

## Profile (as it will appear in the election materials)

### SMITH, Damien

SMITH, Damien is eligible to stand for election as a resident of the City of Belmont.

I am a proud Dad of two daughters, my wife and I living in Belmont for 17 years. I'm a business owner and active in the community. I regularly volunteer in leadership roles, have a track record of successful petitions and interest in Local Government.

I've nominated for East Ward Councillor because I want real change. Local roads in Redcliffe are no longer 'local' and safety must be addressed. We have been promised Belvidere St. precinct upgrades for years and nothing has changed. I will push for real progress.

Prudent decisions bring low rates, allow programmes for our kids to flourish, genuinely reduce crime and deliver positive change for residents.

DA6 residents deserve the best deal without waiting in limbo on re-zoning. The stables need economic sustainability.

Your Council must be revitalised, with fresh leadership and more focus on the issues that matter to us.

I will provide leadership with integrity, free from the influence of developers, driving meaningful change for all.
