

Ordinary Council Meeting

Agenda

28 October 2025

Notice of Meeting

An **Ordinary Council Meeting** will be held in the Council Chamber of the **City of Belmont Civic Centre**, 215 Wright Street, Cloverdale, on **Tuesday 28 October 2025**, commencing at 6:30pm.

John Christie
Chief Executive Officer

Please read the following important disclaimer before proceeding

Any plans or documents in agendas and minutes may be subject to copyright. The express permission of the copyright owner must be obtained before copying any copyright material.

Any statement, comment or decision made at a Council meeting regarding any application for an approval, consent or licence, including a resolution of approval, is not effective as an approval of any application and must not be relied upon as such.

Any person or entity who has an application before the City must obtain, and should only rely on, written notice of the City's decision and any conditions attaching to the decision and cannot treat as an approval anything said or done at a Council meeting.

Any advice provided by an employee of the City on the operation of a written law, or the performance of a function by the City, is provided in the capacity of an employee, and to the best of that person's knowledge and ability. It does not constitute, and should not be relied upon, as legal advice or a representation by the City. Any advice on a matter of law, or anything sought to be relied upon as a representation by the City should be sought in writing and should make clear the purpose of the request. Any plans or documents in agendas and minutes may be subject to copyright.

Alternative Formats

This document is available on the City of Belmont website and can be requested in alternative formats including electronic format by email, in hardcopy both in large and standard print and in other formats as requested. For further information please contact the Community Development team on (08) 9477 7219. For language assistance please contact TIS (Translating and Interpreting Service) on 131 450.

**Elected Members are reminded to retain any
confidential papers for discussion with the minutes.**

1 Official Opening

The Presiding Member will read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Whadjuk Noongar people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging.

I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

The Presiding Member will cause the Affirmation of Civic Duty and Responsibility to be read aloud by a Councillor.

Affirmation of Civic Duty and Responsibility

I make this affirmation in good faith and declare that I will duly, faithfully, honestly, and with integrity fulfil the duties of my office for all the people in the City of Belmont according to the best of my judgement and ability.

I will observe the City's Code of Conduct and Standing Orders to ensure efficient, effective and orderly decision making within this forum.

2 Apologies and leave of absence

3 Declarations of interest that might cause a conflict

Elected Members/Staff are reminded of the requirements of s5.65 of the *Local Government Act 1995 (WA)*, to disclose any interest during the meeting when the matter is discussed, and also of the requirement to disclose an interest affecting impartiality under the City's Code of Conduct for Council Members, Committee Members and Candidates and the Code of Conduct for Employees.

3.1 Financial Interests

A declaration under this section requires that the nature of the interest must be disclosed. Consequently, a member who has made a declaration must not preside, participate in, or be present during any discussion or decision-making procedure relating to the matter the subject of the declaration.

Other members may allow participation of the declarant if the member further discloses the extent of the interest and the other members decide that the interest is trivial or insignificant or is common to a significant number of electors or ratepayers.

Name	Item No and Title	Nature of Interest (and extent, where appropriate)

3.2 Disclosure of interest that may affect impartiality

Elected Members and staff are required in addition to declaring any financial interest, to declare any interest that might cause a conflict (under the Code of Conduct). The member/employee is also encouraged to disclose the nature of the interest. The member/employee must consider the nature and extent of the interest and whether it will affect their impartiality. If the member/employee declares that their impartiality will not be affected then they may participate in the decision-making process.

Name	Item No and Title	Nature of Interest (and extent, where appropriate)

4 Announcements by the Presiding Member (without discussion) and declarations by Members

4.1 Announcements

4.2 Disclaimer

Any plans or documents in agendas and minutes may be subject to copyright. The express permission of the copyright owner must be obtained before copying any copyright material.

Any statement, comment or decision made at a Council meeting regarding any application for an approval, consent or licence, including a resolution of approval, is not effective as an approval of any application and must not be relied upon as such.

Any person or entity that has an application before the City must obtain, and should only rely on, written notice of the City's decision and any conditions attaching to the decision and cannot treat as an approval anything said or done at a Council meeting.

Any advice provided by an employee of the City on the operation of a written law, or the performance of a function by the City, is provided in the capacity of an employee, and to the best of that person's knowledge and ability. It does not constitute, and should not be relied upon, as a legal advice or representation by the City. Any advice on a matter of law, or anything sought to be relied upon as a representation by the City should be sought in writing and should make clear the purpose of the request. Any plans or documents in agendas and minutes may be subject to copyright.

4.3 **Declarations by Members who have not given due consideration to all matters contained in the business papers presently before the meeting**

5 Public question time

5.1 Responses to questions taken on notice

5.1.1 Ms L Hollands, Redcliffe

The following questions were taken on notice at the 23 September 2025 Ordinary Council Meeting. Ms Hollands was provided with a response on 16 October 2025. The response from the City is recorded accordingly:

1. At the 26 August 2025 Ordinary Council Meeting I asked about the cost of the parking sensors used by the City of Belmont. Could I have a breakdown for each area as to how much revenue has been generated by these parking sensors since installation versus the cost to have them over the same period?

Response

Infringement data is only available for the 2024-25 Financial Year.

Income from infringements totalled \$51,120 (Epsom Avenue - \$4,560 and Faulkner Park - \$46,560).

The annual sensor leasing total costs were \$52,867 (Epsom Avenue - \$10,909 and Faulkner Park - \$41,958).

3. Given there was also recommendations to do something at the intersections of Epsom and Durban, and Epsom and Victoria, how long would it take after the initial work completion to get something done at these locations?

Response

Site investigations, survey and design development will be progressed in the current 2025-26 financial year.

The earliest time for delivery will be during the 2026-27 financial year following internal and external funding considerations and Council budget approval.

4. Recently Western Power have been conducting works in Belmont replacing power poles which has left residents with multiple scheduled outages. Are there any plans for underground power in not just the East Ward, but across the City of Belmont?

Response

The details of Western Power's Targeted Underground Power Programme in relation to the City of Belmont were outlined in a report to the 24 September 2024 Ordinary Council Meeting.

In summary, there is one project area (Project Area 49, Cloverdale) that is planned for completion by 2030. The remainder of the City project areas fall in either the 7-15 year or 15-20 year horizon for underground power as per Western Power's current programming which is based on asset condition and risk.

5. Is the cost for underground power still the one-third from the State Government, one-third from the City of Belmont, and one-third from the homeowner?

Response

No. The funding arrangement for the previous State Underground Power Programme was one third from the Office of Energy (State Government), one third from Western Power and one third from the local government which was then charged to the ratepayers in the relevant project area.

The funding arrangements for Western Power's Targeted Underground Power Programme (TUPP) were also outlined in a report to the 24 September 2024 Ordinary Council Meeting.

In summary, Western Power contributes the avoided capital costs of replacing the existing overhead distribution network with overhead assets (i.e. like-for-like replacement).

The State Government contribution to the 'gap' in capital expenditure which remains once Western Power's contribution is accounted for is based on the median house price (MHP) of the suburbs within a TUPP project area compared with the Perth MHP.

The remainder of the cost (including connection fee) is passed through the City to the ratepayers in the relevant project area.

5.2 Questions from members of the public

6 Confirmation of Minutes/receipt of Matrix

6.1 Matrix for the Agenda Briefing Forum held 21 October 2025

Officer Recommendation

That the Matrix of the Agenda Briefing Forum held on 21 October 2025, as printed and circulated to all Elected Members, be received and noted.

6.2 Ordinary Council Meeting held 23 September 2025

Officer Recommendation

That the Minutes of the Ordinary Council Meeting held on 23 September 2025, as printed and circulated to all Elected Members, be confirmed as a true and accurate record.

7 Questions by Members on which due notice has been given (without discussion)

8 Questions by members without notice

Owner	:	Amid Rachid El Bitar
Responsible Division	:	Development and Communities

Council role

Quasi-Judicial Decision Making

The judicial character arises from the obligation for Council to abide by the principles of natural justice in making a decision on an application, e.g. development applications, building permits, applications for other permits/licences (under *Health Act*, *Dog Act* or Local Laws) and other decisions that may be appealed to the State Administrative Tribunal.

Purpose of report

For Council to consider an application for 13 Multiple Dwellings at Lot 60 (26) Beverley Road, Cloverdale.

Summary and key issues

- The City received an application for 13 Multiple Dwellings (four storeys).
- The subject site is zoned 'Residential' R20/50/100 under Local Planning Scheme No. 15 (LPS 15). Multiple Dwelling is classified as a 'D' use within the 'Residential' zone. This means that the use is not permitted unless the City has exercised discretion by granting development approval.

- The application was advertised to the surrounding property owners and occupiers for comment. During the advertisement period, five submissions were received, four objecting to the application and one in support. The objections raised concerns on the potential amenity impacts (visual privacy, overshadowing, traffic, odour and noise), concerns with the proposed setbacks and impacts on the adjoining boundary fence.
- The City's Design Review Panel (DRP) was supportive of the proposal and identified landscape, sustainability, amenity and community and aesthetics aspects of the proposal requiring further resolution to enhance the design quality of the proposed development.
- The applicant submitted revised information and plans to address comments raised by the DRP.
- The proposed development aligns with the Element Objectives of the Residential Design Codes (R-Codes), as well as the provisions of LPS 15, and Local Planning Policies. It is recommended that the Council approves the application, subject to the specified conditions.

Officer Recommendation

That Council approves planning application 428/2024 as detailed in plans dated 22 August 2025 submitted by Mark Anthony Design on behalf of the owner Amid Rachid El Bitar for the 13 Multiple Dwellings at Lot 60 (No 26) Beverley Road, Cloverdale subject to the following conditions:

1. Development/land use shall be in accordance with the attached approved plans dated 22 August 2025 and subject to any modifications required as a consequence of any conditions of this approval. The endorsed plans shall not be modified or altered without the prior written approval of the City.

Prior to Building Permit

2. Prior to lodging an application for a building permit, a detailed schedule of external materials, finishes and colours to be used in the construction of the development shall be submitted for approval and implemented to the satisfaction of the City.
3. Prior to lodging an application for a building permit, amended plans shall be submitted demonstrating details of all permanent screening to all major openings and balconies to prevent direct overlooking of adjoining properties, in accordance with R-Codes Volume 2, to the satisfaction of the City of Belmont.

4. Prior to lodging an application for a building permit, stormwater disposal plans, details and calculations prepared in accordance with the City's engineering requirements and design guidelines must be submitted for approval and thereafter implemented, constructed and maintained to the satisfaction of the City.
5. Prior to lodging an application for a building permit, the applicant/owner shall submit a Sustainability Strategy Report to the satisfaction of the City. The Sustainability Strategy Report must detail all sustainable initiatives proposed and incorporated into the development's design.
6. Prior to lodging an application for a building permit, a detailed landscaping plan and irrigation plan for the subject site and/or the road verge(s) shall be submitted for approval and implemented to the satisfaction of the City. The plan must include the landscaping of:
 - (a) all areas of the property visible from the street;
 - (b) communal open spaces; and
 - (c) the street verge in compliance with the Consolidated Local Law 2020.

Prior to Commencement of Works

7. Prior to the commencement of any site works, all existing buildings and structures on the lots, including soakwells, leach drains, septic tanks, underground storage tanks, stormwater drainage systems and waste water disposal systems, shall be removed and the land levelled to the satisfaction of the City.
8. Prior to the commencement of site works the applicant shall submit a Construction Management Plan to the City of Belmont that outlines the following measures:
 - (a) Public safety and amenity;
 - (b) Site plan and security;
 - (c) Contact details of essential site personnel, construction period and operating hours;
 - (d) Community information, consultation and complaints management procedures;
 - (f) Noise, vibration, air and dust management measures implemented during construction;
 - (g) Dilapidation reports of structures on nearby properties;
 - (f) Traffic, access and parking management that accords with the requirements of AS 1742.3:2019;
 - (h) Waste management and materials re-use;

- (i) Earthworks, excavation, land retention/piling methods and associated matters;
- (j) Street tree management and protection; and/or
- (k) Any other matter deemed relevant by the City.

The plan shall thereafter be implemented to the satisfaction of the City of Belmont.

Prior to Occupation

9. Prior to occupation or use of the development, the external face of the boundary walls built on the boundary shall be finished in either:
 - (a) face brick;
 - (b) painted render; or
 - (c) painted brick workto the satisfaction of the City.
10. Prior to the occupancy of the development, a lighting plan in accordance with the requirements of the Residential Design Codes shall be submitted for approval in writing and implemented to the satisfaction of the City.
11. Prior to occupation or use of the development, major openings and unenclosed outdoor active habitable spaces, which have a floor level of more than 0.5m above natural ground level and overlook any part of any other residential property behind its street setback line shall be provided with permanent screening to restrict views within the cone of vision from those major openings and/or unenclosed active habitable spaces, in accordance with Element 4.4 of the Residential Design Codes Volume 2, to the satisfaction of the City.
12. Prior to occupation or use of the development, vehicle parking, manoeuvring and circulation areas shall be designed, constructed, sealed, drained, line marked and kerbed in accordance with:
 - (a) The approved plan;
 - (b) Australian Standard AS/NZS 2890 and AS/NZS 1428;
 - (c) Schedule 7 of City of Belmont Local Planning Scheme No. 15; and
 - (d) The City's engineering requirements and design guidelines.

The areas must be sealed in concrete or brick paving in accordance with the City's specifications and thereafter maintained for the life of the development, to the satisfaction of the City.

13. Prior to the occupation of the development, the accessway(s) shall be constructed and drained in accordance with the City's engineering requirements and design guidelines and thereafter maintained to the satisfaction of the City.
14. Prior to occupation or use of the development, the owner/applicant shall, after having submitted, and obtained a written crossover approval, construct a vehicle crossover in accordance with the approved plans and the City's engineering specifications to the satisfaction of the City.
15. Prior to occupation or use of the development, the redundant crossover/s to Lot 60, as shown on the approved plans, shall be removed and the verge and kerb reinstated in accordance with the City's Technical Specifications, to the satisfaction of the City.
16. Prior to occupation or use of the development, landscaping, plants, verge treatment and/or irrigation are to be installed and thereafter maintained in accordance with the approved landscaping and irrigation plan to the satisfaction of the City. Any species which fail to establish within the first two planting seasons following implementation must be replaced in consultation with and to the satisfaction of the City.
17. Prior to occupation or use of the development, an updated Waste Management Plan shall be prepared and submitted to the satisfaction of the City. The updated Waste Management Plan shall provide revised bin numbers and collection frequencies to reflect the following:
 - 10 x (240L) Waste bins collected fortnightly;
 - 4 x (240L) Recycling bins collected fortnightly; and
 - 2 x (240L) FOGO bins collected weekly.

Ongoing Conditions

18. No services, such as air conditioners, fire boosters, meter service boards or water heaters shall be visible from the street.
19. All clothes drying devices and clothes drying areas shall be located and positioned to not be visible from the street or a public place.
20. All fencing visible from the street or an internal access way shall be constructed in:
 - (a) brick and visually permeable timber; or
 - (b) brick and visually permeable wrought iron; or
 - (c) other materials which match the units and which are acceptable to the City.

21. Existing turf, irrigation, verge treatment or street trees located within the verge are City of Belmont assets and as such must not be damaged, removed or interfered with during the course of the development. Existing street trees must be protected in accordance with AS 4970-2009 to the satisfaction of the City.
22. Any lighting installed on the building, yard areas or car parking areas shall operate in accordance with the requirements of Australian Standard AS 4282 - 2019 Control of the Obtrusive Effects of Outdoor Lighting to ensure:
 - (a) all illumination is confined within the boundaries of the property; and
 - (b) there will not be any nuisance caused to adjoining residents or the local areato the satisfaction of the City.
23. Bin storage areas shall be paved with an impervious material and must not drain to a stormwater drainage system or to the environment.
24. Bin storage areas shall be connected to sewer to the satisfaction of the City.
25. The Waste Management Plan prepared by Mark Anthony Design dated 11 October 2024, as amended by condition 17, shall be implemented at all times, to the satisfaction of the City.
26. The approved Sustainability Strategy Report shall be implemented and maintained for the life of the development.

Location

The subject site is located on the south-eastern side of Beverley Road. The site and surrounding properties are zoned 'Residential' and applies a R20/50/100 density code.

The site is currently surrounded by single-storey, Single Houses. Figure 1 below depicts the site's context and location within the immediate locality.

Figure 1: Aerial showing the subject site and immediate surrounding context.

The subject site and broader context around the site are zoned R20/50/100 which allows for other built form typologies such as Grouped Dwelling and Multiple Dwelling. Established Grouped and Multiple Dwelling developments are located further south of the subject site along Beverley Road and Fisher Street.

Figure 2 shows an aerial image of the broader surrounding context highlighting the existing Multiple Dwellings developments around the subject site.

Figure 2: Aerial image showing surrounding context around the subject site.

Consultation

The application was advertised for a period of 14 days (from 13 August 2025 to 27 August 2025) in accordance with the consultation requirements of the *Planning and Development (Local Planning Schemes) Regulations 2015*. The consultation area is illustrated by Figure 3 below.

Figure 3: Consultation Area (red outline) – subject site shaded in purple.

At the conclusion of the advertising period, five submissions were received. One submission was in support of the proposal, and four objecting to the proposal. The submissions raised concerns relating to the following matters:

- Concerns with traffic flow and additional on street parking;
- Concerns with the amount of proposed parking not being enough to cater for the number of dwellings;
- Concerns with the side and rear setback variations;
- Concerns with the proposed four storey height of the development;
- Concerns with the impact on privacy and solar access to adjoining properties;
- Concerns with the bin storage and potential odour issues;
- Concerns with future noise impacts;
- Concerns with impact on the existing dividing fence; and
- Concern with the proposed landscaping provided onsite.

These concerns are further discussed in the 'Officer Comments' section of this report, and addressed in the Schedule of Submissions in Attachment 12.1.1.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Place

Outcome: 6. Sustainable population growth with responsible urban planning.

Key Performance Area: Performance

Outcome: 11. A happy, well informed and engaged community.

Policy implications**State Planning Policy 7.0 – Design of the Built Environment**

State Planning Policy 7.0 – Design of the Built Environment (SPP 7) seeks to address design quality and built form outcomes in Western Australia (WA). In doing so, it provides a broad framework for design assessment to all levels of the planning framework.

The City's DRP has reviewed and provided comment on the development proposal against the 10 design principles of SPP 7.

Residential Design Codes Volume 2

Volume 2 of the R-Codes is a performance based policy that provides a comprehensive basis for the assessment of Multiple Dwelling developments coded R80 or greater. The document is structured into a series of 'Design Elements' with each relating to a built form consideration.

Each Design Element includes 'Objectives' which form the assessment criteria for any proposed apartment development. In some cases, the Design Element also lists 'Acceptable Outcomes' that are used to guide the formulation and assessment of apartment design in a manner that complies with the Objectives.

This proposal has been assessed against the relevant requirements of the R-Codes. Further details are provided under the Officer Comments section of this report.

Local Planning Policy No. 1 – Town Centre Density Bonus Requirements

Local Planning Policy No. 1 (LPP 1) outlines criteria against which all residential applications will be assessed that are located within the Town Centre Precinct, where the density proposed exceeds a R50 density.

The provisions of this Policy complement the R-Codes and other Policies to achieve the highest standard of built form and quality of amenity within the Town Centre framework.

The development is proposed at an R80 density therefore this policy applies.

Local Planning Policy No. 13 – Vehicle Access for Residential Development

Local Planning Policy No. 13 (LPP 13) stipulates that where a development comprises 'Multiple Dwellings' on one lot, a maximum of one crossover shall be permitted to provide access to all dwellings.

The application proposes one crossover to Beverley Road and therefore complies with the requirements of this Policy.

Statutory environment

Planning and Development (Local Planning Schemes) Regulations 2015

Schedule 2 Part 9 Clause 67 (2) of the Planning Regulations states the matters to be considered by local government in determining a development application. In summary, the following matters are relevant to this application:

- "(a) The aims and provisions of this Scheme and any other local planning scheme operating within the Scheme area;*
- (b) The requirements of orderly and proper planning including any proposed local planning scheme or amendment to this Scheme that has been advertised under the Planning and Development (Local Planning Schemes) Regulations 2015 or any other proposed planning instrument that the local government is seriously considering adopting or approving;*
- (c) any approved State planning policy;*
- (g) any local planning policy for the scheme area;*
- (m) the compatibility of the development with its setting, including –*
 - (i) the compatibility of the development with the desired future character or its setting;*
 - (ii) the relationship of the development to development on adjoining land or on other land in the locality including, but not limited to, the likely effect of the height, bulk, scale, orientation and appearance of the development;*
- (n) the amenity of the locality including the following –*
 - (i) environmental impacts of the development;*
 - (ii) the character of the locality;*
 - (iii) social impacts of the development;*

- (t) *The amount of traffic likely to be generated by the development, particularly in relation to the capacity of the road system in the locality and the probable effect on traffic flow and safety;*
- (y) *Any submissions received on the application.*

Local Planning Scheme No. 15

The subject site is zoned 'Residential' under LPS 15. Local Planning Scheme No 15 states that the objective of the 'Residential' zone is:

"The purpose of the Residential Zone is to increase the population base of the City of Belmont by permitting a mix of single housing and other housing types to reflect household composition and thereby increase the resident population."

The 'Multiple Dwelling' land use is a 'D' use in the 'Residential' zone, in accordance with Table 1 of the LPS 15. Under Clause 3.3.2 of the LPS 15, a 'D' use means that the use is not permitted unless the City has exercised discretion by granting development approval.

Clause 4.7.3 of LPS 15 sets out development standards, which are to be applied when contemplating the development of land within any of the flexible coded areas above the base coding of R20. These provisions relate to design and built form requirements, such as dwelling orientation, incorporation of solar design principles and vehicle access.

Clause 4.7.6 of LPS 15 requires in addition to compliance with the requirements of 4.7.3, the development must have a high degree of compliance with the criteria contained within the relevant Local Planning Policies.

Deemed Refusal

Under Clause 75 of the deemed provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015*, an application is 'deemed to be refused' if it is not determined within a 90-day period. Once this period elapses, the applicant gains the right to appeal the decision. Importantly, if the applicant decides not to exercise their right to appeal, the City still maintains the ability to issue a subsequent determination on the application.

The deemed refusal date for this application has passed and the applicant already has deemed refusal rights. Since lodging the application, there have been multiple revisions to the proposed development plans to address requests made by the City. The applicant has corresponded with the City after the deemed refusal date, and has elected not to exercise their appeal rights, and instead allow the City to determine the matter.

Right of Review

Is there a right of review? ☒ Yes ☐ No

The applicant/owner may make application for review of a planning approval/planning refusal to the State Administrative Tribunal (SAT) subject to Part 14 of the *Planning and Development Act 2005*. Applications for review must be lodged with SAT within 28 days. Further information can be obtained from the SAT website—www.sat.justice.wa.gov.au.

Background

Lodgement Date:	17 October 2024	Use Class:	Multiple Dwelling
Lot Area:	768.9m ²	TPS Zoning:	Residential
Estimated Cost of Development:	\$3 Million	MRS:	Urban

Site Description

The subject site currently has a frontage of 24.13m to Beverley Road, and a site depth of 40.25m. The site currently contains a single storey dwelling which is serviced by a single crossover to Beverley Road.

The properties directly adjoining the subject site currently also contain single storey single houses (Figure 4). There are examples of Grouped Dwellings and Multiple Dwellings within the surrounding area.

Figure 4: Aerial photo of the subject site outlined in red.

Development Proposal

The key aspects of the proposed Multiple Dwelling development are as follows:

- The demolition of the existing Single Dwelling onsite;
- The construction of the proposed 'Multiple Dwelling' development consisting of:
 - 13 apartments across four storeys at the R80 density;
 - 12 resident car parking bays, and four visitor car parking bays;
 - Eight bike parking bays, communal open space, and bin store;
 - Access to the site via a 6m wide crossover via Beverley Road;
 - Dedicated pedestrian access to the site connecting to the existing pedestrian footpath; and
 - Landscaping across the site at ground floor and on structure on levels 1-3.

A copy of the Development Plans is provided at Attachment 12.1.2.

Design Review Panel

The proposal was referred to the City's DRP to review and provide comment in accordance with the 10 principles of design set out by SPP 7.

As reflected in Table 1 below, the DRP adopts a red, orange, green 'traffic light' system to indicate which elements of the design are acceptable (green), requires attention (orange) or required rework (red).

Design Principles	Design Review Panel Score
Context and Character	Attention Required
Landscape Quality	Attention Required
Built form and scale	Acceptable
Functionality and build quality	Acceptable
Sustainability	Attention Required
Amenity	Attention Required
Legibility	Acceptable
Safety	Acceptable
Community	Attention Required
Aesthetics	Attention Required

Table 1: Design Review Panel Scoring

A copy of the DRP Minutes is provided at Attachment 12.1.3.

As demonstrated in Table 1, the DRP scored the proposal 'orange' in six of the Design Principles which was due to the DRP requesting further refinements by the applicant. The DRP's comments along with planning officers' response is detailed in Attachment 12.1.4.

In response to the DRP comments, the applicant provided amended plans and information to address the principles that scored orange. These are addressed below:

Context and Character, and Aesthetics

For the Context and Character and Aesthetics principles, the DRP's comments provided some overlap. The DRP suggested that the applicant consider the design cues in the local context when considering the aesthetics of the building. The key suggestions made by the Panel included:

- Reviewing the singular cladded frame to enhance the central section of the front elevation.
- Adjusting material and colours based on surrounding buildings to reinforce the character of the place.
- Using materials like face brick to the ground floor.
- Reconsidering the use of 'black' at ground floor level to reduce its oppressive nature and enhance the presence of the ground floor unit.

To address these matters the applicant has provided amended plans which include the following design changes:

- The incorporation of additional windows across levels 1 to 3 along the front facade which overlook the street.
- Additional brick element is incorporated at the ground level, and removal of dark colours being replaced with lighter shades across the development.
- Additional front fence and landscaping details, with the proposed materials and colours selected to be compatible with the established character of the surrounding area.

These changes are illustrated in Figure 5 below.

Figure 5: Comparison between original (left) and amended (right) front façade designs.

In addition, a condition is recommended for a detailed schedule of external materials, finishes and colours to be provided prior to lodging for a building permit to the satisfaction of the City.

Considering the above, the changes made by the applicant and a condition requiring a detailed schedule of external materials, finishes and colours are considered to address the DRP's comments. This provides a built form and

aesthetic which is compatible with the existing character and context surrounding the site.

Landscape Quality

The DRP recommended the applicant engage a landscape architect to prepare a Concept Landscape Plan, with a particular focus on the communal seating area at the first floor and maximising landscaping across the site.

In response, the applicant engaged a landscape architect who prepared a Concept Landscape Plan to support the application (Attachment 12.1.5). The plan shows that the communal area incorporates planter boxes designed to accommodate a large tree, shrubs and outdoor seating (Figure 6). The DRP supported the overall size of the communal open space and the use of planter boxes, noting they will provide amenity for future occupants.

1ST FLOOR

Figure 6: Extract of the proposed landscaping plan showing the communal open space.

In response to the DRP's suggestion to remove a visitor bay for additional landscaping, the applicant retained the bay to maintain compliance with the R-Codes. To reduce its visual impact, a planter box, front fencing, bench seat, and additional planting have been incorporated (Figure 7). While this differs from the DRP's preferred approach, it aligns with Element 3.9 of the R-Codes.

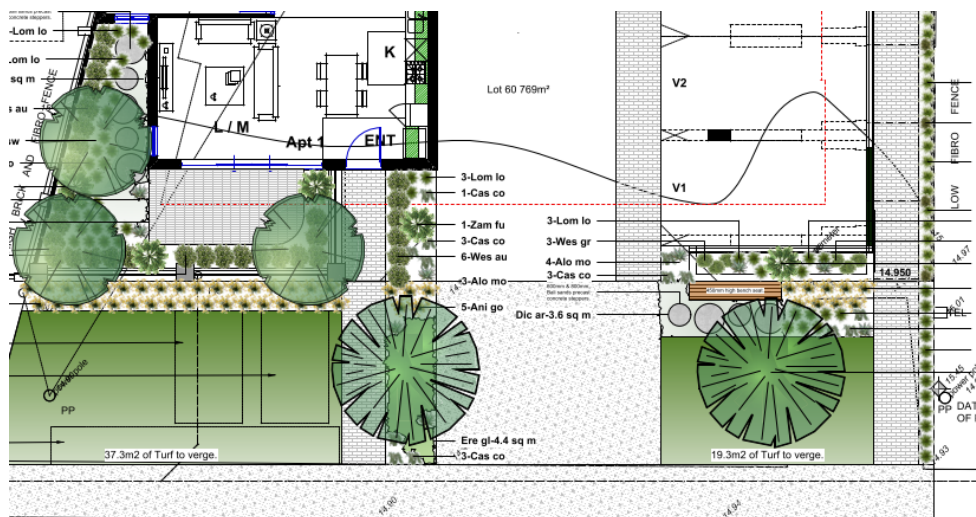

Figure 7: Extract of the proposed landscaping plan showing front setback area.

The proposed landscaping areas have been assessed against the requirements of the R-Codes Volume 2. The proposal complies with the Deep Soil requirements under Element 3.3 and provides approximately 82.5m² of deep soil planting in natural ground, and 38.6m² of deep soil planting on structure.

A condition is recommended to require the landscape plan be updated to include details of irrigation methods, verge treatments and planting on structures, in accordance with the specifications under Table 4.12 of the R-Codes.

A separate condition is also recommended to require landscaping and irrigation to be installed prior to occupation of the development. With the above conditions being imposed the landscape principle has been adequately addressed.

Sustainability

The DRP recommended that the application be supported by a sustainability strategy to detail the sustainability initiatives proposed within the design.

The following sustainability initiatives have been identified in the amended plans:

- All apartments are cross ventilated, and provide outdoor living area with a northern aspect for solar access;
- Bicycle parking has been provided for residents and visitors at ground level;
- Three Electric Vehicle (EV) charging stations are proposed within the car parking area; and
- A Solar Photovoltaic (PV) system is proposed on the roof.

Although the panel were supportive of the sustainability initiatives proposed, they encouraged the applicant to consider exploring recycled/recyclable materials and consider future integration of batteries for power storage.

To ensure that initiatives are delivered, a condition is recommended requiring submission of a sustainability report. A separate condition is also recommended for the ongoing implementation of the initiatives.

Amenity

To address the DRP's comments regarding amenity, the applicant has provided the following updated plans and information:

- The amended plans include the dimensions of the balconies. The City has assessed the balcony sizes against the requirements of the R-Codes Volume 2. The proposed balconies are compliant with both area and dimension requirements of the R-Codes; and
- Side windows have been added to Apartments 7 and 11 to increase natural light to Bedroom 2, without compromising visual privacy of the adjoining property.

The City is satisfied that the proposal suitably addresses the amenity matters raised by the DRP.

Community

The DRP requested clarification on whether there is a public art contribution requirement. The DRP also suggested considering moving the seating area at the first floor courtyard to be closer to the side boundary to enhance the privacy for the adjacent apartments.

To address the matters raised by the DRP, the following points are considered:

- The City's Local Planning Policy No. 11 – Public Art Contribution (LPP 11) only applies where a proposed development's value is over \$4.5 million. The proposal's estimate cost is \$3 million which falls below the threshold. Therefore, Local Planning Policy 11 – Public Art Contribution is not applicable.
- The amended plans included a revised seating area within the communal area. The plans show the communal seating area relocated closer to the side boundary, with increased planting to improve privacy for adjoining units.

The City is satisfied that the proposal suitably addresses the matters raised by the DRP.

When evaluating the DRP's comments, it is important to do so in the context of the statutory planning framework. In this case the proposal has been assessed

against the City's LPS 15, the R-Codes Volume 2, and the LPP 1. The City is satisfied that the applicant has considered and addressed the comments made by the DRP. Where appropriate, conditions are recommended to ensure landscaping and sustainability measures are delivered onsite.

Report

The key planning considerations relating to the application are discussed below:

R-Codes Volume 2

It is necessary to consider that the R-Codes is a performance-based document that provides multiple pathways to meet its 'Element Objectives'.

In most instances, the default way of meeting the Element Objectives is achieved by meeting the Acceptable Outcomes. Alternatively, the R-Codes acknowledges that there are circumstances where the site conditions, streetscape and design approach mean that the Acceptable Outcome is not an appropriate measure, and alternative design solutions can be applied to meet the Element Objectives.

The key considerations of the planning framework are outlined below.

Side and Rear Setbacks

The Acceptable Outcomes specify a minimum side setback of 3 metres and rear setback of 6 metres. The application proposes variable side setbacks of 2.1-2.4 metres to the side boundaries and 5.8 metres to the rear boundary.

These departures from the Acceptable Outcomes were advertised to the adjoining properties and submissions were received expressing concerns about potential loss of privacy due to reduced setbacks.

The extent of the side and rear setback variation is shown in Figure 8 below highlighted in red.

Element 2.4 - Objective	Officer Comment
	<p>development provides compliant shadow projections over the adjoining properties:</p> <ul style="list-style-type: none"> • 24 Beverley Road –36.17% of the total site area • 206 Fisher Street – 0.8% of the total site area. <p>In accordance with Element 4.1 – Solar and Daylight Access and Element 4.2 – Natural Ventilation, the proposed setbacks provide separation to ensure compliant solar access and ventilation are achieved.</p> <p>The design incorporates articulation, window openings, and variation in materials along the side boundaries. These elements help to break up the building massing and reduce the perceived bulk of the development when viewed from neighbouring properties.</p>
<p>O2.4.2 Building boundary setbacks are consistent with the existing streetscape pattern or the desired streetscape character.</p>	<p>The existing Beverley Road streetscape is currently in transition with a mix of older single houses and newer multiple dwelling developments emerging in the Town Centre Precinct area.</p> <p>As the site is located within the Town Centre Precinct area, the site and residential blocks that surround the Belmont Forum are provided with R20/50/100 zoning.</p> <p>Given this flexible zoning arrangement the streetscape is expected to accommodate high density residential development. As shown in Figure 9, this transition is already occurring, with multiple dwelling and grouped dwelling developments established above the base coding by utilising the opportunities provided by the flexible zoning.</p>

Element 2.4 - Objective	Officer Comment
	 <p>Figure 9: Image showing the built form transition surrounding the site.</p> <p>Therefore, the proposed building setbacks are consistent with the desired character of the area as envisaged through the local planning framework.</p>
<p>O2.4.3 The setback of development from side and rear boundaries enables retention of existing trees and provision of deep soil areas that reinforce the landscape character of the area, support tree canopy and assist with stormwater management.</p>	<p>The subject site does not contain trees suitable for retention. Despite this, the proposed driveway and crossover are located to ensure retention of the existing street tree. Furthermore, the proposal includes an additional verge tree to further enhance the landscape character of the area.</p> <p>Regarding the setback areas, the building is configured to provide landscaping areas along the side boundaries to support tree planting. As demonstrated in the Concept Landscape Plan (Figure 10), the setback areas can accommodate small trees and a variety of shrub and groundcover species which will soften the appearance of built form and enhance residential amenity in common areas.</p>

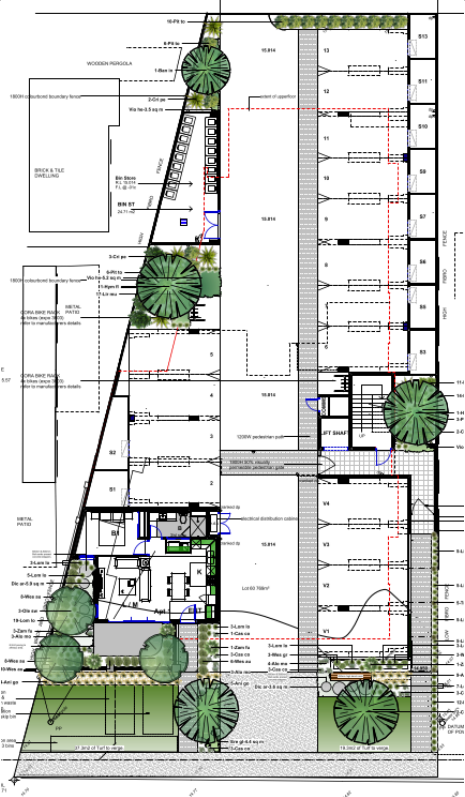

Element 2.4 - Objective	Officer Comment
	 <p data-bbox="608 1131 1286 1162">Figure 10: Extract of the Concept Landscape Plan.</p> <p data-bbox="459 1187 1430 1413">The landscaping has been assessed against Element 3.3 – Tree Canopy and Deep Soil Areas of the R-Codes Volume 2, with the development providing compliant deep soil areas across the site. This ensures sufficient space for planting that supports tree canopy growth and allows infiltration of stormwater.</p> <p data-bbox="459 1440 1393 1514">A condition is recommended to be included to require the provision of detailed landscaping plan.</p>
<p data-bbox="156 1543 416 2002">O2.4.4 The setback of development from side and rear boundaries provides a transition between sites with different land uses or intensity of development.</p>	<p data-bbox="459 1543 1422 1731">While the adjoining properties are currently developed with single-storey dwellings, these lots are zoned Residential R20/50/100. This density zoning supports redevelopment at a density and scale consistent with the proposed development.</p> <p data-bbox="459 1758 1417 1984">The proposal's design, articulation, and setbacks, provides a suitable interface with the existing lower-scale dwellings. The development also provides an appropriate transition in built form that responds both to the established context and to the future potential redevelopment of adjoining sites.</p>

Table 2: Side and Rear Setback Assessment against Element Objectives

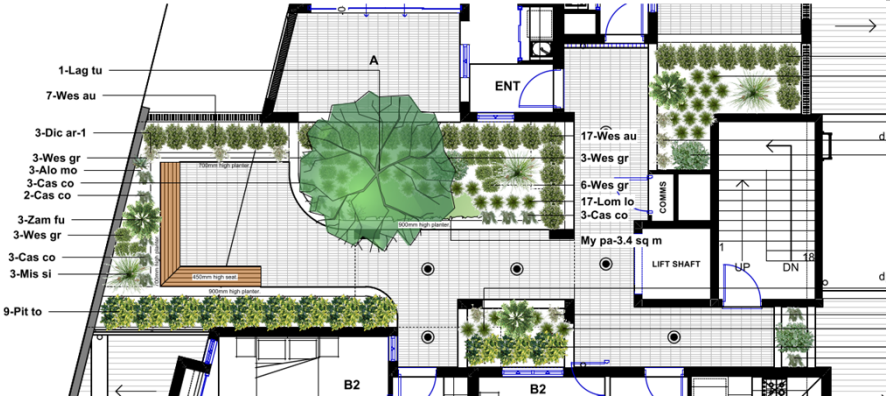

Considering the above, the proposed side and rear setback variations satisfy the relevant Element Objectives, and will not result in unreasonable impacts on the amenity of adjoining properties.

Communal Open Space

The Acceptable Outcome under Element 3.4 specifies a minimum of 78m² of communal open space for a multiple dwelling development of this scale. The application proposes 58.3m², resulting in a shortfall of 19.7m².

This variation has been assessed against the associated Element Objectives, as outlined in Table 3 below:

Element 3.4 - Objective	Officer Comment
O3.4.1 Provision of quality communal open space that enhances resident amenity and provides opportunities for landscaping, tree retention and deep soil areas.	<p>The proposal provides communal open space on the first floor. This area includes a seating space for use by the future occupants for passive recreation. While this area is screened to maintain privacy of the adjoining property, it is not covered by a roof and as such, the area has direct solar access, which improves the amenity of the area.</p> <p>In response to the DRP comments, the applicant engaged a landscape architect who prepared a Concept Landscape Plan. This landscape plan includes details of the proposed planting around the communal open space which incorporates a variety of species that soften the built form and enhances the amenity for occupants using this space.</p> <p>The proposed planter boxes are designed to accommodate deep soil planting. The planters provide sufficient soil depth to support a small tree, shrubs and groundcover.</p> <p>Figure 11 shows an extract of the Concept Landscape Plan showing the proposed planting around the communal open space.</p>

Element 3.4 - Objective	Officer Comment
	 <p data-bbox="555 730 1353 792">Figure 11: Extract of the Concept Landscape Plan showing communal open space.</p>
<p>O3.4.2 Communal open space is safe, universally accessible and provides a high level of amenity for residents.</p>	<p>The communal open space is accessible via a lift and comprises of 1.5 metres wide circulation areas to ensure the space is universally accessible.</p> <p>In terms of amenity, the DRP were supportive of the use of lighting, passive surveillance opportunities provided throughout the development and the entrance to dwellings from the common area.</p> <p>As outlined under the officer comments that address O3.4.1 above, the incorporation of landscaping has been used to provide a high level of amenity for residents.</p>
<p>O3.4.3 Communal open space is designed and oriented to minimise impacts on the habitable rooms and private open space within the site and of neighbouring properties.</p>	<p>The communal open space has been designed and oriented to minimise impacts on the habitable rooms and private open space of the adjoining properties and Units 2, 3 and 4.</p> <p>This is achieved with the incorporation of 900mm high planter boxes with a depth of 3m along the periphery of the communal open space which provides separation and privacy between these two areas.</p> <p>Window openings that face circulation or communal spaces are treated with high sill windows or obscure glazing which provides natural light and ventilation while maintaining privacy for the residents.</p> <p>In response to DRP feedback, the applicant relocated the outdoor seating within the communal open space to further increase the separation from the adjoining alfresco area of Unit 4.</p>

Element 3.4 - Objective	Officer Comment
	The communal open space includes screening with a minimum height of 1.6 metres that prevents direct overlooking into neighbouring properties.

Table 3: Communal Open Spaces Assessment against Element Objectives

Considering the above, the proposed communal open space is considered acceptable as the development's design achieves the relevant Element Objectives under the R-Codes.

Public Domain Interface

The Acceptable Outcomes specify a minimum 2 metres front setback for the visitor bay. The application proposes a visitor bay with a 1.3 metres front setback, representing a shortfall of 0.7 metres. The proposed variation has been assessed against the Element Objectives in Table 4 below:

Element 3.6 - Objective	Officer Comment
03.6.1 The transition between the private and public domain enhances the privacy and safety of residents.	<p>The proposal incorporates front fencing and landscaping to provide an appropriate transition between the public and private realms. The landscaping and fencing separate the private areas from the public view while maintaining passive surveillance to the street.</p> <p>A separate pedestrian entrance is provided for Unit 1 on the ground floor, in addition to a common pedestrian access along the south-west side boundary. Both pedestrian entrances are clearly separated from vehicle access. The driveway is designed with adequate sightlines at the site entrance.</p> <p>The combination of front fencing, landscaping, and separate pedestrian access maintains resident privacy while providing opportunity for surveillance of the street.</p>
03.6.2 Street facing development and landscape design retains and	As noted in the DRP section of this report, the proposal is supported by a Concept Landscape Plan, which includes landscaping within the front setback area. Features include a planter box, front fencing, a bench

enhances the amenity and safety of the adjoining public domain, including the provision of shade.

seat, and a mix of shrubs, trees, and ground cover, as illustrated in Figure 12 below.

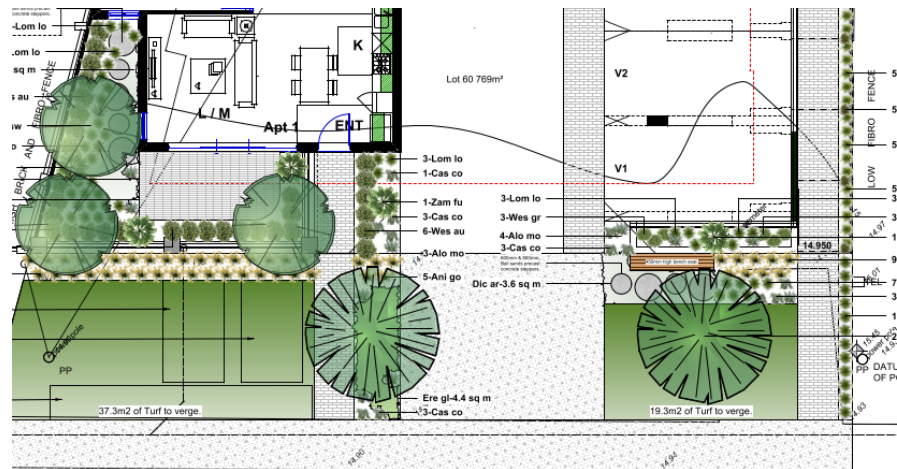

Figure 12: Extract of the proposed landscaping plan showing front setback area.

The development retains the existing street tree, proposes an additional street tree, and introduces three small trees within the front setback. This proposed planting is considered to enhance the streetscape by contributing to the amenity with the diverse planting and structures that interface with the street.

Table 4: Public Domain Interface Assessment against Element Objectives

For the reasons outlined above, the public domain interface proposed is considered to meet the Element Objectives and is supported.

Visual Privacy

The proposal has been assessed against Element 3.5 of the R-Codes Volume 2. The Acceptable Outcomes specify minimum setbacks of 4.5 metres from bedrooms, 6 metres from habitable rooms and 7.5 metres from balconies to adjoining sites coded R50 or lower. The adjoining properties are zoned Residential R20/50/100, and currently developed at R20 and R30 densities.

During the advertising of the application, concerns were raised in submissions regarding the overlooking from the development.

The windows, balconies, circulation spaces and communal open spaces proposed across the development meet the minimum setbacks specified in the Acceptable Outcomes or are provided with screening shown on the plans to prevent direct overlooking of adjoining properties. The following screening elements have been included throughout the design:

- 1.6m high sill windows;
- Frosted glazing for windows with a sill height below 1.6m;
- Vertical screening panels; and
- Planter boxes.

Although the majority of major openings are provided with appropriate screening, some windows have been identified which require further screening detail to prevent direct overlooking of adjoining properties.

It is recommended that a condition be imposed requiring the applicant to submit updated plans demonstrating that all windows and balconies are provided with setbacks or screening in accordance with the R-Codes Volume 2, to the satisfaction of the City.

Given the above, the City is satisfied with how the proposal has addressed Visual Privacy, subject to a condition for the applicant to provide details of the proposed screening which prevent direct overlooking of neighbouring properties.

Car Parking

In accordance with the Acceptable Outcomes of Element 3.9 of the R-Codes Volume 2, the car parking requirements for the proposal are outlined in Table 5 below.

PARKING REQUIREMENTS	PROPOSED PARKING
CAR PARKING (Location A) <u>Residents</u> <i>0.75 bays per dwelling (1-bedroom dwellings) – 4 dwellings = 3 bays</i> <i>1 bay per dwelling (2-bedroom dwelling) – 9 dwellings = 9 bays</i> = 12 resident bays. <u>Visitors</u> <i>1 bay per four dwellings up to 12 dwellings, and 1 bay per 8 dwellings for the 13th dwelling and above.</i> = 4 visitor bays. Total	Resident bays – 12 Bays Visitors – 4 bays

PARKING REQUIREMENTS	PROPOSED PARKING
12 resident bays 4 visitor bays	Complies

Table 5: Car Parking Requirements

During the advertising of the application, submissions were received raising concerns regarding the adequacy of car parking provision.

As shown in Table 5 above, the development requires a total of 12 resident and four visitor car parking bays. The proposal provides 12 resident and four visitor car parking bays, which complies with the requirements of the R-Codes Volume 2.

In addition to the car parking proposed onsite, the following is noted:

- The subject site is located approximately 220m from bus stops that are serviced by the 37, 39, 270, 284, 285 and 293 bus routes located on Abernethy Road. As buses servicing these stops arrive every 15 minutes within peak hours, the subject site is considered to be within a Location A high frequency public transport catchment.
- The site is located approximately 350 metres from the Belmont Forum, and is provided with an established pedestrian footpath linking the sites. Beverley Road is equidistant between the traffic lights at the Wright Street/Abernethy Road and Fulham/Abernethy Road intersections for pedestrians to safely cross Abernethy Road.
- The proposed development provides four resident and visitor bicycle parking bays which complies with the requirements of the R-Codes Volume 2.

On this basis, the proposal is considered to provide car parking in accordance with the statutory requirements.

Traffic

Submissions received during the advertising period raised concerns regarding the potential impact of the development on local traffic flow. The applicant has provided a Transport Impact Statement (TIS) prepared by Urbii (refer Attachment 12.1.6). The following points are noted:

- Beverley Road is a 7 metre wide, two-lane Access Road (50km/h) with a footpath on the south-eastern side. It is classified as an Access Road under the Main Roads WA (MRWA) road hierarchy, which typically carries less than 3,000 vehicles per day. According to the City's most recent traffic counts

from April 2025, an average of 553 vehicle movement occurs along Beverley Road per day.

- The proposed development is estimated to generate 65 vehicle trips per day, with approximately seven vehicle trips occurring during the AM and PM peak hours respectively.
- According to WA Planning Commission (WAPC) Transport Impact Assessment Guidelines, developments that generate less than 10 vehicle trips per hour are considered to be minor and are not expected to adversely impact the surrounding road network.
- There is adequate capacity along Beverley Road and in the surrounding road network to cater for the traffic generated by the proposed development.

Given the above, and consistent with the findings of the TIS, it is considered that the level of traffic associated with the proposed development can be accommodated within the locality without significant impact on traffic flow or road safety.

Waste Management

During the advertising period, a submission was received raising concerns regarding the proposed bin locations and potential odour impacts on neighbouring properties.

In response, the applicant submitted a Waste Management Plan (WMP) (Attachment 12.1.7). The City has calculated the required bins in accordance with the City's waste generation rates. The required bins will be provided as follows:

- 10 x (240L) Waste bins collected fortnightly;
- 4 x (240L) Recycling bins collected fortnightly; and
- 2 x (240L) FOGO bins collected weekly.

As the applicants WMP is required to be updated to reflect the above number of bins and collection frequencies. A condition is recommended for the applicant to submit an updated WMP, and a separate condition for the implementation of the approved WMP.

The bin store is roofed, enclosed, and designed with adequate space for all bins under the three-bin system, effectively containing any odours. All bins will be routinely emptied according to standard collection schedules, and the bin store will be connected to sewer for cleaning, ensuring that no accumulation of waste or odour can occur.

The City's Waste Management Services have reviewed the proposal and are satisfied with the WMP management measures, and the bin store can accommodate the required number of bins. Given these measures, the likelihood of odour affecting neighbouring properties is minimal.

It is recommended that conditions be included requiring the implementation of the Waste Management Plan and connection of the bin store to sewer.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Conclusion

The proposed 13 Multiple Dwellings development is consistent with the objectives of the local and state planning framework and meets the relevant planning requirements. It is considered the proposal is of an acceptable design and landscaping quality, as intended for medium density development within the locality.

Having regard to the design of the development, the zoning of the area under LPS 15 as well as achieving the R-Codes Element Objectives, it is recommended the proposal be approved subject to conditions.

Schedule of Submissions – 26 Beverley Road, Coverdale

No.	Name and address	Summary of Public Submission	Officer comment
1.	Department of Housing and Works	<p>Support</p> <p>1a - The Department of Housing and Works (DHW) is broadly supportive of multiple dwelling developments in this context which will assist in achieving the state's housing delivery objectives.</p> <p>1b - DHW has no objection to the proposed side and rear setbacks, subject to good design outcomes being achieved in accordance with the SPP 7.0 principles. We trust that the City of Belmont will conduct a thorough assessment of the proposal to ensure that, if approved, a positive design outcome will be achieved.</p>	<p>1a – Noted</p> <p>1b – The proposed side and rear setbacks have been assessed against the Element Objectives under clause 2.4 of the R-Codes Volume 2. This has been addressed within the Council Report under the heading Side and Rear Setback.</p>
2.	Owner - 24 Beverley Rd, Cloverdale	<p>Objection</p> <p>2a – All windows overlooking my property must be obscure glass to a height of 1600mm AFFC as per City of Belmonts Planning Policy.</p> <p>2b – Side setbacks should be 3m setback not 2.4m from boundary. I object to this.</p> <p>2c – Communal open space does not comply and must be 78m² as per planning Policy's.</p> <p>2d – Any zero lot walls or parapet walls abutting my boundary must be painted and rendered in a colour of my choice to complement my site.</p> <p>2e – I do not believe these items should be changed from the Planning Policy at all. I also believe that there is not enough</p>	<p>2a – The proposal has been assessed against the R-Codes Volume 2, Element 3.5 Visual Privacy. All major openings to habitable rooms and outdoor living area (balconies) are provided with compliant cone of visions or with appropriate screening to prevent direct overlooking of adjoining properties. Refer to the Council Report under the heading Visual Privacy.</p> <p>2b - The proposed side and rear setback include variations to the Acceptable Outcomes under the R-Codes Volume 2, Element 2.4. Where variations are proposed the development is assessed against the associated Element Objectives. The variations have been addressed within the Council Report under the heading Side and Rear Setback.</p>

No.	Name and address	Summary of Public Submission	Officer comment
		<p>visitor bays for 13x units and this is going to cause major traffic issues on the street as people will be parking on the street and causing issues.</p> <p>2f – I would like to note that this development must comply with City of Belmont Planning Polycys and current R-Codes A I will be Checking this if the development goes forward.</p>	<p>2c – The proposed communal area include variations to the Acceptable Outcomes under the R-Codes Volume 2, Element 3.5. Where variations are proposed the development is assessed against the associated Element Objectives. The variations have been addressed within the Council Report under the heading Visual Privacy.</p> <p>2d – If the development application is approved standard conditions and advice notes requiring the boundary wall to be finished in face brick, painted render, or painted brick work. An advise note is also included to encourage the land owner to liaise with the adjoining property owners to ascertain a finish that satisfies both parties.</p> <p>2e – The application is proposing variations to the Acceptable Solutions. Where variations are proposed the development is assessed against the Element Objectives.</p> <p>In this case the proposed carparking has been assessed against the Acceptable Outcomes of Element 3.9 Car and Bicycle Parking. The proposal provides compliant resident and visitor car parking in accordance with the Acceptable Outcomes of the R-Codes.</p> <p>2f - The application is proposing variations to the Acceptable Solutions. Where variations are proposed the development is assessed against the Element Objectives.</p>
3.	Owner/Occupier No Address Provided	<p>Objection</p> <p>3a – The proposed development height of 4 stories is of concern. The other developments in immediate proximity are 3 levels max. 3 levels is fine and consistent with the other developments.</p>	<p>3a – The proposal has been assessed against Element 2.2 Building Height of the R-Codes Volume 2. The proposal is developed at R80 which permits for 4 (four) stories.</p>

No.	Name and address	Summary of Public Submission	Officer comment
		<p>3b – 4 levels is too high. 4 levels will block morning sun.</p> <p>3c – 4 levels will invade privacy the occupants will be able to see into my private space.</p> <p>3d – 4 levels provides a noise concern and the additional noise will impact us.</p> <p>3e – 26 Beverley Rd is a rather small block with only 12 car park space for 13 units which will cause cars to park on the street blocking up the street.</p> <p>3f – I object to the four level development and variations of the R-code scheme variations.</p> <p>3g – a three level development with at least one carpark per unit is more appropriate.</p>	<p>3b – The proposal has been assessed against the Element 3.2 Orientation. The proposal complies with the maximum overshadowing permitted under the Acceptable Outcome of the R-Codes.</p> <p>3c - The proposal has been assessed against the R-Codes Volume 2, Element 3.5 Visual Privacy. All major openings to habitable rooms and outdoor living area (balconies) are provided with compliant cone of visions or with appropriate screening to prevent direct overlooking of adjoining properties. Refer to the Council Report under the heading Visual Privacy.</p> <p>3d – All residential properties are subject to the Environmental Protection (Noise) Regulations 1997. These regulations set enforceable noise limits to protect the amenity of residents. Any noise emitted from an apartment building must comply with these prescribed limits, and the City's Environmental Health Officers can investigate complaints and take enforcement action where breaches occur.</p> <p>3e - The proposed carparking has been assessed against the requirements of Element 3.9. The proposal provides compliant resident and visitor car parking in accordance with the R-Codes.</p> <p>3f – Noted</p> <p>3g – Refer to points 3a and 3e</p>
4.	Owner - 28 Beverley Rd, Cloverdale	<p>Objection</p> <p>4a – There shouldn't be any variations to the R-Codes/Scheme. The buildings should comply, its just greed</p>	<p>4a - The application is proposing variations to the Acceptable Outcomes. Where variations are proposed to the Acceptable</p>

Attachment 12.1.1 Attachment 1 - Schedule of Submissions

No.	Name and address	Summary of Public Submission	Officer comment
		<p>trying to fit in more properties. If they don't comply, design something that does comply.</p> <p>4b – Proposed bin area is less than 3m from the dining area of the house, the sliding door exiting to back yard. The state of the bins, and small from them means the back door wont be able to be kept open. See attached photo of bins from another apartment in the area. There too much rubbish, not enough bins, they cant be closed, the stench will be terrible. Move it to the back of the property.</p> <p>4c – Noise from the communal area on the first floor as its against the fence line, and outside a bedroom.</p> <p>4d – Noise from the car parks numbered 2, 3, 4, 5 as its outside a bedroom.</p> <p>4e – Windows on the side of the building facing 28 Beverley Rd – worried about people being able to see into the property.</p> <p>4f – Environmental concern and health concerns as the fibro fence has asbestos capping on it. Concerned for the tenants who live at 28 Beverley Rd, as if the fence is disturbed in any way, they wont be protected from asbestos fibres.</p> <p>4g – Placement of trees near boundary fence. Don't feel they should be placed there as it will create extra work that tenants will be required to maintain.</p> <p>4h – The walkways are all open and are concerned for the tenants privacy.</p>	<p>Outcomes, the variations area assessed against the Element Objectives. All variations have been considered within the Council Report under the relevant headings.</p> <p>4b – The proposed bin store is enclosed and provided with a roof. The building caretakers will be responsible for the maintenance of the bins and bin store. The provided Waste Management Plan has been reviewed by the City's Coordinator Waste Management who has supportive of the plan and proposed bin store arrangement.</p> <p>4c – Refer to point 3d.</p> <p>4d – Refer to point 3d. The Noise Regulations also covers noise generated by vehicles not on public roads.</p> <p>4e – Refer to point 3c.</p> <p>4f – Any proposed changes to the existing dividing fences will be between the two land owners to agree on if the fence is to be replaced. Removal and replacement of the fence would be subject to Worksafe Practices & Health (Asbestos) Regulations 1992 and the Dividing Fences Act 1961.</p> <p>4g – The Concept Landscape Plan has been reviewed by Parks Services who has recommended a Condition for a Landscape Plan and Irrigation Plan be provided should the development be approved. The future Landscape Plan will be reviewed and the selected plant species and planting areas checked to ensure suitability.</p> <p>4h – Refer to point 3c.</p>

No.	Name and address	Summary of Public Submission	Officer comment
		4i – Concerned about parking in the street. We understand there is no parking down both sides of Beverley Rd from Abernerthy Rd to Beverley Place. What plans do Council have in place to deal with parking issues in the street after this and the other development in the street are finished.	4i – On-street parking restrictions do not form part of this development application. Parking management on Beverley Road, including any restrictions on parking along both sides of the street, is a matter considered separately by the City's Infrastructure Services team.
5.	Occupier - 28 Beverley Rd, Cloverdale	<p>Objection</p> <p>5a – Bin area should be moved to rear of property. The smell from the bins outside my dining room/kitchen will be horrendous.</p> <p>5b – All aspects of the building should comply with the regulations, that's what they are for.</p> <p>5c – Parking is non-existent in the Street and most residence have more than 1 vehicle currently. Its almost impossible to drive down Fisher St on the weekend, due to the number of units on Fisher St.</p> <p>5d – The communal area will be a party zone every weekend right outside my bedroom. Will there be a curfew?</p> <p>5e – Noise from the cars parking will echo together with exhaust fumes with possible health related issues occurring.</p> <p>5f – Building will move or disrupt the fence that has an asbestos capping making fibres airborne.</p> <p>5g – walkways are open & directly look into the back area and windows.</p>	<p>5a – Refer to point 4b.</p> <p>5b – Refer to point 4a.</p> <p>5c – Refer to 2e and 4i.</p> <p>5d – Refer to point 3d.</p> <p>5e – Refer to point 3d. Vehicle emissions are regulated separately under environmental and health legislation and are not matters addressed through the planning approval process.</p> <p>5f – Refer to point 4f.</p> <p>5g – Refer to point 3c.</p> <p>5h – Refer to point 4g.</p>

Attachment 12.1.1 Attachment 1 - Schedule of Submissions

No.	Name and address	Summary of Public Submission	Officer comment
		5h – Trees near the boundary will create additional requirements on my side of the fence and may effect the structural integrity of the fence.

DR3 – Design review report and recommendations (Part 1)	
Local government	City of Belmont
Item no.	26 Beverley Road CLOVERDALE 6105 - Multiple Dwellings (13 Units) - 4/2025/DRP
Date and Time	1st Meeting – 19 th June 2025
Location	Online Teams Meeting
Panel members	Stephen Carrick [Chair] Jane Wetherall Tony Blackwell Malcolm Mackay
Local government officers	Nicholas Reddy – Senior Planning Officer
Proponent/s	Mark Sertorio – Mark Anthony Design
Observer/s	Brandon Pang – Coordinator Planning Penny Wallis – Planning Officer Christine Caruso – Planning Administration Officer
Briefings	
Development assessment overview	Nicholas Reddy – Senior Planning Officer
Technical issues	N/A
Design review	
Proposed development	Multiple Dwellings (13 units)
Property address	26 Beverley Road CLOVERDALE 6105 (Lot 60 PL 8292)
Background	The Applicant has lodged their Planning Application for 13 Multiple Dwellings. This is the first time the application has been presented to the DRP.
Proposal	13 Multiple Dwellings (Four Storey)
Applicant/representative address to the design review panel	Mark Sertorio – Mark Anthony Design
Key issues/recommendations	Further consideration of the existing context and character and how this can be subtly reflected in the proposal. Consider the removal or relocation of the visitor car bay within the front setback and instead increase the landscape in this area. Engage a landscape architect and explore opportunities presented by the plan and ensure the design of the communal spaces are of a high quality. Further consideration of the design of the street elevation.

DR3 – Design review report and recommendations (Part 2)	
Design quality evaluation	
	<i>Supported</i>
	<i>Pending further attention</i>
	<i>Not supported</i>
Principle 1 - Context and character	<i>Good design responds to and enhances the distinctive characteristics of a local area, contributing to a sense of place.</i>
	<p>1a. The Panel supports the project's approach and acknowledges the challenges faced in such projects.</p> <p>1b. The Panel supported the activation of the street at ground level and upper levels.</p> <p>1c. The Panel suggested further exploration of local design cues (materials, landscape) to be reflected in the proposal.</p> <p>1d. The Panel supports the consistency of scale and form that is consistent with the emerging development typology for the locality.</p> <p>1e. The Panel supports some screening of the car bays from the street.</p> <p>1f. The Panel noted that the precedents provided in the Applicant's presentation are fine, however they do not cover other aspects of local character that can provide design cues – items such as materials, forms, setback, landscape, fencing, etc. Context and Character needs to be fleshed out further to help justify what is proposed.</p>
Principle 2 - Landscape quality	<i>Good design recognises that together landscape and buildings operate as an integrated and sustainable system, within a broader ecological context.</i>
	<p>2a. The Panel recommends engaging a landscape professional to assist with developing the 'program' for each space provided in what is generally a well-considered site planning proposition. Consideration should be given as to how these spaces are likely to be used with the appropriate amenity and facilitation provided.</p> <p>2b. The Panel supported the intent of the landscape design, including cascading green planters to create a central green core, and strongly recommended engaging a landscape architect to flesh out and refine the design and ensure the vision can be achieved and maintained.</p> <p>2c. The Panel acknowledged the combination of ad-hoc 'space filler trees' and a formal first-floor landscape, with upper-level planters.</p> <p>2d. The Panel views the courtyard terminating the pedestrian entry vista as a positive.</p> <p>2e. The Panel strongly recommended replacing the first visitor bay with landscape to improve the streetscape. The current arrangement is not supported.</p> <p>2f. The Panel recommended including landscaping in the verge as part of the landscape design. Details of the front fencing are required.</p> <p>2g. The Panel suggested extending the landscape strip at the rear of the car park along the rear boundary. Consideration should be given to the types of planting used to ensure vehicle turning movements are maintained.</p> <p>2h. The Panel recommended ensuring compliance with deep soil zone requirements.</p> <p>2i. The Panel suggested integrating a courtyard where the bike parking is located.</p> <p>2j. The Panel suggested including casual seating in appropriate locations, including designing into the planter edge.</p> <p>2k. The Panel suggested incorporating a generosity of landscape along the pedestrian entry sequence.</p>

Principle 3 - Built form and scale	<i>Good design ensures that the massing and height of development is appropriate to its setting and successfully negotiates between existing built form and the intended future character of the local area.</i>
	<p>3a. The Panel supports the overall form and scale, which is well articulated.</p> <p>3b. The Panel supports the open walkways and circulation.</p> <p>3c. The Panel supported proposed materials and colours and suggested breaking up the large frame element on the front elevation to reduce its overly imposing nature – for example, the use of two vertical cladded frames rather than one (with the living room windows as a recessive gap between them) to make the front elevation less imposing. Inclusion of operable panels for ventilation to the living/kitchens/balconies could also be explored, to provide further articulation to the somewhat imposing central area.</p> <p>3d. The Panel commented that the ceiling heights should be checked by the applicant to ensure that a 2.7-metre ceiling for habitable rooms is achievable, noting the inclusion of services.</p> <p>3e. The Panel supported the screening of car bays from the street.</p>
Principle 4 - Functionality and build quality	<i>Good design meets the needs of users efficiently and effectively, balancing functional requirements to perform well and deliver optimum benefit over the full life-cycle.</i>
	<p>4a. The Panel commended the location of the rooftop condensers.</p> <p>4b. The Panel recommended to review the floor thickness and consider roller doors for stores to improve access.</p> <p>4c. The Panel noted that the roof is complicated and the design and installation of the downpipe routes will be challenging.</p> <p>4d. The Panel raised concerns regarding the servicing of PV cells and placement of A/C condensers and recommended provision to enable future access for maintenance.</p> <p>4e. The Panel required further information on whether each habitable room has at least one window that permits an outlook and not overly screened or otherwise obscured.</p> <p>4f. The Panel noted the waste management has been considered.</p> <p>4g. The Panel noted the circulation areas are generous.</p>
Principle 5 - Sustainability	<i>Good design optimises the sustainability of the built environment, delivering positive environmental, social and economic outcomes.</i>
	<p>5a. The Panel supported natural cross ventilation for all apartments.</p> <p>5b. The Panel noted that there are no solely south-facing apartments.</p> <p>5c. The Panel supported the allowance for bike parking.</p> <p>5d. The Panel recommends the development of a sustainability strategy and suggested engaging with an ESD consultant.</p> <p>5e. The Panel suggested providing individual EV charging points compared to shared ones.</p> <p>5f. The Panel suggested allowance for future integration of batteries.</p> <p>5g. The Panel suggested more recycled/recyclable materials to be more sustainable.</p>
Principle 6 - Amenity	<i>Good design optimises internal and external amenity for occupants, visitors and neighbours, providing environments that are comfortable, productive and healthy.</i>
	<p>6a. The Panel noted good access to light and ventilation.</p> <p>6b. The Panel supported the generous room sizes and supports the outlook from the windows.</p> <p>6c. The Panel noted the living areas are tight on the widths but more generous in length.</p> <p>6d. The Panel suggested adding dimensions to balconies to confirm sizes.</p> <p>6e. The Panel suggested adding a side window to B2 Apartments 7 and 11 as per Apartment 3.</p>

Principle 7 - Legibility	<i>Good design results in buildings and places that are legible, with clear connections and easily identifiable elements to help people find their way around.</i>
	<p>7a. The Panel noted a clear line of sight to the front door.</p> <p>7b. The Panel supported the pedestrian access separate from vehicle access.</p> <p>7c. The Panel supported the ground floor apartment having its own entrance.</p> <p>7d. The Panel supports the dropped ceiling in the carpark to indicate the entrance.</p> <p>7e. The Panel noted that the car park layout is simple.</p> <p>7f. The Panel supported the choice of a lift or stairs in the lobby.</p> <p>7g. The Panel noted the entry sequence could be further strengthened – consider extending the pergola to the street and lengthening the internal corridor to move the door closer to the street.</p>
Principle 8 - Safety	<i>Good design optimises safety and security, minimising the risk of personal harm and supporting safe behaviour and use.</i>
	<p>8a. The Panel noted passive surveillance of the street from all levels.</p> <p>8b. The Panel supports the use of lighting.</p> <p>8c. The Panel noted sightlines appear to be okay.</p>
Principle 9 - Community	<i>Good design responds to local community needs as well as the wider social context, providing environments that support a diverse range of people and facilitate social interaction.</i>
	<p>9a. The Panel supports the first floor having a high-quality passive landscape space for residents, however, a Landscape Architect should be engaged to further refine the design for this area.</p> <p>9b. The Panel suggested that the requirements for public art are checked.</p> <p>9c. The Panel supports the entrance to the units from the communal space.</p> <p>9d. The Panel suggested considering moving the seating/gathering area in the first floor courtyard closer to the side boundary or other means to enhance the privacy for the adjacent apartments in addition to appropriate landscaping.</p>
Principle 10 Aesthetics	<i>Good design is the product of a skilled, judicious design process that results in attractive and inviting buildings and places that engage the senses.</i>
	<p>10a. The Panel supports the aesthetics but suggested reviewing the singular cladded frame on the front elevation.</p> <p>10b. The Panel suggested adjusting material and colours, based on surrounding buildings to reinforce the character of the place.</p> <p>10c. The Panel suggested enhancing the central section of the front elevation.</p> <p>10d. The Panel suggested using materials like face brick to the ground floor to reflect local context and character.</p> <p>10e. The Panel suggested reconsidering the use of 'black' at ground floor level to reduce its oppressive nature and enhance the presence of the ground floor unit.</p> <p>10f. The Panel suggested considering the visual impact for apartments overlooking the metal deck roof.</p>

Design Review Panel Comments	
Design quality evaluation	
	<i>Supported</i>
	<i>Pending further attention</i>
	<i>Not supported</i>

	Design Review Panel Comments	Planning Officer Comments
Principle 1 - Context and character	<i>Good design responds to and enhances the distinctive characteristics of a local area, contributing to a sense of place.</i>	
	<p>1a. The Panel supports the projects' approach and acknowledges the challenges faced in such projects</p> <p>1b. The Panel supported the activation of the street at ground level and upper levels.</p> <p>1c. The Panel suggested further exploration of local design cues (materials, landscape) to be reflected in the proposal.</p> <p>1d. The Panel supports the consistency of scale and form that is consistent with the emerging development typology for the locality.</p> <p>1e. The Panel supports some screening of the car bays from the street.</p> <p>1f. The Panel noted that the precedents provided in the Applicant's presentation are fine, however they do not cover other aspects of local character that can provide design cues - items such as materials, forms, setback, landscape, fencing, etc. Context and Character needs to be fleshed out further to help justify what is proposed.</p>	<p>1a – Noted</p> <p>1b – Noted</p> <p>1c – The Applicant has further refined the colours, materials finishes and front façade in response to the DRP feedback. Lighter colours, materials and additional openings are proposed facing the front façade which were reflected in presentation package to the DRP. The City considers .</p> <p>1d – Noted</p> <p>1e – Noted</p> <p>1f – Refer to point 1c.</p>

	Design Review Panel Comments	Planning Officer Comments
Principle 2 - Landscape quality	<i>Good design recognises that together landscape and buildings operate as an integrated and sustainable system, within a broader ecological context.</i>	
	<p>2a. The Panel recommends engaging a landscape professional to assist with developing the 'program' for each space provided in what is generally a well-considered site planning proposition. Consideration should be given as to how these spaces are likely to be used with the appropriate amenity and facilitation provided.</p> <p>2b. The Panel supported the intent of the landscape design, including cascading green planters to create a central green core, and strongly recommended engaging a landscape architect to flesh out and refine the design and ensure the vision can be achieved and maintained.</p> <p>2c. The Panel acknowledged the combination of ad-hoc 'space filler trees' and a formal first-floor landscape, with upper-level planters.</p> <p>2d. The Panel views the courtyard terminating the pedestrian entry vista as a positive.</p> <p>2e. The Panel strongly recommended replacing the first visitor bay with landscape to improve the streetscape. The current arrangement is not supported.</p> <p>2f. The Panel recommended including landscaping in the verge as part of the landscape design. Details of the front fencing are required.</p> <p>2g. The Panel suggested extending the landscape strip at the rear of the car park along the rear boundary. Consideration should be given to the types of planting used to ensure vehicle turning movements are maintained.</p> <p>2h. The Panel recommended ensuring compliance with deep soil zone requirements.</p> <p>2i. The Panel suggested integrating a courtyard where the bike parking is located.</p>	<p>2a – The applicant has engaged a Landscape Architect who prepared a Concept Landscape Plan to support the application, as requested by the DRP. The proposed landscaping is considered to provide a positive amenity to both the future occupants and appropriate within the established streetscape.</p> <p>2b – Refer to point 2a.</p> <p>2c – Noted.</p> <p>2d – Noted.</p> <p>2e – The applicant has considered this DRP request. The applicant opted to retain the visitor bay to ensure compliance with the R-Codes requirements for onsite car parking. The applicant instead increased the quality of screening of the car parking with a front fence and landscaping.</p> <p>2f – The application has provided details of the proposed front fencing, and has submitted a Landscape Plan in response to the DRP comments.</p> <p>2g – The applicant has extended the landscaping along the rear boundary and maintained the maneuvering area to ensure vehicles can maneuver to leave the site in a forward direction.</p> <p>2h – The proposal has been assessed against the R-Codes Volume 2, Element 3.3 and complies with the deep soil requirement.</p> <p>2i – The applicant has maintained the landscape area adjacent to the bike park area. This arrangement is considered suitable within the car park area.</p> <p>2i – Built in seating is proposed within the communal</p>

Attachment 12.1.4 Attachment 4 - Design Review Panel Response

	<p>2j. The Panel suggested including casual seating in appropriate locations, including designing into the planter edge.</p> <p>2k. The Panel suggested incorporating a generosity of landscape along the pedestrian entry sequence.</p>	<p>open space area provided at the first floor.</p> <p>2k – Refer to point 2a.</p>
--	--	--

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 3 - Built form and scale	<i>Good design ensures that the massing and height of development is appropriate to its setting and successfully negotiates between existing built form and the intended future character of the local area.</i>	
	<p>3a. The Panel supports the overall form and scale, which is well articulated.</p> <p>3b. The Panel supports the open walkways and circulation.</p> <p>3c. The Panel supported proposed materials and colours and suggested breaking up the large frame element on the front elevation to reduce its overly imposing nature - for example, the use of two vertical cladded frames rather than one (with the living room windows as a recessive gap between them) to make the front elevation less imposing. Inclusion of operable panels for ventilation to the living/kitchens/balconies could also be explored, to provide further articulation to the somewhat imposing central area.</p> <p>3d. The Panel commented that the ceiling heights should be checked by the applicant to ensure that a 2.7-metre ceiling for habitable rooms is achievable, noting the inclusion of services.</p> <p>3e. The Panel supported the screening of car bays from the street.</p>	<p>3a – Noted</p> <p>3b – Noted</p> <p>3c – The applicant has removed the large blank wall element of the front façade. The redesign provides additional opens facing the street.</p> <p>3d – 2.7m floor to ceiling heights are proposed.</p> <p>3e - Noted</p>

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 4 - Functionality and build quality	<i>Good design meets the needs of users efficiently and effectively, balancing functional requirements to perform well and deliver optimum benefit over the full life-cycle.</i>	
	<p>4a. The Panel commended the location of the rooftop condensers.</p> <p>4b. The Panel recommended to review the floor thickness and consider roller doors for stores to improve access.</p> <p>4c. The Panel noted that the roof is complicated and the design and installation of the downpipe routes will be challenging.</p> <p>4d. The Panel raised concerns regarding the servicing of PV cells and placement of A/C condensers and recommended provision to enable future access for maintenance.</p> <p>4e. The Panel required further information on whether each habitable room has at least one window that permits an outlook and not overly screened or otherwise obscured.</p> <p>4f. The Panel noted the waste management has been considered.</p> <p>4g. The Panel noted the circulation areas are generous.</p>	<p>4a – Noted</p> <p>4b – The applicant has proposed manual roller doors to all stores as requested by the DRP.</p> <p>4c – Noted, the City has recommended a condition for a Stormwater Plan be prepared and submitted to the City for approval prior to lodging for a Building Permit.</p> <p>4d – The roof is accessible from the external ladder for maintenance purposes.</p> <p>4e – All habitable rooms are provided with a minimum of one major opening. Windows are provided with various screening elements to restrict direct overlooking of neighboring properties.</p> <p>4f – Noted</p> <p>4g - Noted</p>

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 5 - Sustainability	<i>Good design optimises the sustainability of the built environment, delivering positive environmental, social and economic outcomes.</i>	

Attachment 12.1.4 Attachment 4 - Design Review Panel Response

	<p>5a. The Panel supported natural cross ventilation for all apartments.</p> <p>5b. The Panel noted that there are no solely south-facing apartments.</p> <p>5c. The Panel supported the allowance for bike parking.</p> <p>5d. The Panel recommends the development of a sustainability strategy and suggested engaging with an ESD consultant.</p> <p>5e. The Panel suggested providing individual EV charging points compared to shared ones.</p> <p>5f. The Panel suggested allowance for future integration of batteries.</p> <p>5g. The Panel suggested more recycled/recyclable materials to be more sustainable.</p>	<p>5a – Noted</p> <p>5b – Noted</p> <p>5c – noted</p> <p>5d – The City has recommended a Sustainability Report be prepared to the satisfaction of the City prior to lodging a Building Permit, and for its implementation prior to occupation. The report shall include the proposed sustainability incentives.</p> <p>5e – The applicant has proposed EV charging at the ground floor.</p> <p>5f – Noted, this would be subject to a separate future development application.</p> <p>5g – Refer to point 5d. This will be incorporated into the future Sustainability Report.</p>
--	--	--

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 6 - Amenity	<i>Good design optimises internal and external amenity for occupants, visitors and neighbours, providing environments that are comfortable, productive and healthy.</i>	
	<p>6a. The Panel noted good access to light and ventilation.</p> <p>6b. The Panel supported the generous room sizes and supports the outlook from the windows.</p> <p>6c. The Panel noted the living areas are tight on the widths but more generous in length.</p> <p>6d. The Panel suggested adding dimensions to balconies to confirm sizes.</p> <p>6e. The Panel suggested adding a side window to B2 Apartments 7 and 11 as per Apartment 3.</p>	<p>6a – Noted</p> <p>6b – Noted</p> <p>6c – Noted, the proposed room and apartment dimensions are compliant with the requirements of the R-Codes Volume 2.</p> <p>6d – The City has assessed the balcony sizes against the R-Codes Volume 2. The proposed balconies are compliant with the requirements of the R-Codes.</p> <p>6e – The applicant has included the side window to apartments 7 and 11 as requested by the DRP.</p>

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 7 - Legibility	<i>Good design results in buildings and places that are legible, with clear connections and easily identifiable elements to help people find their way around.</i>	
	<p>7a. The Panel noted a clear line of sight to the front door.</p> <p>7b. The Panel supported the pedestrian access separate from vehicle access.</p> <p>7c. The Panel supported the ground floor apartment having its own entrance.</p> <p>7d. The Panel supports the dropped ceiling in the carpark to indicate the entrance.</p> <p>7e. The Panel noted that the car park layout is simple.</p> <p>7f. The Panel supported the choice of a lift or stairs in the lobby.</p> <p>7g. The Panel noted the entry sequence could be further strengthened – consider extending the pergola to the street and lengthening the Internal corridor to move the door closer to the street.</p>	<p>7a – Noted</p> <p>7b – Noted</p> <p>7c – Noted</p> <p>7d – Noted</p> <p>7e – Noted</p> <p>7f – noted</p> <p>7g – The applicant has extended the pergola to the street as per the DRP comments.</p>

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 8 - Safety	<i>Good design optimises safety and security, minimising the risk of personal harm and supporting safe behaviour and use.</i>	
	<p>8a. The Panel noted passive surveillance of the street from all levels.</p> <p>8b. The Panel supports the use of lighting.</p> <p>8c. The Panel noted sightlines appear to be okay.</p>	<p>8a – Noted</p> <p>8b – Noted</p> <p>8c - Noted</p>

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 9 - Community	<i>Good design responds to local community needs as well as the wider social context, providing environments that support a diverse range of people and facilitate social interaction.</i>	

Attachment 12.1.4 Attachment 4 - Design Review Panel Response

	<p>9a. The Panel supports the first floor having a high-quality passive landscape space for residents, however, a Landscape Architect should be engaged to further refine the design for this area.</p> <p>9b. The Panel suggested that the requirements for public art are checked.</p> <p>9c. The Panel supports the entrance to the units from the communal space.</p> <p>9d. The Panel suggested considering moving the seating/gathering area in the first floor courtyard closer to the side boundary or other means to enhance the privacy for the adjacent apartments in addition to appropriate landscaping.</p>	<p>9a – Noted, Refer to point 2a.</p> <p>9b – The City's Local Planning Policy No. 11 only applies for where the developments value is over \$4.5 million. Therefore, there is no proposed public art requirement.</p> <p>9c – Noted.</p> <p>9d – The applicant has amended the seating within the first floor courtyard as per the DRP's recommendation.</p>
--	---	---

	<i>Design Review Panel Comments</i>	<i>Planning Officer Comments</i>
Principle 10 Aesthetics	<i>Good design is the product of a skilled, judicious design process that results in attractive and inviting buildings and places that engage the senses.</i>	
	<p>10a. The Panel supports the aesthetics but suggested reviewing the singular cladded frame on the front elevation.</p> <p>10b. The Panel suggested adjusting material and colours, based on surrounding buildings to reinforce the character of the place.</p> <p>10c. The Panel suggested enhancing the central section of the front elevation.</p> <p>10d. The Panel suggested using materials like face brick to the ground floor to reflect local context and character.</p> <p>10e. The Panel suggested reconsidering the use of 'black' at ground floor level to reduce its oppressive nature and enhance the presence of the ground floor unit.</p> <p>10f. The Panel suggested considering the visual impact for apartments overlooking the metal deck roof.</p>	<p>10a – The applicant has amended the front façade as per the DRP comments</p> <p>10b – Refer to point 1c</p> <p>10c – The applicant has amended the front façade which has removed the central blank walls, and replaced with major openings fronting the street.</p> <p>10d – The applicant has included brick façade on the ground floor as per the DRP's comments.</p> <p>10e – the applicant has selected lighter colours at the ground floor as per the DRP's comments.</p> <p>10f – The proposal has maintained the proposed window and roof arrangement.</p>

	030 ps	10	Zamia furfuracea	Native cedar	140m	

LANDSCAPE LEGEND

Landscape Works

1. All areas are to be fine graded evenly to match kerb levels and surrounding finishes.
2. Surfaces must be free from depressions, irregularities, and noticeable changes in grade. Levels should not deviate more than 20mm over one linear metre.

Soil Preparation

1. All planting areas to be spread with a minimum of 30mm of approved standard soil conditioner, ripped into existing soil to a minimum depth of 200mm.
2. Turf areas to be evenly spread with 30mm of approved standard soil conditioner, ripped into the existing site soil to a depth of 100mm.

Planting

1. All planted areas to be mulched with organic coarse bark chip mulch to a minimum depth of 100mm, unless otherwise specified.
2. Advanced trees to be staked with 50 x 50mm hardwood posts, painted black, and installed to a minimum depth of 500mm. Trees to be secured with rubber ties in a figure-eight configuration.
3. Trees planted within 1000mm of boundary walls or parking areas to be installed with 600mm deep Nylex root barrier membrane, as per manufacturer's specifications.
4. Planting setout to be verified by the superintendent before installation begins.

Irrigation

1. All planting and turf areas to be irrigated via a fully automatic system from mains supply.
2. All shrubs and groundcovers to be irrigated via subsurface drip irrigation.
3. All trees to be irrigated via bubblers, with one to three bubblers per tree depending on size.
4. Turf to be irrigated via articulated risers.
5. Sleeves beneath paved surfaces to be provided by others.
6. Irrigation controller to be located in store room unless otherwise noted.
7. System to operate via dual program, allowing separate schedules for turf and planted areas.
8. Hydrozoning principles to be applied, with stations calibrated to plant water demand.
9. Smart irrigation system to include soil moisture and rain sensors, with automatic response to moisture levels and weather.
10. Passive irrigation principles to be incorporated, directing stormwater to gardens before drainage.
11. Watering schedules to be programmed in accordance with council guidelines.

General

1. All dimensions are in millimetres unless otherwise noted.
2. Scales as noted and based on A1 sheet size.
3. Drawings to be read in conjunction with all relevant schedules, reports, specifications, and project documentation.
4. Refer to associated documentation (by others) for finished levels, planter heights, drainage design, and water connection points.

PLANT IMAGES

City of Belmont
AMENDED PLANS
RECEIVED 22/08/2025
Application No: 428/2024

NOTES:
*This is not a working drawing & further structural drawings may be required.
*All dimensions & levels to be checked on site prior to construction. If no survey has been undertaken, all measurements must be taken from building at set out. Some minor adjustments may be required depending on material sizes selected.
*All landscape works are to be in compliance with Council & State Regulations & in accordance with Australian Standards. The client in conjunction with the installing Landscaper, is responsible for obtaining plans for Council approval.
*All plants are selected by a qualified Landscape Architect, but may be subjected to extreme weather conditions, severe drought, pests & diseases. Therefore no warranty is offered for the success of a specified planting.
*Maintenance specifications that all trees should be root banded, however tree growth can be unpredictable & no warranty will be offered for any future damage to buildings, pools, footings, or paving by selected trees.
CONDITIONS:
*Naturesque owns the copyright of this design. No part of the plan may be reproduced without permission & photographs used for promotional & commercial purposes, must credit Naturesque as the designer of the landscape.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

1 Introduction

This Transport Impact Statement has been prepared by Urbii on behalf of Mark Anthony Design with regards to the proposed residential development, located at 26 Beverley Rd, Cloverdale.

The subject site is situated on the south-eastern side of Beverley Road, near the intersection with Fisher Street, as shown in Figure 1. The site presently accommodates a residential dwelling (Figure 2) and is surrounded by a mix of residential, commercial and retail land uses. Belmont Forum is accessible within 300m walking distance to the west.

It is proposed to develop the site into a residential development, delivering 13 apartment units.

The key issues that will be addressed in this report include the traffic generation and distribution of the proposed development, access and egress movement patterns, car parking and access to the site for alternative modes of transport.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 248/2024

2 Scope of work

The WAPC *Transport Assessment Guidelines 2016* identifies the proposed development as being “low impact” (Figure 3). A Transport Impact Statement (TIS) has been prepared to support a robust Development Application and to assist the LGA with demonstration of traffic impact.

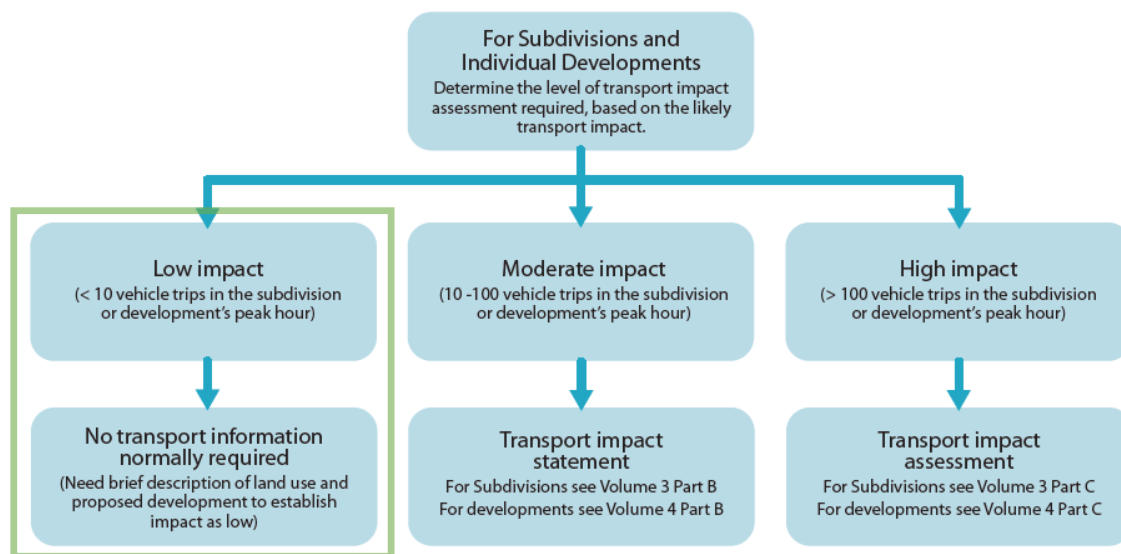

Figure 3: WAPC Transport Assessment Guidelines – reporting requirements

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

3 Proposed development

The proposal for the subject site is for a multiple dwelling residential development, comprising:

- A total of 13 residential dwellings;
- 12 resident car parking bays (one bay per unit);
- 4 visitor car parking bays;
- 8 bicycle parking spaces for the shared use of residents and visitors; and,
- A centralised bin store for the development.

Vehicle access to the site is proposed via one crossover on Beverley Road. Bins will be wheeled out from the communal bin store for collection from the verge.

People walking and cycling will access the development from the external path network abutting the site.

The proposed development plans are included for reference in Appendix A.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

4 Vehicle access and parking

4.1 Vehicle access

The proposed vehicular access arrangements have been reviewed for efficient and safe traffic circulation.

4.1.1 Existing vehicle access

Existing vehicle access to the site is via one crossover on Beverley Road (Figure 4).

Figure 4: Existing site crossover on Beverley Road

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

4.1.2 Proposed vehicle access

As detailed in the proposed development plans and in Figure 5, it is proposed to relocate the existing crossover to the middle of the site. The driveway is 6m wide, which is sufficient for two-way traffic flow.

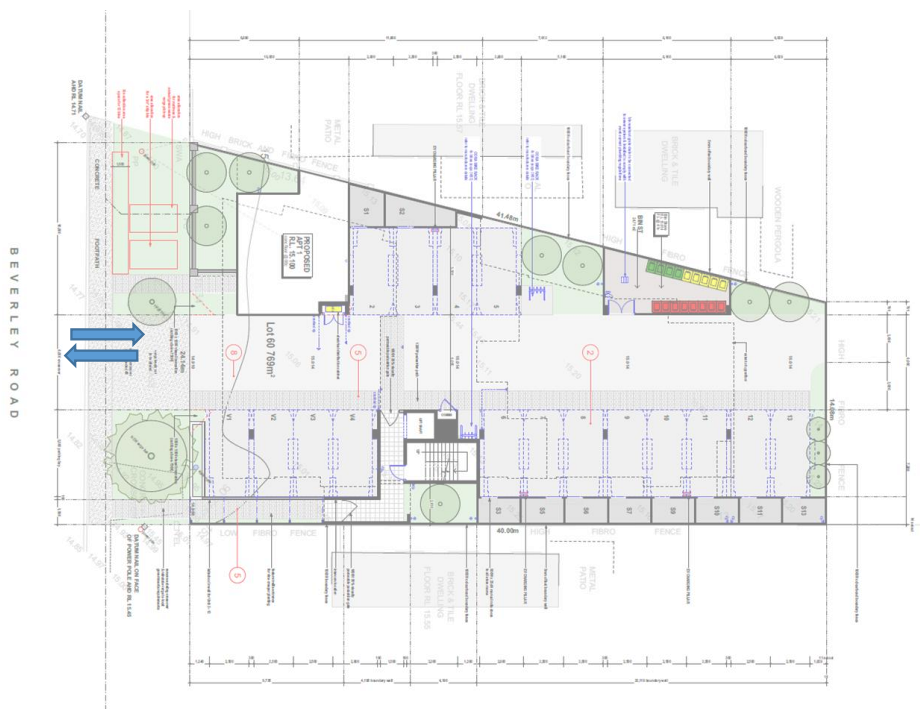

Figure 5: Proposed vehicle access

4.2 Parking supply

The proposed development provides the following parking allocation:

- 12 car parking spaces for residents.
- 4 car parking spaces provided onsite for visitors.

The proposed car parking supply is sufficient to meet the needs of the development and is compliant with the requirements of R-Codes.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

5 Provision for service vehicles

The proposed development is residential in nature and will not generate significant delivery and other service vehicle traffic. Bins will be wheeled out from the centralised bin store for waste collection from Beverley Road.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

6 Hours of operation

For most residential developments, the peak traffic hours typically coincide with the weekday commuter AM and PM peak hours on the surrounding road network.

The weekday AM peak hour in the Perth Metropolitan Area usually occurs between 7am to 9am and the weekday PM peak hour occurs between 4pm to 6pm. The peak hours for the proposed development are anticipated to coincide with these times.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

7 Daily traffic volumes and vehicle types

7.1 Traffic generation

The traffic volume that will be generated by the proposed development has been estimated using trip generation rates derived with reference to the following sources:

- RTA *Guide to Traffic Generating Developments (2002)*;
- RTA TDT 2013/ 04a; and
- RTA NSW *Guide to Transport Impact Assessment 2024*.

The trip generation rates adopted are detailed in Table 1.

Table 1: Adopted trip rates for traffic generation

Land use	Trip rate source	Daily rate	AM rate	PM rate	AM-in	AM-out	PM-in	PM-out
Residential	RTA NSW - Medium density residential building	5	0.5	0.5	25%	75%	65%	35%

The estimated traffic generation of the proposed development is detailed in Table 2. The proposed development is estimated to generate a total of 65 vehicles per day (vpd), with 7 vehicles per hour (vph) generated during the AM and PM peak hours, respectively.

These trips include both inbound and outbound vehicle movements. It is anticipated that most of the vehicle types would be passenger cars and SUVs.

Table 2: Traffic generation – Weekday AM and PM peak hours

Land use	Quantity	Daily Trips	AM Trips	PM Trips	AM Peak Trips		PM Peak Trips	
					IN	OUT	IN	OUT
Residential	13	65	7	7	2	5	5	2

13

7.2 Impact on surrounding roads

The WAPC Transport Impact Assessment Guidelines for Developments (2016) provides the following guidance on the assessment of traffic impacts:

“As a general guide, an increase in traffic of less than 10 percent of capacity would not normally be likely to have a material impact on any particular section of road but increases over 10 percent may. All sections of road with an increase greater than 10 percent of capacity should therefore be included in the analysis. For ease of assessment, an increase of 100 vehicles per hour for any lane can be considered as equating to around 10 percent of capacity. Therefore, any section of road where development traffic would increase flows by more than 100 vehicles per hour for any lane should be included in the analysis.”

The proposed development will not increase traffic flows on any roads adjacent to the site by the quoted WAPC threshold of +100vph to warrant further analysis. Therefore, the impact on the surrounding road network is acceptable.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

8 Traffic management on the frontage roads

Information from online mapping services, Main Roads WA, Local Government, and/or site visits was collected to assess the existing traffic management on frontage roads.

8.1.1 Beverley Road

Beverley Road near the subject site is an approximately 7m wide, two-lane undivided road. A footpath for walking and cycling is provided along the south-eastern side of the road.

Beverley Road is classified as an Access road in the Main Roads WA road hierarchy (Figure 6) and operates under a speed limit of 50km/h (Figure 7). Access roads are the responsibility of Local Government and are for the provision of vehicle access to abutting properties. (Figure 8).

No traffic data was available at the time of preparation of this report. However, access roads typically carry under 3,000 vehicles per day.

Attachment 12.1.6 Attachment 6 - Transport Impact Statement

ROAD HIERARCHY FOR WESTERN AUSTRALIA						
ROAD TYPES AND CRITERIA (see Note 1)						
CRITERIA	PRIMARY DISTRIBUTOR (PD) (see Note 2)	DISTRICT DISTRIBUTOR A (DA)	DISTRICT DISTRIBUTOR B (DB)	REGIONAL DISTRIBUTOR (RD)	LOCAL DISTRIBUTOR (LD)	ACCESS ROAD (A)
Primary Criteria						
1. Location (see Note 3)	All of WA incl. BUA	Only Built Up Area.	Only Built Up Area.	Only Non Built Up Area. (see Note 4)	All of WA incl. BUA	All of WA incl. BUA
2. Responsibility	Main Roads Western Australia.	Local Government.	Local Government.	Local Government.	Local Government.	Local Government.
3. Degree of Connectivity	High. Connects to other Primary and Distributor roads.	High. Connects to Primary and/or other Distributor roads.	High. Connects to Primary and/or other Distributor roads.	High. Connects to Primary and/or other Distributor roads.	Medium. Minor Network Role Connects to Distributors and Access Roads.	Low. Provides mainly for property access.
4. Predominant Purpose	Movement of inter regional and/or cross town/city traffic, e.g. freeways, highways and main roads.	High capacity traffic movements between industrial, commercial and residential areas.	Reduced capacity but high traffic volumes travelling between industrial, commercial and residential areas.	Roads linking significant destinations and designed for efficient movement of people and goods between and within regions.	Movement of traffic within local areas and connect access roads to higher order Distributors.	Provision of vehicle access to abutting properties
Secondary Criteria						
5. Indicative Traffic Volume (AADT)	In accordance with Classification Assessment Guidelines.	Above 8 000 vpd	Above 6 000 vpd.	Greater than 100 vpd	Built Up Area - Maximum desirable volume 6 000 vpd. Non Built Up Area - up to 100 vpd.	Built Up Area - Maximum desirable volume 3 000 vpd. Non Built Up Area - up to 75 vpd.
6. Recommended Operating Speed	60 – 110 km/h (depending on design characteristics).	60 – 80 km/h.	60 – 70 km/h.	50 – 110 km/h (depending on design characteristics).	Built Up Area 50 - 60 km/h (desired speed) Non Built Up Area 60 – 110 km/h (depending on design characteristics).	Built Up Area 50 km/h (desired speed). Non Built Up Area 50 – 110 km/h (depending on design characteristics).
7. Heavy Vehicles permitted	Yes.	Yes.	Yes.	Yes.	Yes, but preferably only to service properties.	Only to service properties.
8. Intersection treatments	Controlled with appropriate measures e.g. high speed traffic management, signing, line marking, grade separation.	Controlled with appropriate measures e.g. traffic signals.	Controlled with appropriate Local Area Traffic Management.	Controlled with measures such as signing and line marking of intersections.	Controlled with minor Local Area Traffic Management or measures such as signing.	Self controlling with minor measures.
9. Frontage Access	None on Controlled Access Roads. On other routes, preferably none, but limited access is acceptable to service individual properties.	Prefer not to have residential access. Limited commercial access, generally via service roads.	Residential and commercial access due to its historic status. Prefer to limit when and where possible.	Prefer not to have property access. Limited commercial access, generally via lesser roads.	Yes, for property and commercial access due to its historic status. Prefer to limit whenever possible. Side entry is preferred.	Yes.
10. Pedestrians	Preferably none. Crossing should be controlled where possible.	With positive measures for control and safety e.g. pedestrian signals.	With appropriate measures for control and safety e.g. median/islands refuges.	Measures for control and safety such as careful siting of school bus stops and rest areas.	Yes, with minor safety measures where necessary.	Yes.
11. Buses	Yes.	Yes.	Yes.	Yes.	Yes.	If necessary (see Note 5)
12. On-Road Parking	No (emergency parking on shoulders only).	Generally no. Clearways where necessary.	Not preferred. Clearways where necessary.	No – emergency parking on shoulders – encourage parking in off road rest areas where possible.	Built Up Area – yes, where sufficient width and sight distance allow safe passing. Non Built Up Area – no. Emergency parking on shoulders.	Yes, where sufficient width and sight distance allow safe passing.
13. Signs & Linemarking	Centrelines, speed signs, guide and service signs to highway standard.	Centrelines, speed signs, guide and service signs.	Centrelines, speed signs, guide and service signs.	Centrelines, speed signs and guide signs.	Speed and guide signs.	Urban areas – generally not applicable. Rural areas - Guide signs.
14. Rest Areas/Parking Bays	In accordance with Main Roads' Roadside Stopping Places Policy.	Not Applicable.	Not Applicable.	Parking Bays/Rest Areas. Desired at 60km spacing.	Not Applicable.	Not Applicable.

AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024**

9 Public transport access

Information was collected from Transperth, PTA and site visits to assess the existing public transport access to and from the site.

The subject site has access to the following bus service within 400m walking distance of the site, as detailed in Table 3:

Table 3: Public transport routes

Route Number	Route Description
37	Airport Central Stn - Oats Street Stn via Belmont Forum Shop Ctr (Figure 9)
38	Perth – Cloverdale via Shepperton Rd & Carlisle Stn & Belmont Forum (Figure 9)
39	Perth - Redcliffe Stn via Star St & Belmont Forum (Figure 9)
270	High Wycombe Stn - Perth via Kewdale & Belmont Forum Shop Ctr (Figure 10)
284	Belmont Forum Shop Ctr - Curtin University via Carlisle Stn & Albany Hwy (Figure 11)
285	Oats St Stn to Kewdale via Orrong Rd (Figure 11)
293	Redcliffe Stn - High Wycombe Stn via Abernethy Rd & Belmont Forum (Figure 12)
935 (High Freq)	Redcliffe Stn - Kings Park via Belmont Forum Shop Ctr & Perth (Figure 13)
998 (High Freq)	CircleRoute – Clockwise (Figure 14)
999 (High Freq)	CircleRoute - Anti-Clockwise (Figure 14)

Public transport services provide a viable alternative mode of transport for residents and visitors of the proposed development. Bus services provide excellent coverage and connectivity to the rail network. A number of bus services are high frequency, with access to the circle routes within walking distance of the site.

10 Pedestrian access

Information from online mapping services, Main Roads WA, Local Government, and site visits was collected to assess the pedestrian access for the proposed development.

10.1 Pedestrian facilities and level of service

A footpath is provided on the south-eastern side of Beverley Road adjacent to the subject site. Pedestrian crossing facilities, including kerb ramps are provided at nearby intersections, which promote improved access for bicycles, wheelchairs, and prams.

The WAPC Transport Impact Assessment Guidelines for Developments (2016) provide warrants for installing pedestrian priority crossing facilities. This is based on the volume of traffic as the key factor determining if pedestrians can safely cross a road. The guidelines recommend pedestrian priority crossing facilities be considered once the peak hour traffic exceeds the volumes detailed in Table 4.

The traffic volumes in this table are based on a maximum delay of 45 seconds for pedestrians, equivalent to Level of Service E. The pedestrian crossing facilities on adjacent roads near the site are sufficient and within the traffic volume thresholds.

Table 4: Traffic volume thresholds for pedestrian crossings

Road cross-section	Maximum traffic volumes providing safe pedestrian gap
2-lane undivided	1,100 vehicles per hour
2-lane divided (with refuge)	2,800 vehicles per hour
4-lane undivided*	700 vehicles per hour
4-lane divided (with refuge)*	1,600 vehicles per hour

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

11 Bicycle access

Information from online mapping services, Department of Transport, Local Government, and/or site visits was collected to assess bicycle access for the proposed development.

11.1 Bicycle network

The Perth and Peel Long Term Cycle Network (LTCN) designates routes by their function, rather than built form. Function considers the type of activities that take place along a route, and the level of demand (existing and potential). The built form of a route is based on the characteristics of the environment, including space availability, topography, traffic conditions (speed, volumes), and primary users. The cycling network hierarchy is described in Figure 15.

	1. PRIMARY ROUTE	2. SECONDARY ROUTE	3. LOCAL ROUTE
Function	Primary routes are high demand corridors that connect major destinations of regional importance. They form the spine of the cycle network and are often located adjacent to major roads, rail corridors, rivers and ocean foreshores. Primary routes are vital to all sorts of bike riding, including medium or long-distance commuting / utility, recreational, training and tourism trips.	Secondary routes have a moderate level of demand, providing connectivity between primary routes and major activity centres such as shopping precincts, industrial areas or major health, education, sporting and civic facilities. Secondary routes support a large proportion of commuting and utility type trips, but are used by all types of bike riders, including children and novice riders.	Local routes experience a lower level of demand than primary and secondary routes, but provide critical access to higher order routes, local amenities and recreational spaces. Predominantly located in local residential areas, local routes often support the start or end of each trip, and as such need to cater for the needs of users of all ages and abilities.
Design Philosophy	An <u>all ages and abilities</u> design philosophy is about creating places and facilities that are safe, comfortable and convenient for as many people as possible. By planning for and designing infrastructure that caters for the youngest and most vulnerable users, we create a walking and bike riding network that everyone can use. At the heart of this approach is fairness and enabling all people to use the network regardless of age, physical ability or the wheels they use.		
Form	All routes can take a number of different forms and are designed to suit the environment in which they are located. These forms include: <ul style="list-style-type: none"> • Bicycle only, shared and/or separated paths; • Protected bicycle lanes (uni or bi-directional, depending on the environment); and • Safe active streets Principal Shared Paths (PSPs) are often built along primary routes. A PSP is a high quality shared path built to MRWA PSP standard which generally means the path will be 4m wide, have adequate lighting and be grade separated at intersections (where possible). In some locations, quiet residential streets incorporating signage and wayfinding may be appropriate for local routes.		

Figure 15: Western Australian Cycling Network Hierarchy

The Long-Term Cycle Network plan is detailed in Figure 16. Beverley Road does not form part of the LTCN. People can cycle on the road and less confident people can legally cycle on the footpath.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

11.2 Sustainable transport catchment

As detailed in Figure 18, the subject site is well placed for residents and visitors to travel by sustainable modes of transport. A comfortable 8km or 20-25min cycle will provide the development with a large catchment.

This range can be further increased through a combination of micro-mobility and train travel with close access to train stations.

Figure 18: Cycling and micro-mobility catchment

City of Belmont

12 Site specific issues

No additional site-specific issues were identified within the scope of this assessment.

City of Belmont
AMENDED PLANS
RECEIVED 11/08/2025
Application No: 428/2024

13 Safety issues

The five-year crash history in the vicinity of the site was obtained from Main Roads WA. As detailed in Figure 19, 2 crashes were recorded in the locality in the last five years. The detailed crash history is presented in Table 5.

The low traffic generation of the proposed development is unlikely to impact traffic safety in the area.

14 Conclusion

This Transport Impact Statement has been prepared by Urbii on behalf of Mark Anthony Design with regards to the proposed residential development, located at 26 Beverley Rd, Cloverdale.

The subject site is situated on the south-eastern side of Beverley Road, near the intersection with Fisher Street. The site presently accommodates a residential dwelling and is surrounded by a mix of residential, commercial and retail land uses.

It is proposed to develop the site into a residential development, delivering 13 apartment units.

The site features good connectivity with the existing road, walking and cycling network. There is good public transport coverage through nearby bus services which connect to the rail network.

The car parking supply is satisfactory and can accommodate the car parking demand of the proposed development.

The traffic analysis undertaken in this report shows that the traffic generation of the proposed development is minor (less than 10vph on any lane) and as such would have a minor impact on the surrounding road network.

It is concluded that the findings of this Transport Impact Statement are supportive of the proposed development.

CITY OF BELMONT

Waste Management Plan

Multi-Dwelling Development
26 Beverley Road, Cloverdale

Prepared By Mark Anthony Design
13th May 2024

TABLE OF CONTENTS

1.0 OBJECTIVE AND BACKGROUND	2
1.1 OBJECTIVE	2
1.2 BACKGROUND	2
2.0 WASTE MANAGEMENT PLAN COMMUNICATION	3
2.1 CONSTRUCTION	3
2.2 OCCUPATION	3
3.0 WASTE MANAGEMENT PLAN	4

3.2.2 OCCUPATION	4
3.3 STORAGE REQUIREMENTS	5
3.3.1 BINS STORE AREA	5
3.4 WASTE SOURCE AND GENERATION VOLUMES	6
3.4.1 RESIDENTIAL WASTE CALCULATIONS	6
3.5 MOVEMENT OF WASTE	7
4.0 WASTE MANAGEMENT PLAN SUMMARY	7

1.0 OBJECTIVE AND BACKGROUND

1.1 OBJECTIVE

The CITY OF BELMONT requires a WASTE MANAGEMENT PLAN to be included as part of a development application. This WMP has been prepared to fulfil this condition.

The objective of this plan is to ensure that waste management is undertaken effectively, efficiently, and sustainably. Its purpose is to minimise the effects on the community and the environment during both construction and daily operation of the development. The WASTE MANAGEMENT PLAN has also been prepared to meet minimum legislative requirements.

The report addresses both design features and daily operational controls required to ensure that the plan can be implemented effectively and efficiently.

1.2 BACKGROUND

The owners have requested MARK ANTHONY DESIGN prepare a WASTE MANAGEMENT PLAN for the proposed Multiple Dwelling Development at 26 Beverley Road Cloverdale, the proposed development is located within the CITY OF BELMONT.

The building has been designed by MARK ANTHONY DESIGN and at the time of preparing this WASTE MANAGEMENT PLAN, the proposed development consisted of THIRTEEN (13) multiple dwellings with 4/1 bed x 1 bath & 9/2 bed x 2 bath units over FOUR (4) levels.

2.0 WASTE MANAGEMENT PLAN COMMUNICATION

2.1 CONSTRUCTION

As part of the construction phase, a waste management consultant will be appointed where all site and company waste management policies will be explained to sub-contractors during the contract negotiation stage, details on how compliance will be achieved will accompany documentation prepared for the building permit application.

The tendering of the building construction and tender assessment scoring will be weighted in favour of contractors with waste minimisation strategies, compliance will be managed by the project manager and the developer during the construction phase to ensure contractual obligations are met.

2.2 OCCUPATION

The occupants of the development will be made aware of this WASTE MANAGEMENT PLAN and their responsibilities, this document will be included in the handover pack given to owners at the time of purchase and/or lease.

Key objectives of the WASTE MANAGEMENT PLAN will be incorporated into the strata management statement to ensure waste management within the development functions effectively in perpetuity. The body corporate will be informed of their obligations within the strata management statement, ensuring the waste management practices described are conveyed to successive owners and/or tenants. This information will be included in any future sale contract and/or rental lease agreement of successive owners and/or tenants.

The body corporate's role also will be to continue to inform occupants of their obligations or any modifications to the waste management system approved by the CITY OF BELMONT.

WASTE MANAGEMENT PLAN

3.1 CITY OF BELMONT REQUIREMENTS

A summary of the CITY OF BELMONT minimum requirements relating to waste storage and collection within these residential buildings are:

- 1 Detailing on waste movement throughout the development.
- 2 Details if bins are to be shared, how and who will be responsible for presenting the bins on collection day.
- 3 Details on the estimated waste and recycling volumes generated per unit.
- 4 Details on the bin storage area and is it convenient and functional for the residents.
- 5 Details on where bins will be presented on the verge.

All relevant conditions are to be addressed to comply with the CITY OF BELMONT waste, planning and health department requirements.

3.2 WASTE DISPOSAL

3.2.1 CONSTRUCTION

During the construction phase a skip bin will be provided for the disposal of waste produced on site and serviced as required by appointed waste management contractor. Some waste management contractors provide on-site sorting and recycling to minimise landfill waste, these waste management contractors will be selected during the construction phase where practical and subcontractors will be responsible for pre-sorting waste products into the appropriate bins where possible to reduce overall construction costs. The sorting will be supervised by the site management and subcontractors will be encouraged to use products that can be reused and/or easily sorted prior to landfill.

Wastewater generated during the washing down and/or clean-up of equipment used for brickwork construction and plastering has the potential to be high in PH and therefore be toxic to aquatic flora and fauna, to minimize the impacts associated with the clean-up of such equipment the builder shall ensure that waste waters generated is disposed of in accordance with DEC guidelines this shall be communicated to all personnel during site induction meetings.

Used solvents and paints are to be stored with-in the site shed provided and removed by a licensed contractor as required, all excess lime or cement is to be removed by the contractor who brought it on to site.

All subcontractors will be notified of their responsibility to maintain site cleanliness and adhere to waste management policies during construction, these obligations will be included in all subcontractor contracts.

3.2.2 OCCUPATION

Waste generated by the residences will be separated into different waste types by the occupants within their units and transported by hand to the bin store which is located on the ground floor and placed in the relevant bin type RED for general waste YELLOW for recycling and GREEN for organic FOGO. The building caretaker will be responsible for managing the bins within the bin storage area ensuring that one bin is full before the next one is used. The buildings caretaker will also be responsible for the presentation of full bins on collection day to the allocated bin presentation area located on the verge. The CITY OF BELMONT waste collection services will empty the bins via trucks where it is removed for processing at their waste disposal site.

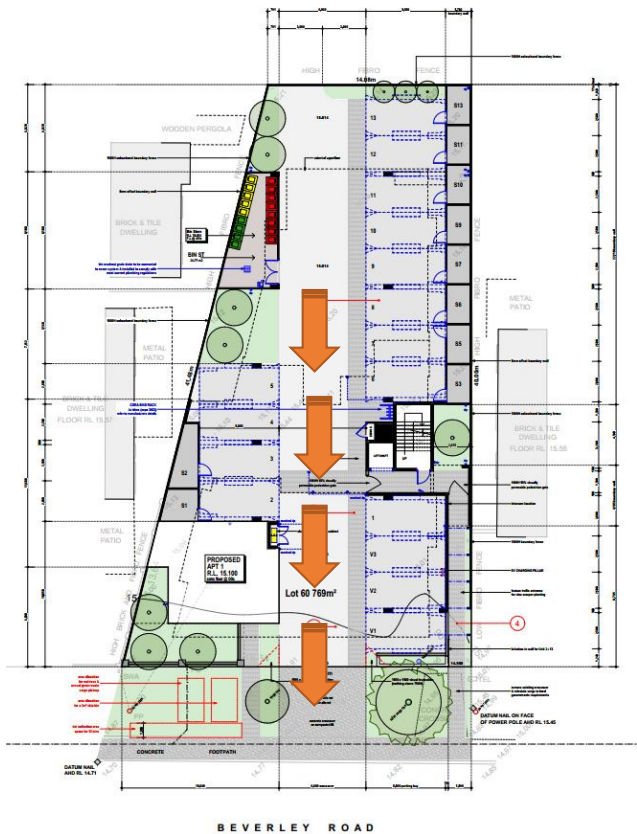

3.3 STORAGE AREA REQUIREMENTS

The CITY OF BELMONT has indicated that the bin storage areas at this development must be adequate 'to contain all waste and recycled material generated on the premises for at least 1 week'.

The following statements and calculations have been made with this condition in mind.

3.3.1 BIN STORAGE AREA

The building enclosed bin storage area is located on the ground floor see drawings below.

The buildings bin store will be predominantly constructed of masonry brickwork have a floor constructed min. 100mm thick concrete slab floor graded to a floor waste drain connected to the building sewer system. A water hose cock will be installed within to facilitate the wash-out of bins and bin store area with masonry brick walls sealed and rendered to facilitate the bin stores maintenance.

The bin store located on the ground floor accessed from the main car parking/communal area which is well lit and ventilated. The buildings caretaker will be responsible for the washing of waste and recycling the containers and be responsible for the bin store maintenance.

3.4 WASTE SOURCES AND GENERATION VOLUMES

This section shows how the development will deal with the following requirements specified by the CITY OF BELMONT where an adequate storage space shall be provided to contain all waste and recycled material generated on the premises for at least ONE (1) calendar week where the minimum area shall be at least 1 square meter per residential unit.

3.4.1 RESIDENTIAL WASTE CALCULATIONS

Residential Waste Calculations				
General Waste (RED LID)		Approx. General Waste produced	Bin Capacity Required	Bin Capacity Provided
4/ 1B x 1B	80L/week	320L/week		
9/ 2B x 2B	160L/week	1440L/week		
Total		1760L/week	8 bins @ 240L/per fortnight	8 bins @ 240L
Recycled Waste (YELLOW LID)		Approx. Recycled Waste produced		
4/ 1B x 1B	40L/per fortnight	160L/per fortnight		
9/ 2B x 2B	80L/per fortnight	720L/per fortnight		
Total		880L/per fortnight	4 bins @ 240L/per fortnight	4 bins @ 240L
Organic/Food Waste (GREEN LID FOGO)		Approx. Recycled Waste produced		
4/ 1B x 1B	40L/per fortnight	160L/per fortnight		
9/ 2B x 2B	80L/per fortnight	720L/per fortnight		
Total		880L/per fortnight	4 bins @ 240L/per fortnight	4 bins @ 240L

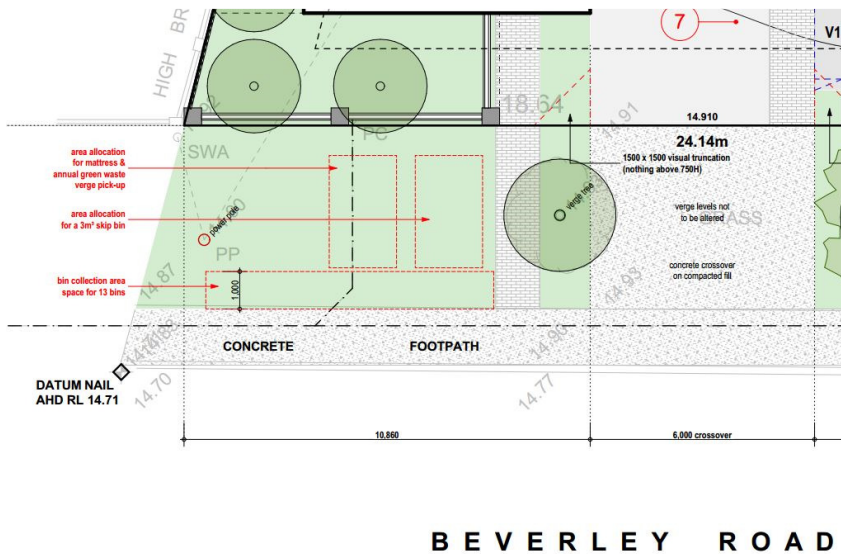

Source: WALGA – Multiple Dwelling Waste Management Appendix 1 Waste Generation Rates

3.5 MOVEMENT OF WASTE

The plans below illustrate that a clear path of travel is possible for the building caretaker to take the full bins from the bins store to verge along BEVERLEY ROAD where bins are to be presented on the sites allocated collection day.

The bin storage area is located well away and not visible from the street and convenient located for the residents to use.

The plans indicated that the verge area where the bin will be presentation is sufficient for 4x 240L GREEN LID FOGO for weekly collection & 8x 240L RED LID GENERAL WASTE or 4 x 240L YELLOW RECYCLABLES on alternating weeks for collection, furthermore 2 areas of 3m x 2m in size has been illustrated where a 3m² skip bin & mattress and/or annual green waste verge pick-up can be placed for council collection.

4.0 WASTE MANAGEMENT PLAN SUMMARY

This WASTE MANAGERMENTS PLAN demonstrated that there is enough bin capacity and space for the bins to be stored and collected for the building waste generated to be taken off the site effectively, efficiently, and sustainably.

The proposed strata management statement will form part of the strata title for this development, this Waste MANAGEMENT PLAN will be incorporated into the document and any changes to the Waste MANAGEMENT PLAN must be approved by the CITY OF BELMONT prior to adopting.

12.2 Community Service Awards 2025

Voting Requirement	:	Simple Majority
Subject Index	:	74/010
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	28 July 2015 Ordinary Council Meeting Item 10.2
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Development and Communities

Council role

Overseeing Overseeing the allocation of the City's finances and resources e.g. setting the annual budget, accepting tenders, determining what services and facilities the City is to provide, annual reports, selecting the CEO and reviewing the CEO's performance.

Purpose of report

For Council to approve the recommendation made by the Assessment Panel regarding the 2025 Community Service Award nominations.

Summary and key issues

The City's Community Service Awards are intended to acknowledge the outstanding service given to the community by individual persons and community groups.

A total of eight nominations were received - two nominations were for the same person. Nominations were assessed by a panel comprising the Mayor, Acting Chief Executive Officer, Acting Director Development and Communities and the Manager Economic and Community Development.

Nominees and their individual scores are captured in Confidential Attachment 12.2.2.

Officer Recommendation

That Council endorses the recipients of the 2025 Community Service Awards as detailed in Confidential Attachment 12.2.2 and that the names of the recipient's remain confidential until presented at the Civic Dinner scheduled for Saturday, 6 December 2025.

Location

Not applicable.

Consultation

Internal

The internal Assessment Panel met to review nominations and make a recommendation on award recipients.

External

The call for nominations was promoted throughout May and June 2025 via the City of Belmont website and social media channels, as well as PerthNow and email. Hard copies of Guidelines and Nomination Forms were distributed to relevant networks and groups such as the City's Advisory Groups.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: People

Outcome: 2. A strong sense of pride, belonging and creativity.

Outcome: 3. People of all ages and abilities feel connected and supported.

Policy implications

There is no policy implications associated with this report.

Statutory environment

There are no specific statutory requirements in respect to this matter.

Background

The Community Service Awards were initiated in 1977 to recognise and acknowledge services performed by community members and organisations, with five people receiving the inaugural Award. From 1977 to 2024, there have been 120 awards presented with four recipients receiving the award twice.

Most of the awards have been presented to individuals with only three organisations receiving the Award, those being Nulsen Haven (1982), Belmont Community Food Centre (2000) and Rotary Club of Belmont, WA (2024).

The following criteria are applied in considering nominations:

1. The contribution made should be of benefit to the citizens of the City of Belmont.
2. Remuneration of an incidental nature will not exclude a nominee from eligibility.
3. Nominations can be made in more than one category for any one nominee. Each nomination must be specific to the category for which the nomination has been submitted.

The following award categories have been defined to include people working in the separate areas of:

- **Aged:** This category applies to an individual/community group who contributes within the aged sector (i.e. pensioner groups, activities and services for seniors).
- **Community Service:** This category applies to an individual/community group who contributes within the community (i.e. emergency service volunteer, support personnel, religious organisations, culturally diverse communities, charity groups, schools).
- **People Who Make a Difference:** This category applies to an individual/community group who has made an exceptional impact, by going above and beyond their duties, and making a significant difference in their local community by assisting others.
- **Sport and Recreation (Including Arts and Culture):** This category applies to an individual/community group who contributes to organisations such as sporting and recreational clubs as well as arts and culture clubs and organisations.
- **Youth:** This category applies to an individual/community group who supports organisations such as girl guides, scouts, youth clubs, youth centres, schools etc.

Report

The assessment of the 2025 Community Service Awards was conducted using the selection criteria as resolved by the Council at its 28 July 2015 Ordinary Council Meeting (Item 10.2).

The Selection Panel comprised the Mayor, the Acting Chief Executive Officer, Acting Director Development and Communities and the Manager Economic and Community Development.

A list of 2025 nominees and categories is provided in Confidential Attachment 12.2.1 – 2025 Community Service Awards Nominations Summary.

The selection panel scoring matrix and recommendations are detailed in Confidential Attachment 12.2.2 – 2025 Community Service Awards Selection Panel Summary Scoring Matrix.

A list of previous nominees and recipients is provided under Confidential Attachment 12.2.3 – Community Service Awards - Record of Past Nominees, Recipients and Freeman.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

The City's Community Service Awards acknowledge the outstanding service given to the community by individual persons and community groups. The awards provide a sense of community and enhance the public image of Belmont. Further, the awards show public support for persons and community groups, further encouraging Civic participation and volunteering.

12.3 2025-26 October Budget Review

Voting Requirement	: Absolute Majority
Subject Index	: 54/004 Budget Documentation Council
Location/Property Index	: N/A
Application Index	: N/A
Disclosure of any Interest	: Nil
Previous Items	: N/A
Applicant	: N/A
Owner	: N/A
Responsible Division	: Corporate and Governance

Council role

Overseeing Overseeing the allocation of the City's finances and resources e.g. setting the annual budget, accepting tenders, determining what services and facilities the City is to provide, annual reports, selecting the CEO and reviewing the CEO's performance.

Purpose of report

The purpose of this report is to present the October 2025 Budget Review and to seek Council's authorisation of the proposed budget amendments arising from the review.

Summary and key issues

In keeping with sound financial management practices, a review of the 2025-26 Adopted Budget has been conducted to review carried forward items from 2024-25 and including other amendments.

Officer Recommendation

That Council, in accordance with *Local Government (Financial Management) Regulations 1996 (WA)* Regulation 33A, adopt the amendments contained in the 2025-26 October Budget Review (Attachment 12.3.1).

An absolute majority of Council is required

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter other than internal staff.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Regulation 33A of the *Local Government (Financial Management) Regulations 1996 (WA)* requires a local government to carry out a review of its budget between 1 January and the last day of February each year, report it to Council on or before 31 March, and then report the outcome of the review to the Department of Local Government Sport and Cultural Industries within 14 days.

Although this current budget review is not mandatory, it has been considered good financial practice to perform two budget reviews at the City. The second budget review will commence preparation in January and be reported to Council in March in line with statutory requirements.

Background

In keeping with the City's ongoing budget control and financial management, a number of adjustments are required to ensure the City's 2025-26 Budget is current and reflects all changes that are occurring. Since the detailed 2025-26 budget was prepared and adopted by Council in June 2025, the draft 2024-25 financial statements have been prepared and the carried forward figures and surplus amounts arising from the preparation of the financial statements can now be updated. It is important to note that the final position remains subject to completion of the financial audit currently underway.

The October Budget Review process is predominantly aimed at addressing the following issues:

- Decisions of Council requiring funding
- New items arising following the original budget adoption
- Updating of carry forward capital works
- Reviewing and updating the estimated opening surplus

Report

Opening Balance

As in previous Budget Reviews, one issue to be addressed relates to the estimated opening balance. The opening balance is predicted early in the budget process to enable budget preparation and rate modelling to proceed and is an estimate at that point in time. This surplus position is finalised when the audit of the financial statements has been completed.

The draft financial statements for 30 June 2025 have been completed, however the audit is expected to be completed at the end of November 2025 and at that stage the opening surplus will be confirmed. In the interim, the opening surplus has been updated based on the completion of the draft 2024-25 financial statements and will be further updated during the March 2026 budget review should further changes arise from the completion of the 2024-25 audit by the Office of the Auditor General.

The following table summarises the movement in the opening surplus position for this review:

Budgeted opening surplus	\$6,034,392
Decrease in opening surplus	\$5,473,434
Estimated opening surplus position	\$560,958

The decreased surplus is primarily attributable to the City's withdrawal from the EMRC and the related reduction in accounts receivable from \$21 million to \$15 million.

The surplus for the 2025-26 adopted budget remains unchanged at \$350,000.

Budget Amendments

The detail of the proposed budget review is included in the following documents:

- Statement of Financial Activity (Attachment 12.3.1); and

- Budgeted Reserve Balances for the year ending 30 June 2026 (Attachment 12.3.2).
- Detailed listing of changes (Attachment 12.3.3)

The updated Statement of Financial Activity at Attachment 12.3.2 compares the proposed October 2025 budget review to the adopted 2025-26 budget. A summary of the movements is as follows, with material adjustments included below.

Item	Movement
Budgeted closing surplus	\$350,000
Decreased opening surplus	(\$5,473,434)
Reduced revenue	(\$244,623)
Increased expense	(\$298,567)
Deferred capital grants	(\$459,285)
Increased capital expense	(\$2,106,212)
Increased reserve transfers	\$8,582,120
Closing surplus	\$350,000

Please note, the narration below adopts the term “K” as a substitute for the word/term thousands, so \$5,000 or \$5,323 would be summarised as \$5K.

Revenue from operating activities has decreased by \$245K, including the following amendments:

- Decreased interest revenue as a result of declining investment rates \$1.3 million
 - Increased rate revenue as a result of an increase in Airport valuation and interim rates received after budget preparation \$863K
 - Increased revenue as a result of on-charged credit card surcharge \$135K
- Expenditure from operating activities has increased by \$298K, including the following amendments:
- Reduction in employment costs \$570K
 - Increase in agency staffing costs \$279K
 - Increased credit card surcharge \$135K
 - Increase in costs associated with new initiatives \$95K
 - Increase in costs to deliver additional community event sessions \$57K

Amounts attributable to investing activities have increased by \$2.5 million including the following amendments:

- Budget relating to capital works not being completed prior to 30 June as budgeted (funded from carry forward works reserve):
 - Urban Greening costs for the Brearley Avenue Living Stream project \$697K
 - costs relating to IT Infrastructure \$530K
 - Esplanade Foreshore Stabilisation project costs as a result of contractor delays \$455K
 - fencing upgrade costs for Volcano Park as a result in material supply delays \$150K
 - LED street lighting costs for Ascot Waters installation \$120K
- Costs for various road and footpath projects following updated construction estimate and 2027-28 project design costs \$420K
- Costs relating to migration of City website \$110K
- Installation of new site main switch board for Centenary Park Hall \$50K

Amounts attributable to financing activities have been amended, with an overall transfer from reserves of \$ 2.7 million to be amended to an overall transfer from reserves of \$ 11.3 million. This adjustment is required to reallocate funds from reserve to municipal relating to clearing the equity entitlement from the City's withdrawal from the EMRC of \$5.7 million as well as to utilise funding set aside in reserve for projects not completed prior to 30 June.

Financial implications

The presentation of these reports to Council ensures compliance with the *Local Government Act 1995 (WA)* and associated Regulations and also ensures that Council is regularly informed as to the status of its financial position.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Attachment 12.3.3 Budget Review Comparison

	Current Budget	Revised Budget	Movement	Comment
PG2619-30-1277-000 Services - Playground Maintenance	0	140,000	140,000	October - Money transferred from PG2617. The playground condition audit undertaken identified Bilya Kard Boodja Lookout (BKB) as being in poor condition requiring it to be removed and replaced this financial year (2025/26). The budget allocated of \$140,000 is sufficient to undertake these works. Originally BKB was due for renewal in the 2026/27 financial year, but the wood equipment has reached the end of its asset life earlier than expected.

Council role

Overseeing Overseeing the allocation of the City's finances and resources e.g. setting the annual budget, accepting tenders, determining what services and facilities the City is to provide, annual reports, selecting the CEO and reviewing the CEO's performance.

Purpose of report

To elect, appoint and nominate delegates/representatives to various groups.

Summary and key issues

Elected Members and Officers are appointed/nominated to various groups following each Local Government Election and should note the following responsibilities:

Some of the powers and duties of Group Members are laid down by the appropriate constitution or Terms of Reference. Elected Members or Officers who are Group Members should make themselves familiar with the relevant provisions.

Further:

(a) The Duty to act bona fide in the interests of the association as a whole.

Generally, the Group Members are vested with a right and duty of deciding where the association's interests lie, and how they are to be served, so their judgement is generally not open to review provided that the Group

Members have exercised their powers in good faith and not for irrelevant purposes or arbitrarily.

(b) Duty not to act for an improper purpose.

For example, to benefit oneself or one's associate, or to act in such a way as to put a disadvantage on Members of the association whilst disadvantaging others.

(c) Duty to avoid conflicts of interest.

This is particularly important where the Group Member has in mind to enter into a contract with the association in their own right.

(d) Duty not to abuse confidential information or corporate opportunities obtained in the course of Group Membership.

It is important for Members to ensure that confidential information is not given to any person(s) or entity outside of the Group Membership or used for a purpose inconsistent with the purpose of the Group.

(e) Duty of care.

The standards expected of company directors are changing with the changing expectations of the community. Despite this, the law still recognises a distinction between the duty of care of the Chief Executive Officer and Executive Directors on one hand, and non-Executive Directors on the other.

Given the voluntary nature of service on a group, it is unlikely that a duty of care of an association Group Member would be greater than that of a non-Executive Director of a company. That duty of care is said to be a duty to take reasonable steps to place oneself in a position to guide and monitor the management of a company or association. (*Halsbury's Laws of Australia* [120-7430])

Officer Recommendation

That Council:

1. Appoints the following Elected Members and Officers to the Airport Consultative Environment and Sustainability Group
 - a) _____ (Member)
 - b) _____ (Proxy Member)
 - c) Coordinator Environment (Member)
2. Appoints the following Elected Members and Officers to the Belmont Retirement Villages Board of Management (Inc.):
 - a) Mayor Rossi (Member)
 - b) _____ (Deputy Mayor Proxy Member)
 - c) _____ (Member)
 - d) _____ (Proxy Member)
 - e) Chief Executive Officer (Member)
 - f) Director Corporate and Governance (Proxy Member)
3. Nominates the following Elected Members to the Metro Inner Development Assessment Panel for a two-year term commencing 26 January 2026:
 - a) _____ (Member)
 - b) _____ (Member)
 - c) _____ (Proxy Member)
 - d) _____ (Proxy Member)
4.
 - i) Appoints the following Elected Members to the WA Local Government Association East Metropolitan Zone:
 - a) _____ (Voting Delegate)
 - b) _____ (Voting Delegate)
 - c) _____ (Proxy Voting Delegate)
 - d) _____ (Proxy Voting Delegate)

- ii) Either, appoints the following Elected Members as additional Deputy Delegates to the WA Local Government Association East Metropolitan Zone:

- a) _____ (Proxy Voting Delegate)
- b) _____ (Proxy Voting Delegate)
- c) _____ (Proxy Voting Delegate)
- d) _____ (Proxy Voting Delegate)
- e) _____ (Proxy Voting Delegate)

or, endorses that no additional Deputy Delegates are required.

5. Appoints the following Elected Members and Officer to the Perth Airport Community Briefing Group:

- a) _____ (Member)
- b) _____ (Member)
- c) _____ (Proxy Member)
- d) _____ (Proxy Member)
- e) Chief Executive Officer (Member)

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Outcome: 11. A happy, well informed and engaged community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

There are no specific statutory requirements in respect to this matter.

Background

The appointments and nominations of Elected Members to various groups is undertaken following the Local Government Elections.

Report

Appointments and nominations to various Groups is required following the Local Government Elections. Information regarding the purpose, composition and other meeting information for each group is set out in Attachment 12.4.1.

On 5 September 2025, the Chief Executive Officer received correspondence from the Western Australian Local Government Association (WALGA) regarding a decision made by the WA Local Government Association East Metropolitan Zone at the August 2025 Meeting to allow for the appointment of an additional deputy delegate (e.g. a third deputy) to provide opportunity for there to be two voting delegates at every meeting, even in cases of unavailability.

This correspondence also advised that while each Local Government in the East Metro Zone have three (3) voting delegates, that a Local Government may appoint as many deputy delegates as they wish, bearing in mind that a Chief Executive Officer can also be appointed as a Deputy Delegate.

Council is to consider appointing additional Deputy Delegates if they wish. Provision has been made in the Officer Recommendation for Council to decide whether to appoint additional Deputy Delegates or not.

Following the dissolution of the Perth Airport Municipal Group (PAMG), a Community Briefing Group (CBG) was established by Perth Airport (refer to the CBG Terms of Reference at Attachment 12.4.2). To ensure continued engagement with Perth Airport, it is proposed that Council appoint two Elected Members and the Chief Executive Officer formally to the CBG. It should be noted that the Chief Executive Officer and the Mayor have been attending this Group on an informal basis.

For information, the membership of each Group for the period October 2024 to October 2025 is set out below:

Airport Consultative Environment and Sustainability Group

Financial implications

There are no financial implications associated with this report.

Environmental implications

There are no environmental implications associated with this report.

Social implications

These Groups provide opportunities for stakeholders to meet with City Staff and Elected Members, offering recommendations and feedback based on their experiences. This collaborative input helps guide the implementation and development of projects both within the City and among external stakeholders that affect the community.

Audit, Risk and Improvement Committee

Representative	Member	Proxy
Mayor - Ex Officio	Mayor Rossi	N/A
Central Ward Elected Member		
East Ward Elected Member		
South Ward Elected Member		
West Ward Elected Member		
Presiding Independent Member		N/A
Deputy Presiding Independent Member		N/A

Purpose of Committee

The Audit, Risk and Improvement Committee (Committee) assists Council with its' due care and diligence in financial reporting, applying accounting policies, and managing the financial affairs of the City of Belmont (City) as required by the *Local Government Act 1995 (WA)* and associated Regulations including an assessment of the City's management of risk.

The Committee is a formally appointed Committee of Council and is responsible to Council. The Committee does not have any delegated power from Council and cannot make decisions on behalf of Council, nor does the Committee have any executive authority in areas over which the Chief Executive Officer (CEO) has legislative responsibility. The Committee does not have any management functions and cannot involve itself in management processes or procedures.

The Committee reports to Council and provides advice and recommendations on matters relevant to its' terms of reference to facilitate informed decision making by Council on matters that have not been delegated to the CEO.

Meeting Information

The Committee shall have flexibility in relation to when it needs to meet, but as a minimum shall meet twice a year. It is the responsibility of the Presiding Member to call the meetings of the Committee.

Other Groups

Airport Consultative Environment and Sustainability Group

Representative	Member	Proxy
Elected Member		
Officer	Coordinator Environment	N/A

Purpose of Group

In keeping with Perth Airport Pty Ltd's (PAPL) vision and as stated within the *Perth Airport Environment Strategy* contained within the Perth Airport Master Plan 2020, the purpose of the Perth Airport Environmental Consultative Group is therefore to allow for the following:

- Meet quarterly
- Discuss topics related to environmental management of the Perth Airport Estate
- Discuss relevant updates
- Inform and discuss relevant updates on Perth Airport developments
- An opportunity for tenants to learn and work together to minimise environmental impacts of their operations, and to facilitate improved environmental outcomes.

Meeting Information

A quarterly meeting schedule will be developed at the beginning of each calendar year. All meetings will be chaired by PAPL's Head of Approvals, Environment & Heritage and will be minuted by a PAPL representative.

Belmont Retirement Villages Board of Management (Inc)

Representative	Member	Proxy
Mayor	Mayor Rossi	
Elected Member		
Officer	Chief Executive Officer	Director Corporate and Governance

Purpose of Board

An incorporated body that has the responsibility of managing the entire operations of the Faulkner Park Retirement Estate. Funds earned in excess of the village's long-term requirements are retained by Council 'for the use and benefit of the aged persons of the City'.

The Association's committee of management has two Councillors (historically the Mayor and the Presiding Member of the Community Vision Committee) and the Chief Executive Officer, plus designated community members; namely, one person representing each of the following categories: medical/aged care professional; finance sector; business sector; and prominent community identity.

Clause 8(1)(f) of the Belmont Retirement Villages Association Constitution provides the capacity for each of the City of Belmont delegates to be represented by a proxy.

Meeting Information

Meetings are held approximately four times per year on the third Thursday of the relevant month at 4:30pm. Duration approximately 1-1.5 hours.

Belmont Trust

* *Presiding Member*

** *Deputy Presiding Member*

Purpose of Trust

Through the Belmont Trust Deed, the City of Belmont holds the trust property ("the Trust Land") on trust for the purposes of public recreation and enjoyment. The City of Belmont is the sole trustee of the Trust Land.

When the City of Belmont Council meets to consider the Belmont Trust, it is meeting in its capacity as the trustee of the Trust Land, for the benefit of the beneficiaries of the Trust Land.

Meeting Information

The Belmont Trust will meet from time to time as required and at a minimum once a year to approve the Annual Budget.

Metro Inner Development Assessment Panel

Representative	Member*	Alternate Member**
Elected Member	*	**
Elected Member	*	**

* Term from 27/01/2024 to 26/01/2026

** Either Alternative Member may be called upon at the discretion of the Department of Planning.

Purpose of Panel

Development Assessment Panels (DAPs) are panels comprising a mix of technical experts and local government representatives with the power to determine applications for development approvals in place of the relevant decision-making authority.

Meeting Information

All DAP meetings will be held in public and will be conducted in accordance with the Planning and Development (Development Assessment Panels) Regulations 2011, the DAP Code of Conduct and the DAP Standing Orders published by the Department of Planning, Lands and Heritage (DPLH). The DAP Secretariat, comprising officers of DPLH organise the DAP meeting where that application will be determined.

** Proxy voting delegate at the WALGA AGM

Purpose of Zone

A designated zone (which incorporates the local governments of Belmont, Bassendean, Bayswater, Kalamunda, Mundaring and Swan) of the Local Government Association that has input into the Western Australian Local Government Association agenda. The Western Australian Local Government Association is the peak representative body for the state's local governments.

Meeting Information

Meetings are held five (5) times per year at the City of Belmont, commencing at 6:30pm. Meeting duration approximately 2 hours.

Perth Airport Community Briefing Group

Terms of Reference

1. Introduction

Perth Airport is operated by Perth Airport Pty Ltd (PAPL) as the 'airport-lessee company' for Perth Airport pursuant to the *Airports Act 1996* (the Act). The airport lease and the Act place a number of obligations on the operator regarding operation and growth of the airport.

Perth Airport's relationship with the Western Australian community is essential to the way we operate. This new group will complement current consultation and engagement forums.

2. Purpose of Terms of Reference

The purpose of these Terms of Reference is to establish a common understanding and statement of intent to work collaboratively for the following purpose:

- Achieve broad community engagement on airport planning, development and operations, and their impact,
- Provide advice regarding communication, consultation and engagement to other stakeholders including Perth Airport,
- Assist Perth Airport to fulfil its obligations as a responsible corporate citizen within the local and broader community, while recognising its role as a major economic contributor for the local region, Perth and Western Australia, and
- Enhance the long term sustainability and growth of Perth Airport.

3. Role of the Perth Airport Community Briefing Group

The role of the Group is to:

- a) provide a forum:
 - i. for the community and organisations to raise issues and express opinions regarding Perth Airport, particularly with regard to planning, development and operations including, but not limited to:
 - existing and proposed airport development and operations
 - environmental issues
 - ground transport & access issues
 - planning, regulatory & policy matters affecting the airport
 - discussion of complaint-handling procedures
 - relevant reports from Airservices Australia and the Civil Aviation Safety Authority
 - the contribution of the airport to the local, regional and national economy
 - ii. for dissemination of information regarding Perth Airport to complement measures employed by airport management and processes required to satisfy statutory obligations.
- b) identify current and emerging trends in respect of community attitudes relating to Perth Airport,
- c) stimulate the interest of the local population in the development of the airport,
- d) collect and analyse feedback from the community regarding Perth Airport,
- e) report with recommendations to airport management regarding community perceptions and concerns relating to Perth Airport,
- f) supplement public forums on specific issues such as Major Development Plans, and
- g) review and discuss any other community-related issues, and engage with the appropriate organisations or committees regarding these as needed.

4. Group Administration and Membership

The Group will be administered by PAPL and chaired by an independent chairperson. The Group's membership will comprise:

- i. Independent Chair – Nominated by PAPL.
- ii. **Perth Airport Municipalities Group Representatives** (Local Government Councillors, Senior Local Government Officers).
- iii. **Nominated Groups** (Airservices Australia, Local business groups),
- iv. **Indigenous community Representation.**
- v. **Community members** (nominated from relevant local electorates).
- vi. **Other relevant organisations** may from time to time and as appropriate, be invited to make presentations to the community via this forum.

Where organisations have nominated a person to be a member of the Group and that person is unable to attend a particular meeting, the organisation is encouraged to arrange for a substitute to attend in their place. This provision is for when infrequent and unexpected situations arise, and should only be used in those circumstances, to ensure continuity of attendance by the nominee is achieved.

The number of representatives from each of the above groups is to be limited to two people.

5. Community Contributions at a Perth Airport Community Briefing Group meeting

The community may contribute to meetings through:

- their Local Government elected members who are delegates of the Perth Airports Municipalities Group, and
- community organisations, resident groups or individuals who may attend the Group meetings and who have the capacity to contribute the views of their community and then disseminate information back to the community.

6. Meetings

Frequency and Location

The Group will meet twice a year and generally on the first Wednesday of the months of March and September. Meetings will be held at Perth Airport's main administration building at Perth Airport (Hkew Alpha building).

Meetings will be made available for members to attend online. A link will be provided with each meeting invite sent out to members.

Group Records

Perth Airport will make the agenda for meetings will be made available not less than ten days prior to the scheduled date for each meeting. A record of meeting will be kept and made available not less than 21 business days after each meeting. The agenda, the record of meeting and other relevant reports will be available via download from Perth Airport's website.

7. Roles and Obligations of the Group

Independent Chair

The independent Chair will ensure:

- adequate discussion time is devoted to issues of significance,
- unanticipated items of business can be discussed,
- open discussion and a frank exchange of views,
- input of the Group is appropriate to agenda items,
- facilitate effective engagement in discussions, and
- the provision of effective follow-up of action items.

Attachment 12.4.2 Community Briefing Group - Terms of Reference

The position of Deputy Chair will be held by the Head of Approvals, Environment & Sustainability at Perth Airport. Where both the Chair and Deputy Chair are unavailable to preside over a scheduled meeting of the Group, an interim Chair will be appointed by PAPL prior to the meeting.

PAPL and Airservices representatives who sit on the Group will make presentations regarding policy, airport development, flight paths, aircraft noise, technical issues and other relevant airport and aviation related matters, and, where directed by the Chair prior to the meeting, on specific topics of interest.

Other Group members shall:

- pro-actively identify and raise issues that are relevant to the role of the Group,
- objectively participate in discussions,
- disseminate discussions back to the community (or other groups) they represent,
- respond to questions on notice in a timely fashion,
- where appropriate, discuss Perth Airport issues outside the Group, and
- notify the Chair of any requests for information from external parties.

Observers

Representatives from the Commonwealth Department of Infrastructure, Transport, Regional Development, Communications and the Arts shall attend meetings as observers/advisors and when appropriate as Group members.

8. Media and Communications

The Chair is responsible for all media public comments on behalf of the Group.

9. Expenses

Perth Airport will meet the cost of meeting expenses (venue, catering etc).

10. Reporting

Reporting to airport management will be by:

- providing a copy of the minutes of meetings,
- correspondence from the Chair where required and appropriate, and
- briefings by the Chair where required and appropriate.

Reporting to the community and stakeholders will be by:

- publishing the minutes of each meeting on the Group website,
- presentations made during the open session of meetings, and
- public meetings where appropriate.

11. Code of Conduct

- The Chair will manage discussions as required to ensure suitable meeting etiquette is upheld by all members (e.g. one speaker at one time, courteous and respectful behaviour and language),
- All members shall be provided with equal opportunity to participate in discussion,
- Members to maintain confidentiality as required, and
- Members to communicate openly and honestly throughout the process and be concise in expressing their views.

12.5 Accounts for Payment September 2025

Voting Requirement	:	Simple Majority

Council role

Overseeing Overseeing the allocation of the City's finances and resources e.g. setting the annual budget, accepting tenders, determining what services and facilities the City is to provide, annual reports, selecting the CEO and reviewing the CEO's performance.

Purpose of report

To present to Council the list of expenditure paid for the period 01 September 2025 to 30 September 2025 under delegated authority.

Summary and key issues

A list of payments is presented to the Council each month for confirmation and endorsement in accordance with the *Local Government (Financial Management) Regulations 1996 (WA)*.

Officer Recommendation

That the Authorised Payment Listing for September 2025 as provided under Attachment 12.5.1 be received.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Outcome: 11. A happy, well informed and engaged community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)* states:

“If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared:

- (a) the payee's name;
- (b) the amount of the payment;
- (c) the date of the payment; and
- (d) sufficient information to identify the transaction.”

(3) A list prepared under sub regulation (1) is to be presented to Council at the next ordinary meeting of Council after the list is prepared; and recorded in the minutes of that meeting.

Regulation 13A of the *Local Government (Financial Management) Regulations 1996 (WA)* effective from 1 September 2023 states:

- (1) If a local government has authorised an employee to use a credit, debit or other purchasing card, a list of payments made using the card must be prepared each month showing the following for each payment made since the last such list was prepared —
 - (a) the payee's name;
 - (b) the amount of the payment;

- (c) the date of the payment;
- (d) sufficient information to identify the payment.
- (2) A list prepared under subregulation (1) must be —
 - (a) presented to the council at the next ordinary meeting of the council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

Background

Council has delegated to the Chief Executive Officer under Delegation 1.1.18 to make payment from the Municipal and Trust Fund account. In accordance with Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)*, where this power has been delegated, a list of payments each month is to be compiled and presented to Council.

Report

The following summary of payments are recommended for confirmation and endorsement.

Payment type	Payment reference	\$
Municipal Fund Cheques	788901	381.85
Municipal Fund EFTs	EF098018-EF098466	9,011,005.93
Municipal Fund Payroll	September	1,474,022.06
Trust Fund EFT	EF098099 - EF098100	13,016.94
Total Payments for September 2025		10,498,426.78

A copy of the Authorised Payment Listing is included as Attachment 12.5.1.

Financial implications

All expenditure included in the Payment Listing is in accordance with Council's Annual budget.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

12.6 Monthly Financial Report for September 2025

Voting Requirement	: Simple Majority
Subject Index	: 32/009 Financial Operating Statements
Location/Property Index	: N/A
Application Index	: N/A
Disclosure of any Interest	: Nil
Previous Items	: N/A
Applicant	: N/A
Owner	: N/A
Responsible Division	: Corporate and Governance

Council role

Overseeing Overseeing the allocation of the City's finances and resources e.g. setting the annual budget, accepting tenders, determining what services and facilities the City is to provide, annual reports, selecting the CEO and reviewing the CEO's performance.

Purpose of report

To provide Council with relevant monthly financial information for the 2025-26 financial year.

Summary and key issues

The following report includes a concise list of material variances for the month ending 30 September 2025.

Officer Recommendation

That the Monthly Financial Reports as at 30 September 2025 as included in Attachment 12.6.1 be received.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2024–2034 Strategic Community Plan:

Key Performance Area: Performance

Outcome: 10. Effective leadership, governance and financial management.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Section 6.4 of the *Local Government Act 1995 (WA)* (the Act) in conjunction with Regulations 34 (1) of the *Local Government (Financial Management) Regulations 1996 (WA)* (the Regulations) requires monthly financial reports to be presented to Council.

Regulation 34(1) requires a monthly Statement of Financial Activity reporting on revenue and expenditure.

Regulation 34(5) determines the mechanism required to ascertain the definition of material variances which are required to be reported to Council as a part of the monthly report.

Background

The Regulations prescribe that a Local Government is to prepare each month a Statement of Financial Activity.

Regulation 34(2) requires the Statement of Financial Activity to be accompanied by documents containing:

1. Explanation for each material variance identified between year to date budgets and actuals
2. Any other supporting information considered relevant by the Local Government.

Regulation 34 (5) states that "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian

Accounting Standards, to be used in statements of financial activity for reporting material variances.”

This regulation requires Council to annually set a materiality threshold for the purpose of disclosing budget variances within monthly financial reporting.

The materiality threshold has been set by Council at \$100,000 for the 2025-26 financial year.

Report

At the June 2025 Ordinary Council Meeting, Council adopted the materiality threshold for the 2025-26 financial year as \$100,000. The table below provides a summary of significant variances based on this materiality threshold. The detailed financial activity report is included at Attachment 12.6.1.

Report Section	Budget YTD	Actual YTD	Report Comments
OPERATING ACTIVITIES			
Revenue from operating activities			
Fees and charges			
Finance	6,375	141,065	Credit card surcharge fee income for rates payments made by Amex higher than anticipated.
Interest earnings			
Finance	1,497,303	3,256,434	Interest accrual entry yet to be processed for the new financial year pending year end finalisation.
Expenditure from operating activities			
Employee costs			
People & Culture	(479,647)	(357,754)	Salaries are below budget due to vacancies which are currently being recruited.
Parks, Leisure & Environment	(1,202,358)	(1,011,537)	
Planning Services	(637,403)	(534,440)	
Materials and contracts			

Report Section	Budget YTD	Actual YTD	Report Comments
Information Technology	(1,108,697)	(1,484,937)	Invoiced for key licensing earlier than expected
Works	(2,248,111)	(1,034,637)	Waste invoices for August approved for payment, September to be received.
Parks, Leisure & Environment	(2,312,495)	(1,002,769)	This reflects delays in seasonal projects due to weather conditions, however, the projects have now commenced.
Safer Communities	(702,371)	(812,687)	Overspend due to monthly Belmont Community Watch service costs being paid early
Economic & Community Development	(780,878)	(376,894)	Expenditure associated with several City-funded programs and grants, including service providers and business support initiatives, has not yet been incurred.
Library, Culture & Place	(847,064)	(583,206)	Various projects in progress with some timing variances.
Insurance Expenses			
Governance, Strategy & Risk	(105,314)	582,737	Workers' compensation, Property and Public Liability insurance to be paid over 2 instalments. Insurance recovery processed prior to invoice causing imbalance between budget YTD and Actual YTD.
INVESTING ACTIVITIES			
Inflows from investing activities			
Non-Operating grants, subsidies and contributions			

Report Section	Budget YTD	Actual YTD	Report Comments
Works	289,631	Nil	First claims for 40% road grant funding to be received.
Proceeds from disposal of assets			
Design, Assets & Development	Nil	140,627	Proceeds from the disposal of vehicles received prior to the allocated budget timeline.
Outflows from investing activities			
Payments for property, plant and equipment			
City Facilities & Property	(825,000)	(71,695)	Amendments made to schedule for October Budget review.
Payments for construction of infrastructure			
City Projects	(3,542,500)	(915,665)	Awaiting Contractor invoices for Wilson Park Zone 2.
Parks, Leisure & Environment	(1,468,943)	(423,975)	Reflects the delays to programs as a result of weather conditions.

Financial implications

The presentation of these reports to Council ensures compliance with the Act and associated Regulations and also ensures that Council is regularly informed as to the status of its financial position.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

CITY OF BELMONT
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 SEPTEMBER 2025

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 30 September 2025

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Estimated useful life of intangible assets
- Measurement of employee benefits
- Estimation uncertainties and judgements made in relation to lease accounting

Total non-cash amounts excluded from operating activities	18,328,286	3,154,864	2,930,848

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

CITY OF BELMONT
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 SEPTEMBER 2025

3 EXPLANATION OF MATERIAL VARIANCES

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date actual materially.

The material variance adopted by Council for the 2025-26 year is \$100,000 and 0.00% whichever is the greater.

Description	Var. \$	Var. %	
	\$	%	
Revenue from operating activities			
Fees and charges			
Finance - Credit card surcharge fee income for rates payments made by Amex higher than anticipated. - \$134,690	(148,245)	1.70%	▲
		Timing	
Interest revenue			
Finance - Interest accrual entry yet to be processed for the new financial year pending year end finalisation. - \$1,759,131	(1,770,859)	118.27%	▲
		Timing	
Expenditure from operating activities			
Employee costs			
Salaries are below budget due to vacancies which are currently being recruited by the City	562,719	6.48%	▲
		Permanent	
Materials and contracts			
Works - Waste invoices for August approved for payment, September to be received. - \$1,213,474	2,700,355	28.04%	▲
		Timing	
Parks, This reflects delays in seasonal projects due to weather conditions, however, the projects have now commenced. - \$1,309,726		Timing	
Information Technology -Invoiced for key licensing earlier than expected - (\$376,240)		Timing	
Economic & Community Development - Expenditure associated with several different programmes and grants have not yet been incurred- \$403,985		Timing	
Library, Culture & Place - Projects in progress with some timing variances - \$263,858		Timing	
Insurance			
Governance, Strategy & Risk - Workers compensation,Property and Public Liability insurance to be paid over two instalments. - \$688,051	689,398	71.13%	▲
		Timing

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the City's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.
