1. General Information about Online Lodgement

Planning and Building applications can be lodged online through the City's website. Please familiarise yourself with the below information prior to lodging an application.

Required Planning and Building Application Information: Prior to lodgement of an application online, applicants should ensure that they have downloaded the latest application forms, checklists and fee information from the City's website ([Information, fees and forms | City of Belmont](#)). This will help to ensure that all required information is provided upon lodgement.

User Registration: Applicants can register with the City to create a user account. Registering as a user allows you to view of list of applications that you have lodged, check fees before lodgement and view incomplete/unlodged applications. Your user details will also be populated when lodging an application.

Please note registration requests are processed Monday to Friday (excluding public holidays) from 8:30am to 4:45pm.

Guest Access: Guest access is also available to applicants that do not wish to register as a user.

Application Fees: Application fees must be paid on lodgement by credit card. Please note the Credit Card Merchant Service Fee will only be charged for credit card transactions of \$100,000 or above.

Building and Construction Industry Training Fund (BCITF) Levy for Building Applications: The BCITF Levy applies to all residential, commercial and civil engineering projects undertaken in Western Australia where the total value of construction is estimated to be more than \$20,000.

To avoid payment double-ups, the BCITF Levy should be paid directly via the BCITF Portal:

<https://portal.bcitf.org/specialpages/logon-page.aspx?returnurl=/specialpages/user/mydashaccount.aspx>

A copy of the payment receipt should then be uploaded when submitting your building application.

Invalid Applications: The following applications will not be accepted at this point in time and will need to be lodged in person, by post or email:

- Development applications to be determined by a Development Assessment Panel (DAP). Applicants should discuss the lodgement of a DAP Application with a Planning Officer. Should development applications with an estimated cost of development between \$2 million or more and less than \$10 million be lodged using this system it will be assumed that the applicant is nominating the City of Belmont to determine the application. For further

information on DAPs please refer to the City's website: belmont.wa.gov.au

- Extractive Industry development (planning) applications.

Accepted File Types: Applications plans must be submitted in PDF, be to scale and should not include any security/password protection. PDFs should be optimised for minimum file size (the larger the file size the longer it may take to upload your files).

For supporting documents, the City can also accept:

Extension	File Name	Use
DOC / DOCX	Word Document	This file type should only be used for supporting documents (traffic reports, justification etc). Application plans should not be lodged in this format.

Files Sizes: The maximum size of all uploaded attachments should not exceed 100MB. If the total file size of all attachments exceeds 100MB, please contact the City’s Building or Planning Departments or to arrange an alternative option prior to lodgement of the application.

File Naming Convention: Please ensure that file names are clear and include reference of the property address of the proposed development. For example:

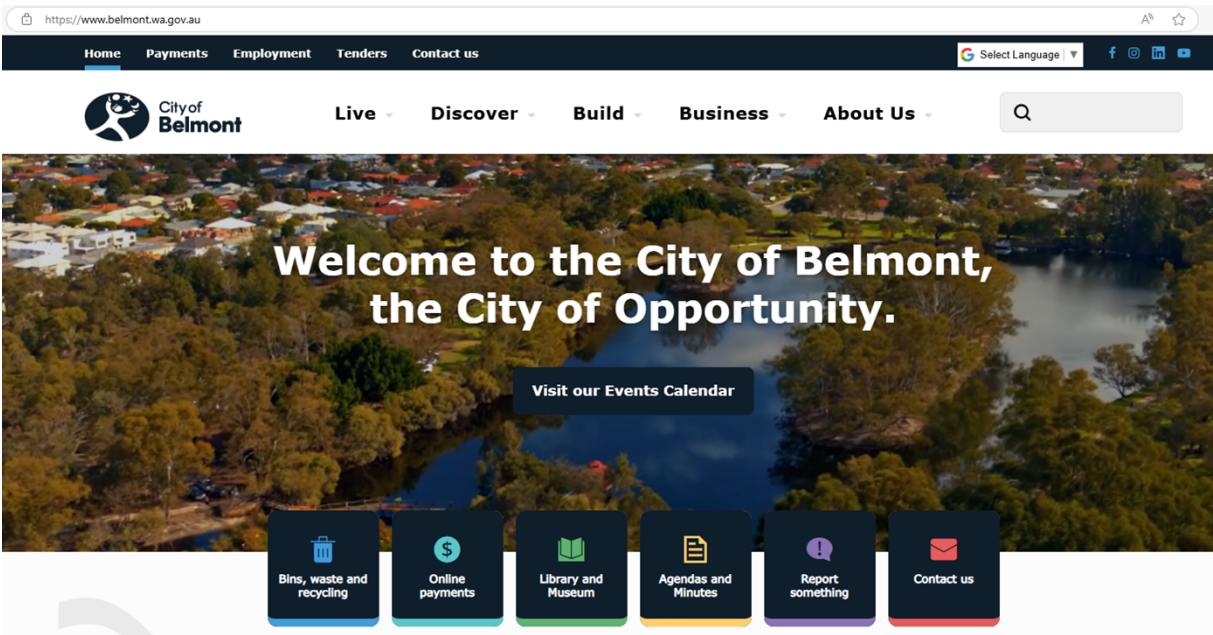

- 215 Wright St – Site Plan
- 215 Wright St – Elevations

This will assist the City with the storage of your documents in its document management system.

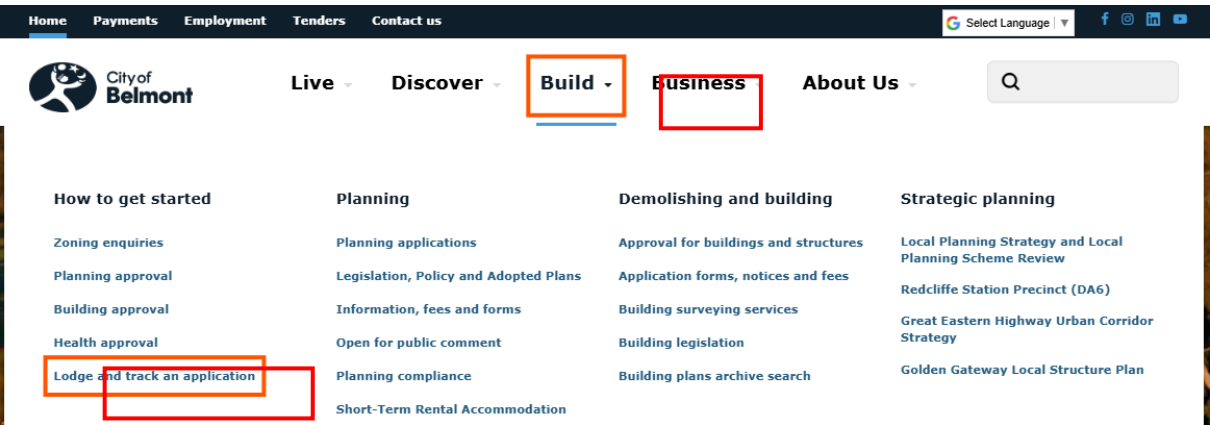

Time Out: The online system will time out, after 20 minutes of non-activity. For registered users, any application commenced but not lodged will be saved and can be edited once the user has logged back into the system. Refer to Part 7 for further information.

2. Access Applications Online via the City’s Web Site

2.1 Go to the City of Belmont web site: belmont.wa.gov.au.

2.2 Go to the **Build Menu** – Click **Lodge** and track an application

2.3 You can do several things from this screen, see the highlights below.

To help us to do this, please complete the following details and submit your request. Upon verification of your details, you will be presented with the password screen to allow the entry of a new password. Thankyou.' Below this text is a dark blue header with the text 'Details to be verified.' and a blue question mark icon. The form contains four input fields: 'Surname *' (with the value 'Tester'), 'Given Names' (with the value 'Joe'), 'Email Address *' (with the value 'test@test.com.au'), and 'User Name *' (with the value 'Tester'). A red 'Next' button is located at the bottom right of the form.

Note: if your user account registration is for a company, you will need to add the Company name to the Surname field and leave the Given Name field blank – see below example.

The screenshot shows the 'Details to be verified' page for a company registration. At the top, there is a dark blue header with the text 'Details to be verified.' and a blue question mark icon.
