

Profile (as it will appear in the election materials)

POWELL, Janet

POWELL, Janet is eligible to stand for election as a resident of the City of Belmont.

As a dedicated community leader with 20 years experience in local government -- community service & fiscal responsibility is my priority. I'm committed to protecting city finances, being accessible & accountable to you. I value ethics, integrity, and collaborative problem-solving when making thoughtful decisions for our shared future.

My vision for Belmont is to keep getting better & stronger, to be a really good place to live, work and bring up our families; we can already see the green shoots of change. I have the necessary knowledge & understanding of local government operations & policies to keep downward pressure on rates while maintaining good services.

There are some important issues coming down the pipeline that will **impact the way we live**, including net zero obligations and federal native title council funding being axed. Contact me with your concerns. I've helped hundreds of residents navigate tricky problems and can steer you in the right direction.
