## Priority One

The staging of these local road upgrades is likely to be influenced by:

- a) The opening of the Redcliffe Train Station and by traffic generation associated with commercial and retail development within the Perth Airport Estate;
- b) The desire to limit through traffic and maintain safety for vehicles using Kanowna Avenue to access the Redcliffe Primary School.

## Priority Three

The staging of these local road upgrades is likely to be influenced by the opening of the Redcliffe Train Station and by commuters seeking to access and egress the station precinct via the Great Eastern Highway intersections with Boulder Avenue and Coolgardie Avenue.

## Priority Five

The staging of these local road upgrades is likely to be influenced by proposed redevelopment of private land abutting these roads.

## Priority Two

The staging of these local road upgrades is likely to be influenced by:

- a) The reappropriation of the Brearley Avenue reservation, the creation of the open space corridor and the realignment of the Southern Main Drain;
- b) The opening of the Redcliffe Train Station and by traffic generation associated with commercial and retail development within the Perth Airport Estate;

## Priority Four

The staging of these local road upgrades is likely to be influenced by the extent of development abutting these roads and the further analysis required to support opening of these roads to Great Eastern Highway following the relocation of Qantas from the T3/T4 terminal and/or the upgrade of Great Eastern Highway.
