sourced through a combination of capital grants, reserves and, to a lesser extent, municipal funds. The LTFP can be used to ascertain how much can be (or needs to be) funded by each of the income sources although future grants are largely unknown.

The key assumptions used have been tested through scenario modelling and sensitivity analysis to understand their overall financial impact.

Rate Revenue

One of the key assumptions tested relates to the increase in rate revenue through both natural growth of the rates base as well as the annual increase as adopted by Council. In this case an additional 1% increase per annum will result in additional revenue of \$46 million over the 10 years due to the compounding nature of the calculation. On the other hand, if the assumed rates increase was overstated then this obviously would have a negative impact on the Key Performance Indicators (see below) and the City would need to find alternative income sources and/or reduce costs.

Depending upon the required level of funding for future projects, an option to raise funds without increasing rates is the removal of the rates discount. The discount is applied when rates are paid in full by the due date and approximately 55% of ratepayers receive the discount. The discount will cost the City approximately \$2.5 million in year 1 with future increases mirroring rates growth. If the discount was removed then rates revenue would increase by \$27.5 million over the life of the LTFP.

A summary of these potential scenarios is as follows:

Scenario variance	Impact on Revenue (\$)	
	Year 1	Life of the LTFP
Additional 1% increase	620,054	46,306,440
Removal of 5% discount	2,226,318	27,562,887
Additional 1% increase and removal of 5% discount	2,867,728	75,392,259

Cost Increases

As included in the Key Assumption table above, cost increases are largely based on the Perth Metropolitan CPI. If cost increases were 1% greater than CPI for each year of the LTFP, total costs over 10 years would increase by approximately \$46.6 million. This would have a negative impact and would require either the additional costs to be sourced through additional income, or for services to be reduced. Where costs are of a recurrent nature, the most likely source of additional income would be from increased rate revenue.

Measuring Sustainability

The City of Belmont's financial sustainability is measured by its ability to fund ongoing service delivery and the renewal and replacement of assets without imposing excessive debt or excessive rate increases on future generations.

The Key Performance Indicators outlined below have been prescribed in the *Local Government (Financial Management) Regulations 1996* to measure the financial sustainability of local governments. The LTFP has been assessed against these indicators.

Key Performance Indicators

Current Ratio

A measure of a local government's liquidity and its ability to meet its short term financial obligations from unrestricted current assets.

Target – Great than or equal to 1

The target of greater than 1 is maintained throughout the Long Term Financial Plan.

Own Source Revenue Coverage Ratio

A measure of a local government's ability to cover its costs through its own revenue efforts.

Target – Between 40% - 60% (Intermediate 60%-90%; Advanced >90%)

The advanced target of greater than 90% is achieved consistently over the 10 year period due to the assumed natural growth in the rates base which, in tandem with annual rate increases, results in rates income growing at a faster pace than operating costs.

Own Source Revenue Coverage Ratio

Operating Surplus Ratio

An indicator of the extent to which revenue raised not only covers operational expenses but also provides for capital funding.

Target – Between 1% and 15%

The target range of between 1% and 15% is achieved throughout the Long Term Financial Plan.

Operating Surplus Ratio

Debt Service Cover Ratio

An indicator of a local government's ability to generate sufficient cash to cover its debt payment.

Target – Greater than or equal to 3

The City's debt ratio being higher than 5 indicates the ability to fund higher levels of debt if required.

Debt Service Cover Ratio

Asset Sustainability Ratio

An indicator of the extent to which assets managed by a local government are being renewed or replaced as they reach the end of their useful lives.

Target – Between 90% and 110%

The City achieves a ratio within or slightly below the target range over the life of the LTFP. In 2028, the City significantly exceeds the ratio due to the current proposed timing of the Bilya Kard Boodja Lookout Foreshore Stabilisation.

Asset Sustainability Ratio

Asset Consumption Ratio

Highlights the aged condition of a local government's physical assets.

Target – Between 50% and 60%

This ratio measures the extent to which depreciable assets have been consumed by comparing their written down value to their replacement value. The City's ratio is maintained above the target band over the life of the LTFP.

Asset Consumption Ratio

Asset Renewal Funding Ratio

Indicates whether the local government has the financial capacity to fund asset renewal at existing revenue and service levels.

Target – Between 75% and 95%

The City consistently exceeds the target range over the life of the LTFP. A review of the City's Asset Management Plans has been recently been undertaken, with the next review anticipated to be completed to inform the 2026-2036 LTFP.

Asset Renewal Funding Ratio

Financial Health Indicator

The Financial Health Indicator (FHI) is based on a combination of the abovementioned ratios with a different weighting given to each. The FHI is 92 in Year 1 and increases to 97 by the final year so has a positive trend. It should also be noted that an FHI of 70 or above represents sound financial health. Based on analysis, an FHI of 93 (10 year average) would place the City above the average for Metropolitan local governments.

Asset Management

Under the provisions of the *Local Government Act 1995* and a range of other legislative provisions of the State of Western Australia, the City is charged with the responsibility to maintain a diverse range of assets on behalf of the community.

The City currently manages assets with a fair value well in excess of \$600 million and it is critical that these assets are managed in accordance with industry best practice to ensure that the appropriate level of service is provided to the community.

Assets are managed through the City's asset management process which includes the use of condition assessments and predictive modelling to identify when existing assets need to be renewed or upgraded in order to maintain required service levels.

Capital Expenditure

Capital Works by Type

Over the next 10 years \$255 million has been allocated to fund the City's asset renewal (\$170 million) and upgrade (\$85 million) programs. This is funded by \$54.6 million from external funding sources and the remainder from the City's reserve and municipal funds.

The following illustrates capital expenditure by type for the period of this Long Term Financial Plan.

The following significant projects have been included, with further detail on the capital program included as Appendix C.

	\$M
Belmont Oasis Redevelopment	20.25
Wilson Park Precinct Redevelopment	13.06
Garvey Parks Trial Project	12.00
Belvidere Street Precinct Revitalisation	11.49
Bilya Kard Boodja Lookout Foreshore Stabilisation	7.55
Peet Park Revitalisation	7.51

It should be noted that these projects are subject to future Council adoption as part of the City's annual budget process, and will only progress if substantial external funding can be secured.

Capital Funding

Asset Management Plans form the basis of ongoing capital expenditure requirements which are funded through a combination of operating income, capital grants and reserve transfers. Capital expenditure requirements can vary significantly from one year to the next.

The City always seeks to maximise external funding to help support planned capital expenditure. On that basis, capital projects included in this LTFP also include an assumption of grant funding, with the remainder funded utilising cash reserves and municipal funding.

As stated under capital expenditure, projects identified in the LTFP remain subject to future Council adoption as part of the City's annual budget process. A key element of this is the sourcing of funding, particularly relating to significant capital projects that will only progress if substantial external funding can be secured.

The following shows the funding components included in the LTFP:

Financial Projections

Financial projections for the LTFP conform to the *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards.

The City has followed a format that allows projections to feed into the statutory format of Annual Budgets as well as allowing the key performance measures to be compared with Annual Budgets and Annual Reports.

Financial Statements

The financial statements as per Appendix A have been prepared on the basis of the assumptions shown previously in this document.

Our statutory statements include:

- Statement of Comprehensive Income
- Statement of Financial Position
- Statement of Changes in Equity
- Statement of Cash Flows
- Statement of Financial Activity

Statement of Comprehensive Income

This statement identifies the cost of goods and services provided and the extent to which costs are recovered from revenues. A surplus is estimated for each year.

Statement of Financial Position

This statement summarises the expected financial position of the City at the end of each financial year. It reports what is expected to be owned (assets) and what is expected to be owed (liabilities).

The statement discloses transactions as current and non-current assets, and current and non-current liabilities and equity.

Statement of Changes in Equity

The purpose of this statement is to report the changes in equity over an accounting period and to show the changes in accumulated funds and reserves over the next 10 years.

Statement of Cash Flows

The purpose of this statement is to show how changes in balance sheet accounts and income affect cash and cash equivalents, breaking analysis down to operating, investing and financing activities.

Net cash provided by operating activities illustrates how much cash is expected to remain after funding community services. This can be used to fund other activities such as infrastructure and capital works. Information provided by the Statement of Cash Flows can assist in recognising the ability to generate cash and meet financial commitments including repayments of debt.

Statement of Financial Activity

This statement summarises the operating, capital, debt and reserves transactions.

The LTFP identifies the funds necessary to balance the budget in each financial year through the collection of rates. Rates are assessed in accordance with relevant assumptions to the LTFP. If a surplus results it can be used to fund other services however, where a shortfall results, this indicates that the City is unable to fund the services proposed at the planned rating levels.

Risk Management

The City uses an enterprise wide approach to risk management with a framework and plan that align with ISO 31000:2018 Risk Management – Guidelines. The framework and plan ensure that risk is managed in a holistic manner and is integrated into the culture, practices and plans across the City. They guide the processes which aim to identify, evaluate and mitigate risk in line with the City's appetite for, and tolerance of, risk.

The risk management process is applied across the City by identifying both strategic and operational risks that may cause a financial, environmental, reputational, operational or health and safety impact to City deliverables.

Risk assessments are conducted by subject matter experts from relevant departments who have the responsibility and authority to help ensure risk is managed effectively. The City's Governance, Strategy & Risk team provides assistance with the risk management process and record keeping as required.

Risk is also shared or transferred in line with good business practice through the management of the City's Insurance portfolio where insurance policies are procured to address specific risks.

The City's activities are subject to a variety of risks, and the following have been considered in preparing the Long Term Financial Plan:

- **Financial** – Any mismanagement of investments, loss of revenue and acts of fraud identified are recorded and managed through the City's master risk register. The controls assigned to manage these risks are regularly monitored and reviewed to ensure the risks do not eventuate, and if they do that the impact is minimised.
- **Project** - The City's project management process requires risks to be assessed during project development and project execution.
- **Grants and funding** – The City has a grants officer role that pursues available grants and funding opportunities. This role also manages the efficient acquittal of funding and ensures that where relevant a risk assessment is undertaken for all major grant and funding applications.
- **Asset Management** - An assessment of the risks associated with service delivery for all asset classes is included in the City's Asset Management Plans. The risk assessment

process identifies credible risks, the likelihood of the risk event occurring, the consequences should the event occur and develops a risk rating. This process includes identifying what existing control applies to the various risks, what the current intervention level is for that risk and the appropriate response time to intervene. The cost of intervention is included in either the maintenance or renewal budget for each asset class. This process is assessed on a biennial basis with the regular review of the City's Asset Management Plans.

Conclusion

The City will consider the content of the Long Term Financial Plan when preparing the Annual Budget and it is expected that adopted budgets will be closely aligned with the proposals in this document and its underlying assumptions.

It will be reviewed each year as budgets are prepared to account for performance information and changing circumstances in conjunction with formal reviews of the Strategic Community Plan.

The City is confident that the Long Term Financial Plan will allow it to set priorities within its resourcing capabilities to sustainably deliver the assets and services required by the community.

Introduction

Welcome to the City of Belmont’s Corporate Business Plan. This plan outlines our 4-year operational plan to deliver upon our Strategic Community Plan 2024-2034.

More than 1,000 community members and key partners helped to shape this plan, addressing three key areas:

- Where are we now?
- Where do we want to be?
- How do we get there?

This plan embraces the FUTYR® strategic planning approach, follows the Integrated Planning and Reporting Framework guidelines and satisfies a legislative requirement for all local governments to have a Plan for the Future.

This plan describes:

- A future vision for the City of Belmont
- How the City will achieve and resource its objectives
- How success will be measured and reported

Acknowledgement of Country

The City of Belmont acknowledges the Noongar Whadjuk people as the Traditional Owners of this land and we pay our respects to Elders past, present and emerging.

We further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

We acknowledge all Aboriginal and Torres Strait Islander peoples living within the City of Belmont.

Message from the CEO

It is with great pleasure I present the City of Belmont's Corporate Business Plan 2025-2029.

As the City of Opportunity, we are always looking ahead, finding new ways to create a thriving, connected, and sustainable future for our community.

This Corporate Business Plan sets out the priorities and actions that will guide us over the next four years, building on our achievements and embracing the opportunities before us.

This is the second Corporate Business Plan under our newly reviewed Strategic Community Plan 2024-2034, a long-term vision shaped with the community. It reflects our shared aspirations and ensures we remain responsive to change while staying focused on delivering real outcomes.

This Plan aims to give a clearer picture of where we are now, what we will continue to deliver, and the key initiatives that will drive us forward over the coming four years.

Our approach ensures a balanced focus on people, place, and progress, with 11 key outcomes guiding our work.

While we set our sights on the future, we recognise that lasting success comes from working together. Our efforts are strengthened by partnerships, with the community, businesses, and all levels of government, so that we can make a meaningful impact both locally and beyond.

Above all, this Plan is about action. We will continue to measure and report on our progress, ensuring we remain accountable and adaptable.

As we embark on the year ahead, I look forward to working alongside our community to bring this vision to life, creating a City where everyone has the opportunity to belong, connect, and thrive.

Belmont at a glance

Located on Whadjak Noongar Country, along the banks of the Derbal Yaragan (Swan River), people have had a connection with Goorgyp (Belmont) for tens of thousands of years, with the area offering plentiful opportunities to live, trade, and recreate.

Over many generations, Noongar peoples moved through different parts of Goorgyp, through different seasons to follow food at the optimum times of the year. Today, there is growing recognition and respect for Aboriginal cultural heritage, beliefs, and their ongoing connection and relationship with this land. Bilya Kard Boodja Lookout and other landmarks and artworks around the City of Belmont celebrate the area's Noongar heritage.

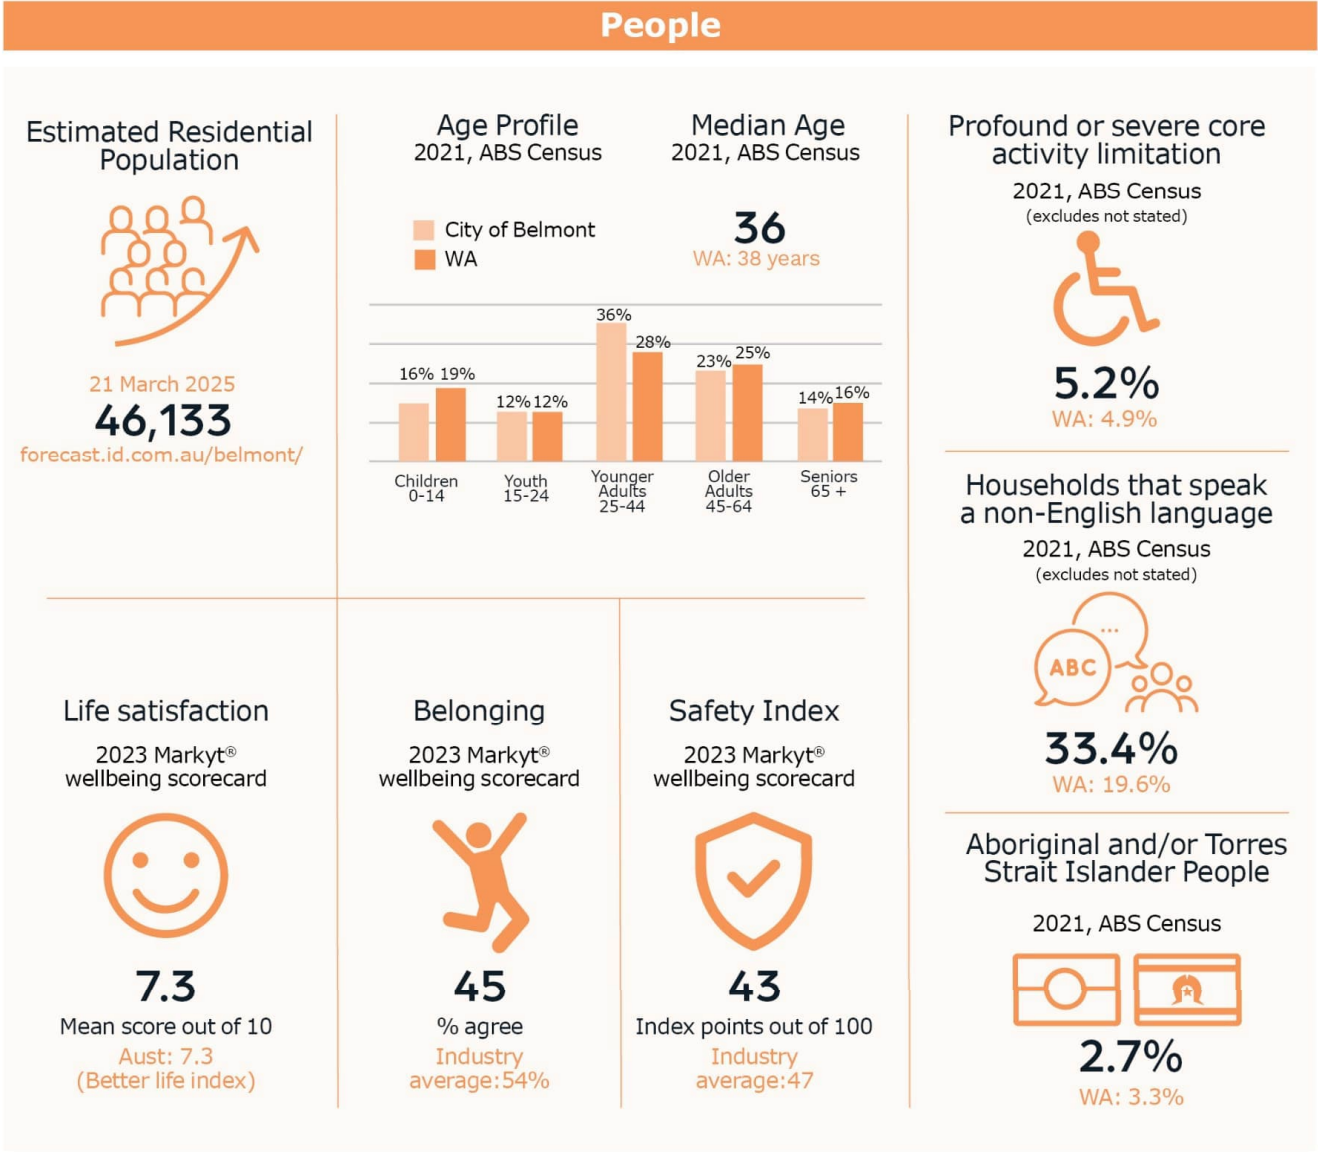

Situated 6km from Perth City, the City of Belmont offers diverse housing, business and investment opportunities in two riverside suburbs (Ascot and Rivervale), four urban localities (Belmont, Cloverdale, Kewdale, and Redcliffe) and the Perth Airport precinct.

The City of Belmont has been associated with horse racing since 1848 when the first horse race was held at Grove Farm. TRC Walters donated land from his adjoining property for a permanent racetrack, now known as Ascot Racecourse. The West Australian Turf Club was established in 1852.

The Gold Rush in the 1890s brought people through the Belmont district, as people travelled up the Great Eastern Highway (then Guildford Road) to the Goldfields. In response to this growing market, general stores, boarding houses and hotels sprung up along the route. As people returned from the Gold Rush, housing developments grew in the area, prompting churches and schools to be built. The popularity of horse racing grew and in 1897, two new railway bridges and a station next to the racecourse were built. Food production then boomed to address the demands of a growing population, and dairies, piggeries, poultry farms and Chinese market gardens flourished.

Today, the City of Belmont is a thriving municipality of over 45,000 residents with extensive parklands, a number of thriving shopping destinations and major industrial estates, and outstanding public facilities. This includes Ascot Racecourse and surrounding residential stables precinct, the picturesque marina at Ascot Waters and Adachi Park with spectacular views of the Swan River, and Belmont Hub. The Hub is an iconic, state-of-the-art, multi-level community facility that has the museum, library, digital hub, senior citizens club and much more.

Being a city of opportunity, and one that deeply respects and values diversity, the City of Belmont has attracted and welcomed a large population of new migrants. More than 40% of residents were born overseas and 63 languages are spoken across the district. The City hosts various multicultural festivals, events and activities throughout the year to promote and celebrate this diversity. This includes fostering a Sister City relationship with Adachi-ku in Tokyo since 1984.

Priorities

Priorities shift over time in response to what’s happening locally and globally. To provide the best value to our community, the City of Belmont must stay abreast of and adapt to changes and community expectations, while considering the needs of our future communities.

Global priorities

The United Nations’ Sustainable Development Goals (SDGs) provide a global roadmap to increase prosperity, end social injustice and poverty, and improve health and wellbeing, all while protecting the environment for current and future generations. 17 goals were agreed by all UN member states, including Australia. The actions of local government such as the City of Belmont are important catalysts for change, promoting and facilitating the achievement of goals and relevant targets in the local community. Learn more about the SDGs at <https://sdgs.un.org/goals>.

Federal and State priorities

The City of Belmont works in collaboration with other tiers of government to deliver tangible benefits to our community. The City of Belmont regularly reviews priorities across all areas of government to align service delivery.

Local priorities

To understand local needs and priorities, the City of Belmont commissions regular independent reviews of community and business perceptions. In September 2024, 1,010 community members completed the MARKYT® Community Scorecard. Most services were in the kaizen window, with a need for continuous improvement. Library services were celebrated for their high performance. Identified through this survey, was that the community would like the City to prioritise safety and lighting, and optimise streetscapes, trees and verges, traffic management and waste management.

Our Purpose

The City of Belmont exists to enable and motivate the community by creating opportunities for all to truly belong.

In accordance with the *Local Government Act 1995 (WA)*, our purpose is to meet the needs of current and future generations through an integration of social advancement, environmental protection and economic prosperity.

We fulfil our purpose through the following roles:

Lead

We lead community engagement and strategic planning to create a shared vision.

Deliver

We provide infrastructure, services, events and communications to meet local needs.

Advocate

We are a voice for the local community on local and contemporary issues.

Educate

We deliver public education programs for improved sustainability and wellbeing.

Facilitate

We enable service delivery through partnerships, funding and other support.

Regulate

We comply with and enforce legislation, regulations, local laws and policies.

In everything we do, our shared values guide the way we think and behave:

Teamwork

People building relationships to work together to achieve common goals.

Leadership

To focus and inspire people to achieve.

Integrity

To act in an honest, professional, open and accountable manner.

Innovation

To create new, innovative and alternative ways of working.

People Focus

To work safely. To communicate and consult to understand people's needs.

Our Vision

City of Opportunity

We will be home to a diverse and harmonious community, thriving from the opportunities of our unique, riverside city.

We have a diverse, harmonious, healthy and active community, where people feel safe and there is a strong sense of connection, belonging and pride in the area.

We care for and responsibly enhance our natural heritage and nature reserves so they can be enjoyed by our community. We are growing our tree canopy and reducing waste, emissions and water use for a more sustainable future.

We are creating green, healthy and well-connected neighbourhoods through responsible urban planning. The City is an exciting and vibrant place to visit with a strong economy bolstered by creativity and innovation.

We seek, listen and value community input into local decisions, and keep the community well informed about what's happening. There is a clear plan for the future, with a strong focus on balancing service delivery and financial sustainability to deliver excellent value for money for our community.

Our Plan for the Future

To achieve Our Vision, the community helped to shape a plan for the future. Within the framework, there are five key performance areas: People, Planet, Place, Prosperity and Performance. In each of these areas the community reviewed and helped to define key outcomes, objectives, major projects and strategic actions.

Key performance areas:

People

People covers all aspects of community health and wellbeing, from youth and senior services, to access and inclusion, sport and recreation, culture and the arts, community safety, responsible pet ownership, volunteering, and ranger services.

Planet

Planet covers all aspects of the environment and sustainability, from the river foreshore and nature reserves to waste and energy management, water conservation, and tree planting.

Place

Place covers the built form, from urban planning and building services, to housing, streetscapes, roads, footpaths, parks, playgrounds, community buildings, toilets, parking and transport.

Prosperity

Prosperity covers all aspects of economic development, place activation, business support services, education and lifelong learning, and library services.

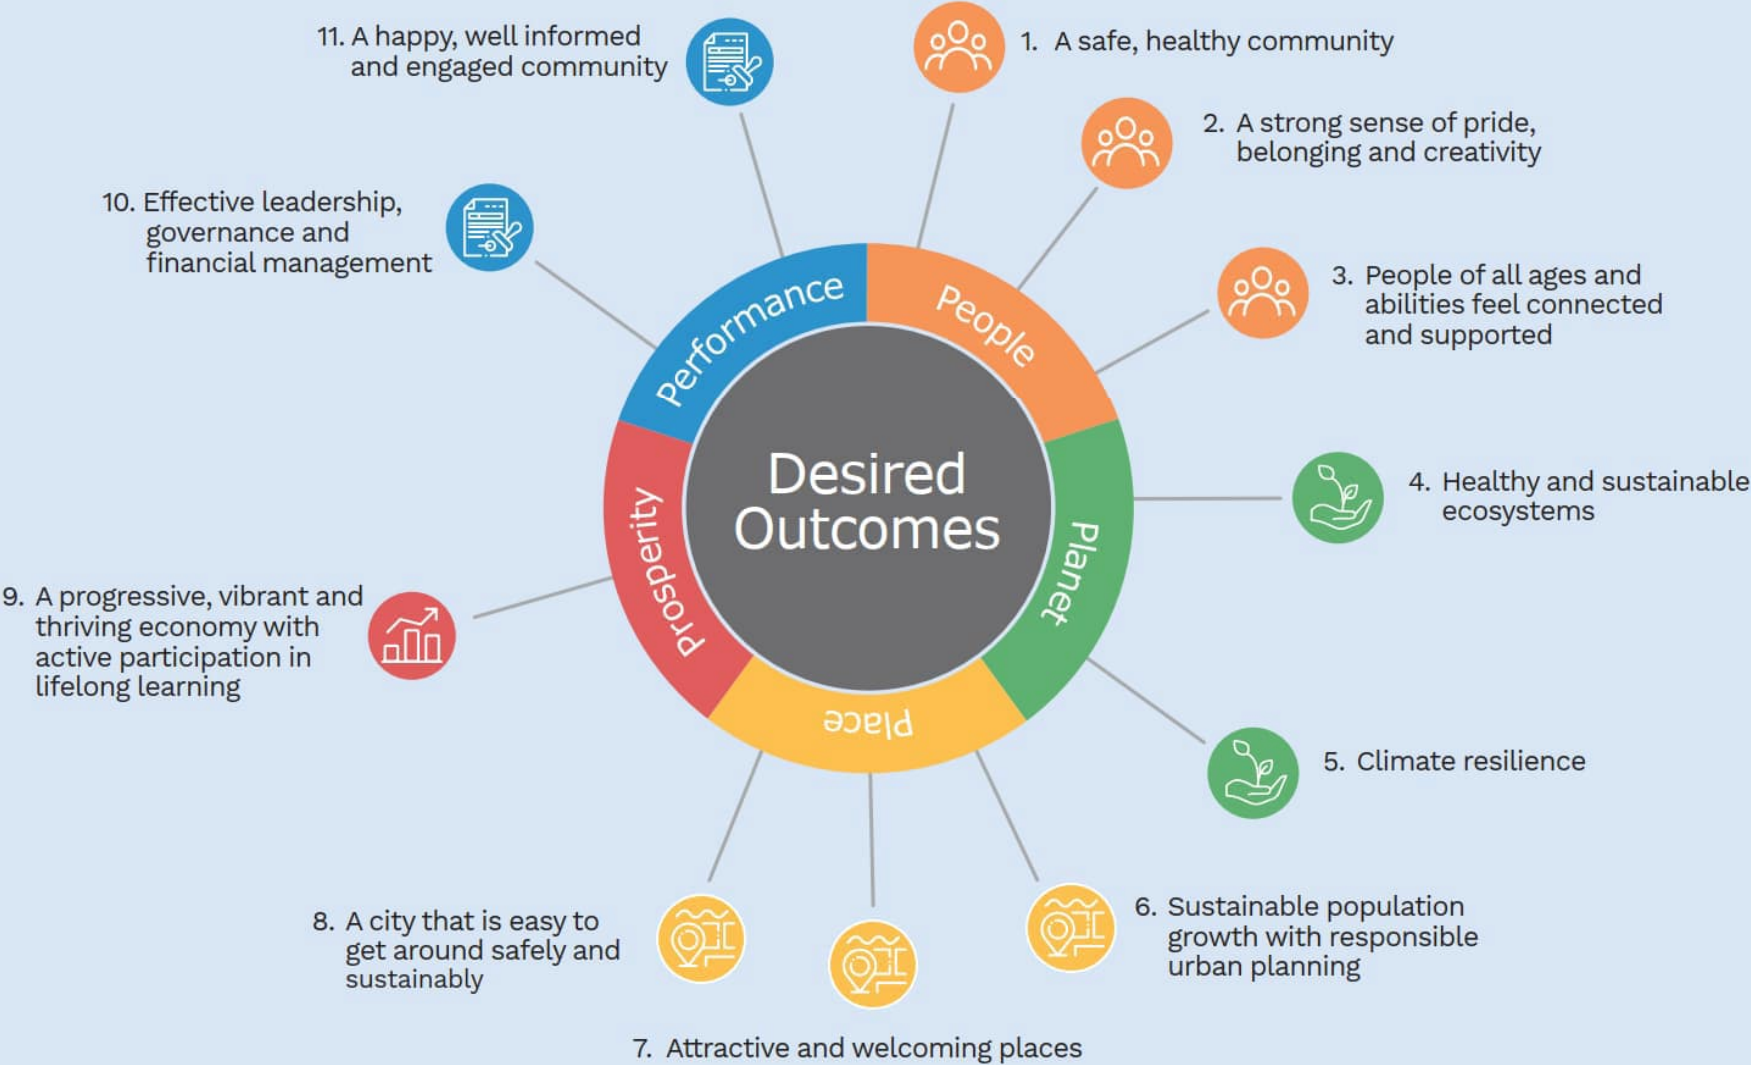

Performance

Performance covers all aspects of leadership and governance, from financial sustainability, risk management, human resources and fleet management, to community engagement, communications and customer service.

Outcomes

The City of Belmont will strive to achieve 11 outcomes across five performance areas. These outcomes are interrelated and each must be satisfied to deliver excellent overall quality of life.

People

We have a diverse, harmonious, healthy and active community, where everyone feels safe and there is a strong sense of connection, belonging and pride in the area.

Current situation

The City of Belmont is a good place to live with 91% of community members rating the area excellent, good or okay. In the MARKYT® Benchmarking Excellence Program, the City's performance scores were well above the industry average for family, children, youth and seniors' services, art and culture, First Nations recognition, and volunteering. The City of Belmont was also seen as an industry leader in access and inclusion and recognition of cultural diversity.

While self-assessment of general health remained steady and on par with the average score for Western Australia, wellbeing scores for mental health, social relationships, and diet, nutrition and exercise all improved.

To enhance quality of life, the community would like to feel safer with more police presence, lighting, CCTV, and support programs for those at risk from alcohol and other drugs, domestic and family violence, and homelessness. Community members believe substance abuse is the main contributing factor for local crime, followed by poverty and mental health issues.

Recent achievements

New Community Safety Strategy 2025-2030

The Community Safety Strategy 2025-2030 has been developed following extensive review and meaningful engagement with WA Police, key state and local agencies, and our community. Scheduled for adoption in early 2025-26 the strategy delivers, partners, advocates and empowers through new and updated programs and initiatives to improve feelings of safety in the community.

Enhanced lighting

The City implemented lighting upgrades at Middleton Park and Centenary Park. The Winter Night Lights initiative was successfully trialled in 2024 at Peet, Redcliffe, Forster, Miles and Centenary Parks. 98% of consultation responses were supportive, feeling safer and empowered to exercise outside in the evenings. Solar bollards were also installed at Tomato Lake to improve safety and usability along the footpath network.

Expanded CCTV Network

The City's CCTV network has expanded to over 630 cameras, with over 100 new cameras installed in high-traffic public areas. This includes the Kewdale Industrial area and in and around City assets such as the Belmont Oasis and the Faulkner Park Precinct.

Youth

The City continues its strong support for young people with youth events and activities, leadership programs, support agreements with all schools, case management services for at-risk youth, and The Base youth centre open six days per week. Recent innovations include a pop-up shopfront at Belmont Forum and a transition program engaging year 6 students to support their move to high school.

What we will keep doing

The City will continue to deliver and support services that contribute to achievement of the People aspiration and outcomes, such as:

- Community Safety Liaison Groups
- Community Watch 24/7 security patrols
- Faulkner Park Precinct Officer
- CCTV network management (630+ cameras)
- Free security appraisals
- Bicycle and eRideable registration
- Free graffiti removal
- Street and open space lighting
- Responsible pet and animal management
- Public health services
- Community recreation programs and facilities
- Citizenship ceremonies
- Cultural activities
- Museum, heritage, and the arts
- Community events
- Community development and engagement
- Family and youth services
- Seniors' services
- Disability access and inclusion
- Volunteer support
- Justice of the Peace

Teams will focus on continuous improvement in these areas. Please refer to the City's website and supporting plans for more details.

Attachment 12.4.2 Corporate Business Plan 2025-2029

Our plan for the future

Outcome 1. A safe, healthy community.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
1.1 Facilitate improved community safety.	1.1.1	Adopt and implement the Community Safety Strategy 2025-2028.	Community Safety Strategy	Manager Safer Communities	R	R	R	R
	1.1.2	Implement the requirements of the Safer Communities Operational Plan 2025 - 2028.	Safer Communities Operational Plan	Manager Safer Communities	R	R	R	R
	1.1.3	Continue to improve and enhance the City's CCTV network and coverage by updating older systems-with a focus on high activity areas.	Community Safety Strategy	Manager Safer Communities	R	R	R	R
	1.1.4	Advocate for Western Power to roll out underground power and SMART streetlighting across the City of Belmont.		Director Infrastructure Services	R	R	R	R
	1.1.5	Roll out LED lighting upgrades in parks and suburbs where the City owns streetlight infrastructure.	Environment and Sustainability Strategy	Director Infrastructure Services	R	R	R	R
	1.1.6	Promote community safety initiatives that empower the community.	Community Safety Strategy	Manager Safer Communities	R	R	R	R
	1.1.7	Engage and work closely with community partners, including the Community Safety Alliance, to improve and promote safety and address perception of crime.	Community Safety Strategy	Manager Safer Communities	R	R	R	R
1.2 Facilitate community health and wellbeing.	1.2.1	Develop a Public Health Plan.		Manager Safer Communities	R			
	1.2.2	Advocate for the State Government and Non-Governmental Organisations (NGO's) to deliver more out-reach programs and support services for vulnerable and at-risk youth and adults, including support for domestic and family violence, alcohol and other drugs, and mental health.		Manager Economic & Community Development	A	A	A	A
	1.2.3	Partner with community groups to deliver the Healthy Communities Program, aiming to increase awareness and participation in local health and wellbeing activities.		Manager Economic & Community Development	R	R	R	R

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
1.3 Grow participation in sport and recreation activities.	1.3.1	Develop and implement the Recreation Strategy 2025-2035.	Recreation Strategy	Manager Parks, Leisure & Environment	A			
	1.3.2	Investigate redevelopment and expansion options for Abernethy Sporting Precinct and Belmont Oasis Centre to ensure that the recreation and sporting needs of the community are met.	Recreation Strategy	Manager City Projects	R	A	A	A
	1.3.3	Progress the Peet Park Redevelopment project, including redevelopment of clubroom facilities and sports lighting.	Recreation Strategy	Manager City Projects	R	A		
1.4 Encourage responsible and safe ownership of pets.	1.4.1	Provide public education campaigns, improved signage and stronger enforcement of local laws to encourage more responsible ownership of dogs and cats.	Community Safety Strategy; Safer Communities Operational Plan	Manager Safer Communities	R	R	R	R
	1.4.2	Review supply, demand and service delivery levels for off-leash dog areas to ensure community needs are being met.		Manager Parks, Leisure & Environment		A		
	1.4.3	In conjunction with new State health related regulations, amend the City's Consolidated Local Law to enhance the control of cats, large animals, birds, chickens and bees.	Community Safety Strategy; Safer Communities Operational Plan	Manager Safer Communities	R	A		

Outcome 2. A strong sense of pride, belonging and creativity.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
2.1 Respect, protect and celebrate our shared living histories, heritage and cultural diversity.	2.1.1	Review the Multicultural Strategy and implement on an ongoing basis - Partner with community groups to provide and enhance multicultural services and events, including Harmony Week, Harmony Awards, Women's Multicultural Friendship Group, Easy English sessions, employment support programs, cultural awareness training, Food Safari, and Stories that Unite Us.	Multicultural Strategy 2020 and Beyond	Manager Economic & Community Development	R	R	R	R

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
2.1 Respect, protect and celebrate our shared living histories, heritage and cultural diversity (continued).	2.1.2	Advocate for the recognition and preservation of the Ascot Kilns heritage value with the State Government.		Manager Planning Services	R	R	R	R
	2.1.3	Implement the five-year Museum Exhibition plan that sets the themes for future museum exhibitions in Belmont Hub and review annually to optimise new donations that enter the collection over the life of the plan.	Arts and Culture Strategy	Manager Library, Culture & Place	R	R	R	R
	2.1.4	Research and develop a costed, five-year implementation plan that determines the preferred locations, content and formats to display, celebrate and promote our local history and heritage.	Arts and Culture Strategy	Manager Library, Culture & Place			A	
2.2 Increase recognition and respect for local First Nations peoples, places and stories.	2.2.1	Partner with community to implement the City's new First Nations Strategy, with actions focused on respecting and celebrating, empowerment, advocacy and partnerships, capacity building, and cultural safety. Includes construction of a yarning circle and review of the City's First Nations protocols.	First Nations Strategy	Manager Economic & Community Development	R	R	R	R
2.3 Increase participation in the arts, creative industries, and community events.	2.3.1	Implement the Arts & Culture Strategy.	Arts and Culture Strategy	Manager Library, Culture & Place	R	R	R	R
	2.3.2	Undertake annual desktop review of the Public Art Management Plan and Guidelines, and update precincts and locations as required to ensure Plan remains current.	Public Art Management Plan	Manager Library, Culture & Place	R	R	R	R
	2.3.3	Undertake a feasibility assessment of options to deliver a short to mid-term space for local creatives, to support the growth of arts and culture in the City.	Community Infrastructure Plan; Arts and Culture Strategy	Manager Library, Culture & Place	R			

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
2.3 Increase participation in the arts, creative industries, and community events (continued).	2.3.4	Continue to partner with leading arts organisations to deliver a high calibre program of performing arts catering to the interests of the community.	Arts and Culture Strategy	Manager Library, Culture & Place	R	R	R	R
	2.3.5	Conduct a three-year trial and evaluation of an expanded Your Neighbour Grant Program with new opportunities for the community to connect and get to know one another through funded neighbourhood meetups including picnics and play dates in local parks.	Arts and Culture Strategy	Manager Library, Culture & Place	A	A	A	

Outcome 3. People of all ages and abilities feel connected and supported.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
3.1 Support the health and wellbeing of families and children.	3.1.1	Partner with community organisations to expand delivery of community programs targeting health, wellbeing, early years and domestic violence.	Early Years Program	Manager Economic & Community Development	R	R	R	
	3.1.2	Ensure City of Belmont programs and service delivery complies with the National Principles for Child Safe Organisations.	Early Years Program	Manager Economic & Community Development	R	R	R	R
3.2 Support young people to flourish.	3.2.1	Review the Youth Strategy and implement on an ongoing basis. Continue to facilitate and enhance youth facilities and services, including a dedicated youth centre, at-risk support services, youth events, skills workshops, leadership programs, arts, social and environmental programs, and school holiday programs.	Youth Strategy 2019 and Beyond	Manager Economic & Community Development	R	R	R	R
3.3 Support people to age safely, happily, with dignity and respect.	3.3.1	Implement the Age Friendly Belmont Strategy - Continue to facilitate and enhance seniors' programs, activities and advocacy, including Belmont Seniors Hub and engagement with the Age Friendly Advisory Group.	Age Friendly Belmont Strategy	Manager Economic & Community Development	R	R	R	R

R = Resourced A = Additional resources required

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
3.4 Advance opportunities, community participation and quality of life for people of all abilities.	3.4.1	Implement the Access and Inclusion Plan - Continue to facilitate and enhance access and inclusion programs and events, including International Day for People with a Disability events, dementia support programs, and the Accessible Business Program.	Access and Inclusion Plan	Manager Economic & Community Development	R	R	R	R
3.5 Grow participation in volunteering.	3.5.1	Implement the Volunteer Program, including the e-Volunteer Hub, Step Into Volunteering workshops, and various volunteering opportunities through the City of Belmont.		Manager Economic & Community Development	R	R	R	R

R = Resourced A = Additional resources required

Planet

Our natural heritage, including the Derbarl Yerrigan (Swan River) and nature reserves, is being cared for, enhanced and enjoyed responsibly. We are working together to grow our tree canopy and reduce waste, emissions and water use for improved sustainability.

Current situation

To protect the natural environment, support local flora and fauna and help to restore biodiversity, the City maintains 50 hectares of natural areas and completes several environmental restoration and revegetation projects every year.

City performance is above average for conservation, and river management in the MARKYT® Benchmarking Excellence Program. The City also saw a significant increase between 2023 and 2024 in efforts to promote and adopt sustainable practices and has become an industry leader in this area.

Performance is on par with other local governments for waste, environmental health, and natural disaster management.

The community would like more education and incentives to encourage the adoption of sustainable practices, and the retention and planting of more trees and native plants.

The City's score for waste management remained consistent between 2023 and 2024 with the introduction of a three bin FOGO system with mixed views from community members regarding frequency of collections and size of bins.

Recent achievements

It's time to FOGO

2024-25 saw the completion of phase one and two of the FOGO rollout, to single and multi-unit dwellings. This includes 16,080 single unit dwellings in phase one and 1,822 units in phase two. The final phase is anticipated to commence ahead of schedule, in the coming 2025-26 financial year.

New habitat for native wildlife

Revegetation of Garvey Park continued in 2024, with the support of community volunteers. 2,800 native tube stock was planted across the re-vegetation site, creating 4,000m² of new habitat for native wildlife. As a result of the 2023 plantings, there has been a significant increase in tree canopy, along with increased wildlife habitat, which is an excellent result to see in the first 12 months of this project.

Tomato Lake water quality trial

Blue-green algae is a naturally occurring bacteria in warmer summer months. In 2024 a water quality trial completed using natural alternatives for treatment of the algae. The trial saw significant improvement to the lake's water quality. Based on the success of the Tomato Lake trial, the City will now undertake a similar process at its other water catchment areas.

Verge Garden Program

In 2024 the City introduced the Verge Garden Program, providing plants and advice to residents to improve the aesthetics of their verges whilst also taking steps to offset water usage and urban heat islands. The program had higher than expected uptake from the community and will continue to be rolled out into the future based on its success.

What we will keep doing

The City will continue to deliver and support services that contribute to achievement of the Planet aspiration and outcomes, such as:

- Environmental management
- Environmental monitoring
- Environmental awareness and education
- River and foreshore management
- Ecological monitoring
- Pollution management
- Waste collection
- Water and energy efficiency awareness and education
- Emergency management

Teams will focus on continuous improvement in these areas. Please refer to the City's website and supporting plans and strategies for more details.

Our plan for the future

Outcome 4. Healthy and sustainable ecosystems.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
4.1 Protect and enhance our natural environment.	4.1.1	Implement planting programs and revegetation plans to increase the quality of natural areas.	Environment and Sustainability Strategy; Streetscape Enhancement Strategy	Manager Parks, Leisure & Environment	R	A	A	A
	4.1.2	Incorporate input from the City's Design Review Panel to ensure development occurs in a sustainable and appropriate manner to protect and enhance our natural environment.	Environment and Sustainability Strategy	Manager Planning	R	R	R	R
	4.1.3	Implement surface water quality monitoring projects to identify priority catchments and methods of reducing nutrients.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	4.1.4	Undertaken at least three major revegetation programs per year in remnant bushlands, the Swan River Foreshore and priority wetlands.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	4.1.5	Restored 6.3 ha of 'Completely Degraded' and 'Degraded' vegetation with condition rates as 'Excellent'.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R	R	
4.2 Improve management of the Swan River and local waterways.	4.2.1	Provide foreshore upgrade and stabilisation works at Esplanade Park.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R			
	4.2.2	Provide foreshore stabilisation works at the Bilya Kard Boodja Lookout.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	A		
	4.2.3	Provide foreshore stabilisation works at Garvey Park (section 2).	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R			A
	4.2.4	Review and update the Belmont Foreshore Management Plan to consider restoration programs required to increase habitat, river access, and parkland amenity.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R		

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
4.3 Grow the urban forest.	4.3.1	Implement the Urban Forest Strategy 2025-2035.	Urban Forest Strategy	Manager Parks, Leisure & Environment	R	R	R	R

Outcome 5. Climate resilience.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
5.1 Adopt sustainable practices to reduce waste, emissions and water usage.	5.1.1	Support the community to successfully transition to a new three-bin FOGO kerbside collection service.	Waste Plan	Manager Works	R	A		
	5.1.2	Explore more convenient options for community members to dispose of household hazardous waste safely and responsibly in the local area.	Waste Plan	Manager Works	A	A	A	
	5.1.3	Implement the Waterwise Council Program to retain a GOLD Status in Waterwise Accreditation.	Environment and Sustainability Strategy; Public Open Space Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	5.1.4	Continue to monitor groundwater use and allocation to prevent over abstraction.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	5.1.5	Monitor the progress of climate change initiatives and communicate achievements to Council and Community.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R	R	R
5.2 Build our resilience to cope with natural disasters and emergencies, including storms, flooding and fire.	5.2.1	Proactively address the threat of fire in the community including pre-bush fire season notifications.	Local Emergency Management Plan; Safer Communities Operational Plan	Manager Safer Communities	R	R	R	R
	5.2.2	Develop a City wide hydrological model for risk management and informing upgrades and land use developments.	Environment and Sustainability Strategy	Manager Parks, Leisure & Environment	R	R		

R = Resourced A = Additional resources required

Responsible urban planning is helping to create green, healthy and well-connected neighbourhoods with good public facilities, attractive streetscapes and parks, and housing opportunities for everyone.

Current situation

The City’s flexible Local Planning Scheme development codes encourage a range of high-quality developments of different types and styles. Overall, the community is happy with urban planning, with performance scores for responsible growth and development, planning and building approvals, access to housing, footpaths, local roads, streetscapes, and traffic management all above average in the MARKYT® Benchmarking Excellence Program.

Playgrounds, parks, and reserves are well above average with 90% of community members providing a positive rating.

Streetscapes, trees and verges are rated as the third highest priority. The community would like more trees and better verge maintenance to improve the City’s overall appearance and attractiveness.

While traffic management performed well against the industry average, the community would like more traffic calming, cycleways, walkways, public transport and adequate parking provisions in high density developments.

Recent achievements

Streetscape enhancement

In 2024, the City continued to enhance the streetscapes around the City, upgrading over 17,000 square meters of streetscapes and putting in 27,500 plants.

Abernethy and Redcliffe Traffic Studies

The City has conducted comprehensive traffic studies along Abernethy Road, from Fulham to Leach Highway, as well as in the Redcliffe area, to consider current and future traffic movement and what safety and amenity improvements may be needed.

Playground renewals

The City has been implementing its playground renewal program, with new or upgraded playground equipment installed at 6 parks across the city in 2024, with a total of 21 playground renewals completed in the last 3 years. This includes the installation of new multipurpose goals at Peach Park, Selby Park and Wilson Park.

Accessibility improvements to parks

Accessibility continues to be improved across the city's parks, with upgrades to Garvey Park, Tomato Lake and Volcano Playground including new connecting footpaths, shelters, accessible barbeques, and seating.

What we will keep doing

The City will continue to deliver and support services that contribute to achievement of the Place aspiration and outcomes, such as:

- Planning and development
- Urban planning and design
- Sustainability expertise on City's Design
- Review Panel to guide developers
- Community placemaking
- Parks and open space management
- Facility management
- Footpaths and bike paths
- Roads and streetscapes
- Traffic management
- TravelSmart awareness and education

Teams will focus on continuous improvement in these areas. Please refer to the City's website and supporting plans and strategies for more details.

Our plan for the future

Outcome 6. Sustainable population growth with responsible urban planning.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
6.1 Responsible planning and development to enhance liveability, with consideration for supporting infrastructure and services.	6.1.1	Review Local Planning Scheme No. 15 to ensure appropriate planning controls exist for required land uses and development needs.	Local Planning Scheme No. 15	Manager Planning Services	R	R		
	6.1.2	Formalise and implement the planning framework for the Local Planning Scheme No. 15. This is largely established under the State Government's Planning and Development Act 2005 and covers local planning strategies, schemes, policies, precinct plans, and heritage lists.	Local Planning Scheme No. 15	Manager Planning Services	R	R	R	R
	6.1.3	Engage with relevant local governments and agencies to work towards standardisation of local government planning processes and approaches to assist the community and developers.	Economic Development Strategy	Manager Economic & Community Development; Manager Planning	R	R	R	R
	6.1.4	Advocate for outcomes within the State Government's Improvement Plan No.45 for Redcliffe Station Precinct that aligns with the City's Development Area 6 Vision Plan and Implementation Strategy. This includes delivering high quality transit-oriented development and contributing to local housing targets.	Development Area 6 Vision Plan and Implementation Strategy	Manager Planning Services	R	R	R	R
	6.1.5	Implement the Great Eastern Highway Urban Corridor Strategy.	Great Eastern Highway Urban Corridor Strategy	Manager Planning Services	R	R	R	R

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
6.1 Responsible planning and development to enhance liveability, with consideration for supporting infrastructure and services (continued).	6.1.6	Formalise and implement the planning framework for the Golden Gateway Local Structure Plan, considering potential for high quality mixed commercial and residential development. The Golden Gateway precinct encompasses land generally bound by Great Eastern Highway, the Swan River, Resolution Drive and Grandstand Road (to the north), Ascot Racecourse (to the south), Carbine Street and Hardey Road, and it includes the Ascot Kilns site.	Golden Gateway Local Structure Plan	Manager Planning Services	R	R	R	R
	6.1.7	Prepare the Belmont Trust Strategic Plan to consider future uses and management of a parcel of land between the Swan River and Great Eastern Highway near the Ascot Racecourse that was set aside for recreational purposes by a Declaration of Trust in 1954.	Belmont Trust Strategic Plan	Manager City Projects	R	A		
6.2 Improve access to safe, affordable and diverse housing options.	6.2.1	Finalise the Local Housing Strategy to plan how and where the City will accommodate the housing needed for predicted population growth.	Local Housing Strategy	Manager Planning Services	R			

Outcome 7. Attractive and welcoming places.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
7.1 Provide quality community buildings, halls and toilets.	7.1.1	Upgrade facilities at Centenary Park.	Community Infrastructure Plan	Manager City Facilities & Property	R			
	7.1.2	Upgrade facilities at Gerry Archer Reserve.	Community Infrastructure Plan	Manager City Facilities & Property	R	R	R	
	7.1.3	Upgrade Redcliffe Community Centre.	Community Infrastructure Plan	Manager City Facilities & Property	R	R		

R = Resourced A = Additional resources required

Attachment 12.4.2 Corporate Business Plan 2025-2029

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
7.2 Provide attractive green spaces, streetscapes, parks and playgrounds for recreation, relaxation and enjoyment.	7.2.1	Advocate for Main Roads to beautify the Gateway to Perth - Great Eastern Highway - to improve first impressions of Perth and the City of Belmont.	Public Open Space Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	7.2.2	Implement the City's 10 Year Streetscape Upgrade and Renewal Program.	Streetscape Enhancement Strategy	Manager Parks, Leisure & Environment	R	R	R	R
	7.2.3	Review the Faulkner Civic Precinct Master Plan.	Public Open Space Strategy	Manager Parks, Leisure & Environment	R	R		
	7.2.4	Implement the Wilson Park Precinct Revitalisation project.	Public Open Space Strategy	Manager City Projects	R	A	A	A

Outcome 8. A city that is easy to get around safely and sustainably.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
8.1 Make our city more enjoyable, connected and safe for people to walk and cycle.	8.1.1	Implement projects and initiatives in the Sustainable Transport Strategy.	Sustainable Transport Strategy	Manager Design, Assets & Development	R	R	R	R
	8.1.2	In consultation with Main Roads WA and the community, review traffic signals and infrastructure to identify and cost upgrades required to improve pedestrian safety across the Belmont Forum business precinct.	Sustainable Transport Strategy	Manager Design, Assets & Development	R	R

Prosperity

By nurturing creativity and innovation, we have a diverse, dynamic and resilient economy with excellent investment, business development and job opportunities. It is an exciting and vibrant place to visit, with a good range of entertainment, shopping and dining experiences.

Current situation

The City of Belmont has experienced record levels of investment in major residential, commercial and infrastructure projects.

Unique to the City, there are more local jobs (52,692) than residents (43,873). Work opportunities are mainly located in the Perth Airport precinct, Belmont Business Park, Kewdale Industrial Area, Belmont Town Centre, and Great Eastern Highway Corridor.

Performance scores for economic development, City Centre development, and education were all well above average in the MARKYT® Benchmarking Excellence Program. The City's library services were noted as an industry leader.

To improve, businesses would like the City to develop a better understanding and response to challenges facing businesses, such as improving the overall appeal of the area and providing more business and marketing support.

The City was seen as an industry leader as an area to own or operate a business, with a 92% positive rating. While 86% of businesses gave the City a positive rating as a place to visit, the performance score was 5 points below industry average, representing an opportunity to improve.

Recent achievements

Jobs Expo 2024

Over 60 employers and exhibitors welcomed over 900 jobseekers to our inaugural Jobs Expo, encouraging employing locally, as well as assisting jobseekers with resume writing coaching.

Library and museum

The Ruth Faulkner Library and Belmont Museum continue to welcome record numbers of visitors providing services and programs for all ages including a new anime program for youth, designed to engage young individuals with both rich content and library services. It was recently ranked the 4th coolest library in Australia by Australian Traveller.

Activations

Placemaking activities continue to help business precincts grow and thrive, with initiatives like Love Street Locals, public art installations and the Stories That Unites us project telling the local community the stories behind their local business owners.

Business support

The City renewed its funding agreements with Belmont Business Enterprise Centre to provide business advisory services and conduct the annual Belmont & WA Small Business Awards. The City continued the Business Innovation Grants program and introduced new business training workshops. The popular Business Breakfast networking events continue to attract keen interest in 2024.

What we will keep doing

The City will continue to deliver and support services that contribute to achievement of the Prosperity aspiration and outcomes, such as:

- Economic development
- Place activation
- Business support
- Business Innovation Grants Program
- Small business information sessions
- Belmont Business Advisory Group
- Business networking events
- Sponsorship of business awards
- Link WA, a regional partnership with other local governments to strengthen the freight and logistics industry
- Employment, training and job-readiness programs
- Youth training and education programs
- Library services
- Corporate social responsibility initiatives

Teams will focus on continuous improvement in these areas. Please refer to the City's website and supporting plans and strategies for more details.

Our plan for the future

Outcome 9. A progressive, vibrant and thriving economy with active participation in lifelong learning.

Objectives	Actions		Informing Strategies	Lead	25-26	26-27	27-28	28-29
9.1 Attract public and private investment and support the attraction, retention, growth and prosperity of local businesses.	9.1.1	Implement the Economic Development Strategy - Partner with industry to implement the plan of programs, activities and advocacy.	Economic Development Strategy	Manager Economic & Community Development	R	R	R	R
	9.1.2	Review the business approvals system to improve the experience business customers have when they must apply to meet regulatory requirements.	Economic Development Strategy	Manager Economic & Community Development	R	A		
	9.1.3	Develop new visitor attractions and marketing campaigns.		Manager Economic & Community Development	A	A		
9.2 Plan and deliver vibrant, vibrant, attractive, safe and economically sustainable activity centres.	9.2.1	Implement the Activity Centre Planning Strategy.	Activity Centre Planning Strategy	Manager Planning Services	R	R	R	R
	9.2.2	Implement the Belvidere Streetscape Revitalisation project, with a focus on activation, beautification, community safety, and better connections with other areas to support existing businesses and attract new businesses and private development.	Streetscape Enhancement Strategy	Manager City Projects	R	A		
9.3 Enhance corporate social responsibility and promote the benefits this brings to both the business sector, the environment and the wider community.	9.3.1	Work with industry to develop campaigns and tools that facilitate increased corporate volunteering and investment in environmental and community outcomes.	Economic Development Strategy	Manager Economic & Community Development	R	R	R	R

Performance

Local leaders seek, listen and value community input into local decisions, and keep the community well informed about what's happening. There is a clear vision and plan for the future, with a strong focus on balancing service delivery and financial sustainability to deliver excellent value for money from rates.

Current situation

The City has been one of the leading local governments in the MARKYT® Benchmarking Excellence Program, in governance, community engagement, and customer service for many years. Performance ratings are consistently above industry average.

The City is the leading local government for value for money from council rates. A position it has held for several years. The city was also seen as a leader for openness and transparency.

The community would like the leadership group to demonstrate that it is listening to and respecting residents' views, to develop and show a greater understanding of local needs, and to explain reasons for its decisions and how residents' views are being considered.

The City has good channels for communication, with the website, Belmont Bulletin and e-newsletter getting the highest scores in the MARKYT® Benchmarking Excellence Program. Social media scores above industry average.

Recent achievements

Implementation of SmoothRates

SmoothRates was launched in 2024, to enable ratepayers to pay their current year rates in smaller, regular amounts throughout the year either fortnightly or monthly via direct debit at no additional cost.

Industry leading performance

In the 2024 MARKYT® Scorecard the City of Belmont was leading the industry in 9 areas: value for money from rates, openness and transparency, disability access and inclusion, multiculturalism and cultural diversity, sustainable practices, library services, City website, Belmont Bulletin (printed newsletter), and Be-News (email newsletter).

Delivering value to our community

In 2024 the City worked closely with State and Federal agencies and secured over \$6.2M of grant funding to support the provision of projects, services and initiatives for our community.

Electric equipment

The City conducted a trial in 2024 of electric grounds maintenance equipment, to measure the impact and benefits of the approach. The data will be used to inform future purchases of plant and equipment to improve the City's carbon footprint.

What we will keep doing

The City will continue to deliver and support services that contribute to achievement of the Performance aspiration and outcomes, such as:

- Governance
- Business planning and improvement
- Risk management and insurance
- Financial management
- Procurement and contract management
- Land and property management
- Fleet and plant management
- Building services
- Asset management
- City functions
- Information, records and technology
- Human resources
- Occupational safety and health
- Grants management
- Marketing and communications
- Customer service

Teams will focus on continuous improvement in these areas. Please refer to the City's website and supporting plans and strategies for more details.

Our plan for the future

Outcome 10. Effective leadership, governance and financial management.

	11.2.3	Investigate and implement improvements to Customer Relationship Management (CRM) systems to improve customer experiences.	Engagement Strategy 2023 and Beyond	Manager Information Technology		A	A	

R = Resourced A = Additional resources required

Informing Strategies and Plans

As specified in the State Government's Integrated Planning and Reporting Framework and Guidelines, this plan has been informed and is supported by the Long-Term Financial Plan, Asset Management Plans, Workforce Plan, Risk Management Framework and various issue-specific strategies and plans.

Long-Term Financial Plan

The Long-Term Financial Plan is the City's 10-year financial planning document. It is created with consideration for forecast income, cash flow, rate setting, financial position and equity statements. These statements are supported by details of assumptions on which the plan has been developed, projected income and expenditure, scenario modelling and sensitivity analysis, major capital works schedules, and risk assessments of major projects.

Asset Management Plans

Asset management planning helps to ensure assets are created, maintained, renewed, or retired at appropriate intervals to meet service delivery standards and community needs. The City has an overarching Asset Management Strategy and various Asset Management Plans that inform the 10-year Long-Term Financial Plan and Capital Works Program.

Workforce Plan

The Workforce Plan helps to shape the workforce now and for the future. It provides a coordinated approach for resourcing key projects, services, and operations to meet organisational objectives and community priorities. The Workforce Plan profiles the current workforce, considers labour market forces and trends, identifies skill, knowledge and resourcing gaps, advises on recruitment, training and retention strategies to close any gaps, conducts risk assessment and proposes mitigation strategies, and monitors and reports on key performance indicators.

Risk Management Framework

The Risk Management Framework encourages and guides the City to identify, analyse, evaluate, treat, monitor and communicate risks to maximise the potential to achieve goals and objectives and minimise potential for harm or loss. The City integrates risk management practices and procedures into all strategic initiatives, projects, operational processes and day-to-day business practices.

Continuous improvement

The City uses the Australian Business Excellence Framework (ABEF) as a tool to drive continuous improvement. A critical component of the ABEF is the Approach, Deployment, Results and Improvement (ADRI) Learning Cycle. The ADRI Learning Cycle has been incorporated into the City of Belmont's Integrated Planning and Reporting Framework to identify and drive improvement in business practice and performance. The City aims to provide quality products and services and has been internationally certified in the areas of Quality Assurance, Environmental Management and Occupational Safety and Health at its facilities since 2006.

Issue-specific strategies and plans

The City of Belmont has various issue-specific strategies and plans. Several of these plans fulfil statutory requirements such as the Local Planning Framework, Disability and Inclusion Plan, Public Health Plan, and Waste Plan. Additional plans and strategies have been created to provide an in-depth review and assessment of options to address local priorities.

The following table lists informing plans and strategies that make up the City of Belmont's management framework, the current status of these documents, and the time frame for review or retirement.

Informing strategies and plans	Lead officer	Statutory requirement	Status	Year adopted or last reviewed	Review period	Next review, or to be developed (if new)	Year to be completed or retired

Financial Summary

The financial summary forecasts estimates of operating revenue and expenditure, capital projects, borrowings and cash reserves over the next four years. For further information, please see the Long-Term Financial Plan.

Budget to be inserted after adoption at the June 2025 meeting.

Developing and Reporting

The Local Government Act 1995 (WA) requires all local governments to plan for the future. As of 2024, the City of Belmont was required to adopt a 10-year Strategic Community Plan, 4-year Corporate Business Plan and Annual Budget that were integrated with asset management plans, a workforce plan and a long-term financial plan.

In 2024, the City embraced the FUTYR® approach to conduct a major review of its Strategic Community Plan and Corporate Business Plan. This is a community-led, integrated and streamlined approach designed specifically for local government. It involved:

- Desktop research
- Detailed review of current plans and strategies to align and integrate outcomes and actions
- Community survey and benchmarking using the MARKYT® Community Scorecard
- Workshops with councillors, staff, key stakeholders and local community members

We express our deepest thanks to all community members who assisted in the development of the City’s plans. We heard from a good cross section of people in the local community, including youth, families, seniors, people with disability, people with diverse cultural backgrounds, local businesses, and representatives from local community organisations.

To track progress against outcomes in this plan, the City will monitor real and perceived performance levels from various sources. Results will be reported in the Annual Report. Please visit www.belmont.wa.gov.au to access the latest Annual Report.

City of Belmont Community Engagement	Markyt Community Scorecard 2024	Markyt Wellbeing Scorecard 2023	Markyt Business Scorecard 2024	Markyt VoiceBank 2024	Futyr Community Workshops 2024
64+ Supporting plans and strategies	1,010 community members	834 community members	93 local businesses	56,716 word count of ideas and suggestions	65 community members

MARKYT

Community Scorecard

The City of Belmont participates in the MARKYT® Benchmarking Excellence Program to monitor and benchmark service levels.

Council aims to be above the MARKYT® industry average and strives to be the industry leader in all areas. This chart shows Council's Performance Index Score out of 100 compared to the MARKYT® Industry Standards.

The preferred target zone is shown as coloured bars.

Legend

-  City of Belmont 2024 performance score
 -  City of Belmont 2023 performance score
 -  No change in performance from 2023 to 2024
 -  Target Zone. Shading shows industry average to industry high from the MARKYT® Community Scorecard.

12.5 Statutory Review Delegation Register

Voting Requirement	:	Absolute Majority
Subject Index	:	11/005
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	OCM 23 April 2024 Item 12.8
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g., adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To seek Council endorsement of the Delegation Register 2025-26 as detailed in Attachment 12.5.1.

Summary and key issues

As required by section 5.46 of the *Local Government Act 1995 (WA)* (the Act), delegations are to be reviewed at least once every financial year. The City lists its delegated authorities in the Delegated Authority Register, and this Register has been structured to set the appropriate delegations of statutory authorities whilst ensuring that these delegations enable the efficient and effective delivery of the City's statutory obligations and strategic goals.

Officer Recommendation

That Council:

1. Endorses the Delegation Register 2025-26 as detailed in Attachment 12.5.1;
2. Endorses minor amendments to affected council policies to update any delegation references; and
3. Authorises the Chief Executive to approve minor changes to the Delegation Register 2025-26 as required.

Officer Recommendation adopted en bloc by an absolute majority - Refer to Resolution appearing at Item 12.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

The following sections of the *Local Government Act 1995 (WA)* are applicable when considering delegations:

- s5.16 Delegation of some powers and duties to certain committees
- s5.17 Limits on delegation of powers and duties to certain committees

- s5.18 Register of delegations to committees
- s5.42 Delegation of some powers and duties to CEO
- s5.43 Limits on delegations to CEO
- s5.44 CEO may delegate powers and duties to other employees
- s5.45 Other matters relevant to delegations under this division
- s5.46 Register of, and records relevant to, delegations to CEO and employees.

Several other pieces of legislation allow for delegation in Western Australia. Those relevant to the City's Delegation Register in addition to the *Local Government Act 1995 (WA)* are as follows:

- *Building Act (WA) 2011*
- *Bush Fires Act (WA) 1954*
- *Cat Act 2011 (WA)*
- *Dog Act 1976 (WA)*
- *Food Act 2008 (WA)*
- *Health Act 1911 (WA)*
- *Public Health Act 2016 (WA)*
- *Main Roads Act 1930 (WA)*
- *Planning and Development Act 2005 (WA)*
- *Strata Titles Act 1985 (WA)*
- *Local Government (Administration) Regulations 1996 (WA)*
- *Local Government (Financial Management) Regulations 1996 (WA)*
- *Local Government (Functions and General) Regulations 1996 (WA)*
- *Local Government Act (Uniform Local Provisions) Regulations 1996 (WA)*

Background

The Delegated Authority Register (Register) was last reviewed by Council at the Ordinary Council Meeting on 23 April 2024 Item 12.2. The current delegations have been reviewed to ensure that they enable the City's processes and are clearly defined and specific to support a greater level of control and clearly identify decisions that occur under delegated authority.

Safeguards as to when the delegation can be exercised and rights of appeal of an Officer's decision to Council are provided via the conditions and limitations within each delegation. It is important to note that Officers are not obliged to use, or exercise, a delegation; where a matter is determined to be of a contentious nature, the matter may be referred to Council.

Report

Following the review of this year's delegations by officers, there are minor amendments to only the content of most delegations.

The delegation relating to procurement functions (1.1.14) has been amended to simplify language, improve clarity and to provide better understanding of the general procurement functions and those relating to high value goods (tenders) and associated contracts.

Delegation 1.1.14 is proposed to be split into two subsections with new subsection 1.1.14 A dealing with Procurement and new subsection 1.1.14B addressing Contracts Variations and Extensions. Due to increasing supplier and construction costs, it is also proposed to increase the CEO tender approval threshold to \$500,000.

The Register has been reviewed to reduce repetition so that now each Council authority to be delegated is listed only once at each part of the Register dealing a particular legislative authority to be delegated, rather than at each individual delegated role as was done previously. The layout of the delegation table has changed to prepare for the implementation of new compliance software to facilitate migration of information across to the new digital delegation management system. Administrative changes such as approval dates and version control will be carried out (if required) following Council's endorsement.

The proposed changes are outlined below:

Delegation Number	Amendment	Comment/Reason
Various		Minor administrative changes to layout of the delegation table, legislation referencing and to reduce repetition
1.1.14	Functions of original delegation separated into 1.1.14A relating to Procurement and 1.1.14B relating to contract variations and extensions. Increase in CEO delegation to \$500,000	Content reworded to simplify language and avoid repetition as the delegation unnecessarily repeated a number of legislative sections making the delegation too long. The functions relating to procurement (all levels) have been included in one delegation and the functions relating to contract variations and extensions in another. The increase in CEO delegation is recommended as supplier pricing has increased.
1.1.16	Disposal of land	Adding to CEO delegation for disposal of leasehold property that is exempt from advertising requirements in s3.58 of the Act. If a reduced rent (not market value) is to be charged, it must be referred to Council.

A tracked change version of the Delegation register showing content changes is attached (Attachment 12.5.1).

A number of Council policies that reference the Delegation Register may require minor amendment.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Introduction

Council is responsible for the overall government of the City's functions. The CEO is responsible for the day-to-day management of the administration of the City's functions amongst other functions such as advising Council.

Legislation applicable to local government may reserve specific powers and duties to the Council, the CEO or a defined authorised person or class of persons. Where legislation refers to a power or duty of the "local government" this is generally interpreted to mean the Council unless otherwise specified even if the power or duty is operational in nature.

Delegation of authority, where allowed, allows for efficient and timely decision making by local governments. Conditions or limitations may be incorporated into delegations such as limiting

the circumstances in which a delegation can be exercised or imposing financial or other limits to the delegated power.

The delegation of a power or duty does not preclude a delegator from exercising or performing that power or duty itself or by acting through any employee authorised, by job description or otherwise, to carry out a function as the agent of, and on behalf of, the local government in accordance with approved policies.

A person granted a delegation is not obliged to exercise the delegated power and may, if circumstances indicate, refer the decision back to the delegator. Legislation varies in how delegation of authority is provided for, including limitations, conditions and reporting or review requirements. Reviews of delegations, where required by law, are the responsibility of the delegator.

In some instances, it is most appropriate for a function to be exercised by the Council only and as such no delegation is made e.g. consideration of ward reviews and submissions.

Under the *Local Government Act 1995* (WA) (the Act) and some other legislation, persons affected by specified decisions made under delegated authority have a right under Part 9 Division 1 of the Act to lodge an objection to the decision, which must be considered by Council, and/or to seek a review of the decision by the State Administrative Tribunal.

I Delegations by Local Government

The Act allows for the local government (Council) to delegate to the Chief Executive Officer (CEO) the exercise of any of its power or the discharge of any of its duties under the Act in order to effectively manage the day-to-day operations of the City.

The main consideration for a local government when deciding if it should delegate a power or duty is whether the delegation will improve the efficiency of the local government's operations whilst ensuring that its policies are consistently implemented.

Some legislation may restrict the local government to delegating a power or function only to the local government CEO, although some acts provide for the local government to delegate to persons other than the CEO, such as other local government employees or committees. The CEO may further delegate those powers to other officers only if sub-delegation is permitted by the legislation.

Delegations are required to be made in writing, and for Council delegations, this normally takes the form of a resolution that is recorded in the Council Minutes.

Under the Act, *Cat Act 2011* (WA), *Dog Act 1976* (WA), *Graffiti Vandalism Act 2016* (WA) and *Planning and Development (Local Planning Schemes) Regulations 2015* (WA), delegations by Council must be made by absolute majority resolution. Other legislation does not require an absolute majority to grant, amend or revoke a delegation by Council.

The decision to revoke a delegation from the CEO must also be absolute majority.

The Act also allows for the CEO to delegate any powers or discharge of any of the CEO's duties to another employee other than the power of delegation (s 5.44(4)). There is no power other than for the CEO to delegate a power.

All delegations must be in writing and the CEO is able to make the delegation or sub delegation subject to conditions or limitations. When an employee is acting in a position, they are deemed to be able to carry out the functions delegated to that position.

Delegations and authorisations from the Council directly to officers, other than the CEO, will be avoided unless legislation specifically provides that this is the only manner in which the power can be provided.

The ability to delegate a statutory function, power or duty must be described in a piece of legislation and is known as the power of delegation. It may be stated as a duty, function or power depending on the legislation. Delegations or authorisations may occur under legislation other than the Act, its regulations and the local government's local laws including but not limited to:

- *Planning and Development Act 2005* (WA) including regulations
- *Dog Act 1976* (WA) and regulations
- *Cat Act 2011* (WA) and regulations
- *Bush Fires Act 1954* (WA), regulations and any local law created under that Act
- *Litter Act 1979* (WA) and regulations
- *Strata Titles Act 1985* (WA)
- *Local Government (Miscellaneous Provisions) Act 1960* (WA) as amended
- *Caravan Parks and Camping Grounds Act 1995* (WA)
- *Control of Vehicles (Off-Road Areas) Act 1978* (WA) and regulations
- *Building Act 2011* (WA) and regulations
- *Food Act 2008* (WA) and regulations

A Council delegation is not required where the legislation confers a specified function or power directly on the CEO or another defined class of authorised persons.

There also needs to be a specific function or duty that must be carried out under the legislation. The power must be able to be exercised by the person or body wanting to delegate that power and it must be contained in legislation that has an associated power of delegation.

A range of different powers can be delegated. An important aspect of any delegation of power is certainty as to the power being delegated. The person or body delegating authority should clearly specify in the instrument of delegation the statutory power or duty being delegated. This will ensure that the person exercising delegated authority can be certain of the extent of authority conferred by the delegation. The statutory reference to the power being delegated should be included in the instrument of delegation.

Reviewing the above list, it is clear that there is a limited range of legislation under which powers can be delegated. There is no express provision for a local government to delegate its functions under any other legislation. However, this does not prohibit the local government from "acting through" its officers for the purpose of legislation and the manner in which this can be achieved is detailed below.

The *Interpretation Act 1984* (WA) provides a standard basis on how terms across all Western Australian legislation can be interpreted such as computation of time. It also provides further information on how delegations work and provides a basis for allowing conditions or limitations to be made on the delegation; revocation of the delegation; the continuance of the delegation if a person is acting in the position to which the power is delegated.

II Matters which cannot be delegated

The following cannot be delegated by Council to the CEO under the Act (s 5.43)

- any power or duty that requires a decision of an absolute majority of the council
- accepting a tender which exceeds an amount determined by the local government
- acquiring or disposing of any property valued at an amount exceeding an amount determined by the local government
- any of the local government's powers under
 - s 5.98 – Fees etc for council members
 - s 5.98A – Allowance for deputy mayor or deputy president
 - s 5.99 Annual fee for council members in lieu of fees for attending meetings
 - s 5.99A Allowances for council members in lieu of reimbursement of expenses
 - s 5.100 Payment for certain committee members
- borrowing money on behalf of the local government
- hearing or determining an objection of a kind referred to in s 9.5
- the power under s 9.49A(4) to authorise a person to sign documents on behalf of the local government
- any power or duty that requires the approval of the Minister or the Governor
- such other powers or duties as may be prescribed.

III Acting Through

Section 5.45 of the Act introduces the concept of "acting through." In relation to delegations, s 5.45 of the Act states that nothing prevents a "local government from performing any of its functions by acting through a person other than the CEO" or "a CEO from performing any of his or her functions by acting through another person."

While the Act does not specifically define the meaning of the term "acting through, it cites a key difference between a delegation and "acting through" in that a delegate exercises the delegated decision-making function in his or her own right. The principal issue is that where a person has no discretion in carrying out a function, then that function may be undertaken through the "acting through" concept. Alternatively, where the decision allows for discretion on the part of the decision maker, then that function needs to be delegated for another person to have that authority.

For administrative purposes, a person may sign a letter in his or her own name on behalf of the CEO while, with delegated powers, the person would sign a letter in his or her own name, in accordance with the delegated authority.

An appropriate method for a council of a local government to make a decision which will be implemented by its officers is for it to make a policy about particular functions that it performs. In that case there is no need for a delegation as it will be the role of the organisation to implement those policy decisions.

IV Register of Delegation

Section 5.46 of the Act requires the CEO to maintain a register of delegations made to the CEO and to employees. These registers must be reviewed at least once every financial year and the requirement for records to be kept on the exercise of the delegation is also included.

A register of delegations made by the local government to a committee is also required to be kept and reviewed at least once every financial year under s 5.18 of the Act. Council does not have any delegations to committees.

The effective date of the Delegations contained in the register and reviewed annually is 1 July in any given year. Any delegations reviewed outside this cycle have an effective date as per Council resolution.

V Standard Conditions of Delegation

Individuals are responsible for ensuring that legislated requirements relating to the exercise of delegated power(s) are complied with.

Any person proposing to exercise a power under delegated authority shall comply with the following standard conditions of delegation:

1. Actual decisions relating to the matter delegated shall be made by the person nominated in the delegation. However, it is understood that other staff may carry out administrative and technical work relating to those decisions.
2. Compliance with all relevant legislative requirements, Local Laws, Council Policies, resolutions of Council and the Business Management System Procedures.
3. Delegated authority cannot be exercised where a Financial Interest or an Interest Affecting Impartiality is evident.
4. It is a statutory requirement to maintain a record of each decision made under delegated authority. Documents relating to delegated authority decisions shall, as a minimum, record:
 - a. Date the decision was exercised;
 - b. Name of the Officer/Committee exercising the decision;
 - c. Description of how the person exercised the power or discharged the duty, including where appropriate, any directions to staff to carry out work associated with the decision unless those directions are included in Policies, Management Procedures or the Delegation Register;
 - d. Notation of the people or class of people directly affected by the decision (other than Council or Committee members or employees of the City).

Any exercising of a power and discharging of a duty must be recorded either through the business units software (eg Pathway, Trapeze) or on the Record of Exercise of Power – Delegation of Authority Form and registered at the time of exercising the delegation(ECM Folder 11/005). Where delegations are recorded outside of ECM a monthly report must be provided to Compliance and recorded in ECM.

5. Instruction is provided for each delegation on record keeping requirements. All records relating to an exercise of delegation must be recorded in the main official record keeping system of the City, ECM.

VI Delegations from other Agencies and Instruments of Delegation or other Acts

Where legislation provides for the direct delegation to a person or a class of persons by other agencies or decision makers, no delegation is required from the local government. The authorisation is dealt with in the relevant legislation. Where required, the Instrument of Delegation or Notice of the Appointment is advertised in the Government Gazette. The Agencies are listed below and updated from time to time.

Department/Legislation
Department of Environment <i>Environmental Protection Act 1986 (WA) Environmental Protection (Noise) Regulations 1997 (WA)</i> Pursuant to section 20 <i>Environmental Protection Act 1986 (WA)</i> to the holder of the offices listed.
Department of Environment <i>Environmental Protection Act 1986 (WA) Environmental Protection (Noise) Regulations 1997 (WA)</i> Pursuant to section 20 <i>Environmental Protection Act 1986 (WA)</i> to the holder of the offices listed.
Western Australian Planning Commission <i>Planning and Development Act 2005 (WA)</i> Pursuant to section 16 of the Act (delegation) WAPC resolved on 26 May 2009
Western Australian Planning Commission <i>Planning and Development Act 2005 (WA)</i> Pursuant to section 16 of the Act (delegation) WAPC Resolved on 15 December 2015
<i>Litter Act 1979 (WA)</i> Pursuant to section 26 – Authorised officers, appointment and jurisdiction of etc.
<i>Main Roads Act 1930 (WA)</i>

LOCAL GOVERNMENT ACT 1995 (WA) DELEGATIONS

1.1 Council to CEO

Delegation: Council to CEO (s5.42 & s5.43 of the Local Government Act 1995 (WA)(LGA95))

1.1.1 Compensation – Damage Incurred when Performing Executive Functions

Delegator: Power / Duty assigned in legislation to:	Council
Express Power to Delegate: Power that enables a delegation to be made	<i>Local Government Act 1995 (WA):</i> s 5.42 Delegation of some powers or duties to the CEO s 5.43 Limitations on delegations to the CEO
Express Power or Duty Delegated: Power or Duty Delegated:	<i>Local Government Act 1995 (WA) LGA95:</i> s 3.22(1) Compensation s 3.23 Arbitration
Delegate:	Chief Executive Officer
Function:	In accordance with s 3.22 procedures , assess and determine the extent of damage to private property arising directly from performance of the City's functions and make payment of compensation [s 3.22(1)] if requested. Where compensation is unable to be determined and agreed between parties, give effect to arbitration in accordance with s 3.23.
Council <u>General</u> Conditions on this Delegation:	Any person proposing to exercise a power under delegated authority shall comply with the Standard Conditions of Delegation and the following specific additional conditions for this delegation. Additional Condition Financial Limits to Delegation is limited to settlements which do not exceed a material value of \$5000 per claim.

9.2.1 Development Applications

Delegator: Power / Duty assigned in legislation to:	Local Government
Express Power to Delegate: Power that enables a delegation to be made	<i>Planning and Development (Local Planning Schemes) Regulations 2015 (WA)</i> Schedule 2, Part 10, s 82(1) Delegations by local government
Power or Duty Delegated:	<i>Planning and Development (Local Planning Schemes) Regulations 2015 (WA)</i> , Schedule 2 s 68 Determination of applications s 70 Form and date of determination s 77 Amending or cancelling applications <i>Planning and Development (Development Assessment Panel) Regulations 2011 (WA)</i> 17A Amendment or cancellation of development approval by responsible authority.
Delegate:	Chief Executive Officer
Function:	Interpret and apply the provisions of Local Planning Scheme No. 15 and any relevant statutory planning framework, including Local and State Planning Policies. To determine development applications by issuing refusals, deemed refusals, approvals with relevant conditions and amendments to development approvals in respect of applications determined under delegated authority. Note: This delegation does not include any determinations or approvals relating to prescribed development approval functions or prescribed single house developments. (Reg 84A & 84B)

**Council General
Conditions on this
Delegation:**

Any person proposing to exercise a power under delegated authority shall comply with the [Standard Conditions of Delegation](#) and the following specific additional conditions for this delegation.

Additional Conditions:

This delegation must not be exercised by the delegated officer where:

- The estimated cost of development, excluding any development undertaken by the City, exceeds \$5 million.
- The City, or an authorised party acting on behalf of the City, is proposing development, unless the development is on land owned or under the care and control of the City and its estimated cost does not exceed \$2 million.
- The development proposal has a strategic impact and as a result involves issues in which Council has a direct interest.
- A significant variation to the development standards listed in Local Planning Scheme No. 15 is evident.
- A significant variation to a Local Planning Policy is evident and the variation is not consistent with the objectives of the Local Planning Policy.
- A development application proposes a use which is a use that is not listed in the Local Planning Scheme No. 15 Zoning Table and the use has not previously been determined by Council.
- A formal written objection has been received during the advertising of an application, unless in the opinion of the Chief Executive Officer or his delegate:
 - a. The proposal is consistent with the objectives and intent of Local Planning Scheme No.15, the Residential Design Codes and any relevant Council Policy; and
 - b. The objection can be overcome by imposing a condition on any approval granted, or modifying the design of the development; or
 - c. The objection does not relate to the matter for which it has been referred and/or does not relate to valid planning and development considerations associated with the proposal; or
 - d. The application is refused.

	<ul style="list-style-type: none"> A development application proposes a variation to the Deemed-to-Comply provisions - or the Element Objectives and/or Acceptable Outcomes - of the Residential Design Codes and that variation does not satisfy the related Design Principles - The height of a proposed residential development exceeds three storeys or other height specified by Local Planning Scheme No. 15 or other statutory planning framework.

Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To seek Council's formal adoption of the 2025-26 Budget in the prescribed manner including the imposition of differential and minimum rates, fees and charges and other budget related matters.

Summary and key issues

The City's Annual Budget must be adopted in the prescribed manner as per Attachment 12.6.1. The adoption of the budget enables the rates to be levied and budget information to be distributed to the community.

During the 2025-26 budget process each Division has reviewed its fees and charges and has made recommendations to Council to endorse the schedule of fees and charges at Attachment 12.6.3.

Officer Recommendation

That Council:

1. Notes that four submissions were received in response to the Notice published in accordance with section 6.36(1) of the *Local Government Act 1995 (WA)* and determines that no modifications are required to the advertised proposed rate or minimum payment for 2025-26 budget year.
2. Pursuant to the provisions of Section 6.2 of the *Local Government Act 1995 (WA)* and Part 3 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts the Budget as contained in Attachment 12.6.1 of this agenda, for the City of Belmont for the 2025-26 financial year which includes the following:
 - a. Statement of Comprehensive Income
 - b. Statement of Cash Flows;
 - c. Statement of Financial Activity;
 - d. Notes to and Forming part of the budget.
3. Pursuant to the provisions of Section 6.2 of the *Local Government Act 1995 (WA)* and Part 3 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts the detailed capital works program showing a total of \$23,837,590 as contained in Attachment 12.6.2.
4. For the purpose of yielding the deficiency disclosed by the Municipal Fund Budget adopted at Recommendation 2 above, pursuant to Sections 6.32, 6.33, 6.34 and 6.35 of the *Local Government Act 1995 (WA)* imposes the following differential general rates and minimum payments on Gross Rental Values.

Rate Category	Proposed Cents in Dollar	Proposed Minimum
Residential	6.5558	920
Commercial	7.8670	1,080
Industrial	8.5225	1,100

5. Further to item 4, endorses that payments in lieu of rates be rated at the Commercial Differential Rate in the dollar on Gross Rental Values.
6. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 64 (2) of the *Local Government (Financial Management) Regulations 1996 (WA)*, nominates the following due dates for the payment in full by instalments:

- Option 1 (Full Payment)

Full amount of rates and charges to be paid on or before 2 September 2025 or 35 days after the date of issue appearing on the rate notice.

- Option 2 (Four Instalments)

- First instalment to be made on or before 2 September 2025, or 35 days after the date of issue appearing on the rate notice, including all arrears and a quarter of the current rates and charges;
- Second instalment to be made on or before 3 November 2025, being not less than 2 months after the due date of the first instalment;
- Third instalment to be made on or before 12 January 2026, being not less than 2 months after the due date of the second instalment; and
- Fourth instalment to be made on or before 13 March 2026, being not less than 2 months after the due date of the third instalment.

7. Pursuant to Section 6.46 of the *Local Government Act 1995 (WA)*, endorses to offer a discount of 5% against the rate levied to ratepayers who pay their rates in full, including all arrears, waste and service charges, on or before 2 September 2025 or 35 days after the date of issue appearing on the rate notice, whichever is the later.
8. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 67 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts an instalment administration charge where the owner has elected to pay rates (and service charges) through an instalment option of \$0. This is applicable to the four-instalment option (unless waived in accordance with Council Policy - Financial Hardship) and to payments made in accordance with *SmoothRates*.
9. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 68 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts an interest rate of 0% where the owner has elected to pay rates and service charges through an instalment option. This is applicable to the four-instalment option (unless waived in accordance with Council Policy - Financial Hardship) and to payments made in accordance with *SmoothRates*.
10. Pursuant to Section 6.51(1) and subject to Section 6.51(4) of the *Local Government Act 1995 (WA)* and regulation 70 of the *Local Government*

(Financial Management) Regulations 1996 (WA), adopts an interest rate of 11% for rates and costs of proceedings to recover such charges that remains unpaid after becoming due and payable; unless waived in accordance with Council Policy - Financial Hardship.

11. Pursuant to Section 6.16 of the *Local Government Act 1995 (WA)* and other relevant legislation, adopts the Fees and Charges included as Attachment 12.6.3 of this agenda and minutes.
12. In accordance with the following, endorses the Council Member fees and allowances for 2025-26 as included in Note 11 of Attachment 12.6.1 of this agenda and minutes:
 - Annual Mayoral Allowance - Section 5.98(5)(b) of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 7.2(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
 - Annual Deputy Mayoral Allowance - Section 5.98(1) of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 7.3(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
 - Annual Council Member Allowance - Section 5.99 of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 6.4(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
 - Annual ICT Allowance for Council Members - Section 5.99A(b) of the *Local Government Act 1995 (WA)*, Regulation 34A *Local Government (Financial Management) Regulations 1996 (WA)* and Part 9.2(2) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
13. In accordance with regulation 34(5) of the *Local Government (Financial Management) Regulations 1996 (WA)*, endorses the level to be used in statements of financial activity in 2025-26 for reporting material variances to be \$100,000.

Note:

Mayor Rossi put forward the following Alternative Motion.

Alternative Councillor Motion

Rossi moved, Sekulla seconded

That Council:

1. Notes that four submissions were received in response to the Notice published in accordance with section 6.36(1) of the *Local Government Act 1995 (WA)* and determines that no modifications are required to the advertised proposed rate or minimum payment for 2025-26 budget year.
2. Pursuant to the provisions of Section 6.2 of the *Local Government Act 1995 (WA)* and Part 3 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts the Budget as contained in Attachment 12.6.1 of this agenda, for the City of Belmont for the 2025-26 financial year which includes the following:
 - a. Statement of Comprehensive Income
 - b. Statement of Cash Flows;
 - c. Statement of Financial Activity;
 - d. Notes to and Forming part of the budget.
3. Pursuant to the provisions of Section 6.2 of the *Local Government Act 1995 (WA)* and Part 3 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts the detailed capital works program showing a total of \$23,837,590 as contained in Attachment 12.6.2.
4. For the purpose of yielding the deficiency disclosed by the Municipal Fund Budget adopted at Recommendation 2 above, pursuant to Sections 6.32, 6.33, 6.34 and 6.35 of the *Local Government Act 1995 (WA)* imposes the following differential general rates and minimum payments on Gross Rental Values.

Rate Category	Proposed Cents in Dollar	Proposed Minimum
Residential	6.5558	920
Commercial	7.8670	1,080
Industrial	8.5225	1,100

5. Further to item 4, endorses that payments in lieu of rates be rated at the Commercial Differential Rate in the dollar on Gross Rental Values.
6. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 64 (2) of the *Local Government (Financial Management) Regulations 1996 (WA)*, nominates the following due dates for the payment in full by instalments:
 - Option 1 (Full Payment)

Full amount of rates and charges to be paid on or before 2 September 2025 or 35 days after the date of issue appearing on the rate notice.
 - Option 2 (Four Instalments)
 - First instalment to be made on or before 2 September 2025, or 35 days after the date of issue appearing on the rate notice, including all arrears and a quarter of the current rates and charges;
 - Second instalment to be made on or before 3 November 2025, being not less than 2 months after the due date of the first instalment;
 - Third instalment to be made on or before 12 January 2026, being not less than 2 months after the due date of the second instalment; and
 - Fourth instalment to be made on or before 13 March 2026, being not less than 2 months after the due date of the third instalment.
7. Pursuant to Section 6.46 of the *Local Government Act 1995 (WA)*, endorses to offer a discount of 5% against the rate levied to ratepayers who pay their rates in full, including all arrears, waste and service charges, on or before 2 September 2025 or 35 days after the date of issue appearing on the rate notice, whichever is the later.
8. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 67 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts an instalment administration charge where the owner has elected to pay rates (and service charges) through an instalment option of \$0. This is applicable to the four-instalment option (unless waived in accordance with Council Policy - Financial Hardship) and to payments made in accordance with SmoothRates.
9. Pursuant to Section 6.45 of the *Local Government Act 1995 (WA)* and regulation 68 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts an interest rate of 0% where the owner has elected to pay rates and service charges through an instalment

option. This is applicable to the four-instalment option (unless waived in accordance with Council Policy - Financial Hardship) and to payments made in accordance with SmoothRates.

10. Pursuant to Section 6.51(1) and subject to Section 6.51(4) of the *Local Government Act 1995 (WA)* and regulation 70 of the *Local Government (Financial Management) Regulations 1996 (WA)*, adopts an interest rate of 11% for rates and costs of proceedings to recover such charges that remains unpaid after becoming due and payable; unless waived in accordance with Council Policy - Financial Hardship.

11. Pursuant to Section 6.16 of the *Local Government Act 1995 (WA)* and other relevant legislation, adopts the Fees and Charges included as Attachment 12.6.3 of this agenda and minutes.

12. In accordance with the following, endorses the Council Member fees and allowances for 2025-26 as included in Note 11 of Attachment 12.6.1 of this agenda and minutes:

- Annual Mayoral Allowance - Section 5.98(5)(b) of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 7.2(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
- Annual Deputy Mayoral Allowance - Section 5.98(1) of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 7.3(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
- Annual Council Member Allowance - Section 5.99 of the *Local Government Act 1995 (WA)*, Regulation 33A *Local Government (Financial Management) Regulations 1996 (WA)*, and Part 6.4(1) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*
- Annual ICT Allowance for Council Members - Section 5.99A(b) of the *Local Government Act 1995 (WA)*, Regulation 34A *Local Government (Financial Management) Regulations 1996 (WA)* and Part 9.2(2) of the Determination for Local Government Elected Members pursuant to Section 7B of the *Salaries and Allowances Act 1975 (WA)*

13. In accordance with regulation 34(5) of the *Local Government (Financial Management) Regulations 1996 (WA)*, endorses the level to be used in statements of financial activity in 2025-26 for reporting material variances to be \$100,000.

14. The sporting and cultural grants program be increased by \$3,000 to increase domestic travel grants from \$450 to \$500 and international travel grants from \$850 to \$900.

Reasons

- Support rising travel costs:
With the cost of flights, accommodation, and fuel continuing to rise, even a modest increase in grant amounts can help ease the pressure for individuals and families travelling to compete, whether they're juniors, adults, or seniors representing our City and state.
- Back our local talent:
Belmont has produced outstanding athletes across all ages and codes. This increase shows we stand behind our people and believe in giving them the support they need to compete with pride - interstate, or overseas.

Consultation

Intention to Implement Differential and Minimum Rates

In accordance with Section 6.36(1) of the *Local Government Act 1995 (WA)* (the Act), notices which included relevant details of Council's intention to impose Differential and Minimum Rates and an invitation for submissions from electors and ratepayers in respect to the proposed differential rates were published in the following locations:

1. City's Website - 1 May 2025

2. Noticeboard in the City's Library and Civic Centre - 1 May 2025
3. The Saturday West newspaper – 4 May 2025
4. PerthNow Southern newspaper – 1 May 2025

Submissions were required to be made in writing and provided by 4pm, 26 May 2025.

Four submissions were received, a listing of which is included as Confidential Attachment 12.6.5 to this report. A summary of the submissions received is provided below.

One submission raised concerns regarding a specific instance of service from a Belmont Community Watch Call Centre Operator. Whilst the City has responded to the specific issues raised, it does not consider a rate reduction for this reason is warranted.

One submission was supportive of the increase but raised concerns with the recent delegation to Adachi. It was suggested that the expended funds could be more appropriately used to benefit the City. Whilst the City has responded to the specific concerns raised, providing details as to the benefits to the community from the delegation, it does not consider a rate reduction for this reason is warranted.

One submission was not supportive of the increase and was concerned the increase will be adding to the current economic burden of residents. The proposed increase is a comparatively lower increase and results in a lower rate in the dollar and minimum rates levied by most other local governments. It is noted that the City's hardship policy provides relief for ratepayers who are experiencing financial difficulties. Additionally, the City offers a range of payment options to assist ratepayers to spread the cost of rates over the financial year. On this basis, the submission does not warrant reconsideration of the proposed differential rate in the dollar or minimum rate.

The final submission queried the calculation of rates and the basis on which they are determined. The City does not consider a rate reduction for this reason is warranted.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

In accordance with Section 6.2 of the Act and Part 3 of the *Local Government (Financial Management) Regulations 1996 (WA)* (the Regulations) as amended, the 2024.25 Budget is presented in the prescribed manner for formal adoption. The Statutory Budget has been prepared incorporating the principles of the Australian Accounting Standards.

Section 6.16 (1) of the Act states that a local government may impose and recover a fee or charge for any goods or service it provides or proposes to provide and Section 6.16 (3) states further that the fees and charges are to be imposed when adopting the annual budget but may be:

- a) imposed* during a financial year; and
- b) amended* from time to time during a financial year.

* Absolute majority required.

It is a requirement under section 6.36 of the Act that where a Local Government elects to use differential rates then it shall advertise its intention to do so, and call for submissions for a period of at least 21 days before any further action occurs. Council is to consider any submission received and may impose the proposed rates with or without modification.

Background

The preparation of the 2025-26 draft budget commenced late in 2024, with a number of Information Forums and discussions being held with Elected Members, noting various established priorities and adopted strategies.

In accordance with Section 6.36 of the Act, Council advertised its intention to levy differential rates and the applicable rates in the dollar, together with minimum payments. The advertised rates in the dollar and minimum payments were calculated on a 3.6% increase in rates. Four submissions objecting to the proposed rate setting were received. As the matters raised in the objections did not warrant a change to the proposed rate setting, it is recommended that Council endorses the proposed Cents in Dollar and the Minimum Rate for each differential category without modification as reflected in the table below, pursuant to Section 6.36 (4) of the Act.

In accordance with Section 6.2 of the Act and the Regulations, the 2025-26 Budget is presented in the prescribed manner for formal adoption. The

Statutory Budget has been prepared incorporating the principles of the Australian Accounting Standards and City's accounting policies.

To comply with the provisions of the Act, all fees and charges to be levied are also to be adopted by Council.

Report

There are several statutory processes that are required and have been met ensuring compliance with the Act and Regulations. The budgets for service delivery and infrastructure maintenance, together with a Capital Works Program, have been aligned to the City's asset management plans, project priorities and the City's Integrated Planning Framework. This ensures that the City's assets are improved, maintained and replaced at the appropriate time, thus complying with the City's long-term financial responsibilities.

The preparation of the 2025-26 budget has highlighted how challenging it is to try to meet the community's expectations, contain costs in a volatile domestic and international economy and keep rate increases at a moderate level. The 2025-26 budget has, however, achieved all these factors due to responsible and prudent budgeting.

Rate Setting

Further to the Ordinary Council Meeting held on the 15 April 2025, the following general rates and minimum payments for Residential, Commercial and Industrial ratepayers for rate setting purposes that equate to a 3.6% increase in the total rate levy were advertised:

Residential Category	Proposed Cents in the Dollar	Proposed Minimum \$
Residential	6.5558	920
Commercial	7.8670	1,080
Industrial	8.5225	1,100

A balanced budget has been achieved with a 3.6% change in the rate yield as well as an allowance for rates growth in the form of interim rating. It is recommended that Council endorses the proposed Cents in Dollar and the Minimum Rate for each differential category without modification as reflected in the table above, pursuant to Section 6.36 (4) of the Act.

The following table shows a comparison of the City's rates against our neighbouring Councils for the 2024-25 year in addition to the proposed

advertised rate increases for the 2025-26 year. When considered against neighbouring Councils with comparable property values, the City consistently charges lower rates.

Council	Avg GRV	Var to CoB	Avg Rates	Waste	Total Rates	Var to CoB	25-26 Inc
Bassendean	\$18,983	(5%)	\$2,041	\$432	\$2,473	29%	3.91%
Bayswater	\$20,943	5%	\$1,888	\$411	\$2,299	20%	3.50%
Canning	\$24,269	21%	\$1,683	\$424	\$2,107	10%	5.50%
Kalamunda	\$22,323	11%	\$2,135	\$659	\$2,794	46%	5.00%
Swan	\$19,733	(2%)	\$1,962	\$491	\$2,453	28%	4.00%
Victoria Park	\$21,780	9%	\$1,861	\$592	\$2,453	28%	5.00%
Belmont	\$20,039		\$1,573	\$337	\$1,910		3.60%

Emergency Services Levy

In contrast to the 3.6% increase in the total rate levy included in the proposed budget, the Emergency Services Levy (ESL) will increase by 4.5% to a minimum charge of \$108 or maximum charge of \$533 per household. ESL is a compulsory charge applicable to all properties in Western Australia, which is invoiced and collected by local governments on behalf of Department of Fire and Emergency Services (DFES) via the rate notice.

Proposed Budget for 2025-26

The statutory budget is a key document in determining the City's ability to be able to maintain amenities and assets, provide services to the community and deliver key projects. A summary of some of the highlights of the 2025-26 budget is covered below. A detailed listing by department is included as an attachment to this report (Attachment 12.6.4).

Operating Revenue

Total operating revenue is projected to be \$84,420,803 compared to \$80,003,815 for the 2024-25 adopted budget.

Income from fees and charges has increased in line with the proposed rate increase of 3.6%. Sanitation charges are proposed to increase in 2025-26, resulting in the base sanitation charge increasing from \$337 to \$360. Sanitation charges are a fee for service and aim to cover costs with any surpluses or losses historically offset by transfers through the Waste Management Reserve. The proposed charge reflects the partial offset of \$30 per property of increased cost relating to the implementation of FOGO, utilising the Waste Management Reserve to continue to minimise the impact on ratepayers. FOGO is a direction from the State Government to reduce waste going to landfill.

Income from interest revenue has been budgeted to increase from the 2024-25 adopted budget as a result of interest rates remaining higher for longer during the 2024-25 year. This, in combination with responsible investment of City funds, has enabled the City to achieve additional interest revenue to reduce the amount of revenue required to be raised from rates and therefore reduce the impact on ratepayers.

Operating Expenditure

Total operating expenditure predicted for the 2025-26 budget is \$88,596,522, compared to \$84,090,254 in 2024-25.

Employee costs are expected to rise in line with the endorsed City of Belmont Industrial Agreement and mandatory superannuation guarantee payment contribution increase from 11.5% to 12%.

Materials and contract expenditure has increased by 4% from the 2024-25 budget in line with continued supply cost increases.

Capital Expenditure

Total capital expenditure predicted for 2025-26 budget is \$23,837,592 in addition to \$5,250,000 being transferred to the Capital Projects Reserve to fund capital works projects to occur over multiple financial years. An itemised listing of capital projects is included at Attachment 12.6.2, with significant project allocations for the 2025-26 financial year include the following:

- Wilson Park Precinct Redevelopment Zone 2 \$6.3m
- Road and footpath renewal program \$4.8m
- Streetscape enhancement renewals \$1.6m
- Irrigation renewals \$1.6m
- Fleet and plant replacement program \$1.4m

Reserves

As part of the 2025-26 budget, a review of the City's reserve accounts was undertaken with a view to review reserve purposes and consolidate where possible.

As part of the review, the following 3 reserves are to be introduced:

- Employee Entitlement Reserve - to part fund the long service leave liability of the City's staff in addition to providing funding for unforeseen expenditures relating to other employee entitlements.
- Infrastructure Reserve - for the enhancement, replacement and refurbishment of park and streetscape infrastructure assets or project works.
- Underground Power Reserve - to secure funding in relation to Underground Power Projects.

In addition, a number of reserves are to be closed, with their funds either combined with those held in other reserves with similar reserve purposes or funds returned to the municipal reserve. A summary is as follows:

- Long Service Leave Reserve – Salaries, Long Service Reserve – Wages and Miscellaneous Entitlement Reserve to be combined into the newly established Employee Entitlement Reserve.
- Parks Development Reserve, Urban Forest Strategy Management Reserve and Streetscape Reserve to be combined into the newly established Infrastructure Reserve.
- Land Acquisition Reserve to be combined with the existing Property Development Reserve.
- Administration Building Reserve and Ruth Faulkner Library Reserve to be combined with the existing Building Maintenance Reserve and renamed to the Building Reserve.
- Workers Compensation/Insurance Reserve to be renamed the Insurance Reserve.
- Aged Accommodation – Homeswest Reserve to be renamed the Aged Accommodation Reserve.
- Belmont District Band Reserve to be closed and funds returned to municipal.
- History Reserve to be closed and funds returned to municipal.

Details of all reserve transfers are included in Note 9 of Attachment 12.6.1.

Summary

Preparing the City's Annual Budget has been a very challenging process in the midst of economic factors such as rising inflation and the subsequent impact on

the cost of living. Community expectations for continued and new services remain high and the desire to make Belmont a better place to live and work remains strong.

Balancing priorities and allocating sufficient funds to meet the community's needs is a key driver of the City's Annual Budget process. The budget has been collated considering our fiscal responsibility and to ensure the City continues to remain financially sustainable going forward.

Financial implications

The Annual Budget provides the financial framework for the City to provide the necessary resources to fulfil its strategic objectives, fulfil its statutory and compliance obligations, enhance the Community and its assets in accordance with City's Vision. As reported in the Rate Setting process a balanced budget has been achieved with a 3.6% change in the rate yield, as well as an allowance for rates growth in the form of interim rating.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

**CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026**

1 BASIS OF PREPARATION

The annual budget of the City of Belmont which is a Class 1 local government is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16 Leases* which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 12 to the annual budget.

2024/25 actual balances

Balances shown in this budget as 2024/25 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- *AASB 2020-1 Amendments to Australian Accounting Standards*
 - *Classification of Liabilities as Current or Non-current*
- *AASB 2022-5 Amendments to Australian Accounting Standards*
 - *Lease Liability in a Sale and Leaseback*
- *AASB 2022-6 Amendments to Australian Accounting Standards*
 - *Non-current Liabilities with Covenants*
- *AASB 2023-1 Amendments to Australian Accounting Standards*
 - *Supplier Finance Arrangements*
- *AASB 2023-3 Amendments to Australian Accounting Standards*
 - *Disclosure of Non-current Liabilities with Covenants: Tier 2*
- *AASB 2024-1 Amendments to Australian Accounting Standards*
 - *Supplier Finance Arrangements: Tier 2 Disclosures*

It is not expected these standards will have an impact on the annual budget.

- *AASB 2022-10 Amendments to Australian Accounting Standards*
 - *Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*, became mandatory during the budget year. Amendments to *AASB 13 Fair Value Measurement* impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes. No material impact is expected in relation to the 2025-26 statutory budget.

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards*
 - *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *AASB 2024-4b Amendments to Australian Accounting Standards*
 - *Effective Date of Amendments to AASB 10 and AASB 128*
[deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
- *AASB 2022-9 Amendments to Australian Accounting Standards*
 - *Insurance Contracts in the Public Sector*
- *AASB 2023-5 Amendments to Australian Accounting Standards*
 - *Lack of Exchangeability*
- *AASB 18 (FP) Presentation and Disclosure in Financial Statements*
 - (Appendix D) [for for-profit entities]
- *AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements*
 - (Appendix D) [for not-for-profit and superannuation entities]
- *AASB 2024-2 Amendments to Australian Accounting Standards*
 - *Classification and Measurement of Financial Instruments*
- *AASB 2024-3 Amendments to Australian Accounting Standards*
 - *Standards – Annual Improvements Volume 11*

It is not expected these standards will have an impact on the annual budget.

Critical accounting estimates and judgements

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Expected credit losses on financial assets
- Assets held for sale
- Impairment losses of non-financial assets
- Investment property
- Estimated useful life of intangible assets
- Measurement of employee benefits
- Measurement of provisions

CITY OF BELMONT

							180,000	220,000	150,000

*Rateable Value at time of adopting budget.

The City does not anticipate raising any specified area rates for the year ended 30th June 2026.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2025/26 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum payments have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

2. RATES AND SERVICE CHARGES (CONTINUED)

(b) Interest Charges and Instalments - Rates and Service Charges

The following instalment options are available to ratepayers for the payment of rates and service charges.

Instalment options	Date due	Instalment plan admin charge	Instalment plan interest rate	Unpaid rates interest rates
		\$	%	%
Option one				
Single full payment	2/09/2025	0	0.0%	11%*
Option two				
First instalment	2/09/2025	0	0.0%	11%*
Second instalment	3/11/2025	0	0.0%	11%*
Third instalment	12/01/2026	0	0.0%	11%*
Fourth instalment	13/03/2026	0	0.0%	11%*
Option three - SmoothRates (Fortnightly)				
20 payments	29/08/2025 - 22/05/2026	0	0.0%	11%*
Option three - SmoothRates (Monthly)				
10 payments	29/08/2025 - 29/05/2026	0	0.0%	11%*

*11% interest only applies for those ratepayers not on approved payment plans

(c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the City the following rate categories have been determined for the implementation of differential rating.

(i) Differential general rate

The City has a net funding shortfall in its Operational and Capital budget for 2025-26 of \$62.3m, required to be made up from rates. This funding pays for infrastructure and services like roads, parks, streetscapes, library, museum, leisure centre and events, to name a few. We are proposing increasing rates by 3.6% for 2025-26 to ensure we can deliver these essential services and projects to our community.

Description	Characteristics	Objects
Residential	This rate category imposes a differential rate on land primarily used for residential purposes. The rate in the dollar has been determined on the basis that ratepayers make a reasonable contribution to the cost of local government services and facilities.	The objective of the residential rate category is to apply a base differential rate to land used for residential purposes and to act as the City's benchmark differential rate by which all other rated properties are assessed.
Commercial	This rate category imposes a differential general rate on land zoned under the Town Planning Scheme for commercial purposes.	The objective of this differential rate category is to raise sufficient revenue to offset the costs associated with increased maintenance of infrastructure, particularly transport related infrastructure, and higher levels of services associated with properties in this category.
Industrial	This rate category imposes a differential general rate on land zoned under the Town Planning Scheme for industrial purposes.	The objective of this differential rate category is to raise sufficient revenue to offset the costs associated with increased maintenance of infrastructure, particularly transport related infrastructure, and higher levels of services associated with properties in this category.

CITY OF BELMONT

3. NET CURRENT ASSETS

(a) Composition of estimated net current assets

Current assets

Cash and cash equivalents
 Financial assets
 Receivables
 Contract assets
 Inventories
 Other assets

Less: current liabilities

Trade and other payables
 Contract liabilities
 Capital grant/contribution liability
 Lease liabilities
 Long term borrowings
 Employee provisions
 Other provisions

Net current assets

Less: Total adjustments to net current assets

Net current assets used in the Statement of Financial Activity

(b) Current assets and liabilities excluded from budgeted deficiency

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with *Financial Management Regulation 32* to agree to the surplus/(deficit) after imposition of general rates.

Adjustments to net current assets

Less: Cash - reserve accounts
 Add: Current liabilities not expected to be cleared at end of year
 - Current portion of borrowings
 - Current portion of lease liabilities
 - Current portion of employee benefit provisions held in reserve

Total adjustments to net current assets

EXPLANATION OF DIFFERENCE IN NET CURRENT ASSETS AND SURPLUS/(DEFICIT)

Items excluded from calculation of budgeted deficiency

When calculating the budget deficiency for the purpose of Section 6.2 (2)(c) of the *Local Government Act 1995* the following amounts have been excluded as provided by *Local Government (Financial Management) Regulation 32* which will not fund the budgeted expenditure.

(c) Non-cash amounts excluded from operating activities

The following non-cash revenue or expenditure has been excluded from amounts attributable to operating activities within the Statement of Financial Activity in accordance with *Financial Management Regulation 32*.

Adjustments to operating activities

Less: Profit on asset disposals
 Less: Fair value adjustments to financial assets at fair value through profit and loss
 Add: Loss on asset disposals
 Add: Depreciation
 Movement in current employee provisions associated with restricted cash
 Non-cash movements in non-current assets and liabilities:
 - Pensioner deferred rates

Non cash amounts excluded from operating activities

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

3. NET CURRENT ASSETS

(d) MATERIAL ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises revenue for the prepaid rates that have not been refunded.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SUPERANNUATION

The City contributes to a number of superannuation funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

INVENTORY - LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Inventory - land held for resale is classified as current except where it is held as non-current based on the City's intentions to release for sale.

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CONTRACT LIABILITIES

Contract liabilities represent the City's obligation to transfer goods or services to a customer for which the City has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

PROVISIONS

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position. The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

CONTRACT ASSETS

Contract assets primarily relate to the City's right to consideration for work completed but not billed at the end of the period.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

4. RECONCILIATION OF CASH

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows:

Note	2025/26 Budget	2024/25 Actual	2024/25 Budget
	\$	\$	\$
Cash at bank and on hand	2,376,160	11,359,229	17,652,670
Term deposits	12,453,104	12,453,104	125,004
Total cash and cash equivalents	14,829,264	23,812,333	17,777,674
Held as

Increase/(decrease) in unspent capital grants	0	(906,148)	0
Increase/(decrease) in other provision	100,000	(155,977)	0
Increase/(decrease) in employee provisions	0	604,402	50,000
Capital grants, subsidies and contributions	(7,141,351)	(3,383,903)	(3,566,506)
Net cash from operating activities	7,757,598	35,647,472	9,376,485

MATERIAL ACCOUNTING POLICES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

FINANCIAL ASSETS AT AMORTISED COST

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

MATERIAL ACCOUNTING POLICIES

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

MATERIAL ACCOUNTING POLICIES

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings	25 to 80 years
Furniture and equipment	3 to 20 years
Plant and equipment	3 to 15 years
Infrastructure - roads	up to 70 years
Infrastructure - footpaths	20 to 50 years
Infrastructure - drainage	up to 200 years
Infrastructure - reserve improvements	5 to 80 years
Other infrastructure - carparks	35 to 70 years
Intangible assets - corporate website	3 years

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

Attachment 12.6.1 Annual Budget 2025-26

CITY OF BELMONT NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

7. BORROWINGS

(a) Borrowing repayments

Movement in borrowings and interest between the beginning and the end of the current financial year.

All borrowing repayments, other than self supporting loans, will be financed by general purpose revenue.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

7. BORROWINGS

(b) New borrowings - 2025/26

The City does not intend to undertake any new borrowings for the year ended 30th June 2026

(c) Unspent borrowings

The City had no unspent borrowing funds as at 30th June 2025 nor is it expected to have unspent borrowing funds as at 30th June 2026.

(d) Credit Facilities

	2025/26 Budget	2024/25 Actual	2024/25 Budget

Credit card balance at balance date	0	15,000	0
Total amount of credit unused	260,000	275,000	300,000
Loan facilities			
Loan facilities in use at balance date	10,309,795	10,976,369	10,040,343

MATERIAL ACCOUNTING POLICIES

BORROWING COSTS

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate.

MATERIAL ACCOUNTING POLICIES

LEASES

At the inception of a contract, the City assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

LEASE LIABILITIES

The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.

Attachment 12.6.1 Annual Budget 2025-26

CITY OF BELMONT NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

9. RESERVE ACCOUNTS

(b) Reserve Accounts - Purposes

In accordance with Council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

Reserve name	Anticipated date of use	Purpose of the reserve
Restricted by legislation		
(a) Car Parking Reserve	Ongoing	This reserve is used to fund any activities that create or enhance car parks and includes funds received as cash in lieu for this purpose.
Restricted by council		
(b) Administration Building Reserve	2026	This reserve is used to fund the refurbishment of the City's administration building.
(c) Aged Accommodation Reserve	Ongoing	This reserve is used to provide for the long term maintenance of Gabriel Gardens and Orana aged housing units.
(d) Aged Community Care Reserve	Ongoing	This reserve is used to fund the provision of aged care community services within the City.
(e) Aged Persons Housing Reserve	Ongoing	This reserve is used to manage the surplus/deficit position and capital improvements of the City's aged housing centres.
(f) Aged Services Reserve	Ongoing	This reserve is used to fund the provision of aged services within the City.
(g) Ascot Waters Marina Maintenance & Restoration	Ongoing	This reserve is used to provide for the ongoing maintenance and future redevelopment needs of the marina at Ascot Waters.
(h) Belmont District Band Reserve	2026	This reserve is used to provide funds for the replacement and acquisition of instruments for the Belmont District Band.
(i) Belmont Oasis Refurbishment Reserve	2031	This reserve is used to fund the future refurbishment of the Belmont Oasis Leisure Centre.
(j) Belmont Trust Reserve	Ongoing	This reserve is used to fund costs in relation to the Belmont Trust land.
(k) Building Reserve	Ongoing	This reserve is used to fund the replacement and refurbishment of the City's Building assets or project works.
(l) Capital Projects Reserve	Ongoing	This reserve is used to manage municipal funding for capital works projects to occur over multiple financial years.
(m) Carry Forward Projects Reserve	Ongoing	This reserve is used to manage municipal funding for incomplete projects carried forward to the following financial year.
(n) District Valuation Reserve	Ongoing	This reserve is used to spread the costs of the triennial revaluation of properties for rating purposes over three years.
(o) Election Expenses Reserve	Ongoing	This reserve is used to spread the costs of the biennial Council elections over two years.
(p) Employee Entitlements Reserve	Ongoing	This reserve is used to part fund the long service leave liability of the City's staff in addition to providing funding for unforeseen expenditures relating to other employee entitlements.
(q) Environment Reserve	Ongoing	This reserve is used to fund environmental programs.
(r) Faulkner Park Retirement Village Buy Back Reserve	Ongoing	This reserve is used to fund the future buy-back of the Faulkner Park Retirement Village from existing residents.
(s) Faulkner Park Retirement Village Owners Maintenance Reserve	Ongoing	This reserve is used to provide for the future major maintenance and refurbishment requirements at the Faulkner Park Retirement Village.
(t) History Reserve	2026	This reserve is used to provide for the future costs associated with the acquisition, recording, preservation and display of articles and information associated with the history of the City.
(u) Information Technology Reserve	Ongoing	This reserve is used for the replacement and enhancement of the City's core business hardware and software requirements.
(v) Infrastructure Reserve	Ongoing	This reserve is used for the enhancement, replacement and refurbishment of park and streetscape infrastructure assets or project works.
(w) Insurance Reserve	Ongoing	This reserve is used to fund self insurance expenses and major fluctuations in insurance premiums.
(x) Land Acquisition Reserve	2026	This reserve is used for the acquisition and/or redevelopment of land and buildings and receives the proceeds of any land or building sales.
(y) Long Service Leave Reserve - Salaries	2026	This reserve is used to part fund the long service leave liability of the City's salaried staff.
(z) Long Service Leave Reserve - Wages	2026	This reserve is used to part fund the long service leave liability of the City's waged staff.
(aa) Miscellaneous Entitlements Reserve	2026	This reserve is used to provide funding for unforeseen expenditures relating to staff and entitlements.
(ab) Parks Development Reserve	2026	This reserve is used to provide for future development of the City's Parks including playgrounds and irrigation.
(ac) Plant Replacement Reserve	Ongoing	This reserve is used to fund the shortfall between income generated through plant operation recoveries and replacement costs of the City's
(ad) Property Development Reserve	Ongoing	This reserve is used to fund any property development within the City including the acquisition and/or redevelopment of land and buildings. This reserve also receives the proceeds of any land or building sales.
(ae) Public Art Reserve	2026	This reserve is used to fund the acquisition of public art for display in the City, as well as to support alternative arts initiatives, including community-driven projects, ephemeral or temporary art installations, and artist studios or workshops.
(af) Ruth Faulkner Library Reserve	2026	This reserve is used for capital improvements to the City's library.
(ag) Streetscapes Reserve	2026	This reserve is used to fund shopping centre revitalisation and streetscape enhancements.
(ah) Urban Forest Strategy Management Reserve	2026	This reserve is used to fund the management and retention of the urban forest.
(ai) Waste Management Reserve	Ongoing	This reserve is used to fund waste management initiatives and activities.
(aj) Underground Power Reserve	Ongoing	This reserve is used to secure funding in relation to Underground Power Projects.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

13. REVENUE AND EXPENDITURE

(a) Revenue and Expenditure Classification

REVENUES

RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum payment, interim rates, back rates, ex-gratia rates, less discounts offered.
Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

GRANTS, SUBSIDIES AND CONTRIBUTIONS

All amounts received as grants, subsidies and contributions that are not capital grants.

CAPITAL GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.
Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES

Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995*. Regulation 54 of the *Local Government (Financial Management) Regulations 1996* identifies the charges which can be raised. These are television and radio broadcasting, underground electricity and neighbourhood surveillance services and water.
Exclude rubbish removal charges which should not be classified as a service charge. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST REVENUE

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME

Other revenue, which cannot be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL

Gain on the disposal of assets including gains on the disposal of long-term investments.

EXPENSES

EMPLOYEE COSTS

All costs associated with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

Note *AASB 119 Employee Benefits* provides a definition of employee benefits which should be considered.

MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses (such as telephone and internet charges), advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc.

Local governments may wish to disclose more detail such as contract services, consultancy, information technology and rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER)

Expenditures made to the respective agencies for the provision of power, gas or water.
Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL

Loss on the disposal of fixed assets.

DEPRECIATION ON NON-CURRENT ASSETS

Depreciation and amortisation expenses raised on all classes of assets.

FINANCE COSTS

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE

Statutory fees, taxes, provision for bad debts, member's fees or levies including DFES levy and State taxes. Donations and subsidies made to community groups.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

13. REVENUE AND EXPENDITURE

(b) Revenue Recognition

Recognition of revenue from contracts with customers is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/Warranties	Timing of Revenue recognition
Grant contracts with customers	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Licences/ Registrations/ Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming.	Single point in time	Full payment prior to issue	None	On payment and issue of the licence, registration or approval
Waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	On entry to facility
Airport landing charges	Permission to use facilities and runway	Single point in time	Monthly in arrears	None	On landing/departure event
Fees and charges for other goods and services	Cemetery services, library fees, reinstatements and private works	Single point in time	Payment in full in advance	None	Output method based on provision of service or completion of works
Sale of stock	Aviation fuel, kiosk and visitor centre stock	Single point in time	In full in advance, on 15 day credit	Refund for faulty goods	Output method based on goods

CITY OF BELMONT NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

14. PROGRAM INFORMATION

Key Terms and Definitions - Reporting Programs

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the City's Community Vision, and for each of its broad activities/programs

OBJECTIVE

ACTIVITIES

Governance

To provide a decision making process for the efficient allocation of limited resources.

All costs associated with the elected members of Council, together with all costs associated with the general governance of the district. Includes all costs generated by the full allocation of administration costs in accordance with the principles of Activity Based Costing.

General purpose funding

To collect revenue to allow for the provision of services.

Includes the cost of collecting rates revenue and all general purpose funding e.g. Grants Commission funding.

Law, order, public safety

To provide services to help ensure a safer and environmentally conscious community.

Provision of regulatory services related to cat and dog control, seasonal bush fire, parking and dumping. Implementation of community safety crime prevention services and initiatives to address fear and perceived fear of crime and anti-social behaviour in the community.

Health

To provide an operational framework for environmental and community health.

Provision and administration of public health services including the inspection of food, public building, skin penetration and lodging house premises. Compliance related to substandard housing, noise, pests, asbestos and onsite waste water disposal. Support for externally provided child immunisation services.

Education and welfare

To provide services to disadvantaged persons, the elderly, children and youth.

Support of community organisations and the provision of programs, services, policy, infrastructure and advocacy focused on supporting the wellbeing and interests of children, youth, adults and seniors. Includes priority focus on advancing interests of First Nations people, diverse abilities and cultural backgrounds.

Housing

To provide and maintain aged persons housing and other leased accommodation.

Maintenance and operational expenses associated with the provision of housing for aged persons and other leased accommodation.

Community amenities

To provide services required by the community.

Includes sanitation (household refuse); stormwater drainage; town and regional planning and development; the provision of rest rooms, public toilet facilities and protection of the environment.

Recreation and culture

To establish and effectively manage infrastructure and resources which will help the social well being of the community.

Provision and maintenance of public community and sporting facilities including the Belmont Oasis Leisure Centre, and programs that meet community need including the provision, maintenance and operation of a public library and museum.

Transport

To provide safe, effective and efficient transport services to the community.

Construction and maintenance of streets, roads, footpaths, cycleways and Council Operations Centre. The control of street parking and the control of traffic management within local streets.

Economic services

To help promote the local government and its economic wellbeing.

The retention, attraction and support of businesses and provision of economic development focused programs, services, policy and advocacy.

Other property and services

To monitor and control operating accounts.

Private works, public work overheads, plant operations. A summary of salaries and wages total costs and any other miscellaneous activities that cannot otherwise be classified in the above.

CITY OF BELMONT
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To present to Council the list of expenditure paid for the period 1 May 2025 to 31 May 2025 under delegated authority.

Summary and key issues

A list of payments is presented to the Council each month for confirmation and endorsement in accordance with the *Local Government (Financial Management) Regulations 1996 (WA)*.

Officer Recommendation

That the Authorised Payment Listing for May 2025 as provided under Attachment 12.7.1 be received.

Officer Recommendation adopted en bloc by an absolute majority - Refer to Resolution appearing at Item 12.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Outcome: 11. A happy, well informed and engaged community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)* states:

“If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared:

- (a) the payee's name;
- (b) the amount of the payment;
- (c) the date of the payment; and
- (d) sufficient information to identify the transaction.”

(3) A list prepared under sub regulation (1) is to be presented to Council at the next ordinary meeting of Council after the list is prepared; and recorded in the minutes of that meeting.

Regulation 13A of the *Local Government (Financial Management) Regulations 1996 (WA)* effective from 1 September 2023 states:

- (1) If a local government has authorised an employee to use a credit, debit or other purchasing card, a list of payments made using the card must be prepared each month showing the following for each payment made since the last such list was prepared —
 - (a) the payee's name;
 - (b) the amount of the payment;
 - (c) the date of the payment;
 - (d) sufficient information to identify the payment.
- (2) A list prepared under subregulation (1) must be —
 - (a) presented to the council at the next ordinary meeting of the council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

Background

Council has delegated to the Chief Executive Officer under Delegation 1.1.18 to make payment from the Municipal and Trust Fund account. In accordance with Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)*, where this power has been delegated, a list of payments each month is to be compiled and presented to Council.

Report

The following summary of payments are recommended for confirmation and endorsement.

Payment type	Payment reference	\$
Municipal Fund EFTs	EF095909-EF096454	6,192,601.23
Municipal Fund Payroll	May 2025	2,407,399.69
Trust Fund EFT	EF096042-EF096043	165,260.90
Total Payments for May 2025		8,765,261.82

A copy of the Authorised Payment Listing is included as Attachment 12.7.1.

Financial implications

All expenditure included in the Payment Listing is in accordance with Council's Annual budget.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

12.8 Monthly Financial Report for May 2025

Voting Requirement	: Absolute Majority
Subject Index	: 32/009 Financial Operating Statements
Location/Property Index	: N/A
Application Index	: N/A
Disclosure of any Interest	: Nil
Previous Items	: N/A
Applicant	: N/A
Owner	: N/A
Responsible Division	: Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To provide Council with relevant monthly financial information for the 2024-25 financial year.

Summary and key issues

The following report includes a concise list of material variances for the month ending 31 May 2025.

The report also contains a number of budget amendments relating to projects identified to be carried forward to 2025-26 from the 2024-25 year.

Officer Recommendation

That Council:

1. Receives the Monthly Financial Report as at 31 May 2025 as included in Attachment 12.8.1.
2. Adopts the amendments to the 2024-25 budget contained in Attachment 12.8.2 relating to projects identified to be carried forward to 2025-26.

Officer Recommendation adopted en bloc by an absolute majority - Refer to Resolution appearing at Item 12.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Section 6.4 of the *Local Government Act 1995 (WA)* (the Act) in conjunction with Regulations 34 (1) of the *Local Government (Financial Management) Regulations 1996 (WA)* (the Regulations) requires monthly financial reports to be presented to Council.

Regulation 34(1) requires a monthly Statement of Financial Activity reporting on revenue and expenditure.

Regulation 34(5) determines the mechanism required to ascertain the definition of material variances which are required to be reported to Council as a part of the monthly report.

Background

The Regulations prescribe that a Local Government is to prepare a Statement of Financial Activity each month.

Regulation 34(2) requires the Statement of Financial Activity to be accompanied by documents containing:

1. Explanation for each material variance identified between year to date budgets and actuals

2. Any other supporting information considered relevant by the Local Government.

Regulation 34 (5) states that "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards, to be used in statements of financial activity for reporting material variances."

This regulation requires Council to annually set a materiality threshold for the purpose of disclosing budget variances within monthly financial reporting.

The materiality threshold has been set by Council at \$100,000 for the 2024-25 financial year.

Report

At the June 2024 Ordinary Council Meeting, Council adopted the materiality threshold for the 2024-25 financial year as \$100,000. The table below provides a summary of significant variances based on this materiality threshold. The detailed financial activity report is included at Attachment 12.8.1.

Report Section	Budget YTD	Actual YTD	Report Comments
Operating Activities			
Revenue from operating activities			
Operating grants, subsidies and contributions			
Parks, Leisure & Environment	470,794	228,855	Urban Greening grant funding due to be received in June 2025.
Fees and charges			
Works	7,106,598	7,235,779	Increased waste revenue as a result of higher than anticipated uptake of additional or larger bins.
City Facilities & Property	1,099,737	1,247,098	Increased use of facilities and all tenancies leased out.
Safer Communities	906,961	1,184,303	Income from Building Applications significantly higher than anticipated.

Report Section	Budget YTD	Actual YTD	Report Comments
Economic & Community Development	225,000	362,344	Higher than anticipated income from sales of units at Faulkner Park Retirement Village.
Interest earnings			
Finance	8,143,067	6,590,226	Lower than budgeted interest amount is a result of differences between timing of investment maturities.
Other revenue			
Parks, Leisure & Environment	53,741	171,100	Higher than anticipated income from private works.
Expenditure from operating activities			
Employee costs			
Finance	(2,194,063)	(2,318,980)	Timing variance relating to entry of employee timecards. Costs to be reallocated to projects.
Works	(1,583,726)	(2,053,455)	Reallocation of capital project costing to be completed.
Parks, Leisure & Environment	(3,833,480)	(3,632,826)	Salaries are below budget forecast due to vacancies which are currently being recruited by the City.
Safer Communities	(3,145,217)	(3,043,493)	
Library, Culture & Place	(2,767,215)	(2,657,300)	
Materials and contracts			
Governance, Strategy & Risk	(699,886)	(290,617)	Legal and other consultant costs lower than expected.
Information Technology	(2,443,882)	(2,960,184)	Software subscription fees higher than anticipated, some equipment items requiring reallocation to capital accounts.

Report Section	Budget YTD	Actual YTD	Report Comments
Works	(8,212,356)	(7,083,564)	Timing variance due to Waste Services invoices to be received.
City Projects	(10,220)	(112,902)	Additional consultancy and legal costs.
Parks, Leisure & Environment	(8,147,143)	(6,436,534)	Variance due to timing of contractor invoicing and completion of seasonal programs.
City Facilities & Property	(3,878,914)	(3,610,651)	Variance due to timing of invoices
Planning Services	(436,110)	(282,609)	Several planning projects involving consultants and legal matters that are currently underway have not yet incurred costs.
Economic & Community Development	(2,385,394)	(1,657,436)	Expenses not yet incurred as budgeted including aged accommodation fees and maintenance, youth services and other contracts and programs.
Library, Culture & Place	(2,349,779)	(1,941,437)	Projects in progress with some timing variances.
Investing Activities			
Inflows from investing activities			
Non-Operating grants, subsidies and contributions			
Works	1,919,950	1,229,470	Roads to recovery grant and MRRG final payments to be received.
City Projects	1,230,082	730,083	Wilson Park Zone 2 Grant Funding moved into 25/26.

Proceeds from disposal of assets			
Design, Assets & Development	613,932	387,247	Income from fleet and plant sales dependant on replacement items being received.
Outflows from investing activities			
Payments for property, plant and equipment			
Information Technology	(607,801)	(53,319)	Delay in asset renewal project due to change in scope, and equipment items in operating requiring reallocation to capital accounts.
Design, Assets & Development	(1,022,172)	(465,872)	Vehicles on order and yet to be received, plant items under evaluation.
City Facilities & Property	(2,538,315)	(1,056,340)	Delay to Middleton Park and Centenary Park lighting projects, due to material lead times.
Payments for construction of infrastructure			
Works	(6,166,232)	(5,720,636)	Capital program nearing completion, timing of invoices for completed work.
City Projects	(8,919,142)	(6,544,255)	Timing of invoices for completed work.
Parks, Leisure & Environment	(3,718,543)	(1,575,624)	Variance due to timing of invoices from contractors.

Budget Amendments

Carry Forward Projects

As part of the preparation of the 2025-26 budget, several projects were identified that were unlikely to be finalised prior to the 30 June that were not previously identified in the March Budget Review. As such, budget amendments for the following projects are included in Attachment 12.8.2 for endorsement by Council:

Project	Carry Forward
Centenary Park Lighting	450,000
Resource Centre Toilets	150,000
Belmont Oasis access control barriers	25,000
Belvidere Street Precinct Revitalisation	50,000
Belmont Hub Major Defects Rectification	80,000
Wilson Park Precinct Redevelopment Zone 2	50,000
Faulkner Civic Precinct Redevelopment	50,000

EMRC Funds

As noted in the 2023-24 Annual Report, the City was a participant in the Eastern Metropolitan Regional Council (EMRC) until its withdrawal effective from 1 July 2021. The City's interest in the EMRC has now been received and transferred to a number of the City's reserve accounts, with the intent of funding future projects. A budget amendment to reflect this is also included in Attachment 12.8.2.

Financial implications

The presentation of these reports to Council ensures compliance with the Act and associated Regulations and also ensures that Council is regularly informed as to the status of its financial position.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 MAY 2025

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

<p>BASIS OF PREPARATION</p> <p>This prescribed financial report has been prepared in accordance with the <i>Local Government Act 1995</i> and accompanying regulations.</p> <p>Local Government Act 1995 requirements <i>Section 6.4(2) of the Local Government Act 1995</i> read with the <i>Local Government (Financial Management) Regulations 1996</i>, prescribe that the financial report be prepared in accordance with the <i>Local Government Act 1995</i> and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.</p> <p>The <i>Local Government (Financial Management) Regulations 1996</i> specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.</p> <p><i>Local Government (Financial Management) Regulations 1996</i>, regulation 34 prescribes contents of the financial report. Supporting information does not form part of the financial report.</p> <p>Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.</p>	<p>THE LOCAL GOVERNMENT REPORTING ENTITY</p> <p>All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.</p> <p>All monies held in the Trust Fund are excluded from the financial statements.</p> <p>Judgements and estimates</p> <p>The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.</p> <p>The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.</p> <p>The balances, transactions and disclosures impacted by accounting estimates are as follows:</p> <ul style="list-style-type: none">• estimated fair value of certain financial assets• impairment of financial assets• estimation of fair values of land and buildings, infrastructure and investment property• estimation uncertainties made in relation to lease accounting• estimated useful life of intangible assets <p>MATERIAL ACCOUNTING POLICES</p> <p>Significant accounting policies utilised in the preparation of these statements are as described within the 2023-24 Annual Budget. Please refer to the adopted budget document for details of these policies.</p> <p>PREPARATION TIMING AND REVIEW</p> <p>Date prepared: All known transactions up to 31 May 2025</p>

Movement in non-current employee provisions	(21,421)	0	0
Movement in current employee provisions associated with restricted cash	(77,201)	0	0
- Pensioner deferred rates	0	0	(91,920)
- Employee provisions	0	0	(427,584)
Total non-cash amounts excluded from operating activities	13,071,661	12,081,164	11,714,478

(c) Current assets and liabilities excluded from budgeted deficiency

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with *Financial Management Regulation 32* to agree to the surplus/(deficit) after imposition of general rates.

	Amended Budget Opening 30 June 2024	Last Year Closing 30 June 2024	Year to Date 31 May 2025
Adjustments to net current assets	\$	\$	\$
Less: Reserve accounts	(69,782,469)	(69,265,334)	(69,269,559)
Add: Financial assets at amortised cost	0	20,927,619	20,927,619
- EMRC receivable	0	(20,927,619)	(20,927,619)
Add: Current liabilities not expected to be cleared at the end of the year:			
- Current portion of borrowings	666,573	641,884	5,943
- Current portion of lease liabilities	39,341	105,428	105,428
- Current portion of employee benefit provisions held in reserve	4,681,033	1,994,408	2,464,177
Total adjustments to net current assets	(64,395,522)	(66,523,614)	(66,694,011)

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the City's operational cycle.

Attachment 12.8.1 Monthly Financial Report for May 2025

CITY OF BELMONT NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDED 31 MAY 2025

3 EXPLANATION OF MATERIAL VARIANCES

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date actual materially.

The material variance adopted by Council for the 2024-25 year is \$100,000.

Description	Var. \$ \$	Var. % %	
Revenue from operating activities			
Grants, subsidies and contributions			
Parks, Leisure & Environment-Urban Greening grant funding due to be received in June 2025 - (\$241,939)	(145,502)	(13.23%)	▼
Fees and charges			
Safer Communities - Income from Building Applications significantly higher than anticipated - \$277,342	742,759	7.27%	▲
Economic & Community Development - Higher than anticipated income from sales of units at Faulkner Park Retirement Village - \$137,344		Timing	
City Facilities & Property - Increased use of facilities and all tenancies leased out - \$147,361		Timing	
Works - Increased waste revenue as a result of higher than anticipated uptake of additional or larger bins - \$129,181		Timing	
Interest revenue			
Finance - Lower than budgeted interest amount is as a result of differences between timing of investment maturities - (\$1,552,841)	(1,552,842)	(19.04%)	▼
Other revenue			
Parks, Leisure & Environment - Higher than anticipated income from private works - \$117,359	366,728	52.45%	▲
		Timing	
Expenditure from operating activities			
Employee costs			
Works - Reallocation of capital project costing still to be completed - (\$469,728)	(135,933)	(0.53%)	▼
Finance - Timing variance relating to entry of employee time cards. Costs to be reallocated to projects - (\$124,917)		Timing	
Materials and contracts			
Information Technology - Software subscription fees higher than anticipated, some equipment items requiring reallocation to capital accounts - (\$516,302)	4,400,496	13.10%	▲
Works - Timing variance due to Waste Services expenses not yet incurred - \$1,128,791		Timing	
Parks, Leisure & Environment - Awaiting contractor invoicing and completion of seasonal programs - \$1,710,609		Timing	
City Facilities & Property - Variance due to timing of invoices - \$268,263		Timing	
Economic & Community Development - Expenses not yet incurred as budgeted including aged accommodation fees and maintenance, youth services and other contracts and programs - \$727,958		Timing	
Library, Culture & Place - Projects are in progress with some timing variances - \$408,342		Timing	
Governance, Strategy & Risk - Legal and other consultants costs lower than expected - \$409,269		Timing	
City Projects - Additional consultancy and legal costs associated to resolve Belmont Hub Defects - (\$102,682)		Timing	
Planning Services - Several planning projects involving consultants and legal matters that are currently underway have not yet incurred costs - \$153,501		Timing	
Inflows from investing activities			
Proceeds from capital grants, subsidies and contributions			
City Projects - Wilson Park Zone 2 Grant Funding moved into 25/26 based on revised milestones - (\$500,000)	(1,270,923)	(35.24%)	▼
Works - Roads to recovery grant and MRRG final payments to be received - (\$690,480)		Timing	
Proceeds from disposal of assets			
Design, Asset & Development - Delay in proceeds of disposal relating to replacement of various assets - (\$226,685)	(487,750)	(55.74%)	▼
Outflows from investing activities			
Payments for property, plant and equipment			
Information Technology - Delay in asset renewal project due to change in scope, and equipment items in operating requiring reallocation to capital accounts - \$554,482	2,854,924	58.06%	▲
Design, Asset & Development - Vehicles on order and yet to be received, plant items under evaluation - \$556,300		Timing	
City Facilities & Property - Delay to Middleton Park and Centenary Park lighting projects, due to unavailability of materials - \$1,481,975		Timing	
Payments for construction of infrastructure			
Works - Capital program nearing completion, delay in invoices for completed work - \$445,596	4,858,515	26.34%	▲
Parks, Leisure & Environment - Variance due to delays in receiving invoices from contractors - \$2,142,919		Timing	
City Projects - Works remain on schedule to agreed milestones, awaiting invoices for completed work - \$2,374,888		Timing

MATERIAL ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.
